The Bulletin.

Norwich, Thursday, September 7, 1893

The Norwich Weekly Courier is the best weekly newspaper in New England at 50c a year.

IMPORTANT TO MANUFACTURERS

It is natural that the democratic representatives to congress from this state should feel anxious about the proposed revision of the tariff, and unite in asking the press of the state to make as conspicuous as possible the fact "that for the next fourteen days the ways and means committee will daily grant hearings to interested parties in regard to tariff changes," and requesting persons desirous of being heard to address their communications and inquiries to the clerk of this committee.

Every manufacturer in Eastern Connecticut is interested in the matter and should not by default allow his interests to suffer. These "tariff tinkering quacks" want the patients to tell them what the matter is with "their medicine," and they ought to be so flooded with information that their business destroying bents may be made manifest to them, as it is to most of the intelligent citizens of manufacturing sections in all parts of the country.

The industrial products of this country amount to seven and a half billions a year to say nothing of the agricultural products, and the ways and means committee propose to hear all about the opinions of the great army of manufacturers in less time than is usually consumed by an ordinary court trial.

The situation is grave enough to alarm even the democrats of this state, and in their effort to stay these proceedings our representatives should be strongly aided by the manufacturers.

The ways and means committee should never have an opportunity to say there were few protests and they did not realize what the effect of their work would be upon the diversified manufacturing interests of New England.

THE WORDS OF A PATRIOT.

The old soldiers are gathered at Indianapolis and among them there is not a more distinguished and popular veteran than Benjamin Harrison, ex-President of the United States; and no man in the nation can speak more to the delight and acceptance of the "soldier boys" than he. In his address of welcome to them on Monday Mr. Harrison said: "No Indiana soldier need be ashamed to open to the world, in friendly competition, the record of Indiana's part in the great rebellion. But the beauty of it all was that these regiments from Indiana and [illegible] from Ohio and New York were all one. They were all soldiers of the United States. The cause was one, the glory is one; and, visiting comrades from other states, we are not here to exalt ourselves, but to take your hands as comrades and share with you the glory of the greatest result that was ever achieved by war in human history.

"My comrades, these tents about us are pitched many days' march nearer home than those in which you dwelt here in 1861. They will stand but for a day and vanish. You will go to your own homes, to the shelter of those roof trees, and to the companionship of those families from which you separated yourselves in time of war, and to which you returned with an increased love and consecration.

"You will go back to pick up the duties of your citizenship with a higher sense of these duties, of the glories and sweetness of this flag, than you had before you came here to mingle with these comrades, to listen to these stirring songs and to stir each other by the remembrances of those bloody days."

AN EXTRAORDINARY QUEST.

The expedition to the heart of Africa and the investigations of Garner, who believes that the anthropoid races have well-developed languages are something new to science, and elicit the interest of the whole scientific world. Sitting there on the banks of the Jimbogombi river, near Sta. Anna, in an iron cage with a loaded rifle by his side, as the groups of gorillas pass by, if possible to get their confidence, and to catch the sounds for study and translation, he presents a picture of daring and patience to the human race; but no gorilla has yet telegraphed how he looks to the anthropoid apes. It does not strike us that his attitude is one to beget a great deal of confidence in the race he wishes to study. If they are as knowing and powerful as they are reputed to be, he must look to them like a convict for whose imprisonment they cannot account. They must be fairly familiar with men and guns, and the result to gorillas of such a combination. He writes that they do not come up and shake hands with him as if they were glad to see him, but upon his making the slightest movement they rush for the jungle and disappear. Mr. Garner has heard no word expressed by them but a suppressed "Umph!" and he has translated none of their gibberish into English yet. They may have translated some of his actions by the ape pantomime, and if they come to wrong conclusions he may become an object for sympathy and get translated before his time. As an exhibition the gorillas, their wives and children must be enjoying the sight of Mr. Garner very much, for in his cage he must look like a circus curiosity.

THE OHIO CHALLENGE.

The political campaign in Ohio is fairly and squarely upon a protective tariff issue. The republican candidate for governor, McKinley, is the greatest representative of protection tariff in the United States, and his opponent the Hon. Larry Neal, is the author of the free trade plank of the democratic platform which says "Protection is a fraud!"

This declaration with a big interrogation point after it is the challenge which the republican leaders put to every intelligent republican voter in the state: "Is protection a fraud?" This inquiry and the personality of the nominees makes this the great pivotal issue of the campaign.

"Let every citizen in Ohio," says The American Economist, "who has a vote to poll in the coming election single out just one protected industry in his immediate vicinity and ask himself what that particular industry will have to do in order to continue its work when free trade takes the place of protection. First, it will have to divide the home market with the foreign manufacturer, and, even where prices are not affected, there will, nevertheless, be a necessary curtailment of production, which will mean the employment of fewer workmen and the liberation of less money in the community as wages. Second, where prices are affected, it will have to pay less for its raw material to the producer, in many instances home people; less in wages to its laborers, injury to whom means injury to many activities in a community; and lower rates of interest to stockholders, because of the smaller profits which come with lower prices. There is one of two things the voter may do. By casting his ballot for the candidate of free trade he will precipitate these evils. By casting his ballot for the candidate of protection he will help to check them."

EDITORIAL COMMENT

Emin Pasha may have lost his head, but he couldn't lose Stanley.

The great party that believes in free whiskey and taxed sugar seems bent upon doing its worst.

The democrat who still argues that the tariff is a tax upon the consumer should take notice that the delegates from Bermuda say the shippers paid the tax on Bermuda products!

Commissioner Lockren was wrong again when he charged Congressman Morse of Massachusetts with misusing a franked envelope. The post office department decides that Congressman Morse violated no privilege. Gen. Lochren owes an apology to the gentleman from Massachusetts for his bad manners.

The New York Tribune thinks the president will have "a remarkably difficult task if he should undertake to inaugurate a new banking system, in which he would need the assistance of all the bankers in the country. He at least is aware, beyond doubt, that the democratic party has not demanded and does not want a state bank system, which shall be controlled and supervised by the National government at Washington."

The Norwich Weekly Courier is the best weekly newspaper in New England at 50c a year.

NEW BOOKS RECEIVED.

The following cheap issues of Lupton's "The People's Hand Book Series," have been received:

"The Handy Cyclopedia of Every-day Wants," for the house, farm and workshop.

"The Practical Horse and Cattle Doctor." Illustrated.

"The Ladies' Model Fancy Work Manual." Illustrated.

"The National Handy Dictionary of the English Language."

"The Family Doctor Book."

"Mrs. Partington's Grab Bag." Illustrated.

"Famous Dramatic Recitations."

"The Modern Hoyle."

"The Practical Poultry Keeper."

"The National Handy Dictionary of the English Language."

"The American Family Cook Book," a large collection of valuable recipes.

Following are the numbers of The Arm Chair Library Series, each containing a complete novel:

"Flower and Weed," by Miss M. E. Braddon.

"No Thoroughfare," by Charles Dickens and Wilkie Collins.

"Grandfather's Chair," by Nathaniel Hawthorne.

"The Great Hoggarty Diamond," by W. M. Thackery.

"Rock Ruin; or The Daughter of the Island," by Mrs Ann S. Stevens.

"Lord Lisle's Daughter," by Charlotte M. Braeme.

"Beaton's Bargain," by Mrs. Alexander.

"Jennie Harlowe," by W. Clarke Russell.

"The Armour of Tyre," by Sylvanus Cobb, Jr.

"A Study in Scarlet," by A. Conan Doyle.

For sale by Noyes & Davis.

[illegible] OF THE PRESS.

Circumstantial Evidence.

The democratic governor of New York says: "Let the tariff alone." This is the strongest hint he has given that he wants another term.—[Detroit Journal.

No Hope!

God helps them who help themselves. Or, in other words, if the American people want financial succor they must seek it without a hope in this congress.—[New Haven Union (Dem.)

Commendable Silence.

The refusal of Vice President Stevenson to talk on the silver question is to be commended. There are too many men talking on that subject who don't know anything about it.—[Kansas City Journal.

Contrasted Policies

The policy of the democratic party is to create what ex-Secretary Whitney calls "lower classes." The policy of the republican party is to eliminate the term "classes" altogether from the American vocabulary.—[New York Press.

If She Dances.

But Neal is not beaten yet. No man can say that he may not be elected. If he is elected, the Star-eyed one will be a dance hall beauty sure enough, and she will dance and dance, even upon the coffin of that villianous set and roue, "Old High Tariff." Mind that, mister!—[Louisville Courier-Journal.

The Reed Rules.

The Providence Journal considers it curious that the only man left in the house to defend the famous Reed rules is Thomas B. Reed himself. But as the democrats seem inclined to adopt a pretty good share of the Reed rules, and would adopt them bodily if they were not afraid of inconsistency, the Reed rules are not suffering for want of defense.—[Springfield Republican.

Too Pernicious to Be Born.

One measure about to be introduced into both houses of congress, we understand, ought to be killed before it is born. That is a measure proposing pensions for government employes after twenty years of service. This government cannot afford to go into the wholesale pension business. A man who braves death to preserve the country's honor is one thing; a man who draws a salary ranging from $1,000 to $5,000 a year and then asks for a pension for life is another. Unless we are greatly mistaken the sense of the people is against all such paternalism. It is a pernicious, evil, baneful mischievous proposal.—[Ansonia Sentinel.

Song Like the Old Lady.

Queen Victoria is rated at $30,000,000, exclusive of landed interests. This showing demonstrates the value of economy and the wisdom of sticking to a good job.—[San Francisco Examiner.

The Norwich Weekly Courier is the best weekly newspaper in New England at 50c a year.

I love it, I love it, and who shall dare
To chide me for loving my SOZODONT there?
I've used it, and blessed it, a thousand times,
Till my breath is as sweet as poets' rhymes,
Till my teeth are as white as diamonds rare.
Oh! a precious thing is my SOZODONT fair!

Every woman who suffers from Sick Headache, and who dislikes to take bitter doses, should try Carter's Little Liver Pills. They are the easiest of all medicines to take. A positive cure for the above distressing complaint; prevent and cure Constipation and Piles. As easy to take as sugar. Only one pill a dose. Price 25 cents. If you try them you will not be without them.

Piles! Piles! Itching Piles!

SYMPTOMS—Moisture; intense itching and stinging; most at night; worse by scratching. If allowed to continue tumors form, which often bleed and ulcerate, becoming very sore. SWAYNE'S OINTMENT stops the itching and bleeding, heals ulceration, and in most cases removes the tumors. At druggists, or by mail, for 50 cents. Dr. Swayne & Son, Philadelphia.

A woman who is weak, nervous and sleepless, and who has cold hands and feet, cannot feel and act like a well person. Carter's Iron Pills equalize the circulation, remove nervousness, and give strength and rest.

"How to Cure All Skin Diseases."

Simply apply SWAYNE'S OINTMENT. No internal medicine required. Cures tetter, eczema, itch, all eruptions on the face, hands, nose, &c., leaving the skin clear, white and healthy. Its great healing and curative powers are possessed by no other remedy. Ask your druggist for SWAYNE'S OINTMENT.

To be free from sick headache, biliousness, constipation, etc., use Carter's Little Liver Pills. Strictly vegetable. They gently stimulate the liver and free the stomach from bile.

MUSICAL INSTRUMENT.

TALKING

About PIANOS just now is my theme. Do you want a Piano? Then come and hear one of the purest and finest toned Pianos in the market. Price Low. Also Organs, and a stock of fine Violins, including Geo. Miller Violins on hand. A fine New Upright Piano to rent. Will be glad to see you at 6 Williams Street.

FINANCIAL POINTS

Being Carefully Considered by Our Law Makers.

NO CONFERENCE HAS BEEN HELD.

Southern and Western Congressmen Favor Repeal of State Bank Tax.

WASHINGTON, Sept. 6.—The conference on monetary affairs which it has been circulated extensively called at the instance of the president at the treasury department, and which has considerably agitated financial circles in different sections of the country, is news to the president. He said today that he knew nothing about such a conference. Secretary Carlisle says that nearly every day senators and representatives drop in to see him on various matters, and before they leave frequently talk over the financial situation. The meeting alleged to have occurred last week he says must have grown out of these general talks, but that the president knew anything about it was entirely without foundation.

He added: "If it had been a conference, he would have invited some of the members of the senate finance committee and the chairman of the ways and means and banking and currency committees. Speaker Crisp was at the treasury not by appointment, but in connection with matters entirely outside of the financial question.

Secretary Carlisle, now that the subject has been brought to public attention, thinks that it would be well enough to take up this question of giving more banking facilities, and has said so publicly on frequent occasions. He is

Not Committed to Any Policy,

but believes that if the 10 per cent state taxes could be repealed, and a general system of banking organized on which the states which are not in condition to comply with the requirements of the national system could be provided for, it would be advantageous. One of the principal arguments used by the senators and representatives of the south and west against the repeal of the purchasing clause of the Sherman act is that it would contract the circulation by the stoppage of the purchase of silver and the issue of treasury notes thereupon. If the senators and representatives who are antagonizing this proposition were assured that some sort of legislation would immediately follow the repeal by enlarging the banking facilities throughout the country, they would not be so strenuous in their opposition to the proposed legislation.

The scheme which has been suggested to repeal the 10 per cent tax and reorganize the banking system under national supervision will be strongly antagonized by a very large number of Democrats in the eastern and middle states who do not believe that a system of this character could be made practicable. There are many states, like Massachusetts, New York, Pennsylvania, New Jersey and Ohio, the securities of which, municipal and state, would be perfectly secure for banking purposes; but a large number of states, especially in the west, south and southwest, whose bonds, state and municipal, would not be a guarantee for a responsible state banking system. Many of the friends of the administration know this, and hence do not believe that a reorganization of the existing banking system on the basis of state guarantee would be effective.

Concurrent Action In Congress.

It is stated that the president, as well as Secretary Carlisle, is in favor of the repeal of the 10 per cent tax on state banks. This is assumed from the fact that it was one of the planks in the Chicago platform. A large majority of the senators and representatives from the regions interested will support such a bill, but other Democrats, including Chairman Sprague of the banking and currency committee and several of his colleagues, will antagonize that proposition. Senator Voorhees, chairman of the senate finance committee, and all the Democrats of that committee except Senator McPherson, are strong in favor of this repeal. It is understood that when ever that question comes up in the senate finance committee it will be reported favorably, Senator Voorhees giving the casting vote.

How Senator Voorhees and the administration senators will vote on the proposed amendment of Senator Butler to the silver repeal bill, which provides for a repeal of the 10 per cent tax on state banks, is still uncertain. While they favor the Butler amendment, they do not favor complicating silver repeal with any other legislation. They therefore may be compelled to vote against it, as they will against all amendments which may be offered to that measure. Senator Voorhees said today that no financial legislation will be proposed or considered until the repeal of the silver purchasing clause of the Sherman act has been disposed of. Secretary Carlisle also stated today that he approved of Senator Voorhees position in this matter. The objective point of the present efforts of the administration is to pass the silver repeal bill. After that the other necessary financial legislation can be brought forward, discussed and disposed of.

Russia's Terrible Dead List.

ST. PETERSBURG, Sept. 6.—The following returns from the cholera-infected districts for the week ending Aug. 26, have just been received: Province of Podolia, 811 cases and 249 deaths; Orel, 880 cases 345 deaths; Kieff, 749 cases, 294 deaths; Minsk, 332 cases, 161 deaths; Poltava, 353 cases, 137 deaths; Charkoff, 182 cases, 67 deaths; Grodno, 157 cases, 60 deaths; Kalisch, 116 cases, 61 deaths.

Legacy For Tufts College.

SALEM, Mass., Sept. 6.—By the will of the late Willard Goldthwaite, which was filed for probate today, Tufts College will benefit from the income of $25,000, which is left to the establishment of a professorship of rhetoric. After several other bequests the residue of the property is to go to a fund to be devoted to enabling needy students to secure an education at Tufts College.

Charged With Abduction.

TAUNTON, Mass., Sept. 6.—John Lawrence of Fall River was arrested here this morning charged with the abduction of Annie Mares of that city. The girl is but 15 years old, and both were found in a house on Wilbur street. Both are willing to be married, but the chances are the case will get into the courts.

Officer Killed at His Post.

NEW YORK, Sept. 6.—Patrolman Thomas Gleason of the Broadway squad was killed at his post, Broadway and Tenth street, last evening. He was run down by a cab driven by one White. The hoofs of the horse crushed Gleason's skull and the wheels of the vehicle passed over his neck. White was arrested.

Fall River Mills Start Monday.

FALL RIVER, Mass., Sept. 6.—The spinners and manufacturers' committees have agreed to a standard schedule, making a reduction of 10 per cent. The manufacturers have issued a statement that the mills are to start on Monday.

BANKERS MISSING.

Two New York Men Disappear—Offices Besieged by the Depositors.

NEW YORK, Sept. 6.—The banking offices of Bernard Weinberger are still besieged. Manager Herschdarfer has not returned, and no knowledge of his whereabouts can be obtained.

The excitement prevalent is much increased by the suspension of Unger Bros., exchange brokers, of 202 Delancy street. The senior member of the firm, Samuel Unger, has disappeared as completely as Weinberger, and it has been ascertained that they left at the same time and together.

Mills Starting Up.

DOVER, N. H., Sept. 6.—The Goule woolen mills at West Rochester will start up next Monday after a four weeks' shut down. They will run full time on the old schedule of wages. The Cocheco Manufacturing company here resumed business this morning on a cutdown of from 10 to 15 per cent in wages. The Sawyer woolen mills here started up this morning and will run three days a week.

Got a Light Sentence.

PROVIDENCE, Sept. 6.—John Kennedy, a professional pocketbook snatcher, got a light sentence in the lower criminal court today, where he was given 60 days for robbing Frank Skelly, who was buying a ticket to Boston. There was $25 in Skelly's purse when he opened it to pay the ticket seller, and Kennedy slipped up behind him and grabbed the money and ran.

Juryman Solicited a Bribe.

CHICAGO, Sept. 6.—The investigation committee appointed to hear the evidence in the case of F. D. Higbee, a member of the World's fair jury of awards, charged with soliciting a bribe, found him guilty and indorsed his dismissal. He is alleged to have promised a first medal to the Carey Safe company of Buffalo for $2100.

Germans Playing at War.

METZ, Sept. 6.—The feature of the maneuvers yesterday was the storming and capture of Colligny by the western corps. The fighting was very severe. Emperor William, with the Prince of Naples, witnessed the engagement from a height to the westward.

SELECTMEN PUZZLED.

To Build or Not to Build a Bridge Is the Question Before Them.

NORTH ATTLEBORO, Mass., Sept. 6.—At a recent town meeting it was voted to build a stone bridge over Ten Mile river at Mechanics. The selectmen advertised for bids when the agent of the Mechanics' mills, located at that point, appeared and threatened an injunction if such a bridge or any other that would lessen the water way were built.

The selectmen, between the vote of the town on one side and the threatened suit on the other, are at a loss what to do and have issued a circular explaining their position. It is probable that a special town will be necessary to settle the matter.

Ten Persons Narrowly Escaped.

GREENFIELD, Mass., Sept. 6.—A house, two barns and outbuildings, with stock, owned by Timothy J. Long, a selectman of Deerfield, situated on Patter Plain, Deerfield, were burned at 6 o'clock this morning. Cause, incendiary. The 10 persons who were in the house at the time narrowly escaped with their lives. One old lady, 80 years of age, had to be carried from the burning building. Loss, $6000; insurance, $1600.

To Float Schooner Harvey.

VINEYARD HAVEN, Mass., Sept. 6.—Agent Hooper arrived here from Providence yesterday, and contracted with the Boston Towboat company to float the schooner Harvard H. Havey, ashore on Dogfish bar, Gay Head, and deliver her at Providence, for $1000. Steam tug Elsie, with a wrecking lighter, left here for the schooner this forenoon.

Unlucky Thirteen.

TERRA HAUTE, Ind., Sept. 6.—An explosion of gas occurred in one of the mines at Shelburn, 14 miles south of this city, yesterday, in which 13 men were injured. Several of them are in a precarious condition from burns and bruises and may not recover. The other miners are not dangerously injured.

Held Up and Robbed.

NORTH ATTLEBORO, Mass., Sept. 6.—P. J. Casey reports to the police that he was held up on Washington street Saturday night by two men, who took what money he had. It is said that other cases of the kind have been reported to the police, but have been kept quiet in the hope of making some arrests.

Surveying the Cape Cod Canal.

SANDWICH, Mass., Sept. 6.—The Old Colony and Interior Canal company began preliminary work on the canal across Cape Cod from Buzzard's Bay to Barnstable bay, through the towns of Sandwich and Bourne yesterday. The work of survey begins on the Buzzard's Bay end of the route.

Shoe Dealer Assigns.

BOSTON, Sept. 6.—John Boggs, boot and shoe dealer, Marlboro, has made an assignment for the benefit of his creditors to Charles W. Lovers of Boston. The liabilities are about $6000, and the assets in excess of this amount.

Bottle Works Destroyed.

AMESBURY, Mass., Sept. 6.—The bottling establishment of George Phillips on Water street was destroyed by fire this morning. Loss, $6000; insurance, $3500.

THE PHYSICIAN.

Only American surgeons have succeeded in treating cases of appendicitis.

Limewater is a safe remedy for the acidity that creates what is known in the old fashioned phrase as "sick stomach."

In cases of death where there seems to be extreme suffering, with writhings and spasms, such phenomena are generally due to reflex muscular action.

An easily applied remedy for chafing is subnitrate of bismuth mixed with glycerin in the proportion of about half a teaspoonful of bismuth to one of glycerin.

For a mosquito bite or for any sting of insect there is nothing better than the old fashioned remedy of our mothers, soda mixed with vinegar until it foams well.

Well Meant, but Ineffectual.

"I beg your pardon, but have you a gazetteer of Illinois that I can look at for a moment?" asked a gentlemanly personage in black, putting his head inside the office door of a merchant on Madison street yesterday morning.

"I am sorry to say I haven't, sir," replied the merchant.

"In that case," rejoined the other, coming inside and whipping a book out from under his coat, "perhaps you would like to examine the latest and best work of that description, just out and filled from cover to cover with exhaustive information concerning the great state in which we live, together with the name, locality, population [illegible] statistical data pertaining to every city, [illegible] and village, accurately compiled from [illegible] test census returns and brought do[wn] to the present year, in addition to w[illegible]"

At this point he was gently but firmly kicked out.—Chicago Tribune.

FOR THE GOLD CUP.

Britannia and Navahoe Are Bravely Struggling.

BOATS GOT A VERY EVEN START.

Prince of Wales Yacht Soon Took the Lead and Held the Advantage.

RYDE, Eng., Sept. 6.—The first of the series of regattas of the Royal Victoria Yacht club for the international gold cup took place here today. The event has been looked forward to with a good deal of interest for some time and today quite a crowd witnessed the start from off the Warner lightship.

The conditions of the race are arbitrary. The cup, which is valued at £200, is and will continue to be for all time the property of the Royal Victoria Yacht club, the sailing committee of which club shall at any time while actually holding the cup, and prior to receiving a challenge, have the power to alter or vary the conditions; but any other club which may win and hold the cup shall only alter or vary the conditions with the sanction and approval of the sailing committee of the Royal Victoria Yacht club.

Any royal or recognized foreign or colonial yacht club shall always be entitled, through one or more of its members, to challenge for the cup with a

Yacht Propelled by Sails Only,

and constructed in the country to which the challenging club belongs, and such yacht must sail on her own bottom from her own country where matches will be sailed.

The cup, if won by a yacht not registered in the British Isles, to be held by any royal or recognized yacht club to which the owner of the winning yacht belongs at his own option. If won by a British yacht registered in British isles to be held by the Royal Victoria Yacht club in the name of the winning yacht, at his risk on giving security.

Should a club holding the cup be from any cause dissolved, the cup shall be transferred to some of the other royal or recognized yacht clubs of the same nationality which the owner of the winning yacht may select. Failing in this the cup shall be immediately returned to the Royal Victoria Yacht club.

In order to prevent a drifting match, as in the case of the America when she won the Royal Yacht Squadron cup in 1851,

There Has Been Added a Condition

that "any match, the average rate of which is under five knots per hour, is to be resailed."

The starters in today's race, were the Prince of Wales' yacht, the Britannia, and Royal Phelps Carroll's yacht, Navahoe.

A good breeze was blowing all the morning. A few minutes before the start was made, the two boats commenced jockeying for the best berth, and when the starting signal was given both boats crossed the line together, the start being one of the prettiest ever witnessed.

The first leg of the course was 20 miles out to sea. Very soon after the start the Britannia drew out from the American yacht, and when last seen she was in the lead.

The breeze did not seem as much to the liking of the Navahoe as it was to the Britannia, for she slowly dropped astern. When the Britannia was off Dunnose she was leading the American boat 14m. 10s.

FEARS FOR VALKYRIE.

Has Not Been Reported by Any Vessel Since Sailing For America.

NEW YORK, Sept. 6.—The yacht Valkyrie, built by Lord Dunraven to race for the America's cup sailed for this port on Aug. 19 and has not been heard of since. What makes the absence of the Valkyrie so strange is the fact that she has not been reported since she left by any European or American vessel.

Of course the yacht is not due at this port for a few days, and may be all right. The recent cyclone, however, which raged over those waters may have struck her and dismantled her. The skipper of the Valkyrie, Captain Harvey, is a very experienced sailor, and it is thought that the yacht is safe. She may have lost some of her spars in the gale. Lord Dunraven intended sailing on the yacht, but changed his mind at the last moment.

The Valkyrie would be tossed around like a cork in the gale, as her dimensions are small compared with most ocean travelers. When Mr. Carroll's yacht Navahoe went across she was constantly reported by passing vessels, but nothing has been heard of the Valkyrie since she weighed anchor. It may be that Captain Harvey is taking a southerly course to avoid icebergs, and on that account has not been seen by any vessels. The crew of the Valkyrie, who are all good sailors, number 26 men.

Whether the yacht could stand the gale remains to be seen, but a great deal of doubt is expressed as to her safety. When the Navahoe crossed from Boston, about two months ago, the journey was completed in 15 days. It was anticipated that Valkyrie, being a faster and apparently more seaworthy boat, would cross in a shorter time. As she will not end her trip at Boston, but at this port, the estimate of 18 days may be regarded as a fair one. Calculating on that estimate, the Valkyrie should reach New York on Friday.

Bishop Lawrence's Ordination.

BOSTON, Sept. 6.—Bishop-elect Lawrence is to be ordained and consecrated bishop four weeks from tomorrow, Thursday, Oct. 5, in Trinity church. Rt. Rev. Dr. John Williams of Connecticut, the presiding bishop, is to be the consecrator, assisted by other bishops, of whom there are in all about 75 or 76. Bishop Whipple of Minnesota is to preach the sermon.

THE GLEANER.

Philadelphia has 25,000 more girls than boys.

Many women in France make a living as chiropodists.

Sponges when first taken out of the water are dark in color.

London has a larger daily delivery of letters than all Scotland.

The British Channel is wider the ocean during the glacial period.

An American half dollar of the issue of 1795 is worth 10 times its nominal value to collectors.

A Little Mistake.

Mrs. De Fashion—Bridget says she overheard you talking awfully about her to Nelly Nexdoor.

Little Daughter—We wasn't talkin 'bout her at all. We was playin keep house an pe'tended we had servants, and I was makin a s'ciety call.—Good News.

My Change.

I begged a glove of Phyllis fair,
And when at length obtained it
I said, "Supposing it were there,
Could I have ever gained it?"

She smiled and said: "You ask for love!
'Tis plain you think I'm smitten.
So know at once I meant the glove
To be for you the mitten."

—Truth.

BOSTON PRODUCE MARKET.

MUTTONS AND LAMBS—The market on muttons and lambs is fairly sustained at the easier prices noted last week. The quotations are at: Choice to fancy lambs, [illegible]; common to good, [illegible]; poor and ordinary, [illegible]; Brightons, [illegible]; yearlings, [illegible]; muttons, [illegible]; poor to good, [illegible]; choice heavy Brightons, [illegible]; choice eastern veals, [illegible]; common to good, [illegible]; Brightons and fancy, [illegible].

POTATOES—Potatoes are not well sustained, and the market is easier at: Eastern barrels, [illegible]; New Hampshire rose and hebrons, [illegible]; Houlton rose and hebrons, [illegible]; Aroostook rose and hebrons, [illegible]; New York stars and burbanks, [illegible]. Sweet potatoes sell at [illegible] for Virginia cloth heads; extras, [illegible] double heads are worth from 25c to 50c above those prices.

BEEF—Beef is steadily held, as to values: Choice fancy steers, [illegible]; prime, [illegible]; good, [illegible]; light, [illegible]; extra heavy hinds, 12c; good, [illegible]; light, [illegible]; heavy fores, [illegible]; light, [illegible]; backs, [illegible]; rattles, [illegible]; chucks, [illegible]; rounds, [illegible]; rumps, [illegible]; rumps and loins, [illegible]; short ribs, [illegible]; loins, [illegible].

HAY—Hay is little changed, with straw quiet. Millfeed is quiet and steady, with sack spring bran to arrive at $16 50 and sack winter at $17 [illegible], and with middlings at $17 [illegible] as to quality. Cottonseed meal is quoted at [illegible] for meal to arrive, and at [illegible] for spot.

BUTTER—Butter is firmer: Western, [illegible]; firsts, [illegible]; imitation creamery, [illegible]; factory, [illegible]; northern creamery, extra, [illegible]; northern dairy, [illegible]; eastern creamery, extra, [illegible]. These are prices for round lots. Jobbing lots and fancy lots cost more.

APPLES—Apples are doing a little better, with the market at: Codlins, [illegible] per bbl; Pippins, [illegible]; Williams, [illegible]; gravenstein, [illegible]; common apples, [illegible]. To bring the upper range of prices, the apples must be hand-picked, and not windfalls.

CHEESE—Cheese is reported more firm, with prices a little stronger: Northern fall creams, [illegible]; fair to good, [illegible]; western choice, [illegible]; fair to good, [illegible]; sage, 9c. Liverpool is cabled at [illegible] for white, and at [illegible] for colored.

EGGS—Eggs are rather more firm, with considerable sales at [illegible] for western. The market is quoted at: Western, [illegible]; Michigan, [illegible]; provincial, [illegible]; eastern and northern, [illegible].

OATS—Oats are quiet, with clipped, to arrive, quoted at [illegible], as to quality and route of shipment: Clipped, [illegible]; fancy, [illegible]; No. 2 white, [illegible]; No. 3 white, nominal, at [illegible]; mixed, [illegible].

CORN—Corn is about steady, with No. 2 yellow to arrive quoted at 52c, with No. 3 yellow at [illegible]. The spot market is quiet at: Steamer yellow, [illegible]; No. 3 yellow, [illegible]; steamer mixed, [illegible].

MEAL—Meal is in a steady position, with bag cornmeal at [illegible] and barrel meal at [illegible]. Oatmeal is quiet at [illegible] per bbl.

FLOUR—The flour market is more active, and the tendency is toward better prices. Still the quotations are nominally unchanged.

THE STOCK MARKET.

Dealings in Leading Securities In Boston and New York.

BOSTON, Sept. 6.—In the outside market call money is quoted at 8 to 10 per cent, and time money is nominally 6 per cent.

From all appearances it looks as though the "bulls" were having things all their own way. There does not appear to be the smallest sign of the bear pool, and it looks as though they had given up the fight and were waiting their opportunity to get back again.

The majority of actual holders are still banking upon favorable results of the repeal of the purchasing clause of the Sherman law by the senate and the retirement of clearing house certificates. There is also another great stimulant to the better feeling, and that is the thought that it will not be long before public measures will be gradually made looking to an increase in the circulation. This would be the signal for renewed activity in all branches of the business world.

In spite of bad earnings the London market was a centre of confidence and encouragement, the private cables stated, regarding the market for American shares. Not only did foreign houses purchase quite liberally but they reported a similar buying movement in London for both speculative and investment account.

Sugar opened up ¼ to 83¼, then fell off to 83¾, with an advance to 85¾, all in the first half hour. Toward noon the stock remained dull and weak, selling at 83¾. General Electric opened at 47, then fell off 1 point down to 46. This was followed by a jump of 2 points, carrying the price up to 48. The stock gradually gained strength and the price was soon registered at 48¼. This rally occurred in the first hour. The stock then fell off to 46¼. There was considerable trading done in Atchison around 21¼ to 21¾, but little change was made in the price. Chicago, Burlington and Quincy opened at 83¼, and seemed weak, falling off to 82¼, then putting a brace on and the price rose to 83¾. Here it remained firm and worked its way up to 87, falling back at noon to 83¼. New England sold at 28¼ strong. Old Colony came out at an advance of 1 to 175. Union Pacific 24, off ¼, and West End Railway strong. Boston and Maine up 1 to 148.

Short ribs closed firmer today at [illegible] for cash; [illegible] for September; [illegible] for October; [illegible] bid for January.

CLIMATE AND CROPS.

HOW THE FOOD SUPPLIES OF THE EARTH ARE REGULATED.

Agriculture Is the Basis of All Subsistence, but Yet the Most Thickly Settled Spots Are Not by Any Means the Most Fertile. Java's Population.

How much room is there still on the earth for mankind? This is a question which is often raised and which is answered in a great many different ways. As all food is either directly or indirectly derived from the vegetable kingdom, and the plants need the light and the heat of the sun, the question as to how the light and heat are distributed is an important one. If we assume (which is true) that only 60 per cent of the heat of the sun reaches the earth, the remainder being absorbed by the atmosphere, then latitudes 20 degrees north and south will receive 93 per cent; 40 degrees north and south, 66 per cent; 60 degrees north and south, 40 per cent, and the poles only 17 per cent of the heat received at the equator. Therefore the countries which on account of the amount of heat received are in the most favorable circumstances to produce a great amount of vegetable food lie in the tropics, provided the other condition of plant life is found—that is, dampness.

In Europe people were particularly impressed with the information communicated by Humboldt, on his return from his American journey, concerning the great amount of food furnished by the banana in tropical countries. It was later proved, however, that the distinguished naturalist was mistaken, first, in ascribing so high a state of productiveness to the banana, and, second, because the banana is not generally suitable to be used as the principal food for man. As the grains are cultivated wherever agriculture is advanced, in the damp parts of south and east Asia we find rice, in the dry parts of India and the greater part of tropical Africa, millet and sago, and in tropical America, principally corn.

The banana is even less fitted to furnish the staple food than the potato. As an accessory, however, like the potato in the wealthy countries of Europe and North America, it is very important. As a dense population is only possible where there is a certain amount of cultivation, we must keep in mind the experience of many thousand years and accept the grains as the base of nourishment.

The Little Antilles and Mascarene islands are of intense fertility and export a great deal of sugar and import not only industrial products, but a good deal of foodstuff. The ground, therefore, does not directly nourish the population. Several parts of India export foodstuffs, and there is no trustworthy information as to the interior commerce in these products. Tonquin has too lately been annexed to France to obtain trustworthy statistics. Java, with Madura, is alone suited to our statistical necessities.

This country is sufficiently large, it furnishes good statistics of agriculture and commerce, and the imports and exports are carefully registered. The population is about as dense as in Belgium and Saxony, but life is supported under very different circumstances. Saxony and Belgium import foodstuffs and export mineral and manufactured products. Java imports a very small amount of rice and salt fish and exports many more agricultural products. It not only supplies its own people with food, but finds it possible to buy mineral and manufactured products. It might be supposed that this immense population would be divided in a certain proportion on the island, and either that its increase would be small, as in France and Belgium, or else there would be a large emigration, as from Great Britain or Germany.

Neither case is true. Emigration is scarcely known. The population increases at the rate of 2 per cent a year, and its distribution varies so greatly that in the eastern portion there are fewer people than in the swampy province of Minsk, in Russia, and in the central part there are almost twice as many people as in Belgium and Saxony, and yet 80 per cent of the population in this part of the island live by agriculture. Rice is the staple, and the statistics give 288 kilograms to each inhabitant. Only about 15 per cent of the surface of the island is devoted to the culture of rice. This is still in a very primitive state, but the government has taken it up, and the production will be greatly increased. Java is a mountainous country, but these mountains are not high, and the rainfall is great, and rice can be cultivated on 20 per cent of the surface for the first crop and 10 per cent for the second. We have therefore a possible extension of the cultivation of rice to 5,300,000 hectares. An average crop to this amount of acreage would support 9,000,000 people.

The surface of Java could be divided in this manner: Thirty per cent of the water surface would produce rice, vegetables, breadfruit and agricultural exports. Fifteen per cent, not watered, would produce breadfruit and agricultural exports; eight per cent, not watered, coffee and tea plantations; two per cent, watered, sugar cane. There would then be left 45 per cent for forests, gardens, meadows, waters, roads and dwellings. The people of Java need not then be condemned to live on rice alone. Fruits are very important and necessary for health, and in Java alone are found 180 different kinds. Cattle can be easily raised, and the superabundant numbers of water plants, insects and worms that are found in tropical countries furnish an easy means of feeding fish and fowls. We find therefore that in this country 600 men could find support on one square kilometer, or more than four times as many people as are now there.—Alexander Woeikof in Breslau Deutsche Revue.

Disproving an Old Adage.

A certain newspaper claims to publish nearly 100,000 "want ads," and yet we are told "Man wants but little here below."—Truth.

His Way of Settling Debts.

While I was reading the London papers in a comfortable chair at the Colonial club not long since two studious looking visitors went by. One said to the other: "Yes, he's a good fellow, but so eternally mysterious, though systematic, yet unreliable. Take the way he settles his bills, for instance, just like clockwork—tick, tick, tick."—Club.

The Bulletin.

Norwich, Thursday September 7, 1893.

The Bulletin should be delivered everywhere in the city before Six a. m.

Subscribers who fail to receive it by that time will confer a favor by reporting the fact to the Bulletin Co.

The Norwich Weekly Courier is the best weekly newspaper in New England at 50c a year.

The Weather Today.

Fair, warmer, winds becoming southwest.

NORWICH AND VICINITY.

CITY NEWS.

Dr. C. L. Faunce will return to this city on the 10th inst.

The Ocean View house at Block Island closed its doors Tuesday.

Dog days ended on the 5th and every one should be happy.

Stated convocation of Franklin chapter this evening at 7.30 o'clock.

It is probable that the last special summer newspaper train will be run Sunday.

The State Normal school at Willimantic begins the fall term with sixty-three pupils.

The steamer Block Island transports the Baptist Sunday school of Middletown to the sea-girt isle today.

Steamer City of Lawrence, after receiving a thorough overhauling, resumed her place on the line Wednesday.

Eight sisters of charity of the convent of the Holy Family of Baltic arrived from Hollowell, Great Britain, Tuesday.

Mr. James M. Meech found a handsome Indian axe on Watch Hill beach Monday. It was a perfect specimen of Indian stone work.

The Montville Sunday School union will hold a meeting at the Methodist church, Gardner Town, next Sunday at 4 o'clock p. m.

It is probable that no successor to Vice President Tuttle of the Consolidated railroad will be appointed till October. The directors may, however, act Saturday.

The New London postoffice employes are not sorry the season at Block Island has come to an end. All the mails for that place were made up in that city.

The steamer City of Richmond has been chartered by the New York, New Haven and Hartford railroad for an excursion from New Haven to New York and Coney Island Saturday.

The excursion of Tubbs' Military band and the Blackstone Hose company on the steamer City of Richmond to Block Island will take place today. The boat will leave at 8 a. m.

Superintendent Bartlett of the water works is taking out the old water pipe on Cliff and Elm streets and putting in new six inch iron pipe on Cliff and four inch iron pipe on Elm streets.

"Snap Shots" says: "Mr. William Barton, N. F. A., '85, who has been employed in the Boston office of the N. Y. & N. E. railroad, has returned to this city as chief clerk in the local freight office.

The Westerly Tribune says: The Hon. Allen W. Tanny of Norwich represented the heavy weights of that city at Brightman's Tuesday. When the doughty colonel leaves the festive board an aching void will be apparent thereon.

Messrs. George A. Bicknell and George F. Clarke of Westerly left Norwich on their bicycles Tuesday afternoon at 5 40 p. m., stopped in New London twenty minutes and in Mystic five minutes, and arrived in Westerly at 7.20, their net time being 3 hours and 15 minutes.

An exchange says of Kellar: "His performances delight the most critical of metropolitan audiences. His accomplished wife assists him in the most difficult of achievements, mind reading, without verbal communication of any kind, as in 'Karmes,' the 'Cassadaga Propaganda,' enable him to utilize what purports to be the ghost of that famous Italian Cagliostro." At the Broadway theater Saturday night.

The state board of education met at the capitol Wednesday afternoon and elected five members of the state library committee whose appointment was authorized by the last general assembly. Secretary Hine declined to furnish the names of the committee, as they had not been personally notified of the appointment. The committee will co-operate with the school library committees throughout the state, and will have more or less supervision in the selection of books that will be purchased by state funds.

Railroad Men Affected.

The employes of the New York & New England railroad were notified Wednesday evening of a reduction of ten per cent. in their wages.

Home From Abroad

Jonathan Morris of this city and Frederick Sodlow and mother of Taftville arrived home last night from a ten weeks' journey abroad. The party have travelled extensively through the continent, and have covered all the points of interest in the British Isles.

Broke His Wrist

The engineer of the yacht Starling, Frank Hurlburt, of Gales Ferry, while going across deck while the yacht was in New London during the first of the week, fell through a hatchway into the hold and broke the wrist of his right arm. He was fortunate in not receiving more serious injury, as the fall was a long and dangerous one. In addition to the broken wrist he is pretty sore from bruises and a general shaking up.

[illegible] Hilton to Go to Taunton.

Mr. Charles E. Hilton, who recently resigned the position of train dispatcher of the Norwich & Worcester division of the New York & New England railroad after an honorable term of service covering twenty-three years, has accepted the place of superintendent's chief clerk of the Old Colony division of the New York, New Haven & Hartford road. Mr. Hilton will be located at Taunton, Mass. He leaves the city with his family next week.

Clippers vs. Block Islanders.

Manager Lucy of the Clipper base ball nine received a telegram from Block Island last night that arrangements have been made to give the Norwich boys a warm reception today, and that the Island nine intended to come out with a big lead.

Due to Heart Disease.

Coroner Stanton of Mystic has pronounced Patrick Flanagan's death to be due to heart disease. Mr. Flanagan, who is an old resident of Mystic, died suddenly Friday evening. He was in the kitchen when he suddenly fell over backward and struck his head on a jar breaking it into pieces. He lived about ten minutes.

Griswold's Enterprise.

The Windham County Transcript says: The town of Griswold, in New London county, is obtaining handsome mention in all of the newspapers of the state, and in many out of it, for the inauguration of a plan to improve her roads. The town has recently, unanimously, voted to expend $15,000 to build a macadamized road between Jewett City and Pachaug. Three cheers and a "tiger" for the enterprising town of Griswold.

NORWICH PEOPLE AND OTHERS.

The Way of Pleasure and Business.

John Moore of Fountain street is spending his vacation in New York city.

Felix Callahan and son have returned from Fall River, Mass., where they made a short visit.

Miss Maggie Stanton, bookkeeper for Welcome A. Smith, is spending her vacation in Boston.

Mrs. J. C. Perkins is making an extended visit with Mrs. Wm. H. Fowler at Needham, Mass.

Mr. and Mrs. D. C Rose have returned home after a week's visit in Brooklyn, N Y., and Patterson, N. J.

Mr. John M. Lee of Porteous & Mitchell's, returned last night from a several days' stay in New York city.

Mrs. Wm. H. Fowler returned to her home in Needham, Mass., Wednesday, after a short visit in Norwich with friends.

Mrs. A. Irving Royce, Frank and Helen Royce and Miss Annie Penfield will return from a two months' visit to Chicago today.

Officer William S. Doty paced East Main street and vicinity again last night, after a week's vacation spent in Massachusetts.

D. C. Bellows, who has been confined to his home the past four weeks, is improving. He is able to sit up a few hours each day and hopes to be out soon.

Miss Rena E. Sevin of Norwich, Miss Annie Campbell of Preston and Miss Grace Dwight of New London, formerly of Norwich, have entered the Normal training school at Willimantic.

Says Tuesday's Waterbury American: Cards have been received for the wedding of May Adella, daughter of Mr. and Mrs. G. F. Parkhurst of Hartford to George Lee of New London, formerly of Waterbury. The ceremony will take place Tuesday, September 19, at the First Baptist church in Hartford.

SUPERIOR COURT.

Prisoners Sentenced in New London.

The September term of the superior court for criminal business came in at New London at 9 o'clock Tuesday afternoon, Judge William Hamersley of Hartford on the bench.

Charles Shea of New London pleaded guilty to a charge of burglary and was sentenced to three years imprisonment in the state prison.

Subsequently the sheriff went out with Shea to recover some stolen property he had confessed to taking. Down in the stone building next the station house, behind a rafter, Shea had hidden a watch and chain, and upon being taken there, handed it over to the sheriff.

It was one of the watches taken from the residence of Leander Lewis some time ago. The other watch taken at the same time he says he sold to a sailor for $3.

James H. Osborn of Norwich pleaded guilty to theft from the person, sentenced to three months in jail.

John Sullivan, who is charged with robbing an old man named Shea in a saloon yard on Bradley street some time ago, pleaded not guilty.

Edward Carpenter pleaded guilty to the theft of a bicycle in Norwich and was sentenced to fourteen months in state prison.

William Clark pleaded guilty to a burglary in Pawcatuck, and the judge gave him two years and six months in state prison.

John Williams, breach of the peace in Stonington, was given the light sentence of two weeks in the county jail.

The second day's session of the September criminal term of the superior court was held in New London Wednesday before Judge Hamersley. The case of the state against William Gates, Jr., charged with burning the barn of Silas L. Barbour of Voluntown on September 7, 1892, occupied the attention of the court all day. An adjournment was taken at 5 o'clock to 10 o'clock this morning.

Bonds were forfeited Wednesday afternoon in the case of Aaron Walpetansky, charged with theft.

A Destroyed Industry.

The pearl button manufacturers have asked for a hearing before the ways and means committee on the recent decision of the treasury department, which makes buttons undrilled and unshanked dutiable at less than one-third the rate on the finished product. This decision has destroyed the protection which the McKinley law was intended to afford, but it is very doubtful whether the committee will interfere with it. The committee is not built that way.—[Springfield Union.

THIS TIME ON THE PAN HANDLE.

Head-on Collision Between a Passenger and a Milk Train.

CARS TELESCOPED.

Twelve Passengers Killed and Many Injured—Names of the Victims.

CHICAGO, Sept. 7.—A head-on collision between a milk train of the Chicago, Pittsburg & Fort Wayne railway and an east-bound passenger train on the Pan Handle, or Pittsburg, Cincinnati, Chicago & St. Louis railway, killed 12 persons and injured as many more.

The collision occurred in the "L" running from the main line just south of Colehour to East Hammond, Ind., at the point of a curve in a sparsely settled locality.

The baggage car of the east-bound passenger train was ground into pieces, and from this most of the killed and injured were taken. The accident occurred at 9.30 a. m.

The removal of the scene of the wreck from immediate police and surgical aid made the calamity a most distressing one, and it was more than an hour before the first of those rescued, maimed and bleeding, could be carried to houses in Colehour and South Chicago for treatment. Physicians were summoned from the latter place, and engines were hastily prepared and rushed to the scene of the wreck.

The names of the dead as far as can be ascertained are:

Adam Temple, manager of Schiller theatre, Chicago, head crushed to a mass.

Unknown man, with Manager Temple, probably an actor.

Wm. Rigney, traveling passenger agent of the Wisconsin Central railroad.

G. A. Hines, Vincennes, Ind.

Wm. Shinocher, New Albany, Ind.

Wm. Richardson, 2,117 State street, Chicago.

R. D. Adams, Fairfield, Ills.

E. A. Barnard, Terre Haute, Ind.

Four unknown men.

Among the injured are:

Charles Lichte, Knox county, Ind., hurt about the head and internally.

Michael Ball, Louisville, Ky., internal injuries.

Wm. Brower, baggage master, Pan Handle train, legs crushed and internal injuries.

Paul Serber, newsboy, Gosport, Ind., right foot crushed.

James Eckenberry, Camden, Ohio, hurt about chest.

Joseph Ball, Louisville, Ky., left leg crushed, hip dislocated and internal injuries.

Wm. Richter, West Forks, Ind., internal injuries.

Wm. J. Turner, Chicago, hurt about head.

Joseph Dillingsdon, Clyde, Ohio, legs crushed and internal injuries.

DUREAU STILL MISSING.

His Dealings Were Mostly With Poor French People.

WILLIMANTIC, Sept. 7.—Facts which have come to light today about Joseph Dureau, the local agent of the People's Insurance company, who mysteriously disappeared, show that he has had dealings mostly with French people of the poorer class. Dureau came to Willimantic only eight weeks ago, but had gained a strong influence over the French residents. He took the position for the People's Life Insurance company and also had charge of the company's business in Jewett City.

Today R. J. Marley, assistant superintendent of the People's company, said he had examined Dureau's accounts and found that the company would lose nothing. He said that the money due the missing agent would more than cover any shortage in his accounts. Dureau's accounts for the Jewett City division are not yet examined. The company is insured against loss by the bond furnished for Dureau by Dr. Gerard of this city. Assistant Superintendent Marley discovered that Dureau was carrying quite a number of lapsed policies with the expectation that the company would suppose he was doing a big business and pay him accordingly.

The company will be obliged to cancel about seventy-five policies made out by the missing agent owing to the preposterously low rates at which they were written. These policies were taken out by the French residents of the poorer class, who will lose the premiums they have paid as well as their assessments. Dureau, it is said, borrowed about $500 before leaving town in addition to $65 and a gold watch which belonged to Saloon-keeper Boucher. He made friends quickly and easily succeeded in gaining the confidence of his fellow-countrymen.

The American Liner New York Wins in the Mail Race.

LONDON, Sept. 7.—The mail race between the American Line steamer New York and the White Star Line steamer Teutonic ended Wednesday afternoon. The New York won by more than three hours. The New York's 600 bags of mail arrived in London at 9 26 o'clock Wednesday morning, and the mail was delivered in the city at 11.15 o'clock. The Teutonic's forty bags arrived in London at 12 52 o'clock Wednesday afternoon, and the mail was delivered in the city at 2 o'clock. As the New York cleared Sandy Hook her one hour and ten minutes ahead of the Teutonic on August 30, her net gain over the Teutonic as regards the delivery of the mails was two hours and thirty five minutes. This is the first time the American Line has scored such an eastward victory since the steamships began docking at Southampton.

A School Girl Missing.

PROVIDENCE, R. I., Sept. 7.—Tuesday morning little Mamie Hartnet, the four-year old child of Michael Hartnet of Smith Hill, went to school for the first time and she has not been seen since she started for home at noon. The neighborhood has been searched by the police and parents, but without success. The latter think she has been kidnapped, but the police believe she has been taken in by some family.

River Rhine Infected.

BERLIN, Sept. 7.—The Rhine has been proclaimed officially to be infected with cholera, and bathing in it has been forbidden. All the public baths along its banks have been ordered to close and the authorities of all towns in the Rhine valley have been instructed to adopt stringent measures to prevent the use of river water for domestic uses.

The Khedive to Visit England.

LONDON, Sept. 7.—The Cairo correspondent of The Daily Chronicle says that the khedive will visit England in the spring.

IN CONGRESS.

The Senate.

WASHINGTON, Sept. 7.—Among the numerous petitions presented and referred in the senate today was one by Mr. Wolcott, rep., of Colorado for the immediate repeal of the McKinley tariff bill. He said that the petition was on one of the printed forms sent out by the New York banks for the repeal of the Sherman act, but that the petitioners (all the citizens of a town in Colorado) had substituted the McKinley tariff bill for the Sherman act.

Mr. Voorhees (dem., Ind.) moved to proceed to the consideration of the bill to repeal the Sherman act.

In connection with that motion, Mr. Morgan, dem. of Alabama said that, although he had intended to ask a vote on his resolution (for a joint select committee on finance) he did not wish to antagonize the chairman of the finance committee. He had had some conference with Mr. Voorhees, and had agreed not to press his resolution today.

The senate then, without any objection, took up the repeal bill, Mr. Stewart, (rep.) of Nevada, being entitled to the floor to continue his speech.

Mr. Stewart, however, offered to forego his right temporarily in favor of Mr. Walthall, (dem., Miss.,) who desired to address the senate.

Mr. Walthall expressed his willingness to co-operate in prompt action on the bill and suggested a simple mode to promote it. That was to put into the form of an enactment the declaration of policy made in the bill. If that were done the bill could be passed in half the time.

TAKING TESTIMONY.

Investigation Into the Recent Railroad Accident at Chester, Mass.

BOSTON, Sept. 7.—The official inquiry to fix the responsibility for the fall of the Boston & Albany railroad bridge at Chester, and the consequent sad tragedy which it entailed, was begun, before the railroad commissioners soon after 10 o'clock this morning.

There were present Commissioners Sanford (chairman), Stevens and Dale. The Albany road was represented by President Bliss, General Manager Barnes, Bridge Engineer Swain and other officers.

The Hon. Samuel Hoar appeared as counsel for the corporation. The bridge repairers who removed the rivets were present in a body. Their manner was nervously apprehensive, and the eyes of more than one were dewy with tears. The appearance of the little group was pathetic.

Conductor Gray and Fireman Mitchell of the ill-fated train testified as to the running time and the speed made. The engineer was unable to be present at the investigation because of the injuries received at the time.

Testimony was also given by Master Carpenter Frank Cady and Bridge Builder Reed as to the repairs being made to the bridge.

SPINNERS MOVING.

Meeting Called at Fall River for Friday Evening.

FALL RIVER, Sept. 7.—A special general meeting of spinners will be held in Court Victory hall, which is in the next building to the Spinners' hall, Friday evening, Sept. 8. The following was issued today:

Fellow Workmen: It is hoped that every member will be present at this meeting, as business of the greatest importance will be submitted. The committee of conference who meet with the manufacturers will report the proceedings thereof. Ballots will be prepared to vote with.

A recommendation will be submitted to the meeting for granting of a sum of money to alleviate the distressed members of the association who are idle through the stoppage of the mills where they were employed. Come one, come all to this meeting, so that you may use your voice and vote upon any measure submitted for action. On behalf of the committee,

ROBERT HOWARD, Secretary.

Appearance of a United States Battery Excites Interest.

SANDWICH, Sept. 7.—Light battery B, 4th United States artillery, Capt. Field, and fifty-four non commissioned men and privates, fifty six horses and the camp equipage arrived here this noon from Wareham, where they camped last night. The battery has three two inch breech-loading rifle guns.

They left Newport Monday, where they are stationed on a twenty days' tour for practice. They are to go as far as Provincetown. They present a very fine appearance.

The battery will encamp at Sandwich tonight, and in the morning proceed down the cape. They march seventeen miles a day.

The battery creates great interest, as it is the first seen on the Cape for many years.

"Grange Day" at the New England Fair.

WORCESTER, Mass., Sept. 7.—This is "Grange Day" at the New England fair and a large audience listened to addresses on agricultural topics by prominent men of that profession. The day has been chilly and damp, and this afternoon there have been showers, but the attendance is good and there are many spectators at this afternoon's trotting. Yesterday's attendance was fully 20,000, and there was never a more successful "Governor's Day." Tomorrow is "Children's Day," and closes the fair.

The Western Wheat Crop.

ST. PAUL, Minn., Sept. 7.—Chief Grain Inspector Clausen says that from all he can learn the wheat crop is about 100,000,000 bushels in Minnesota and North Dakota. Last year it was about 125,000,000 bushels, and the year before, which was the best year known, 160,000,000 bushels. Probably 5,000,000 bushels or more of the old crop remain in the country elevators and farmers' hands. Mr. Clausen says that the greater portion of the receipts so far have graded No. 1 hard.

Pinned Her Gown to the Floor.

WORCESTER, Mass., Sept. 7.—B. J. Blanchard of North Uxbridge was blasting rock in digging a well this morning when a stone, weighing 250 pounds or more, flew high in the air and crashed through the roof of James Creighton's house, through two floors. Mrs. Creighton was sitting on a chair when the rock descended, scraping the side of her body and pinning her gown to the floor. The damage to property was $1000.

Gloucester Fish Arrivals.

GLOUCESTER, Sept. 7.—Schooner Lizzie M Stanwood, Banquereau, 10,000 pounds halibut, 4 000 pounds cod; schooner Chas. H. Taylor, western banks, 30,000 pounds halibut, 2,000 pounds cod; schooner Elsora, Georges, 10,000 pounds halibut, 8,000 pounds cod and cusk; shore boats, 6,000 pounds hake, 800 pounds cod, 300 pounds haddock; harbor traps, 19 barrels herring.

HARTFORD PICKPOCKETS ARRESTED

One Had a List of County Fairs in His Pocket.

MRS. BILLING OF BOSTON

Loses Her Money While Waiting to Take a Train.

HARTFORD, Conn., Sept. 7.—Mrs. Elizabeth Billing of Boston arrived here this afternoon on her way to the World's fair. While waiting in the depot to take a train for Waterbury her pocketbook was stolen.

She complained to Officer McElroy and he was instituting a search when George Oldfield, son of Officer Oldfield, brought back the pocketbook, minus the money. Mr. Oldfield is employed by the Consolidated road, and while in the tower near the round house he saw two men go over on the park and conceal something under a tree.

His suspicions were aroused and going to the spot he found the pocketbook. Just as Mr. Oldfield reached the depot the two men came along and were arrested.

One gave the name of Frank Nolan of Boston, and the other said he was Peter Farley of Bridgeport. Farley had a list of county fairs in his pocket.

INDUSTRIES OF CONNECTICUT.

The Ansonia Electric Company to Resume Operations.

ANSONIA, Sept. 7.—John B. Wallace, receiver of the Ansonia Electric company, announces the resumption of work in that concern next Monday in every department but one, and with full force. The wire department will not require all the old hands at present, but they will be taken back as needed. It is expected that work will be carried on continuously from the time of starting up.

Business Good at Branford.

BRANFORD, Sept. 7.—Business is reported good here. Both the lock works and the malleable iron works are running on full time and with their full force of workmen.

Candee Rubber Co. Resumes—Piano Factory Stops Work.

NEW HAVEN, Conn., Sept. 7.—Part of the factory of the Candee Rubber Co. commenced work this morning after three weeks idleness. More rooms will open tomorrow and the rest Saturday on full time and with a full force. This concern employs over 2000 hands and is one of the largest in the country. It is the last factory belonging to the United States Rubber Trust to reopen since the recent dullness.

The Mathushek Piano company, employing 300 hands, closed indefinitely for lack of orders last night.

A Middletown Woman Deserts Her Husband.

MIDDLETOWN, Sept. 7.—Mrs. Samuel Hennessy has deserted her home and husband. The couple lived on Water street, at the foot of Court. Mrs. Hennessy engaged in the usual household duties until her husband went out to work in the afternoon. She then hastily dressed herself in her best clothes and left the house. She has not since been heard from, but her husband believes she is in New Haven. She went away once before and was gone about three months.

Anna Orr Believed to Be Alive.

BRIDGEPORT, Sept. 7.—The Bridgeport Post claims to have secured information which makes it almost certain that the long-lost Anna Orr will be found sooner or later. "Nothing can be learned from the police, but they are working upon clews that are sure to lead them to success. Anna Orr is not dead; that fact is pretty well established, and the denouement of her tragic disappearance will prove, according to present belief, very sensational."

Middletown Man Held on a Serious Charge.

MIDDLETOWN, Sept. 7.—Patrick Donovan was held in bonds of $300 by Justice A. B. Calef, Jr., before whom he was brought on a charge of bastardy preferred by Lena Ordaung, a good looking Swedish girl. His mother became surety for his appearance at the next term of the superior court.

Reunion of Tenth Connecticut.

MERIDEN, Conn., Sept. 7.—The annual reunion and banquet of the Tenth Volunteers was held in this city today. The business session was chiefly confined to the election of officers. The next meeting will be held in this city.

Connecticut Tobacco Crop.

TARIFFVILLE, Conn., Sept. 7.—Farmers are cutting and curing their tobacco crop which, if not equal to last year, is still a fair crop. It is reported that some damage has been done to tobacco in neighboring towns by frost, but Tariffville has not suffered.

Fatal Accident at Waterville.

WATERBURY, Conn., Sept. 7.—Angelo Gaiarro, an Italian laborer, employed by A. I & G. S. Chatfield, was almost instantly killed Wednesday at the American Pin company's new plant in Waterville. Gaiarro was assisting a mason to set a brownstone pier, weighing about 1,700 pounds. Just as the big stone was about to be swung into place the wire guy rope supporting the derrick on the opposite side the men slipped, allowing the mast to fall on the Italian. He leaves a wife and three children.

More Counterfeit $5 Discovered.

NEW HAVEN, Conn., Sept. 7.—More of the counterfeit $5 bills which were discovered here yesterday were found by local business men and bankers when they looked over their safes this morning. It is estimated that about thirty people were duped by the bogus bills in the two days they were rife. The local police are of the opinion that more persons are concerned in passing the worthless paper than the two who were captured yesterday.

Annual Meeting Connecticut Butchers' Association.

NEW HAVEN, Conn., Sept. 7.—The Connecticut Butchers' association held its fifth annual meeting here today. Forty members were present and represent Hartford, Danbury, Waterbury, South Norwalk, Bridgeport, Bethel and New Haven. Reports show the association has 198 members and that the financial condition is sound. A drive over East Rock park was taken and the association banqueted at Hill's homestead in West Haven this afternoon.

Internal Revenue Receipts.

WASHINGTON, Sept. 7.—The receipts from internal revenue today were $317,548; from customs $607,061; and miscellaneous $15,721. The national bank notes received today for redemption amount to $694,281.

Forests Burning and Ranchers Fleeing from Destruction.

TACOMA, Wash., Sept. 7.—The most destructive forest fire ever known in Washington is raging in Hoquiam valley, in the northwestern part of the state. Ranchers are fleeing down the valley to the beach.

Half a dozen ranchers left a few days ago to prospect for gold in the Olympic mountains, and the fire has cut them off, and their wives and children are in distress. Already 5,000 acres have been burned over.

Ocean Steamers.

At New York—Chariots from Amsterdam; California from Fiume.

At Southampton—Trave from New York.

At Bremerhaven—Havel from New York.

GUESTS ARE FLEEING.

An Epidemic of Malignant Diptheria Creating Terror at Fishers Island.

A Stonington special says: The summer settlement about Little Hay Harbor on Fishers Island has been thrown into a panic since the last gale, over the appearance of a mysterious epidemic, which attacks both young and old, and in many cases proves rapidly fatal. Three deaths have already occurred from it, and there are now about forty cases of a more or less violent type, and additional deaths are expected hourly.

The mysterious disease is of a diphtheratic character, but of the corps of six doctors, natives of the island, from Noank and from New London, not one can be found to authoratively state what the epidemic is.

There were fully 1 000 well-to do permanent summer residents there when the mysterious epidemic appeared about a week ago. A perfect panic has occurred since, and the Munnatawket has been carrying guests away by the hundreds daily.

The disease broke out in the Bartlett cottages. The names of the dead thus far are Mrs. Kate Newton, 48 years old, wife of the head farmer of the island; Bayard Irving, 8 years and 7 months old, a son of Lieut. Irving of the New York naval reserve; Mrs. Maria Louisa Lawrence, wife of John F. Lawrence, 35 years old. In filling out the death certificates in these cases the doctor seemed wholly at sea. Some of the doctors call the disease "quinsy sore throat," some "sore throat" and some "tonsilitis," but they evidently do not know just what it is.

The Connecticut health board is not so undecided. It is believed the disease is diphtheria of the most malignant type, and is so treating it.

TAFTVILLE.

The attendance at the opening of Wequonnoc school is one-fifth larger than last year.

P. E. Hendricks and J. Sullivan are visiting Chicago and the World's fair.

S M. Brywn of Manchester, N. H., has been the guest of his daughter, Mrs. C. W. Prentice.

George Bennett of this place is in Cleveland, Ohio, as a representative from the local order of Stationary engineers.

Mr and Mrs. Thomas Livingstone of Fitchburg, Mass., are visiting relatives in this place.

EASTERN CONNECTICUT.

STONINGTON POINT.

Prize Winning Sheep—Peddlers' Licenses—Chief Chesebro.

News received from the New England fair, at Worcester, Mass., contains the information that the flock of Idlewood Shropshire sheep, owned by Williams & Lord of Stonington, have won a majority of the premiums offered. Many of their flock are direct importations from England, and several were prize winners before brought to this country. These sheep will, undoubtedly, be on exhibition at the New London County fair.

The borough schools will convene for the fall term on Monday, Sept. 18. The old corps of teachers have been employed with one exception.

The selectmen of this town have fixed the following rates under the "act concerning sales of merchandise by itinerant peddlers:" Peddlers of dry goods, jewelry, etc., on foot, $10; with team, $20; tin peddlers with team, $5; junk and rag dealers, $15; auctioneers, $3; hawkers of goods, temporary license $3 per day; peddlers of foreign fruit, with team, $10; on foot, $5; peddlers of tea, coffee and spices, $5.

A "Conundrum Tea" was given as a benefit for the Stonington Free library Monday afternoon and evening. As a result, the treasury was replenished to the amount of $120.

Mr. F. B. Noyes and Mr. Henry Noyes started Tuesday for the World's fair.

The firemen of the borough have again nominated Mr. Erastus S. Chesebro as chief of the fire department. This nomination now goes to the borough officers, consisting of the warden and burgesses, for their sanction. Mr. Chesebro has held the position for twenty-five consecutive years, and has the thorough confidence of the firemen and citizens of the borough.

Our summer guests are beginning to leave for their homes, and soon the old borough will settle down into its normal condition again. The place has been overrun with guests this summer, and every recurring season appears to bring new faces here. What Stonington needs is a hotel to cater to summer guests, and ere long this needed institution will be provided.

Both bluefish and mackerel are now plenty off shore, and good catches are made every favorable day.

Admiral Fairfax and family, who have spent the summer at the Wilkins house on Wadawanuck square, returned to their home in Hagerstown, Md., Thursday.

Mr. Robert Mallory and family of Brooklyn, N. Y., have arrived at the Wilkins house to spend a few weeks.

PRESTON.

Personals.

Thomas Frazier is visiting friends in town.

William Lamphere, jr., and John P. Flynn have returned.

Gilbert Raymond of Poquetanuck and Edmund Benfick of Preston left Monday night for the World's fair.

Miss Mary Whiter, who met with a serious accident on Thursday last, is getting along as well as can be expected.

Vincent and John Halle separated in 1844, one going west, one south. They fought in the war on opposite sides and each supposed the other dead. The other day they met by accident in Kentucky. They have been living for years within a few miles of each other.

OHIO G. A. R. COMRADE MURDERED.

Sandbagged and Robbed on an Indianapolis Street

POCKETS TURNED INSIDE OUT.

The Victim Was Charles Peterson of Cincinnati.

INDIANAPOLIS, Ind., Sept. 7.—The otherwise fortunate record of the G. A. R. encampment has been dimmed by the murder and robbery of a veteran.

At 2 o'clock this morning, Chas. Peterson of Cincinnati, O., a G. A. R. veteran, was found dead in the gutter at No. 79 South Meridian street.

It is supposed he had been sandbagged and robbed, as his pockets were turned inside out and a piece of his watch chain was dangling from his vest, indicating that his watch had been hurriedly jerked off.

The police department was notified, and a doctor summoned, but the man was dead.

No bruises could be discovered on his body, nor any further signs of his having been a victim of highwaymen.

He came to this city to attend the encampment, and had been a visitor at the home of Mrs. Helburn, 445 Madison avenue. He came to this city on Monday, and intended leaving at 8 o'clock, but was delayed on account of the trains.

He left Mrs. Helburn about 10 o'clock at the corner of Illinois and South streets, where he put her on a car. He told her that he had to remain in the city till 2 o'clock in the morning before he could get his train. He started east after he put the lady on the car, and that is the last she heard from him.

Mrs. Helburn said this morning that Peterson must have been murdered by thieves as he had some money on his person and carried a valuable watch, and also had one or two rings.

He would have remained over till today, but was called back to Cincinnati on some contract work which had to be finished. He was a painter by trade.—[Special to Boston Herald.

Schaefer and Ives to Play at Chicago For the Championship.

CHICAGO, Sept. 7.—Jacob Schaefer and Frank C Ives have been matched to play at fourteen-inch balk line for $2,500 a side. The men are to play five nights, 600 points each night, as soon in October as Central Music hall can be secured. Dick Roche finds the money for Schaefer, while Ives posts $2,500 of his own money.

A Rhode Island Woolen Mill Starts Up.

PROVIDENCE, R. I., Sept. 7.—The Oak Valley woolen mill at Tarkiln started up on Monday after an idleness of six weeks.

If you have academy books to sell take them to Cranston & Co. and get the best price for them. See advertisement.

The Norwich Business College.

The Norwich Business college, under the efficient management of Mr. Earl M. Swift and assistant teachers of ability and experience, will open its fall term on Tuesday, September 19. The college offers excellent inducements to young men and women who wish to become proficient in the modern methods of doing business. Catalogues may be had on application to the principal, to whom inquiries for information should be addressed.

NORWICH AND VICINITY.

The Norwich Weekly Courier is the best weekly newspaper in New England at 50c a year.

Terrorizes a Town.

A strange animal is terrifying people in the western part of Chester, on the Connecticut river. No one has been able to give an intelligent description of the animal, although the people claim to have been chased by it. It forages the fields, eating green corn, tomatoes and other vegetables. Some people are inclined to think that the queer animal escaped from a circus which exhibited there during the summer.

Universalist State Convention.

The annual convention of the Universalist churches of Connecticut will be held in the handsome new church edifice of the Universalist society in Danbury on Tuesday, Wednesday and Thursday, September 19, 20 and 21. The first day of the convention will be occupied by the deliberations of the Young People's Christian union of the state, the convention of the church proper taking place on the two following days.

A Proposed National Guard Contest.

The recent visit of Company D, Twelfth regiment, N. G. S. N. Y., to Yachtsmen Banks at New London, has brought up the question as to the superiority in the matter of drill of the New Yorkers over any company in the Connecticut National Guard. Colonel A. C. Tyler of the Third regiment would like to test the matter, and, it is said, therefore authorizes the statement that he will join Commander Banks in the purchase of a $600 cup as a prize for such competition and have the contest take place on Labor day, 1894.

Orders for Lighthouse Wood.

Captain Christopher Brown, who has furnished wood for the lighthouse department for fourteen years, has received another order for thirty cords to be delivered at his wharf at Gales Ferry. Twenty cords are for Staten Island and ten for the Custom House wharf in New London. He is also interested in a bid to supply the wood needed at Fort Trumbull the coming winter.

Fairview Notes.

The monthly statement of the treasurer of the Odd Fellows' home show that the donations to the home made to date, amount to nearly $[illegible],000, of which there now remains in the treasury clear of all present demands, over $6,000. From this showing the management is confident that they will have the $20,000 endowment fund in from six months to a year less than the time expected.

A meeting of the board of management will be called at the home the second week in September to provide means for heating the building, either by hot water or steam.

In farm produce the year has been a profitable one, as they have raised enough vegetables to carry them through the year. There is enough hay and bedding in the barn now to keep six head of cattle well fed for the next twelve months, and enough has been sold to pay for housing the hay and straw.

The first case of sickness that has afflicted an inmate at the Odd Fellows' home at Fairview is now being treated there. The patient is John Morgan, who was admitted to the home from Milford. Just a mild attack of fever is the complaint, from which a rapid recovery is expected.

Senator Phelps Injured.

Senator Charles Phelps of Rockville lies in a serious condition at the home of Dr. M. M. Johnson in Hartford. On Monday afternoon, while driving, the reins became caught under the horse's tail and while attempting to remove them Mr. Phelps was kicked in the right side of the head below the temple. A dent was made by the calk of the horse's shoe. Mr. Phelps is resting comfortably and the chances are that he will recover.

City Court—Kellogg, Judge.

In the city court, Thursday morning, Timothy Reardon of Greeneville was arraigned for breach of the peace. He was adjudged guilty and committed in default of $10 and costs—$21.51.

Edmund M. Moore, Sr., was sent to jail in default of $5 and costs—$10.85—for [illegible].

Timothy Hendrihan of Providence and Thomas McCormick of New Britain paid $6.46 and $9.33 respectively for intoxication.

The Norwich Weekly Courier is the best weekly newspaper in New England at 50c a year.

OFF FOR THE GOLDEN GATE.

A Mystic Captain to Make His 65th Voyage Around Cape Horn.

Captain J. Warren Holmes of Mystic, who has a world-wide reputation as a sailor, and who has the record of sailing around the stormy Cape Horn more times than any other man, left New York Wednesday on board his ship, the Charmer, for another voyage to San Francisco. Captain Holmes, who is now in the 70th year of a hale and hearty manhood, has followed the sea since a boy of 14. No less than 64 times has he sailed around Cape Horn, going and coming from the Golden Gate; and some twelve or fifteen times he has sailed around the Cape of Good Hope. Several voyages he sailed in pursuit of the festive whale, and he has been to China and other foreign ports. The present voyage will consume some three or four months. His destination from California will be somewhat uncertain, and will be governed by freights and other conditions. It is probable, however, that the well-known captain will be away from his home for the best part of a year.

"SHOVING THE QUEER."

Counterfeit Silver Certificates in Circulation About the State.

Owing to the prevailing scarcity of currency it has been discovered that counterfeiters have taken advantage of this condition to float a large number of spurious $2 and $5 silver certificates. These bills are very numerous and the banks have issued the following description of the $5 certificates, which are by far the most frequently found: Small scalloped seal, which is excellent both in color and execution; color of the treasury number also good, but figures irregular. Portrait of General Grant poorly engraved, and has a moth-eaten appearance. Series No. B 12.

One well-known merchant found one of these spurious bills among his collection and tore it in two. The banks are taking extra precaution in examining bills received. The bills are among the best ever seen and can only be detected by experts.

REAL ESTATE TRANSACTIONS

Recorded by Town Clerk Freeman During the Past Week.

The following real estate transactions have been recorded with Town Clerk Freeman the past week:

William M. Robbins of Essex, to Fannie P. Bentley, a parcel of land on Mechanic street.

Nicholas Tarrant and J. J. Desmond to Effie N. Edmund, land and buildings on Boswell avenue.

Lewis Brunelle, administrator of the estate of Joseph T. Senay, to Timothy Senay, an undivided one-half of land and buildings at Taftville.

Gardiner Greene, Jr., administrator of the estate of L. D. Bentley, to John F. Hewitt a parcel of land on Forest street.

Napoleon Mayotte to John F. Hewitt, land and buildings on Mechanic street.

James Murphy to the city of Norwich, land and buildings on Thames and High streets.

D. W. Grant to the city of Norwich, land and buildings on Thames and High streets.

H. J. Palmer of Westerly, R. I., to Helen F. Palmer, land and buildings on Maple street.

Norwich Savings society to Clemence Parent, land and buildings at Occum.

The Norwich Weekly Courier is the best weekly newspaper in New England at 50c a year.

CURIOUS ERROR MADE.

It Is in Notice Sent Around by the State Board of Health.

A curious error made by the state board of health has caused a grave misapprehension of the new law regarding the disinfection and burial of bodies of persons who have died from infectious diseases.

The state board sent out a circular to all the town clerks, quoting the law. According to their circular the undertakers were required to "disinfect said bodies in accordance with the method, which may be from time to time prescribed by the state board of health, and inclose it in an air tight coffin or case, hermetically sealed."

The impression given by the act as above quoted is that such bodies must undergo both the disinfecting process and be buried in an hermetically sealed casket, and a complaint went up immediately about the hardships this would entail upon the poor people, who might lose a child from measles or scarlet fever.

The error occurred in substituting the word "and" for "or". The law really reads "disinfect said body, etc., or enclose it in an airtight coffin or case, hermetically sealed." The disinfecting process is as prescribed by the state board not an expensive one, and would add but little to the undertaker's charges.

The process as ordered by the state board of health, is as follows:

The body of any person who died of one of the diseases mentioned in the amendment of Section 104 of the general statutes shall be prepared for burial by the person having it in charge, by wrapping it in several thicknesses of cloth, wrung out of a solution made by dissolving sixty grains of corrosive sublimate and two tablespoonfuls of common salt in one gallon of hot water, or out of a solution made by dissolving six ounces of pure carbolic acid (not the commercial, colored, impure acid), in a gallon of hot water.

The Norwich Weekly Courier is the best weekly newspaper in New England at 50c a year.

MISS EMMA M. CONVERSE.

The Providence Journal's Tribute.

The Providence Journal of Tuesday morning said: "Another link with the city's educational and literary past has been severed in the death of Miss Emma M. Converse from pneumonia Wednesday, at the mountain resort where she has been staying for the summer. It is a sundered link with The Journal's past as well, for, while Miss Converse was not the first woman to contribute regularly to its pages, her connection with the paper has been both longer and more unbroken than that of any woman whose work has appeared regularly therein. Her first writing was done for the paper about 40 years since.

Of late years, as The Journal readers are aware, her contributions have been chiefly confined to the astronomical subjects she treated so simply and clearly, but in earlier years her work was more miscellaneous of range. Since the publication of The Journal Almanac she has been the compiler of its astronomical information and her monthly astronomical articles cover a period of 16 years.

She did some work as a translator as well, one instance of this being the translation, published by D. Appleton & Co. in 1877, of Andre Theuriet's "Gerard's Marriage."

Miss Converse began her working career as so many of her contemporaries, and indeed women of a generation or two later, so commonly did, as a teacher. Many of her pupils from both periods remain to recall with eager tribute of recognition of her labor and her formative influence—most rewarding of all tributes to the real teacher—and some of these developed into friends devotedly attached to her until the end.

While Miss Converse had been so long a dweller in Providence that the city had become her home, and might well claim her its possession—and a late compilation of the literary women of the state makes her a native—she was born in Salem, Mass., in 1820. Save the sister, who was her life-long companion, her nearest kindred reside at Norwich, Conn., where her funeral is to be held at the residence of her brother, Albert T. Converse.

She came to full ripeness of years with mental abilities undimmed by time, with interests closely in touch with those of her friends, with the world's march, and not alone her relatives, her intimate friends and acquaintances, privileged to know her, but the teachers and literary women of the state will join The Journal in lamenting her loss from the ranks of New England's distinguished womanhood.

THE CASE OF AGENT GUNN.

Suit for the Recovery of the Money Begun by Treasurer Sanger.

Another echo of absconding Agent Gunn was sounded Wednesday morning by the filing in the court of common pleas of Allen county of a case by Marvin H. Sanger, state treasurer of Connecticut, for the recovery of some money to the amount of $5,459 from Elma and William Sears, the Mt. Gilead National bank and William McCracken. The claim is made on money which they paid Gunn to lift mortgages with, but which he failed to pay the company. Hundreds of similar suits will be begun if the state wins this one.—[Hartford Courant.

TAFTVILLE.

Miss Rosana Heaver, who has been the guest of relatives in this place, has returned to Danielsonville.

Fred Spencer and wife have returned to South Manchester after a visit with relatives in this place.

Mr. Charles Kellogg has returned from a three-weeks' visit to Boston.

Mrs. Curtis Hull has returned from a visit to relatives in the country.

The Norwich Weekly Courier is the best weekly newspaper in New England at 50c a year.

NEW MAGAZINES.

The New England Magazine for September is a very attractive and entertaining number. The frontispiece is entitled "The Housatonic near Stockbridge." The illustrated papers are: "The Literary Association of Berkshire," "Fryeburg," "An Agricultural Experiment Station," "Whitehead," "New St. Louis," and "A Feathered Angelo." The other sketches are: "The American not an Englishman," "War Memories of a Confederate Boy," "Experiences during many years," "A Perverse Coelebs." There are nine poems. Warren F. Kellogg, publisher, 5 Park square, Boston.

Our Little Ones and the Nursery for September has a pretty picture on every page for the little folks. It opens with the poem "Bonnet Land," which is attractively illustrated by the frontispiece. "Bob White," "Helping Mamma," "Teddie Blake's Squirrel," "A Knowing Parrot," "Breaking up a Setting Hen," "A Novel Holiday," "Did Her Mamma's Washing," "Little Mabel's Outing," "Bushabye Sweet," and "A Peck of Chestnuts" are the pleasing titles which disclose the feast of good things which the number contains. The Russell Publishing Co., 196 Summer street, Boston.

The Illustrated American, in its issue of September 9, shows what can be done in the dramatic department by a thoroughly competent critic. In this number Mr. Austin Brereton writes a most charming critique of "L'Enfant Prodigue," the pantomime now being performed at Daly's theater, New York city. Attention is called to the points of the play and particular merits of the players. In the same article is a criticism of "Liberty Hall," a delicate bit of work by R. C. Carton, which is being played at the new Empire theater of New York city. The Illustrated American Publishing Co., East 19th street, New York.

LEADERS TOO TIMID.

Afraid to Bring the Silver Question to a Vote.

END OF DEBATE IS NOT IN SIGHT.

The Treasury Must Have Money—Echoes from a Conference.

Washington, Sept. 7.—Both houses of congress are rapidly approaching the condition depicted in Sheridan's master play where everybody has hold of somebody else and each one is afraid to let go. There is not even a dim vista of a probable outcome in the senate debate within vision. The hesitancy which the leaders display in bringing the question to a sharply defined issue, adds to the growing feeling of uncertainty as to the result, and gives strength to the trimmers who are advocating a compromise. The impression this morning is that Mr. Stewart, with his aides, Messrs. Morgan and Teller, will endeavor to consume the balance of the week in filibustering oratory. Divided counsels among the friends of repeal prevent the adoption at present of any heroic means to get down to business, but the patience of the senate is becoming worn by trituration.

In the house there is no one who can predict what the policy there will be, pending final action by the senate. One member of the committee on rules has been

To See the President Twice

on this matter, but has so far failed to have an audience, owing to the previous engagements of the executive. The same member is authority for the statement that the committee has never taken up the subject of adjournment, and no conclusion has been reached as to what the house should do. He said that the seeming delay in adopting the rules was due to a desire on the part of the committee not to antagonize too vigorously the silver men, and thereby start filibustering tactics against the rules, until the adoption of which no business, even if the house desired it, could be begun. Members of the house appear to be more interested in the report of the committee on accounts than anything else, and now that the rules have been adopted this report will soon be forthcoming. This committee has charge of the matter relating to the appointment of clerks to committees, and inasmuch as there are a great many chairmen anxious to know what will be done for them in this direction, the pressure being brought to bear upon that committee will cause its report to be forthcoming in a day or two.

Now that the introduction of bills is in order and their reference to committees has put all the committees of the house on a working basis, the policy which the house is to pursue must be soon unfolded. The committee on appropriations has already provided for an existing deficit, and the bill it reported has become a law. The ways and means committee has a much

More Serious Matter to Undertake,

in devising means to make revenues and expenditures balance. Already various antagonistic propositions have been submitted. All factions agree that more money is needed in the treasury. The division will come upon any proposition to provide that money, and any such discussion will undoubtedly renew the contest in the house between the silver and anti-silver forces. The gold men will favor the issue of bonds and the silver men the issue of certificates based upon the seigniorage of the silver already in the treasury. Three separate bills with this latter end in view have been prepared for introduction in the house.

Among the many currency schemes, the newest is that proposed by Mr. Talbert of South Carolina. The bill which he attempted to introduce in the house yesterday for the enlargement of the volume of currency and the distribution of the same provides that upon the demand of any state the secretary of the treasury be directed to issue government notes, which notes shall be a legal tender for all debts, public and private, and shall be non-interest-bearing; and an amount of said notes

Not to Exceed $20 Per Capita

shall, by the secretary of the treasury, be issued to such state. The state making a demand shall deliver to the treasury the lawful bonds of the state to the full amount of government notes demanded, and such bonds shall be taxable at the rate of 1 per cent, said taxes to be covered into the treasury before the first day of April of each year by the proper state authorities; said bonds to fall due at the expiration of 20 years from their date. Each state to which the notes may be issued shall make provision for the distribution of the same as it may deem best for the inhabitants thereof.

In a conference among the senatorial friends of the administration today, they announced that their cause was making gains every day. Senator Voorhees said: "I should not be surprised, when all the amendments are voted down and the final vote is reached, if the majority for repeal should reach 15 to 18. There are many senators who, when they cannot secure their proposed amendments for the recognition of silver, will vote for repeal."

JUDGED BY ACTIONS.

Clergy Greet Emperor William, Who Replies at Length.

Metz, Sept. 7.—An unexpected incident was the salutation of the emperor by the bishop of Metz at Kurzel yesterday. On behalf of his clergy and himself, the bishop expressed joy that the emperor had visited Lorraine. He begged the emperor to judge them not by the reports of hostile newspapers, but by their actions.

It was, above all, he said, their endeavor to maintain among the people a religious spirit and respect for morality, and to protect them from subversive doctrines which threatened the existence of society.

The emperor replied in a long speech. He expressed heartfelt thanks and gratitude for the exertions of the clergy, a subject which, he said, formed one of the topics of his conversation with the pope on his recent visit to Rome.

The bishop, interposing, said that the pope had informed him of the subject of the interview referred to by the emperor, and added that he was delighted to find that the emperor's views agreed with his own.

The emperor then referred to the improved health of the pope. In departing, he shook hands with the bishop, saying: "I am grateful to all who support me in this work."

The health of the troops engaged in the maneuvers is beginning to be affected. Many of the infantry soldiers fainted yesterday, a circumstance attributed variously to the heat, lack of water and bad food.

Defaulting Treasurer Arrested.

Louisville, Sept. 7.—J. A. Jenkins, the defaulting treasurer of Clark county, Ind., was arrested in this city last night and taken across the river to Jeffersonville. Jenkins' shortage amounts to $80,000.

Speaker Barrett Out.

Boston, Sept. 7.—The Herald this afternoon announces that Speaker Barrett will not again be a candidate for reelection to the legislature.

RACING AGAIN.

Navahoe and Britannia in a Stiff Breeze—Comment of London Times.

Ryde, Eng., Sept. 7.—The second regatta of the Royal Victoria Yacht club for the international gold cup, valued at £5000, was sailed here today. The starters again were the Britannia and the American yacht Navahoe. Early in the morning the wind blew strong from the northwest, and quite a big sea was kicked up in the channel.

At 11:30 o'clock the starting signal was given, and the yachts came running down for the line in quick order, carrying a smother of foam under their bows. Soon after crossing the line, the boats set spinakers for the run, and when last seen they were close together. As the boats were end on to the land, it was impossible to tell which was in the lead.

The Times, commenting on yesterday's yacht race, says: "It was nothing but superior speed that made the Britannia win, the Navahoe having the best of the wind on three occasions. In view of the previous races, it is a fair inference to draw that the Valkyrie would have led the Britannia all around the course.

"Yesterday's match may be taken as a trustworthy test. Although the Navahoe was cut down, she still immeasurably exceeds the Britannia in sail spread. The only conclusion is that the Navahoe is of an inferior model.

"There were instances when a critical eye could see faults in the Navahoe's management, but these had no effect on the result; and in open water a yacht to beat the Valkyrie must be fully 20 minutes faster than the Navahoe."

The Britannia did some fine sailing on the stretch to weather, although her decks were a little damp. She crossed the finish line again a winner, with a lead of about five miles.

SOCIALISTIC IDEAS.

Candidates Who Receive Aid From Trades' Unions Must Give Pledges.

Belfast, Sept. 7.—The trades' unionist congress passed yesterday by a vote of 137 to 97 a resolution "that labor candidates for parliament who receive financial assistance from trades' unions shall be required to pledge themselves to support the principle of collective ownership and state control of the means of production and distribution."

The resolution was opposed on the ground that it committed the congress to continental socialism. Several speakers said the resolution was a fitting declaration of the belief of the congress in the good socialist principle.

John Burns, M. P., supported the resolution, he said, because it cut right to the kernel of the social labor program. It did not hide the bugbear which some unionists thought must be concealed under everything called socialistic.

The principle involved was like many other principles; for instance, the nationalization of mines and railways, which formerly were promulgated only by socialists, but now were recognized as part of the trade unionist program.

CANNOT SPEAK.

An Eight-Year-Old Boy In Danvers Deprived of Speech.

Danvers, Mass., Sept. 7.—Walter Crosby, about 8 years old, a son of F. H. Crosby, was suddenly deprived of his power of speech yesterday, and at last accounts was in a critical condition, with chances against recovery. He was playing about the house and went into the pantry for something to eat. His mother spoke to him and he was unable to answer her. He went into convulsions, and soon became unconscious.

Four doctors held a consultation last evening, but were unable to determine what was the matter, although they conjectured that it was something the lad had eaten. The physicians consider it a singular case.

Policeman Shoots a Maniac.

New York, Sept. 7.—The few people who were standing at the corner of Sixth avenue and Sixty-sixth street this morning, were treated to a horrible sight. Policeman Bauer was standing near the corner when a man was observed tearing down the thoroughfare at a furious pace. The stranger was brandishing a long stiletto and talking loudly and insanely in Italian. He approached the policeman on the run and was about to transfix him on the knife when the officer fired. The maniac fell dead, pierced to the heart. There is no clue to his identity.

Custom House Investigation.

Boston, Sept. 7.—The custom house investigation opened this morning in the private office, connected with the special agents office at the Federal building. Special Agents Rice and Cross of the New York agency are acting as the investigators, and the first witness examined was Lonergan, the man who preferred the charges against the appraiser at Washington. His testimony consumed the greater part of the day.

Catch of the Sealers.

Washington, Sept. 7.—In a report to the state department Levi W. Meyers, consul at Victoria, B. C., estimates that the total catch of seal during the season of 1893, British and American, will reach at least 100,000 skins. The total sealing fleet of this year was about 90 vessels, of which 32 cleared from San Francisco, six from Seattle and 54 from Victoria.

Shipowners Win.

Salem, Mass., Sept. 7.—The shipowners who have been on a strike against the carrying of coal at the low rates offered have won and will be given the 75 and 85 cents a ton demanded. All the ships which have been lying idle in Salem harbor have been ordered out.

Lighted Fire With Kerosene.

Long Branch, Sept. 7.—The cook in one of the three handsome cottages owned by Mrs. Ellen Hile here lighted the fire this morning with kerosene. The can exploded and all three cottages were burned. The loss will exceed $10,000.

Sanderson Arrested.

Boston, Sept. 7.—E. F. Sanderson has been found. He is no less a personage than Charles O. Parker, the well known swindler. The latter is now under arrest, charged with securing goods by false pretenses from various firms.

Monaco Committed For Trial.

London, Sept. 7.—Monaco, who is supposed to have shot young Hamborough a few weeks ago, while the latter was hunting on the Ardlamont estate in the county of Argyll, has been formally committed for trial for murder.

Merchant Commits Suicide.

Colebrook, N. H., Sept. 7.—L. Parkhurst, merchant at Stewartstown, committed suicide this morning by shooting himself near the heart. Poor health was the cause.

THE INVENTOR.

Washable wall papers are new.

The soldering of glass and porcelain with metals is a novel French process.

A thermometer has been invented in London for giving the warning of a fire.

A safety envelope just patented is so folded and pasted together that it cannot possibly be opened without being entirely destroyed.

HOOD'S SARSAPARILLA.

Rich Red Blood

Is the natural result of taking Hood's Sarsaparilla. Mrs. Mary F. Tyms, of Niantic, Conn., author of a very beautiful volume of poems, entitled "Sacred Songs," says, "I find that for feeling of deadness of the limbs, congestion and poor circulation of the blood,

Hood's Sarsaparilla

has no rival. I have been troubled severely with a fibroid tumor, besides seven fatty tumors on my left arm. My blood was in very poor condition, watery and deficient in color. Since taking Hood's Sarsaparilla I have good rich, red blood, and do not bloat as I used to.

Hood's Sarsaparilla Cures

Hood's Sarsaparilla has proved its merit to me as it will to all who take it fairly." M. E.—Be sure to get HOOD'S

The Bulletin.

ALAS!

A little thought of doubtful kin
Came housed himself my heart within,

And spied about, and furled his wings,
And tried my heart's long silent strings,

And to the sound he wakened there
I sang a song upon the air—

A song, and songs, and ever more
I never sang so sweet before

Until a whisper came and said
The sweetest songs I ever made,

And told me 'twas a very sin
Had made himself so snug within!

And so I took that busy sprite,
That was my helper and delight,

And drove him far before my fears
And cleansed his dwelling with my tears.

But since I turned him out of door
I sing my happy songs no more.

—Maud Egerton King.

THAT UMBRELLA.

Patter! pat! pat! The rain was pouring down on the glass portico. A sudden storm had swept up out of a clear sky. Every one was caught unawares. The stray cabs were seized in a moment, the omnibuses crowded before you could look around. There was actually only one umbrella in the stand by the door of the Cafe de Luxe. I stood, in a new hat and a light gray frock coat, and eyed the umbrella speculatively. I knew the owner. He had just gone to lunch. He was a large and long luncher. I was in a hurry. Perhaps the storm would pass. I could send it back by a commissionaire. I was very apt to take cold, and my appointment was really very important.

Thus prompted of satan, I put forth my hand toward the umbrella. At the moment I perceived, like a stage villain, that I was observed. In fact, I was not alone. A young lady of most attractive appearance stood a few feet from me, also under the portico, peering wistfully out into the wet. She wore a summer costume. She looked at her watch, then again at the storm, and murmured disconsolately, "Oh, I shall be late." An instinct of generosity overcame me. Without another thought for my sensitive chest or my light gray suit, with a firm proprietary air, I laid hold of Dawson's umbrella.

"Allow me," said I, "as cabs seem unattainable, to offer you an umbrella."

A glad light leaped into her eyes. "Oh, I couldn't," she said. "What would you do?"

"I don't mind a wetting," I answered heroically. "Pray take it. You can send it back here at your leisure" (Dawson could not have much more than finished his soup).

"I couldn't think of it," she repeated. "You will get soaked through."

A sudden thought struck me. After all, I had no business to lose sight of Dawson's umbrella.

"Perhaps," I ventured to suggest, "our roads lie the same way. It's a large umbrella." And I opened it. It was not a very large umbrella, but how could I know that?

"I go this way," said she, with a motion of her head westward.

"My way," I cried. "Come, this is providential."

We started.

"If you wouldn't mind taking my arm," said I, "we should be better sheltered."

"Oh, perhaps we should. Thank you!" And she nestled quite close to me. We walked along, talking. My left shoulder got all the drippings, but somehow I was indifferent to that.

"Are you sure you are thoroughly sheltered?" I asked.

"Perfectly," she answered. "But you're not, I'm afraid. You're too kind. Mamma will be so grateful."

I liked this simple friendliness.

"I thought there was no chance of rain today. You are more careful, Mr. Dawson."

I could not repress a little start.

"You know my name?"

She laughed merrily.

"It's on the umbrella—half an inch long," she said. "I couldn't help reading it."

There it was—"Joshua Dawson, 4 Calceolaria Villas, West Kensington, W." Somehow the address annoyed me—I myself live in St. James street.

"A strange way to make acquaintance, isn't it?" she asked, with a coquettish glance.

"Delightful. But you haven't allowed me to make acquaintance with you yet. Haven't you your name anywhere about you?"

"My name is Lydia Lovelock," she said. "Don't you like it? It's prettier than yours."

"Certainly prettier than Joshua Dawson," said I, wishing Dawson had chanced to be a duke.

"Joshua Dawson isn't pretty," she observed, with candid eyes; "now, is it?"

"Then you wouldn't take my name instead of yours?" I asked, to keep up the conversation.

"Your umbrella's enough to take for one day," she said, with a blush. As she spoke she slipped and all but fell on the shining pavement. She gave a little cry. "Oh, my ankle!" and leaned heavily upon me. I held her up.

"I believe I've wrenched it badly," she added. "Oh, what a lot of trouble I'm giving you Mr. Dawson!"

She looked lovely—I give you my word, positively lovely—in her pain and distress. I don't think I said so, but I said something, for she blushed again as she answered:

"That's very nice of you, but how am I to get home?"

"I must come with you," I said.

She shook her head.

"I can manage now."

"But you'll never be able to get out."

"Oh, yes. But—perhaps—the rain's almost stopped—may I keep the umbrella? There are some steps to mount to our door, and"—

Now, could I do anything else than press Dawson's umbrella upon her? She took it, and with a last bewitching smile vanished from my sight. I turned and almost ran back to the Cafe de Luxe, determined to make a clean breast of it to Dawson. When I was 50 yards off, I saw him under the portico. The manager and four waiters stood round him in disconsolate attitudes. One or two of his remarks—he was talking very loud—reached my ears. I changed my mind. I would wait till he was calmer. I turned away, but at that instant Dawson caught sight of me. A second later he was pouring the story of his wrongs into my ear.

Here came my fatal weakness. I let him go on. He took me by the arm and walked me off. I could not escape him, and all the way he thundered against the thief.

"If it costs me £20, I'll bring him to justice!" he declared. Really I dared not break it to him just yet.

Suddenly from round a sharp corner there came upon us—almost running into us—Lydia Lovelock herself, with Dawson's umbrella in her hand. He had been narrowly scanning every umbrella we passed. He scanned this one and cried, darting forward:

"My umbrella!"

With a little scream Lydia turned and fled. Dawson was after her like an arrow. I pursued Dawson. Why, oh, why, did she run away? Surely she must have recognized me.

It was a very quiet street we were running up, and our strange procession attracted little notice. The chase was soon over. I caught Dawson just as he caught Lydia. For a moment we all stood panting. Then Dawson gasped again: "My umbrella! Thief!"

Lydia seemed very agitated. Of course I came to her rescue. Avoiding Dawson's eye, I hastily told my shameful tale. Lydia's face brightened, but still there was apprehension in her looks.

"This lady, believe me," I said, "is entirely blameless. Of course she thought the umbrella was my own. My sole consolation, Dawson, is to think that had you been in my place you would have done the same."

"I don't see," remarked Dawson rudely, "why it consoles you to think me a thief."

I preserved a dignified silence.

"However," he continued, "if this young lady has quite finished with my property, perhaps she will be good enough to give it me back."

Lydia did not take the hint. She clung to the umbrella.

"If—if you would be so kind," she stammered, "as to lend it to me for today—the weather is still threatening—I would return it tomorrow."

"Your request, madam, is a modest one," answered Dawson sarcastically, "but, as you observe, the weather is threatening, and I want my umbrella. Kindly give it me."

"Really, Dawson, to oblige a lady"—I began.

"Why don't you buy her an umbrella?" sneered Dawson.

"If she would accept it, I should be"—I stopped. To my surprise, Lydia laid her hand on my arm and said: "Oh, do, please! And may I keep this till we get to the shop?"

I did not understand her, but we turned round and began to walk, looking for a shop. She was a very strange girl. She lagged behind. I had to wait twice for her. Once she took a turning as though to leave us, and when I called her back she pouted.

Suddenly Dawson looked up.

"It rains," he said.

It did not.

"Put up the umbrella," said Dawson roughly.

"Let the lady have it," said I indignantly.

"We'll share it," grinned Dawson. "You can get wet."

But Lydia did not put it up.

"The rain's not much," she faltered. It was now pouring. With a muttered oath, Dawson snatched the umbrella from her. Lydia shrieked and ran away like a frightened rabbit—ran at the top of her speed up the street again.

"Stop, stop!" I cried. "Stop, my dear Miss Lovelock!"

"Holy powers!" exclaimed Dawson.

He had opened the umbrella. As he did so there was a thud on the pavement—two, three thuds. In amaze I looked down. There lay a silver cigarette case, two purses and a gold watch. Dawson burst into maniacal laughter as he pointed at Lydia's retreating figure. That girl could run.

For a moment I stood dumfounded. What a revelation! Dawson chuckled in satanic glee. Sadly I stooped down and picked up the purses, the cigarette case and the watch.

"Great Scott!" I cried, and my hand flew to my waistcoat pocket.

It was my watch!

I did not prosecute Lydia because I could not have overtaken her, and for other reasons. It was altogether too sad, too disheartening, too disappointing a discovery. Dawson, however, observed that it seemed to him an excellent example of poetic justice in real life.—St. James Gazette.

Treatment For a "Wild Hair."

A "wild hair" is the most annoying freak of nature a man can be afflicted with. It grows in from the eyelid, instead of out, and constantly brushing against the eyeball sometimes causes an irritation that results in the loss of sight. To pull it out gives only temporary relief, since in a few weeks it comes back as well grown and strong as ever. The only way to kill it is to destroy the sac from which it springs. This is done by means of the electric needle, which is passed into the sac and a current turned on. A sharp prick is felt, and the hair is forever dead.—St. Louis Globe-Democrat.

Odd Ways of Shaking Hands.

The black kings of the African coast press your middle finger three times as a sign of salutation, the Japanese takes off his slipper, while the Laplander pushes his nose vigorously against you. In Hindostan they salute a man by taking him by the beard, while the people of the Philippine islands take your hand and rub their face with it. The king of Ternate rises to receive his subjects, and they sit down to salute him.—F. H. Stauffer in Kate Field's Washington.

Marrying For Pity.

A fair maiden who had weathered the blast of some 33 summers was informed by a booby that unless she married him he would blow the top of his head off. It's a pity she didn't let him do it. Heads of that kind ought to be blown off every time. That is what they are for. But Desdemona pitied Othello, and this fair maiden pitied her lover and went to the parson's with him. That was only a month ago, and now if he wants to kill himself she will present him with the best silver mounted pistol in the market.

Marriage is a solemn contract, and it is better to think twice before signing it.—New York Telegram.

Family Expenses.

A few days since the wife of a wealthy man went into a grocery store where most of the provisions for the house were bought. She went in considerable haste to the proprietor and asked him to loan her a dollar. Her husband, she said, had gone down town and forgotten to leave her any change, and she must have a little immediately. She took the bill, rolled it up and put it into her glove, then in an undertone said: "Please charge that as sugar. My husband might not like it if I borrowed money." The man said "Certainly!" and the woman went out. A customer who was standing at a little distance but who was concealed from the lady by a pile of tea chests smiled to himself and then smiled at the grocer who came back to finish filling his order.

Although the grocer said nothing, it was a well understood fact to the customer, as it is to many other people in large cities, that this is not an uncommon practice. Men who are liberal with the families, as far as food and clothes go, rarely give them a cent for their own use. They will pay any reasonable bill and many unreasonable ones, but they pay them in checks and overlook the bills themselves, then they fancy they know what becomes of the money. Such conduct is unwise. If there is anything in the world that has a tendency to drive a woman to underhand practices it is such lack of confidence on the part of her husband or father.

A wise way is to make a regular allowance for each member of the family.—New York Ledger.

Witty Remarks of an Artist.

Kenny Meadows was an artist who was always welcome at any social gathering, for he had an infinite fund of quotation and mother wit. A certain well known studio pun was his. There had been one day a long talk about fresco and the palette necessary for it, and the repeated remark that it needed a palette of earths quite tired him out.

"You talk of ochres," he said, "but the worst of all you haven't named, though it's the commonest. That's the mediocre!"

"Then," said another artist, "you don't believe in the golden mean's being the best of things?"

"No," said he, "I'll divide that with you. You may take the mean, and I'll keep the gold."

According to his own talking, his standard of praise was a financial one.

"Now I dare say you think yourself a very clever fellow to paint so good a picture," he said to his friend, William Bell Scott, who had just completed his "Old English Ballad Singer." "But it's nothing to paint a picture compared with what it is to sell it. When you do that, I'll congratulate you!"

But every one knows just how much such deprecatory criticism meant. Meadows was "fond of talking."—Youth's Companion.

Works of Patience.

Probably the sternest patience is displayed by the sculptor or the painter who will spend months and years in materializing a conception. There is no doubt more of patience displayed by the Caucasians, speaking numerically, than any other race, but I maintain that it is a gift of nature and just as like to come to a dog as to a man, only the dog would not have sense enough to use it as effectively as man would. I have seen a great deal of this quality of nature displayed by savages, such as the negroes of Africa and the Indians of America. We all admire the armor of the old English knights and the wonderfully intricate workmanship displayed upon many of them, but I have seen Indian war costumes that would make the eye of the seeker after curiosities and rarities simply blind. The whole is intricate and interesting to look at, but closer inspection will invariably show almost endless work—labor of years to make it look beautiful. Some of the negroes of the south have fishing rods and tackle that are marvels of delicate hand workmanship, so much so that there is nothing like them to be had in the market for money. All this, however, is only accomplished by almost supreme patience.—St. Louis Globe-Democrat.

First Illustrator of America.

In the British museum there is preserved John White's original drawings in water colors illustrating Sir Walter Raleigh's voyage into Virginia in 1585. This John White was an English painter who was sent by Queen Elizabeth in 1585 to Virginia as principal draftsman in Raleigh's second expedition for exploring the country and planting his first "colonie." The expedition of seven ships was under the command of Admiral Sir Richard Grenville, the ancestor of the founder of the Grenville library in the British museum.

This first "colonie," consisting, of 108 men, remained in Virginia one whole year and then returned to England in July, 1586, in Sir Francis Drake's fleet, then coming victorious from the West Indies, because the long expected supplies and reinforcements from England had not arrived. Fourteen days after their departure Sir Richard Grenville arrived with new stores and new planters, to find the old "colonie" deserted. Little is known respecting John White. It is recorded, however, that he made four voyages to Virginia and that during the second expedition he was appointed governor, in 1587. He was the grandfather of Virginia Dare, the first English child born in North America. In 1588 Theodore de Bry on a visit to London was induced to engrave the said drawings and his work was issued in 1590 in folio at Frankfort.

Copies of this book are very rare. There is a very imperfect one in the library in Harvard college.—Art Amateur.

The telephone was first practically used in England in 1876, when over 115 miles of wire existed between London and Norwich, but no telephone exchange was established until 1879, when 10 offices were established.

In the jewel house of the Tower of London there is a book bound throughout in gold, even to the wires of the hinges. Its clasp is two rubies set at opposite ends of four golden links.

The work performed by the human heart each 24 hours is equal to the lifting of 120 tons to a height of one foot in the same length of time.

Championed by a Gamin.

A ragged, barefooted boy, a crossing sweeper, had doffed his cap to the Duchess of Sutherland in the hope of recognition, when he observed a well dressed but rakish looking man following her across the street, as if trying to force upon her attentions that were evidently obnoxious to her. There was a look of distress on the duchess' face.

"Scuse me, lady," said a boy's voice beside her, "shall I punch 'is 'ead?"

She turned, looked down angrily upon the little sweeper, and then said, smiling: "Why, it's Jemmie!"

She had remembered his name after all, and at that moment the boy was hers, body and soul. Without waiting for another word he dashed off and turned a sort of violent "cartwheel" so adroitly calculated that he landed with two very muddy feet in the middle of the offensive man's waistcoat.

Then, before the man could recover from the shock, the boy had slapped him with one muddy hand across the mouth and with the other had deposited a handful of the filthy compound on the back of his neck.

The next moment the boy was in the grasp of a policeman, who dragged him away to the nearest police station. He was just being charged by the constable with having committed an assault when the duchess entered. She spoke kindly to the gamin and then explained the affair to the inspector on duty.

At her request the boy was set at liberty, and he staid only long enough to say to the inspector:

"It's the lady what nursed me when the cab run over me leg."—London Cor. New York Tribune.

Hints About Driving.

When driving, you must watch the road. Turn out for stones, so that the horse shall not stumble nor the wheels jolt over them; avoid the mudholes and places where the going is bad; let the horse slacken speed when the road becomes heavy, and if you want to make up time do it where the ground slightly descends.

It is a common mistake to think that a horse can haul a carriage easily on the level. On such a road he has to be pulling every moment; there is no rest. Whereas when the road now rises and now falls the weight is taken off him at times and he has a chance to recover his wind and to rest his muscles. As between a level road in a valley and an up and down road over the hills, the latter is by far the easier for a horse to travel. When you come to a long level stretch, let your horse walk a bit in the middle of it.

Almost everybody knows that for the first few miles after coming out of the stable a horse should be driven slowly, and especially if he has just been fed. On a journey it is of the utmost importance to observe this rule. Be careful, however, not to check a young nag too quickly when he comes fresh out of the stable. Give him his head, talk to him soothingly, and presently he will come down to a moderate pace. If you pull him up at once, you vex him extremely, so much so that he is not unlikely to kick.—Harper's Young People.

When Booth Saved Young Lincoln's Life.

It was at Bowling Green, Ky., during the summer of 1877. Edwin Booth stood upon a platform waiting for a train; so, too, did a man unknown to the actor. Buried in thought, this stranger left the platform to walk upon the track, not noticing an approaching engine. One moment more and there would have been an indistinguishable corpse. Silently, suddenly, Edwin Booth seized this stranger and lifted him almost bodily upon the platform. So close came the engine that it struck the stranger's heels as they left the track. "Do you know who that man is?" asked Mr. Ford, the well known manager of Baltimore, who witnessed the thrilling scene.

"No," replied Booth.

"Robert Lincoln, President Lincoln's son."

This was the most satisfactory incident in Edwin Booth's life. Sensitive as a woman, he suffered untold tortures for the mad deed of his brother. He had voted for Abraham Lincoln as president and never voted before or after.—Kate Field's Washington.

Materialism Against Wit.

Some things of course in the French display—especially of pottery and bronzes—are purely decorative, and some of the visitors of course are destitute of taste. The consequence is that occasionally a person will come along who will gaze at objects of transcendent artistic merit with no feeling but one of mystery and curiosity. So it happened the other day, when a simple minded woman stopped for awhile in front of one of a pair of vases 5 feet high, the price of which is $5,000.

She gazed at it attentively for a few moments and then said dryly to M. Mellalle, who stood by, "Pray, what is that for?"

The Frenchman took her measure at a glance and replied with elaborate politeness, "That is intended to boil eggs in, madam."—Chicago Tribune.

Making the Most of His Chances.

The family tutor was invited to a grand dinner party by his employers and surveyed with intense satisfaction the half dozen wineglasses arranged in front of his plate. The footman came round with the wine. The young man presented the smallest of the glasses.

"It is vin ordinaire," observed the waiter.

"Ah, precisely," replied our ascetic philosopher. "I am reserving the larger glasses for the finer sorts."—Chronique Bourgeoise.

The Arab's Donkey.

One sees Arabs coming into Constantinople with a donkey load of wood, which they sell for 3 francs. They have come 25 miles with it, sell it, and next day ride the donkey back. As a meal costs them but 3 cents, the wood nothing, and the donkey does all the work, what seems a small profit is really a good one. And who is it that earns it?

All saddle beasts in the east go what our Anglomaniacs call "artificial" gaits; in fact, three-fourths of all the animals in the world do so. Mules which are ridden always "riddle" or amble, all donkeys running walk, rack or amble. But nowhere except in our southern states have these gaits been studied as an art, improved on and bred from.—Colonel T. A. Dodge in Harper's.

A Lie Told In School.

It has always been father's purpose to give his children a fair education, but as the family increased in size and numbers and father's salary would not grow in the same proportion, he found it necessary to cut down some of the avenues of expenditure. One of his first thoughts was that of the shoe bill for the family. Said he, "I'll be the cobbler when any shoes need repairing after this." Unfortunately my shoes gave out first, and the next day was set for repair day. Father brought from the shop where he was working some of the old belting that had been laid by. This leather was thoroughly saturated with oil, and as I entered the schoolroom next day with new taps on my shoes the oil would form a mark on the floor, just like a footprint on the newly fallen snow, and what good excuse to tell I couldn't think of.

It became an eyesore to the whole school, and I was wishing somehow I might take a vacation. Finally the teacher noticed it. I was called up to the desk, leaving my track all the way, and asked to explain. Shaking like a leaf, I told the story. My brother Jack and I had got to fighting the other day in the cellar, and he threw me in a pan of grease that was near by cooling. That lie settled the teacher, but the other element of the school were not satisfied until they stood me on my head and looked at my shoes.—Cor. New York Recorder.

In a City Restaurant.

A trifling incident noted not long ago in a city restaurant tells its own story and needs no spoken moral. Two girls, possibly attendants in a shop, were sitting together eating their luncheon, and one was holding forth to her companion on an experience which had just befallen her.

"I came in here," said she, "and got this seat, but wasn't long before an old lady came in and sat next to me. She took off one pair of glasses and put on another. Then she stared and stared at the bill of fare and laid it down. I thought first she couldn't read a word. Then she turned around to me.

"'Will you let me sit next to the window?' says she.

"I didn't take any notice, and in a minute she said it again. Then I answered her:

"'No,' says I, 'this is my seat, and I'm going to keep it.'

"She turned 'way round in her chair then and looked me all over. Then she looked away. But I guess she knew I'd got the best of her, for she did have the manners to say:

"'I beg your pardon.'

"She spoke real low, and I noticed she looked kind of surprised."—Youth's Companion.

All Right.

Two men became engaged in a fight in the street. Instantly their hats went off and rolled in the dust. One of the men was entirely bald, and the other had a thick head of hair. The bald man seized the other by the hair and began to drag him about.

"Stop him!" cried a bystander.

"Why should you stop him?" asked another. "He's only practicing the golden rule."

"The golden rule? What do you mean?"

"Why, he's doing to the other man what he wishes to goodness the other man might be able to do to him!"—Youth's Companion.

Anticipatory.

Lady of the House—Aren't you ashamed of yourself—a great, strong man like you to be idling your time away?

Transient Individual—Ah, mum, but you forget the business depression.

Lady of the House—Bother the business depression! To my knowledge you haven't done a stroke of work for years.

Transient Individual—Of course. I was merely anticipating the panic, you know—getting used to loafing so I shouldn't mind it when there was no work to be had.—Boston Transcript.

Good Enough For a Beast.

A droll little story is told of Mr. W. S. Gilbert. He put up his horse one day at a small country inn, on the signboard of which was painted conspicuously the notice, "Entertainment for man and beast." When his lunch was brought, he looked dissatisfied, and surprised the waiter by saying, "This is all very well so far, but where is the entertainment for the man?"—London Tit-Bits.

The Norwich Weekly Courier is the best weekly newspaper in New England at 50c a year.

EVENING SCHOOLS.

The necessity for evening schools has been painfully apparent for several years in this place; and the advantage of them to the working classes is too well understood to need stating.

The last legislature passed a law making the establishment of evening schools in towns and school districts having ten thousand or more inhabitants compulsory, for the instruction of persons over fourteen years old in such branches as the proper school authorities of the town or district shall prescribe. This law requires that one hundred sessions of the school shall be held.

This law also provides that no person over fourteen or under six years of age, who cannot read or write, shall be employed in any manufacturing, mercantile or mechanical occupation in any town where evening schools are established unless he can produce every school month of twenty days a certificate from a teacher of an evening school established under this law, showing that he has attended such school twenty consecutive evenings in the current school year, and is a regular attendant. Any person who employs a child contrary to this law will be fined not more than fifty dollars.

Parents having children at work of the ages stated should send their names to the district committee or the principal of the schools, so that the committee may be able to draw the money from the state for their support and know how many teachers it will be necessary to employ to instruct them.

NAIL THE FLAG TO THE MAST.

When The New Haven Register presented a flag to the city that "old glory" might be seen floating from the flagstaff three hundred and sixty-five days in the year it did not suppose that it was furnishing a bone of contention for petty officials to dispute over. THE BULLETIN suggested upon the first announcement of The Register's gift and purpose that the only way to accomplish such a feat was to splice the national colors to the masthead and let the sun shine upon the flag, and the winds and the storms play with it, as janitors were uncertain as well as halliards.

Now The New Haven Leader says: "It is time that the bickering over the flag raising business was stopped. The way the gift has been treated and the wrangle that has resulted because of the uncertainty concerning whose duty it is to attend to it is a disgrace to the city, and to the people of this and other states must seem silly and contemptible.

"The proper authorities should designate somebody to care for the flag properly, or they should return it to the givers with the explanation that they are too mighty narrow minded and inefficient to dispose of such an important matter.

"Josh Billings used to say that some things 'seemed too cussed small to come even from a man.' This flag raising wrangle merits even stronger criticism."

With its ingenuous mayor and its array of newspapers "the elm city" ought to be able to keep petty officials from quarreling and the flag constantly floating up high.

PEARY'S CHANGED PLANS.

The return of the Falcon and her report that the Peary party landed at its destination on August 3, shows that while the enterprising news-makers of the north were predicting the failure of the expedition, it was at the Crimson cliffs of Sir John Rogers, on Melville bay, which Peary has called "Radcliffe;" and has chosen for his permanent quarters; and eight days later the party on the Falcon went upon a successful walrus hunt.

The determination of Lieut. Peary to return next summer puts an end to his making any pretense of reaching the pole, or even the highest north. This does not leave him time to make such an arctic journey. He will not do much this fall, except to prepare for the winter, and study the country in the vicinity of his camp. The sun disappears about the 17th of October and does not return until the 27th of February, a period of four months, when little can be done in the way of advance. There will be left six months next year in which to accomplish all that can be done by the party. Greely's party was encamped at Lady Franklin bay, eight days sail farther north than Melville bay, and was there three years, and with its base of supplies nearer the pole, it could not accomplish the feat of reaching it.

This change makes it probable that Gen. Greely is about right when he predicts that this exploring party will not make more than 100 miles north of Cape Bismarck. While the expedition may add much to our knowledge of Greenland, it does not promise to add anything new to our knowledge of the north pole.

EDITORIAL COMMENT.

Gen. Grant said "the democrats could always be relied upon to act the fool at the right time!" The general had their [illegible].

Prince Bismarck is strong in matters of state but weak at the table—he has been in danger of death because he could not control his own appetite.

President Cleveland isn't saying much, but Benedict says he is a great and victorious cribbage player, and that a bad tooth could not keep him from beating them all.

A congress of American doctors has decided that President Cleveland has health enough to warrant any life insurance company in issuing to him a large policy upon his chance of living.

It is now said W. B Hornblower may become the youngest judge on the supreme court bench. Pretty soon the world may be surprised to hear Blowncah has been made a bishop! What's in a name!

Emperor William of Germany says: "Lorraine will forever remain German, protected by God and the German sword!" The Frenchmen have no evidence of this mighty alliance and they will not take the "war lord's" word for it.

"Oh, the factory bells are ringing!" but there are lots more of them to ring in the valleys of New England, and the people will be glad when they hear them all ringing in unison, as they were doing in the days of Harrison and a stable republican policy.

The New York World can tell the truth sometimes when it is talking about democrats. That paper says "Attorney General Olney would not know the anti trust plank of the democratic platform if he should meet it in the middle of the road!"

There is little doubt that the administration is in favor of revolutionizing the present financial system of the United States, but the powers that be at Washington, and the democratic powers that want to be, do not agree in their schemes. They should take notice of the people's label upon the present excellent system—"Hands Off!"

Kate Sanborn bought "an abandoned farm" in Massachusetts and wrote a book upon it which produced more cash than the farm could. Now her hens are laying forty dozen eggs a week and she is going to lay before the American public another work upon "The Hen Farm by a Hen Woman!" The "hen woman" will bring in more cash than "the hen farm will."

The Norwich Weekly Courier is the best weekly newspaper in New England at 50c a year.

VOICE OF THE PRESS.

A Humiliating Trio.

An anarchist governor, a rowdy mayor and a drunken judge. The measure of Chicago's humiliation would seem to be complete.—[Boston Journal.

Another Truth.

A well bred person speaks in the same low voice to the poor as to the rich. If a man begins to talk loud when he addresses a poor man, that settles it.—[Atchison Globe.

New Evidence.

If the government requires new evidence before it can reopen a case in which a pension has been refused new evidence should also be necessary before a granted pension can be suspended.—[Ex-Deputy Commissioner of Pensions Lincoln.

Goggin Victorious.

Judge Goggin has come out victorious. The fair will not be closed on Sundays. That wearisome old senatorial humbug, "official courtesy," won the fight, Judge Goggin's judicial colleagues declaring it would not be courteous to overrule him.—[New York Press.

"Too Durned Unanimous."

Not much attention appears to have been paid to the state election which occurred in Arkansas the other day. Probably this is accounted for by the fact that the Democratic ticket encountered no opposition. That is one of the penalties of being too durned unanimous.—[Boston Herald.

It Must be Obeyed!

The senate will have to wake up. . . . If Senator Stewart and his associates were wise they would cease their harangues and filibustering and yield at once to the inevitable. If they refuse to do so willingly, then means must be found to sweep them out of the way. The popular will has been expressed in unmistakable terms and it must be obeyed.—[New York Herald.

A Much Killed Man.

If the four separate informants who told Missionary Swann about Emin Pasha having his head chopped off and being eaten by cannibals are truthful persons, it is possible that that much-killed man of science is really dead. We cherish the hope, however, that he will be heard of presently as alive as ever. Dr. Peters, we notice, refuses to take any stock in the circumstantial story which worked conviction in the mind of Missionary Swann.—[The Courant.

A Man of Vivid Imagination.

When the times were good in Massachusetts, when labor was well employed and business was booming, Governor Russell went on the stump to talk about abandoned farms and industries that had folded their tents like the Arabs. Now, when mills have closed by the score and thousands of workmen are out of work by reason of the democratic tariff menace, Governor Russell goes to Worcester to talk of the "prosperity of Massachusetts." All of which shows what a vivid imagination he has.—[Boston Journal.

The Simple Truth.

Representatives from seventy-five textile factories in Philadelphia have held a mass meeting to protest against the interference of tariff smashers with their trade. A dozen speeches were made by operatives, and there was a unanimous opinion that uncertainty respecting tariff legislation was the sole cause of the shutting down of the mills. "The simple truth," said one of the men after the meeting, "is that our families are hungry and we want bread. We don't pretend to understand the fine system of free trade, but we do know that we can earn a living under a protective tariff, and now many of us are earning nothing." That was republican logic a year ago. It is now non-partisan experience.—[New York Tribune.

NORTH STONINGTON.

The Home-Goers—Visitors—To Teach in Glasgo.

Mrs. B. F. Sisson and daughter, who have spent two months in town, left Monday for their home at Binghamton, N. Y. Mrs Sisson expected to meet her son, Carl Sisson, in New York city Wednesday on his return from a European tour, and from there they proceeded home together.

Mrs. C. W. Ray and grandson are guests of friends in the village.

Mr. Augustus Avery and family of Brooklyn have been the guests of his brother, Mr. John D. Avery.

Mr. Albert Main and family of Greeneville, Miss Minnie Starkweather of Providence, Miss Gertrude Chapman and Miss Smith of Old Mystic, spent last Sunday in town.

Miss Nellie Chapman, a graduate of the "Wheeler school," has taken a position as teacher in the graded school at Glasgo.

The Norwich Weekly Courier is the best weekly newspaper in New England at 50c a year.

With Ely's Cream Balm a child can be treated without pain and with perfect safety. It cures catarrh, hay fever and colds in the head. It is easily applied into the nostrils and gives immediate relief. Price 50 cents.

My catarrh was very bad. For thirty years I have been troubled with it—have tried a number of remedies without relief. A druggist advised Ely's Cream Balm. I have used only one bottle and I can say I feel like a new man. I make this voluntary statement that others may know of the Balm.—[J. W. Mathewson, (Lawyer) Pawtucket, R. I.

Every woman who suffers from Sick Headache, and who dislikes to take bitter doses, should try Carter's Little Liver Pills. They are the easiest of all medicines to take. A positive cure for the above distressing complaint; prevent and cure Constipation and Piles. As easy to take as sugar. Only one pill a dose. Price 25 cents. If you try them you will not be without them.

For Over Fifty Years

MRS. WINSLOW'S SOOTHING SYRUP has been used by millions of mothers for their children while teething. If disturbed at night and broken of your rest by a sick child suffering and crying with pain of Cutting Teeth, send at once and get a bottle of "Mrs. Winslow's Soothing Syrup" for Children Teething. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures Diarrhœa, regulates the Stomach and Bowels, cures Wind Colic, softens the Gums and reduces Inflammation, and gives tone and energy to the whole system. "Mrs. Winslow's Soothing Syrup" for children teething is pleasant to the taste and is the prescription of one of the oldest and best female physicians and nurses in the United States. Price twenty-five cents a bottle. Sold by all druggists throughout the world. Be sure and ask for "MRS. WINSLOW'S SOOTHING SYRUP."

A woman who is weak, nervous and sleepless, and who has cold hands and feet, cannot feel and act like a well person. Carter's Iron Pills equalize the circulation, remove nervousness, and give strength and rest.

The Best in the World.

Senator Henry C. Nelson, of New York, writes: "On the 8th of February, 18[illegible], I was taken with a violent pain in the region of the kidneys. I suffered such agony that I could hardly stand up. As soon as possible I applied two ALLCOCK'S POROUS PLASTERS, one over each kidney, and laid down. In an hour, to my surprise and delight, the pain had vanished and I was well. I wore the plasters for a day or two as a precaution, and then removed them. I have been using ALLCOCK'S POROUS PLASTERS in my family for the last ten years, and have always found them the quickest and best remedy for colds, strains and rheumatic affections. From my experience I believe they are the best plasters in the world."

To be free from sick headache, biliousness, constipation, etc., use Carter's Little Liver Pills. Strictly vegetable. They gently stimulate the liver and free the stomach from bile.

MYSTERIES!

The Nervous System the Seat of Life and Mind. Recent Wonderful Discoveries.

[illegible] But notwithstanding this fact it is not generally known that the seat of life is [illegible] the upper part of the spinal cord, [illegible] base of the brain, and [illegible] tion of the nervous [illegible] prick of a needle will [illegible]

Recent discoveries have demonstrated that all the organs of the body are under the control of the nerve centers, located in or near the base of the brain, and that when these are deranged the organs which they supply with nerve fluid are also deranged. [illegible] membered that a serious injury to the spinal cord will cause paralysis of [illegible] the injured point, because [illegible] prevented by the injury from [illegible] the paralyzed portion, it will be [illegible] the derangement of the [illegible] cause the derangement of the various organs which they supply with nerve force.

Two-thirds of chronic diseases are due to the imperfect action of the nerve centers at the base of the brain, not from a derangement primarily originating in the organ itself. The great mistake of physicians in treating these diseases is that they treat the organ rather than the nerve centers which are the cause of the trouble.

DR. FRANKLIN MILES, the celebrated specialist, has profoundly studied this subject for over 20 years, and has made many important discoveries in connection with it, chief among them being the facts contained in the above statement, and that ordinary methods of treatment are wrong. All headache, dizziness, dullness, confusion, pressure, blues, mania, melancholy, insanity, epilepsy, St. Vitus dance, etc., are nervous diseases no matter how caused. The wonderful success of Dr. Miles' Restorative Nervine is due to the fact that it is based on the foregoing principle.

DR. MILES' RESTORATIVE NERVINE is sold by all druggists on a positive guarantee, or sent direct by Dr. Miles' Medical Co., Elkhart, Ind., on receipt of price, $1 per bottle, six bottles for $5, express prepaid. It contains neither opiates nor dangerous drugs.

Sold by N. D. Sevin & Son and Lee & Osgood.

A STATESMAN DEAD.

Ex-Secretary of State Hamilton Fish No More.

CLOSE OF A SUCCESSFUL CAREER.

Was an Intimate Friend of General Grant.

GARRISON'S, N. Y., Sept. 7.—Hon. Hamilton Fish, ex-secretary of state, died at his country residence here this morning.

Few of the younger generation will realize that Hamilton Fish, who has just gone to his final reward, was for many years a particularly prominent political figure. He was Grant's intimate friend and his choice for the presidency in 1876.

Hamilton Fish was born in New York city Aug. 3, 1808. He was the son of Nicholas Fish, a Revolutionary patriot, who was an intimate friend of Aaron Burr until the latter killed Alexander Hamilton in their historic duel. Baby Fish was, as nearly as a child could be, born with a gold spoon in his mouth.

As a boy he was very bright and graduated from Columbia college before he was 19 years of age. In 1834 Mr. Fish was the Whig candidate for the state assembly, but was defeated. In 1842 he was the successful congressional candidate for the Whigs of the Sixth district of New York city. He served but one term. He was a candidate for lieutenant governor in 1846, but was defeated owing to the active efforts made against him by the anti-renters, whose principles he had vigorously assailed. The head of the Whig ticket was elected, however.

When Mr. Fish's successful Democratic competitor, Addison Gardiner, resigned his office during the following year to accept a seat on the court of appeals bench, Mr. Fish was chosen to succeed him, and in 1848 he was further honored by being elected governor by a majority of over 30,000 over John A. Dix and Reuben H. Walworth. At the expiration of his gubernatorial term Mr. Fish was elected to the United States senate to succeed Daniel S. Dickinson. In the senate he acted with the Republican party and opposed the Missouri compromise.

In 1857, when his senatorial term had ended, Mr. Fish made a tour of Europe with his family, remaining abroad until 1860. He returned in time to take a prominent part in the presidential campaign which resulted in the nomination and election of Abraham Lincoln. In 1862 Mr. Fish and Bishop Ames were appointed by Secretary of War Stanton a commission to visit United States soldiers, relieve their sufferings and provide for their necessities. While they did not succeed in their immediate purpose, they arranged for an equal exchange of prisoners, which practically prevailed in the details agreed upon by them up to the close of the war.

Mr. Fish was an enthusiastic admirer of General Grant, whose nomination for the presidency he advocated warmly in 1868. After Grant's election he was appointed secretary of state and held the office until the expiration of Grant's second term in 1877. An effort was made to nominate Mr. Fish for the presidency in 1876, President Grant being an earnest supporter of the movement.

It is upon his work as secretary of state that Mr. Fish's reputation principally rests. He took a great interest in the foreign consulates and advocated the appointment of only men who possessed sufficient knowledge of the work to which they were to be assigned to make them valuable representatives of the United States. To this end he introduced a system of examinations for applicants. He was one of the United States commissioners to negotiate the treaty of Washington, which was signed May 8, 1871. Mr. Fish brought about a settlement of the northwestern boundary dispute, by which this government was given the island of San Juan. He also figured prominently in the settlement of the Alabama and Virginius questions.

At the end of his second term as secretary of state Mr. Fish retired from public life and never expressed a wish to re-enter it, although his name was several times mentioned in connection with important offices. For many years he was president of the New York Historical society, and was president general of the Society of the Cincinnati continuously from 1854 up to the time of his death, his only predecessors in this highly honorable office having been George Washington, Alexander Hamilton, Charles Cotesworth Pinckney, Thomas Pinckney, Aaron Ogden, Morgan Lewis, William Popham and A. Beammell Dearborn.

Mr. Fish was a man of fine physique. His wife died in 1877, leaving five children, one of whom, Hamilton Fish, Jr., has been prominent in New York state politics for several years. Mr. Fish was several times a millionaire, and is said to have spent $300,000 a year.

FIGHT TO THE DEATH.

Two Police Officers Shoot at Each Other at Arms Length.

HOPKINSVILLE, Ky., Sept. 7.—A feud has existed for some time between police officers Robert West and W. B. Davis. Yesterday the two officers met at the Louisville and Nashville depot, when suddenly Davis turned and fired at West, who jumped into a doorway, but, drawing his pistol, came out and returned the fire.

Both men then advanced, and when within an arm's length of each other Davis placed his pistol against West's left breast and pulled the trigger. At the same instant West's pistol was discharged, and Davis fell. West started to turn, but fell into the arms of a friend who had hurried to the scene.

"He has shot me through the heart," said West. "Send for my wife." Scarcely had he spoken when two more bullets from Davis' pistol whistled by his head. Davis, lying on his side in the agonies of a mortal wound, was bent on finishing his work.

West was carried to the platform, where he expired in four minutes. The bullet had passed through his heart. Davis was placed in a carriage and taken to his house, where he is dying. Davis has been placed under arrest, and two officers are sitting in the dying man's room.

NEWS OF THE SCOURGE.

Nantes the Center of the Epidemic. Declining in Southern France.

LONDON, Sept. 7.—Dispatches from Vienna say that an autopsy on a laborer who died in that city shows that the cause of death was Asiatic cholera of the most virulent type. During the last 48 hours 19 new cases and 11 deaths were reported in Galicia and 30 new cases and 28 deaths in Hungary.

The czar has directed that military maneuvers on a large scale be held in the autumn, near the Austrian frontier. Regiments have been ordered to the maneuvers from Podoil, in spite of the cholera epidemic in that province.

The Vienna correspondent of The Times telegraphs that the maneuvers in Galicia are being performed in accordance with the program. The weather is cold. The troops are healthy.

A dispatch from Berlin says that Dr. Monod's report on the condition of France says that Nantes is the present center of the cholera epidemic, the outbreak there being apparently due to the contamination of the Loire. The epidemic in the south of France is rapidly declining.

USED DYNAMITE.

Twenty-Eight Bombs Thrown at a Powder House—Five Guards Wounded.

NEW YORK, Sept. 7.—The Herald's Panama correspondent cables that news has been received from Honduras that the partisans of Bonilla recently attempted to blow up the garrison powder house in Tegucigalpa with dynamite. Weather conditions prevented a frightful loss of life.

Twenty-six dynamite bombs were thrown at the powder house, and in the explosion five of the guards were fatally wounded. They died soon afterward. The building was demolished.

Incendiary Arrested.

NEW BEDFORD, Mass., Sept. 7.—Word has been received at police headquarters that Angelus Soell, the man who is suspected of having set fire to the Perry G. Lawton barn in South Dartmouth yesterday afternoon, has been arrested at Newport, at which place he made a harbor this morning with his sloop. Constable Howland at Dartmouth and Inspector Parker have gone to Newport for the prisoner.

Bank Resumes Business.

OGDEN, U. T., Sept. 7.—The Commercial National bank, which closed its doors July 7 on account of a deficit in the accounts of $70,000, alleged to have been embezzled by ex-Cashier Oscar E. Hill, resumed business this morning. The bank has on hand 50 per cent more than is subject to check.

Waste House Destroyed.

WORCESTER, Mass., Sept. 7.—The waste house of the mill of the Fisher Manufacturing company at Fisherville was destroyed by fire at 4:30 o'clock this morning with a loss of $1200, covered by insurance in the Boston Manufacturers' Mutual company. Cause, spontaneous combustion.

No New Developments.

LOUISVILLE, Sept. 7.—There are no new developments in the Louisville and Nashville shopmen's strike. No one has applied for work at the shops and no efforts have been made to replace the strikers.

Will Be City of Beverly.

BEVERLY, Mass., Sept. 7.—The town is voting today on the question of applying for a city charter. Polls opened at 7:30 and close at 4:30. There is no opposition. F. W. Choate is moderator.

Sanitary Inspector Has Cholera.

LONDON, Sept. 7.—Sanitary Inspector Dogherty was stricken with Asiatic cholera in Hull this morning and was taken to the hospital. There has been one death from cholera in Hull today.

NEWS IN BRIEF.

New York has plenty of currency.

Prince Bismarck's health has improved.

Counterfeits are circulating in New Haven.

Business interests all over the country are improving.

Zimmerman beat his own record for a mile at Springfield, O.

President Whitney of the West End railway, Boston, resigned.

The Spanish cabinet is trying to adjust the financial tangle in Havana.

Thousands of unemployed were set at work in various parts of the country.

W. H. Hathaway of Fall River, Mass., was held to await the action of the grand jury.

G. L. Day was arrested at Boston on the charge of misappropriating trust receipts.

The Grand Army chose Captain Jack Adams of Massachusetts its commander-in-chief.

The People's Party in state convention at Lynn, Mass., placed George H. Cary at the head of the state ticket.

Fall River (Mass.) operatives and mill owners have come to an agreement and the mills will resume work.

An attempt was made to wreck a train on the Bennington and Rutland road by weakening a bridge at Wallingford.

The receiver of the defunct Pacific National bank has been granted permission to dispose of the property he still holds.

At the Herne Hill track, London, A. W. Harris of Leicester beat the English quarter-mile record of A. A. Zimmerman, the American champion. His time was [illegible]

Another Victim Discovered.

MIDDLETOWN, N. Y., Sept. 7.—The body of old Paul Halliday, the husband of the woman under arrest, has just been found under the Holliday's house in Burlingham. The bodies of two murdered women were found under the barn several days ago.

Shook Hands With the Governor.

BOSTON, Sept. 7.—The railway mail clerks in convention here waited upon Governor Russell in a body this morning and shook hands with the executive. At the governor's suggestion they were shown over the state house.

The Lamp Exploded.

AMESBURY, Mass., Sept. 7.—Henry Gelley's house on Hill street, Amesbury, was damaged by fire to the extent of $1200 early this morning; partially insured. Cause an explosion of a lamp.

Quiet at Corrientes.

BUENOS AYRES, Sept. 7.—Quiet now prevails at Corrientes. The National Guard has been disbanded. Prolonged drought threatens the crops in the northern districts.

Train Jumped the Track.

CHICAGO, Sept. 7.—A milk train on the Fort Wayne railroad, due in Chicago at 10 o'clock this morning, jumped the track near Colehour, a small station just south of South Chicago. It is reported that eight or 10 persons were killed.

GASTRIC JUICE.

Eggs covered with cold water and removed the instant the water boils will be found delicate and tender.

A fruit cake is greatly improved by being steamed for two hours before baking and will require about an hour's less time in baking.

French chestnuts and salted pistachio nuts are popular bits between courses, but salted almonds cannot be displaced while an epicure survives to sip his claret.

A fruit ice is easily made by rubbing a quart of fruit through a colander and adding a cupful of water as sweet as honey. Mix with this the unbeaten whites of three fresh eggs and freeze, stirring constantly.

THE MOVING WORLD.

Typewritten music is new.

French builders make plaster floors.

Englishmen are experimenting with cow milking machines.

An Englishman has patented a submarine gas stove for heating the water in bath tubs.

Among the old patents of recent invention is one for a harness covered with phosphorescent paint, which makes it luminous at night.

THE NAVY REVOLTS.

Port of Rio Janeiro Has Been Blockaded.

PRESIDENT'S RESIGNATION ASKED.

Peixoto's Veto of a Bill Caused the Trouble.

NEW YORK, Sept. 7.—The Herald's correspondent in Montevideo telegraphs that the officers of the naval fleet now at Rio de Janeiro, Brazil, intimated to President Peixoto that he should resign.

The fleet consists of the cruisers Aquidaban, Republica and Trajano and three torpedo boats. The demand of the officers was made by Admiral Custodio Jose Mello.

In the fortress of Santa Cruz is stationed a garrison loyal to the Peixoto administration. They are under fighting orders and are awaiting an attack on the fort by the squadron. The port of

Rio Janeiro Has Been Blockaded.

News has been received officially confirming the reports of the revolt. Peixoto vetoed a bill which made it impossible for the vice president to become president. This enraged the naval officers, and to this is attributed the revolt. All communication with Rio has been prohibited by the government.

Word was sent from Rivera by The Herald's correspondent that a big fight has taken place between the revolutionists under Savannah and the government troops under General Portugal.

Governor Castilho has ordered out all the troops in active pursuit of the revolutionists, but details of the fight have not yet come to hand.

SILVER AGITATION

Has No Effect Upon the Mexican Market and Silver Coinage.

CHICAGO, Sept. 7.—R. Mills, superintendent of gold and silver mines owned by an English syndicate at Sonora, Mex., is in this city.

Mr. Mills says the agitation of the silver question in the United States has not in the least affected the Mexican market, and the silver output of that country is being coined into Mexican dollars and commands $1.17 an ounce. He says he does not fear any disturbance of the silver question in Mexico by whatever action the United States may take.

UNION PACIFIC MEN

Will Accept No Cut Down In Pay. Their Loss Rejected.

OMAHA, Sept. 7.—Something that has been taken as a semi-official intimation that the proposed tender of a loan of 10 per cent of their wages to Jan. 1 would not be accepted has caused a revulsion of feeling among the Union Pacific employes on the east end of the road.

Those on the west end have heard the same thing, and are reported as voting to accept no cut of pay. Some of the men on the east end are now said to have voted that they would not accept a reduction.

Burglars Under Arrest.

BOSTON, Sept. 7.—The men who burglarized the store of J. C. Bailey & Co., dealers in rubber goods at 22 Boylston street, early last Saturday morning are under arrest. They have been positively identified by certain parties and practically all of the property which was then stolen has been recovered. One of the men is an ex-inmate of the state prison, John Casey. His associate gives the name of John Connors alias Grady, but Inspector Barry says his right name is Thomas Donovan.

The Chester Accident.

BOSTON, Sept. 7.—The investigation of last Thursday's railroad accident on the Boston and Albany road, at Chester, by which a bridge over the Westfield river went down with a train load of passengers, resulting in the loss of nearly a score of lives, was begun at the rooms of the railroad commissioners this morning. The day was occupied in taking the testimony of the engineer, conductor and railroad employes.

Race a Disappointment.

NEW YORK, Sept. 7.—The first trial race of the cup defenders proved a great disappointment today. Both the Pilgrim and the Jubilee retired at the beginning, destroying all interest in the affair. At 12:20 the Vigilant was leading the Colonia by a quarter of a mile. At 1:30 the Vigilant made the turn of the stakeboat a mile and a quarter ahead of the Colonia, gained on the home stretch, winning the race easily.

Mines Will Start Up.

RUSSELLVILLE, Ala., Sept. 7.—The Fourtree ore mine and the Russellville coal mines, which suspended about two months ago, will resume operations next Monday on full time. About 2000 men will be given employment. The companies have contracts enough ahead to run the mines night and day for six months.

Work For Senators.

CONCORD, N. H., Sept. 7.—The Concord Commercial club has chosen Senators Chandler and Gallinger to represent it at a convention of representatives of commercial organizations of the country, to be held in Washington, for the purpose of influencing congress to repeal the Sherman silver law.

Depositors Attach Bank's Assets.

HUDSON, Wis., Sept. 7.—Attachments to the amount of nearly $100,000 have been issued by depositors of the defunct Hudson savings bank. The validity of the assignment of the property to Judge Humphrey is under advisement by Judge Bundy, whose decision is expected soon.

First Agricultural Exhibit.

NORTH ATTLEBORO, Mass., Sept. 7.—The Attleboro Falls Agricultural society will hold its first exhibition on Sept. 12 and 13. The society will offer prizes for the best display of plants. The exhibition will be held in the Congregational church.

The sculptor Ephraim Keyser has been appointed instructor in modeling at the Maryland Institute, Baltimore, in the schools of art and design. Mr. Keyser's finest work is an angel of heroic size designed for the tomb of President Arthur.

THE RAJAH.

Queen Ranavalona of Madagascar is expert with the phonograph.

One of the East Indian sultans is a dwarf only 3 feet 10 inches, but his name is one giant word of 39 letters.

It is believed in Berlin that Prince Maximilian of Saxony, who was recently consecrated a priest, went into a monastery through disappointed affection.

The emperor-king of Austria-Hungary is having a new palace built for him. It occupies a commanding plateau overlooking the Danube, and the gardens are going to be remarkable alike for their extent and beauty.

The khedive's mother, who is only 34, is still one of the most beautiful princesses in the east. She has a lovely clear complexion and truly magnificent eyes, but it is in the shape of her face and the carriage of her head that her beauty principally lies.

He Couldn't Say.

"I ate a piece of mince pie last night."
"How did you feel when you awoke this morning?"
"I haven't been asleep yet."—Life.

Pardonable.

Blame not the youth who steals a kiss,
For, were it not permissible,
Sweet woman's lips had ne'er been made
So ravishingly kissible!
—New York Herald.

BOSTON PRODUCE MARKET.

MUTTONS AND LAMBS—The market on muttons and lambs is rather better cleaned up, and better prices are the result. Veals are also in better request. Choice to fancy lambs, 10@11c; common to good, [illegible]c; poor and ordinary, [illegible]c; Brightons, 10@11½c; yearlings, [illegible]c; muttons, [illegible]c; poor to good, [illegible]c; choice heavy Brightons, [illegible]c; choice eastern veals, 10@11c; common to good, [illegible]c; Brightons and fancy, [illegible]c.

POTATOES—Potatoes are firmer, and prices are a little higher. Sweet potatoes are short and the market is firmer: Eastern barrels, $[illegible]; New Hampshire rose and hebrons, [illegible]c; Houlton rose and hebrons, [illegible]c; Aroostook rose and hebrons, [illegible]c; New York stars and burbanks, [illegible]c. Sweet potatoes sell at $[illegible] for Virginia cloth heads; extras, $[illegible]; double heads are worth from [illegible] to [illegible]c above these prices.

OATS—Oats are firmer, with clipped to arrive, quoted at [illegible]c, according to quality and the route of shipment. The spot market is also stronger, with quotations at: Clipped, [illegible]c; fancy, [illegible]c; No. 2 white, [illegible]c; No. 3 white, nominal, at [illegible]c; mixed, [illegible]c.

BRAN—Bran seems to be easier, with sack spring bran to arrive at $[illegible], and sack winter at $17@17.25, and with middlings at $17@18, as to quality. Cottonseed meal is quoted at $[illegible] for meal to arrive, and $[illegible] for spot.

CHEESE—Cheese is steady, with prices inclined to harden: Northern full creams, [illegible]c; fair to good, [illegible]c; western choice, [illegible]c; fair to good, [illegible]c; sage, [illegible]c. Liverpool is cabled at [illegible] for white, and [illegible] for colored.

CORN—Corn is very little changed, with No. 2 yellow, to arrive, at [illegible]c; No. 3 yellow, [illegible]c; No. 2 corn, [illegible]c. The spot market is steady at: Steamer yellow, [illegible]c; No. 3 yellow, [illegible]c; steamer mixed, [illegible]c.

BEEF—The beef market is rather quiet, with the best beef selling at full prices, while poor to ordinary is very dull and easy. Quotations are the same as previously noted.

MEAL—In the cornmeal market there is little change to note, with bag cornmeal at 97@98c and barrel meal at $2.10@2.15. Oatmeal is quiet at $4.50@4.75 per bbl.

BUTTER—The butter market holds its firmness: Choice western creameries are selling at 28c, with choice northern at 28c, and even [illegible]c is mentioned.

EGGS—Eggs are firmer and fully ½c higher; Western, [illegible]c; Michigan, [illegible]c; provincial, [illegible]c; eastern and northern, [illegible]c.

FLOUR—Flour is very steadily held, with few changes in the market. Both the millers and the traders are more confident.

THE STOCK MARKET.

Dealings In Leading Securities In Boston and New York.

BOSTON, Sept. 7.—In the outside market call money is quoted at 8 to 10 per cent, and time money is nominally 6 per cent.

The reaction of the closing hour yesterday was brought about by the taking of profits on the long side. The market will probably be benefited by the healthful reaction. There are but very few people who believe that there will be any violent slumps, and in consequence the market should advance with but little setback. Prominent brokers are of the opinion that the decline is of a natural order, and look for a rise in the near future. The outlook of opening of factories and the movement of crops will tend to increase the earnings of the roads.

The disappointing feature yesterday was the low prices and selling orders from London. The knowledge of that fact caused the decline of the day. The prices made in London are on 10 shares or 10 per cent of what is required to make a quotation on the New York board. Still prices are influenced by the quotations, which are eagerly scanned by the operator when he arrives at his broker's office. The loan crowd show little change in rates, but considerable shifting in borrowing.

The farmers will not sell cotton at the present prices and the crop is being harvested this year on a great deal less borrowed money than ever before. This appears to mean that the farmer can wait for his own time for marketing his goods. The market this morning was dull and had a strong tendency toward lower prices.

Sugar common and Atchison were the more active. Chicago, Burlington and Quincy fell from [illegible] to [illegible] on small transactions, and General Electric was also decidedly weak, declining from [illegible] at the opening to 43. West End Railway common at [illegible], New York and New England [illegible], Union Pacific [illegible], and Boston and Albany selling at [illegible]. Boston and Maine came out at 142.

New York Cotton Market.

NEW YORK, Sept. 7.—Cotton futures opened easy; September, 7.[illegible]; October, 7.[illegible]; November, 7.[illegible]; December [illegible]; January, [illegible]; February, [illegible]; March, [illegible]; April, [illegible]; May, [illegible]; June, [illegible].

ESTIMATES FOR ALL KINDS OF PRINTING furnished on application to [illegible]

THE SCIENTIST.

According to the method which is now adopted for reckoning leap years in England, December, January and February will be the summer months about 720,000 years hence.

Meteorologists are now of the opinion that a heavy downpour of rain is the cause of the brightest flashes of lightning. The old opinion was that it was the flash that caused the downpour.

A railway train traveling night and day at the rate of 50 miles an hour would reach the moon in six months, the sun in 300 years and Alpha Centauri, the nearest of the fixed stars, in 42,000,000 years.

The length of the day and night, any time of the year, may be ascertained by simply doubling the time of the sun's rising, which will give the length of the night, and double the time of setting, which will give the length of the day.

THE CRANK.

A rule in effect in Leipsic assesses the expense of calling out the fire department to the house where the fire originated.

It is one of the duties of the prime minister of Madagascar to marry the queen of the country for the time being. The present premier has been married to three queens, one after another.

There is one place in France in which gravestones and funeral epitaphs are unknown. This is the village of Boussias, in the Maritime Alps. The dead are not buried, but thrown into a bonehouse.

Every one is familiar with the picture of a child kissing its reflection in a mirror. A Mexican lady wanted a copy of the painting to give to her daughter, but she had her scruples about kissing on the lips and requested the painter to portray the child in the act of kissing itself on the forehead.

THE MINER.

Some of the Australian gold veins are 150 feet thick.

The great Nevada silver mines were opened in 1859.

The silver mines of Spain now produce about 40,000 ounces a year.

The first copper mine in this country was opened in Massachusetts in 1648.

The total value of all the mine products of Great Britain in 1889 was £84,640,000.

The lead mines of Spain have been worked ever since the beginning of history.

LEGAL NOTICES.

The Bulletin.

Norwich, Friday September 8 1893.

The Bulletin should be delivered everywhere in the city before 6 a. m.

Subscribers who fail to receive it by that time will confer a favor by reporting the fact to the Bulletin Co.

The Norwich Weekly Courier is the best weekly newspaper in New England at 50c a year.

The Weather Today.

Generally fair, slightly warmer weather.

NORWICH AND VICINITY.

CITY NEWS.

The Mohegan fair will be continued today.

Regular conclave of Columbian Commandery at 7 30 o'clock this evening.

The employes of the New York & New England road in this vicinity were paid off with checks Thursday.

Architect C. H. Preston is completing plans for a residence for Letter Carrier H. S. Case on the Rockwell lot.

The Windham County Medical association will hold their annual fall meeting at the Hooker house, Willimantic, about the 15th of this month.

The Smith Granite company of Westerly has reopened its large granite quarries after a shut down of two weeks. In consequence over 300 men resumed work.

The steamer Block Island will make her third annual excursion to Bridgeport at 8.15 this morning. Jarvis' full military band and Yeager's orchestra will furnish music.

Three congregations of Norwich Hebrews will commemorate the Jewish New Year, which begins next Sunday evening at 6 o'clock. Dr. S. S. Kohn will preach in English and German in Grand Army hall.

The Union base ball club closed the season and disbanded this week, having won eight of the nine games played. Their success was largely due to good batting and the battery work of Foster and Smith.

In reply to inquiry of "J. T. D." we would say "that the new dam in Greeneville was built by Frank B. Durfey in the summer of 1886, following the flood of February in that year, by which it was swept away."

The fishermen are doing deep-sea fishing for bluefish. They let their boats drift and draw the line up from the bottom quickly instead of trolling it. This new method begun last year is said to yield better results than the old way.

Wight's orchestra finished their season's engagement at the Fort Griswold house Wednesday evening, after an absence from the city of ten weeks. The orchestra will now furnish music at the Pequot casino for the balance of the season.

Workmen are laying the brick foundation of the new Clay block near Sunnyside. Mrs. Clay will also build three new houses on the hill, and Walter Phillips will erect several houses next to the site of the new chapel. This neighborhood is having the benefit of a building boom just now.

Hon. Solomon Lucas' force of men are busy as bees at East Great Plain reclaiming the Osgood meadow, an undertaking which is nearly completed. Contractor Thomas Dodd is making rapid progress in widening the highway from the city line to the Backus corner.

John Forsyth, the ship builder of Noank, has completed a model of a steam yacht, which he had intended to send to Chicago for exhibition, but did not finish it in time. The model is 8 feet long, representing a vessel 200 feet in length. It is put up precisely as a vessel would be built, timbers and all, and is a remarkably fine piece of work.

Schooner John A. Beckerman, with a cargo of 648 tons of soft coal for the railroad company, ran aground near the west breakwater at Stonington Thursday morning as she was entering the harbor. Captain Scott was sent for with his two tugs, the Alert and Cassie, and succeeded in hauling the schooner off at high water and towed her to the railroad wharf.

The County Commissioners.

The county commissioners met in this city yesterday and audited the jail accounts. Next Thursday the affairs of the county will be audited, at which time Treasurer Lathrop will be succeeded in office by Ex-Senator O. F. Thayer.

A Broker Shop Closed.

Moore, Miller & Co., stock brokers, closed the doors of their branch office in this city yesterday. The field has never been a profitable one, and is abandoned with all obligations settled. Mr. W. R. Corwine, the capable manager, intends to return to New York city.

Now the Accepted Time.

Ten physicians of this city have registered under the new law with Town Clerk Freeman. The time limit expires October 1.

The list of ladies who have registered to vote on school matters has been swelled to fifteen.

Death of Dr. E. M. Leffingwell.

Dr. Erastus M. Leffingwell, one of the best known and most respected members of the medical fraternity in New London county, died at his home in Leffingwelltown at 8 o'clock yesterday morning, at the age of 66 years. Dr. Leffingwell had been a practicing physician in Leffingwelltown, his native village, for over thirty years. He was a contract surgeon during the rebellion, being sent into the field by Governor Buckingham. A wife survives him.

His Nomination Confirmed.

By special order from the adjutant general's office the nomination of Lieutenant-Colonel George M. Cole, assistant adjutant general, to be lieutenant colonel of the Third regiment, with rank from August 25, 1893, vice Armstrong, resigned, has been confirmed. No appointment to succeed him on General Haven's staff has yet been made, as it requires a man of considerable military and executive ability to fill the position.

The City of Richmond's Excursion.

The excursion of the steamer City of Richmond to Block Island yesterday was attended by half a thousand people from this city, Montville and New London. The vessel put into the harbor at 9.45 o'clock last night, and the Norwich delegation was loud in its praise of the pleasures of the trip.

During the stay of the boat at Block Island, from 1 30 to 4 15 o'clock, the Clipper base ball team engaged in a game with who was really the Bulkeley school nine of New London, greatly strengthened, Danehy of Willimantic in the box. The Norwich boys shut their opponents out in the 7-inning contest, and succeeded in piling up six runs.

Magic.

Tomorrow evening Kellar will entertain in the Broadway theater. A New York paper has the following: "Slight of Hand," as the phrase goes, used to be considered of slight importance. But as interpreted by masters of the art of modern magic, such as Magician Kellar, this becomes of itself a mystery which the unaided human intellect and the unguided human eye is unable to penetrate.

A Tree Upon the Track.

The southward bound passenger train from Norwich at 7 18 p. m. for New London, Conductor McCrary, ran under a large tree near Kitemaug Thursday evening, which had fallen across the track. It was held up by a large limb so that the train passed under the heavy trunk. The headlight of the engine was knocked off, and the branches scraping upon the sides and top of the cars made such a tremendous racket, and the lightning at the moment was so vivid, that the passengers thought the train was struck. It was several minutes before the frightened passengers could tell whether the train had been thrown from the track or not.

The southward bound freights could not pass under the tree, and were delayed until it could be removed.

Personal.

Mrs. George C. Prentice and daughter Maude are visiting her brother, C. H. Price of Mystic.

Mr. F. I. Champlin and wife are spending this week in Middletown, Conn. Mr. Champlin is combining business with pleasure.

Philip Cook has returned from a three weeks' visit to Ledyard.

Mrs Evan Burdick and Will Congdon of 106 Franklin street left for the World's fair Thursday. Mrs. Burdick will visit her daughter, Mrs. H. M. Johnson, and son, Frank L. Burdick, formerly of Norwich.

Miss Annie Elliott of New London is visiting friends in Norwich Town.

Robert B. Congdon of New London has become the possessor of the trotter Dandy Dan, of Willimantic.

John T. Beckwith, wife and child, of East Lyme, and Mrs. T. C. Beckwith of New London, started on a week's drive Thursday from Flanders up the Connecticut river.

C. W. Scott, Jr., and family, have returned from their summer cottage at Fisher's Island.

Miss Lizzie Carpenter, who has been visiting Mrs. C. D. Gallup of Laurel Hill, has returned to Putnam.

Letter Carrier Frank P. Murtagh is enjoying his fifteen days' vacation.

SUPERIOR COURT.

Welch Still on Trial for Barn Burning—The Next Case.

The trial of William Welch, Jr., accused of burning the barn of Silas L. Barbour of Voluntown last September, occupied the attention of the superior court in New London yesterday. When the court adjourned, Attorneys Lucius Brown for the State and C. F. Thayer for the defence had made their arguments, and State Attorney Lucas and S. S. Thresher will close the case this morning.

The Voluntown barn burning case is not new to the superior court of this county. William Henry Jencks, an old man, and evidently the pliant tool of some one younger, was convicted of the crime and is now serving a term in the state prison. His partner in the crime, that is, the chap who was arrested with him, Frank Whipple, was released on bond in the justice court. He has disappeared and his bond was forfeited at the last criminal term of the court. It is claimed that Welsh was the originator, if not the real actor in the crime. Jencks was taken from state prison on a writ of habeas corpus Wednesday and testified against Welsh yesterday.

The next case State Attorney Lucas will present will be that of the state against Reuben E Brown of Colchester, charged with assault with intent to commit murder. Brown was an inmate of the Colchester almshouse, and it is claimed tried to poison John McNelly, another pauper, who was blind, the result of an angry religious discussion. Mr. M. E. Jensen, of the Free academy, analyzed a substance found on McNelly's coffee cup, and pronounced it Paris green.

NATURE'S WILD REVEL.

A Furious September Thunder Storm Shakes Up the Vicinity.

A thunder storm, undoubtedly the most severe of the year, visited this city last night, and as far as can be learned was general throughout Connecticut. Shortly after nightfall the wind began to rise, accompanied by sheets of rain, and at 7.30 it seemed as though Horace Johnson's cyclone was at hand. Fortunately, however, the wind soon abated, but the blinding lightning and deafening crashes of thunder continued at intervals till 10 o'clock.

The telegraph and telephone service through eastern Connecticut suffered greatly. Up to 12 o'clock no communication with the outside world was held, save with New London on one shaky, staggering Western Union circuit. The operator there on being asked about the storm replied that it partook of the nature of a hurricane and was "awful," they having lost all southern wires. Before further information could be gained, a terrific flash of lightning filled the place, and when the surcharged wire was again tried New London was lost. Although several bolts of the electric fluid landed, apparently, in this vicinity, it was not learned that any damage had been done.

A West Side Runaway.

A pair of horses attached to Lemuel B. Park's van, piled high with furniture which was changing residences, became frightened on High street yesterday morning and galloped down the hill. A hydrant in front of D. W. Grant's store was decapitated and a miniature geyser spurted twenty feet skyward. The contents of the van toppled over at the foot of the hill and stopped the flight of the steeds. Two men were knocked over in the performance, but neither was seriously hurt. Supt. Bartlett promptly repaired the damage to the water department property.

NOT SUPERSTITIOUS.

Several Important Moves by the Electric Street Railway Today.

Today will be one of the most epochal in the history of the Norwich Street Railway company. Providing the weather be auspicious the first car will be started on the Thamesville branch, the track to East Great Plainward will be finished and the new rails from Bean Hill to the Yantic railroad crossing will shoulder their first load.

It was expected to open the Thamesville extension last night, but the unpropitious weather compelled a postponement to today. The line will be in regular use after the initial trip, cars leaving Franklin square at a quarter before and after each hour. Time tables will be issued in a day or two.

The laying of the track west from Cossell street has been prosecuted with thoroughness and dispatch, and now the line stretches 1,000 feet farther from the city. Superintendent Shaw will start the linemen laying the overhead wires immediately, and the branch will probably be in condition for travel next week Wednesday.

It is expected that the Laurel Hill division will be opened to the public by October 1.

DIED.

CONVERSE—At Whitefield, N. H., on Tuesday, at 12.10 a. m., Emma Mansfield Converse of Providence, R. I.
Funeral at 2 p. m. Friday, the 8th inst., from the residence of Albert T. Converse, 103 Broadway.

LEFFINGWELL.—In Bozrah, Sept. 7th, Dr. E. M. Leffingwell.
Funeral Sunday, Sept 10th, at 1 o'clock p. m., from the Leffingwelltown church. Services at the grave will be conducted by Sedgwick Post, G. A. R.

TOBACCO SHEDS BLOWN DOWN.

Thursday Night's Storm Severe in East Hartford.

OTHER CONNECTICUT NEWS.

A Girl Assaulted and Robbed on the Highway.

HARTFORD, Conn., Sept. 8.—A sixteen-year old daughter of Frederick Waterich was brutally assaulted and robbed at Wallingford, Thursday night, by a man supposed to be an Italian.

She was proceeding to her home about 7 o'clock, just as the storm had started, and had reached a lonely stretch of road, when a man jumped out from the hedge, and said something unintelligible to her. Considerably startled, the young girl quickened her pace, but the man kept alongside of her and grabbed a pocket-book she held in her hand. The girl screamed, and the ruffian struck her a violent blow, felling her to the ground. He then grabbed her pocketbook and fled. The girl regained her feet and fled screaming towards her home.

She is suffering from a severe nervous shock and cannot give a very clear description of the villain, but describes him as a dark-looking man, dressed in a shabby gray suit and wearing a black moustache.

East Hartford Tobacco Sheds Blown Down—Crop Injured.

HARTFORD, Conn., Sept. 8.—Tobacco growers seem to be the victims of the elements this year. Large quantities of tobacco have been destroyed by hail and wind and last evening several tobacco sheds were blown over in the East Hartford south middle district by a severe storm about 7 o'clock. Four sheds owned by Fred Bartholomew, John March, Anton Bentley and Mr. Friend were demolished and the tobacco badly bruised and water soaked by the rain which followed. Tobacco barns were also blown over in Windsor and other places.

Pay Checks to be Discontinued in Hartford.

HARTFORD, Conn., Sept. 8.—The system of pay checks, which has been used by the Hartford manufacturers during the past month, will be discontinued generally after this week. The Pratt & Whitney company expect to pay in currency next Tuesday. The Johns Pratt company pay in currency and the Pratt & Cady company will unquestionably take the same course after this week. The banks are now in condition to supply their depositors with bills and it is thought in business and manufacturing circles that there will be no further necessity for using the pay checks.

Dropped Dead in New Haven.

NEW HAVEN, Sept. 8.—Edward Slattery dropped dead today while handling railroad ties near Mill river. He was 60 years of age, and lived at 35 View street. A widow and four children survive him. It is supposed he burst a blood vessel.

Shortage of About $10,000.

DANBURY, Sept. 8.—Thomas F. Rowan of this city, agent in western Connecticut of E. Ewing & Co. of New York, wholesale liquor dealers, skipped out Monday. An examination of his books reveals a shortage of about $10,000.

Cottage Wrecked at Milford Point—An Inmate Killed.

BRIDGEPORT, Conn., Sept. 8.—The small cottage at Milford Point occupied by Alfred Bragg of Shelton and his family, consisting of his wife, two daughters and one son, was toppled over and over by the wind last night during the severe storm. The house was blown about thirty feet close to the water's edge. Mr. Bragg was injured so seriously that death resulted at 10.30 this morning. During one of the somersaults of the house Mr. Bragg was hurled out of the door. The others were found inside. Mrs. Bragg and the children were badly bruised, but not fatally injured. Mr. Bragg's body was badly burned by coming in contact with the stove and his limbs were paralyzed. He was 49 years of age and was employed in a Shelton factory.

A New York Woman Commits Suicide in a Chicago Hotel.

CHICAGO, Ill., Sept. 8.—Guests in the Galt house were aroused a few minutes after 3 o'clock this morning by a shot that was fired in room 24, to which at 8 o'clock last night had been assigned a couple who registered as T. Hastings and wife, New York. The door, which was bolted, was forced open and Mrs. Hastings was found unconscious in bed. In her left side was a bullet wound, and near was a revolver. She was alone and all the circumstances surrounded the case point to suicide. After registering at the hotel the woman was shown to her room, and the man who registered as her husband left at once, saying that he would return in a short time. He did not come back, however, during the night.

The woman died in the county hospital shortly after 4 o'clock. Papers found in the room show that her name was not Hastings, but that she was Mrs. Berthold Popper. In her trunk was a marriage certificate, showing that on Sept. 6, 1893, Cornelius Flynn, alderman of the First district of New York, had married Lelia A. Hallock of New York and Berthold Popper of Moriches, L. I. The woman was about 30 years old and stylishly dressed.

Train Hands Arrested for the Pan Handle Accident.

CHICAGO, Sept. 8.—Engineers Lightheister and Morris Hart, of the two trains that came into collision on the Pan Handle road yesterday, together with Operator Kennedy, who received the train orders at Colehour, were placed under arrest last night and taken to the South Chicago station to await the result of the coroner's inquest.

CHICAGO, Sept. 8.—William A. Turner of this city, who was injured in yesterday's wreck at Colehour, Ind., died at 5 o'clock this morning at Mercy Hospital. With the death of Turner the number of those who lost their lives is increased to 12.

Took Eight Heats to Decide the Race.

INDIANAPOLIS, Ind., Sept. 8.—There were two dead heats in the 2.30 trot today and it took eight heats to decide the race. P. S. French fell apparently dead in the stretch in the third heat, but recovered and trotted second in the last three heats. The judges did not like the way Pimlico was driven in the first heat of the third race and declared all bets off on the heat. Touch Me Not lowered her record 4½ seconds in the second race.

Milford Woman Drowned.

BRIDGEPORT, Conn., Sept. 8.—Mrs. Sarah Patterson, aged 55, left here for her home near Milford alone last night, and while passing Beaver Brook pond near her home, encountered a cyclone, which blew her into the water, where she drowned. Her body was found this afternoon.

THE TRIPP FORGERY CASE.

He Convicts Himself by Knavery—His Counsel Refuse to Defend Him and Expose Him to the Court—Tripp Flees and is Still at Large.

PUTNAM, Sept. 8.—Deputy Sheriff Parks and other officers are looking for George H. Tripp of Central Village. It will be remembered that Tripp was charged with forging an $8,000 note, tried and acquitted.

Thursday morning he appeared before Judge Hall charged with forging a note for $253. He pleaded not guilty. The note was cashed by the First National bank of Providence, R. I., and bore the signature of T. C. Peckham of Coventry, R. I. Mr. Peckham claimed he never signed the check. The morning session of the superior court on Thursday morning was spent in selecting a jury. The alleged forged note was presented in court as evidence. Some time during the afternoon session Tripp stole the note from the bench, and substituted in its place another note similar to the one he had taken, with the exception of a few marks.

He then notified his counsel of his act, saying "I have the case now." To his surprise his counsel refused to have anything more to do with the case.

The report then flashed around town that Tripp's lawyers had informed Judge Hall of his trick.

A bench warrant was immediately issued for his arrest, but Tripp could not be found. Evidently he had learned of the step taken by his attorneys. The last time he was seen was about 7 o'clock on Thursday night, in company with another man. He was seen later running beyond the Grove street cemetery. He had changed his clothing and hat. Telegrams were sent to all parts of the state notifying the officers to be on the look out for him.

If caught he will be held upon three indictments—first, for forging the $253 note; second, for forging the substitute note; and third for tampering with the documentary evidence.

The court has in its possession a correct photograph of Tripp. The stealing of the check is self-conviction, and shows that Tripp was a guilty man.

Races at Worcester.

WORCESTER, Mass., Sept. 8.—There were seven races finished at the fair grounds today. Some good racing was seen.

The colt stakes for 2 year olds was won by Nemoline in straight heats. Time, 2.36¼, 2.36¼, 2.38¼.

Bellweather captured the 2.25 trot purse in straight heats also. Time, 2.26¼, 2.25¼, 2.24¼.

The free-for-all trot or pace was won by R. B. Time, 2.18¼, 2.17¼, 2.18.

Clontarf won the 2.50 class trot. Best time 2.27¼.

The 2.45 trot purse fell to Toney, who won in three straight. Time, 2.27, 2.30¼, 2.29¼.

Flossie won in the 2.28 pacing event. Best time, 2.26.

In the colt stakes for one-year-olds, half mile, Pedal was the winner. Best time, 1.30¼.

The Catholic Congress at Chicago.

CHICAGO, Sept. 8.—The next to the last day of the Catholic congress was given up to the discussion of Catholic education. The Right Rev. John J. Keane, rector of the Catholic university of America, delivered the opening address on Catholic "Higher Education," saying that its object was to prepare men for the three great studies—nature, man, and God. Maurice Francis Egan of the University of Notre Dame, Ind., discussed the question of Catholic colleges, and the Right Rev. John T. Murphy of the Holy Ghost college, Pittsburg, talked about Catholic high schools. The session concluded with an account of the Catholic exhibit at the fair by Brother Ambrose.

Before the Ways and Means Committee.

WASHINGTON, Sept. 8.—Before the house ways and means committee, John E. Stevens, representing the Ludlow Cordage company of Ludlow, Mass., said his company made cotton bagging, binding twine, from jute, etc., and had no connection with any cordage company or ring. There was a demand in some quarters that the product of his company be put on the free list.

He hoped this would not be done. If cotton bagging and binder twine were admitted free, his company could hardly remain in business. The duty could be reduced from one and six tenths cents to 1 cent per square yard upon the grade of bagging value at 6 cents per yard. On bagging above that he advocated a duty of one and two-tenths cents.

Accident to Italian Laborers.

NEW YORK, Sept. 8.—Two Italian laborers while working on a scaffolding near one of the upper stories of the Edison Electric Illuminating company today, were precipitated to the ground by the breaking of an iron hook, which held the platform. Frank Gesto was killed outright and the other seriously wounded. Two men at work beneath the scaffold were wounded. Two of the wounded men were Antonio Bonhumire and Carlo Farado. The name of the third could not be ascertained.

Exceptional Laws Abolished by Germany's Emperor.

METZ, Sept. 8.—The emperor has ordered that in view of the loyalty manifested by the people of Alsace and Lorraine, during his visit, all the exceptional laws enforced in the two provinces since the war shall be abolished. After the announcement of the order Chancellor Caprivi and Prince von Hohenlohe, governor of Alsace and Lorraine, held a conference, presumably as to the details of its execution.

Ocean Steamers.

At New York—Normannia from Hamburg, Burgermeister Peterson from Rotterdam, Chicago City from Bristol, Uplands from Hamburg, Walhaven from Tampico, Gellert from Hamburg; Donna Maria from Oporto, Handel from Rio Janeiro, Manhattan from Greenock.

At Bremerhaven—Sturmberg from New York.

Watertown Iron Foundry to Start Up.

WATERTOWN, Mass., Sept. 8.—The Watertown Iron foundry which has been shut down for over two months will start up Monday. This will give employment to over 150 men. The firm has several large orders on hand and it is thought that all the men will be given employment on full time.

The National Senate.

WASHINGTON, Sept. 8.—In the senate today the Sherman bill was taken up, and Mr. Faulkner (dem.) of West Virginia, Turpie (dem.) of Indiana, and Jones (dem.) of Arkansas spoke in favor of repeal.

After further debate the senate went into executive session and afterwards adjourned.

REJECTED IN HOUSE OF LORDS.

The Home Rule Bill Killed by a Vote of 419 to 41

LORD SALISBURY'S SPEECH.

Announcement of the Result Received with Laughter and Cheering.

LONDON, Sept. 8.—In the house of lords tonight Baron Halsbury, Baron Herschell, Baron Loch, and Bishop of Ripon spoke on the home rule bill to half empty benches. After 9 o'clock the scene livened up, as members and visitors began streaming in. The galleries showed few vacant seats. All the notable church dignitaries were present. Members of the house of commons crowded the aisles and all the standing room was taken up. The lobbies were crowded.

Outside of the parliament house bands of men gathered to incite a jubilant demonstration on the expected rejection of the home rule bill. Detachments from radical workingmen's clubs and Irish societies also appeared on the scene. As a brawl was feared, the police broke up the different groups and kept them moving.

The debate in the house reached the acme of dullness in the Earl of Morley's maunderings against the bill.

Lord Salisbury rose to speak at 10.20 o'clock amid rapturous cheers. He said that throughout the debate one question constantly was present in his mind; Why had the government introduced such a bill? On this point the house had received no sufficient enlightenment. It was a surprise that it had ever found a place in a proposal emanating from a responsible government. Lord Herschell had declared that he was not inclined to associate himself with so desperate a clause, but would prefer some other arrangement. Then, in dealing with the abandonment of the landlords, the lord chancellor had admitted that their fate would be terrible, but said they had brought it on themselves. Finally the lord chancellor had protested with vigor against anybody desiring to know the real opinion of any cabinet member upon a cabinet bill. The secretary of foreign affairs (Lord Rosebery) in his speech also had avoided the burning subjects, underlying the government's policy. Much had been said of the benefits of a autonomous government, but had there been for a century a statesman bold enough to propose that an autonomous government should send eighty members to the imperial parliament representing no interest in England and bound by no responsibility.

What appeared to shine visibly through all arguments was that home rule was a policy of despair. The liberals had failed, saying, "we do not know how to succeed, but we will try something that nobody has tried before."

What moral or political right had anyone or government to embark on such an experimental policy in Ireland, divided to her base by party conflicts, which, during seven centuries, English rule had rather increased than diminished?

Lord Salisbury spoke for an hour and a quarter. His conclusion was marked by quiet eloquence.

The lord chancellor then put the motion for the second reading on the home bill. The house divided at midnight and the result was the rejection of the motion by vote of 419 to 41.

All the bishops went with the majority. The announcement of the result was received with laughter and some cheering. The house then adjourned.

At midnight a unionist demonstration was held outside the building.

Press Comment.

LONDON, Sept. 9.—Commenting on the fate of the home rule bill, the Daily Chronicle says: The abolition of the house of lords now becomes a plank of the radical platform. Down with the house of lords. It is using no mincing words.

LAST DAY AT POINT BREEZE.

Two Track Records Broken—Vitalio Wins the 2.10 Pace.

PHILADELPHIA, Sept. 8.—The last day's racing closed today at Point Breeze track. The track was fast and two track records were broken. The trotting record of 2.14¼ held by Instant was reduced to 2.12¾ by Muta Wilkes and the pacing record made by Hal Pointer last year 2.13¼, was cut down to 2.12¼ by Vitalio.

The first event was the free for all trot. Muta Wilkes, the favorite, who took the heat trotted yesterday, capturing the race in straight heats, the other horses not being able to get near her.

Judge Keller was made favorite in the 2.24 trot, but the best he could get was third money. Vrowsky, who sold well up, won the race, although Norris N., who took two heats out of the five, gave him a good contest.

Vitalio, the favorite, won the 2.10 pacing race. Cleveland S., was allowed to take the first heat, but commencing with the second Vitalio struck his gait and the others could not catch him.

Shipwrecked Crew Brought Home.

NEW YORK, Sept. 8.—The steamer Donna Maria from Lisbon, which arrived this morning, brought the mate and seven men of the bark Tremont of Boston which went ashore at Fayal during the cyclone of August 22. The vessel was a total loss.

The Donna Maria reports that great destruction was done by the storm throughout the Western Islands. Houses were blown down, the crops in great part destroyed and many vessels wrecked at Fayal. An Italian bark was driven ashore and became a total loss.

Wife Beater Captured.

PROVIDENCE, R. I., Sept. 8.—William McIntyre, who brutally assaulted his wife last evening and made his escape, was arrested this morning at Valley Falls. He was brought to this city and will be arraigned tomorrow. The injured woman will probably recover.

Mail Pouches Stolen.

WASHINGTON, D. C., Sept. 8.—A telegram received at the post office department states that at 2.30 this morning, at Terre Haute, Ind., robbers held up the mail wagon which transfers the mail from the city post office to the railroad station and secured three pouches of mail. The robbers are still at large.

The Week's Failures.

NEW YORK, Sept. 8.—Bradstreets report 379 failures in the United States this week against 148 in the corresponding week a year ago, and 27 failures in Canada against 29 in the like week last year.

National Bank of Portland, Me., to Begin Business.

WASHINGTON, Sept. 8.—Deputy Comptroller Tucker today authorized the Chapman National bank of Portland, Me., to begin business.

MUTINY ON BOARD.

Capt. Doane Places Four of His Crew in Irons.

NEW YORK, Sept. 8.—The three masted schooner Jacob M. Haskell arrived from Boston two days ago and left again yesterday for Brunswick, Ga., to get a cargo of lumber. While sailing through the narrows a signal of distress was hoisted.

It was seen by Capt. Copeland of the harbor police, and he bore down on the schooner with the police boat Patrol. When the two vessels got within speaking distance it was learned that Capt. Doane had put four of his crew in irons for attempted mutiny.

They were Thomas Walsh, William Henry, John Jacobs and Harry Henderson. The captain said that he had engaged them on Cherry street, and that they had agreed to accompany him to Georgia.

While going out to sea the men showed surly dispositions, and refused to do as they were told. They claimed that their food was unfit to eat. The captain said that it was the same as he ate himself.

They had been given corned beef and cabbage, and coffee, bread and butter. The mutineers were taken to the Tombs court by Detective George Jacobs, but Justice Meade sent the case to the United States commissioner, who discharged them.

A Waterbury Barber Missing.

WATERBURY, Conn., Sept. 8.—Joseph Geyer, a barber employed by George Huffman, disappeared from this city Tuesday, August 29, and has not been heard from since. Geyer had been very despondent on account of illness, and the day after he went away his friend, Gus Huffman, received a letter dated at New York, in which Geyer said he was going to take a steamer from New York to Coney Island and end his life. Hoffman has been to New York in search of Geyer, but has failed to find any traces of him. He has relatives in New York.

Agreed to Accept the Reduction.

FALL RIVER, Mass., Sept. 8.—At a special general meeting of the Spinners' association tonight, it was voted to accept and abide by the report of the committee recently appointed to meet a committee of the Manufacturers' association. The committee agreed to accept a reduction of wages, which will amount to about 9 per cent. on the wages paid on all mules. It was also voted to distribute $2500 from the general fund among the spinners who have been idle here for four or five weeks. The money will be distributed in accordance with the best judgment of the committee. The Spinners' union has nearly $80,000 in its treasury and can well afford to distribute a portion of it.

$6,000 Fire at Jamaica Plain.

BOSTON, Sept. 8.—The residence of Nelson Curtis, Jr., on Perkins street, Jamaica Plain, was badly damaged by fire this evening. The estate is owned by S. H. Kimball, who is at his summer home in Washington, Conn., with his family. Jeremiah J. Collins and a servant girl were left in charge of the house while the family were away. Loss, $6,000.

Two Men Killed by the Pittsfield Express.

MT. VERNON, N. Y., Sept. 8.—Two unknown men were struck and instantly killed by the Pittsfield express on the Harlem railroad near Chautauqua station this afternoon.

Mother and Daughter Drowned.

WYOMING, Del., Sept. 8.—Mrs. George Steele and her daughter were drowned in a pond here this morning. The daughter, aged 18, was despondent and threatened suicide. It is thought the girl tried to drown herself and the mother lost her life in an effort to save her.

Josiah Quincy's Resignation Accepted.

WASHINGTON, Sept. 8.—The president has accepted the resignation of Josiah Quincy, as assistant secretary of state to take effect Oct 1.

OLD LIBRARY SERVICE.

Books That Were Read in Norwich 100 Years Ago.

Saturday is always a busy day at the library and probably four hundred books will be taken out before closing hours tonight. This is a fair proportion as other cities go; yet below the average when we take into account the historical evidence that the Norwich public have always been a reading one.

As early as 1793, Samuel Trumbull established a circulating library in town, and its 450 volumes of novels, essays, histories and sermons furnished mental food for the forefathers of "Chelsia."

In 1793 a committee of the citizens of the town-plot organized a library association, taking up a subscription which warranted the purchase of 250 volumes—the nucleus of a library which continued in operation for forty years.

In THE NORWICH COURIER for July 19, 1795, Thomas Hubbard announces the opening of a new circulating library, containing about 150 volumes, therewith publishing a list of the books at hand, and the number of copies of each. It is interesting to notice that "Camilla, or picture of youth" must have been a favorite, since five volumes are provided. "Susanna, or traits of a modern Miss," filling second place with four.

A few of the titles give a fair idea of the popular works of the time. "Belinda, or a fair fugitive," "Cipher, or the world as it goes," "Dangers of Coquetry," "Darkley Vale," "Fair Cambrians," "Laury and Augustus," "New Robinson Crusoe," "Perdana, or nymph of the sea," "Platonic Guardian," "Sterne's Sentimental Journey," "Sorrows of Werter," "Villeroy, or the Fatal Moment," and "Vicar of Wakefield," are representative titles on the list.

The terms of reading were to be made known at the library; and the proprietor airily announces that, "additions from time to time, will be made of such books as shall be deemed worthy of notice."

THE STRIKING BRITISH MINERS.

Rioters Out All Night Destroying Property and Fighting.

MILITARY ON DUTY.

Yorkshire Mine Owners Panic-Stricken—Strikers Bullies and Dangerous.

LONDON, Sept. 8.—Dispatches from Pontefract this morning confirm the report that one miner was killed and another was mortally wounded in the fight there between the troops and the strikers. The rioters were out all night destroying property and fighting the military and police. They have burned the wooden bridge over the colliery railway to Lord Masham's property. The full military and police were on duty without pause until 8 a. m. today. At 5 o'clock the rioters had been brought under temporary control. Most of the mob had be scattered, but they are likely to reassemble at any hour.

In the neighborhood of Wakefield, West Riding of Yorkshire, the mine owners are panic-stricken. Last night the rioters went from pit to pit wrecking the buildings and often setting fire to the ruins. The damage done before day-break amounts to thousands of pounds. Troops were called for this morning by the authorities, as rioters had gathered near the town, and the police were not able to disperse them. Shortly after noon a mob of strikers began to pillage shops and taverns in the suburbs. The troops had not arrived and the police were scattered by the rioters. The whole district round the town is now in the hands of the miners. The saloons have been plundered and many of the miners are drunk.

The respectable residents of Wakefield are terrified, and repeated requests for troops have been made this afternoon by the authorities, who fear that in the absence of a strong force the whole town may be given over to pillage tonight.

In Mansfield, near Nottingham, hardly less apprehension is felt. A force of dragoons and infantry marched into Dewsbury late this afternoon. Cavalry, supported by mounted police, started for Birstall, near Leeds, at 3 o'clock to attack the rioters, who are wrecking the Whitelee colliery.

The strikers throughout the Pontefract district are in a sullen and dangerous mood. Ugly mobs have been gathering at several points despite the efforts of police and troops to disperse them. The magistrates throughout the districts have called for more troops.

At Harley, county of Northumberland, a magistrate was stoned while he was reading the riot act. He was badly bruised. More troops have gone to these districts to restore order and social policemen are being drafted with all haste into the service.

Maiden Voyage of the Lucania.

NEW YORK, Sept. 8.—The steamer Lucania, from Liverpool, arrived at the bar at 12.30 a. m. This makes the time of her maiden voyage 5 days 15 hours and 48 minutes, or 1 hour and 22 minutes behind the record of the Paris.

HOOD'S SARSAPARILLA.

Almost Blind

With Humor and Inflammation in the Eyes

"My little boy fell from his high chair, injuring his nose, and severe inflammation appeared in his eyes. He grew worse and worse until we feared he would lose his sight entirely. Medical advice and various medicines failed to benefit him until, hearing the good Hood's Sarsaparilla had done for others, we concluded to try it. I must say Hood's Sarsaparilla worked like a charm. While taking two bottles the inflammation gradually disappeared, his eyes grew stronger so that he could bear the light. He was soon

Now is the pleasantest time in the year to go to the mountains. A fine opportunity is afforded by Pierce's autumnal White mountain excursions. See advertisement.

Today is twenty-five cent day at Porteous & Mitchell's. "It is wonderful how they do it, but they do." Just read their advertisement this morning and see what slathers of goods you get for a quarter. The bargains hit almost every department. Remember these goods can be obtained at the price today—the 25-cent Saturday. Call early to do your shopping.

NORWICH AND VICINITY.

The Norwich Weekly Courier is the best weekly newspaper in New England at 50c a year.

Bishop McMahon's Successor.

It is now reported that Rt. Rev. Thomas Bradley, now coadjutor bishop of Boston, will be chosen as the successor of the late Bishop McMahon of this diocese.

Welch Found Guilty.

In the superior court Friday the case against Wilbur Welch of Voluntown, charged with setting fire to a barn, was concluded. After being out ten minutes the jury returned a verdict of guilty. Welch was sentenced to six years in state prison.

Watch Hill Season Over.

The season at Watch Hill is over; although most of the hotels remain open, in order to accommodate the few guests who still linger. The season has not been a prosperous one for the hotels. It has been a dull season at all shore resorts, Watch Hill sharing in the general depression. It is probable that before the middle of next week the hotels will all be closed, and that the place will assume its normal condition.

Burial of Miss Converse.

The burial of Miss Emma M. Converse took place from the residence of her brother, Mr. Albert T. Converse, Friday afternoon at 3 o'clock. A large number of relatives and personal friends were present. The interment was in Yantic cemetery. The services at the house and at the grave were conducted by the rectors of Christ and Trinity churches. The bearers were John T. Wait, Jeremiah Halsey, Robert P. Keep and P. St. M. Andrews.

The Regimental Shoot.

The regimental shoot of the Third regiment will be held at Willimantic on the 20th instant.

City Court—Kellogg, Judge.

In the city court Friday morning Catharine Brown and Thomas F. Edward were arraigned for breaches of the peace. Judgment was suspended sixty days in each case under $50 bonds.

The State Reunion.

The suggestion of holding one annual general reunion of the surviving veterans of our Connecticut regiments, instead of holding separate regimental reunions in different places on different days, meets with very favorable consideration from the state press and from the veterans also.

Dr. L. B. Almy Appointed Delegate.

Dr. Leonard B. Almy of this city, medical director on Brigadier-General Haven's staff, has been appointed by Governor Morris a delegate to the Pan-American medical congress now in session at Washington, D. C. The other delegates from this state are Dr. James Campbell of Hartford, Dr. C. A. Lindsley of New Haven and Dr. Ralph S. Goodwin of Thomaston. Dr. E. Root of Hartford is also in attendance at the meeting.

The Norwich Weekly Courier is the best weekly newspaper in New England at 50c a year.

Baptist Association Meeting.

The New London Baptist association will meet Sept. 13 and 14 with the church in Colchester borough. The Rev. H. M. Wolf of Waterford will preach the annual sermon, and the Rev. C. N. Nichols of Bozrah the missionary sermon.

The Woman's Home Mission society will hold a service from 3 to 4 p. m., Wednesday.

Cooney Went "Down."

The Middletown Herald says: Frank Cooney was before Judge Calef Thursday morning on the charge of drunkenness. He claimed to be a Norwich machinist who was looking for work. Near Stueck's building he was assaulted by a Middlefield man. Officer Inglis arrested Cooney for being drunk. The court said $7 and costs and he went down.

Hauled the Schooners Out.

Wreckers from New London have succeeded in hauling the schooners Laura Thompson and T. G. Pockett out of the sand at East Marion, L. I., where they had been imbedded 300 feet from high water mark since the heavy gale of a fortnight ago. They were towed to New London port and hauled out for repairs.

Former Norwich Merchant Divorced.

Thomas Stewart, formerly a well-known dry goods merchant in this city, now of the firm of Stewart & Hahn, Fort Wayne, Indiana, was divorced from his wife in the latter city last Monday. The complaint was made by Mrs. Stewart, and cruelty was the charge upon which the decree was granted. The settlements were all agreed upon before the case was taken into the circuit court, and when it was called Mr. Stewart did not appear to defend, and the judgment was given by default. The divorce was a great surprise to the friends of the couple.

A Promising Thread City Cyclist.

The Thread City cyclists are jubilant over the success and splendid record made by their crack racing man, Charles R. Newton at the races this week. At the association tournament in Norwich Monday he captured three first prizes and his winning of the one mile handicap easily in 2.16 4-5 from sixty yards and his time of 1.06 1-5 from scratch in a heat of the half mile Tuesday proved him a phenomenal rider. He is but 17 years old, a son of Dr. C. R. Newton of Stafford Springs, and joined the Willimantic club in July. He has yet had little experience in racing, but shows good endurance and a remarkable spurt. His friends confidently expect to see him in the front rank next season.

The City of Richmond's Engagements.

The steamer City of Richmond will make an excursion from New Haven to New York today in connection with the New York, New Haven & Hartford Railroad company. Monday the boat will take the Oriole club of New Haven on a three days' fishing trip to Block Island, and Saturday, September 16th, the steamer will run from Fall River and Newport to New York. She is also chartered for the international yacht races at New York the last week in September. The City of Richmond will winter at her wharf in New London harbor.

BLUEFISHING IN THE RACE.

A Big Fleet of Boats Catching More Than Can Be Disposed Of.

Bluefish are being caught in the sound in large numbers. Fishermen say that they are more plentiful than for five years and that they are running larger.

Thursday Capt. Gates of Niantic took Chief of Police Hillhouse of Willimantic and two other friends out to the Pigeon Reef fishing grounds. They fished in twenty-five fathoms of water. Eleven of the fish they caught weighed eighty-seven pounds, the largest weighing eleven and a half pounds dressed.

A party of four persons from Niantic on board the sloop yacht Sylph caught 100 bluefish Thursday by bottom fishing. The combined weight was over 700 pounds.

In the Race the fish are running fine. They are plentiful and large, and parties from all along the Connecticut shore are having rare sport trolling for the gamey "blues." Every fine day fully 100 boats, including naphtha launches, catboats, sloop yachts and working vessels of all kinds.

Some days they catch a great many more fish than they know what to do with.

The Norwich Weekly Courier is the best weekly newspaper in New England at 50c a year.

TRANSPORTATION IN SEPTEMBER.

A Steamer to Run to Block Island From These Parts Next Fall.

Of those so situated as to know, September weather at Block Island is said to be very delightful and exhilarating and the days in the month the pleasantest of any in the year that can be spent there. For the reason that the steamer Block Island makes her last regular trip to this resort early in September most of the Connecticut people who summer there return home before that time, and the island can only be reached by the steamer George W. Danielson running from Providence and Newport until October 1, and by the steamer Mount Hope from Providence and Newport Tuesdays and Saturdays, and Fall River Fridays until October 9.

New arrangements have been made, however, by Mr Gundal, manager of the Ocean View hotel, whereby a steamer will ply next year between Norwich, New London and Block Island during the month of September at least every other day. With proper communication between these places there is but little doubt that the people would remain on the island until October or at least far into September.

A Groton Heights Celebration.

Wednesday, September 6, the anniversary of the massacre at Groton Heights was commemorated by the Daughters of the American Revolution of that vicinity. The Fanny Ledyard chapter of Mystic, and the Lucretia Shaw chapter of New London, met at Fort Griswold.

STRUCK BY LIGHTNING.

Martin V. Dunbar Unconscious Many Hours.

Lightning struck the house of Martin V. Dunbar, janitor of the Nameaug school, situated on the Town Hill road close to the Waterford line, during the shower Thursday evening, tearing its way through partitions, wrecking plaster walls and ceiling, and before making its exit to the ground, paid its respects to Mr. Dunbar, who was quietly sleeping in a bedroom. The lightning struck near the head of the bed, setting fire to the pillows and giving Mr. Dunbar a shock from which he has not yet recovered. All the hair on one side of his head was burned off, his body was blackened down one side and he was pretty nearly paralyzed. Mrs. Dunbar extinguished the pillows. Friday morning Mr Dunbar was still unconscious, but during the day his senses returned to him though he was still dazed and unable to figure out what had happened.

It is not likely that Mr. Dunbar will suffer any permanent injury from the effects of the shock.

The Norwich Weekly Courier is the best weekly newspaper in New England at 50c a year.

Sunday Services.

Young Men's Christian Association. Eleventh popular open air meeting for men on the steamboat Wharf at 4 p. m. An address will be delivered by the Rev. George A. Grant, pastor of the Sachem St. M. E. church. Every man in Norwich is invited.

Services at the Shetucket Arms, Sunday, at 3.30 p. m.

Advent chapel, Norwich Town. Sabbath school on the Sabbath at 10.45 a. m.; Preaching at 11.45.

MORGAN'S SCHEME

For a Monetary Committee Is Not Popular.

WOULD ASSUME OTHERS' DUTIES.

Lack of Faith in Morgan's Financial Ideas—Low Wages Must Result.

WASHINGTON, Sept. 8.—The sweeping concurrent resolution submitted by Senator Morgan of Alabama, providing for the creation of a joint committee of seven senators and seven representatives with plenary powers to examine into all matters concerning the financial and monetary affairs of the government and people of the United States, with a view to a better system, is variously commented upon in administration and congressional circles. The adoption of the project would make Senator Gorman chairman. The senators on both sides do not indorse the vagaries of Senator Morgan, and are chary on financial matters do not believe in intrusting such extraordinary powers to a committee controlled more or less by the silver advocates. It would virtually supersede all the powers and duties of the senate finance committee, and consequently will meet with the strongest antagonism from

Every Member of That Committee

Democrat and Republican. Senator Voorhees will move that it be referred to the finance committee. If adopted, it will in all probability remain there for some time.

To carry out the scope of this resolution would keep the committee employed, said a member of the finance committee, more than a year before they could submit even a partial report. In the meantime if any legislation were required to meet the necessities of the government it would be estopped by the fact that this special committee had the subject under consideration. It was suggested at one time that a non-partisan commission should be appointed to examine into the question with a view to ascertain whether some changes or methods could not be adopted which would be advantageous to the people, but this was abandoned as it would not be able to act promptly.

It is admitted on all sides that some action should be taken to simplify the currency now in circulation, which is composed of about

Eight Kinds of Metallic and Paper Coin

and notes issued by the government. Notwithstanding this large volume, amounting to about seventeen hundred millions now in circulation, nearly one-half of the states and territories of the country claim that they are not adequately provided with banks and circulation.

The hearings before the committee on ways and means on the tariff are beginning to have their effect upon conservative members of the majority. Although the subjects considered have not been of vital importance, the gentlemen who have presented their views have talked very frankly. They have told the committee that if the duties are lowered on the industries in the New England and Middle states in order to meet foreign competition, they would be compelled to reduce the wages of their employes to a

Corresponding Level With Foreign Labor,

and if they objected to accepting such terms, they would be compelled to suspend their works; that production in this country against foreign competition was simply one of wages.

The chairman and some of the radical Democratic members were very much surprised at the statements made by the gentlemen. These utterances, however, will not change the general program of a large reduction in the duties under the metal, woolen, and cotton schedules particularly.

The small industries which are now struggling for existence, as already shown in the hearings, will not, at present, be seriously interfered with, as it is not the determination of the Democratic members of the committee to go for the small industries, recently started, but for the large ones longest established and which they assume are now self-sustaining.

Yale's New Laboratory.

NEW HAVEN, Sept. 8.—The new laboratory building of the Yale Medical school is now completed and is being equipped with apparatus. The total cost is about $30,000. The new building is located north of the old Medical school and is built of brick with brown stone trimmings. It has three stories and the outside dimensions are 71 by 48 feet.

Navahoe Gives Up the Race.

RYDE, Isle of Wight, Sept. 8.—The third race between the Britannia and the Navahoe for the international gold cup was to be sailed today over a 50-mile course out from Ryde. The weather was squally from early morning. The Navahoe got into difficulty while reefing her main sail and gave up the race, and eventually the contest was abandoned.

Campania Beats Her Own Record.

QUEENSTOWN, Sept. 8.—The Campania which cleared Sandy Hook Bar at 12:14 p. m., Sept. 2, arrived here at 8:08 o'clock this morning. Her time was five days, 14 hours and 55 minutes. The best previous record for an eastern voyage, made by the Campania last May, was five days, 17 hours, 42 minutes.

Most Violent of the Season.

WHITMAN, Mass., Sept. 8.—The wind storm that struck this town at 8:30 last night, while of short duration, was the most violent of the three recent hurricanes. Small buildings were overturned and fruit trees stripped of what fruit was still hanging.

Veteran Stage Driver Suicides.

BIDDEFORD, Me., Sept. 8.—Tom Sands, a veteran stage driver between Biddeford and Buxton for 20 years, committed suicide last night by drowning himself in a spring behind his house. He was color bearer of the Seventeenth Maine regiment and was well known in this section. He was in comfortable circumstances, but had lately been in ill health and despondent. He leaves a wife and one child.

Emin Pasha's Dispatches Found.

LONDON, Sept. 8.—Letters just received from an officer of Emin Pasha's expedition confirm the report of the murder of Emin, and announce the finding of a box of Emin's dispatches written just before he was murdered. The box is now on its way to England. The letters describe in detail the capture of Nyangwe, which was stormed on March 4.

Keeps a Disorderly House.

BROCKTON, Mass., Sept. 8.—In the Brockton police court this morning, Mrs. Mary L. Fulton was found guilty of keeping a disorderly house at Hotel Elmore, of which she is the proprietress, and she was ordered to pay a fine of $50, which she paid. On the complaint of maintaining a liquor nuisance she was found not guilty.

Married to a Turk.

CHICAGO, Sept. 8.—Mrs. Jennie Andis, widow of Dr. Andis of Denver, was married yesterday to a Turk in the Midway plaisance. She is a daughter of Colonel Alexander Hammond of Belaire, O. Her relatives are among the most prominent in Ohio.

MASSACHUSETTS CROPS.

Monthly Report of Board of Agriculture Is Not Assuring.

BOSTON, Sept. 8.—There will be issued from the office of the state board of agriculture tomorrow morning the monthly crop report, which will be unusually interesting, owing to the fact that it shows how much damage the storm of Aug. 29 did to the crops. Not all of the correspondents have been heard from since the storm, but many have, and the damage done was extensive.

The apple crop, the report says, which, previous to the storm, was short, may now be considered an almost total failure, as in nearly every section all the apples on the trees were blown off. Peaches were somewhat affected by the severe drouth, and will hardly fulfil the promise of a month ago. Grapes generally promise a good crop. Wild berries suffered severely from drouth. Cranberries promise a good crop, and picking has begun in some sections.

Pastures can hardly be said to be in average condition in any portion of the state. The long-continued drought is, of course, the cause of this condition, but it is hoped that the recent rains, having effectually broken the drouth, will improve the condition of fall feed. The rowen crop is in much the same condition, and while it will be good in some eastern localities, it will be either light or very light in others.

Potatoes suffered materially from the drouth and will hardly be an average crop. Many correspondents refer to the crop as light or very light, while some particular localities report good crops. For the state in general a fair crop is all that can be expected. Quality is, however as a rule, excellent, and little blight or rot has been reported.

The yield of market garden crops during the past month has been on the whole only fair, the dry weather having affected them somewhat. The prospect for later ones is, however, much better, and good crops are now promised. Celery promises well, as do also cabbages and squashes. The onion crop is generally good.

Corn suffered less from the drouth than most crops, and before the heavy winds of the past week promised to be nearly if not quite an average crop. Much damage was done by these winds, and it is doubtful if the crop fully recovers. Barley and oat crops are, on the whole, rather better than last year, and may be considered as full average crops. Oats made an especially favorable showing. There was little complaint of smut or rust.

Tobacco will not generally be an average crop, though a few correspondents speak of it as making a good growth. The crop suffered severely from drought, and the recent high winds damaged it materially. The quality is also hardly expected to be up to the average, and the crop will generally fall short in all respects of that of 1892. The only damage from hail is reported in Southampton, where from 10 to 15 acres were badly cut.

In general the month cannot be called a favorable one for the farmer, as the drought was continuous and severe in most sections, and the heavy storms of the latter part of the month, while effectually breaking the drought, did much damage to growing crops.

AN OFFICIAL MISSING.

Major Schreiner of the World's Fair Mysteriously Disappears.

CHICAGO, Sept. 8.—Major Schreiner, in charge of the government postal exhibit at the World's fair, has been missing since Monday last. On that day he left his apartments on Thirty-first street with some friends from Washington, intending to go to the Lake Shore depot. When he did not return Monday it was believed he had accompanied his friends to Indianapolis.

Tuesday it was ascertained that he left them at the station, and since then a quiet but thorough search for the missing man has been in progress. His friends now believe that the major has met with some accident.

He had between $300 and $400 when he left home. He was stylishly dressed and wore jewelry of a sufficient value to attract the attention of robbers. All day Tuesday the search was made in the hospitals. His friends did not notify the police, hoping to find the old soldier without publicity. Last night, as a last resort, the police were notified and a description of the major was sent to the station houses.

Major Schreiner served for 33 years in the United States army. About two years ago he retired on a pension and has since lived in Washington. He is well known in society in this city. He is 60 years of age and has gray hair and a military mustache of the same color.

Goods Rolling Away.

BOSTON, Sept. 8.—Another sign of the revival of business is the announcement by the American Rubber company of the reopening of its various departments. Next Monday the calender room will start work, and on Tuesday the cutting and stitching rooms will follow suit. Wednesday work will begin in the clothing room, and on Thursday, the 14th, the boot, shoe and arctic rooms will resume operations.

Sues His Sister-in-Law.

BOSTON, Sept. 8.—A. H. Stock, a well known resident of Dorchester, has brought suit against his wife's sister, Miss Louise F. Floyd, for alienating his wife's affections and has attached the goods and chattels of Miss Floyd for the sum of $800. Mr. Stock has received several newspaper notices regarding his eccentricities. He names several men well known in public and private life as co-conspirators.

Blaze at East Weymouth.

EAST WEYMOUTH, Mass., Sept. 8.—An incendiary fire about 3 o'clock this morning destroyed an unoccupied shoe shop on Broad place, valued at $1000, and damaged the house adjoining to the extent of $300. The property was owned by James O'Donovan of Quincy, and the house was occupied by John Cullen. The shop was insured for $600, and the house was well covered.

Portland's Distinguished Guests.

PORTLAND, Me., Sept 8.—Baron Guinette de Rochemont, inspector general of bridges and causeways, and M. Henri Vetillart, chief engineer of bridgeways of Havre, France, are in the city. They returned yesterday from the World's fair, where they had been on business in their line, and will travel over the country as commissioners to examine the highways.

Six Families Quarantined.

LONDON, Sept. 8.—A microscopical examination made by physicians of the local government board in the case of a woman who died yesterday, reveals the fact that she died of Asiatic cholera. The house in which she lived was occupied by six families. All the inmates were removed, and the strictest precautions have been taken to prevent the spread of the disease.

Died From His Injuries.

HAVERHILL, Mass., Sept. 8.—James Kelleher, aged 59, who was injured Monday evening by being thrown from a carriage, died at the City hospital this morning. He was station agent of the Boston and Maine road at Westville, and has been employed by the road for many years. He leaves a widow.

Steamer In for Repairs.

GLOUCESTER, Mass., Sept. 8.—Steamer Pentagoet, from New York for Eastport, broke her steering gear and has put in here for repairs.

Cottolene

What is it

?

It is the new shortening taking the place of lard or cooking butter, or both. Costs less, goes farther, and is easily digested by anyone.

STORY OF GRATITUDE

Six Physicians, Two Clairvoyants, and One Christian Scientist.

Fail to Help Mrs. N. E. Whitney, of Hillsboro Bridge, N. H.

HILLSBORO BRIDGE, N. H.—There is no better known nor more highly respected resident of this village than Mrs. N. E. Whitney. Her long and serious illness and her remarkable recovery of health through the aid of Dr. David Kennedy's favorite remedy, has made that medicine a necessity in every New Hampshire household.

Mrs. Whitney in speaking about her sickness, said: "I had been gradually failing in health for a number of years, and was told by my physicians that I was in the last stages of Bright's Disease. I had been under the treatment at various times of six physicians, two clairvoyants, and one Christian scientist, but received no benefit from any of them. I had given up all hope of ever being cured. I had no faith in the advertised medicines, and it seemed to me that every means of ever being cured had been tried except to use Dr. Kennedy's favorite remedy, which had been recommended. As a last resort I purchased a bottle; when I had used it I felt no better, but continued its use, and by the time I had used the second bottle I was greatly improved, and from that on I improved daily, and it was not long before I was able to be about the house, doing my regular household duties. No tongue can tell how I suffered for the three years before I used Favorite Remedy. My age is 58, and I now weigh 25 pounds more than I ever did. Favorite Remedy restored me to health and strength, and if anyone wishes to call upon or write me I will gladly tell them what this great medicine will do for them if afflicted as I was."

As a prominent physician recently said: "Anyone suffering from kidney or urinary troubles, rheumatism, dyspepsia or any lactic acid disease, it will cure them if their disease is within the reach of medicine." sep5w8

The Bulletin.

THE LITTLE BROWN WREN.

There's a little brown wren that has built in our tree,
And she's scarcely as big as a big bumblebee.
She has hollowed a house in the heart of a limb
And made the walls tidy and made the floor trim
With the down of the crow's foot, with tow and with straw,
The coziest dwelling that ever you saw.

This little brown wren has the brightest of eyes
And a foot of a very diminutive size.
Her tail is as trig as the sail of a ship.
She's demure, though she walks with a hop and a skip,
And her voice—but a flute were more fit than a pen
To tell of the voice of the little brown wren.

One morning Sir Sparrow came sauntering by
And cast on the wren's house an envious eye.
With a strut of bravado and toss of his head,
"I'll put in my claim here," the bold fellow said.
So straightway he mounted on impudent wing
And entered the door without pausing to ring.

An instant—and swiftly that feathery knight,
All towzled and tumbled, in terror took flight,
While there by the door on her favorite perch,
As neat as a lady just starting for church,
With this song on her lips, "He will not call again
Unless he is asked," sat the little brown wren.
—Clinton Scollard in Harper's Young People.

A LOVERS' QUARREL.

Dick and I had quarreled and parted.

I cannot tell you how it all began, or why it ended in this serious fashion, but I can assure you I felt very miserable as I saw him striding away over the fields, although I had told him to go myself. Still I never thought he would have taken me at my word.

"What shall I say to Aunt Maria?" I thought as I turned my steps homeward. This was a very serious reflection indeed, for it had been the dream of Aunt Maria's existence to see me united to Dick Johnson, the handsome only son of our wealthy neighbor, Sir Henry.

Dick and I had played together as children, danced together, flirted together, and finally fell in love with each other.

We were to have been married in a month, and now I had sent him away and told him I never wished to see him again.

What was to be done—and, oh dear! what should I say to Aunt Maria? There was no help for it, however, but to go home and explain the situation to the best of my ability, and accordingly home I went.

Aunt Maria was in the drawing room, and I stole softly in and took up a book, hoping that she would not notice me. But she saw me directly and inquired:

"Where is Dick?"

"He has gone home," I replied, trying to assume an unconcerned manner and failing most signally in the attempt.

"Gone home? Why! Did you not tell him I expected him to dinner?"

"Yes."

"Then why is he not coming?"

"He had an engagement," I mumbled.

"For goodness' sake, child, speak out! Come here where I can see you. How red your face is! What is the matter?"

I rose obediently and stood before my aunt, who fixed a relentless gaze upon me.

"You have been crying," she said. "Now, just tell me the truth at once, Daisy. Have you and Dick quarreled?"

"Yes," I faltered.

"And what about, pray?"

"I don't know."

"You don't know!" This in a very sarcastic tone.

I remained silent and fumbled for my pocket handkerchief.

"Who began it?" pursued Aunt Maria sternly.

"I don't know."

"Have you broken off your engagement?"

"Yes," I burst forth. "I hate him, and I will never speak to him again." Then I began to weep copiously.

"If you're going to howl," said Aunt Maria, with bitter irony, "you had better leave the room. I shall require a full explanation tomorrow from both you and Mr. Johnson."

I fled up stairs and did not appear again that evening. I passed a wretched night and had a fearful scene with Aunt Maria the next morning. She stormed and expostulated, but I remained firm in my resolve to return Dick's ring and presents that very day.

Accordingly I spent a couple of hours in crying over them and packing them up.

After luncheon Aunt Maria announced her intention of visiting some pensioners of hers in a village about three miles distant and ordered me to accompany her, which I prepared to do with a very bad grace, I fear. We walked for about half an hour without exchanging a word, and a more thoroughly ill tempered pair of pedestrians could hardly have been found anywhere.

Our way led through some fields, and on reaching the first gate I noticed a man leaning against it. As we came up he opened it for us and politely raised his hat. He looked like a gentleman and was dressed in a well fitting suit of blue serge. I saw that he was a stranger and wondered where he came from, as strangers were rare in our secluded part of the world.

A little way further on I looked back and observed that he was following us.

He overtook us before we reached the next gate, passed us and opened this one also, again lifting his hat as we went by.

I thought this rather odd, but having resolved not to speak to Aunt Maria until she addressed me I held my peace.

At the third gate the same performance was repeated, but this time the stranger did not fall behind. He walked to Aunt Maria's side and asked, "May I offer you my arm?"

"Certainly not, sir," was the indignant rejoinder. "I have not the honor of your acquaintance, nor do I desire it."

"At least you will permit me to carry your umbrella," continued the stranger unabashed. Aunt Maria merely snorted, and clutching her umbrella more firmly marched on at an increased pace.

"Is there no little service you will allow me to render you," pursued our unwelcome companion in tragic tones.

"Go away, sir," said my aunt furiously. "We do not wish for your company. Your having spoken to us at all is a piece of the most unwarrantable impertinence."

"Do not drive me from you," was the reply. "I love you. I have loved you from the first moment I saw you. You are the only woman I have ever loved."

And with these words this most extraordinary individual threw himself on his knees right in Aunt Maria's path. At this point a light broke in upon me. There was a large private lunatic asylum in the neighborhood. This must surely be one of the patients who had eluded the vigilance of his keepers and escaped.

"He's mad," I whispered to Aunt Maria. "For goodness' sake humor him or he will murder us both. I have always heard they must be humored."

Aunt Maria, however, paid no attention, and I almost doubt if she even heard me.

"Let me pass this instant, sir," she gasped, crimson with wrath.

"Never! never! till you promise to be mine."

At this point, I regret to say, my aunt lost her temper altogether, and raising her umbrella she brought it down on her suitor's head with such force that she quite crushed in the top of the bowler hat he wore, and which fortunately protected his skull. For a moment he seemed petrified with astonishment. Then he sprang to his feet, and seizing Aunt Maria in his arms lifted her bodily from the ground and carried her along the path. She struggled violently, and I followed, screaming for help.

The lunatic strode on until he reached the gate which led into a field, on one side of which ran a rather high stone wall. Upon the top of this wall he placed my unfortunate aunt and then stood and calmly surveyed her.

"Take me down! Let me go!" she shrieked.

"Not till I have your promise to marry me," replied the lunatic. "I am quite prepared to remain here until tomorrow morning if need be," he added, with great coolness.

"Oh, aunt, do say 'Yes,'" I implored, but at this our persecutor turned upon me. "Will you have the goodness not to interfere?" he said, so fiercely that I was terrified and shrank back.

For about 10 minutes Aunt Maria sat on that wall and raved. Then she burst into tears. At this juncture I perceived a man's figure in the distance. Was he coming this way? Oh, joy, he was! As he drew nearer I saw to my mingled delight and dismay that it was Dick, and seeing that the lunatic had his back to me I ran to meet him.

"Oh, Dick," I shouted as I came up to him, "we have been so terribly frightened by a madman! He has put Aunt Maria on the wall and says she can't get down until she promises to marry him. Do come and save her!"

Dick ran quickly to the spot, and the lunatic turned and faced him.

"You rascal!" cried Dick. "Stand back and let me take that lady off the wall."

"You shall not touch her," said the lunatic fiercely.

Dick took him by the coat collar and flung him aside with such force that he stumbled and fell. The next instant Dick had lifted Aunt Maria safely to the ground. He had scarcely done so when the madman leaped upon him; and a terrific struggle followed. Suddenly I saw the lunatic place his hand in the breast of his coat, and the next instant there was a flash of steel. He had drawn a knife.

"Oh, Dick!—oh, my darling!" I screamed, "he will kill you!"

In that moment I forgot our quarrel. I forgot everything except that I loved him better than anything in the world, and that he was in peril of his life, and rushing forward I grasped the madman's arm and hung on to it with all my weight. Aunt Maria screamed lustily for help, and as I spun round with the combatants I caught sight of two men running across the field.

Aid was near, so I clinched my teeth and held on like grim death. In a few seconds—it seemed like an eternity to me—the men were on the spot, and after a brief struggle the lunatic was secured and disarmed by the two keepers, who had been searching for him all day. As for me, the danger being over, I promptly fainted away. When I came to myself, Dick was kneeling beside me, supporting me in his arms.

"Are you all right?" he asked anxiously.

"Yes," I replied, with a smile, "I am quite well."

We all three walked home together, and Dick dined with us that evening.

Afterward, when I accompanied him into the hall to bid him good night, he seized me he held me in his arms. "Tell me, Daisy, would you have been sorry if that fellow had killed me today?"

"Don't talk about it, dearest," I answered, with a shudder. "It would have broken my heart."

"Then you cannot live without me after all?"

I leaned against his breast in silence, and he kissed me very tenderly.

Dick and I have never quarreled since, and I do not believe we shall ever quarrel again as long as we live.—New York Commercial Advertiser.

A Misfit Quotation.

An attache of a religious bookstore in this city has spent so many years of his life among theological volumes that he is scriptural or nothing, but he sometimes makes a mistake. When his attention was called the other day to a rose bud which was pinned to the lapel of his coat and an insinuation thrown out that a lady friend might have had something to do with it, he paralyzed the insinuator by saying, "No, sir; I gathered that rose from my own vine and fig tree."—Pittsburg Commercial-Gazette.

Business Scheme.

Clerk—Might I ask what you intend to do with these 500 young men you are advertising for?

Shoe Dealer—I am going to give one away with each pair of women's shoes to keep them—ted.—Indianapolis Journal.

Showing That Plants Can See.

Can plants see? Darwin gave it as his opinion that some of them can, and an Indian botanist relates some curious incidents which tend to verify the belief. Observing one morning that the tendrils of a convolvulus on his veranda had decidedly turned toward his legs as he lay in an attitude of repose, he tried a series of experiments with a long pole, placing it in such a position that the leaves would have to turn away from the light in order to reach it. In every case he found that the tendrils set themselves visibly toward the pole and in a very few hours had twined themselves closely around it.—London Public Opinion.

CHRISTIAN ENDEAVOR.

Topic For the Week Beginning Sept. 10. Comment by Rev. S. H. Doyle.

TOPIC.—Lessons from Paul's life. Acts xxviii, 30, 31; I Cor. ix, 16-27.

Paul's life teems with useful and inspiring lessons for every Christian. Perhaps no life has ever been more completely dominated by the principles in which he believed than the life of Paul. From the moment of his conversion Paul himself ceased to live and Christ lived in him. His devotion to the Master has been unsurpassed, his experience unequaled, his fervor unexceeded and his achievements unrivaled. His life should be a daily and hourly inspiration to all who serve the same Lord whom he served. To mention in all the ways Paul's life may teach us useful lessons is impossible here. Let us therefore consider the most prominent as illustrated in our topical references.

1. Paul's life teaches a missionary lesson. Acts xxviii, 30, 31, "Paul dwelt two whole years in his own hired house and received all who came unto him, preaching the kingdom of God." "Preaching the kingdom of God was Paul's life work. He was the prince of preachers, the missionary of missionaries. Both Asia and Europe felt the effects of his tremendous missionary zeal, and no human authority can compute the number of souls brought into the kingdom by his untiring efforts. Paul believed in missions, both home and foreign. He prayed for missions. He gave all he had to those who had not the gospel, for he gave himself without any reservation. Such an example should inspire us to nobler efforts in the mission cause."

2. Paul's life teaches a lesson on consecration to Christ (I Cor. ix, 16-27). Paul's whole life was one of devotion to Christ. To him Christ was everything, and all things else were nothing. He lived for Christ, and he died for Christ, and today he reigns with Christ. Self had no place in his desires and purposes. He kept under his body lest he should be lost. But one idea seemed to possess him—that he belonged to Jesus Christ and that he should preach Christ and live Christ. This great lesson should be impressed upon all Christians. The need of the church today is more of Christ and less of self among those who profess to be Christians. It is that there shall be a more earnest and consecrated devotion to the truths and principles of Christianity. May the effect of Paul's life upon us be to instill the same spirit of supreme love and of blind devotion to the Master as possessed him.

Bible References.—Acts ix, 1-15; xiii, 1, 4, 15, 26, 27; Rom. i, 8; I Cor. i, 4; iv, 9; II Cor. xi, 18; xii, 1, 7; Phil. i; Col. i, 1; I Thess. i, 5; II Thess. iii, 1-5; II Tim. iv, 6-8.

Echoes of the Montreal Convention.

Secretary Baer is exceedingly complimentary in his remarks concerning Montreal. He said:

"This was the largest Christian Endeavor convention ever held with the exception of the unusual gathering last year in the metropolis of the United States and the very center of Christian Endeavor population. I believe that when we get the official figures the representation will prove at least 15,000 and maybe more."

"Yes," remarked Mr. Francis E. Clark, "I can indorse everything Mr. Baer has said. The attendance has been very large, considering the distance many have to come to a country in which there are not as many Christian Endeavorers as in the localities usually visited. I feel we have had a very wonderful convention."

Prominent among the speakers at the convention was Benjamin William Arnett, A. M. E., bishop of Arkansas, Mississippi, Indian Territory and Oklahoma. Dr. Arnett is a colored clergyman, representing in the convention no less than 50,000 Endeavorers of his race. There are in his church 11 bishops, having jurisdiction over 60 conferences, of which two are in Africa, two in the West Indies, one in Bermuda, one in Nova Scotia and one in Ontario. The other 53 are in the United States. It is the largest colored Christian denomination in the world. It employs over 4,000 itinerant preachers, whose average term of residence in a given locality is about two years.

Junior Societies.

Notwithstanding it is particularly difficult to gather statistics from junior societies, we have actually enrolled today 4,136 junior societies. Illinois has from the start stood first, last year carrying away the banner for the largest number of juniors. Illinois brought her banner to Montreal and returned with it, for she now has 483 regularly reported societies on my lists. New York is not very far behind and is second with 408; Pennsylvania next with 395. Massachusetts has 234 and Ohio 219.—Report of John Willis Baer.

No More Yarns About Indians.

There is an advertising man in Detroit, well known for his hustle, who has a pretty pair of children that come honestly by a desire to get all the fun obtainable as they pass through this probationary state. It is the habit of the father to regale the little ones with blood curdling Indian stories, for which they have the same insatiable desire as the nickle novel fiend for his choice style of literature. The moral of each of these wonderful relations by the head of the family is that the Indian, with all his warwhooping and ghost dancing, cares for good little children and scalps those who are bad. This bothered Teddy, the 8-year-old, considerably, and he finally determined on a council of war with his little sister. From all the evidence that their wise little heads could get together, they concluded that they were bad children and decided to anticipate any old Indian that might come stalking around after them by doing their own scalping.

Teddy promptly went at sister's golden locks with the family shears, sacrificed her bangs and waded ruthlessly through her hair. Then she reciprocated, and nobody ever saw two such heads, scarred over with nicks, ridges, "X's" and tufts that suggested the joint efforts of a Feejee barber and a modern knife thrower. The mother simply sat down on the floor and wept scalding tears. The father kicked himself around the mile circuit, and the precious little youngsters insisted that they were only playing Indian. That household now draws the line on Indian yarns.—Detroit Free Press.

THE SUNDAY SCHOOL.

LESSON XI, THIRD QUARTER, INTERNATIONAL SERIES, SEPT. 10.

Text of the Lesson, Acts xxviii, 20-31. Memory Verses, 30-31—Golden Text, Rom. i, 16—Commentary by the Rev. D. M. Stearns.

20. "For this cause therefore have I called for you to see you and to speak with you, because that for the hope of Israel I am bound with this chain." During the three months at Malta many miracles were wrought by Paul in the name of the Lord Jesus, and many must have heard the gospel (verses 1-11). In due time arriving at Rome, Paul was suffered to dwell by himself with a soldier that kept him, and after three days he called together the chief of the Jews and made known to them why he was a prisoner and why at Rome. Before Agrippa he had spoken of the hope of the promise made of God unto the fathers as something concerning the 12 tribes (xxvi, 6, 7).

21. "And they said unto him, We neither received letters out of Judea concerning thee, neither any of the brethren that came shewed or spake any harm of thee." They did not have daily papers with the news from all the world in each issue. It may have been some comfort to Paul to know that tongues in this part of the world had not yet spoken ill of him. He had been enjoying his share of it elsewhere and had found some pleasure in it (II Cor. xii, 10).

22. "But we desire to hear of thee what thou thinkest, for as concerning this sect we know that everywhere it is spoken against." In chapter xxiv, 5, the followers of Jesus are called the sect of the Nazarenes. If Paul had not been spoken against at Rome up to this time, it would now be evident to him that his Master had, and his fellowship would be sure to come. But Paul was ready, for his prayer was to know Him, and the power of His resurrection, and the fellowship of His sufferings (Phil. iii, 10).

23. "He expounded and testified the kingdom of God, persuading them concerning Jesus both out of the law of Moses and out of the prophets from morning until evening." Having gathered unto him in his lodging a company of Jews, he, as his custom was, preached unto them Jesus as Son of David and coming King from their own Scriptures (chapter xvii, 2, 3; xix, 8; xxiv, 14). Doubtless Acts xiii, 16-41, is a fair sample of his preaching and reasoning. He sought to convince them that Jesus of Nazareth was indeed the promised Messiah, that it was all foretold that He should die and rise again, and that now they were to receive Him, serve Him patiently and faithfully and wait for His return (Acts iii, 19-21; I Thess. i, 9, 10; Titus ii, 11-13).

24. "And some believed the things which were spoken, and some believed not." We are nowhere taught that the good news will be universally received in this age. Some seed will fall by the wayside and some on rocky soil, but a portion will find good ground; some will be saved, and the church shall be completed (Math. xiii, 18-23; I Cor. ix, 22; Eph. v, 27). Even in the next age, when satan shall be bound, there will be deceivers who will only yield a feigned obedience and will follow satan when he comes out of the pit (Ps. lxvi, 3, margin; Rev. xx, 7, 8).

25. "And when they agreed not among themselves they departed after that Paul had spoken one word, Well spake the Holy Ghost by Esaias the prophet unto our fathers." That it was not the prophets who spake or wrote, but God by His spirit through the prophets is everywhere taught. Compare Acts i, 6; ii, 17; iv, 25, and notice who it is that speaks. David in his last words said, "The Spirit of the Lord spake by me, and His word was in my tongue" (II Sam. xxiii, 2). Peter says it was the Spirit of Christ who spoke through the prophets (I Pet. i, 10, 11).

26. "Hearing ye shall hear and shall not understand, and seeing ye shall see and not perceive." It was not very encouraging to the prophet to be told that the people would neither perceive nor understand his message, but Jeremiah and Ezekiel had the same prospect before them. "They shall fight against thee." "The house of Israel will not hearken unto me" (Jer. i, 19; Ezek. iii, 7). The messenger of the Lord has only to deliver the message faithfully (Jer. xxiii, 28), sure that it will accomplish the Lord's pleasure (Isa. lv, 11), and take refuge and comfort in Luke x, 16.

27. "For the heart of this people is waxed gross, and their ears are dull of hearing, and their eyes have they closed, lest I should heal them." The difficulty is not on God's side, but wholly on the side of man, who will not listen to God. It is written that the Lord hardened the heart of Pharaoh and also that Pharaoh hardened his own heart (Ex. x, 1, 20, 27; viii, 15, 32). The Lord did it by giving him a command which he would not obey, and Pharaoh did it by refusing to obey the Lord's command. God is always right, but man wrong.

28. "Be it known therefore unto you that the salvation of God is sent unto the Gentiles, and that they will hear it." Compare chapter xiii, 46, 47. "To the Jew first," was Paul's motto and custom (Rom. i, 16). Had it been continued to this day who can tell what the results might have been? Obedience is our part. Results are with God, and He will see to it. That God would gather from Jews and Gentiles without distinction and on the ground of simple faith in Christ those who would form the body of Christ was a mystery revealed to Paul (Rom. xvi, 25, 26; Eph. iii, 1-12).

29. "And when he had said these words the Jews departed and had great reasoning among themselves." The word preached does not profit unless it is mixed with faith in those who hear it (Heb. iv, 2). The weapons of our warfare are intended to cast down reasonings and every high thing that exalteth itself against the knowledge of God and bring into captivity every thought to the obedience of Christ (II Cor. x, 4, 5, marg.). To profit by the word we must receive it with meekness (Jas. i, 21).

30. "And Paul dwelt two whole years in his own hired house and received all that came in unto him," doubtless accomplishing the will of God and glorifying God as much as when journeying through Asia and Macedonia. Being no longer able to go to people God brought people to Him, and though he was bound he rejoiced that the word of God was not bound (II Tim. ii, 9).

31. "Preaching the kingdom of God and teaching those things which concern the Lord Jesus Christ with all confidence, no man forbidding him." The adversary cannot hinder beyond God's permission, and it was His pleasure that for these two years the word should have free course. The book opens with Jesus between His resurrection and ascension preaching the kingdom, and with the question of the disciples, "Lord, wilt Thou at this time restore again the kingdom to Israel?" (Acts i, 3, 6)? It closes with Paul at Rome in a hired house still preaching the kingdom. After these 1,800 years we are still more or less bound, but preaching Jesus Christ and still waiting for the kingdom while we continue to pray, "Thy kingdom come." If we had more of Paul's spirit and faithfulness, we would do more to hasten the kingdom.

Quick Action.

"Centerline sent a story to a magazine the other day and got back a queer reply. They said the story 'lacked rapidity in movement.'"

"Well, what's the queerness of that?"

"You see, he sent the MS. one day and got it back the next, and he considered that pretty rapid 'movement.'"—Kate Field's Washington.

Effect of Paris Life on American Students.

An American artist of considerable reputation, while speaking the other day with reference to the easy going Bohemian habits so common among men in his profession, said: "It is not a pleasant thing to say, but I believe it is true that a period of two or three years of student life in Paris practically ruins about as many young artists as it benefits. Student life in Europe, and especially in Paris, is full of allurements and temptations which only those capable of great self control are able to resist. It is in its social aspects a delightfully free and easy sort of life, which appeals almost irresistibly to the average young man. It develops the habit of indolence with frightful rapidity, and from indolence it is but a short step to indifference, dissipation and reckless self neglect. Convivial associations and the gay company of a colony made of kindred spirits as bright and magnetic as himself too often put his ambitions to sleep, and he drifts on and on until he becomes a spendthrift and a lounger, if nothing worse. At the end of two or three years he returns to America, his money spent, his health frequently shattered and himself so thoroughly bohemianized that he finds it difficult if not impossible ever to regain anything of the orderly, methodical habit of industry upon which his professional success depends."—New York Herald.

Mr. Labouchere's Fish Story.

If Mr. Henry Labouchere has a habit of getting into trouble, he has also a happy knack of getting out of it. For instance, the other day, after he had printed an important piece of news about the proper way to cook crawfish and a humane reader of Truth expostulated with him about his advice to the cook to cut the live fish in halves, he retorted merrily by expressing the opinion that it is ridiculous sentiment to treat creatures of low or rudimentary organizations as if they had the same susceptibility to pain as a human being, and settled the question finally by telling an anecdote about an angling friend of his who once "caught a perch foul."

> The hook pierced the fish's eye. My friend felt that he had not caught the perch according to the rules of the game, so, to compensate him for losing his eye, he put him back into the water. He then baited his hook with the eye and went to work again. Within three minutes he caught that same perch again with his own eye.

This is a capital fish story. We have not heard a better tale in a long while. It is a lie of course, but all fish stories are, and it has the merits of originality and humor. We like Mr. Labouchere the better for such harmless fibs.—New York Times.

Like the Belt of the Summer Girl.

The ancient girdle was used for other material or actual purposes besides that of a receptacle for money. At it were hung the thousand and one odds and ends needed and utilized in every day affairs. The scrivener had his inkhorn and pen attached to it, the scholar his book or books, the monk his crucifix and rosary, the innkeeper his tallies, and everybody his knife. So many and so various were the articles attached to it that the flippant began to poke fun. In an old play there is mention of a merchant who had hanging at his girdle a pouch, a spectacle case, a "punniard," a pen and inkhorn and "a handkercher, with many other trinkets besides, which a merry companion seeing said it was like a haberdasher's shop of small wares." In another early play a lady says to her maid: "Give me my girdle and see that all the furniture be at it. Look that cizars, pincers, the penknife, the knife to close letters with, the bodkin, the earpicker and the seale be in the case."—Chambers' Journal.

A Handle to His Name.

"I understand," said a pompous employer to one of his clerks, "that you are in the habit of speaking of me by my Christian name?"

"It is possible that I have done so, sir," answered the clerk humbly.

"In future you will use the prefix 'Mr.' when alluding to me. I am 'George' only to my friends. Do not forget hereafter that I have a handle to my name."

"I will try to remember," said the clerk. "I know we always say George Washington, Abraham Lincoln and Tom Palmer, but these are distinguished men, not everyday people, George—excuse me—Mr. Smythe," and the clerk retired to write out his resignation.—Detroit Free Press.

NORWICH MORNING BULLETIN.
Established 1858.
NORWICH WEEKLY COURIER.
Established 1796.

Subscription rates, MORNING BULLETIN—By mail or carrier, $6 a year; $1.50 a quarter; 50 cents a month; 12 cents a week. Single copies 2 cents.

Subscription rates, WEEKLY COURIER—50 cents a year; 25 cents for six months in advance. Single copies 3 cents.

THE MORNING BULLETIN (Six Pages) is the largest, oldest and most complete morning paper published in Eastern Connecticut. At $6 a year it is also the cheapest.

THE WEEKLY COURIER (Eight Pages) is the best weekly issued in Eastern Connecticut.

Advertising rates furnished on application to the business office. No cuts or electrotypes inserted in either paper.

To guard against mistakes, advertisements should be sent in manuscript. We cannot be responsible for errors that occur in messages received by telephone.

Yearly advertisers are limited to their own immediate business, and their contracts do not include Wants, To Let, For Sale, etc.

All news letters should be addressed to THE MORNING BULLETIN; all business communications to THE BULLETIN COMPANY.

Money orders and checks should be made payable to THE BULLETIN CO.

All communications must be signed. Anonymous letters or news items will not be read, but thrown into the waste basket.

No manuscript preserved or returned, unless stamps are enclosed fully to prepay postage.

Entered at the post office at Norwich, Conn., as second class mail matter.

The Bulletin.

Norwich, Saturday, September 9, 1893

The Norwich Weekly Courier is the best weekly newspaper in New England at 50c a year.

ANOTHER OBJECT LESSON.

The hearings now being held before the ways and means committee at Washington ought to be educational to democratic members who think that the republican policy of protection is an unconstitutional barrier to prosperity.

If they read the hearing of the foreigners they noticed the plea was made that the McKinley tariff put a tax and a burden upon foreign producers.

Now they hear Mr. Whitcomb of Birmingham in this state, speaking for the brass bedstead trade, and he says "the republican protective tariff made it possible to make these bedsteads in this country; made it possible for thousands of American workingmen to obtain employment; made it possible for consumers to obtain a better bedstead than ever before and at lower cost; and made it possible to pay workmen 100 to 200 per cent. more wages than they had received before coming to this country."

This is the result of what the democratic orators and the democratic platform call "a robber tariff" which makes "the rich richer and the poor poorer!" When challenged by the democratic members upon comparative statement of wages—$12 to $18 a week in Connecticut, and $4.50 to $6.25 a week in England—Mr. Whitcomb replied: "My statements are based on personal knowledge concerning wages in this country, and from my father who has been a manufacturer and employer of men at the same business in England!"

This is evidence which ought to satisfy the men of America that republican protection is a good thing for the country and a good thing for them.

OPPORTUNITY HUNTERS.

The majority of people are not sharp-eyed for the opportunity to do things. With the masses the world seems to wag as it will, and they accept things as they go. People who are relying upon their own wits and the credulity of other people to work their way through life "keep an eye out for the main chance," and generally recognize their opportunity as an experienced jeweller will recognize a gem.

One of these opportunity hunters, and he was a keen one, illustrated his ability in New York the other day under the cloak of charity. A poor widow, her family and belongings were legally set into the street because she owed her landlord $48. Along came this neatly dressed, benign looking stranger who sympathized with her like a man of prayer and saintly qualities, heard her story and without divulging his name found her landlord, handed him a hundred dollar bill and told him to take out the dollars which were his due and to allow the woman to return to his cottage.

The poor widow and her family were reinstated, the landlord was chuckling over his good luck, and the widow praying that abundance might always bless her benefactor, when it was discovered that the one hundred dollar bill was a counterfeit and that the "opportunity hunter" had helped the widow to shelter, and swindled her landlord out of $52. The sequel is not out, but every man should see that the opportunity hunter does not make him a victim to his art by getting his confidence.

SAVINGS BANKS TO RESUME.

A reliable sign of better times and returning confidence is the announcement that the Hartford savings banks, the first of next week, will resume paying their depositors on call. This will undoubtedly be the signal for most of the savings banks in the state to suspend the ninety days rule and resume also. There has been paid out in small amounts to the depositors since August 1, in Hartford $378,000. The interest on real estate loans has been promptly paid, and this has added largely to their available resources. The banks regard the financial scare as over, and have confidence that the financial and business improvement is healthy and will [illegible].

RAILROAD HORRORS.

The number of railroad accidents in this country in the past two weeks, the fifty killed and one hundred or more injured, probably will make this the year of greatest disaster in the history of railroading in the United States. The accidents show that there is a carelessness about the transportation of passengers in this country which ought not to be tolerated in any land. There is no excuse for the slaughter of workmen, passengers and others, which marks the railroad service in America. Only five lives were lost on British railways in 1891; and it is doubtful if there is a state in the union where that record has not been beaten every year for a decade. The September accidents have been of sufficient magnitude to attract the attention of the country and of congress; and a national law ought to be passed insuring the people against the danger of being maimed or killed on account of incompetent employes or the criminal negligence of these common carriers of the people.

SKIPPER BARR'S LOYALTY.

The first skipper of the Navahoe has no reason to praise the owner of the yacht, but he still has faith in and is loyal to Royal Phelps Carroll's boat. Skipper Charles Barr has a closed mouth for the man who is alleged to have assaulted him and "free wind" for the first racing yacht of which he was ever in command. He claims the Navahoe in several of the races was blanketed and bothered by the three other English yachts, whose purpose was more to favor His Royal Highness's Britannia than to win anything for themselves. No doubt Skipper Barr is honest in his conclusions, but on Wednesday when the Britannia beat the Navahoe a quarter of an hour in a fifty-mile race, she demonstrated that the skipper's conclusions are not straight.

EDITORIAL COMMENT.

James Whitcomb Riley contributed a page poem to the Indianapolis Journal, apropos to the G. A. R. encampment. That is a dose the veteran of greatest nerve could not take at a sitting.

This administration is a crusher. The government's receipts on Wednesday were the lowest of any day's business since the war! It not only knocks down the workingman but it knocks down the revenue!

One of the "bosses" claims that Tammany has assessed the office holders of that city between three and five million dollars for political purposes. No wonder the "tiger" has a pull in the metropolis!

Dr. William Everett, the mugwump congressman from the Massachusetts seventh district, says he is not as big a crank as he is represented to be. He dislikes being regarded as a Colossus of Rhodes among cranks.

The pension roll, as the democratic kickers assert, may be a heavy drain upon the treasury of the country, but if the Grand Army had not won a great and priceless victory there would have been no treasury for them to draw upon.

The gentle editor of The New London Telegraph does not believe in the addition of "ess" to words as an affix indicative of sex; but she does not object to the application of the word "murderess" to a woman who has killed her husband or mother. Why not call such an one a "Tigress!"

The death of Hamilton Fish, says The New York Times, "may be regarded as practically the last of the statesmen bred and trained in the school of the early whigs who brought to the republican party a rare combination of conservatism and of force. It is a school that seems now very much out of date, and at the present day we have few public men who have its virtues while avoiding its faults. Yet his ideal is the one to which, sooner or later, the truly successful statesman must conform."

The Norwich Weekly Courier is the best weekly newspaper in New England at 50c a year.

VOICE OF THE PRESS.

Pitiful.

In both branches of congress the exhibition of democratic leadership is pitiful.—[Boston Journal.

Senatorial [illegible].

The United States senate is making senatorial courtesy mighty unpopular.—[Boston Herald.

Way Down!

Customs receipts have now got down to the lowest point for 30 years. The reason is the uncertainty as to the democratic tariff policy.—[Boston Journal.

A Monster!

A person who would derail a train and put in peril the lives of hundreds, is a monster, beside whom a common murderer is a saint.—[Boston Globe.

A Vindication Wished For.

Every wife occasionally wishes she could vindicate herself by letting some woman her husband praises have him for a few weeks.—[Atchison Globe.

A Low Down Phrase.

Whitney should explain that his allusion to the "lower classes" meant nothing. It is a phrase that he acquired when he attended the grammar school.—[Rochester Democrat and Chronicle.

Increasing Her Halo.

The trial of Emma Goldman will only make her a greater leader than ever among the anarchists. The more times one can be arrested the bigger the diameter of the halo.—[Springfield Republican.

No Equals Old Horses!

There are but few men who have the physical strength to make so long a speech as Senator Stewart. It is even doubtful if there is any man who has the physical strength to listen to one of his entire speeches, or read it.—[Boston Globe.

The Point of Indictment.

"We are impatient only with those who start with a prejudice against the soldier," said ex President Harrison in his excellent address at Indianapolis. That is the point of the indictment against this administration.

"Where They Are At!"

Democratic retrenchment has already commenced in congress. The rules are not yet adopted in the house, but bills to spend $8,000,000 in public buildings and pay rebel war claims are already on the calendar.—[New Bedford Standard.

The New Commander-in-Chief.

The new commander in chief of the Grand Army was a good soldier in war time; he has been a good citizen since.—[Boston Journal.

For Captain Adams is a real soldier. He has not only fought, but he has bled. Battle and wounds, hospital and prison, he has known. And the compliment of an election by acclamation, without ballot, is a distinction worthily bestowed.—[Boston Post.

Glory Enough!

It is Commander in Chief Adams of Massachusetts of the Grand Army of the Republic; Commander-in Chief Roberts of Massachusetts of the Union Veterans' Union, and Commander-in Chief Maccabe of Massachusetts of the Sons of Veterans. This is martial glory enough for Massachusetts for one year.—[Boston Globe.

An Important Step Gained.

Hoke Smith and Commissioner Lochren in response to the demand of Colonel Charles P. Lincoln, have promised to set an extra force of clerks at work in adjudicating the claims of veterans whose pensions have been arbitrarily suspended. This is an important step gained. If the department keeps its pledge the great majority of those pensioners will be speedily restored to the rolls from which they should never have been dropped.—[New York Press.

Narrow Mindedness.

No other profession has so lofty and inflexible a code of ethics as that of medicine. Violations of it are infrequent, and when they occur are visited with swift and unsparing condemnation. But is it medically ethical, at a Pan-American Medical congress, for an eminent foreign delegate, in discussing the question, to stigmatize as "quacks" those physicians who prefer to practice what is known as homœopathy? The characterization may be justified by Dr. Johnson's definition, but the intolerance and narrow mindedness of it make a decidedly unfavorable impression on the non medical mind. The congress would have done well to disavow sympathy with Dr. Hart's too emphatic language.—[N. Y. Tribune.

Who Would Have Dared Predict It?

By this change in the order, Hoke Smith confesses that his first order was wrong and indefensible. But they stop there. They do not propose to undo the injustice already done and restore the pensions of the suspended veterans. These must suffer and die, or go to the poor house. What do the people think of this war on the men they have honored and welcomed on Memorial day? When Lee gave his sword to Grant at Appomattox, who would have dared the prediction that the time would come when the remnant of Lee's army would dominate over the rescued republic, control the pension department and rob the broken and white haired soldiers of Grant of their last support and hope?—[North Adams Transcript.

The Norwich Weekly Courier is the best weekly newspaper in New England at 50c a year.

To be free from sick headache, biliousness, constipation, etc., use Carter's Little Liver Pills. Strictly vegetable. They gently stimulate the liver and free the stomach from bile.

I love it, I love it, and who shall dare
To chide me for loving my SOZODONT there?
I've used it, and blessed it, a thousand times,
Till my breath is as sweet as poets' rhymes,
Till my teeth are as white as diamonds rare.
Oh! a precious thing is my SOZODONT fair!

Piles! Piles! Itching Piles!
SYMPTOMS—Moisture, intense itching and stinging; most at night; worse by scratching. If allowed to continue tumors form, which often bleed and ulcerate, becoming very sore. SWAYNE'S OINTMENT stops the itching and bleeding, heals ulceration, and in most cases removes the tumors. At druggists, or by mail, for 50 cents. Dr. Swayne & Son, Philadelphia.

Every woman who suffers from Sick Headache, and who dislikes to take bitter doses, should try Carter's Little Liver Pills. They are the easiest of all medicines to take. A positive cure for the above distressing complaint; prevent and cure Constipation and Piles. As easy to take as sugar. Only one pill a dose. Price 25 cents. If you try them you will not be without them.

"How to Cure All Skin Diseases."
Simply apply SWAYNE'S OINTMENT. No internal medicine required. Cures tetter, eczema, itch, all eruptions on the face, hands, nose, &c., leaving the skin clear, white and healthy. Its great healing and curative powers are possessed by no other remedy. Ask your druggist for SWAYNE'S OINTMENT.

A woman who is weak, nervous and sleepless, and who has cold hands and feet, cannot feel and act like a well person. Carter's Iron Pills equalize the circulation, remove nervousness, and give strength and rest.

Breakfast

CONVENT WRECKED.

Terrible Cyclone Visits the Town of Lockport, La.

MANY BUILDINGS ARE DESTROYED.

Wind Blew at Terrible Rate, Sweeping Everything in Its Path.

RACELAND, La., Sept. 8.—A severe cyclone struck the town of Lockport, on Bayou Lafourche, about 9 o'clock yesterday morning and left it a mass of ruins, desolation and destruction.

Strong winds had been raging all Wednesday night, accompanied by rain. No serious results were apprehended until the wind shifted suddenly to the southwest and blew at a terrible rate, carrying everything in its path. The fine store of W. G. Barrios was half demolished and all the goods injured; the store of Paul Meyer and his residence were completely demolished; the residence of Gus Abritat, C. J. Richards' residence and coffee house, Oliver Rivet's barber shop, Isadore LeBlanc's residence, G. D. Barrios' cooper shop, convent of the Immaculate Conception and Peter Pulincky's fruit shop were completely destroyed. A large portion of Louis Terrill's residence was destroyed. Many other buildings were badly damaged.

The Killed and Wounded.

The following were killed: Sister Pulcharie, Sister Louis, Miss Mabel Gauthreaux, Oliver Rivet, an unknown man, with scalp torn off.

Seriously wounded: Mr. Camille Richard, three ribs broken, injured internally; Edward Barbioux, wounded in the breast and head; Isadore Leblanc, ribs fractured, and was carried by cyclone from one side of the bayou to the other; Miss Nettie Ayo, internal injuries, recovery doubtful; Miss Anders of Terrebonne, hip injured; Sister Anasthasia of Immaculate Conception convent, head and hips injured; Sister Joseph, hips injured; Arthur Seville, two fingers broken, since amputated; Gus Abritat, parish of Ascension, scalp wound, face and arms injured; Mrs. Gus Abritat, shoulder fractured, internally injured; Mr. George, the shipbuilder of Algiers, slightly wounded; Miss Louis Forest, slightly wounded.

TORNADOES' WORK.

Fences and Buildings Blown Down and Two Lives Lost.

SCHRIVER, La., Sept. 8.—A strong gale blew here steadily for 24 hours, commencing about 6 o'clock Wednesday evening. At 6 o'clock last evening it had increased to a tornado. Fences, outhouses and some small dwellings were blown down and destroyed, and cane and rice considerably damaged.

Mabel Gauthreaux, the little daughter of H. H. Gauthreaux of this town, was killed while attending school near Lockport by the destruction of the schoolhouse by the storm. No particulars are yet obtainable. Oliver La Pourse of Thibodeaux was instantly killed near Raceland by falling trees. These are the only casualties reported so far.

Loss Will Reach $100,000.

LOCKPORT, La., Sept. 8.—The property loss in this city caused by a cyclone yesterday morning will approximate $100,000.

Tailoring Establishment Burned.

LAWRENCE, Mass., Sept. 8.—The tailoring establishment of ex-Senator Joseph M. Bradly at Andover was burned at 2 o'clock this morning. Loss on stock and building, $6000, insured. The quarters of the Elm Social club, which were in the upper part of the building, were badly damaged. The stock of Thomas Murphy, next to Bradley's place, was damaged by water to the extent of about $1000; partially insured. The origin of the fire is not known.

SHOULDER TO SHOULDER.

German Patriotism From the Standpoint of Louis of Bavaria.

LONDON, Sept. 8.—The Times' Berlin correspondent telegraphs that Prince Louis of Bavaria, who represents Luitpold, the Bavarian prince regent, at the maneuvers at Metz, in replying to an address by the burgomaster of Zweibrucken, said:

"I come to Metz, which for hundreds of years was under German sovereignty, to show the world that the German princes are all of one mind, and that today the Germans would stand shoulder to shoulder, if needful, as they did 23 years ago. The present moment is witness to the fact that loyalty to the reigning houses is compatible with true German patriotism."

Fell Into an Ambush.

NEW YORK, Sept. 8.—A special to The Herald from Denver says: The posse in pursuit of the party of Mexicans who recently murdered W. T. Walsh near here, fell into an ambush set for them by the murderers yesterday. One member of the pursuing party was killed in the fight which followed, and two others were mortally wounded by the bandits. Walsh was a wealthy young Englishman.

Circus Tent Blown Down.

RANDOLPH, Mass., Sept. 8.—During a furious storm, accompanied by a high wind, last evening Sparks & Cole's circus tent, which had been pitched on land of John Wales, on South Main street, was blown down. The performance was just about to commence, and the tent was nearly filled. Many narrow escapes are related, but no serious injuries are reported.

Baby Boy Born in a Street Car.

NEW YORK, Sept. 8.—Mrs. Louisa Mayfield, a pleasant-faced woman, aged 28, gave birth to a bouncing baby boy in a street car yesterday. The young gentleman first saw the light at Tenth avenue and Fifty-fourth street. The pair were removed to Bellevue hospital. Mrs. Mayfield says she lives on Thirty-second street.

Cooper's Men Shot Down.

SAVANNAH, Sept. 8.—The house of [illegible] Cooper, near Arlington, was fired into late last night by unknown parties. A little father on the [illegible] party met Cooper's wagon, with three of Cooper's men, who jumped out and ran, but were shot down and left by the party.

Pomeranian Broke Piston Rod.

GLASGOW, Sept. 8.—The British steamer Pomeranian, Captain Stirrat, which sailed from this port for Montreal, Sept. 2, returned disabled to the Clyde today. She broke her piston rod when 400 miles out.

Sealers Seized by Russians.

VANCOUVER, Sept. 8.—Word was brought in last night that the sealing schooners Annie Seymour, W. P. Sayward and one unknown vessel were seized by the Russians, off Copper island, July 28.

Still Investigating.

BOSTON, Sept. 8.—The work of investigating the Chester disaster still goes on, railroad men and the bridge gang being carefully examined.

Governor Alexander H. Rice of Massachusetts heads the committee of the alumni of Union college appointed to take charge of the centennial celebration to be held in 1895. He was a graduate of the class of '44.

WOMAN'S RELIEF CORPS.

National Officers Elected For the Year at Indianapolis.

INDIANAPOLIS, Sept. 8.—The Woman's Relief corps last night elected these officers: President, Mrs. Sarah C. Mink of New York; senior vice president, Mrs. Emma Meyerhoff of Indiana; junior vice president, Mrs. Amanda T. Newcomb of Vermont; treasurer, Mrs. Armilla A. Cheney of Michigan; chaplain, Mrs. Harriet J. Bodge of Connecticut; national executive board, Mrs. F. J. Miller of Illinois, Mrs. Gertrude H. Cornel of Nebraska, Mrs. Laura A. Dodge of Colorado, Mrs. Amanda L. Murdock of West Virginia, Mrs. Mary E. Wright of Maryland.

The election of Mrs. Mink as president was unanimous, and she received an enthusiastic reception when presented to the convention as the national president elect.

A vote of thanks was extended to Mrs. Emma B. Lord of Massachusetts for her efforts to secure a part of the pension of veterans in the National Soldiers' home for their destitute widows and orphans.

Mrs. Turner and Mrs. Knowles of Massachusetts were appointed a committee on testimonial to the retiring national president.

Mrs. Emma B. Lord of Massachusetts and Mrs. Margaret R. Wilkins of Kansas were elected to fill vacancies on the National Women's Relief corps home board.

FALL RIVER HAPPY.

Many of Her Manufacturing Concerns Will Start Up on Monday.

FALL RIVER, Mass., Sept. — Inquiry among the mill agents of Fall River yesterday showed that the following corporations would be running next Monday: Barnard, Border City, Chace, Cornell, Granite, Hargraves, King Philip, Laurel Lake, Narragansett, Osborn, Pocasset, Richard Borden, Sagamore, Shove, Sade, Stafford, Tecumseh, Troy and Union. Of this number the Cornell, Granite, King Philip, Laurel Lake and Richard Borden have either been shut down altogether or have been in operation on alternate weeks only.

The Merchants' Manufacturing company will probably resume as soon as it can summons its help, and the Mechanics, which has been undergoing repairs, may operate a portion of its weaving department. The American is putting in new boilers. Some of the frame mills, which employ no mule spinners, may be idle until the middle of October. The Wampanoag is busy this week, and will shut down on Monday, and the old factories on the stream must either wait for better times or cut wages lower than their neighbors, and allow the help to choose between no work and work at cut rates.

LITTLE WANDERER FOUND.

Mamie Hartnett Is Discovered by Her Father In Pawtucket.

PAWTUCKET, R. I., Sept. 8.—Little Mamie Hartnett, who had been missing from her home in Providence since Tuesday, was found by her father last night in this city.

The child had been found astray on the streets of Pawtucket Wednesday afternoon, and was taken to the mission and kept over night and all day yesterday until evening, when the authorities communicated with the police, who were working on the case in Providence. Some remark has been caused, owing to the fact that the child was kept so long before her whereabouts was made known.

TRAINS MET HEAD ON.

No One Was Killed But Six Passengers Were Injured.

OMAHA, Sept. 8.—A passenger train and a freight train on the Rock Island road met heads on near Albright, nine miles from this city, yesterday, completely wrecking both engines and reducing to kindling wood the mail and baggage cars and the smoker, besides a dozen box cars.

Dr. H. H. McIntyre, a World's fair commissioner from Randolph, Vt., was injured in the right leg and [illegible]. Four other passengers were slightly hurt. Mail Clerk Miller received injuries which, it is feared, will prove fatal. Blame for the collision has not yet been located. The trainmen jumped and saved their lives.

Swedish Domestic Missing.

WESTPORT, Conn., Sept. 8.—Christine Johnson, a Swedish girl employed as a domestic, has disappeared, and under circumstances which cause a suspicion that she may have been the victim of foul play. Mrs. Hendrik Peterson, an intimate friend of the missing woman, says Christine recently received the sum of $[illegible] from her native country, and this fact strengthens the belief that she has not gone away of her own free will.

Both Sides of the Story.

PETERBORO, N. H., Sept. 8.—Noone's cotton mill is closed again, and no probable date of opening has been given. The Union mills have started again, however, while the Phoenix is undergoing repairs.

NEWS IN BRIEF.

The Rhine river is declared to be infected with cholera.

"Green goods" circulars are being sent to Dedham (Mass.) people.

Wages of Fall River (Mass.) weavers will probably be reduced 13 per cent.

The national bankruptcy bill will get an early footing in the present congress.

Charles B. Ferris, formerly proprietor of the Revere House, Boston, is dead.

Eleven persons were killed and many injured in a railroad wreck near Colehour, Ills.

The garrison magazine at Tegucigalpa, Honduras, was blown up by revolutionists.

The estate of the late Cashier Francis of Pittsfield, Mass., is said to be in bad condition.

George W. Colburn is to be tried at Dedham, Mass., for manslaughter at the [illegible].

R. E. Warner was confirmed a member of the arbitration board by the Massachusetts executive council.

Secretary Carlisle will not suggest any financial legislation until the senate has acted on the repeal bill.

Hon. Josiah Quincy's resignation as first assistant secretary of state was accepted by the president.

A young woman in Lynn, Mass., was assaulted by an unknown man, who threw a slip noose over her head.

Embezzling Cashier Fred L. Kent of the First National bank of Ellsworth, Me., was sentenced to 10 years in state prison.

William McIntyre of Providence murderously assaulted his wife with a hammer and inflicted injuries which are pronounced fatal.

The cashier of the Farmers and Merchants' bank, Delta, Colo., was killed in resisting an attempt to rob the bank. Two robbers were also killed.

Struck by a Presentiment.

Interested Passenger (on shipboard)—For a man who has never been to sea before you seem to have got the theory of navigation down pretty fine.

The Other Passenger (suddenly growing pale)—Yes, but—I'm afraid—I'm not—going to keep it down.—Chicago Tribune.

Professor W. W. Cooke, formerly director of the Vermont Agricultural college, has accepted the chair of agriculture in the Colorado state college.

THE ARMY IS LOYAL.

Will Not Support Revolt of Brazilian Navy.

FORTRESS LIKELY TO OPEN FIRE.

Will Not Await an Attack From the Squadron.

NEW YORK, Sept. 8.—The Herald's Valparaiso, Chili, correspondent cables: Latest advices received here from the seat of the revolt in Brazil state that the army still remains loyal to Peixoto and that the artillery in the fortress of Santa Cruz, which commands the entrance to the bay, are under fighting orders and will not now await an attack by the squadron, as was first intended, but will open fire upon the men-of-war if they come within range.

One cause of the suspension of telegraphic communication to or from Rio Janeiro by the Brazilian authorities is fear of Peixoto's government, that if the News of the Naval Revolt should travel south from the capital, it would give a new impetus to the revolution in Rio Grande do Sul.

In fact there is every probability that the state of Santa Catharina will now throw in its lot with the Rio Grande rebels and join forces with them against the president.

Affairs are reported to be in a very unsettled and unsatisfactory state in Santos also. The feeling here is that little short of a general and prolonged revolution faces President Peixoto.

ALLEGED ELECTION FRAUDS

Cause a Revolution In Province of Argentine Republic.

BUENOS AYRES, Sept. 8.—News has been received here that a revolution has broken out in the province of Tucuman in consequence of alleged frauds in connection with the election recently held there for governor.

The insurgents attacked the barracks in the capital, and seized a small quantity of munitions of war. The governor has entrenched himself at Cabildo, and is actively engaged in making preparations to resist further attacks by the insurgents.

Bombardment Will Be Prevented.

PARIS, Sept. 8.—A dispatch from Rio Janeiro says that at the instance of the French commander the foreign admirals in Brazilian waters have decided to prevent the bombardment of the city by the revolutionary squadron.

KEEPS WIFE'S DRESSES.

Husband Will Return Them If He Can Get Back Engagement Ring.

NEW YORK, Sept. 8.—Brewer Jacob Dosiger, in behalf of his daughter, Mrs. Louisa Crow, has brought a suit in the supreme court against her husband, Lawyer Moses R. Crow. It is to recover $2800 worth of clothing and jewelry which Mr. Crow has refused to give up to his wife, who has left him.

According to Mr. Dosiger, his daughter left her husband June 16 and returned to her parents. Her aunt subsequently went to Lawyer Crow to get his wife's property, but the husband refused to give it up. Her father then placed the matter in the hands of his attorney.

Some of the articles sued for are eight fancy silk underwaists, white and colored, five plain underwaists, 11 embroidered corset covers, eight pairs of embroidered drawers, four with fancy nightgowns, one dozen sets fancy underwear in boxes, two flannel skirts, two colored silk skirts and 31 dresses of every description.

Mr. Crow, who is 40, married Miss Dosiger April 4. Seven days later, as Miss Dosiger was a Catholic and had been married by a Protestant minister, a special dispensation was obtained from Archbishop Corrigan, and the two were married by Rev. Fr. Taylor. Mr. Dosiger says his daughter was treated so unkindly by her husband that she was forced to leave him.

Mr. Crow said yesterday that his wife left him for no cause whatever. She had made a confession to him, he added, which greatly shocked him, but he loved her still. "If I should give you the inside," said he to a reporter, "you could not print it. I have offered to return her everything if she will send back the engagement ring I gave her. It cost $2000."

DARING ROBBERY.

Montreal Bank Clerk Loses $5000 In a Most Mysterious Manner.

MONTREAL, Sept. 7.—A daring robbery was committed in the Hochelaga bank yesterday afternoon. Charles Meredith & Co., the well known Montreal brokers, are out $5000 in consequence. They entrusted to John Shenbick, their confidential clerk, the above sum in United States greenbacks to exchange for Canada notes. He visited two banks and then entered the Hochelaga bank to complete his mission. He had the money in a paper parcel.

He laid the parcel on the counter while he spoke to the teller, but when he looked around the money was gone. There were only three or four in the bank at the time, all men, considered above suspicion, however, so that the disappearance of the $5000 is still a deep mystery with which the detectives are industriously wrestling.

HEBREWS SUFFER.

Another Banker Gone—Nothing Left In Safe but Old Books.

NEW YORK, Sept. 8.—The banking house of A. L. Kaplansky, at 137 Norfolk street, has suspended.

Kaplansky's bank was looked upon as one of the soundest establishments on the east side, and the announcement that he had failed was received with the greatest surprise. The extent of his liabilities is not known positively, as his books are all in confusion.

Kaplansky told his wife on Monday night that he was going out for a walk. He did not come back, and he has not been seen or heard from by his friends since. He left his safe open, but there was nothing in it except a lot of old books. The depositors were all Hebrews.

Attempted Incendiarism.

DOVER, N. H., Sept. 8.—It was discovered this morning that an attempt had been made last night to burn the National block. Some paper had been ignited in a closet but the flames died out without doing any damage.

The Lazy Man's Wish.

I wish I owned a mountain brook,
One richly stocked with trout
Who'd rush with joy to seize my hook
And let me pull them out.

And all so anxious for to please
That, ranged in squads of twelves,
They'd keep a gridiron 'neath the trees
And thereon cook themselves.
—Harper's Bazar.

What They Were.

Von Blumer (bumping up against Twickenham)—Hello, old man. Congratulations. I hear there is a new arrival at your house.

Twickenham—Yes.

Von Blumer—Then I suppose I'll have to take a drink with you?

Twickenham (sadly)—Take two drinks.—Life.

ADDRESSED TO VETERANS.

Comrade C. R. Louch's Words Should Be Read by Every Citizen.

INDIANAPOLIS, Sept. 8.—The annual encampment of the Grand Army of the Republic that closes today, has been singularly interesting and instructive.

But if one thing more than another has been talked of among the comrades who have met here after long separations, it is the appearance of health and strength of many of the boys who still carry the marks of wounds received in the service.

Among the brave men who served from Minnesota and who still live, none was braver than Comrade Charles R. Louch, recently an inmate at the great national soldiers' home at Dayton, Ohio.

"I served for three years," narrates Mr. Louch, "in Co. B, 8th Regt. Minn. Vols. I participated in the two campaigns against the Sioux Indians 1863-4; served in Tennessee during Hood's advance on Nashville in the fall of 1864; was wounded near that city Dec. 8, 1864, our regiment having been assigned to the 23d army corps, Maj. Gen. Schofield commanding; was taken prisoner, block house No 5, C. & M. R. R., on the same date.

"I contracted a chronic illness from exposure during confinement. My suffering was intense for over twenty years and interfered materially with my worldly advancement. The first real relief that I have experienced in all those years was from Paine's celery compound."

The following statement from Comrade Louch tells the story:

"Not being a physician, it would be impossible for me to give a correct diagnosis of my condition before taking Paine's celery compound. I can judge only by my feelings of relief, increase in physical strength, improvement in nervous force, healthful appearance of my skin, and from other things plainly apparent, that the celery compound has been of the utmost value to me.

"It has relieved me almost entirely of painful sensations. In unfavorable weather I occasionally feel a slight twinge, so slight as to be barely perceptible, that is all, merely a reminder. My digestion has greatly improved; the painful oppression or choking sensation experienced if I happened to turn on my left side while sleeping, has disappeared. It has cured or checked my rheumatism, and I can walk and move about without difficulty. I really enjoy my food, a condition of affairs unknown to me for years.

"When first admitted to the Leavenworth Branch in 1889 I had no hopes of seeing the grass grow or the flowers bloom again, but I used five bottles of Paine's celery compound and received more benefit than I had ever expected.

"I know that it is a remedy for chronic rheumatism, lumbago, indigestion, and especially valuable in nervous diseases, and in that indescribable jumping and thumping of the heart, which makes a fellow believe his time has come.

"I would say to my comrades who are suffering from diseases contracted in the line of duty, that Paine's celery compound is the right medicine for them; it will relieve, perhaps cure them, if not too far gone. It is worthy of a fair trial.

"Try it in your families. Your children born since the war have inherited nervous diseases from you, which were contracted in the smoking battle and the exhausting marches, which, if forgotten in the lapse of years, leave their traces in the system and are a plague to the comfort and ease of old age. It is your plain duty to eliminate this taint from their systems.

"The tremendous train and waste of nervous force that a soldier experiences in an active campaign tells against him on the approach of old age. It must be guarded against; the system must be fortified and strengthened by some potent remedy. Many of us unhappily resort to stimulants. It is much better and wiser to take Paine's celery compound, which builds up the body, tones the nerves and purifies the blood.

"If what is written here is tedious and prosy, it is written for a good purpose, and from the depths of a thankful heart, striving to find adequate expression."

Says Comrade J. J. Miller of the same home:

"Paine's celery compound is the only medicine that ever did me any good, and I can cheerfully recommend it to any one suffering from kidney or bladder trouble."

J. A. Crowser, Co. A, 3d Va. Cavalry, also of the Home at Dayton, has used six bottles of Paine's celery compound and highly recommends it for indigestion and heart trouble.

Paine's celery compound has made many veterans well at Dayton.

Comrade Edward Schott, late first sergeant, Co. G, 32d Indiana, writes from Dayton:

"I have been suffering from chronic backache for over five years, that is to say, since I became a member of the Home. I tried different remedies to get rid of it, but without success. I was recommended by a member of the Home to try Paine's celery compound; I tried a bottle in regular doses before meals, and I found my system was undergoing a change for the better. A comrade has provided me with a second bottle."

Paine's celery compound never fails to give relief to the sick. It makes people well.

The Bulletin.

Norwich, Saturday September 9 1893.

The Bulletin should be delivered everywhere in the city before 6½ a. m.

Subscribers who fail to receive it by that time will confer a favor by reporting the fact to the Bulletin Co.

The Norwich Weekly Courier is the best weekly newspaper in New England at 50c a year.

The Weather Today.

Fair, slight change in temperature, variable winds.

NORWICH AND VICINITY.

CITY NEWS.

The walks along Rogers avenue are being concreted.

The regular season of the steamer Ella will close on the 16th inst.

The Fort Griswold house at Eastern Point closes for the season today.

Prof. H. T. Miller's Saturday dancing classes will open in Lucas hall next month.

The steamer Ella will make an excursion to Watch Hill Sunday at a reduced fare.

Sedgwick Post G. A. R. will attend the funeral of the late Dr. Leffingwell tomorrow at Leffingwelltown.

Contractor Donovan is nearing the third story of the handsome buff brick front of the Masonic temple.

The Peck library will be closed this afternoon for the annual meeting of the corporators of the Free academy.

Two handsome elms in front of the home of Charles E. Case on Laurel Hill avenue lost their best branches in Thursday night's storm.

Lovers of good ball playing will have an opportunity of witnessing a contest between a picked nine and the Neptunes this afternoon on the Cranberry lot.

Mr. E. P. Turner will start another car for the World's fair on the 18th over the same route as the last train took. He has nearly enough people booked already to fill a car.

Farmers have commenced cutting up their corn. It has ripened prematurely, and the crop has also been much reduced by the two severe storms experienced during the past three weeks.

In the superior court at New London Friday, John McDonald of Stonington was allowed to change his plea to guilty. McDonald got mixed up in a drunken quarrel and threw a stone that hit a negro in the head.

Captain Scott has pulled the mast out of the vessel sunk three miles southeast of Watch Hill. This spar, before reported as an obstruction to navigation, is supposed to belong to the schooner Elizabeth, British, sunk there three years ago.

The registrars of voters of the town will meet in the several voting districts Thursday, the 14th inst., from 9 o'clock a. m., till 5 o'clock p. m., to receive applications from or in behalf of those persons to be placed on the list to be made electors before the annual town meeting to be held in October.

Kellar.

Tonight Kellar, the magician, comes to the Broadway theater with a series of feats of the marvelous such as pleased the critical audience of the metropolis for an entire summer season. Some of his achievements to which attention is invited are "Oh," in which he causes a human being to disappear from under the eyes of a watchful audience; "Astarte, the Maid of the Moon," an airy creation of the magician's brain which takes form under the stage and walks at will through the air; "Out of Sight, or the Phantom Bride;" "Flyto;" "Cagliostro;" and by no means least "Karmon."

First Time in Thamesville.

A well known and popular police officer, who has been quite a traveller in his day, and who has been a resident of Norwich for twenty-seven years, made his first visit to Thamesville Friday.

Injured by a Powder Explosion.

Henry Fensley was injured by a premature discharge while blasting in the rear of his residence on Fourth street Friday afternoon. His face was burned by the explosion and his little finger so badly mangled that Dr. G. R. Harris was obliged to amputate it.

The Sunday Wharf Meeting.

The Rev. George A. Grant will speak to men at the popular open-air meeting on the steamboat wharf Sunday afternoon at 4 o'clock. One more service has been arranged for, after which the meetings will be transferred to the rooms of the Young Men's Christian association.

The New Y. M. C. A. Building.

Members of the board of management and building committee of the Young Men's Christian association spent Friday evening with the architect of the new building in looking over the detailed plans.

Great satisfaction is expressed in the complete arrangements for a magnificently equipped association building which is to be an adornment to the city.

Removing a Tree in the Dark.

At 11.30 o'clock last night Superintendent Shaw's gang of electric car linemen began the operation of removing a large elm tree from in front of the Holmes block on Franklin street. The upper part of the tree blew over on to an adjoining house in the storm of Thursday night, necessitating its removal.

The trolley wire was lowered, the tower-wagon brought into requisition, and it was expected that the undertaking would be successfully accomplished by daylight.

That Floating Body Seen Again.

A Providence, R. I., dispatch last night said that "the body of an unknown man is reported as having been seen floating between Ram Island lightship and Lyles Beach, Fishers Island. It has not yet been recovered." This is probably the body seen early in the week floating in that neighborhood by a Stonington fisherman. It is likely that it is the body of William Hamilton Burnett or Edward L. Chappell, the unfortunate men of Norwich who were drowned in the storm of Aug. 29, off the North Dumpling.

Mystic Post Office Robbed.

Some time during Thursday evening unknown parties broke into the Mystic post office. The thieves went into the rear of the building, and standing on the steps, broke out two panes of glass, forced off the iron bars. Inside they secured some stamps and all the loose change. The safe was untouched. They also secured several other articles of value lying loose in the office. Sheriff Hoxie is investigating the case.

Personal.

Mrs. M. J. Eddy has returned from New York.

James M. Shea of this city has returned to Holy Cross college, Worcester, Mass.

Mr. Learned B. Denison of Hartford is the guest of Mr O. D. Noyes for a few days.

Miss Grace Kellogg, daughter of J. C. Kellogg, is pianist for the Broadway classes for the coming year.

Miss Hattie Robbins of Norwich Town is visiting relatives and friends in Hinsdale and North Adams, Mass.

The many friends of Walter H. Gallup of Washington street will be glad to learn that his condition was very much improved last night.

The Springfield Republican, referring to the death of Miss Emma M. Converse of The Providence Journal, said: "She came to the end at 73 years of age with her mental faculties undimmed, and had latterly done special articles on astronomy for various publishers. Miss Converse did not have to wait for the fulness of the woman's rights movement before making a place for herself."

The Alfred (N. Y.) Sun of the 7th says: Mr. and Mrs. James Peckham of Norwich, Conn., and Miss Julia Peckham of Westerly, R. I., are the guests of Mrs. Mary A. Powell. He is also visiting his sister, Mrs Elizabeth Burdick on North Main street, and Mr. and Mrs. Rosebush on South Main street. Miss Peckham was at one time a student in the Alfred university, but now when at home, is a popular dressmaker in the city of Westerly.

A NEW TRACK OPENED.

The Thamesville Electric Car Route Put to Regular Use.

There was joy unconfined at Thamesville Friday evening in honor of the completion and employment of the electric route branch to that suburb. All the residences in that section were brilliantly illuminated, and several were hung with many-hued lanterns.

The track was initiated at 10.45 o'clock, when the first car, with Superintendent Shaw, President Cogswell, and several city officials as passengers, left the square and bowled smoothly and rapidly down to the terminus. The rails were in regular use thereafter.

The Street Railway company will run cars to the West Side and Thamesville after the entertainments at the theater this winter.

The track from Bean Hill to the Yantic railroad crossing will be put to use today for the first time.

THE COUNTY FAIR.

Prospects of a Successful Thirty-Ninth Annual Exhibition.

Secretary Hewitt of the New London County Agricultural society has made all arrangements for a successful and popular exhibition this fall, and has a number of attractions to offer which will commend themselves to the patrons of the fair.

Prof. C. C. Van Deveer of Rutland, Vt., a famous aeronaut, will be present the last two days and give ascensions in his mammoth gas balloon. The fluid will be made on the grounds in the presence of the spectators, and the feature promises to be extremely popular.

There will be two bicycle races, one open to county wheelmen and the other for local riders. The prizes will be silver-plated gold-lined cups.

There will be no running race this year. The following contests have been arranged:

Tuesday, Sept. 26, 2 37 class, pace and trot, $300; reserved for specials, $300; 2 40 county race, $150.

Wednesday, Sept. 27, 2 30 class, trot, $300; 2 35 class, trot, $300; 2 50 county race, $150.

Thursday, Sept. 28, 2 28 class, pace and trot, $300; open to all, trotting, $300; colt race, county, $150.

Sherry's Working World, a mechanical wonder, representing human life in action, will be on the grounds.

The cattle entries are coming in rapidly, and that the live stock exhibition will be large and varied is assured.

THE WILCOX RUN DOWN.

A Dispute Over a School of Fish.

While fishing in Long Island sound Wednesday, the crew of the steamer Annie L. Wilcox saw a school of fish and put off in their boats to set their seine. They had two-thirds of the seine out when the steamer Vester of Greenport came along and Captain Littlefield with his boats tried to claim the fish. The Wilcox's men could not see his right to the fish, and of course refused to give up the school.

The Long Island captain, however, got excited and waved his hand for the Vester to come on. The pilot obeyed and came swooping down upon the Wilcox boats, at full speed, striking the small craft, knocking one of the men, Walter L. Luce of Noank, overboard and tearing the seine. The steamer passed right over Luce and it was almost a miracle that he was not drowned or killed by a blow from the wheel.

There is a likelihood of a suit for damages against the owner of the Vester. Her pilot's name is Thomas Rose.

The Wilcox picked up what was left of her seine and put into Noank for repairs.

DIED.

LEFFINGWELL—In Bozrah, Sept. 7th, Dr. E. M. Leffingwell.
Funeral Sunday, Sept. 10th, at 1 o'clock p. m., from the Leffingwelltown church. Services at the grave will be conducted by Sedgwick Post, G. A. R.

ADAMS—In Lisbon, Sept. 8, 1893, Jeremiah Kinsman Adams, aged 87.
Funeral Tuesday, Sept. 12, at 1 o'clock.

LESTER—In this city, Sept. 8, Charles D. Lester.
Notice of funeral hereafter.

TO THE FRIENDS OF IRELAND.

Manifesto of the Irish National League of America.

THE HOME RULE QUESTION.

Ireland's Place is Not at the Feet of the English.

NEW YORK, Sept. 10.—The executive committee of the Irish National League of America has issued the following manifesto:

To the Friends of Ireland:

When the home rule proposals of Mr. Gladstone became known we addressed you, giving our opinion of his bill and warning Irishmen against the acceptance of its provisions. We had no faith then in the work of Mr. Gladstone. We looked upon it as a chimerical something to lead the fool farther, and we were sorry to see our own people playing the weaker part in the greatest farce comedy of the age. The bill submitted to the house of commons was practically worthless. The imposition on our country of the mutilated skeleton just rejected by the house of lords would have been an outrage and the serfs who would accept it with thanks would merit the scorn of the nations. It was a sorry spectacle, Ireland, after her struggle of centuries, on her knees for a crumb. We have no hesitation in declaring that no more pernicious influence has been at work among our people than the influence of Mr. Gladstone in recent years. The spirit of Irish nationality was being steadily destroyed by this influence, fostered by a designing enemy, which prefers a West Briton to an Ireland. The people were daily becoming more West Britainized and after a while patriots more English than the English. Let us hope that our people will once more recognize that their place is not at the feet of the English.

At all events the house of lords may not be an unmixed evil. You will now doubtless be told by the professional agitators that the rejection of the home rule bill by the house of lords is a mere temporary set back, that after Mr. Gladstone has passed two or three British measures it will again be sent to the upper house and that then, on its defeat, the grand old man will go to the country and be sent back to power on a great tidal wave of popular indignation against the lords. You will simply be played upon [illegible].

Mr. Gladstone, whether he appeals to the country this year or next, will, in the opinion of those who are thoroughly acquainted with things, surely be defeated, and the men who [illegible] still keep their hands in your [illegible] know this.

On the home rule question alone he is certain of defeat, but his shirking of the direct issue by linking an unpopular local option bill and other measures to home rule insures a sweeping majority for the tories. Do not for a moment imagine that the British people are willing to give home rule to the Irish. Among even the most ardent followers of Mr. Gladstone with the possible exception of John Morley, there is not a man whom it interests. Even Lord Rosebery admits that home rule is to him only a means projected to enable the liberal party to escape the enactment of coercion laws or the disfranchising of Ireland.

Are you willing, therefore, to play the part of dupe? It appears to us that the time has come when the Irish race the world over should be enlisted in one gigantic movement for the liberation of Ireland. It has the power to strike the chains from the motherland if it only has the will.

A great convention of Irishmen from all countries should be called and a plan for action formulated and adopted. At such a convention the example of the American patriots might be emulated and a declaration of Ireland's independence given to the world.

(Signed) M. V. GANNON, Omaha.
Pres. Irish Nat'l League of America.
J. P. SUTTON, Lincoln, Neb.
WILLIAM LYMAN, New York,
Treasurer.

New York, Sept. 10, 1893.

Opposition to Mgr. Satolli to Be Investigated.

LONDON, Sept. 10.—The United Press correspondent in Rome telegraphs that the vatican is about to open an inquiry of the most searching character into the latest opposition to Mgr. Satolli in the United States. The vatican has resolved to act with the greatest energy upon the evidence it has secured in the matter.

New Haveners Arrested for Bigamy.

NEW HAVEN, Conn., Sept. 10.—Isaac Goldenstein, a wealthy real estate owner of this city, and his wife, Ernestein Goldenstein, were tonight arrested for bigamy. It is claimed that Goldenstein married another woman in 1880 and about eight years ago deserted her for his present wife, who was cognizant of his former marriage.

All Well at the White House.

WASHINGTON, Sept. 10.—The weather has been misty and muggy today and the Sunday quiet about the White house even more intense than usual. There were many callers to inquire after the health of Mrs. Cleveland and the baby, and they were all informed that mother and daughter were doing well. Dr. Bryant remained at the house all day, but declined to see any one or make any statement regarding his patient, other than the general one given to inquirers by attendants at the door. Mrs. Perrine, Mrs. Cleveland's mother, arrived in Washington this morning and was at once driven to the White house. She will probably remain for several weeks.

Westbound Tonnage Picking Up.

NEW YORK, Sept. 10.—The tonnage from New York and neighborhood to points west of Buffalo and Pittsburg over the trunk lines is beginning to show an increase over the same weeks of last year, indicating that western buying is increasing. The westbound tonnage for the week ending August 31, both all rail and by rail and lake, was 23 231 tons, being slightly larger than in the same week in 1892.

The increase is gratifying to railroad men, as during July and the early August the westbound tonnage only averaged about 23,500 tons, as against about 30,500 tons a week for the same period of 1892—a decrease of about 25 per cent.

Rain Damaging the Cotton Crop.

MEMPHIS, Tenn., Sept. 10.—The rain which began falling Friday continued all through the night and there is still a steady downpour. Reports from the surrounding country are to the effect that the cotton, which was forced to open prematurely by the long drouth, is being badly damaged by the rain. Especially is this true where the stalk is short. The bolls nearest the ground are being either driven into the mud or damaged by the spattering of the soil.

THE GEARY CHINESE ACT.

No Additional Instructions for the Enforcement of the Law.

WASHINGTON, Sept. 10.—The question as to whether or not the administration has called a halt in the matter of enforcing the Geary law and is desirous of the passage of the Everett bill, introduced in the house yesterday, to extend the time for registration until September 7, next year, and at the same time modifying the stringency of the conditions imposed by the Geary bill, is exciting much attention.

Attorneys for the Chinese legation in Washington, having heard reports that additional instructions for the enforcement of the law were being prepared at the treasury department, made inquiries there regarding them. Subsequently one of the attorneys stated that they had been informed that no orders on the subject had been given out here other than the promulgation of the act. The attorney further stated that he expected no change in the situation before the 12th inst., the date of the sailing of the first steamer for China from San Francisco, upon which the Chinese ordered to be deported could leave the country.

It is believed that an effort will be made to secure a stay of the execution of the judgment of Judge Ross in the case of these Chinamen.

Instructed to Enforce the Geary Act.

LOS ANGELES, Sept. 10.—The attorney general of the United States has sent a telegram to United States Marshal Gard instructing him to enforce the Geary act till he is informed that there are no more available funds for that purpose. The marshal is directed to send away all Chinamen ordered to be removed.

The Emperor Much in Love With Strasburg.

METZ, Sept. 10.—In replying to the address of the burgomaster of Strasburg, on the Broglie Platz yesterday the emperor, after expressing regret for the shortness of his sojourn in the beautiful city, said: When as a boy I sang "O Strasburg, du Wunderschoenstadt," I prayed God that Strasburg, for which I always felt an especial sympathy, might again become German. Since then my wish has been fulfilled. I treasure Strasburg. I am convinced that the people of Strasburg are happy in the reunion. This conviction I have felt so much the more on this occasion, as I arrived here quite unexpectedly. My engagements prevent a long stay among you now, but I hope in the future to find an opening for a longer stay, without asking you by surprise. I feel at home among you; that is why I acquired a hunting estate in your neighborhood, which will soon bring me here again. Once more I thank you all for this splendid reception.

Reunion of Second Connecticut Heavy Artillery.

BRIDGEPORT, Conn., Sept. 10.—The twenty-ninth reunion of the Second Heavy Artillery was held at Seaside park in Bridgeport Saturday, President Alfred G. Bliss of Washington, presided at the business meeting. The officers chosen for the ensuing year are: President, F. A. Lease, Goshen; vice president, William H. Lewis, Bridgeport; secretary and historian, D. C. Kilbourn, Litchfield; assistant secretary, A. P. Kirkham, Ansonia; treasurer, C. W. Hinsdale, Litchfield.

Judge Ross of the superior court was heartily greeted by his old comrades in the regiment.

Receiver for the Woman's Baking Association of Chicago.

CHICAGO, Sept. 10.—A receiver of the Woman's Baking association conducting restaurants here was appointed yesterday. The complainants in the cases allege that that C. E. Sayler was the principal organizer of the concern, that by means of false statements 3,000 shares of stock were sold, mostly among people of limited means, and that the losses of the company amount to $47,000. None but women could hold stock or have any management of the concern. The company was capitalized at $250,000, divided into 10,000 shares, and it is alleged that Sayler's bill for the sale of stock was $39,999.

A Polish Physician Arrested on a Grave Charge.

BRIDGEPORT, Conn., Sept. 10.—Dr. Mathew F. Bonisch, a Polish physician, is confined at the county jail here under a civil process on the charge of criminally assaulting Mrs. Theodosia Krzyzanski, a patient whom he has been treating for several months. The first assault is alleged to have occurred in June and to have been followed by several others, the woman being afraid to tell her husband. The woman is the wife of a well to-do butcher and has resided here for several years. Dr. Bonisch is a graduate of Moscow university and has been practicing in this city since last March. His body was attached in the suit, which is for $5,000.

Will Go to Work Under Protest.

NEW BEDFORD, Mass., Sept. 10.—At a largely attended mass meeting of the weavers of this city it was decided to go to work tomorrow morning under protest and unless notices are posted in the various mills in regard to the cut down, to come out at the noon hour. The weavers consider that they have not been treated right by the manufacturers. They have been kept in the dark as to the amount of the reduction.

New Haven Italians in a Stabbing Affray.

NEW HAVEN, Conn., Sept. 10.—Two Italians got mixed up in a quarrel here this evening, when suddenly one of them drew a knife and plunged it deep into the left shoulder of the other. The wounded man was taken to the local hospital and is, it is feared, dying. Coroner Mix has been notified. The victim's name is Daniel Galentano. His assailant escaped, but the police are on his track.

Steamer Massachusetts Disabled.

NEWPORT, R. I., Sept. 10.—The steamer Massachusetts of the Providence-Stonington line broke her main shaft on her Saturday night trip, but was towed in here early Sunday morning by the Providence of the Old Colony line. Passengers were landed and were forwarded by train to their destination.

Burglaries at Norwalk.

NORWALK, Conn., Sept. 10.—W. S. Sturvant, G. Oscar and Bedwell's store in South Norwalk was entered by burglars last night, and money amounting to $35 taken. The police have several persons under surveillance.

Ten Children to Divide $4,000,000.

SAN FRANCISCO, Sept. 10.—A final report has been filed in the probate court on the estate of John Sullivan, valued at about $4,000,000. It is to be equally divided between ten children.

Wool Dealers Oppose Tariff Reform.

SAN FRANCISCO, Sept. 10.—The Wool Dealers' Protective association of California Saturday adopted a petition urging congress to make no change in the present tariff affecting wool or the wool schedule now in force.

DISGUISED AS A COMMON WORKMAN

A Private Detective Secures Evidence Against Two Thieves.

A NEW HAVEN FIRM

Loses Thousands of Dollars' Worth of Property, But Will Not Prosecute.

NEW HAVEN, Conn., Sept. 10.—Sperry & Barnes, wholesale provision dealers of this city, have recently learned of big discrepancies in the amounts of goods received according to their invoices and those disposed of. They had a private detective on the case for several days, disguised as a common workman, and yesterday he reported strong evidence against two of the drivers employed by the firm.

The proprietors admit tonight that they have lost thousands of dollars worth of property through the dishonesty of the two drivers, but refused to divulge their names, or to prosecute them. They have been discharged and the matter will be dropped.

SHEEP BREEDERS' ASSOCIATION

Steps Taken to Revive the Industry in Connecticut.

TORRINGTON, Conn., Sept. 9.—The recently organized Association of Connecticut Sheep Breeders is to take active steps for a better knowledge of its field of operations and of the work to be done by the organization. John H. Wadhams of Goshen is secretary, and has had blank forms printed with addressed and return envelopes for the assessors of every town in the state. These returns will give the number of sheep assessed in 1893, their value, the number killed by dogs, amount paid by the towns and the dog tax collected.

Information is also asked of the estimated number of acres of pasture lying waste that are suitable for sheep raising. The members of the association are determined to make every effort to restore this industry in Connecticut to the important position it once held. They are satisfied that it can be made one of the most valuable industries in the state after a few causes for its deterioration are removed. The association intends to make every effort to have the laws recently passed by the legislature concerning the depredations of dogs strictly inforced.

NOT ON EXHIBITION.

The Body of Garfield's Murderer Still in Its Grave.

WASHINGTON, Sept. 10.—The general impression that the skeleton of Guiteau, President Garfield's assassin, is on exhibition in the medical museum has been removed by the statement of Deputy Warden Russ, of the district jail. Mr. Russ says it was feared that the body, if placed in an ordinary cemetery would be stolen, and steps were taken to prevent this. Before the execution Guiteau was induced to bequeath his body to the Rev. Dr. Hicks, who was to dispose of it as he saw fit. After the execution it was decided to bury it in the jail.

On Saturday morning following the execution Mr. Russ took a couple of "trusties" to the little laundry room of the jail and they removed the flooring and dug a grave. The body was then brought from the chapel and buried. Those present were General Crocker, who was the warden, Charley Reed, the lawyer who assisted in Guiteau's defense, several guards, the two prisoners who dug the grave. When Dr. Hicks had concluded the service the grave was filled up and the flooring was returned to its normal position.

There was no compact made as to secrecy, but it seemed to be understood that those present would maintain silence, especially as there was considerable excitement at the time. The remains still lie beneath the floor of the laundry room.

Secretary Smith Promulgates New Rules in Matters of Appeal.

WASHINGTON, Sept. 10.—Secretary Smith has promulgated new rules which aim at securing more certainty and uniformity in the practice of the pension office and the department of the interior in the matter of appeals in pension cases.

Very loose methods, it is said, have hitherto prevailed, and almost any paper filed by a claimant who considered himself aggrieved by the action of the pension bill has been treated as an appeal. This practice had a tendency to occupy the time and attention of the department with useless and irrelevant matters.

No special or technical forms are required for an appeal by the new rules, but appellants will be required to file with the secretary a concise and plain statement of errors. New and material evidence filed subsequent to the action by order of the pension office from which the appeal is taken will not be considered by the secretary until it has first been passed upon by the pension office. No appeal taken on behalf of a claimant by or through a suspended or disbarred attorney will be entertained unless refundment, as required, shall have been made.

Died as the Result of a Murderous Attack.

SPRINGFIELD, Mass., Sept. 10.—Richard Wheeler, 35, a well known negro character of Hatfield, died in that town today, as the result of a murderous attack made upon him, a week ago, by his uncle, Jared Remington.

The neighborhood is known by Hatfield people as "Cooaville," and is on the road to Northampton about half a mile from the Methodist camp grounds. The place has had an unsavory reputation and the town authorities have been trying to find some way in which it might be improved.

Remington, who is charged with the murder, Richard, the dead man, Henry, his brother, about 44, and Mary, his sister, lived in an old hut in a squalid manner. The cabin is about 12 by 15 feet in size, one story high and having but two rooms on the first floor. They were all given to drinking whiskey liberally, and this is given as the primary cause of this murder.

Police Suspect Foul Play.

NEW HAVEN, Conn., Sept. 10.—John Z. Reiger, 63, prominent in local secret societies, was found drowned this morning in Lake Whitney. He carried a life insurance in the societies of more than $10,000. The financial depression had pinched him somewhat, and he had seriously considered the advisability of allowing some of the policies to lapse in the near future, but he had been advised to keep them good for his children's sake. On this account the police suspect foul play and are investigating the case. He leaves a wife and three children.

Securing Evidence Against Counterfeiters

NEW HAVEN, Conn., Sept. 10.—Inspector Gleason of the United States secret service is in the city securing new evidence against the gang of counterfeiters who have been operating in this part of the state recently. Present indications point to several more arrests shortly.

BOUND FOR CANADA.

Parties from Putnam Helped Tripp Across the Line—A Reward Offered.

PUTNAM, Sept. 9.—If George H. Tripp, the forger, is not captured before Tuesday night probably he will be in Canada.

The question is now settled that Putnam parties helped Tripp out of the state. The report that Charles L. Torrey met Tripp on Thursday night at the Grove street cemetery is true, and he was traced from there to "Lamott's Roe house," where all traces of him was lost. A reward of $300 has been offered for his capture. It is said by Tripp's friends that when he left Putnam he had on his person every dollar of his money. His property in Central Village is in his wife's name. Tripp's companion is one of the most noted crooks in Connecticut, and it is believed that if Tripp shows his money he will go through him.

Mr. Peckham states that he intends to press his petition for a new trial of the case upon the $8,000 note at the next term of the superior court.

The only clue thus far obtained is that Tripp is on his way to Canada, where he has relatives and friends.

CONFIDENCE GROWING.

An Important Sale of Cotton Goods to Be Made Next Week.

NEW YORK, Sept. 10.—The Journal of Commerce and Commercial Bulletin tomorrow will say: One of the most important sales of cotton goods that have been made for many years will be held during next week in this city, when a well known auction house will offer $1 500,000 worth of Amoskeag products. The transaction is especially important in the present condition of business, as showing the confidence of manufacturers in the condition of the market. It is a courageous step and is likely to bring out the fact that the buyers are prepared to operate as soon as they find that holders have confidence in the situation.

Spain's Wave of Anarchy.

MADRID, Sept. 10.—A riot broke out at [illegible] Saturday during a fire in a populous quarter. A mob forcibly entered the municipal buildings and after destroying the furniture threw everything out of the windows. The residences of the mayor and the leading councillor were treated in the same way. The mob was finally dispersed by troops. The riot was ostensibly caused by a deficiency of water, but it is really only another evidence of the wave of anarchy passing over Spain.

A Bridgeport Pastor Tenders His Resignation.

BRIDGEPORT, Conn., Sept. 10.—The Rev. C. O. Luther, pastor of the First Baptist church, tonight tendered his resignation to take effect December 1. He came here two years ago with the object of raising money to build a new church. He has succeeded and a $40,000 edifice is now in process of construction. The Rev. Mr. Luther will go to Worcester and will take up evangelistic work.

Body of an Infant Found in a Well.

BENNINGTON, Vt., Sept. 10.—This morning the body of a boy, apparently five days old, was found in a well a little north of this village. The authorities made an investigation and have arrested Frank Hill for complicity. Miss Jennie Allen has been keeping house for him and the body was found in his well.

Ate Toadstools and Died.

NEW YORK, Sept. 10.—Frank Calaleno and Joseph Olvero went to West Farms Tuesday and brought back a basket of toadstools, supposing them to be mushrooms. They and their wives and children partook of them and were poisoned. Calaleno died this afternoon and Olvero will probably die. The women and children are in a serious condition.

New Cases of Cholera at Berlin.

BERLIN, Sept. 10.—Four new cases of cholera were discovered in this city yesterday.

EASTERN CONNECTICUT.

PUTNAM.

Bradley's New Block Nearly Completed—A Robbery—Graham a Villain.

Bradley's new block is nearly completed. The four large glasses for the bay windows arrived Friday. It took five men to put them in place. These plate glasses measured 133x116 inches. The dry goods store of Reid & Hughes will be opened about the middle of September.

Gil Requira, employed as hostler at Southwick's stable, said last night that one day this week his new black coat and vest, gold watch and chain, valued at $40, disappeared suddenly from the office of the stable. On the cases of the watch were engraved his initials. He has no knowledge of the thief who took them.

In a letter recently received from Col. Lawrence P. Graham of the United States army, he writes that Lawrence P. Graham, who was recently sentenced in Hartford for passing bogus checks, is not his son but a distant relative. He further says that young Graham is a "forger, swindler, thief and burglar, and ought to have been in the penitentiary long ago."

CATTLE KILLED IN A COLLISION.

Two Freight Trains Crash Into Each Other on the Nickel Plate.

FORTY CARS PILED UP.

A Conductor Killed and All the Trainmen More or Less Injured.

FINDLAY, O., Sept. 10.—At 3 45 o'clock this morning two freight trains on the Nickle Plate road crashed into each other two miles east of Leipsic junction.

The two engines were wrecked and forty cars were piled up in a mass of debris.

Fifty cattle lie near the tracks, which are torn up for 300 yards.

John Davidson, conductor of the eastbound freight, was killed and his fireman was badly hurt.

The fireman and Engineer Charles Morris, of the west-bound train, are dying from their terrible injuries. The other trainmen were all more or less injured.

The coroner is in charge.

Denies Any Knowledge of Blenn's Death.

SPRINGFIELD, Mass., Sept. 10.—Edgar C. Wakefield of West Gardiner, Me., was arrested by Inspector Quilty today at the home of his brother-in-law. The arrest was made on the strength of a telegram from State Detective True of Hallowell, Me. Wakefield says he came to this city immediately after his release from custody, the last of July. Two weeks ago he returned to Gardiner, but came back to Springfield because he heard the grand jury was likely to proceed against him for liquor selling. He denies any knowledge of how Blenn met his death. He says Blenn and Silver drank at his place and then went out in a boat. He went to bed and next learned that Blenn was dead. He will be taken to Maine tomorrow.

Earthquake at Seville.

MADRID, Sept. 10.—A shock of earthquake occurred in Seville today. The railway station and a number of houses sank several feet. Several people were injured.

SPECIAL.

Pay the Price

Royal Baking Powder is shown by chemical tests absolutely pure and 27 per cent. greater in strength than any other. Many second-class brands of baking powder are urged upon consumers at the price of the high-cost first-class Royal.

of the Royal

These powders, because of the inferior quality of their ingredients, cost much less than the Royal, besides being 27 per cent. less strength. If they are forced upon you, see that you are charged a correspondingly lower price for them.

for Royal only

Yes, Madam,
the Toilet Soap
is Absolutely Free.

This beautiful cake of OLIVE OIL SOAP is in every package of the famous

IVORINE
WASHING POWDER.

which is having an immense sale. The soap alone is worth all you pay for the entire package. If you have never used Ivorine, take a package home and try it. Its effect is wonderful on clothes, dishes, or in fact on everything that soap is used for.

You pay no more for a 1¼ lb. package of Ivorine than for a lb. of other kinds.

IN CONGRESS.

The Senate.

WASHINGTON, Sept. 10.—There was a small attendance when the senate met Saturday morning—about twelve senators on each side of the chamber.

The resolution offered Friday by Mr. Peffer (Pop., Kan.) in relation to national banks of New York, Boston and Philadelphia, their reserves, their refusal to pay checks in currency, etc., was laid before the senate and Mr. Peffer proceeded to explain and advocate his resolution.

The bill to repeal the purchasing clause of the Sherman act was then laid before the senate, and Mr. Teller (rep. Col.) took the floor.

At 4 50 the senate adjourned till Monday.

The House.

After the transaction of some unimportant routine business the house at 12.30 adjourned until Monday.

An Insurance Man Injured at New Haven.

NEW BRITAIN, Conn., Sept. 10.—H. M. States, an insurance man from Cleveland, O., was watching the trial operations of the Corbin fire department at the ice house pond Saturday, when a coupling of a hose broke.

Mr. States was struck in the back near the spine with an end of the hose and it is feared his injury will prove fatal. He was taken to the Russwin hotel, where he is lying in convulsions. Dr. Styles, who is Mr. Corbin's family physician, is attending the injured man.

Yacht Race for $20,000 a Side.

NEW YORK, Sept. 10.—Norman L. Munro, who owns the steam yacht Norwood, has accepted the McBride Brothers' challenge to race the Norwood against the Yankee Doodle fifty miles on the Hudson river for $20 000 a side.

LOCAL NOTICES.

Situation wanted to do clerical work.

Ticket No. 1 drew the silk quilt at the Mohegan fair last week.

Sam Il says he "selling shoes cheaper than any one in the city."

A. Plaut's store will be closed today until 6 o'clock this evening.

Reasonable prices will pay for altering or repairing your furs at Prentice's.

Incandescent lamps can be bought cheap of Eaton, Chase & Co., hardware dealers.

Investors are referred to the advertisement of Monroe, Miller & Co., New York.

Dunn's Rheumatic Pills absolutely cure rheumatism and neuralgia. Entirely vegetable. Safe.

Smith & Gilbert have the most complete assortment of fine woolens for fall ever shown by them.

Noyes & Davis have new and second-hand books at lowest prices, and allow highest prices for second-hand books.

See advertisement of auction sale of personal property of the estate of the late Geo. W. Frink at Preston City, Sept. 13, at 10 a. m.

Murphy & Blackburn, funeral services and embalmers, attend calls at all hours, day or night. Upholstering and carpet laying a specialty.

The New London Mutual Fire Insurance Co. makes a first-class showing as to surplus, and it's a good company to insure in. See advertisement.

Reid & Hughes have thirteen summer suits in their cloak department which have ranged in price from $4.50 to $8 50. The whole will be closed out at $1 each.

For the toilet and bath, for shampooing the hair, for the delicate skin of babies, for keeping the hands soft, white and smooth, use Olive Oil soap, manufactured by the J. B. Williams company of Glastonbury, Conn.

G. L. Crosgrove, at the Union station, is not in the hotel business at the World's fair, but he can furnish twenty-one different tours to Chicago, so that you can put up with the fellow who is in the hotel line. See advertisement.

When the advertisement man in Porteous & Mitchell's store gives a little chat to the patrons of that establishment he always says something pleasant and interesting to the ladies. This morning he is out with a little autumnal chat which will make the ladies relish their breakfast sure—i. e., if they read the chat before partaking of the morning meal. It will be well for them to read it, and heed it.

NORWICH AND VICINITY.

The Norwich Weekly Courier is the best weekly newspaper in New England at 50c a year.

Prince Williams Arrested.

Gypsy "Prince" Williams has been arrested in New Haven on the charge of camping on private property and allowing horses to roam at large.

The Thamesville Extension.

The electric cars on the Thamesville extension were well patronized all day Saturday and Sunday. Numbers rode for pleasure, of course: but the majority were steady patrons, who, while largely owners of carriages, are quick to appreciate the convenience of rapid, handy cars, and the freedom from care and annoyance resulting therefrom. The ride is pleasant, and this branch of the road promises to be both popular and profitable.

Kellar at Broadway Theater.

Kellar, the marvelous, the original, was the attraction at the Broadway theater Saturday evening, entertaining, amusing and perplexing an audience of good proportions. All his old-time feats in "the Black Art" and many new ones were performed to the delight and mystification of his observers. Rose bushes in full bloom were made to grow from pots of sand in an incredibly short time, and their fragrant blossoms were lavishly distributed among the ladies present. Astarte, the maid of the moon, performed wonderful evolutions in mid-air; the Davenport seance excited astonishment; "Out of Sight," "Oh!" "Fly-to," and the numberless other marvels on the magician's list were given with an amazing dexterity, such as in old Salem days would have caused Kellar to walk over red-hot plow shares in penalty for his apparent collusion with the Evil One. The stage was richly draped with colored plushes, and all the arrangements were lavish and liberal as these entertainments are wont to be, although many present were disappointed at the non-appearance of Mrs. Kellar.

The Norwich Weekly Courier is the best weekly newspaper in New England at 50c a year.

Generally Understood.

The New Haven Palladium says: Ex-Senator Stephen A. Hall of Norwich was visiting in this city Saturday. It is generally understood throughout the state that the senator will be the next postmaster in Norwich.

Mystic Woolen Mills to Resume.

The management of Greenmanville Woolen mills at Mystic, employing about 100 hands, Saturday announced that the mills would open today after being idle about a month. A 10 per cent. reduction of wages will be made for a short time and the factory will run four days a week. After completing the orders which they now have on hand the wages will probably be raised and the mill run on full time.

Mr. Baer's Advancement.

The news of the promotion of Mr. Allen T. Baer from the assistant city editorship to the night city editorship of The New York Herald is received with great pleasure by his Norwich friends. It is a position requiring executive ability, good news perception, discrimination and tact. Mr. Baer's success is deserved. THE BULLETIN joins in the general congratulations.

George T. Utley's Estate.

Luther C. Glazier and Charles H. Prentice have appraised the estate of the late George T. Utley at $[illegible]6 50, as follows:—

Balance in National Exchange bank, $26 35; balance in Society for Savings, $62 70; balance in Dime Savings bank, $40; balance in State bank, $169 43, one share in Citizens' Grocery & Provision company, $20; four shares of South Side Land Syndicate company, Denver, Col., value not given; five shares Meriden Britannia company, $600; policy Ætna Life Insurance company, $1,000; house and lot No. 16 Vernon street, $6,000; household furniture, $150.08.

The Norwich Weekly Courier is the best weekly newspaper in New England at 50c a year.

Smart Old Man.

Mr. James Preston of Sterling, in this state, who is now in his 84th year, was in the hay field every day but one the past summer, and cut his swath with the boys. He is as active a man of his years as there is in the state.

Ray Earl of New London reached Chicago on September 6, having made the distance in forty-one days, carrying baggage enough to make a young man tired and without a cent in his pocket to be put out for expenses. He is the champion 80 year old walker in the country, and deserves to ride home in a palace car.

Imagined a Conflagration.

Every fall advantage is taken of some dark, cloudy night to set fire to the beach grass on the shore near Napatree Point. Friday evening was considered a favorable time for the event, and it was enacted. The prevailing clouds formed a background, which reflected the blaze in a manner that caused people to think that a disastrous conflagration was raging. Mystic people watched the lurid looking clouds and conceived the idea that Stonington was receiving a baptism of fire, while residents of other sections located the blaze at various other points.

Bishop Williams the Consecrator.

Bishop Williams of Connecticut, the senior bishop in the United States, will be the consecrator at the services connected with the consecration of Bishop Lawrence of Massachusetts, the successor of Phillips Brooks. The ceremonies will take place at Trinity church in Boston, Thursday, October 5. The sermon will be preached by Bishop Whipple of Minnesota. The Rev. Arthur Lawrence of St. Paul's church, Stockbridge, Mass., and the Rev. Augustine H. Amory of Grace church, Lawrence, Mass., cousins of the new Bishop, are to be the attending presbyters.

Entrance Examinations to Storrs.

An examination of eighteen candidates for admission to the Storrs Agricultural college was held Saturday in room 60, at the capitol. The examinations were in writing and covered the subjects of arithmetic, geography, grammar, and United States history. Sixty per cent. on the scale of 100 for perfection is required. The candidates will be informed sometime this week of the results of the examinations. Examinations were held last week at Danbury, on Wednesday; at Winsted, on Tuesday; at Norwich, on Friday, and at the college in Mansfield and at the capitol in Hartford Saturday. In all thirty candidates have been examined. Professor B F. Koons, the principal, had personal supervision of the examination at the capitol. The candidates were all young men except one—Miss Ida Lee of East Granby.

THE Y. M. C. A. MEETING.

The Rev. G. A. Grant Urges His Hearers to Stand Firm for God.

The Rev. George A. Grant addressed the eleventh Y. M. C. A. open air meeting for men on Sunday afternoon at the steamboat wharf.

A large audience of men was present and the afternoon weather could hardly have been more favorable for the meeting. Mr. Grant's talk was listened to attentively. He spoke forcibly of the characteristic of men and the power of ridicule; how few men can stand being laughed at under any circumstances, and how often men give up some noble purpose or endeavor because some companion or associate makes fun of them.

The speaker made a strong plea for stability and backbone in character building.

One more open air service for the season will take place next Sunday at 4 p. m., after which the meetings will be continued in the rooms of the Young Men's Christian association each Sunday.

THE SHELTERING ARMS.

A Novel Idea.

THE NORWICH (Conn.) BULLETIN sends us a pamphlet containing specimen ads taken from its columns—it admits no plates—and testimonials from numerous general advertisers. The idea is a novel one and proves to be a good ad for THE BULLETIN, which is one of the handsomest as well as oldest and most solid journals in New England.—[Press and Printer.

COMPROMISE TALK.

But Friends of Repeal Have None to Offer.

DEMAND UNCONDITIONAL REPEAL.

Many Rumors Are Flying About—House Tariff Measures.

WASHINGTON, Sept. 10.—While the air appears to be full of compromise rumors, and the impression is abroad that, in order to reach a vote, mutual concessions will be made by the friends of repeal and of silver, there is nothing tangible upon which to hang these rumors. The friends of repeal say with much emphasis that they are not ready to offer anything, and that they still insist upon the unconditional repeal of the purchasing clause of the Sherman act, and the silver men themselves admit that nothing looking like a compromise or a suggestion of such a policy has appeared before them.

A prominent silver leader, when asked what compromise would be acceptable, replied with vigorous brevity: "Nothing short of free coinage." He said that while the silver men had not considered the idea of having a compromise offered them, he could say for himself, speaking for one of the largest producing states in the country, that he would accept a law that would give the owner of silver the right to take it to the mint, where the government should be required to purchase it at its market price per ounce, paying therefor in treasury notes. The difference between the market price and the coinage value would accrue as

Profit to the Government.

This he thought would be fair and equitable, for if the price of silver remained as it was now there would be but little of it mined, and the government would have but little to buy, while if it went up, then the government, being a large purchaser, would be benefited by the raise in price. This, he said, was the only ground upon which the silver men will meet the repealers for conference.

Mr. Faulkner's proposition on Friday, which was substantially that the United States should, eventually, be pledged to an ultimate coinage of $800,000,000 in silver on a parity with gold, [illegible] from the intimate relations known to exist between the West Virginia senator and Mr. Gorman, chairman of the Democratic steering committee. If, however, Mr. Faulkner's proposition was in any way inspired or approved by the Maryland senator, he has given no intimation to that effect. Close observers are of the opinion that compromise talk is talk only, and that the matter will resolve itself into a fight to a finish on unconditional repeal, with possibly a declaratory resolution attached to the repeal bill favoring some further action at some future time in the interest of the increased money use of silver.

Tariff Bills Introduced.

Among the bills introduced in the house of representatives quite a number are devoted to pensions and the tariff. Among the tariff bills are the following:

By Mr. Tracy—To put coal tar on the free list.

By Mr. Martin of Indiana—To repeal the reciprocity clause of the McKinley law.

By Mr. Tucker—To place binding twine on the free list.

By Mr. Houck of Ohio—To place filtering medium manufactured from earth products, the formula for the compounding of which is protected by letters patent granted to a citizen of a foreign country, upon the free list.

By Mr. Wheeler of Alabama—To place cotton bagging on the free list.

By Mr. Geary—Fixing the tariff on imported wines.

By Mr. Tucker—To place sulphuric acid or oil of vitriol on the free list.

The Pension Bills Are as Follows:

By Mr. Houck of Tennessee—Awarding pensions to residents of insurrectionary states who enlisted in the United States army, but were prevented from joining their commands by arrest or imprisonment, and who suffer from wounds received or disease contracted while thus under arrest or imprisonment; and to those persons who, because they remained loyal to the United States, were imprisoned and incurred disease therefrom which permanently disabled them.

By Mr. Herman—To pension soldiers of the Indian wars as Mexican war soldiers are pensioned.

By Mr. Mallory—To restore to the pension rolls of the United States the names of all persons who were drawing pensions at the beginning of the late rebellion by reason of their services in the Indian wars of Florida, and whose names were stricken from the pension roll by reason of their participation in or sympathy with said rebellion.

By Mr. McCaig—To increase to $50 a month the pension for total deafness.

By Mr. Martin (Chairman committee on invalid pensions)—To enable applicants for pensions under the general disability act of 1890, to prosecute the same in the absence of an honorable discharge; also to abolish distinction as to weight of evidence between privates and officers.

By Mr. Wheeler of Alabama—To fix the pension of a soldier who did not engage in battle nor incur disability while in the service, and who served less than three years at three-quarters the rate fixed by law; to the soldier who served less than two years, one-half and to the soldier who served less than one year one-fourth.

By Mr. Curtis of New York—To make the pension for total blindness $200 a month.

By Mr. Pickler—To prohibit the suspension or stoppage of payment of any pension until after a full hearing and examination and determination by the secretary of the interior of charges filed in connection therewith.

By Mr. Grout—To increase the pension for total disability from $72 to $100 a month—the increase to take effect Feb. 12, 1889; also to increase the pensions of $50 a month, granted under act of June 16, 1874, to $72 a month, the increase to take effect from that date; also to give pensioners, who were confined in Confederate prisons, $1 additional for every 30 days of such confinement.

Trying to Oil the Wheels.

Secretary Carlisle is trying to oil the wheels of legislation so that a bill can be put through the house at an early day to authorize him to issue certificates against the seigniorage or profit that would accrue to the government on the coinage of the silver bullion now in the treasury. This profit would amount to about $51,000,000.

Inquiry was made Saturday of Senators Allison, Hoar, Sherman and others as to what Republicans thought of the proposition. "That would be a decidedly bad way to raise the revenue," emphatically declared Mr. Allison, and he added: "The proper way to raise revenue would be to increase taxation."

But as to the general question of issuing certificates against the seigniorage, he said that he had not considered it, and that he could not tell in what form it would come to congress, and he was not, therefore, prepared to speak on the subject. He said that there was no doubt but that in time all the silver bullion would have to be coined, as the government could never sell it.

Mr. Hoar expressed himself in almost exactly the same terms on the subject. He said that so far as he had heard any expression of opinion, it was against anything that would be in the shape of fiat money, but he did not think that opinion was matured as yet on the proposition to raise revenue in this way.

Mr. Sherman is not in favor of issuing certificates against silver dollars that are not in existence, and that is the proposition submitted by Secretary Carlisle to various members of congress.

THE HOUSE OF LORDS.

What Is Said of Its Defeat of Home Rule by London Papers.

LONDON, Sept. 10.—The Daily News, commenting on the fate of the home rule bill in the house of lords, says: "Nothing is more favorable to the success of a political or social reform than a large hostile majority in the house of lords. If the Tories had had more sense they would have made the majority smaller, and we should have fared worse."

The Standard says: When a government tamely submits to such a rebuff, everybody will draw the conclusion that it is afraid to face the country.

The Times believes that the decision of the house of lords will be sustained by an overwhelming majority of English people.

RUTH HAS A SISTER.

Daughter Born to President and Mrs. Cleveland on Saturday.

WASHINGTON, Sept. 10.—The glad tidings comes from the White House that Mrs. Cleveland gave birth to a daughter Saturday afternoon at 3 o'clock. Mother and child are doing splendidly. The latest little Miss Cleveland is the 25th baby to be born in the White House.

Mrs. Andrew Jackson Donaldson, mistress of White House during Jackson's time, gave birth to two boys, Andrew and John Donaldson. For godfathers they had two subsequent presidents, Van Buren and Polk.

While Tyler was president two grandchildren were born in the White House, Robert Jones, son of Mrs. Mary Tyler Jones, and Letitia Christian, daughter of Robert Tyler.

Neither Side Will Weaken.

CINCINNATI, Sept. 10.—A dispatch from Brazil, Ind., says that 800 cars are idle there and freight crowds the sidings all along the Chicago and Indiana Coal railroad, a result of the strike of inspectors, repairers and shopmen. Unless some agreement is arrived at soon, the mines must shut down and several thousand men will be thrown out of work. Neither side seems disposed toward concession.

Steamer Seized For England.

PORTSMOUTH, N. H., Sept. 10.—The steamer Charles A. Stillman, which plies between this city and the Isles of Shoals, has been attached by the government and the officers instructed not to move her from the wharf. Collector Dodge served the papers, which charges the company with neglect and running a steamer not properly fitted for sea. A fine of $500 was also imposed.

Merrimack to the Sea.

LOWELL, Mass., Sept. 10.—The board of directors of the board of trade are unanimous in regard to the necessity of a state road along the Merrimac to the sea, such as was provided for at the last session of the legislature. A committee has been appointed to bring the matter to the attention of the county commissioners and parties in Essex county, and take some action in the matter.

Broker Legg Suspended.

BOSTON, Sept. 10.—The stock exchange Saturday morning suspended for one year Charles E. Legg, a member of the firm of Charles E. Legg & Co., stock brokers, formerly of Legg, Hobbs & Co., for violating the the rules of the exchange in dividing commissions with persons not members of the exchange. This is the minimum penalty.

Disastrous Fire Raging.

COLUMBUS, Ind., Sept. 10.—A disastrous fire has been raging in the southern part of Johnson county for several days. The farms of K. R. Bradley and Colonel Faulkner have especially suffered, and fences, straw racks, timber and several large hay stacks have been destroyed. The loss so far is estimated at $50,000.

Print Cloth Statement.

FALL RIVER, Mass., Sept. 10.—The following is the print cloth statement: Production, 90,000; deliveries, 95,000; stock 482,000; sales, 191,000; spots, 44,000; futures 37,00. Market steady. Price, 3 3-4c. for 64x64s.

Mills to Start Monday.

JOHNSTOWN, Pa., Sept. 10.—The Cambria Iron company has posted notices stating that the mills will resume work Monday morning. Over 1000 men will be given employment.

Vigilant Wins.

NEW YORK, Sept. 10.—The second trial of the cup defenders was won by the Vigilant, Jubilee second, Colonia third and Pilgrim fourth.

Custom House Official Dead.

BOSTON, Sept. 10.—George Keyes, for 30 years employed at the Boston custom house, died at his home in Concord Saturday morning. He was one of the best known sugar examiners in the country, and had been a sugar examiner at the Boston custom house.

NEWS IN BRIEF.

Striking English miners are destroying property and life.

No United States supervisor of elections is to be appointed in Boston.

The tax rate in Melrose, Mass., is $14.40 on $1000, a reduction of $1.40.

Chinamen not conforming with the Geary law are to be deported.

Four passengers were injured in a railroad wreck near Albright, Neb.

A New York anarchist was sent to jail for making incendiary speeches.

Richard M. Hooley, the noted theatrical manager, is dead, aged 71 years.

The safe of the Adams Express company at Akron, O., was robbed of $6000.

The vote in the senate on the repeal bill is likely to take place the last of next week.

A German official pronounces Boston water the only water in this country fit to drink.

A bad condition of affairs is reported by the receiver of the Sons and Daughters of America.

Schooner John P. Kelsey was burned while on a voyage from Rockland, Mass., to New York.

Residents of Beverly, Mass., have taken legal steps to prevent that town from becoming a city.

A cottage at Milford Point, Conn., was rolled over and over by the wind and one person was killed.

The home rule bill on second reading was overthrown by a vote of 419 to 41 in the house of lords.

Thomas F. Sullivan was arrested, at Boston for causing the death of Thomas Walsh, a navy yard marine, several weeks ago.

Owing to the loyalty shown during the visit of the kaiser to Alsace and Lorraine he has abolished all exceptional laws that were made after the war.

The Bulletin.

AT EVENING.

Upon the hills the wind is sharp and cold,
The sweet young grasses wither on the wold,
And we, O Lord, have wandered from thy fold,
But evening brings us home.

Among the mists we stumbled, and the rocks
Where the brown lichen whitens, and the fox
Watches the straggler from the scattered flocks.
But evening brings us home.

The sharp thorns prick us, and our tender feet
Are cut and bleeding, and the lambs repeat
Their pitiful complaints—oh, rest is sweet
When evening brings us home.

We have been wounded by the hunter's darts.
Our eyes are very heavy, and our hearts
Search for thy coming—when the light departs
At evening bring us home.

The darkness gathers. Through the gloom no star
Rises to guide us. We have wandered far.
Without thy lamp we know not where we are.
At evening bring us home.

The clouds are round us, and the snowdrifts thicken.
O thou, dear Shepherd, leave us not to sicken.
In the waste night our tardy footsteps quicken.
At evening bring us home.

—Exchange.

A DUEL IN THE DARK.

Up to the time when occurred the incident which I am about to relate I had been what is called an unlucky fellow, having an unfortunate propensity for stroking the wrong way and unwittingly bringing down upon myself the ill will of the people with whom I came in contact. A friend once tried to explain this misfortune of mine on the theory that the electric fluid with which I was charged was of the antagonistic order, and that I was in no way responsible for the enemies that I made.

At this time I was in Paris, having been sent there by my friends, who were then making an effort to procure for me a position of some importance. In view of my fatal incapacity for doing or saying the right thing at the right time, they deemed it indispensable to my success that I should be at a safe distance until the matter was decided.

That I should choose Paris for my place of retirement was but natural, since a young lady in whom I felt a somewhat absorbing interest was at the time stopping in that city.

I had become acquainted with her in my college days and was sure that she at least felt no antipathy to me. Her father, who was a retired army officer, took a very decided dislike to me at sight and gave as a reason that I had "no fight" in me. The arrogant manner in which he treated me in those days left no room for doubt that he considered me a coward.

Shortly after my arrival I met the young lady by an appointment which was clandestine only so far as that I was aware of her father's absence from the city on that day. It was evening when, somewhat fatigued by our sightseeing, we entered a cafe on one of the boulevards for lunch.

As we passed through the broad entrance we encountered two men who were lounging against one of the pillars. The larger and much the stronger of the two was carelessly brushing the floor with his cane. Just as we reached him he, if not intentionally, yet with an indifference to the rights of others that was inexcusable, switched the stick against us in such a way as to tear a part of the lady's lace dress. I was indignant, and a glance at her flushed face made me feel that I must do something to show my resentment.

This feeling was strengthened when I observed the indifference which the fellow displayed in regard to the affair. He made no attempt to apologize, and when I remarked, "You were very careless, sir!" he gave me an insolent stare that angered me beyond control, and forgetting for the moment everything else I spoke to him sharply. He made no reply, but extending his cane entangled it in the lady's dress so that the delicate fabric was again torn for a yard or more.

The man with him, a much younger person, started as if to check him, but the movement was not decided enough to make it quite clear what his intentions were.

I was frantic with passion, and with one blow struck the fellow to the floor, then hurried my companion away from the scene. The expression of surprise upon the faces of the bystanders did not escape me, and I realized intuitively that I had dared to assail a man of more than ordinary importance.

We were hardly seated when the younger man came to me, and bowing said, "I beg monsieur's pardon, but my friend whom monsieur felt called upon to rebuke wishes to exchange cards."

He held toward me an ordinary visiting card, which I took without glancing at it and handed him one of my own. Courteously thanking me for the favor and again begging my pardon, he withdrew.

"Oh, how thankful I am that you knocked that brute down!" exclaimed my companion. "How I wish that papa could have seen you! I will tell him of it, and he will never—no, never—again call you a"——

She suddenly checked herself and did not finish the sentence, but I knew well enough what she would have added—her father would never again call me a coward.

It did not trouble me then. I felt very brave and smiled down upon her sparkling eyes with a "that-is-an-everyday-sort-of-experience-with-me" expression.

After lunch I escorted her to her home, then returned to my hotel and very soon retired.

I had not finished dressing next morning when the door of my room was suddenly opened, and a man entered unannounced and apparently in great excitement. I was not surprised at this abruptness when I saw that it was my eccentric friend, Wilson, whom I had found living in the city.

Without a word of greeting or apology he exclaimed: "Well, you have done it! I congratulate you upon your notoriety. I came early and have not stopped for ceremony, because I wished to be the first to pay homage to the latest Parisian hero."

I stared blankly at him, vainly trying to comprehend what he was driving at, but supposing that this was only another exhibition of his whimsical character.

"Did you know who he was when you struck him?" he continued.

"Know whom?" I queried.

"Why, the man you struck last night, of course."

"I do not know, nor do I care," I replied indifferently, but wondering how Wilson had heard of the affair.

"Well, it was no less a personage than M. le Baron, the noted duelist."

"What! not the man who, it is said, has killed his dozen?" I questioned, no longer indifferent.

"The same. The morning papers are full of the affair."

I explained the circumstances.

"Le Baron had evidently been drinking too much," pondered Wilson.

"What will be the result?" I anxiously inquired.

"Duel," was the laconic answer.

I could not suppress a feeling of faintness when it flashed upon me what would be the result. A duel with M. le Baron meant almost certain death. A refusal to accept a challenge would ostracise me from society, and more than all else would lose me forever the love of the one being above all others whose affection I most wished to obtain. I knew the young lady and her father too well to suppose that they would look upon me again if I in any way showed the white feather. The matter was taking on a decidedly unpleasant aspect. I looked at Wilson. He was busy stabbing a fly which was crawling along the floor minus a wing.

"Do you think he will challenge me?" I inquired nervously.

"Challenge you!" he repeated contemptuously. "Challenge you! Why, it is proverbial that Le Baron would rather fight a duel than eat. Challenge you! Why, of course he will, and I came here this morning expressly to offer myself as your second. Of course your position as principal in this business is more glorious, but then it is more dangerous. Shall I meet the messenger when he comes and make the necessary arrangements?"

"Certainly," said I, "and thank you, but I trust the matter is not so serious as you make it appear."

"Oh, it will come out all right if you will follow my directions implicitly, but you may be very sure the challenge will be sent this morning. Remember you are to leave the whole thing to me."

We were still talking over the affair when a card was brought me, upon which I read the name of Adolphe Boscher, captain Thirty-third cuirassiers.

"He is Le Baron's second," declared Wilson as I read the name. "Let him come up."

The captain on presenting himself expressed much regret at being called upon to perform "an unpleasant duty," but was interrupted by Wilson, who explained to him that his visit was not unexpected, and that he himself had been requested to act for me. He suggested that they immediately depart to make the customary arrangements, to which Captain Boscher assented with more apologies.

Left to myself, I began pacing up and down the room, anxiously reviewing the situation. To refuse to fight this man was out of the question. Life, I felt sure, would not be worth living without the woman I loved, and if I declined the challenge I should never be allowed to look upon her face again. On the other hand, to meet Le Baron was, in all probability, to meet my death. A cold shudder crept over me at the thought. That was the only thing to do, however—to meet the fellow and let him kill me. I should then at least have the satisfaction of knowing that my beloved one would honor my memory.

The hours passed as only the hours can pass to a man who believes that he has but a short time to live. About noon I received a note from Colonel Russell, the father of my dear girl, in which in his brusque way he informed me of his knowledge of what had occurred and expressed the hope that I would meet the scoundrel and kill him. If I did, he would like to see me afterward.

In the afternoon Wilson returned with the announcement that all the arrangements had been made.

"It is to occur tonight," he said.

"Tonight," I repeated. "Why such haste?"

"Oh, to get it off your mind. And we have selected swords."

"Swords!" I echoed. "I know no more about handling a sword than a child! You must have known that Le Baron is credited with being the most expert swordsman on the continent. I should think you might at least have chosen pistols. That would have given him advantage enough, heaven knows, but swords—I don't know the first rudiments of swordsmanship. It is murder, cold blooded murder, and you are an accessory!"

"Pooh! it is all right if you don't so entirely lose your head as to be unable to follow my instructions."

"Where is this assassination to take place?" I inquired, paying no heed to his remark.

"In the cellar of a deserted building just outside the city, and we must get ready at once, for it is booked for 10 o'clock, and we have some distance to ride. You make your preparations, while I run over to my lodgings and get some articles which we shall need."

He left me, and I attempted to get ready. First I sat down and wrote, or attempted to write, several letters. In my nervous excitement I could only dash off incoherent and broken sentences, which told nothing save my overwrought emotions. I did not realize this at the time, did not realize anything but that I was to be killed without even a chance to defend myself, for a sword in my hand was as useless against my opponent as a cannon would have been.

On Wilson's return we immediately proceeded to the carriage which he had in waiting and entered upon our journey. I felt as if riding to my own funeral. On the way Wilson commenced, "The duel is to be in the dark without any light whatever"——

I interrupted him angrily: "In heaven's name, Wilson, what is your purpose! Why, I will not go! I will not"——

"Oh, stop!" he put in. "Show a little manhood. Pull yourself up and hear me through. The duel, as I was saying, is to be conducted in a dark room. They objected to this when I first proposed it, but on my insisting swords as the weapons they consented. You and Le Baron are to be locked up in a room without any light and remain there until one or the other is killed or disabled or begs for quarter. And now for my directions to you: Just before you enter I will hand you a glass of wine which you must drink and, without stopping an instant, enter the room and close the door. Don't delay one moment after drinking the wine, or it will be bad for you. Do as I say, and you will be the victor. Ask no questions, but do as I direct."

I did not half comprehend him, but caught at the assurance that he understood what he was doing, and I felt a slight hope that he could and would find some way out of the difficulty.

Some miles from the city we turned into a private way which led to a deserted chateau.

M. le Baron, Captain Boscher and the surgeon were already on the spot. With the slightest recognition of one another we descended to the basement, carrying but one lantern to illumine the way.

The room in which the duel was to take place was about 10 feet square, without windows and with but one door. It was very high, and the walls were built of split stones. I looked eagerly about, but could see no chance for outside aid to reach me. I should have been mortally nervous had not the lofty and supercilious air of Le Baron aroused my anger.

The final arrangements were quickly made, and we each took a corner, sword in hand. The conditions were briefly restated, that there might be no misunderstanding—we were to remain each in his corner until the door was shut, when, after waiting one minute, the signal would be given, and we should be at liberty to slash each other as much as we could, the fight to continue until one or the other was unable to carry it further.

My corner was farthest from the entrance and opposite it.

After the seconds had left the room, taking the light with them, Wilson on some pretext or other returned and handed me a small flask. Then turning me about so that my back was toward the open door, through which the light was streaming, he whispered:

"Drink this, but do not turn until I go out and shut the door, and after the duel is ended, before the door is opened, close your eyes tightly and keep them closed until I come to you and bandage them. Say that they are hurt. Your life depends upon following my directions."

Before I could reply or question, he left me, and the door was shut. The liquor I had swallowed seemed to course through my veins like lightning. My head felt strange, and my eyeballs began to prickle. I turned and was surprised to see what an immense volume of light poured through the small keyhole. As I looked it increased until the room was so light that I could distinctly see every part of it. I glanced at my antagonist and beheld him so plainly as almost to be able to distinguish his features. He was adjusting something inside his shirt front. I was about to call attention to the breach of the condition that the room should be in total darkness when the signal was given to make ready.

Le Baron grasped his sword and leaned forward as if he were endeavoring in the dim light to make out something in front of him. At the second signal he stepped heavily forward, but surprised me by quickly springing to one side and then moving stealthily toward the center of the room. I could not understand his tactics and did not move. He swung his sword fiercely with a downward sweep, then to the right and left and all around him, acting like a blind man sticking at an invisible enemy.

Again he moved in my direction, going through the same performance, and this he repeated several times until he came so near me that for safety I moved to one side.

"Where are you?" he grumbled, swinging his blade around.

"Here," I replied, and as he moved in my direction, brandishing the sword, I stepped aside again, but he kept on in the direction of my voice. For a moment he stood still, swaying the weapon like one who depends solely upon his sense of touch. I was so near him and the opportunity was so tempting I gave a lunge at him. He made no attempt to ward off the attack, and my sword touched him. Then he turned quickly, slashing the air in a circle, but making no motion toward me.

It dawned upon me then that he could not see as I could, and I was not long in taking advantage of this. I could easily keep out of his reach, while he was completely at my mercy. I compromised with myself on the advantage I apparently had over him and did not attempt to kill him, but I most cruelly disfigured his face, cutting it until I feared he might die from loss of blood.

It could not have been half an hour when I saw that he was growing weak, and I ended the farce by knocking him senseless to the floor. Then, closing my eyes and holding my hands over them, I called for help. Wilson, the captain and the surgeon came running in.

My friend hastened to me, saying: "Your eyes are hurt! Here, let me put this handkerchief over them while monsieur the surgeon attends to Le Baron."

He deftly placed a thick bandage over my eyes, and refusing the proffered aid of the physician he led me up stairs and to the carriage which was to convey me back to the city and my hotel. Le Baron, I afterward learned, was badly "cut up," both physically and mentally, but none of his wounds was dangerous.

On the way home, when I asked for an explanation, Wilson said:

"Well, you know I have made chemistry an absorbing study. Once, while compounding digitalis with some chemicals, I tried its effect upon a dog and discovered that he could see in the darkest room, running with perfect ease while I had to grope my way along. On bringing him to the light too suddenly afterward, I sacrificed his eyesight to my curiosity, for he was thenceforth almost totally blind. Only after several trials did I sufficiently understand the workings of this compound not to injure the animal experimented on.

"Except myself I have never tried it on any human being until tonight. It is a secret that I am not ready to give to the world. You must remain in your room tonight, and tomorrow you can have but little light. I will be with you."

The morning papers gave a full account of the defeat of the great duelist Le Baron and highly praised the courage and skill of his American opponent.

During the day Colonel Russell called, but learning that I could not see him left congratulations and told Wilson that he hoped I would call on him as soon as I was able to be out, as both his daughter and himself were very anxious to see me. I called that evening and learned that I had won the admiration of the father as I had the love of the daughter.

In a short time I received a cablegram from my friends at home telling me that the country had heard of my fight, and every one was wild over my valor. My position was sure.

I returned to my home with a lovely wife and a most flattering reputation for courage, all obtained by vanquishing a bully with the aid of an "eye opener."—Charles E. Hoag in Romance.

Mr. McQuade's Crest.

"Dinnis," said Mr. Hurlihy to Mr. McQuade, "since the grocery business has prospered so foine wid ye, an you're puttin on the bit av shtyle, you'd aughter be afther havin a crist an a monnygrum, man, along wid everything ilse." "A crist an a monnygrum," repeated Mr. McQuade dubiously, "an shure, where would Oi be afther foindin 'em?"

"A monnygrum's aisy made in a minute by a tasty man," said Mr. Hurlihy, with condescension. "Oi c'd twine yez a D, an an M, an a Q if Oi once put me moind to it, but a crist ain't quite so simple. It's got t' be an animile or a figger av some sort that'll have a riference to the fayther an gran'fayther av yez, an sometimes there's a couple av wurrads goes wid it."

"Phwat kind av wurrads?" inquired Mr. McQuade.

"A motter, man, settin out the principles av yure family an ancisthors," replied Mr. Hurlihy, with a comprehensive wave of his hands.

"No nade for yez to say anny more," cried Mr. McQuade, with an expression of great relief. "Oi'm thinkin Dinnis McQuade'll have a crist wid the best av 'em if that's phwat's wanted."

"An what'll it be?" inquired Mr. Hurlihy.

"A hin," said Mr. McQuade, with decision, drawing an imaginary biped in the air with a sturdy forefinger; "a hin wid a broight eye on her, her round head bint forrud an her legs jist a-goin, an round the head av her the wurrads that gran'fayther shpoke to me fayther manny's the toime when wurrk was slow comin an fayther was loike to fale discouraged. 'Kape scratchin!' the ould man 'd say, 'an good advoice it was. Oi'm thinkin there aint manny c'd have a betther crist than the McQuade's!"—Youth's Companion.

Why We Do Not Take Scalps.

If war is unhappily still prevalent, it is at least not war in which every clan is fighting with its neighbors, and where conquest means slavery or extirpation. Millions of men are at peace within the limits of a modern state and can go about their business without cutting each other's throats. When they fight with other nations, they do not enslave nor massacre their prisoners.

Taking the purely selfish ground, a Hobbes can prove conclusively that everybody has benefited by the social compact which substituted peace and order for the original state of war. Is this, then, a reversal of the old state of things—a combating of a "cosmic process?" I should rather say that it is a development of the tacit alliances and a modification so far of the direct or internecine conflict. Both were equally implied in the older conditions, and both still exist. Some races form alliances, while others are crowded out of existence. Of course I cease to do some things which I should have done before. I don't attack the first man I meet in the street and take his scalp. The reason is that I don't expect that he will take mine, for if I did fear that, even as a civilized being, I should try to anticipate his intentions. This merely means that we have both come to see that we have a common interest in keeping the peace. And this, again, merely means that the alliance which was always an absolutely necessary condition of the survival of the species has now been extended through a wider area.—Contemporary Review.

Two Views of Scripture Reading.

At the American chapel at Lucerne a Protestant Episcopal minister from this country (low church) read the lessons with such naturalness of manner and propriety of emphasis as to elicit the admiration of a visitor, who afterward remarked, "How delightful to hear the Scriptures read with such sense and feeling!" She was surprised to hear the sister of a high church rector, American also, exclaim: "I can't agree with you. I think it almost blasphemous for a man by such stress and emphasis to impress his own interpretation on the word of God. The Scriptures should be read in monotone."—Christian Advocate.

Altogether Too Easy.

George is a plain, matter of fact boy, outspoken and honest, who does not permit anything to ruffle him. At his examinations some of his answers were much like the boy. When he was asked what was the difference between decimal and common fractions, he replied promptly and with the air of that question being almost too easy:

"Oh, a decimal fraction has a point, and the other hasn't." — New York Times.

A Plucky Woman of National Renown.

Dr. Mary Walker is a plucky little body. She still persists in wearing the man's garb, which she must have worn, we guess, for nearly 40 years, if not for half a century. She was young when she first wore it, but though not as young now as she then was she wears it proudly as ever. When last seen out west, her tall, glossy tile sat over her short hair, tinged with the melancholy gray; her yellow spotted necktie looked neat; her black cloth trousers and coat were a perfect fit; her shoes were low, and she tripped along lightly, though not as of yore.

When she came out in this attire ever so long ago, she was ridiculed and caricatured, but she did not give it up. When she walked out, she was laughed at by women and men, but she stuck to it. When she stood on the platform, she was guyed by the audience, but she did not care for that. She had made up her mind on the subject, and that was the end of it. According to a Chicago paper, her face has now an expression of grim determination, and thus far it is a reflex of her soul.

She does not belong to the Turkish school of Chautauqua dress reformers which raised an uproar last year, or to the Bloomer school, or to the divided skirt school. She has her own ideas, and all the winds that blow cannot change them. Dr. Mary Walker is an interesting lady, a very persistent reformer, a gentle member of her sex, a woman deserving of respect notwithstanding her whim. Strange that her example has had so little influence.—New York Sun.

DISCIPLINE AND CHARACTER.

A Tribute to the Austere Training Which Produced a Man Like Tryon.

To our minds the charm of Admiral Tryon's bearing in the hour of his fate is the perfection of the system which for centuries has bred men capable of his conduct and his death. They have not had his opportunity of being visible, not his strangely scenic surroundings, not perhaps the temperament which could have inspired them to that farewell in the moment of disappearance, but there have been hundreds of men in the navy, and even in the merchant service, who would have died as bravely as he did.

It is the tradition of both services—not, we think, the order—that the highest in rank on a ship in peril must be the last to quit the vessel; that, as occurred a few years ago, even a stowaway, who is almost a criminal in sailors' eyes, must take precedence of the captain in securing safety. The origin of the rule is, we fancy, policy—that the state or the owner be protected by the captain's authority to the last—but it has become an etiquette and a pride, and in the records of hundreds of wrecks you will find few in which it was ever broken. "The captain was the last to leave the ship" is the end of almost every telegram of marine disaster.

In other words, discipline has continued for centuries under the pressure of the same necessities, and the same ideas, has extinguished in a class by no means devoid either of faults or vices, a most natural and tempting form of selfishness has induced a whole series of men, many of them hardly educated, to face a slow and painful form of death rather than fail in the performance of a professional duty. That is a wonderful result of training, and it is one which makes those who see it clearly doubt whether the modern world is altogether in the right path.

The old ideal for the formation of character was discipline, hardship, pressure, alike from the law and from teachers and from opinion, and it certainly produced many of the virtues, especially that one of obedience, which the world everywhere but on shipboard—where there are few unrealities and men carry their lives in their hands—has taken to despising. The modern idea is that discipline even for children is an oppressive thing; that it turns men into machines, and it quenches individuality—that it is, in short, unpleasant, whereas pleasantness is the end of life.

We see the result of the change in the disappearance of many forms of oppression, and a lighter atmosphere for man to move in, and we see it also in the slow disappearance of many noble elements in character. The old system, working with good material, produces as its perfect result Admiral Tryon. The new, working also on the right material, produces the British agitator.

Admiral Tryon was no doubt a brave man and gentleman without help from the service or its traditions, but the service had annealed his character into what it was, something for a nation to be proud of, which would hardly have been exhibited or have existed amid the indiscipline and softness of civil life. When one hears of such a man so meeting such an end, it is difficult not to doubt whether liberty as now interpreted is such a perfectly good thing; whether instant obedience to command is not better training; whether pressure from all sides, from service rules, opinion and hardship together, does not weld men into something worthier of the aspirations which, while men have consciences, they never quite get rid of.—London Spectator.

Merriment at a Funeral.

Merriment is regarded as out of place at a funeral, yet an inhabitant of Montgaillard, who had been dubbed the "Misanthrope" on account of his gloomy and reserved disposition, inserted a clause in his will to the effect that any of his relations who should presume to shed tears at his funeral would be disinherited, and on the other hand he who laughed most heartily was to be his sole heir. He further gave directions that neither his house nor the church was to be hung with black cloth on the day of his burial, but both were to be decorated with flowers and green boughs, while, instead of the melancholy tolling of bells, the ceremony was to be accompanied with drums, fiddles and fifes. There is reason to believe that the funeral was conducted in exact accordance with these peculiar instructions.—Exchange.

THE FUTURE OF THE AMERICAN BOY.

The American boy is "getting left," not on account of lack of brains so much as lack of opportunity. The chances for boys to thoroughly learn trades ended with the last generation, and the desire for "soft snaps" and quickly remunerative business, has sent the boys into clerkships and agencies, and they seem to have lost all ambition to begin at the bottom of a mechanical business and master it. They haven't the time, and the result is that every mechanical occupation has in it many men who do not and cannot do good work, and the number of men who can not earn a decent living is constantly increasing.

The result of this is a large increase of criminals from among the American born population. Of the fifty-two thousand white male prisoners in the jails of this country in 1890, half of them were born in this country of American parents, and over seventy-five per cent. were American born. Over four-fifths of them have no trade or occupation; and of these three-fourths are Americans under thirty years years of age.

While the public schools have been constantly growing better, the training for gaining a livelihood has constantly been growing poorer; and now the only hope for the American youth lies in the manual training schools and classes which have only just begun to be appreciated in this country. Boys come from the nations of continental Europe who have been trained in these schools, and they are taking some of the highest, most responsible and most lucrative positions in this country. If America does not make the most of her boys, nobody else will make anything of them for her.

NO DIVISION OF SENTIMENT.

At the annual encampment at Indianapolis last week the Grand Army did itself honor by its calm consideration of the pension question, which has been forced upon it for the first time by the return to power of the democratic party. It was there stated that the invalid pension act of 1890 took the invalid union soldiers from the almshouses and was accepted as a final settlement of the pension question; but the present secretary of the interior had practically nullified the law by new and unjust rulings, and thousands of pensioners had been suspended without notice, and their names dropped from the rolls.

The committee on pensions reported a resolution which said that "as the commissioner of pensions by his recent withdrawal of the obnoxious rulings which have been so generally condemned, had virtually acknowledged the incorrectness of such rulings, we deem it our further duty to request him to at once restore to the rolls the thousands of pensioners now illegally suspended." The report of the committee condemning the conduct of the pension department, with the above resolution, were unanimously accepted and adopted; and afterwards Commander-in-Chief Adams was instructed to carry the question of the legality of the abandoned rulings for settlement to the supreme court of the United States.

This is the first time that the maimed and broken down veterans have been officially assailed since the war, and the action of the Grand Army, which contains representatives of all parties, was as solid against the pension bureau in its unjust and illegal action as it was against the foes of the country in the sixties.

FIFTY THOUSAND APPEAL FOR PROTECTION.

The democratic party which poses as the only political organization that recognizes and strives to promote the interests of the working classes is not proving its claims, but is showing that it is a political false pretender by seeking to inaugurate a policy which will reduce wages and which has paralyzed the business of the manufacturing portions of the country.

What a spectacle it is to see fifty thousand textile wage-earners in the city of Philadelphia alone signing a petition to the ways and means committee at Washington asking them to give assurances that the tariff revision shall not weaken the laws protecting the textile products and materials of this country. Such revision threatens them with reduction of wages and distress. This movement is not partisan, but is receiving the earnest endorsement of all the workmen in these industries.

If the party is what it pretends to be, it is strange that the ill conceived plans have brought to labor the hardest times it has experienced in the history of this country, and that when appealed to no one in authority can be induced to give the reassuring word so that business may take a new start.

In this period of business depression President Cleveland has played the part of a democratic sphinx, and has been cold and dumb when the right words from him would have warmed up the country with confidence and hope.

THERE IS NO COMPARISON.

Judge Barbour of Hartford ought to know that there is no comparison whatever between a county home and the Meriden reform school, so his assertion that "he would rather send a son of his to the reform school at Meriden than to a temporary home, since at the former place he learns a trade and at the latter he does not," has in it neither sense nor reason. The county home is not a penal institution, but it is a reformatory institution, for it takes neglected children between the ages of three and sixteen that are a disgrace to the state in their ignorance and vagrancy, and trains them in the politeness and courtesy which is to be expected in a good home. As the children advance in age they are sent to school, and when their good nature, good manners and industrious habits commend them to some childless family they are adopted; are well brought up, taught trades or instructed in business, and many of them have already made successful young men and women; and not a few are the idolized children of well-to-do parents and heirs by adoption to large estates.

This is what the county homes do for children. It sends them to good homes well trained, with the odium of no penal institute upon them, keeps in correspondence with them, sees that they are not abused, and rescues them from a life of criminality and vagrancy and makes of them good, useful and honorable citizens of this and other states.

THE RISE IN STOCKS.

The United States Investor of the 9th inst. says: "The stock market has lately experienced a rapid upward movement. Prices are still far below those which were witnessed prior to the financial depression, but when placed beside those quoted in July, they give evidence of an extraordinary advance. The overwhelming vote in the house on August 28, in favor of the repeal of the silver purchasing clause, imparted a stimulus to the market which the most pronounced bulls had hardly been looking for. In fact, as regards the stock market, the situation has experienced a radical change in the last few weeks. Where before a feeling of the greatest despondency prevailed, there is now a feeling that the situation will shortly return to its former basis. * * * * * * * *

The general situation is improving. Of that there can be no doubt. The one hope, however, which the future presents to the thoughtful student of economics is that it will be characterized by an absence of many features which belonged to the last few years. These features were largely responsible for a flashy kind of prosperity, which resulted in the depressing months of May, June and July, 1893. That kind of prosperity is not to be desired for the future, and it is safe to say that the next year or two will be characterized by an absence of it. There is, however, good reason to believe that the country is on the eve of a more substantial, though a more sober, prosperity than ever before. That this prosperity is to be attained in a week or a month is not to be believed."

EDITORIAL COMMENT.

The Connecticut Jewish Times is a new paper issued at New Haven in the interest of the Jews of the state. It is a handsome paper and begins its career with a happy new year to all its readers.

The Boston Globe moved into new quarters Saturday and claims to have the second largest circulation of any paper in the country. It is using twenty one tons of paper daily, and has press power sufficient to turn out 180,000 eight-page papers in an hour. This enterprising paper gave all its readers a free ride on the electric cars Sunday.

The Norwich Weekly Courier is the best weekly newspaper in New England at 50c a year.

STATE EDITORS' OPINIONS.

A Little Slow.

Not twenty women yet registered to be made voters in Hartford. And they've a Woman's Rights club up there, too.—[Meriden Republican.

His Trolley is Off.

The attempt of Colonel Vance to convince himself and the public that in the late general assembly the farm was hostile to the factory is all right as fiction and all wrong as fact. It is with sorrow and not with anger that we feel obliged to tell Brother Vance that his trolley is off.—[Waterbury Republican.

Legislative Tempers.

Legislative tempers are showing signs of wear and tear in more than one capital this season. At Washington the other day, one aged senator informed another aged senator that he didn't want to listen to "a lot of trash"—or words to that effect. At Westminster, Thursday night, Sir William Harcourt accused Joseph Chamberlain of using language that was "bullying" in tone, and chaffed him a bit on his oratorical vanity. Joseph said he would make no reply to Harcourt's "extremely insolent remarks."—[The Courant.

Do Not Weaken the Banking System.

There is talk in Washington now about passing new banking laws which will allow more liberty in doing that business and consequently put more currency in circulation. There is doubtless some need of a revision of the laws, as the payment of government bonds tends to deprive the national banks of the basis of their circulation, but nothing should be done that weakens the system or deprives it of the public confidence that has made it so successful.—[New Britain Herald.

VOICE OF THE PRESS.

A Secret Out.

The secret of the great windstorms is out at last. In Palmer, Mass., there stalks a ghost chiefly notable for his whiskers. All the winds of this continent were out searching for them.—[Bridgeport Farmer.

Another One Down.

Another local veteran has felt the effects of Hoke Smith's arbitrary and illegal rulings regarding pensions. A dollar a week is a pitiful sum to dole out to a man who fought to save this country from dissolution.—[Ansonia Sentinel.

The Latest Report.

Summer hotels are reported to have done a good business in spite of the short season, dull money conditions and the World's fair as a counter attraction. There certainly have been no more than the usual number of fires and failures in these institutions at the close of the season.—[Waterbury American.

A Good Fair Assured.

Good horses and good races, without objectional pool-selling are fully assured at the state fair, so we repeat that all that is needed is good weather and we'll have a great, big exhibition sure to attract large crowds of people and sure to benefit Meriden in the matters of instruction, entertainment and advertising, as well as financially both directly and indirectly.—[Meriden Republican.

THE WEEKLY SUMMARY.

A Falling Off Noticed in Real Estate Sales and Bank Clearings.

The summary of The Weekly Record for the past week shows a remarkable falling off in real estate sales, especially noticeable in the larger cities, New Haven, Hartford and Bridgeport. Bank clearings also show a heavy decline. The details are as follows:

Real estate sales—New Haven 8, Bridgeport 7, Hartford 3, Waterbury 4, Meriden 5, New Britain 1, Middletown 1, Norwich 7, Danbury 5, Norwalk 9, Ansonia 2, Derby 1, Shelton 4.

Real estate mortgages—New Haven $630,172, Bridgeport $27,900, Hartford $10,901, Waterbury $18,900, Meriden $8,160, New Britain $6,856, Middletown $2,600, Norwich $8,300, New London $5,200, Danbury $19,000, Norwalk $4,900, Ansonia $1,700, Shelton $3,300.

The total number of sales this week is 57, as compared with 98 for the preceding week and 148 for the corresponding week last year. The total of recorded mortgages is $785,998 against $331,833 the preceding week and $396,651 for the corresponding week last year.

The Norwich Weekly Courier is the best weekly newspaper in New England at 50c a year.

I have not used all of one bottle yet. I suffered from catarrh for twelve years, experiencing the nauseating dropping in the throat peculiar to that disease, and nose bleed almost daily. I tried various remedies without benefit until last April, when I saw Ely's Cream Balm advertised in The Boston Budget. I procured a bottle, and since the first days' use have had no more bleeding—the soreness is entirely gone.—D. G. Davidson, with The Boston Budget, formerly with Boston Journal.

To be free from sick headache, biliousness, constipation, etc., use Carter's Little Liver Pills. Strictly vegetable. They gently stimulate the liver and free the stomach from bile.

Things Worth Remembering.

When you feel a kind of goneness about the stomach it is a sign that your food does not sit well and that you are about to have a fit of indigestion.

When you begin to feel nervous and are unable to sit comfortably; when your clothes suddenly seem to lose their fit and become too tight in places the fit of indigestion is surely upon you.

When this fit of indigestion is repeated from day to day it finally resolves itself into dyspepsia.

Remember that three to ten of BRANDRETH'S PILLS will cure the worst case of indigestion or dyspepsia, or both, and that a regular course of them, say two every night for a week or ten days, will act as a preventive of either complaint.

Every woman who suffers from Sick Headache, and who dislikes to take bitter doses, should try Carter's Little Liver Pills. They are the easiest of all medicines to take. A positive cure for the above distressing complaint; prevent and cure Constipation and Piles. As easy to take as sugar. Only one pill a dose. Price 25 cents. If you try them you will not be without them.

For Over Fifty Years

MRS. WINSLOW'S SOOTHING SYRUP has been used by millions of mothers for their children while teething. If disturbed at night and broken of your rest by a sick child suffering and crying with pain of Cutting Teeth, send at once and get a bottle of "Mrs. Winslow's Soothing Syrup" for Children Teething. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures Diarrhoea, regulates the Stomach and Bowels, cures Wind Colic, softens the Gums and reduces Inflammation, and gives tone and energy to the whole system. "Mrs. Winslow's Soothing Syrup" for children teething is pleasant to the taste and is the prescription of one of the oldest and best female physicians and nurses in the United States. Price twenty-five cents a bottle. Sold by all druggists throughout the world. Be sure and ask for "MRS. WINSLOW'S SOOTHING SYRUP."

A woman who is weak, nervous and sleepless, and who has cold hands and feet, cannot feel and act like a well person. Carter's Iron Pills equalize the circulation, remove nervousness, and give strength and rest.

A STRANGE CASE.

How an Enemy was Foiled.

The following graphic statement will be read with intense interest: "I cannot describe the numb, creepy sensation that existed in my arms, hands and legs. I had to rub and beat those parts until they were sore, to overcome in a measure the dead feeling that had taken possession of them. In addition, I had a strange weakness in my back and around my waist together with an indescribable 'gone' feeling in my stomach. Physicians said it was creeping paralysis, from which, according to their universal conclusion, there is no relief. Once it fastens upon a person, they say, it continues its insidious progress until it reaches a vital point and the sufferer dies. Such was my prospect. I had been doctoring a year and a half steadily, but with no particular benefit, when I saw an advertisement of Dr. Miles' Restorative Nervine, procured a bottle and began using it. Marvelous as it may seem, but a few days had passed before every bit of that creepy feeling had left me, and there has not been even the slightest indication of its return. I now feel as well as I ever did, and have gained ten pounds in weight, though I had run down from 170 to 137. Four others have used Dr. Miles' Restorative Nervine on my recommendation, and it has been as satisfactory in their cases as in mine."—James Kane, La Rue, O.

Dr. Miles' Restorative Nervine is sold by all druggists on a positive guarantee or sent direct by the Dr. Miles Medical Co., Elkhart, Ind., on receipt of price, $1 per bottle, six bottles for $5, express prepaid. It is free from opiates or dangerous drugs.

Sold by N. D. Sevin & Son and Lee & Osgood.

HOOD'S SARSAPARILLA.

Life Was a Burden

Because of the intense pains in my stomach and side, and also on account of gall stones. After eating I would be

In Great Distress

I became so reduced in flesh that my friends thought I would not live long. I grew worse and my removal to a hospital in Syracuse was under advisement, when my father had me give Hood's Sarsaparilla a trial. There was an improvement at once and I have continued taking it, until I am now well. I have gained in flesh and

Hood's Sarsaparilla Cures

can eat heartily without distress. I now enjoy life and I owe it all to Hood's Sarsaparilla." MRS. MARY SHUTE, Cazenovia, N. Y.

HOOD'S PILLS assist digestion and cure headache. Sold by all druggists. 25c. aug16/ew

CLOUDS BREAKING.

Improved Tone in Business Circles Noted Daily.

NORMAL CONDITIONS RETURNING

Most Hopeful View Yet Taken by Trade Journals.

NEW YORK, Sept. 10.—In their weekly review of business and finance Bradstreet's and R. G. Dun & Co., in their reports published Saturday, take a more hopeful view of the situation than they have done for some time. Bradstreet's will say: "The third successive week of improving financial conditions, followed by a stimulation of demand for staple articles at many points, has practically satisfied the commercial and industrial communities that the change for the better is a result of improved conditions, and that the movement will prove continuous. A careful examination of detailed telegraphic reports of the state of trade makes it plain that easier money, present or prospective, has stimulated confidence in an increased volume of trade this fall and next winter.

"New England cotton and woolen mills remain very generally idle, and the outlook is for lower wages in the former. Evidences of reviving trade are apparent in increased demand from western and eastern jobbers of dry goods and hardware. The beginning of the

Upward Swing of the Pendulum

reveals advances in prices this week, notably wheat 1 1-8c., lard 1-4c., Indian corn 3 1-4c, coffee 3-8c., and meats and rice, [illegible] staples, in addition to which oats are 1c higher, cotton is up 1-8c. and naval stores also, owing to damage from the storm.

Business failures continue checked, this being the first instance of small totals reported two weeks in succession since the panic began. The week's total is [illegible], against [illegible] last week, [illegible] one year ago, [illegible] in 1891, and [illegible] in 1890. High water mark in the matter of failures this year was reached in July, with a total of about 2000, and nearly $65,000,000 liabilities, as compared with nearly 800 failures and $8,300,000 liabilities in July, 1892.

R. G. Dun & Co. report that improvement has extended from the banks to the mills. The condition of great industries has distinctly mended, though still seriously depressed.

More Important by Far

than any rise in stocks is the fact that more works have resumed during the past week than have stopped operation, so that the producing force of the country, after months of constant decline, has begun to increase. Dispatches mention 38 textile and 30 metal works which have resumed, some only with part force, while 25 textile and 9 iron works have stopped. It is expected that most of the Fall River mills will start soon, the hands assenting to reduced wages. The money markets are more healthy, the premium on currency has almost vanished, the embarrassments in domestic exchange have well nigh disappeared, and while very little money is yet available for commercial or industrial loans, there is some relief in that respect also.

UNDERTONE OF STRENGTH.

Improved Tone of Business Seems to Increase Day by Day.

BOSTON, Sept. 10.—The Boston News Bureau says of the situation: The improved tone noted in the business situation last week seems to increase day by day. The ample supply of currency, the return to normal conditions in exchanges between the cities, and the greater disposition of capital to put out loanable funds, are factors which are making for confidence in the business world and furnishing the motive power for the wheels of industry. The stocks of goods in the hands of retailers are small. Prices are low, but they were low before the present crisis came. The prompt shutting down of mills prevented an accumulation of stocks and also prevented a further decline in prices.

There is an undertone of strength in the situation which seems as legitimate as it is surprising. The return of normal conditions in financial circles and the accumulation of funds which is beginning to seek employment, are factors pressing upon us with mighty force. We are fast drifting from utter business stagnation to renewed activity, and the demand which must be increased because of the recent cessation cannot but have an appreciable effect upon prices.

We have evidently passed the period of distrust and unfavorable news, and are about to review the returns of past conditions. The resumption of industries is a most important factor in favor of labor and labor savings. Securities were probably never in stronger hands than today, and still the speculative demand is yet to come with the outflowing of time money, the retirement of loan certificates, and favorable financial legislation.

Prisoners Pardoned Out.

LAWRENCE, Mass., Sept. 10.—The county commissioners pardoned the following from the local house of correction last week: Dominick Fe[illegible], Michael Cullen, Patrick Griffin and Michael McGurran. All were from this city. The first three were sentenced for drunkenness and the latter for assault.

Happy Operatives.

NEWBURYPORT, Mass., Sept. 10.—The 400 operatives of the Victoria mills Saturday enjoyed a trip up the river and return. The Cadet band accompanied the excursionists. This is the annual trip under the auspices of the directors of the corporation, who foot the bills.

About to Escape.

ELLSWORTH, Me., Sept. 10.—Arthur Noyes of Boston, who is in jail here charged with theft, dug a hole through the masonry of the jail and was about to escape Friday night when the act was discovered.

Cholera's Frightful Record.

BUCHAREST, Sept. 10.—An official report on the cholera in Roumania shows that the total number of cases since July 21 is 1018 and the number of deaths 594. The [illegible]

Conspiracy Case Unsettled.

PITTSBURG, Sept. 10.—The jury in the conspiracy case against Morris W. Mead, W. J. Clark and M. H. Hamilton failed to agree upon a verdict, and at 10 o'clock Saturday morning were discharged.

Escapes the Gallows.

BOSTON, Sept. 10.—George Thompson, who was held in the lower court for the murder of his wife, Mary F. Thompson, was indicted Saturday for manslaughter. The defendant pleaded not guilty, and bail was fixed in the sum of $5000. No date was assigned for the trial, but it will in all probability take place next week.

Identified as Edward Hogan.

NEWTON, Mass., Sept. 10.—The remains of the unknown man, who was killed at Brookline Hills by the 11:20 passenger train on the circuit division of the Boston and Albany railroad, has been identified at the Newton morgue as those of Edward Hogan of Brookline.

FIXES THE BLAME.

Professor Swain Says Chester Bridge Was Weak From Loss of Bolts.

BOSTON, Sept. 10.—Professor George F. Swain, in his report to the railroad commissioners upon the Chester bridge disaster, clearly fixes the blame upon the bridge men who had taken bolts out of the plates and failed to replace them.

After describing the bridge and its general construction and the manner in which the train went down Mr. Swain says: "My examination of the wreck showed very clearly, however, what had caused the disaster. The structure had been seriously weakened by the workmen engaged in the repairs, and had been left in a dangerous condition. There is in my mind no possible doubt as to its correctness. There was no derailment except as a result of the collapse.

The old plates had been disconnected from the angles throughout the second, third and part of the fourth top chord panels from the west end, that is, for a distance of 25 feet, and no bolts appear to have been put in to replace the rivets. If any were put in, they must have been very few in number. I saw no evidence of any.

In fact, in the wreck this portion of the chord lies entirely without cover plates, and consists simply of the webs and angles. If the cover plates had been bolted securely to the angles they would, without question, have been found connected to the chord in the wreck or there would have been some evidence that they had been so connected, while, as a fact, they were not in the vicinity, and I saw no evidence of their having been torn away.

These facts indicate beyond the possibility of a doubt the cause of the disaster.

ANOTHER POSTOFFICE ROBBED.

Burglars Blow the Safe at Weymouth and Secure About $300.

WEYMOUTH, Mass., Sept. 10.—The Weymouth postoffice was broken into some time between the hours of 1 and 4 o'clock Saturday morning and the safe blown open. Burglars forced an entrance through the front door by knocking off the lock, and one of the windows was also forced open. The loss, as far as can be ascertained, is about $300, part of which belongs to the postmaster.

The burglars bored holes in three different parts of the safe door, and charged them with powder. The door was blown completely off, and the safe was otherwise damaged. A bag of burglars' tools was found on the floor by the postmaster on his arrival at the office this morning.

DOCTOR IN TROUBLE.

Threatens to Shoot Milkman Who Disturbed His Morning Nap.

HAVERHILL, Mass., Sept. 10.—Chief of Police R. L. Wood Saturday morning arrested Dr. William Parker, a prominent physician and social leader of Groveland, on the charge of assault with a dangerous weapon and threatening to shoot George Bond, a West Newbury milkman.

Bond early each morning drives past the home of Parker. That morning Parker came out and demanded less noise, and drawing a revolver presented it at Bond and said that unless the nuisance was stopped he would shoot. The case will be tried Monday in the local court.

Storm Beaten Steamers.

HALIFAX, Sept. 10.—The steamer Alpha, which arrived from West Indies, reports having experienced a very rough passage. About the same time the Alpha reached Kingston the Atlas steamer Alvena, from New York, entered the harbor with her flag at half-mast. She had passed through the same storm, and suffered heavily. James Bishop, her captain, was washed overboard and drowned. Two of her sailors were seriously injured.

THEIR GRAVES WERE DUG.

Indians Ready For Execution When Notice of New Trial Reached Them.

MCALLISTER, I. T., Sept. 10.—Simon Wade and Solomon Lewis were not executed at Wilburton Friday in accordance with the sentence passed upon them. Judge Holston reconsidered his decision rendered late Wednesday evening, and granted them a new trial.

At the court grounds, 10 miles from Wilburton, Wade and Lewis, together with Albert Jackson, Willie Jones, Johnson Parker and Silas James, were chained together in pairs Friday and were guarded in an old church. They were holding devotional services, singing, praying and reading the Bible. Everything was in readiness for the execution.

They were neatly dressed, had their hair shingled, and they were shaved clean. Their coffins were there ready, and a short distance from the house could be seen two mounds of fresh dirt. That dirt was taken from graves. The sheriff had his Winchester ready for the execution.

All of a sudden appeared Robert Benton, captain of the light horsemen, with a message from Judge Holston setting aside their execution and granting them new trials. When the message was read and interpreted to them a more happy set of men never lived. They seemed to think their prayers had saved their lives. They will be again tried by the Choctaw authorities in December. In the meantime they will be allowed to go on their own recognizance. This stay of execution is the result of a telegram from Secretary Smith to Judge Holston.

EVENT OF THE DAY.

Charge Led by Kaiser William In German Military Operations.

METZ, Sept. 10.—Friday's military operations consisted in a great battle along the line of the stream of the French Nied. The grand event of the day was a brilliant charge, led by the emperor, under command of General Count von Haeseler, down a steep slope from Colligny and up the opposite hill toward Mont, against the Bavarian division.

The charge was a splendid spectacle, but critics declared that in real warfare such a charge would have resulted in a terrible massacre, and that no commander would thus expose cavalry nowadays, even in a forlorn hope.

The battle was fought on a line parallel to the scene of the great action of Aug. 14, 1870, between Colombey and Nouilly, but eight miles from Metz.

It is reported that General Count von Haeseler had converted the emperor to his opinion that, in spite of the forts of Metz, an enemy advancing from the west could force a way to Lorraine between Metz and Saarburg. If the report is true, the result will be the erection of further fortifications at Metz.

Westminster's Bad Condition.

LONDON, Sept. 10.—The medical commission who have examined the parliamentary buildings since the death of the charwoman with choleraic symptoms, reported to the parliamentary committee on buildings at Westminster that both houses are in a bad sanitary condition and require a thorough overhauling.

Oxford is to have another college for women. St. Hilda will soon be opened under the auspices of Miss Dorothea Beale, a worker in the cause of higher education in England.

George C. Chase, the newly elected president of Bates college, is a graduate of that institution and is about 49 years old. During the last 18 years he has raised about $140,000 for the benefit of the college, where he has been a professor since 1872.

RIO JANEIRO QUIET.

Rebel Warships Have Disappeared From Harbor.

THOUGHT TO HAVE GONE SOUTH.

They Will Carry on Guerilla Warfare Along the Coast.

NEW YORK, Sept. 10.—The Herald's correspondent in Montevideo telegraphs that dispatches received there indicate that all is quiet in Rio Janeiro. The rebellious squadron is now at sea, and it is believed the insurgents are planning to carry on a sort of guerilla warfare by water along the coast, and are proceeding south with the idea of combining forces with the Rio Grande do Sul insurgents. The general impression here, however, is that the revolt will collapse through lack of any co-operation from land forces.

The loyalty of Rio seems fully assured, moreover, and even a body of railroad employes who tore up a portion of the track before the rebel ships left the harbor, in order to prevent the arrival of troops from Sao Pablo, have abandoned

The Idea of Aiding the Revolters.

Telegraphic communication is still cut off. Reports from the Uruguayan frontier say that the Brazilian minister has taken strong measures to prevent further outrages by his countrymen upon Uruguayan citizens. The officers accused of responsibility for the murder of Lieutenant Cardoza have been arrested and will be courtmartialed.

Word is sent from Rivera that a battle has been fought with the Castilhistas revolutionists near San Gabriel, in which 150 of the combatants were killed.

It is reported at Buenos Ayres that the rebel men-of-war have left Rio Janeiro to seize Santos and join the rebels in Rio Grande do Sul.

BURGLAR CAPTURED.

Attleboro Merchant Corners a Thief In His Store and Secures Him.

ATTLEBORO, Mass., Sept. 10.—Charles H. Billings of Mansfield shot at and captured a burglar in his store late Friday night. Billings, who slept in the store, heard a noise, and getting up saw a man going through the money drawer.

Billings pulled a revolver and fired three times at the fellow. He succeeded in getting him into a corner and then brought him to bay. Billings made him hold up his hands until assistance arrived, and the thief was secured.

In the district court Saturday morning the man gave his name as Robert Feely, aged 18. He was held in $1000 for the superior court. Feely is believed to be a Boston crook. He is light complexioned, smooth face and about 5ft. high.

HOW CHINESE GET IN.

Thousands Cross From Mexico to Texas. Few Are Captured.

SAN ANTONIO, Sept. 10.—Colonel R. A. Moore, special agent of the United States treasury department, has received information from the border that the exodus of Chinese from Mexico into the United States continues unabated. The frontier of Mexico is thronged with Celestials who are only waiting for a favorable opportunity to cross the Rio Grande.

The smuggling of the unwelcome foreigners into the country is worked so smoothly that comparatively few of them are captured. Thousands have undoubtedly reached Texas. During the past three months only about 40 have been apprehended, and they are in jail at San Antonio.

RUN INTO LOCAL FREIGHT.

Lehigh Flyer Wreck on Saturday—Several Persons Injured.

BUFFALO, N. Y., Sept. 10.—The Lehigh railroad's flyer, which left here at 5 o'clock Saturday, was wrecked near Mumford, on the line of the Rochester and Pittsburg railroad.

The flyer ran into a local freight train belonging to the Rochester and Pittsburg, which stood on the track.

The Lehigh engineer, John Randall, and Baggageman Lawrence Houlihan were badly injured and several passengers were hurt, though not seriously.

Struck by an Electric.

BOSTON, Sept. 10.—About 6.30 Saturday morning an electric car came within a few inches of crushing the life out of little Johnnie Cronin. The boy is about 5 years old. He was crossing Tremont street from the common opposite Mason street. The little fellow was frightened, and ran in front of an electric which was moving slowly. It knocked the child down, and the fender struck his head, but the doctors think he is only slightly [illegible]

Railroad Declared Solvent.

EVANSVILLE, Ind., Sept. 10.—Receiver G. J. Grammer of the Evansville and Terre Haute has been discharged by Judge Briggs, since the parties to the suit have agreed to dismiss it. The judge declared the road solvent, dismissed the receiver, and ordered all property returned to the company. The road has $8 of assets to every dollar of debt.

More American Bishops.

ROME, Sept. 10.—The pope has given audience to a number of American priests, and promised within a few days to provide for the occupation of vacant dioceses in America. He alluded with regret to the death of the bishop of Hartford.

Belgrade Has a Shake.

BELGRADE, Sept. 10.—This city and the whole valley of the Morava were shaken by an earthquake yesterday. A railway station and many houses at Tschuprija were buried in the earth, and several persons were killed.

Bakery Burned Out.

BIDDEFORD, Me., Sept. 10.—George G. Calderwood's bakery was damaged by fire Saturday morning to the extent of $1000; insured.

FIN, FEATHER AND FUR.

A pet fish has been known to live six years.

A jelly fish of 10 pounds when dried weighs about 10 grains.

In the Zoological gardens at Leipsic are 30 young pythons, just hatched and all poisonous.

A man in Washington county, Pa., has a bantam rooster that is so familiar with a cat that it can get on the feline's back and crow without the cat taking any notice of it.

The pain following the bite of a mosquito is caused by a fluid poison injected by the insect into the wound in order to make the blood thin enough to flow through the mosquito's throat.

Louisiana rejoices in the possession of a species of snake known as a "double ender." It has a head at each extremity and can go either way in great shape; also a lizard which is translucent.

Swans keep water free from weeds. A lake at Burghley, which gave constant occupation to three men six months in the year to keep it comparatively clean, is now kept completely clean by two pairs of

THE STOCK MARKET.

Dealings In Leading Securities In Boston and New York.

BOSTON, Sept. 9.—In the outside market call money is quoted at 8 to 10 per cent, and time money is nominally 8 per cent.

The stagnation in business is over and the country is fast approaching a healthy activity. The demand for goods, which has increased [illegible], can not but have a good effect upon prices. The market is evidently passed the period of distrust and unfavorable news. Securities were probably never in stronger hands than at the present time. There is a strong feeling that there will be a very good bank statement today.

The delay in the passage of the repeal bill is the cause for the present hesitation by European operators. As soon as this is settled there is likely to be a demand for investment, as money will be easy.

The improved tone in the business situation last week seems to increase day by day. The ample supply of currency and the return to normal conditions in exchanges between cities and the greater disposition of capital to put out loanable funds are factors which are making confidence in the business world and furnishing the power for the wheels of industry.

The market opened at very strong prices this morning. Atchison was the feature, coming out at [illegible], an advance of [illegible]. New England sold at [illegible]. Chicago, Burlington and Quincy advanced [illegible] to [illegible] and Sugar preferred up 1½ to [illegible]. The common stock was also very strong, advancing 1½ to [illegible]. General Electric came out ¾ of 1 per cent better at [illegible]. There was considerable activity during the first hour, and there was liberal trading done. Prices fell off somewhat at the close upon the realizing of the holders who were satisfied with profits and did not care to carry stocks over until Monday. The favorable bank statement was what had been expected, and shows that the business are receiving new circulation.

Atchison was steady, weak at [illegible]. Chicago, Burlington and Quincy fell to [illegible], and New York and New England at [illegible]. Sugar common advanced to [illegible] and then became dull and declined to [illegible]. The preferred stock sold around [illegible], with little change until the close, when it fell to [illegible]. General Electric was dull after the spurt at the opening and closed at [illegible], a decrease of 1½. The following table will show the fluctuations during the day: Atchison advanced ¼, Chicago, Burlington and Quincy no change, New York and New England advanced ¼, Sugar preferred advanced 1, Sugar common advanced ¼, General Electric declined [illegible], Union Pacific advanced [illegible].

ELECTRIC SPARKS.

Insomnia has been successfully treated by electricity.

Work will shortly be commenced on the transafrican telegraph.

A direct telegraph cable line between Australia and Canada is expected to be completed in two years.

At the congress of electricians in Chicago the ocean telephone from Europe to America was suggested as one of the possibilities.

Electric traction is becoming common throughout Italy. The most recent tramway to be opened for traffic runs between Milan and Monza, a distance of 10 miles.

The Westinghouse company has perfected a dynamo which automatically produces just the amount of current needed for any number of lights within the capacity of the machine.

WOMEN WE HEAR OF.

Mrs. Paran Stevens is called the best natured woman in New York society.

Mrs. P. T. Barnum is one of the most accomplished amateur banjoists in this country.

Miss Helen M. Gould is accomplished in the art of swimming. She can shoot through 34 feet of water with one stroke of her arms.

Mrs. Cornelius Vanderbilt uses a profusion of red Malmaison roses in her boudoir and carries orchids when she carries any flowers at all.

Mrs. Dahlgren, nee Lucy Drexel, has a number of beautiful harps. One, which cost $1,500, is probably as fine an instrument as there is in this country.

Mrs. Fernando Yznaga of New York is as blond as a French doll. Her face is "faultily faultless" and its coloring like a picture by Greuze. She is tall and slender.

Miss Eva Lovering Shorey, the president of the Women's Aid societies of Maine, is only 21 years old. She is also the business editor of the Bridgton News, published by her father.

Miss Cynthia D. Rockwell, a teacher at Good Will mission in South Dakota, has followed Miss Goodale's example and married one of the Indians in her school. His name is Richard King.

Miss Lillian Morritt, an English phenomenon, has the power of retaining in her memory hundreds of complex figures, and of multiplying, deducting and adding at the same time any of the cross figures.

Miss Hattie Blaine, the youngest and prettiest daughter of the late ex-secretary, is an intrepid canoeist, and her skill as displayed at Bar Harbor the last few summers has been admired by many spectators.

Miss Annie M. Robbins is a member of the board of civil service examiners in Boston, and in that capacity passes upon the papers of any stenographer who applies for a position under the city or state government.

Mrs. Albert Baker, an English elocutionist, is said to know as many pieces as there are days in the year. She imitates many voices of nature, from the trill of the canary to "the awe inspiring howl of the hurricane."

The oldest "old lady" in England is an old maid. Her name is Polly Thompson, and she is an inmate of Chamberwell workhouse. She has recently celebrated her one hundred and seventh birthday and is hale and hearty.

Lady Wilde wears much fine old lace and some rare jewels and always receives in a darkened room. The warmth of her welcome is enhanced by the power to greet each guest—French, Spanish, Italian, Rus-

ELECTRIC TRACTION.

THE HYDRAULIC PRINCIPLE APPLIED TO ELECTRICITY.

How the Trolley Works—A Continuous Current That May Be Tapped at Any Point, Like a Water Main, Supplies the Motive Power For Thousands of Cars.

"Within a very few years," said President Lewis of the Brooklyn City Railroad company, "horse cars will be things of the past. All the big cities have adopted or are experimenting with cable or electric cars, and there is no likelihood of a return to the old system. The popular prejudice against the trolley is dying out, and as its cleanliness and superior accommodation and facilities are appreciated there will be an irresistible demand for its introduction. There was a great outcry against it at first, principally because of the universal ignorance of electricity and dread of its application. Now that it has been practically demonstrated that travel on the trolley car is no more dangerous than in the horse car people are beginning to forget that they know absolutely nothing of the power by which they are carried nor of the manner in which that force is applied."

"Those are just the points The Eagle desires to explain to its readers."

"I cannot explain them. I am satisfied to accept the general result and to leave the intricacies of the system to the electricians and engineers."

The reporter found M. J. Starrett, the chief electrician of the Brooklyn City Railway company, in his office and propounded to him the questions that had floored President Lewis.

"The points are difficult to explain," said Mr. Starrett, "because of their simplicity yet comprehensibility. But I will try what I can do. You must keep in your mind's eye a picture of the tracks on which the car travels and the single wire above, which is connected with the car by the trolley pole. Then you must remember that under certain pressure electricity will flow through a wire the same as water will flow through a pipe. Electricity is generated by machinery at the power stations of the car companies and stored as water is stored in the reservoirs and is conducted through the wires by pressure as the water is conducted through the mains. The electricity forced through the wires is never expended as long as the pressure is kept up at the power station. It is drawn upon and does its work, returning to the power station through the rails and return wires laid under the tracks.

"In the same manner the water of an ornamental fountain spurts through tubes and falls to its reservoir to be spurted up and fall again ad infinitum. The big wires running alongside the car tracks are reservoirs of electricity—feeders, as it were, to the single trolley wire. These are carefully insulated except at the points of contact with the conducting feeders. The small wire could not contain the amount of electricity needed any more than a two inch pipe could carry more than two inches of water. That current of electricity is the propelling force of the trolley cars.

"Above each car is a pole. At the upper end of the pole is a metal wheel. The pole itself is made of hollow steel, because steel, a good conductor, is lighter and has more spring than any other material yet discovered. Wood, with a wire run through the center, would serve the same purpose, but would not be as cheap or as durable. The base of the trolley pole is joined to suitable wiring that, concealed in the woodwork of the car, connects beneath the car with the controlling devices that operate the wheels. There are four of these devices, and others are being invented and experimented with frequently.

"Two of these devices are for cutting off the current, and the others are for braking the wheels. The conductor of the car can also shut off the current by disconnecting the trolley pole from the overhead wire. With the devices under the car in operating order the current reaches the motor. There, under the manipulation of the motorman, it does its work in causing a shaft geared to the axles to revolve. The motor applying the pressure force to the electricity that reaches it from the overhead wire acts as a counterpart of the generator at the power station. The power there for the first time becomes mechanical and not electrical. The majority of the motors are of 25 horsepower each, and there are two to each car."

"Is there no danger of any accident from the uninsulated wire?" asked the reporter.

"None whatever. An accident is, to all intents and purposes, impossible. A sparrow resting on the wire would neither interrupt the current nor suffer from the contact. A man might climb to the wire and swing on it, and unless his feet touched the rails or rested on a piece of iron he would not feel the slightest shock. If he stood on a ladder with wooden rungs, it would be the same. If the wheels of a car were lifted from the tracks, the circuit would be cut and the trolley pole could not draw electricity from the wire. If a car should run off the track only an inch, it would stop for want of a propelling power. Stones are not conductors, and stones are laid between and outside all electric car tracks. The comparatively few accidents that have occurred since the development of the system are in no way to be attributed to electricity."

When the trolley system is fully developed on the 200 miles of streets controlled by the Brooklyn City company, electrical power will be supplied from three stations, each station independent of the other and furnishing a current for its own division only.—Brooklyn Eagle.

Not a Good Example.

Mrs. Nagger (to servant)—I hear you're going to be married, Jane, so I suppose you will want to leave?

Servant—No, mum, I've broken it off. After seeing the life that you and master lead, I've decided never to marry, mum.—Tit-Bits.

Devotion.

"I've kept your letters, dear," she said,
And bright with joy his face.
She quoth, "They're sweet and make a lovely
Bunch of promise case."

NORWICH AND VICINITY.

CITY NEWS.

Entrance examinations at the Academy at 9 o'clock this morning.

Supernumerary Policeman Frank E. Brown did duty at Thamesville Sunday.

The Champions of the West Side would like to cross bats with the Neptunes today or tomorrow.

The Watch Hill orchestra—Messrs. H. T. Miller, J. L. Huntington and John Kukla—have returned to this city.

A party of three Norwich gentlemen netted 300 crabs in Horton's cove Sunday, probably the largest catch of the season.

Eight offenders were behind the bars at police headquarters last night, held for petty crimes for the city court this morning.

Officer John W. Norris is confined to the house by sickness and Supernumerary Timothy Knowlton is pacing the West Side beat.

Grass fifty yards from the salt water was so saturated with salt at Mystic by the recent storm that it has since shown no signs of life.

The regular morning and afternoon sessions of Sunday school in St. Patrick's church were resumed yesterday, after the usual summer recess.

Send the clerk of the superior court your trial list for the September civil session, Hamersley, judge, not later than Wednesday, September 13.

Mrs. A. W. Nelson of New London, wife of Dr. Nelson, committed suicide Saturday morning by taking a dose of carbolic acid while temporarily insane.

The Eighteenth regiment, Connecticut Volunteers, in photograph, are on exhibition in Yerrington's window. The picture was taken at the recent reunion at Quinebaug lake.

"Steeple Charley" is at work at the Hartford high school building, painting the flag pole, regilding the weather vane and the letters on the face of the clock and making other repairs in his line.

Dr. McClelland says the epidemic of diphtheria on Fisher's Island started from a sick child brought upon the island, and did not originate there. There were thirty-five cases in all on the island and four deaths.

The many friends of Mr. Joseph C. Bland, late night clerk at the Wauregan house, will be glad to learn that recent letters received from him in Ireland were couched in hopeful language. He is regaining health and spirits rapidly.

John Sullivan was arrested while engaged in a drunken brawl near Potter's coal yard on the West Side by Officers Henderson and Knowlton Saturday night. Sunday his wife was detected smuggling a bottle of whisky into his cell.

An average of five hundred tons of stone per day is now being delivered at the Point Judith breakwater. As yet the structure has not been brought to the surface of the water; but the foundation is being supplied for several hundred feet of the work.

The steamer Block Island made her annual officers' excursion to Middletown Saturday, carrying 1,200 passengers. Jarvis' military band was on board and made the trip pleasant with brazen harmony. The boat arrived home at 11 30 o'clock. The Middletown Herald, catching a glimpse of the swarms of young ladies from New London who enjoyed the trip, was moved to remark that "Norwich must have left the pretty girls at home."

Public Quarterly Y. M. C. A. Meeting.

The Ladies' Auxiliary of the Young Men's Christian association will hold their public quarterly meeting in the association rooms on Tuesday afternoon, at 3 30 o'clock. All ladies who are interested in the work are cordially invited.

No Prosecution.

The case against Charles H. Babcock of R. I., charged with blowing up the barn of Lucius D. Brown of North Stonington several months ago, has been dropped. Babcock, it will be remembered, was charged with the crime for revenge in being cheated in a horse trade.

Licensed in Secret.

A Connecticut press dispatch says: "It was announced in Mystic Friday that the county commissioners had very quietly granted a license to sell liquor to Mason P. Gray, a druggist, who is notorious for his violation of the liquor law. An effort will probably be made to have it revoked."

The Bleachery Starts Up Today.

Work has been completed by Contractor F. B. Durfey on the excavation in the Greeneville canal and the gates were opened Sunday. The bleachery will begin running in every department today with 500 employes.

Funeral of Dr. Leffingwell.

The funeral of Dr. Leffingwell Sunday was attended by seventy-five members of Sedgwick Post No. 1, G. A. R. There was prayer at his late home at 12.30 o'clock, followed by service in the Leffingwelltown church half an hour later. The Rev. C. N. Nichols officiated, assisted by the Rev. R. R. Bartlett. The bearers were Veterans S. R. Knapp, George Kampf, Ira Wood, H. M. Durfey, Joseph Tucker and G. L. Roath.

The sepulture was in Leffingwelltown, where the remains were laid to rest with the impressive G. R. A. ritual read by Commander Palmer and Chaplain Silcox.

Contract Between Insurance Companies.

A contract has been entered into between the People's Industrial Insurance company and the Metropolitan Life Insurance company of New York, by which the latter agrees to assume all the contracts and policies of the former organization. In order to fully protect its policy holders the People's Industrial company has delegated its obligations to the largest and most responsible company in the United States.

Mr. Arthur M. Abell's Concert.

Arthur M. Abell, the well-known violinist, gives a concert at the Meriden opera house tonight. The violin that Mr. Abell will use was made by Joseph Guarnerius, who next to Stradivarius is considered the greatest violin maker that ever lived. Good judges say that the instrument, which Mr. Abell procured from a musician in straightened circumstances, is worth $3,000. It has a round tone of that sweet singing quality peculiar to the old Italian instruments.

Death of Mrs. Enoch F. Chapman.

Mrs. Enoch F. Chapman of Laurel Hill avenue died at 10 o'clock Sunday morning of an incurable illness which had repeatedly required surgical treatment and kept her indoors since April last. She came to Norwich from her native town, New Bedford, when quite young and had been an esteemed resident since. She was a member of the Central Baptist church and when her health permitted, was active in religious and benevolent work. Her graces of mind and estimable qualities made her friends legion, who sincerely deplore her death. One son, Mr. William C. Jacobs, survives her.

THE CASTINE'S TRIAL.

Preparations at New London for the Official Test of the Gunboat.

The board of naval inspectors for the trial of the new gunboat Castine is ordered to meet in New London Tuesday. Admiral Belknap being in California, Admiral Walker will be chairman of the board, and his associates will be Captain Matthews, Commander Cooper, Lieut. Hill and Lieut. Reamey. Sunday afternoon the government tug Iwana, which is to take part in the trial, arrived in that harbor, followed shortly afterwards by cruiser Vesuvius.

Dispatch boat Dolphin, with Secretary Herbert on board, who will view the trial, has been at anchor in the lower harbor since Saturday morning.

The Castine is expected today and the navy board this evening. It is expected that a speedy trial will not be made until late in the week. The trial will be over the same course in the sound and under the same conditions as laid down for the recent trial of the Machias.

Election Envelopes Destroyed.

Town Clerk Freeman has burned 10,153 election envelopes for ballots in accordance with the direction of the state department.

It is said that the reason for the change in envelopes this fall was caused by some parties having surreptitiously obtained envelopes for illegal purposes at the last election. One such envelope would open the way for a good deal of fraud.

The bought voter could carry out the envelope given him by the clerk of the polls and deposited in the box his prepared and boughten vote. The other he could give to the dealer in votes and the thing go on indefinitely. Thus all the benefits of the Australian law could be null and void. To guard against this a new lot of different colored envelopes will be used.

Resolutions of Respect.

At a meeting of the General Burnside council No. 88, O. U. A. M., at their council chamber last evening, the following resolutions of respect were adopted:

Whereas, It has pleased the Great Father above to remove from our midst our beloved brother, Brother Edward L. Chappell, who has passed from the council below to the Great Council above. Therefore be it

Resolved, That we bow in humble submission to the will of Him who doeth all things well and whose ways are past finding out; and that we extend to his family our deepest sympathy in this their great affliction. And

Resolved, that by the death of our brother we lose the valuable services of one who was always ready and willing to work for the good of the Order of United American Mechanics; and be it further

Resolved, That a copy of these resolutions be forwarded to the family of our deceased brother and that they be spread on the records of this council and that the charter be draped for thirty days.

F. W. NICHOLS,
ALLEN G. MATTHEWS, } Committee.
ALONZO A. SMITH.

Personals.

Mrs. J. S. Tyler with her children, of Glastonbury, and her sister, Mrs. Elmer Tuller of Waterville, are visiting Mrs. Andrew Hyde of Norwich.

Miss Annie Balls of London, Eng., is paying her brother on Central avenue a six weeks' visit.

Miss Grace E. Eldredge has accepted the position of teacher in the senior department of the Hanover school and will commence her duties there Monday.

Thurston B. Barber and wife of Plain Hill have returned from a tour to Washington, the World's Fair and Niagara Falls.

Mr. Ralph Carleton of the Harvard Medical school is finishing his vacation in town]

Miss Mary T. Almy will spend the coming year as a student of history in the University of Chicago.

Mr. W. W. Collins, the Thames street manufacturer, has so far recovered from his recent accident as to be out to business again.

Dr. William Witter and wife and Miss Witter left on the steamer City of New York Sunday night en route to Chicago. Their vacation trip will occupy about three weeks.

Mr. L. P. Le Jeune of Providence was a member of the Central Baptist choir Sunday morning.

The Rev. George A. Pentecost was the guest last week of E. N. Gibbs and family.

Mrs. Wm. H. Wilson, formerly of Barre, Mass., and Mrs. F. B. Holmes of Chicago, left this city Saturday morning for the White City, where Mrs. Wilson will visit the World's fair and the home of Mrs. Holmes for a few days and then she journeys on to Winnemucca, Nev., to join her husband, who has recently located there, and which will be their future home.

ALLEGED THIEF IN CUSTODY.

Constable Curran Captures the Supposed Mystic Post Office Burglar.

Constable John E. Curran, of Westerly, has captured the man who is supposed to have burglarized the Mystic post office, Thursday night.

The name of the alleged criminal is Hiram Green, who makes his home at what is known as the Charles Rhodes' farm, just beyond Hinckley Hill, on the Mystic road, about two miles from the Westerly post office.

Officer Curran was notified of the burglary, and requested to use his skill in ferreting out the criminal. He learned, Friday noon, that Green had been offering postage stamps for sale. This fact aroused his suspicion.

He at once put the man under surveillance, and after watching his movements until about 6 o'clock in the afternoon he decided that he was the man wanted, and accordingly took him into custody. His search was amply rewarded, for he found on the person of the arrested man several articles taken from the post office at the time of the burglary; notably, an oil cup, comb, brush and wrench. Also a collection of postage stamps of the five cent denomination.

The man arrested is said to have a criminal record covering service in the state prisons of New York, Connecticut and Rhode Island.

LETTERS FROM THE PEOPLE.

The Bulletin assumes no responsibility for communications printed under the above heading. No attention will be paid to anonymous letters.

A Chance to Help the Suffering.

Many people who have read of the suffering caused by the cyclone and flood in the vicinity of Beaufort, S. C., would doubtless be glad to contribute something for the relief of those who are destitute and homeless. An opportunity is offered them to join in sending a box of substantial clothing, new and second hand, with flannel, calico, unbleached muslin and shoes. Contributions of goods or money, marked "Beaufort Sufferers," may be sent to No. 9 Washington street, lower door, on or before Wednesday, Sept. 13.

AUTUMN CHAT.

Mornings and evenings are quite chilly of late—a sure indication that Fall is near at hand.
Well, let it come.
We're all ready. Any time you are come and see us.
In the meantime what have we been doing for those who choose our store to deal in?
This much we have done, and done well.
From the best markets in Europe we have selected the choicest line of Dress Fabrics that we have ever shown.
Our earnest endeavor has always been to collect only trustworthy goods direct from the actual producers wherever they may be and to sell them for the lowest possible prices.
Faithful adherence to this principle has helped us to increase our business many fold—this is particularly true of our dress goods business.
Competent critics—by competent critics we mean persons who show their good taste by being always appropriately garbed—who have already looked through our line say that without any qualification that "it is the choicest line of dress fabrics they have ever seen in Norwich."
It contains everything that is fashionable and desirable for women and children's wear for Fall.
We invite the ladies to visit our store and examine our stock. We will be pleased to show every visitor our entire line whether or not they intend buying.
This invitation holds good for today, tomorrow and every day our store is open.

And now a word about Fall and Winter Underwear.
It is here and ready to be sold—a full line of Fall and Winter Underwear.
We have all grades of Men's, Women's and Children's Ribbed and Flat Underwear—all Cotton, Mixed Cotton and Wool, Pure Wool.
In White, Natural, Camel's Hair and Medicated Scarlet.
Infants' Underwear is a specialty with us.
If you want the best value to be had in Men's, Women's and Children's Underwear, buy "Agawam" Underwear.
We have it in all styles and qualities.
"Agawam" is destined to be a household word with all who wear Underwear.

THE PARLIAMENT OF RELIGIONS.

Christians and Buddhists, Greeks and Deists Assemble.

A NOTABLE PROCESSION.

Peace on Earth and Good Will Toward Man.

CHICAGO, Sept. 11.—What will go down into history as the most remarkable of the great series of world's congresses that have been held in Chicago this year was inaugurated today in the presence of an audience that filled the hall of Columbus to overflowing. It was the world's first parliament of religions, a series of union meetings held with the object of uniting all religions against all irreligion, and of presenting to the world the substantiality of many religions in the common aim of religious life.

Upon the platform and in the body of the hall, Christians sat next to Buddhists, Brahmins beside Greeks, followers of Confucius with the high priests of Theosophy, and Deists from Bombay and Calcutta with the primates of the Catholic church in the new land. For seventeen days the parliament will be in session, and during this period each denomination will occupy the time assigned to it in setting forth the principles of the faith it holds and the service it has rendered to mankind. There will be no controversy or comparisons. Peace on earth and good will toward man will be the ruling principle. Denominational differences will be forgotten, and each participating body will confine itself to affirming its own faith and achievements.

It was a few minutes after ten o'clock when the throwing open of the doors of the hall announced to the great audience that the procession was about to enter. Instinctively all present rose to their feet. The procession was a notable one. President Bonney led the way. Then came Cardinal Gibbons and the Rev. Dr. J. H. Barrows of this city, Archbishop Feehan and the archbishop of Zante, Greece, President Higinbotham of the World's fair, Archbishop Redwood of New Zealand, and two hundred other men from every land, who have made themselves famous in the fields of theology and Christianity.

The audience cheered to the echo, as these distinguished persons stepped slowly down the aisle. When all had been seated Cardinal Gibbons delivered a fervent invocation, the audience remaining standing.

Addresses of welcome were then delivered by the Rev. Dr. Barrows, the Rev. Augusta Chapin, Archbishop Feehan and several others, and responses were made by most of those previously named as participating in the procession.

The various congresses organized this afternoon will commence work tomorrow morning.

TRIALS FOR SPEED.

Zimmerman Makes a Mile with Flying Start in 2 01 3-5.

SPRINGFIELD, Mass., Sept. 11.—A. A. Zimmerman with Rhoades and L. S. Meintjes made trials for speed on Hampden park today and the latter lowered the 3 4 and 5 mile figures.

Zimmerman made a mile with a flying start in 2 01 3-5, a second faster than the record, but will not ask to have it stand because he was paced by a professional. The quarter was in 30 2 5, half 1 2 5, three-quarters 1 31 3 5. Meintjes then made three miles in 6.0 4-5, four miles in 8 07 2 5 and five miles in 11.09 2-5. The records for the distances were 7.04 3 5, 9 38 2 5 and 11 41 made by Windle on Hampden park Sept. 30, 1892. His first mile was 2.19 3 5, and the two miles in 4 21. Rhoades failed to lower the two mile record.

"NOT GUILTY," SAYS EMMA.

Miss Goldman, Indicted for Inciting to Riot, in Court.

NEW YORK, Sept. 11.—Emma Goldman, who has been indicted for inciting to riot, pleaded not guilty before Judge Fitzgerald in part 1 of the general sessions this morning.

She refused counsel and said she would defend herself.

She was committed to the Tombs without bail.

It is reported that Justus Schwab will offer himself as bondsman for Emma Goldman this afternoon.

An Off Day of the Washington Park Trots

CHICAGO, Sept. 11.—This was an off day of the Washington park trots. Answer won the final heat today of the unfinished 2 20 class race of Saturday, in better time than any of the preceding heats.

Nyanza, the favorite, won the stake for 4 year olds, losing a heat to Tyranus, the latter being distanced in the second. Margrave, the choice of the electric stake, finished last in the first heat. In the next he was distanced, Wilkes Maid winning the race handily.

Alhambra, second choice for the three minute-class, took the first in 2 16¼ and shut out all but Charlie C, the latter just saving his distance.

The 2 28 class went to Aurora Prince, the favorite, in straight heats.

Diamond Joe won the 2 27 class, being second in a heat that was given to him because of Carillas' break.

Lulu S trotted against 2 40 and made it in 2 38¾. Flora trotted against 2 45 and made it in 2 40. Charlemagne went against 2 36 and secured a record of 2 37½.

Mayor Sargent's Scheme.

NEW HAVEN, Conn., Sept. 11.—The scheme of Mayor Sargent to bond the city to pay five per cent. interest on a bond of $100,000 borrowed from private individuals, is meeting with marked success. Amounts are being received from private individuals at the rate of $3,000 per day. In the two weeks since the proposition was first advanced by the mayor, $66,000 has been secured, leaving $34,000 to be raised.

Claims Against the Late Gen. B. F. Butler.

NEW YORK, Sept. 11.—An echo of the claims against the late Benjamin F. Butler by John H. Lester for acts done by the former during the war, came up today in a judgment by Judge Lacombe in the United States circuit court against the United States government, in which Lawyer Charles D. Miller is awarded $800. Miller was employed by the attorney general to defend Butler, for which he was promised $2,000. He got but $1,200 and sued for the remaining $800, which Judge Lacombe holds he is entitled to.

A Receiver Wanted.

DETROIT, Mich., Sept. 11.—In the United States court here this morning a receiver was applied for for the Detroit, Bay City & Alpena railroad, on the ground that the road is insolvent. The court took the case under advisement.

THE $500 GOLD CUP

Held by Yacht Britannia—Navahoe Beaten in Monday's Race.

RYDE (Isle of Wight), Sept. 11.—The third race for the international gold cup, which was to have taken place on Friday, but was postponed on account of the weather and an accident to the Navahoe, was sailed today. The course extended from a point north of Ryde, east to the Nab lightship, thence back past Ryde by way of the Spit buoy, off South Sea castle, round a mark boat off Old Castle point and back to the starting point. The course was covered twice; distance in all about sixty miles.

A strong wind was blowing from the southeast at 11.05 when the yachts Britannia and Navahoe crossed the line together, the Britannia being to windward. With their mainsails reefed and their small jibs hauled, the yachts kept together all the way out to Nab lightship. As they came abreast the lightship there was no difference of time between them. The Britannia had the inside position. With the lee tide the Britannia then showed her best point, which is going to windward. When hardly round the lightship she led the Navahoe by nine minutes. Both had their sheets hauled tight as they stood over to South Sea castle.

As the vessels passed Ryde pier on their way from Nab lightship to the mark boat off Old Castle Point, the Britannia was leading by 24 minutes and 18 seconds. The wind was abeam and both were under plain sails. Between Ryde and the mark boat, off Old Castle Point both yachts set their spinnakers and the Navahoe gained. The Britannia rounded the mark boat 1 12, 06 o'clock, the Navahoe 1.21, 21.

From the mark boat to Ryde, the Britannia again drew away from the Navahoe and she finished the first round 17 minutes in the lead. On beating out to the Nab lightship, the second time the Navahoe set her large jib. She rounded the lightship only 14 minutes behind the Britannia. On the following run for Old Castle Point, the Britannia gained but five seconds, rounding the mark boat at 4 05, 50, while the Navahoe's time was 4 19 53. In the stretch back to Ryde the Britannia gained and finished at 4 26,17, the Navahoe at 4 44,25.

The wind was strong throughout the race. In the last round it shifted and blew hard from the northeast.

The Britannia, as winner of the first three races out of the five provided for in the conditions made by the Victoria Yacht club, now holds the $500 gold cup without need of further contest.

The races for the Cape May and Brenton reef cups, carried away from America by the Genesta in 1885, will be sailed tomorrow and Wednesday. The course, about 120 miles long, will be from the Needles, round the breakwater and back to the Needles. Lord Dunraven has decided to take with him to New York, the crews of L'Esperance and Dierdre as a reserve from which to recruit the Valkyrie's crew in case of illness or accident.

Burglary and Incendiarism at Scotland Conn.

WILLIMANTIC, Conn., Sept. 11.—When Mrs. Henry Geer of Scotland returned home Saturday from a visit to her brother, George Carey, in Hampton, she found the bedstead and furniture in her chamber burned completely. Burned matches were strewn in every room, and it is a wonder that the house was not destroyed. The thieves had rifled the drawers and tablecloths, napkins and clothing, but did not disturb some valuable solid silverware. The house was probably robbed a week ago.

Ansonia Foundryman Crushed.

ANSONIA, Conn., Sept. 11.—John H. Healy, working in the Farrell foundry, was crushed under a chill roll weighing 1,600 pounds this morning. The roll slipped as it was being lifted and Healy fell into the pit several feet deep, the roll falling on top of him. His left foot was crushed, his right ankle bruised, and his left arm badly hurt. He was taken to the New Haven hospital where his left foot was amputated this morning.

The Alford Mansion Burned at West Simsbury.

HARTFORD, Conn., Sept. 11.—Sunday, while the family were at church, the house, "Emerson Alford place," occupied by Frank J. Alford, in West Simsbury, above Farms Village, and near North Canton, took fire accidentally, and was destroyed, with all its contents. The loss may be $5 000; insured by the Hartford County Mutual in three companies for $3,500 in all.

Hunting Accident at Lyme.

LYME, Conn., Sept. 11.—While shooting rail on the river Saturday John Peterson, one of a party from Philadelphia, was accidentally wounded by a gun in the hands of Charles D. Houghton. The charge entered Peterson's right leg just below the knee, making a horrible wound. The injured man was made comfortable by Dr. Pelton, one of the party, and later was removed to a New York hospital. Peterson may lose his leg, the doctors say.

Midsummer Heat in the Northwest.

ST PAUL, Minn., Sept. 11.—Reports from many points in Minnesota and the Dakotas indicate that yesterday was the hottest day of 1893. In St. Paul the highest temperature was reached at 3 o'clock, when the register indicated 94°. At Mankato the mercury ran up to 99° in the shade; and at several points along the railroad border it was more than 100°. There has been no rain in western Minnesota during the past six weeks, and many of the small streams have run dry.

Death of the Widow of Banker Ketchum.

WESTPORT, Conn., Sept. 11.—Mrs. Maurice Ketchum died at her residence here, On Hockanum, the old Ketchum mansion, this afternoon, after a comparatively brief illness. Deceased was the widow of the late Maurice Ketchum, the banker and several times millionaire, who lost most of his enormous fortune on "Black Friday" and died shortly afterwards from the shock, comparatively a poor man. The Ketchums are an old New York family, but have lived here summers for many years.

Spokane's Exposition Building Burned.

SPOKANE, Wash., Sept. 11.—The Spokane exposition building, erected in 1890 at a cost of $100 000, was destroyed by fire last night. No insurance. Tramps had been for some time past sleeping in the building, and it is supposed that they carelessly set fire to it.

A Head-on Collision.

ATLANTIC CITY, N. J., Sept. 11.—A head-on collision occurred this morning on the New Jersey and Camden branch road. The local passenger train and a passenger train from Philadelphia collided at the depot. There were fifty passengers on each train, all of whom were badly shaken up. None were seriously injured. Conductor Curtis was hurt. The accident was caused by the carelessness of a switchman leaving a switch open.

THE CHINESE LABORER.

Text of a Bill Introduced by Representative Everett,

TO AMEND AN ACT.

Prohibiting the Coming of Chinese Persons to the United States.

WASHINGTON, Sept 11.—The following is the full text of the bill introduced in the house Saturday by Representative Everett of Massachusetts:

A bill to amend an act entitled "An act to prohibit the coming of Chinese persons into the United States, approved May 5, 1892."

Be it enacted, etc., That section six of an act entitled "An act to prohibit the coming of Chinese persons into the United States, approved May 5, 1892," is hereby amended so as to read as follows:

Section 6. And it shall be the duty of all Chinese laborers within the limits of the United States at the time of the passage of this act, and who are entitled to remain in the United States, to apply to the collector of internal revenue of their respective districts, on or before the first day of September, 1894, for a certificate of residence, and any Chinese laborer within the limits of the United States who shall neglect, fail, or refuse to comply with the provision of this act, or who after said first day of September, 1894 shall be found within the jurisdiction of the United States without such certificate of residence, shall be deemed and adjudged to be unlawfully within the United States, and may be arrested by any United States customs official, collector of internal revenue, United States marshal or his deputies, and taken before a United States judge, whose duty it shall be to order that he be deported from the United States, as heretofore provided, unless he shall establish clearly to the satisfaction of said judge that by reason of sickness or accident or other cause, that he has been unable to procure his certificate and to the satisfaction of the court, and by at least one credible white witness that he was a resident of the United States at the time of the passage of this act, and if upon the hearing it shall appear that he is so entitled to a certificate, it shall be granted upon his paying the cost.

Should it appear that said Chinaman had procured a certificate which had been lost or destroyed, he shall be detained and judgment suspended a reasonable time to enable him to procure a duplicate from the officer granting it, and in such cases the cost of said arrest and trial shall be in the discretion of the court. And any Chinese person, other than a Chinese laborer, having a right to remain in the United States, desiring such certificate, as evidence of such right, may apply for and receive the same, without charge.

Section 2 That no proceeding for a violation of the provisions of said section six of said act of May 5, 1892, as originally enacted, shall hereafter be instituted, and all the proceedings for said violation now pending are hereby discontinued.

IN CONGRESS.

The Senate.

WASHINGTON, Sept. 11.—In the senate this morning the subject of the Chinese exclusion act was brought up by the presentation of a remonstrance from the Methodist Episcopal church of Oregon and by a bill prepared by the Rev. Mr. Gives, a missionary from China.

Mr. Dolph of Oregon, who presented the remonstrance, said that the statements made in it showed the ignorance of the conference as to the requirements of the Geary act, and Mr Hoar, who introduced Mr. Green's bill, said that he did not concur in its provisions because it gave approval to the Geary act.

The bill was referred to the committee on foreign relations.

A resolution was offered by Mr. Stewart of Nevada for a special committee to inquire into whether any senator is a stockholder in national banks or directly or indirectly interested in them.

The resolution was earnestly opposed by Mr. Hill of New York as uncalled for and unnecessary, and as a reflection on the senate.

Mr. Stewart was about to reply to Mr. Hill, when objection to the resolution was made by Mr. Hawley of Connecticut, and the resolution went over till tomorrow, Mr. Stewart telling Mr. Hawley that he would then discuss it.

The repeal bill was then taken up, and after a legislative session the senate adjourned.

The House.

In the house, today, Mr. Murray (rep. of South Carolina) sought to secure immediate consideration of a resolution appropriating $200,000 for the relief of cyclone sufferers in the south; but Mr. Kilgore (dem. of Texas) objected and it went to the committee on appropriations.

After transacting some routine business, the house at 12 40 adjourned.

Nearly Every Druggist Indicted.

AUGUSTA, Me., Sept. 11.—Nearly every druggist in Augusta, Hallowell and Gardiner is indicted for violation of the liquor laws, there being but one or two exceptions in Augusta.

Can Examine Cordage Books.

JERSEY CITY, N. J., Sept. 11.—Chancellor McGill this morning gave permission to the creditors of the National Cordage company to examine the books of the concern, but the order will not take effect until Oct. 1.

Over a Precipice.

PROVIDENCE, R. I., Sept. 11.—Rosa McNoy, 22 years old, was found unconscious at the base of a thirty-foot ledge last night. One leg was fractured and she was suffering from other injuries. She is at the hospital in a precarious condition. It is not known how she came where she was found.

The Valkyrie Not Yet Reported.

NEW YORK, Sept. 11.—The sails of Lord Dunraven's yacht, Valkyrie, were brought here today on the steamer Berlin. The Valkyrie has now been out nineteen days and has not yet been reported by any vessel.

Repudiates the Irish "Manifesto."

CHICAGO, Sept. 11.—M. V. Gannon, president of the Irish National league of America, is in the city. He says the alleged manifesto sent out from New York city Sunday night never came from the executive committee of the league. He repudiates it altogether.

For over forty years a huge wooden hand, gilded, has adorned the roof of the Presbyterian church at Maysville, Ky. It was meant to point the way to heaven.

The Chinese pay smaller taxes than the citizens of any other civilized nation.

Hedfield Crowther's Case Puzzles the Doctors.

FALL RIVER, Mass., Sept. 11.—Hedfield Crowther, the lessee of "Bellevue Gardens," is suffering from a malady that is puzzling the doctors. Two weeks ago last night he arrived home from a visit up town, and since that time he has been trembling all over and breathing in gasps. He is quite helpless, although he can speak, and at times understands all that is said. He has a fair appetite, but is allowed nothing but soups and similar foods. His hands are very pale, and his nails have turned blue, but his face has every indication of perfect health.

Three of the best physicians in the city are in daily attendance, and they think he has been poisoned or drugged. He is unable to recall where he was previous to his arrival home.

A New Haven Man Makes Restitution.

NEW HAVEN, Conn., Sept. 11.—Allan Seaman of Ferry street, a wholesale provision dealer, has transferred a portion of his business valued at $5,000, to Sperry & Barnes, wholesale pork packers, of this city, to remunerate them for losses they sustained by a conspiracy in which Seaman was the chief.

Seaman's method was to buy stock from two dishonest shipping clerks in Sperry & Barnes' establishment. The clerks stole the stock and sold it to him at reduced prices. Seaman is prominent in church and society circles.

A Wonderful Scene—Hawaii's Fountain of Fire.

VANCOUVER, B. C., Sept. 11.—The steamship Warrimoo, from Honolulu, brought the following advices, dated August 31:

The volcano was in splendid activity last week. There were two days of violent ebullitions, and fountains, with constant overflows of the ten-acre lake. Powell, chief of public works, had a narrow escape from being caught in an overflow on the 27th. The lake rose in a high tide of fire, carried away the whole of its parapet wall and filled the entire circuit of Halemaumau pit with an unbroken sheet of surging lava 100 acres in extent. A smart shock of earthquake was felt at the same time.

Bridgeport Brass Workers Strike.

BRIDGEPORT, Conn., Sept. 11.—About 50 employes of the finishing department of the Bridgeport Brass company went on a strike today, most of them being girls and youths. They have been working three days a week, and the company made a proposition this morning that they accept a slight cut and be given six days' work each week. They earned about $1 12 a day, and by the cut would make about $1 per day. As there are no orders, the department will remain closed unless the employes accept.

Confederate Veterans' Reunion.

NEW ORLEANS, Sept. 11.—The general commanding the United Confederate Veterans has issued an order fixing Monday and Tuesday, October 3 and 4, as the dates for holding the reunion at Birmingham, Ala., and October 7 as the date of the unveiling of the confederate monument at Chicago. At Chicago, W. C. P. Breckinridge of Kentucky will be the orator of the day, and General J. B. Gordon of Georgia will preside on the occasion as commander-in-chief of the United Confederate Veterans.

Arrested on Suspicion.

BRIDGEPORT, Conn., Sept. 11.—The police this afternoon arrested Thomas C. Platt, aged 30, upon suspicion of having caused the death of Patrick Corrigan, a lineman on the Southern New England Telephone company. Corrigan died in the hospital yesterday of a fractured skull received in a fight about two weeks ago. He came here from Willimantic, where he has two sisters. Clark admits having a fight with a man on the night Corrigan was brutally treated, but the police doubt whether he is the one who so brutally beat Corrigan.

The Vigilant Will Be Selected

SANDY HOOK, N. J., Sept. 11.—The Vigilant won today's race by six minutes and nine seconds.

The Vigilant has now won two races, Colonia one, Jubilee and Pilgrim none. There is little doubt that the committee will select the Vigilant as America's cup defender without any more trial races.

On on Full Time.

SOUTHINGTON, Conn., Sept. 11.—All the factories of the Peck, Stowe & Wilcox company at Plantsville, East Berlin and this place started up this morning on full time. For a month they have run on half time and last week shut down entirely.

Coal Miners' Strike Inaugurated.

PITTSBURG, Pa., Sept. 11.—The coal miners' strike was inaugurated today and about 4,000 men are idle. The strike is confined to the railroad mines where the order has been issued to reduce wages below the 79 cents per ton rates.

Accepts a Professorship.

NEW HAVEN, Conn., Sept. 11.—Curtis C. Bushnell, Yale '91, left here today to accept a professorship in the Emory and Henry University of Virginia, recently offered him. He taught in the University of Cincinnati last year.

106 Days Without Rain.

BLOOMINGTON, Ill., Sept. 11.—No rain except occasional light showers has fallen in this region since May 27, or for 106 days. This drouth has extended all over central Illinois, and old settlers say that they never knew a drouth to equal it, unless it was in the year 1854. The damage to crops and pastures is incalculable.

Internal Revenue Receipts.

WASHINGTON, Sept. 11.—The receipts from internal revenue were $631,617; from customs $615,739, and miscellaneous $27,136.

The national bank notes received today for redemption amount to $180,966.

800 PENSIONERS SUSPENDED.

New England Veterans Stricken Off the List.

NAMES NOT FURNISHED.

May Be Restored After Investigation Has Been Made.

BOSTON, Sept. 11.—The Journal says: There is consternation today among many survivors of the late unpleasantness.

Every quarter some 58,000 veterans scattered throughout New England receive their money from the Boston office in the federal building. The quarterly disbursements are being made today, and at noon it was given out that 800 pensioners on the New England list had been suspended.

They are stricken off the lists pending an investigation into their cases. If they can satisfy the department at Washington as to the genuineness of their disability they may be restored to the list. The Boston office declines to furnish the names of the men suspended.

THE LATE HAMILTON FISH.

Obsequies at Garrisons, N. Y., Monday Afternoon.

GARRISONS, N. Y., Sept. 11.—This afternoon at 1 o'clock, amid the universal and unaffected sorrow of his neighbors and beloved friends, all that was mortal of the late Hamilton Fish was laid to rest in the cemetery of St. Philip's Church of the Highlands. The Fish family burial plot is situated on a knoll in the northeastern part of the cemetery. The walls of the crypt which received the remains of the late ex secretary were artistically decorated with evergreens, carnations, roses, asters, hollyhocks, geraniums and verbenas. At the head of the crypt is an immense block of granite upon which rests two life-sized bronze statues, one of the late Mrs. Fish and the other of a deceased daughter, Elizabeth Stuyvesant.

The hour for the funeral was set for 12 o'clock, but at least one hour before that time people began to gather in the church yard. Among the first who were assigned to seats in the church were Mrs U. S. Grant, Colonel Fred Grant and Mrs Sartoris.

It was ten minutes after 12 o'clock when the funeral party entered the edifice. Rev. Dr. Thompson, the rector, Dr. Morgan Dix and Bishop Potter met the casket at the entrance to the church, and Bishop Potter recited the customary burial service of the Episcopal church. The choir sang an anthem while the casket was being placed upon a bier in front of the altar.

At the grave Dr. Thompson read the committal service; the choir sang "Nearer, my God to Thee" as the body was being lowered into the crypt, and Bishop Potter pronounced the benediction. The different societies of which the deceased was a member, were represented by George W. Childs, Osgood Welch, Van Rensselaer Cruger and many others.

CHANGING REVENUE TAXES.

Report of the Hon. David A. Wells to Secretary Carlisle.

WASHINGTON, Sept. 11.—The Hon. David A. Wells the tariff reformer, has submitted a long report to Secretary Carlisle in answer to his request for an opinion, as to the expediency, from a strictly revenue point of view, of maintaining or changing the present international revenue taxes on distilled spirits, malt liquors and tobacco.

Mr. Wells conclusions are as follows:

The wisest fiscal policy of the federal government certainly for the immediate future would seem to be to impose the maximum rates of taxation on distilled spirits, fermented liquors and tobacco, that will not create, in face of efficient administration and severe penalties, undue temptations to revenue evasions. In the case of distilled spirits, on which the existing rate under the most favorable conditions of production is always in excess of three hundred per cent. of their first cost, or taxable unit, this line seems to have been absolutely ignored; but as the revenue from the source is increasing in a ratio equal to or in excess of the increase of population, and the amount of illicit production is comparatively small, any change in the present tax would seem inexpedient. In the case of fermented liquors and tobacco, the existing taxes are far below the safe line of expediency, and might be advanced, i. e., to the extent of one per 31 gallons in respect to the former, and in the latter at least to the rates imposed in 1883, with great advantage to our national revenue, and to a greater simplification of our whole fiscal system. The existing customs duties on imports of spirits, fermented liquors and tobacco are exceedingly high and absurdly disproportionate to the corresponding internal revenue tax on the same and can undoubtedly be modified to some extent to the advantage of the revenue.

Mr. Wells estimates that by the changes he proposes the internal revenue from fermented liquors would be increased from $32,000,000 to $64,000,000, and from tobacco from $32,000 000 to $60,000,000. Also that the customs revenues from imported spirits, wines and beer would be increased from $9,000 000 to $10,000,000, and from tobacco from $13,000,000 to $16,000,000. The aggregate receipts, he thus estimates, would be increased from $181,000,000 to $345,000 000.

Cholera Scare at Leghorn.

ROME, Sept. 11.—There has been a severe outbreak of cholera at Leghorn in a dirty quarter of the town. Yesterday 265 cases and seven deaths were reported.

Rhode Island Cotton Mills Reduce Wages.

PROVIDENCE, R. I., Sept. 11.—The cut down in the wages of Rhode Island cotton mill operatives, made inevitable by the action of the Massachusetts mill men, was announced this morning by the Lonsdale company and the firm of B. B. & R. Knight posting notices in their mills that a ten per cent reduction would go into effect September 25. As the action of the firms mentioned decides that of the smaller corporations in this state, they will all doubtless take similar action, and the reduction will be general on the date mentioned.

Accepted a Call to a New Haven Church.

WORCESTER, Mass., Sept. 11.—The Rev. Frederick W. Bailey, for the past two years assistant to the Rev. A. H. Vinton, D. D., rector of All Saints Episcopal church, has accepted the call to the pastorate of the Church of the Ascension at New Haven, Conn. He will assume charge of that parish October 1.

The Norwich Weekly Courier is the best weekly newspaper in New England at 50c a year.

The Rev. Dr. Jewett in Town.

The Rev. Edward H. Jewett, S. T. D., for many years the beloved rector of Trinity Episcopal church, was in town calling on friends Monday. Dr. Jewett's family are still at the beach below New London, but leave soon for New York.

Mrs. Irish Recovering.

The many friends of Mrs. John Irish, wife of the well-known officer, will be glad to know that she is gradually recovering from the effects of the operation performed upon her by Dr. G. R. Harris, and her full restoration to health is assured. She is already able to sit up several hours each day, and before long, it is expected, will be again among her friends who have missed her.

Joseph Baroco's Body Recovered.

A diver Saturday found the body of Joseph Baroco of New London, lashed in the rigging of the smack Empire State, which foundered off Asbury Park in the last hurricane.

The Day says "he was one of the three brothers who went down in the ill-fated craft, and when living ashore resided with a sister on Fort Neck. All three were unmarried, were highly respected young men and were members of the Sociedade de Sao Jose Benevolante."

Captain Rafferty's Future.

The New London Telegraph says: John H. Rafferty, now that the steamer Block Island has ceased running, will return to his work as general passenger agent of the J. T. & K. W. R. R. system Wednesday. He will make a tour of the eastern cities, advertising the company's business until October, when he goes to Chicago and through the west, distributing advertising matter.

Getting the Priscilla Upon Ways

A force of fifty men are at work trying to float the schooner yacht Priscilla, that went ashore on the Watch Hill beach about three weeks ago. It is the intention now to raise the vessel up on a set of ways and launch her in Little Narragansett Bay. This will necessitate taking her across a bluff of sand, a distance of about four hundred feet. It will be a slow process and attended with uncertain results.

The Norwich Weekly Courier is the best weekly newspaper in New England at 50c a year.

Sentenced Prisoners Incarcerated.

Sheriff Hawkins has taken to Wethersfield the four prisoners sentenced last week in the superior court in New London. Shea, theft, 3 years; Welch, barn burning, 5 years; Clark, theft, 2½ years, and Carpenter, theft, 14 months. He also returned William H. Jencks, the old man who testified in the barn burning case. Jencks is 63 years old, consumptive, and so weak bodily that it is not expected he will leave the prison live.

Dr. Herr's Private Party.

A car filled with Norwich Baptists will leave this city next Monday morning for the World's fair. The expedition has been arranged by the Rev. Dr. J. D. Herr, and will be under his inspiring leadership. The trip will be made via Niagara Falls, with stop-over privilege of seven hours, and will consume nearly two weeks, the party arriving home Saturday, Sept. 30.

Quarreling Over Property.

Warren W. Rathbun and wife are having a lively time with some Noank property valued at about $8,000. The affair is a complicated one, but Rathbun again secured an injunction last week against parties who are working to monopolize the land, some of which is wharf property and another a section located on the hill. The outcome is awaited with interest by the Noankers.

Stonington Women Reluctant.

On Saturday Town Clerk Charles B. Hinckley of Stonington entertained a goodly number of women who qualified to vote on the school question. From the Pawcatuck district the women did themselves proud, 58 coming into line.

But at Stonington, the ancient and aristocratic borough, the descendants of revolutionary ancestors and of the brave patriots who drove off the British in 1814, quailed at the thought, not even one visiting the clerk.

At the Road district one brave woman came and was made; and at Mystic Miss Hattie E. Holmes, president of the W. C. T. U., and several others came forward to take the suffrage extended to their sex.

Disabled Off Watch Hill.

Providence line steamer Massachusetts while on her trip from New York to Providence was disabled off Watch Hill at 1.30 Sunday morning. Her main shaft broke completely in two near the starboard bulkhead, demolishing some of the wood work, but doing no further damage to the machinery. The Fall River line steamer Providence was signaled and after transferring the Massachusetts' passengers, 150 in number, and their baggage, towed the Massachusetts to Newport, arriving there at 7.45, and the passengers were sent to Providence by special train. Help was telegraphed for and tugs Reliance and Nat Sutton went down and brought the disabled steamer up to the Fox Point dock at 8.20 in the afternoon. The damage cannot be repaired in Providence and she will have to be towed to New York.

CITY COURT.

A Long List of Offenders Heard Before Judge Kellogg.

Judge Kellogg disposed of the following cases in the city court Monday morning:

John Fenton, breach of the peace, $10 and costs, $19.93; committed. William Evans, colored, non support of family, gave a bond of $100 for their maintenance for six months, in lieu of a sentence of sixty days and costs of prosecution. John Sullivan, breach of peace, $3 and costs, $9.93; paid. John Kerwin, breach of the peace, $5 and costs, 14.43; committed. Patrick Geary, Montville, drunk, $5 and costs, $11.93; James Keating, breach of peace, $5 and costs, $14.13; paid; Patrick McKale, breach of the peace, $7 and costs, $14.93; appealed, bonds, $150. Patrick Sullivan, breach of the peace, $3 and costs, $10.10; paid. Peter Sesey, Preston, drunk, $3 and costs, $9.93; committed. Joseph H. Bendall, Pittsburg, drunk, $3 and costs, $10.13; committed.

ACKNOWLEDGMENT OF FAVORS

From the Rock Nook Home Committee —Remember Them This Fall.

The Rock Nook Home committee wish to acknowledge among other favors received, the continued kindness of Capt. Walker in allowing the children a free passage on the Ella all through the season.

It has been a source of great pleasure to our boys and girls, and has been the means of interesting other friends to contribute in various ways toward the happiness of these excursions. The gift of a new porch on the rear of the house affording shelter from sun and rain, has also added to the comfort of the family.

But we still have some wants and therefore take this way of asking our friends to remember us this fall with gifts of children's clothing—all sizes—with pieces of carpet for rugs, as well as with contributions for our store room. Is there not some one who will give us a much-needed bureau? LOUISA G. LANE,
Secretary.

The Norwich Weekly Courier is the best weekly newspaper in New England at 50c a year.

FLOUNDER FISHING.

Capt. Oatman of Stonington High Hook.

Fishing for flounders has furnished both pleasure and profit for our piscatorially inclined citizens of Stonington Point of late. It has been many years since this variety of fish has been as plenty in the waters adjacent to Stonington as they have during the past few weeks. It is seldom the case that amateur fishermen can count with certainty upon having good luck on their fishing expeditions, but for the past month this kind of fish has not been particular as to who effected their capture. Boats leave here on every suitable morning and return at night well laden with the result of the toil of their occupants. At the present time Capt. Fred. Oatman stands high hook among the fishermen, his record being 1,020 fish caught in one day.

Not only are the fish plenty, but they have maintained a high price in the Fulton market, where the catch from here is sold. The price has ranged from $12 to $15 per barrel for several weeks past. One of our fishermen obtained $100 for what fish he caught in two days.

Superior Court Today.

The superior court, criminal side, will reconvene in New London this morning at 10 o'clock. The trial of the case of Reuben R. Brown, who is charged with poisoning John McNally, both inmates of the Colchester almshouse, will occupy the attention of the court the greater part of the day, and will probably be concluded by evening.

A Brakeman Injured

Jesse Richmond was severely hurt in the yard of the New London Northern road at New London Saturday afternoon. He undertook to uncouple two freight cars, and the engineer started his train not knowing he was between the cars. He grabbed the brake beam and was dragged some three hundred feet. His back was bruised and cut and he narrowly escaped being killed.

William Ketchum Alive.

William Ketchum, son of Rollin S. Ketchum of Mystic, was on the fishing schooner Mary Kelly, wrecked in the last storm off Asbury Park, N. J., and out of a crew of eleven only four were saved. Young Ketchum was one of them, and he lost two front teeth by coming in contact with some wreckage. He is now at the Marine hospital at Staten Island.

Still Without a Rifle Range.

The local battalion of the Third regiment will not be able to obtain much rifle practice this year, says The New London Day, unless they are able to secure a range soon. The time for qualifying at 200 yards has already expired and will have to be extended when a new range is found. Company I's team has secured the privilege of a range on the Ray Lewis property and are putting in considerable practice. The other companies, however, have not had such good luck.

The Norwich Weekly Courier is the best weekly newspaper in New England at 50c a year.

EASTERN CONNECTICUT.

STONINGTON POINT.

Do Not Favor the Peddler License Law—The Approaching Town Meeting—The Pioneer Hook and Ladder Company Presented Two Silver Trumpets.

The most numerously attended borough meeting that has been held here for many years assembled Friday evening to act upon the proposition made by the borough officers to tax all peddlers from outside the borough who ply their vocation here. The proposition was voted down by a big majority.

As the time for the annual town meeting approaches considerable political activity is being engendered. There appears to be a decided disposition in favor of making radical changes in the personnel of our town officers. How much of this feeling is engendered by aspirants for the positions now held by the present officers, it is not easy to determine. There always has been a hungry set of applicants for office here, and the office of justice of the peace has been a sop that has quieted many. The establishment of a town court has deprived this plum of its sweetness, and now the only way for this army to get preferment is through rotation in office. This fact has created an unusual clamor this fall, and its effect on the approaching caucuses will be watched with interest, especially by those who have no political aspirations.

The two heavy storms of wind and rain worked havoc in the corn crop in this section, many promising fields of this important cereal having been nearly ruined thereby. To add to the ill-luck of our farmers the potato crop has now commenced to rot.

The registrars of voters for the borough district will meet for perfecting the voting lists on September 14.

The Pioneer Hook and Ladder company has been presented with two beautiful silver-plated fire trumpets. The donor thereof could not have been actuated by sinister motives, as he does not wish his name given to the public.

Quite a large number of the citizens of the borough are to visit the World's fair during this month. A party of six young ladies leave this (Tuesday) morning.

Messrs Atwood & Son, manufacturers of silk machinery, have just received another order from Moscow, Russia, for their improved machinery. Last week this firm made one shipment of sixteen tons to that destination.

COLUMBIA.

Peach Yellows—Personals—Off for the World's Fair.

Deputy Commissioner Gideon Tilling hast of Vernon was in town last week looking for "Peach Yellows." Several trees were condemned in this vicinity.

A steer belonging to Mr. Abbott Little broke its leg in a singular manner. In attempting to jump a fence it caught one of its legs in a hollow stump in such a way as to break it. The animal had to be killed.

Misses Eva Snow and Fannie Lyman have entered the Willimantic high school.

Last Sunday the Rev Mr. Mason of Hebron occupied the pulpit in this place by exchange.

The family of Mr. George Sawyer, who have been spending the summer here, are to return to Brooklyn, N. Y., the present week, with the exception of Miss Nellie who will remain in town a few days longer.

Mr J. A. Loble has recently returned from the World's fair.

Mr. William Randall, wife and daughter, who have been spending a portion of the summer here, start for their home in Rocky Ford, Colorado, on Tuesday of this week. Mrs Randall's brother, Mr. A. E. Brown of Auburn, will accompany them as far as Chicago, where the whole party will visit the exposition.

Miss Emily Clarke returned to her duties as teacher of the Village Hill school, Lebanon, on Tuesday, Sept 5.

Dr. E. W. Post of New York, who has recently returned from a trip to Europe, has been in town a few days with his wife, who is staying with her mother, Mrs. Amanda Sawyer. On his return to New York Mrs. Post will accompany her husband as far as Hartford, where she will spend a few days with relatives.

Mr. and Mrs. Frank B. Nye and son have been visiting friends in Anthony, R. I.

Mr. I. N. Batty and wife of Scipioville, N. Y., were the guests of Mr. and Mrs. W. W. Batty last week.

Mrs. Samuel Hitchcock of Bergen Point, N. J., is visiting relatives in town.

Mrs. Simeon P. Tucker and sons Palmer and Raymond, of Willimantic, spent last Saturday and Sunday with her sister, Mrs. Wm. H. Kneeland of this place.

Mr. Fred. A. Hunt and wife left on Wednesday of last week, for the Columbian exposition.

SHREWD VOORHEES

Disarms the Silver Leaders by His Courtesy.

SENATE HAS DONE WELL THUS FAR.

May Be Open to Criticism in the Future—Life Saving Service Bill.

WASHINGTON, Sept. 11.—Today begins the sixth week of the extra session of congress, and up to this point the two houses have in equal measure shared the responsibility placed upon them by the president in his proclamation. The first week was spent in preliminary organization and in the effort to reach an agreement as to procedure in the house. Then two weeks were occupied by the house in discussion of the silver repeal bill which was passed by it at the beginning of the third week.

The senate, though generally reproached for its failure to act with greater celerity on the bill, has really up to this point occupied the same length of time as the house in debate, so that there is no ground for recrimination on either side, although from now on, notwithstanding the oft repeated fact that the senate is a deliberative body there may be some ground for criticism.

It is beginning to appear, however, that there has been no actual loss of time in the conduct of the bill in the senate by Mr. Voorhees. As a matter of fact, the courtesy he has shown toward his opponents—though trying to the patience of those desiring speedy action—has had the effect to

Disarm a Number of Senators

who were disposed to resort to more palpable means of obstruction than have appeared on the floor of the senate this session. At least, this is the statement of a southern senator who has been very earnest in his opposition to repeal, and probably illustrates his own state of mind.

Mr. Dixon of Rhode Island has introduced into the senate a very short bill that will go a very long way in remedying the disastrous results that have followed the short sighted policy of economy pursued in regard to the life saving service. This bill amends the laws governing the life saving stations by providing that hereafter the stations on the sea and gulf at which crews are employed shall be manned and the stations opened for active service on the first day of August, and so continued till the first day of the June succeeding, and upon the lake coasts from the close of navigation, except such stations as in the

Discretion of the Secretary

of the treasury are not necessary to be manned during the full period specified, and the crews shall reside at the stations during such periods.

Under this bill the term of service of the life-saving crews will be lengthened one month each at the beginning and ending of the season.

There is another side to the Maximo Mora case against the Spanish government, a bill in regard to which is now pending before congress. On the face of the papers no claim could make a stronger showing. Congress has passed repeated resolutions urging its payment. Some of the most eminent counsel of the United States have been engaged to ask action upon it by the committee on foreign affairs and foreign relations of the house and senate.

The state department has more than once been induced to instruct our minister to Spain to press for a settlement from the Spanish government. An agreement was once actually entered into by Spain for its settlement on a basis of $1,500,000, to be charged against the Cuban budget, when Edward H. Strobel, now third assistant secretary of state, was secretary of legation at Madrid. Yet there are said to be circumstances

Of a Most Peculiar Nature

back of the claim which justify the statement that Spain will resist to the utmost any compliance with a demand for the settlement.

Maimo Mora, in whose name the claim is filed, is a venerable Cuban gentleman, over 80 years of age, unable to speak more than a few words of English. It is asserted that he took out papers as an American citizen chiefly for the purpose of saving his large property in Cuba, valued at several millions of dollars, from confiscation by the Spanish government on the ground of his alleged sympathy with the Cuban revolutionists.

In this he was unsuccessful. His property was forfeited and the claim was brought against Spain in his name as an American citizen. It is also asserted that Mr. Mora now retains only a few thousand dollars of personal interest in the claim. He has parted with the rest of it to those who have been so energetically pressing the case on his behalf.

Rightly or wrongly, the Spanish government is firmly imbued with the impression that the question between Senor Mora and itself is one between a government and one of its own subjects in which the United States has no proper interest—that Mr. Mora's American citizenship, in fact, was little more than

A Simulated Allegiance.

Mr. Moret, the Spanish minister, who made a provisional agreement for a settlement of the claim, subject to the approval of the cortes was compelled to retire from office on this account.

In a public debate in the Spanish cortes, the harshest things were said about the claim, and the severest possible criticism was passed upon the United States legation for, as was implied, permitting itself to be used as a claim agent to enforce an unjust demand against a friendly government.

It was stated that the Moret agreement was procured by representations made to the Spanish government by persons claiming to represent the Mora claim that senators of the United States were so much interested in this matter that they were willing to approve a liberal reciprocity treaty with Spain provided the Mora claim were paid.

In other words, the impression was conveyed to Spanish officials that United States

Senators Were Corruptly Interested

in the Mora claim. These accusations were so openly made that Mr. Perry Belmont, when minister to Madrid, peremptorily refused to follow the instructions of the state department by further pressing the claim upon the Spanish government, and in this course he was followed by his successor, ex-Senator Palmer of Michigan. Mr. Belmont forwarded a translation of the debate in the Spanish Cortes to the state department in explanation of his course.

In the last congress, in response to a resolution offered by Mr. Dolph, all the recent papers in the case were forwarded to the senate committee on foreign relations, including this debate in the Spanish cortes.

The papers were voluminous and the singular assertion is made that their arrangement for publication was left in the hands of some of the numerous attorneys interested in the claim, and that the debate in the cortes was withheld from publication. It certainly does not appear in the official senate document.

Altogether, the Mora claim has apparently much more in it than appears on the surface and some interesting developments are expected. It is not questioned that most of those who have urged its settlement have been actuated by firm belief in the justice of the claim, but if the statements now made are substantiated, they have been misled as to the facts.

EMPEROR STILL TALKING.

He is Royally Welcomed at Carlsruhe and Replies in Usual Vein.

CARLSRUHE, Sept. 11.—Emperor William, accompanied by the Crown Prince of Italy, arrived here last evening. They were received by the Grand Duke of Baden and Prince Albrecht of Prussia.

After the emperor had inspected the guard of honor he was driven to the market place through streets gaily decorated with flowers and bunting, and lined with enthusiastic crowds.

"This town welcomes the emperor," said the burgomaster, in his address of greeting, "in the certain knowledge that the sharp sword of empire rests in his hand, and that he will never unthinkingly withdraw it from the scabbard, but will wield it vigorously, in case of need, for the continuance of the honor of the fatherland. In internal dangers this town will direct a glance of calm assurance to the guide of the empire's destinies."

The emperor, in his reply, said: "The anxiety which I felt in former years on coming to Carlsruhe has vanished. Thank God, the German people are still standing firmly together. They have done their duty to me and my allies, especially the Grand Duke of Baden. It was, thus possible for us also to do our duty for the preservation of the peace of Europe."

INTO THE SEWER

Dead Cashier Francis' Mysterious Loan Book and Other Papers Wanted.

PITTSFIELD, Mass., Sept. 11.—The horses and carriages of the late Cashier Francis will be sold at public auction at Bridge's stable Thursday afternoon. The $1000 span has been appraised at about $450.

The disappearance of the mysterious "loan book" and other valuable papers which might shed light on the irregular transactions of the dead man is now explained by the testimony of some of the clerks of the bank.

They say that on the fatal Monday morning Cashier Francis was notified by President Waterman that the directors had just voted unanimously to take the bank management out of his hands. The cashier spent several hours clearing up his desk and gathering private papers.

These he took into the bathroom, where, it is alleged, he tore them to pieces and washed them into the sewer. The clerks heard the tearing of the sheets and the running water and are convinced that the papers which are now so much desired were at that time consigned to the sewer. It is altogether likely that the pages of the "loan book" went the same way.

REFUSED TO PLEAD.

New Bedford Wife Murderer Surprises the Court and Officers.

NEW BEDFORD, Mass., Sept. 11.—The third district court room was crowded this morning by curious sightseers anxious to get a glimpse of Robertson, the wife murderer. At 9 o'clock the court was opened and the prisoner entered the room in the custody of Lieutenant Adams who placed him in the dock.

Clerk Cobb read the indictment charging him with the murder of his wife Mary. He listened attentively, and when asked if he was guilty or not guilty replied: "I refuse to plead, and waive examination." This was a surprise to the officers of the court, and later Judge Borden continued the case until Wednesday.

HOTEL AND COTTAGES.

Destroyed By Fire at Bath—Wooden Buildings Burned Like Paper.

BATH, Me., Sept. 11.—Just as the steamer Winthrop was making Burnt Island light on her trip up this morning, the passengers were startled by the cry of fire on Squirrel island. The Chase house, a large hotel was on fire.

The steamer put about, but before it reached the wharf the hotel was a mass of flames. Next to the hotel is the fine cottage of Amasa Pratt of Lowell, who was on board. Before he could get on shore his house was on fire and nearly consumed.

The fire soon reached the fine cottage of Colonel M. V. B. Chase of Augusta, and from there to the cottage of Mrs. John Webber of Waterville and then the handsome cottage of Mrs. B. F. Thomas of Columbus, O., was the next to go.

President Davenport of Boston was on the island, and he, with men, women and children, formed themselves into a fire brigade to fight the fire, but they made slow progress. The high wind blowing consumed the wooden structures as if they were made of paper.

The Chase House was owned by the association. The loss will not fall far from $60,000. Insured for nearly full amount.

Dr. William T. Parker Acquitted.

HAVERHILL, Mass., Sept. 11.—The sensational assault case against Dr. William Thurston Parker of Groveland was tried in the police court this morning. Oscar Bond the complainant, was the only witness against Dr. Parker. The latter testified that there was trouble between them, but he did not draw a revolver. Judge Carter decided that Bond was in no particular danger and discharged Dr. Parker.

Fall Paralyzed Him.

MILFORD, Mass., Sept. 11.—Samuel Matthews, 65 years of age, while trimming trees this forenoon, was thrown to the ground, about 20 feet, by the turning of the ladder. He fell on his neck, broke his collar bone and received such severe injuries to his spine that he was picked up unconscious and paralyzed from the shoulder down. He is not expected to live. He was a veteran of the late war.

Complaints Against Kimberley's Action.

LONDON, Sept. 11.—The Calcutta correspondent of The Times telegraphs: Bitter complaints are heard on all sides against Lord Kimberley's action in regard to council drafts. It is asserted that he ignores all suggestions from India and appears to be callous to the financial troubles of the country. The mercantile public are now afraid to do business and banks are afraid to tender bids for drafts.

Adverse to Stevenson.

WASHINGTON, Sept. 11.—A high official in naval circles said last night that the finding of the board that examined Pay Inspector Stevenson for promotion last week was adverse to that officer. It is now optional with the president whether he will retire Stevenson on half-pay or drop his name from the list of pay officers.

Death From Lockjaw.

GLOUCESTER, Mass., Sept. 11.—E. W. Pierce, of the firm of Woodbury & Pierce of Salem, who was accidentally shot on Labor Day by the discharge of a gun at Annisquam, and who had an arm amputated yesterday, died today from lock jaw.

Deaths Occurring Daily.

CITY OF MEXICO, Sept. 11.—A dispatch from San Luis Potosi says that typhus fever is again raging in that city, and many deaths are occurring daily. It is the only city in Mexico where typhus fever is now epidemic.

AS ONLY A BABY CAN.

Consoles One for All Sorrows Save Those It Brings—The Attention of Mothers Awakened to the Need of Better Diet.

A baby is a despot in long clothes.

The mother's tenderness and her marvelous intuition for doing the right thing accomplishes much; but it often happens, with all her solicitude, that ignorance of infant needs endanger baby's health and life.

"In looking over my cases of summer diarrhoea for the past few years," says Dr. Holt, physician to the New York Infant asylum, "I find that in over 400 cases the most common exciting cause was improper feeding."

Because it is the most nourishing, most palatable, most digestible, purest of foods, physicians and experienced nurses recommend and use lactated food.

Lactated food has saved thousands of infants from cholera infantum and fatal diarrhoea. It more closely resembles mother's milk than any other food known. Its basis is sugar of milk, which is the basis of mother's milk. With it is combined the nutritive parts of wheat, barley, and oats in such proportions as best meet the requirements of the growing child.

"Our little Cassandra," writes Mrs. T. W. Wallace of Oberlin, O., "has been using lactated food, and has never seen a sick day."

Babies live on lactated food!!

The Bulletin.

THE LYRIC POET'S APOLOGY.

I strive to probe to other hearts and find
I do but fret the phantom of mine own;
I strain to paint great nature, and my mind
But images itself in every zone.
The lesson learned, I sing life's woven lay
In syllables of self and can no other way.
—Richard Burton in Harper's Weekly.

WOMAN'S WORLD.

WHERE THE SKIRT AND THE BLOUSE FALL AT OUTS.

The Superiority of Women—A Timely Suggestion to Parents—Interesting Information, Personal and Otherwise—Hints For Housekeepers.

A few years ago when the "bang" was universal two pretty girls who became intimate always sealed the bond of true confidence by telling each other how they "did" their front hair. Today, under the reign of the shirt waist and girdle, the burning question is, "How do you keep your belt down?" The seemingly simple costume of blouse, skirt and belt is really as difficult to realize in perfection as most seemingly simple things. The hour that fashion decreed that the "tails" of the blouse were to disappear inside the dress skirt and a black ribbon belt was to clasp the joining between shirt and skirt woman's lot received another cross.

Watch the trim scores of girls who trip along the streets of the great shopping district; admire them as they advance toward you hatted, gloved and shod as only the daughters of New York are; delight in the well nourished, rounded, womanly figures in the simple silk or linen shirt waist, the well hung dark skirt and the broad black belt; then venture to turn your head and gaze after any one of these divinities as she glides past and away from you. There is a fatal hiatus between the gathers of the back breadths of that well hung skirt and the broad black ribbon belt mademoiselle has passed round her dainty waist. The skirt and the belt it is sewed to have slipped from under the outer separate ribbon belt, and the wearer knows it and is far more unhappy about it than you can possibly be.

Just as the girls thought the blazer had solved their difficulties and drawn a veil over that miserable divorce between belt and skirt, which is the bane of their existence, along came fashion again and cut off the tails of the blazer almost to the shoulder blades and sternly ordained the Eton jacket. Belts that join behind and unfurl funny little bunches of ruffles over the offending gap or a silk bow with ends are applied to the small of the back—anything rather than admit that women are not built for the blouse, the skirt and the belt as at present constructed and combined. There is something really sad in the bald treachery of the most desperate expedients, as when a natty girl in an immaculate duck suit seats herself at a restaurant table for lunch. The weight of her body drags her skirts, the separate belt remains stolidly unmoved, and a large brass safety pin, falsely so called, is disclosed, with which she has hoped to secure all her petticoats, as it were, to her very vertebra.

The fact is the so called waist line is as imaginary as the equator. The natural girdle line is as displayed by Sarah Bernhardt—that is, passing across the hollow of the back, over the hips and under the abdomen. To say that our fair and lovely New York ladies shall so gird themselves when they take their walks abroad is to leave anatomical for sumptuary law, but the fashion of the shirt, the skirt and the belt is a theory, and the lamentable disunion among them is a condition which stares us in the back.—New York Sun.

The Superiority of Women.

How long can it reasonably be expected that the old custom will last in deference to which wives are content to be known by the surnames of their husbands? All the recent tests tend to show the superiority of the female mind to that of the male. Mrs. Alice Freeman Palmer, in a recent address, supported the cause of coeducation with the argument that "nothing in the world will take the foolishness and romantic notions out of a girl so quick as to work with young men and find out how little they know." Of [illegible] marriage has the same effect, but after a girl is married it is too late for her to save her maiden name. If she arrives before marriage at the sophisticated stage that Mrs. Palmer describes, she may very reasonably demur to giving up a name which she feels competent to distinguish for one which will be handicapped by her husband's relative inferiority.

All along the line this summer women have triumphed. In the recent assignment of general fellowship by the Chicago university young women got so disproportionate a share of the spoils as to scandalize the authorities. When the London Geographical society declined in the spring to admit women to its membership, the society's action was received not at all as evidence of the inferiority of women, but purely as a new proof of the limitations of men. Ten women passed the Cambridge mathematical tripos this year, and two of them came out wranglers. Three women took honors at Oxford, at which university also honor examinations were this year opened to women in three new courses. At London university Miss Ogilvie, a prodigy of erudition from Aberdeen, passed with the highest credit the examination for the degree of doctor of science.

At this rate how long will women be content with the substance and abstain from grasping the shadow also? How long will Miss Jones consent to become Mrs. Smith? How soon will she demand a competitive examination between Smith and herself to determine before marriage which is the compelling entity and whether it is more meet that she shall become a Smith or that Smith and the children shall become Joneses?

A Timely Suggestion to Parents.

In our country the bright young men and women in even remote towns and villages may be called sooner or later to take place among the representatives of courts and social conditions of a most exalted and punctilious formality. Why should any one who can by a wisely directed effort enjoy such advantages at home be left to learn elegance, ease and social polish through embarrassment and failure? It is both cruel and reprehensible. Make it impossible, parents, for any one to point to American youth as sadly deficient in the ease and graciousness which come from social intercourse by giving your sons and daughters the opportunity for social culture whenever and wherever it is possible. Small villages have their duties no less than large cities.

If you have a comfortable home, my dear friend, and have never given a party, try it this coming winter. Invite your neighbors; decorate your house with the best you can afford. If possible, have a guest or two from out of town to add zest and flavor. Let it be society—not a rustic powwow, but an attempt at cultivated and elevating association, where every one shall be alert and well mannered.

Do not feel that anything less than the best in manners, deportment and gracious charm will answer from you as a hostess, and you will find even the most indifferent among your guests striving to emulate you.—Jenness Miller Monthly.

The Summer Flower Girl.

I scorn the charge that the summer girl has any foibles, at least any that are not enhancing. The flower girl is particularly charming to look upon. I mean the girl who gets herself up in the tints of a certain flower and carries out the pretty conceit by wearing the natural blossom that she represents or some natural looking artificial flowers. For example, this morning I saw such a piquant and pretty creature dressed a la brilliant poppy! The dress foundation was of some creamy stuff that made an agreeably cool and summery looking background, and then there were some stem green ribbons here and there, and a loose cluster of great, fluffy, nodding poppies on the wide brimmed hat, and—well, you can imagine how decorative the effect was. It was not two minutes before I saw a buttercup girl with petal sleeves of buttercup yellow shimmering silk falling below a bolero bodice that together with the dress bore out the general color scheme. The mignonette girl is especially attractive to my mind in these warm days. She looks so deliciously comfortable, and so does the lily white dotted swiss muslin girl. Really, with all the opprobrium that fashion gets, she deserves a deal of credit for many of her edicts.—Boston Globe.

A Plucky Young Girl.

A year ago last spring a German named Cranefeldt, living a mile north of New Doyle, Ills., died, leaving a small farm to his widow and children. His two boys were too small to be of any use in carrying on the farm, but his daughter Annie, who was about 16 years old, took up the burden, and well has she carried it. Last fall she plowed, harrowed, rolled and planted 13½ acres of wheat all by herself. In the spring she put in 15½ acres of oats, which have just been thrashed and yielded about 30 bushels to the acre. She has also plowed the ground and planted 20 acres of corn, which she has cultivated well and just "laid by," and she has as good an outlook for a good crop of corn as most of the farmers around here. She takes all the care of four horses—two work horses and two young ones—and does all the work on the place. She is not very large, but has lots of determination and push. Most girls left as she was would have sat down with "I can't," while Annie started out with "I will make a living for the family," and she has done it.—St. Louis Republic.

How to Look Cool Suddenly.

If you come in after a long round of shopping and receive a sudden summons to the parlor to meet some unexpected guest, do not be dismayed at the crimson face which meets your eye as you stand before your dressing table mirror. Likewise do not seek a remedy in the bathroom. Many women think the only way to cool off is to bathe the face lavishly in cold water. This is a great mistake and with a thin skin will only intensify the color, and the last estate of this woman shall be worse than the first.

Dash the water on throat and neck as freely as you choose, particularly at the back of the neck, but if the face is bathed at all let it be done sparingly; then sponge with Florida water and lastly apply a [illegible] coating of rice powder. You will look ghastly, but let the powder remain while you add the few necessary touches to your toilet. Then, just as you are to descend to the parlor, dust off all superfluous powder lightly, and you will welcome your guest fresh and cool, not only in appearance, but in reality.—Exchange.

To Honor Miss Emma Willard.

A new association is about to be organized to honor Emma Willard in a practical manner. This association we shall call the Emma Willard Educational society. It will take an active interest in all that pertains to education, and particularly in the interests of women in educational matters—for instance, the opening of all the great universities to women, the equal division of all school offices, the equal pay of same, the forming of loyal leagues among the school children as affiliations of the society.

These leagues will have for their object the teaching from childhood the right of each human being to wield his own weapon of defense, whether it be the bow and arrow of early and barbarous man or the ballot of civilization, and that under our government it is the duty of every citizen to vote and thereby secure good government.—Mary A. Bennett in Boston Woman's Journal.

Miss Helen Gould's Debut Into Society.

One hears with gratification that a young woman so fortunately circumstanced as Miss Helen Gould daughter of the late great financier, has the disposition which will make wealth in her hands a blessing to others besides herself. A personal friend says of Miss Gould: "She is very sweet and womanly and attractive in appearance. Her features are strong and her whole demeanor suggestive of force of character combined with rare good sense. She is benevolent, and her methods of doing good are practical." Miss Gould is a member of Dr. John R. Paxton's church and thoroughly identifies herself with all of its religious and benevolent work. Up to the present time she has never been a social figure in New York society, but if all reports prove true her debut into fashionable life is not far off.—New York Letter.

A Singular Accident.

A cyclist was riding on an old fashioned, ordinary machine, the wooden handles of which were missing, leaving the iron spikes exposed. He dismounted, but in starting the machine he missed the pedal, and the bicycle falling he fell on top of it, and one of the handle spikes entering his left breast and penetrating right through to the heart, came out at his back just under the shoulder blade. He died soon after being taken to the hospital.—Whole Family.

A Picture of Mrs. Lease.

There were cries for Mrs. Lease. She was not down for a speech, but she responded in an eloquent manner, for she is eloquent. Her style is manly, her voice manly; everything about her except her appearance is manly. As for her appearance, she is in that rather womanly. She dresses in plain black, with but a gold chain to relieve its sobriety. Her hair, dark brown, is parted on the side in front. The characteristics of her face are a high forehead, small but brilliant eyes, a large nose and a strong chin, ending in high cheek bones. When she is speaking, she stands very erect and gesticulates frequently with a full arm movement, adding thereby a great deal of impressiveness to her words.—Sylvan Beach Cor. Syracuse Standard.

A Successful Woman Composer.

Miss Blanche Everett has for the last year or more been before the public as a composer, and her songs have met with much success. Miss Everett and her sister have received a most careful musical education in Brussels and Paris, and the great natural gifts inherited from the maternal ancestors—a Venetian family settled in Corfu—have thus been cultivated to a high degree of perfection. Their father, Colonel Everett, is a distinguished officer and was for many years military consul in Kurdistan, where he was the victim of a terrible attack by brigands, who slashed and wounded him terribly, but he eventually recovered.—London Queen.

Hatpins Superseding Spoons.

The spoon craze has well nigh run its course. Women who have 100 or 200 spoons of different shapes, sizes and designs have turned their backs on the fad, and now it languishes. But a new one is springing up in its place—as silly a fad as ever tempted the soul of woman to extravagance. It is the collection of hatpins. Many of these pins would serve for daggers, 'tis true, but the usefulness of the dagger is after all circumscribed. It would perhaps be just as well if the hatpin craze were punctured with one of its own weapons.—Exchange.

The Sensible Girl of the Period.

The fin de siecle girl has tabooed tight lacing. She no longer possesses an 18 inch waist, but is proud to acknowledge that her waist measures 23 inches. In the matter of gloves and shoes she has also reformed—no more pointed toes and high heels or gloves that split at the thumb. The feminine world seems to have given up most of its barbarous customs, earrings included, and set to work to be comfortable and healthy. May they long continue in these sensible ideas.—Philadelphia Stageland.

Women In One Kansas Town.

The returns from the school elections held throughout Kansas show that the increase in women's votes in one year was nearly 100 per cent. The elections were held in the country districts and show that the farmers' wives and daughters are abreast of the equal suffrage movement. At Sunnyside, Lincoln county, all the women but three attended the annual school meeting, and they cast 43 per cent of the vote.—Boston Woman's Journal.

But One Man Objected.

The W. C. T. U. Bulletin of Colorado Springs says that Miss Stockton of Grand Junction, in circulating a suffrage petition, found but one man in over 100 who declined to sign, and he had recently come to the state. At Lake City a recent lecture upon franchise brought out the two pastors of the place as well as a general expression in favor of the proposed change in state citizenship.

In Favor of Woman Preaching.

Dr. Parkhurst of New York, in a discourse on "Gospel Preaching" at the Lexington (Ky.) Chautauqua, said that he was in favor of women preaching if the people want them to; that women should enjoy this right as well as men, and that his pulpit is open to women who have the gift of prophecy.

Mrs. Stowe Nearing the End.

Mrs. Harriet Beecher Stowe is so feeble that the announcement of her death would cause no surprise. The gifted authoress lives in Hartford, surrounded by loving friends, rich in years and honors, passing her few remaining days in peace and comfort.

The sun and the earth are both practically spherical in shape, and the earth is evidently only a small, cooled off or frozen sun. The sun has a shell of glowing metallic clouds; the earth has a shell of solid opaque rocks and metals.

When Miss Sybil Sanderson was singing at Paris the other day, she noticed a child imitating her. As her song died away she listened to the echo of the child's voice and was so fascinated by its sweetness that she has decided to educate the little singer.

Miss Thornton, Queen Victoria's oldest servant, who has been state housekeeper at Buckingham palace, has just resigned at the age of 80 years. She had been 40 years in her majesty's service.

At a recent dinner of journalists in London the gallant toast, "Woman—The Fairest Work In All Creation; the Edition Is Large, and No Man Should Be Without a Copy," was proposed.

Women are heroic in crises, petty about trifles. The same woman who worries her husband about the way he wears out his clothes would lay down her life for him with a smile.

Mrs. Annie Besant is coming to this country on her way to India to represent theosophy at the parliament of religions in Chicago.

The only earrings admissible are the tiniest things you can get, and they must be screw ones.

DANGER IN WRITING.

EXPERTS SAY THAT SLANTING SCRIPT CAUSES DISEASE.

A Movement In Favor of Vertical Script Backed by the Highest Medical Authorities—Results of Extensive Experiments With School Children.

The method of writing taught in modern schools and practiced by 99 people out of every 100 has been declared dangerous and unhealthful by experts. By the time the next generation matures it will probably have been wiped out. The script then will be vertical instead of slanting, and writers will sit square and upright before their work instead of sideways and stooped, as at present.

The idea of this prospective reform originated in Germany and overspreads England while reaching this country. The following resolution was adopted not long ago by the international congress of school hygiene in London by a vote of 220 against 1:

> Whereas, The hygienic advantages of vertical writing have been clearly shown and established both by medical investigation and practical experience, and
>
> Whereas, Its introduction obviates those pernicious positions of the body which entail rachitic diseases and myopia,
>
> Resolved, That we recommend the introduction of vertical writing in the schools of the people.

The effect of so serious an action in a country esteeming proper physical conditions as England esteems them is readily to be imagined.

The corresponding movement in the United States is led by Dr. Burnham of Clark university. His investigations have brought the conviction that the ordinary position in writing is among the foremost conditions of school life and methods of training which must be changed in the interest of health. The vertical script, therefore, is strongly recommended. From 80 to 90 per cent of lateral curvature of the spine is found to be caused in school life, the curvature in a large per cent of these cases being toward the right side, as a result of a defective position in writing, and the eyes at the same time are seriously injured by this slanted writing.

The practical advance of the newly approved system in this country is illustrated in the Worcester normal school and the Workingmen's school at Fifty-fourth street in this city, directed by Professor Adler, where the vertical writing is used in the lower grades and now carried on to the fourth and fifth grades.

The observations of foreign physicians showing that the prevalence of myopia and spinal curvature is regularly increased in the advance through the school grades are supplemented in this country by work on novel lines. An energetic course followed by Dr. Shaw of the University of the City of New York has given additional proof that the cause of the difficulty is to be attributed to the desks which are generally in use, and more especially to the bad position in writing, the opinion being held with apparent unanimity by investigators in this country as well as abroad that all but two positions to be taken in the school practice of writing are improper. One judged to be correct is the oblique central position and the other the straight central position, between which in reference to final choice the controversy in Germany is said to be fierce.

The advocates of reform observe that the child writes vertically when he first goes to school, and that the teacher has to work for the slant. The vertical writing and the central position at the desk are alike naturally indicated. At this stage the controversy has led to the conclusion that the height of the desk and that of the seat must be equally adapted to the growth of the pupil. In some of the progressive schools, as Felix Adler's and at South Orange, N. J., adjustable seats are being used.

The point in Dr. Shaw's recent experiments, made with the aid of several assistants on more than 1,200 pupils in the New York and suburban schools, has been to see whether, with the paper directly in front of the pupil and with the eyes closed, there would be any tendency toward vertical writing. The pupils were first requested to take the customary position in writing, and to write in the ordinary manner the sentence, "John is flying his paper kite." This form of exercise was selected on account of the number of long letters which it contains, and as being one also that is easy for the child to remember. After having thus written the sentence, the pupil was directed to take the straight central position, dip his pen in the ink and with his eyes closed to write the same again.

The closing of the eyes was to eliminate from the child's mind the consciousness of the slant. The angle of slant in all the long letters in the test papers was carefully measured, the angle of slant in the usual writing of each case being also found with the same precision. The measurements and the calculations ran up to 8,000 items, and among other issues of the work was the invention by a lady of a machine for making the measurements.—New York Press.

Club Rule In New York.

I was somewhat shocked last week while sitting in the Knickerbocker club, where I was lazily engaged in alternately gazing on those tiresome wall paper bouquets and garlands and in keeping up a desultory conversation with the only two men of my acquaintance left in town, to see a man whom we all know nod to us as he passed the club window, although accompanied by his wife. This is certainly very bad form. A man should show more deference to his wife than to any other woman. Of course he knew better than to bow. One is supposed never to recognize a woman acquaintance from a club window. Otherwise we approved of him.—Vogue.

Pigeons Do Not Fly by Sight.

The numerous experiments made by balloonists have proved that pigeons are incapable of flying at any great height. Birds thrown out at 3,000 meters fell like dead, and even at the moderate height of 800 meters pigeons liberated by the balloonist Gaston Tissandier approached the earth in a spiral course. It is evident, hence, that they are not guided wholly by sight. To bring a point 300 miles distant within the range of vision it would be necessary to ascend nearly 30,000 meters. The carrier pigeon, starting on such a journey, must consequently start with faith in the unseen.—Philadelphia Press.

Waste That Is Now Valuable.

A generation ago there was hardly a mill of any kind that was not troubled with a heap of rubbish or waste material that it did not know what to do with. Silk manufacturers saw the rise of this heap with annoyance, and they took it as a favor if any one would cart it away and use it as a fertilizer. An English inventor guessed at the possibilities in this pile of refuse and set about inventing machinery to utilize it. Today, as a result of his foresight and genius, 5,000 persons are employed in making the finest silk plushes, ribbons and velvets from the refuse piles of silk mills, and the inventor has grown rich.

The cottonseed oil industry is a better known illustration of economizing waste, but the dimensions to which the industry has grown are not so generally known. The annual product in oil, cake, lint and hulls from cotton seed, which a generation ago was allowed to rot, is $27,000,000, and it could be made greater if there was a market for the product.—Philadelphia Press.

Money In Wall Street.

New Yorkers are noted for being scramblers after money. But they are just as remarkable for the risks they take with it when they get it. A man went through Wall street to the ferry one day last week with $300,000 in the pocket of his overcoat. He had an umbrella in one hand and a cigar between the fingers of the other. It would not have required an expert pickpocket to relieve him of his wealth. Yesterday a lad was sent to a banking house to deposit a certified check for $65,000. He went along swinging it in his hand. In front of the bank he stopped and tried to balance the check on the end of his nose. No one would have believed that what he had was anything but a worthless scrap of paper.—New York Times.

Caste In a Bootblack.

The idea of caste and class extends even to the bootblacking fraternity. This is illustrated by a recent occurrence in Broad street.

An Irish shoe polisher has a stand in front of Delmonico's old restaurant. Not long since he entered a broker's office to render professional services. In his absence a dandy young negro seated himself in the chair and awaited his return.

When the bootblack again appeared on the scene, he was horrified. As he approached his stand the negro said, "Shine 'em up, please, and be quick about it."

"Not if I know myself," replied the bootblack, with an oath. "Get out of that chair," he continued. "It's bad enough for me to be shining boots all me life, but I've got this to say—I never shined shoes but for one of my own color."—New York Herald.

Points About Needles.

The great sail needle, which has to be pushed with a steel palm, would puzzle most people; so, too, the broommaker's needle, which must also be pushed with a steel palm. The curious knitting machine needle, with its latchet; the arrasene and crewel needles, and the needle for shirring machines; the weaver's pin for picking up broken threads, with an open eye in the hook. The needle, as we see it today, is the evolved product of centuries of invention. In its primitive form it was made of bone, ivory or wood. The making of Spanish needles was introduced into England during the reign of Queen Elizabeth. Point by point the manufacture has improved.—L. G. Vance in Ladies' Home Journal.

The Christian Name.

The term "Christian name" is used in England and America only. "Baptismal name" is used in other countries. The terms seems to have been used first after the reformation, when Biblical names were used as a reaction against the use of the saints' names in the calendar. It is evident that all Biblical names are not Christian, but the reaction went so far as to consider everything in the Bible as Christian and everything not in the Bible as pagan or certainly nonchristian.—New York Evening Sun.

Not Worth Saving.

Mike (going down a ladder)—Hould on, Pat. Don't yez come on the ladder till O'im down. It's ould and cracked.

Pat (getting on)—Arra, be aisy. It would sarve th' boss right to have to buy a new one.—New York Weekly.

CONNECTICUT DAY AT CHICAGO.

The Waterbury Republican speaks well when it says: "Connecticut day at the World's fair ought to be celebrated in a manner thoroughly befitting a state which, although small in geography is great in achievements." It is the second week in October that this state makes its demonstration and lines up with the other states of the Union which have made special demonstrations; and the residents of the state who are not booked already for the fair should be planning to be there at that time. These state celebrations are of interest to all, because, in a measure, they show by numbers and enthusiasm the interest the sons and daughters of different states take in this magnificent western exhibition, and also tell for state enterprise and pride. The governor and staff and a military escort will be there, and it is hoped that the state will be represented by a large number of her sons and daughters on that day. All Connecticut's sons and daughters residing in and near Chicago will undoubtedly be there on that day to witness the demonstration, and it should be of such a character that all of them will feel proud that they are there, and that Connecticut is their native state.

DISAGREEABLE FACTS.

The ways and means committee are not having a charming time in their hearings upon the revision of the tariff, for the facts do not harmonize with the pet theories of a majority of the committee. There were three things made apparent the first week. These were, that the producers of Bermuda, under the McKinley bill have to pay duties amounting to about half a million annually for the privilege of selling their products in the United States, and that that is a tax on the foreigner and not on the American consumer. They have learned that the reduction of the tariff means a reduction of the wages of American workmen, and that some goods under protection sold lower than ever before, and for less than they could be bought abroad. They have been plainly told that an abandonment of protection means to some industries their complete destruction. The appeals that are being sent in to the committee from workmen employed upon the production of protected goods for a stay of their proposed reduction of duties, ought to be sufficient to bring them to their senses; but there is no hope that these appeals will. That committee was formed of men free trade in principle and pledged to carry out the part of the platform which is pleasing to the south more because it satisfies a prejudice than because it is of any special benefit to that section of the country.

MR. ATKINSON AS A DOMESTIC ECONOMIST.

Mr. Edward Atkinson of Boston has for several years given his attention to the most economical way of cooking food, and he has brought the problem to a point of economy where he does not hesitate to say that by his process a person can live for ten cents a day. He claims on careful calculation that there is spent annually in the United States for fuel and food six billions of dollars, and of this vast sum he claims twenty-five per cent is wasted. In behalf of the poor and unemployed of Boston he, on Monday, told them through The Herald how they could construct a stove at an expense not exceeding two dollars which would by the aid of an ordinary kerosene lamp, consuming not over a pint of oil a day, cook food, and live at an expense of seventy cents a week for each person. He gives diagrams of the stove, and says that at an expense of thirty cents he prepared a dinner with this contrivance, ample for seven persons, cooking ordinary shin beef so that it was as tender as tenderloin. Mr. Atkinson says it seems to be harder to make people believe that such a feat in cookery can be performed, than it is to invent the implements to do it with; but he hopes that some people will try the experiment and reap the benefit of the saving to be made.

RULES FOR OBSTRUCTION.

The old pension rules by which thousands of worthy pensioners were dropped from the roll, have only been abandoned when Secretary Smith establishes new rules with reference to appeals in pension cases. Failing in the attempt to make out that previous pension commissioners had been loose, if not criminal, in their interpretation of the pension laws, and that thousands of pensions had been bestowed upon unworthy and dishonest persons, he now proceeds by a new movement to make it appear that appeals have been made with altogether too much ease. Those who have dealt with the pension bureau under any administration will not claim that it was anything but a very difficult matter to prove the right of a worthy veteran to a pension under the rules of the past. These movements are nothing but the endeavors of an obstructionist prejudiced against the pensioners from the start, to freeze out thousands unjustly and to prevent an increase by making the legal machinery more complicated, hoping in the end to show that there has been praiseworthy economy exercised in the department, when it will be nothing more or less than the unscrupulous work of a southerner, who ought not to have been appointed to the place, and who has stated openly that "he should have been a confederate soldier had he been old enough" when the lost cause" was holding up a rebel flag.

EDITORIAL COMMENT

The Italians of New York city are leaving for home. The democratic ascendency has made times too hard for them!

Cardinal Gibbons is to celebrate his silver jubilee in October. He is to be banqueted by the Catholic club of Baltimore.

Prince Bismarck's condition is considered serious. He is prostrated with sciatica and his chances of recovery are considered doubtful.

The exports of wheat this year to date are at the rate of 250,000,000 bushels for the year. This export of wheat is unprecedented, and is caused by short crops abroad.

The returning pilgrims from Mecca have carried the cholera to Alexandria and Algeria. One party of pilgrims that numbered 7,000 returns to Algeria with 5,000, having lost 2,000 by the way.

A good roads convention was held in California last week to see what could be done to improve the roads in that state. The wheelmen are pushing the matter. The bicycle may prove a great blessing to this country.

Lone women are among the 100,000 who are waiting for the opening of the Cherokee strip. A party of petticoated Amazons from the south show such signs of exclusiveness that it is expected they are about to establish a city to be known as "She!"

The house of lords was emphatic when it sat down on the home rule bill. The bill did not mind it; but there is such a rumpus among the people that it is predicted when the bill is sent to the lords again they may pass it. They are "agin" the bill, but they have a wholesome fear of the people.

The parliament of religions will be opened at the World's fair today and will be continued for seventeen days. If lack of charity, intolerance or bad manners are shown we hope none of it will be chargeable to the Christians. If the heathen should set the best example Islam might take a boom in this enlightened country.

The Norwich Weekly Courier is the best weekly newspaper in New England at 50c a year.

VOICE OF THE PRESS.

What?

The managing politicians are all getting together. What are the workingmen doing?—[New York Recorder.

Another for Home Rule.

The report that Mr. Justin McCarthy is going to get married again looks like another prospective triumph for home rule.—[Boston Herald.

They Ought to be Cheered.

Those Connecticut farmers who are beseeching congress not to cut down the tobacco duties ought to be cheered by the reflection that tobacco is a southern product, and that the only kind of protection which is fraudulent and unconstitutional is that which exclusively benefits the fruits of northern industry. —[Boston Journal.

They Have to Sign.

Governor Altgeld, in his speech to the labor men the other day, deprecated putting this country "on a narrow gold basis." Yet every tenant of the property owned by the governor has to sign a lease pledging him to pay the rent in gold. The governor takes no chances for himself, but he thinks silver dollars good enough for workingmen.—[Boston Journal.

A Reminiscence.

How well I remember lasht fall at the rally,
I marched in the line with the workingmin, shure,
And felt just as proud as a king at behouldin'
The fall of the rich and the rise of the poor.
Shure that's what they tould me was mint by the victory
And, no wonder that I was elated at that,
As I stipped to the music just loike an ould sojer,
And wore a big roosther on the top of me hat. —[Bay City (Mich.) Tribune.

What the Privilege Resembles.

Representatives of various industries continue to appear before the ways and means committee and set forth that if the tariff is reduced they will either have to reduce wages or go out of business. Their arguments are probably of as little use as the words of the condemned who is graciously accorded the privilege of saying why sentence of death should not be passed.—[Portland Advertiser.

Then and Now.

1892.

Grandfather's big hat.
Wheat, $1 per bushel.
Wool, twenty cents per pound.
Homestead labor, $6 to $18 per day.
And striking for more.

1893.

Grover's big collar.
Wheat, sixty cents per bushel.
Wool, ten cents per pound.
Labor out of a joy.
Which did you vote for last fall?—[New York Press.

The Two Minute Trotter.

It is hardly a year since horsemen who predicted that the two minute trotter would appear in the future were looked upon as dreamers by less enthusiastic judges. But this great achievement does not appear so visionary as it did. On the contrary, there are many who now regard it as altogether probable. Directum's remarkable mile at Fleetwood, following the sensational record of Nancy Hanks, may well lead horsemen to look with confidence for a two minute record in the not distant future.—[New York Herald.

Baffled at Every Point.

The five thousand dollar a year congressmen of the ways and means committee appeared to very poor advantage in the tariff discussion which took place on Saturday between them and the fifteen-dollar-a-week workmen who went to Washington from Philadelphia and Newark as a delegation representing nearly one hundred thousand wage earners in both cities. The display of congressional ignorance was pitiable. Chairman Wilson and his associate tariff smashers—Messrs. Turner, McMillin, Tarsney and Bynum—were beaten and baffled at every point, and for the very excellent reason that the quack theorists did not know what they were talking about, while the workmen had mastered in the hard school of fact the subjects under consideration.—[New York Recorder.

NEW BOOKS.

THE MCALLISTERS ON THE TARIFF. By John Gallaher. William H. Brine, publisher, Tremont street, Boston.

This pamphlet for a nickel, on a live theme in the form of a story, is full of humor and good sense. McAllister gets fascinated with tariff revision and Mrs. McAllister, who is a protectionist, corrects his mistakes. She says: "We have seen that protection enabled Mulligan to save $1 a day and that this could have paid off the mortgage on his house in 1,000 days. Now, with free trade wages of $1 a day and free trade savings of 50 cents, it will require 2,000 days to pay it off. Besides, Mulligan, because of the wages of masons, brick layers, house carpenters, plumbers, tinsmiths, etc., can buy a similar house for $1,500 instead of $3,000, and he is $1,500 behind. This is the way your free trade has enriched Mulligan; and it is not now difficult to convict the man that free trade, which has robbed him of $1,500, is not honest enough to be allowed at large." This is a specimen of the way in which points for protection are made, and they penetrated McAllister's brain, as they will the brain of any workingman who gives the book a careful reading. For sale by Noyes & Davis.

I love it, I love it, and who shall dare
To chide me for loving my SOZODONT there?
I've used it, and blessed it, a thousand times,
Till my breath is as sweet as poets' rhymes,
Till my teeth are as white as diamonds rare,
Oh! a precious thing is my SOZODONT fair!

To be free from sick headache, biliousness, constipation, etc., use Carter's Little Liver Pills. Strictly vegetable. They gently stimulate the liver and free the stomach from bile.

Piles! Piles! Itching Piles!

SYMPTOMS—Moisture; intense itching and stinging; most at night; worse by scratching. If allowed to continue tumors form, which often bleed and ulcerate, becoming very sore. SWAYNE'S OINTMENT stops the itching and bleeding, heals ulceration, and in most cases removes the tumors. At druggists, or by mail, for 50 cents. Dr. Swayne & Son, Philadelphia.

Every woman who suffers from Sick [illegible] ache, and who dislikes to take bitter [illegible] should try Carter's Little Liver Pills. They are the easiest of all medicines to take. A positive cure for the above distressing complaint; prevent and cure Constipation and Piles. As easy to take as sugar. Only one pill a dose. Price 25 cents. If you try them you will not be without them.

"How to Cure All Skin Diseases."

Simply apply SWAYNE'S OINTMENT. No internal medicine required. Cures tetter, eczema, itch, all eruptions on the face, hands, nose, &c., leaving the skin clear, white and healthy. Its great healing and curative powers are possessed by no other remedy. Ask your druggist for SWAYNE'S OINTMENT.

A woman who is weak, nervous and sleepless, and who has cold hands and feet, cannot feel and act like a well person. Carter's Iron Pills equalize the circulation, remove nervousness, and give strength and rest.

PORTEOUS & MITCHELL.

AUTUMN CHAT.

Mornings and evenings are quite chilly of late—a sure indication that Fall is near at hand.
Well, let it come.
We're all ready. Any time you are come and see us.
In the meantime what have we been doing for those who choose our store to deal in?
This much we have done, and done well,
From the best markets in Europe we have selected the choicest line of Dress Fabrics that we have ever shown.
Our earnest endeavor has always been to collect only trustworthy goods direct from the actual producers wherever they may be and to sell them for the lowest possible prices.
Faithful adherence to this principle has helped us to increase our business many fold—this is particularly true of our dress goods business.
Competent critics—by competent critics we mean persons who show their good taste by being always appropriately garbed—who have already looked through our line say that without any qualification that **"it is the choicest line of dress fabrics they have ever seen in Norwich."**
It contains everything that is fashionable and desirable for women and children's wear for Fall.
We invite the ladies to visit our store and examine our stock. We will be pleased to show every visitor our entire line whether or not they intend buying.
This invitation holds good for today, tomorrow and every day our store is open.

And now a word about Fall and Winter Underwear.
It is here and ready to be sold—a full line of Fall and Winter Underwear.
We have all grades of Men's, Women's and Children's Ribbed and Flat Underwear—all Cotton, Mixed Cotton and Wool, Pure Wool.
In White, Natural, Camel's Hair and Medicated Scarlet.
Infants' Underwear is a specialty with us.
If you want the best value to be had in Men's, Women's and Children's Underwear, buy "Agawam" Underwear.
We have it in all styles and qualities.
"Agawam" is destined to be a household word with all who wear Underwear.

HOOD'S SARSAPARILLA.

Swellings in the Neck

Grateful for Permanent Cure by Hood's Sarsaparilla.

"I cannot praise Hood's Sarsaparilla enough. For twelve years I have been troubled with scrofula and swelling of the glands in the neck. I consulted several physicians and took many medicines. My neck was also operated upon at the Mount Sinai Hospital, but this did not give me any permanent improvement. One day I read in a paper about Hood's Sarsaparilla, and on trying a bottle I found it was doing me good, so I took two bottles more. The swelling has entirely disappeared, and I am as healthy as anyone in the city. Anyone who should see my picture ten years ago and now, would notice

Hood's Sarsaparilla Cures

marked improvement." THOMAS FARRENKOPF, 60 Willett St., New York city.

HOOD'S PILLS cure Constipation by restoring the peristaltic action of the alimentary canal. augi9daw

BLOCKS WENT DOWN.

Seven Rockland Buildings Destroyed by Fire.

HELP ASKED FROM OTHER TOWNS.

Started in a Bakery—Hotel and Factory Destroyed.

[illegible] second time in three years the pretty town of Rockland was obliged to call on the surrounding towns for assistance to subdue flames which promised at one time to destroy the entire business center of the town, and a large portion of the best residences on the main street.

The good work of the local department and the kind assistance rendered by the Abington and Brockton firemen saved a repetition of the sad scene of three years ago. As it is, seven buildings are destroyed and the total loss will be over $55,000, with an insurance less than half that amount.

The fire originated at 11 o'clock in the 3 1-2-story building on the east side of Union street, owned by Jackson and Campbell and formerly occupied by Melvin Shaw as a shoe factory.

The building, a tall, narrow wooden structure, burned fiercely, and a brisk northeast wind sent the burning sparks in all directions. The first floor was tenanted as a bakery by Mrs. M. C. Campbell. On the second floor was H. S. Moulton's carpenter shop and the headquarters of the Rockland brass band.

The fire originated in a bakery from some unknown cause. The fire department was

Unable to Cope With the flames

and word was sent to Brockton, Whitman and the Abingtons for assistance. Brockton and Abington companies promptly responded and did gallant work.

While the factory building was burning the flames spread to the Hotel Jackson, a three and one-half story structure, owned by Jackson & Campbell. The hotel had been closed a few months, but was about to be reopened. The structure is a total loss. A stable in the rear was also destroyed. The residence of David Clapp, owned by George C. Soule of East Boston, was also burned, several of the lodgers barely escaping with their lives so fierce and rapid was the progress of the flames.

While fighting the fire at this point Fireman Joe Burgess of hose 1 was struck by a falling chimney and had his left leg broken, and also received a scalp wound.

The residence of Mrs. Wesley Gurney, on Webster street, with stable, was burned, but the furniture was saved. The flames spread across the street to the Union company building, a 3 1-2 story structure, occupied by the Union company as a grocery store and H. B. Loud & Co., publishers of the Rockland Independent. The building is situated in the midst of a nest of wooden structures, and

A Hard Fight Was Made to Save It.

After a hand to hand struggle the firemen succeeded in their efforts, but it is nearly a total loss. The extensive stock of groceries is almost a total loss. The printing office on the second floor was nearly ruined by fire. Rice's block, John Crowley's house and other adjoining property were damaged considerably. The losses are:

C. L. Rice & Co., furniture $600; insured [illegible].

Union company building, $6000; insured $4000.

Union company grocery stock, $15,000; insured, $8000.

Mrs. L. M. Gurney, stable and house, $3000, insured, $1200.

Rockland brass band instruments, $100; insured, $100.

David Clapp, furniture, $1200; insured, $750.

H. B. Loud & Co., $3000; insured $1300.

Abe Cohen, cigars, $600; no insurance.

H. S. Moulton, $600; insured $200.

Mrs. M. C. Campbell, $1000; insured, [illegible].

Hotel Jackson, $12,000; insured, $6000.

Factory building, $6000; insured, $4000.

George C. Soule's house, $6000; insured, [illegible].

BISMARCK'S SICKNESS

Due to His Obstinacy in Defying the Order of His Physician.

BERLIN, Sept. 11.—Prince Bismarck will return to Friedrichsruhe in about two weeks. It has transpired that his illness resulted from a cold he caught while receiving deputations out doors. Dr. Schweninger had repeatedly forbidden him to expose himself in that way.

Finding the prince obstinate the doctor scolded him, whereupon the prince became angry, and ordered the doctor to hold his tongue. Both the doctor and prince warmed up then and a lively row followed ending in the doctor's leaving the prince's room.

At their first meeting afterward the prince held out his hand to the doctor, and admitted that he had done wrong. Nevertheless, the prince persisted in exposing himself, and he had to pay for his self-will with the severest attack of sciatica he has ever had.

THE RELIGIOUS CONGRESS.

Creeds of the World to Be Considered and Expounded at Chicago.

CHICAGO, Sept. 11.—The greatest of the world's congresses, that of religion, began today with every feature of the great project fully developed, and a great attendance from every part of the civilized world. All forms of religion are represented, and make the congress not alone unique, but absolutely unprecedented in the annals of the world. Confucianists, Hindoos, Mohammedans, Buddhists, Jews, Greeks, Catholics and Protestants meet together, and the ablest men in each of these divisions will undertake to explain and defend the tenets of their order.

Among well known Americans the following will be included in the list of speakers: Joseph Cook, Edward Everett Hale, Cardinal Gibbons, Archbishop Ireland, Bishop Vincent, Lyman Abbott, Andrew D. White, Frances E. Willard, Richard T. Ely and David J. Burrell. Among Europeans are included Max Muller and Henry Drummond.

Besides the parliament of religions, congresses of the various denominations will be held immediately following, whereat plans will be discussed for work along specific lines. Altogether the congresses must prove of the highest order and importance. It will, no doubt, be the largest gathering of church people ever held in the history of the world.

In connection with the parliament of religions, and a part of it, will be the presentation of the various christian and other denominations of their history, doctrine, outlook, etc. The 17th of September has been assigned to the Presbyterian church, and among those who have been requested to set forth the history of Presbyterianism, its doctrines, its teachings, its relations to education, missions, etc., are the following well known scholars: Professor John DeWitt of Princeton; Professor Dwight of Auburn Seminary; Rev. Peyton Hoge of Wilmington, N. C.; Principal Caven of Toronto; Professor William Moore of Hamilton and Sydney college and Dr. John Hall of New York.

Besides the Presbyterian church the following churches and affiliated bodies have made application for sessions for the presentation of their doctrines, etc.: The Lutheran general synod, Sept. 11; Roman Catholic church, Sept. 13; the New Jerusalem and Christian churches and the Jewish congregations, Sept. 13; the United Brethren and Reformed Episcopal churches, Sept. 14; the Universalists, Sept. 15; the Unitarians, Sept. 16; the Jewish congregations, on the evenings of Sept. 15 and 16; the Sunday schools, Sept. 18; the Evangelical association and the Friends, the morning and afternoon of Sept. 19; the Protestant Episcopal church, the evening of Sept. 19 and also the whole of Sept. 20; the Reformed Church of the United States and the Reformed Church in North America, Sept. 21; the African Methodist Episcopal church and the Friends (orthodox), Sept. 22; the Christian Endeavor society, Sept. 23 and the afternoon of Sept. 24; the Swedish Evangelical Mission Covenant in America, the morning of Sept. 25; the Baptists, Sept. 26, and the Methodists, Sept. 27.

Returning Prosperity.

LAWRENCE, Mass., Sept. 11.—There is every sign of returning prosperity and plenty in Lawrence. This morning the print works of the Pacific mills started up and all that now remains closed of the mills of this large corporation is the lawn department. Tomorrow the Washington mills will partially resume, and Friday the entire plant will be in operation.

Gasoline Stove Exploded.

CRESTON, Ia., Sept. 11.—A gasoline stove exploded here yesterday, setting fire to the residence of W. B. Maxwell and resulting in the fatal burning of his wife and daughter Stella. The house caught fire at once and burned to the ground.

NEWS IN BRIEF.

Seven buildings were destroyed by fire at Rockland, Mass.

The steamer Massachusetts of the Providence line broke her shaft.

John E. Berger was found dead in Lake Whitney, Whitneyville, Conn.

The city of Portland, Me., has been sued for $9000 by the Portland Water company.

The Massachusetts naval militia began its fall series of drills on the [illegible].

Edgar G. Wakefield and George Silver of Gardiner, Me., were held for manslaughter.

Jack Edwards of New Hampshire was knocked out by Billy Hinds of Providence in four rounds.

Ralph McKenney was bound over to the supreme court at Biddeford, Me, on the charge of horse stealing.

The bark Rapeas de Mar and 25 passengers are held at anchorage at New Bedford Mass., for lack of proper papers.

Richard Wheeler, a Hatfield (Mass.) negro, was found dead on a couch in his hut, his head was battered in with a club.

John Ball, 75 years old, of Darien, Conn., fell off a load of hay and broke his neck. He was a prominent Odd Fellow and Mason.

Harry Rockwell, 7 years old, son of a wealthy resident of Mill Plain, Conn., was smothered to death in a grain elevator in that town.

Two freights on the Nickel Plate road collided and 40 cars were wrecked. An engineer was killed and three other hands mortally wounded.

Walter Franklin, a well known hunter and fisherman of North Attleboro, Mass., fell from a boat at Lake Pearl and was drowned. He was 28 years old.

A representative from Liberia at Washington, complains that France has absorbed some of its territory and went back with assurance the United States will render aid.

Robert Feeley was arrested at Mansfield, Mass., for breaking and entering a store in that town. He admitted his guilt, and was held in $1000 bonds for the grand jury.

China Getting Mad.

BERLIN, Sept. 11.—The foreign office here is informed that the Chinese government is preparing a protest against France's new aggressions in Siam, and has given orders that the Chinese squadron of ironclads be made ready to sail at a moment's notice.

Killed on the Track.

AYER, Mass., Sept. 11.—An unknown man, 40 years of age, was killed on the railroad track between Ayer and Shirley this morning. He wore a dark coat and vest and light striped trousers. There were $5 and a silver watch in his pocket.

Most of the Mills Running.

FALL RIVER, Mass., Sept. 11.—Today all but 18 of the 67 mills in this city are running on a reduced scale of wages, varying from 8 to 11 2-5 per cent. less than the schedule of last week. There was no resistance of any kind offered.

Thieves Had the Combination.

BROCKTON, Mass., Sept. 11.—The sum of $175 was stolen from the safe of James F. Pierce, a druggist in this city last evening. He left the money locked in his safe in the back office while he was attending customers in the front part of the store. When he went to the safe at closing time he found that it had been unlocked with the combination and the money taken.

Eight Wells Condemned.

NEWBURYPORT, Mass., Sept. 11.—The town of Newbury (Byfield) has recently experienced an epidemic of diphtheria and several deaths have occurred. The state board of health assisted in investigating the cause of the sickness, which was found to be impure water taken from old wells about town. Eight wells were condemned by the state officials.

Woolen Mills Closed.

ROCKVILLE, Conn., Sept. 11.—All the big woolen mills in this city, nine in number, have closed for the entire week, something that has never occurred here before. The Adams yarn mills and the Fitch sookinet mills are also closed. Only two mills in the city are running this week.

Italian Stabbing Affray.

BENNINGTON, Vt., Sept. 11.—Quite a serious stabbing affair came off last Sunday afternoon in a row among Italians employed on the sewer job in this village. Knives and stilettos were freely used and several of the combatants were badly cut. One of the number was so badly stabbed that his recovery is considered doubtful. Three of the ringleaders were arrested, and are now in the county jail awaiting trial.

Another Company Starts Up.

BOSTON, Sept. 11.—The Walker-Pratt manufacturing company started up its Watertown foundry this morning. The works will run on full time, and will employ about 150 men. The firm has large orders on hand, and will probably be able to give its employes permanent employment.

Hindoos Killed by Soldiers.

CALCUTTA, Sept. 11.—An attempt made by Hindoos on the 6th inst. to capture a number of commissariat cattle at Busalpoor, in northwest Bengal, resulted in a dangerous riot. Soldiers fired at the rioters, killing three and wounding several.

Miners Resume Work.

London, Sept. 11.—The miners of North Staffordshire have gone back to work at their old wages.

THIRD TRIAL RACE

Cup Defenders Battling in a Piping Breeze.

VIGILANT HAS BEST OF START.

Colonia Follows Closely—Jubilee and Pilgrim Start Poorly.

SANDY HOOK, Sept. 11.—The conditions for today's race of the four would-be cup defenders are clear weather, with a strong heavy, easterly breeze that has kicked up a sea all along the Jersey coast.

The wind is coming at the rate of nearly 30 miles an hour, and is what is known in nautical parlance as a piping breeze.

There is a heavy ground swell, which makes even the big steamers passing along off the coast pitch and heave like corks on the monster rollers. Sailing vessels have no use for topsails in such a gale and are plunging along under double-reefed mainsails and seem to be having a hard time of it at that among the foaming whitecaps.

Overhead the sky is clear and the sun is shining brightly, but down in the south there is a heavy bank of gray clouds skirting the horizon and giving promise, so the sailors say, of nasty weather before the day is over.

The yachts came down to the line for the start at 10:02, the Jubilee in tow of a tug, while the other three were under sail.

The Starting Gun

was fired at 11:33, and almost immediately the Vigilant shot across. She was followed by the Colonia at 11:40:30, Jubilee at 11:49:45, and the Pilgrim at 11:48:45. At 12:15 the Colonia drew ahead of the Vigilant but at 12:30 the Morgan boat had regained her position, having the windward berth, and was about a mile ahead.

At 12:50 the Vigilant passed the Colonia's bow, and is the leader by a good safe margin. She has been sailing a grand race, and those who said the Vigilant was a racing machine, and of no use in a breeze, must now eat their words.

The windward work today has been a severe test of all the boats, their hulls as well as rigging. It is not at all probable that in any of the cup races more trying weather will be found.

At 12.57 the Colonia came round on to the starboard tack to follow the others. She seemed to foot fast enough but sags down to leeward.

At 1 o'clock the Jubilee stayed over on to the port hitch to cross the sterns of the Vigilant and Colonia. The Pilgrim was the last boat, and while she seemed to be sailing well did not gain perceptibly on the leaders.

The Jubilee crossed under the Vigilant's stern at 1:05, and held on the port tack toward the Colonia at 1:08.

The Jubilee passed under the Colonia's stern at 1:08:18. The Vigilant tacked ship and stood off to the southward on the port tack. It is evident that all the boats are going to keep well together, and give a fair trial of their speeds in this breeze.

French Fleet Coming.

BOSTON, Sept. 11.—M. Thiebault, the French consul at Boston has informed the mayor that on or about Sept. 12, a French fleet will arrive in these waters. The fleet will be composed of Rear Admiral Saliandrouze de Lamornaix's flagship "Naïde", the "Nisly" and the "Laguais de Geoauilly." The rear admiral will call at city hall and pay his respects to the mayor and the city of Boston will banquet the famous French officer and his sister.

At 1:20 the Colonia tacked and followed the others on the port hitch. She is well to windward of the others, but the Vigilant is so far ahead that she could cross her bow easily. The Jubilee is sailing faster than the others and has opened a gap between her and the Vigilant. All the boats go fast but the Vigilant seems to hold on the best.

At 1:36 the Vigilant and the Colonia came about and kept away on the starboard tack. At 1:40 the Jubilee tacked out to the [illegible] hitch.

The order at the turn was Vigilant, Jubilee, Pilgrim, Colonia, and at 1:55, ten minutes after, the Jubilee was thought to be leading.

The Vigilant finished first at 3:46:45, Colonia second, Jubilee third and Pilgrim fourth.

FOR QUINCY'S SHOES.

Charles Robinson of New York to Be Assistant Secretary of State.

NEW YORK, Sept. 11.—The Times says: Charles Robinson of this city is said by those who claim to have authentic information to be slated as the successor of Josiah Quincy of Massachusetts as assistant secretary of state.

Mr. Robinson, though but 34 years of age, has made a name as an authority on international law, and has written largely on that subject. He studied under Professor Falkenbridge, who is considered the greatest living authority on the subject.

Mr. Robinson has been engaged in newspaper and magazine work in this city almost since his boyhood, and is now one of the editors of the The North American Review. He is at present in Washington. To a reporter his father, Nugent Robinson, said that the story of his son's probable appointment is, in his opinion, true.

Cholera in a Prison.

CONSTANTINOPLE, Sept. 11.—Cholera has broken out in the central prison here, in the French and municipal hospitals in Pera and in the lunatic asylum in Scutari. About 15 cases are reported daily. The mortality is about 50 per cent. Business is much affected.

Horses Burned at Lowell.

LOWELL, Mass., Sept. 11.—Twelve horses in the stable of A. N. Stevens on Second street were burned in a fire which started about 4 o'clock this morning. Considerable damage was done to wagons, harnesses and the building.

CROWN AND SCEPTER.

The Empress Frederick owns a chain of 89 pearls that is valued at $175,000.

Wilhelmina, the little queen of the Dutch, is called in all official documents "the king."

The German emperor has set an example to dudes by appearing with a watch bracelet and a gold chain bracelet, both on the left arm.

The latest born son of the crown prince and princess of Greece makes the number of Queen Victoria's great-grandchildren 18. He is the eleventh grandchild of the Empress Frederick.

The Empress Elizabeth of Austria lately added a codicil to her will. The codicil says, "I wish to be interred in Corfu, near the seashore, so that the sound of the breaking waves may ever be heard at my tomb."

Queen Margaret of Italy has a long memory. She refused to accompany King Humbert on a visit to Queen Victoria at the Villa Salmieri recently because Queen Victoria had neglected to return her call of five years ago.

The Princess Maud, who has always been the favorite of her father, the Prince of Wales, has blossomed out into quite a beauty this season. The Princess Victoria is the useful member of the family and plays the part of the peacemaker always.

MISTAKES OF HISTORIANS.

William Tell did not found the Swiss confederation, and the story of Gessler has no historic basis.

There is no historic authority for the statement that little George Washington cut down the cherry tree.

Richard III was not a hunchback, but a soldier of fine form, some pretension to good looks and great personal strength and courage.

The mother of Coriolanus did not intercede with her son to spare Rome. The story has no better foundation than that of Horatius.

Charlemagne's paladins had no existence, and the history of Charlemagne himself is so clouded by myth as to be utterly unreliable.

Wellington at Waterloo did not say, "Up, guards, and at them." The words were put into his mouth by a lively English writer.

The crew of Le Vengeur, the famous French ship sunk by an English man-of-war, did not cry "Vive la Republique!" They bawled for help, and the English boats were sent to their assistance.

Constantine the Great was not a saint. He murdered his wife, one or two of his sons, a considerable number of his other relatives and was guilty of a score of assassinations and murders. He was a Christian only in name.

Charles IX did not fire on the fleeing Huguenots from the window of the Louvre during the massacre of St. Bartholomew. On the contrary, he was frightened almost to death by the reports of the guns and spent the time weeping and wringing his hands.

The pass of Thermopylæ was defended not by 300 but by at least 7,000 Greeks, or, according to some writers, 12,000. The 300 were the Spartan contingent, who showed no more bravery on that occasion than their companions in arms from the Greek states. —St. Louis Globe-Democrat.

CURIOUS CULLINGS.

A gentleman must kiss every lady he is introduced to in Paraguay. It is the custom of the country.

There is a Jewish legend that tells us that God did not put a stop to the building of the tower of Babel until it had reached a height of 10,000 fathoms, or nearly 12 miles.

Branford, Conn., has a curiosity in the person of a man who can see like an owl. In the daytime his vision is poor, but in the night he has no difficulty in distinguishing objects.

THE STOCK MARKET.

Dealings in Leading Securities in Boston and New York.

BOSTON, Sept. 11.—In the outside market call money is quoted at 8 to 10 per cent, and time money is nominally 6 per cent.

The market opened weak, influenced by the September report of the statistician of the department of agriculture, which was far from favorable. A decline is noted in the condition of all the cereals. The security markets are on a level sufficiently low to discount many unfavorable developments, and the country is looking with hope to the future on its calculations and estimates.

There is less demand for stocks in the loan crowd, but there is a fair short interest. There is a demand for Atchison, both in New York and abroad. President Reinhart, who has been in the west looking over the ground for future business reports favorably. There is one thing that is emphasized particularly, to the effect that the corn crop of Kansas will be the largest in the history of the state, and owing to the shortness of the crop elsewhere will bring good prices.

The prices of American securities in the London market were much lower, and this influenced to a great extent the prices in our markets. The stocks showed a decline of from ½ to 2 per cent, principally in the grangers. Sugar common opened at 80¾, off 1¼, then fell to 80⅛. This was followed by a sharp rally, which carried the price up to [illegible]. Toward noon it sold at 82, after a slump to [illegible], considerable trading being done.

Atchison opened off ¼ to 21⅝ and remained firm around that figure. Chicago, Burlington and Quincy came out ¼ off at 85¾, then fell to 84, up to 85, and at 12 o'clock the price was 84⅛. [illegible] the first quotation was 42; this was strengthened by an advance to 43¾. New York and New England was dull and strong to a certain extent. There does not appear to be a great deal of stock offered, and when it does come out the price advances. It sold at the opening at 25 and advanced to 25¾. This was followed by a decline to 25¼.

THE TIME TO ADVERTISE your goods is when business is dull. Try THE BULLETIN and note results.

The Bulletin

Norwich, Tuesday September 12 1893.

The Bulletin should be delivered everywhere in the city before Six a. m.

Subscribers who fail to receive it by that time will confer a favor by reporting the fact to the Bulletin Co.

The Norwich Weekly Courier is the best weekly newspaper in New England at 50c a year.

The Weather Today.

Indications for Connecticut: Fair weather; stationary temperature.

NORWICH AND VICINITY.

CITY NEWS.

The subscription list at the Otis Library has reached the 2,000 mark.

A. O. U. W. meets tonight. An officer of the grand lodge will be present.

W. Tyler Olcott of Trinity college leaves town to resume his studies today.

Regular meeting of Sebequonash Council, No. 11, tonight, with entertainment.

The examinations today for the Free Academy will be in arithmetic and history.

The Uncas Paper company expect to start their new mill at Thamesville about October 1.

The Uncasville Manufacturing company's plant, in which 350 hands are employed, resumed operations Monday, after being closed a week.

Passengers on the Gypsy this afternoon can see the new United States cruiser Castine, as well as the Dolphin and Vesuvius, which are in New London harbor.

Contractor Donovan placed the four terra-cotta cornices of the second story of the Masonic temple in position Monday. He expects to have the front up by October 1.

City Editor Edward Browne of The Record left town last night for a week's vacation in New York city and vicinity. Mr. F. W. Carey assumes Mr. Browne's duties in his absence.

A decision has been handed down from the supreme court of errors in the case of J. P. Collins & Co. vs. The Richmond Stove company, argued at the May term, 1893: No error. Reasons by Chief Justice Andrews.

A picked nine suffered defeat at the hands of the Neptunes Monday, the score standing 20 to 8. Lord and, Trafton and Manchester and Shaw were the respective batteries. The first named were reinforced by several of the Clipper players.

The members of F. L. Allen Truck Co. of New London, have received new uniforms, which will be worn for the first time on the occasion of their visit to Middletown, October 5, to participate in the annual parade of the Forest city fire department.

On and after Friday the fare on the electric railway between Wightman's corner and Franklin square will be reduced and the sale of Norwich Town and Bean Hill tickets will be discontinued. Cars will commence today to run regularly to the Yantic crossing.

To Remain in Norwich.

Mr. Edwin F. Harding is at present visiting his mother at Topsfield, Mass. His friends will be glad to know that he intends to spend the winter in this city, and is making preparations for a ladies' class in physical culture.

A Ruined Horse.

A dispatch from Clinton to The Hartford Times says the stolen horse belonging to liveryman E. A. Kelsey of that place, and taken from the thief by Mr. Asa Backus at the East Great Plain, last week, is ruined. Saturday the horse was driven as far as Saybrook, and after resting over Sunday was driven to Clinton. The thief is still at large.

Suspensions and Railroad Changes.

On Saturday last four freight crews, with their conductors, were laid off on the Shore Line division of the Consolidated, owing to the lack of work. At the same time Conductor George Babcock and his passenger train hands were suspended for the same reason. The last newspaper train for the season completed its run Sunday, and on the 31st inst. a number of important changes in the running time of trains will go into effect.

Too Sharp for New Londoners.

Constable George Hill and Grand Juror M. C. Walter of New London have been hiding behind stone walls and in barns for the past week at Chesterfield, endeavoring to entrap a Russian Jew by the name of Levy, who is wanted for assault on a woman living in the same house. He manages to get home and obtain food, but immediately flees to the woods on the approach of officers, and so far has proved too cunning for them.

No Strike on the New England.

The committee of employes of the New York & New England railroad appointed to confer with President McLeod regarding the cut of 10 per cent. in wages has returned to Hartford from Boston.

The members of the committee are reticent as to the details of the interviews.

They claim to have a written agreement signed by him, under which wages will be restored to the former rates on December 1. The men are satisfied, and all idea of a strike has been abandoned.

Hummed Out'n Event.

Local horseflesh is being aired at the fair grounds these pleasant afternoons, and there are spirited brushes and exciting stabs at records. Country Boy did a mile in 2 34¼ the other day, and the two pacers of his trainer, Peter McNee of New York, C. I See and Charley Peg, have traveled in 2 31 and 2 24¼ respectively. Mr. Talcott H. Camp's Happy Jack strikes a 2 35¼ gait, and Mr. Philip Burns' twenty-two-months-old Quartermaster has done a mile in less than three minutes.

Mr. F. R. Parker of the Wauregan house has purchased an equine gem over which judges wax enthusiastic and prophetic. His record is 2 30¼.

Ten horses have lowered their colors to Jack, Mr. Edward Howard's tireless steed this season, and he has trotted a mile in 2 58 without a skip.

The Jewish New Year.

Monday occurred the Jewish New Year, and the usual quiet celebration was in progress among the Hebrew residents of the city. The orthodox followers of the Jewish religion will continue their devotions today, celebrating two days. This custom is said to be due to the lack of positive knowledge of the exact date on which the first day of the Hebrew new year falls. The Hebrew months are based upon the changes of the moon, and at the time of the Babylonian captivity, it is said, the day upon which the cycle was completed was lost. Hence, in order to ensure celebration of the proper day, the more strictly religious Hebrews worship on two days of each year.

After Monday there is a period of ten days, termed the penitential time. This is concluded a week from Wednesday, when there comes the Day of Atonement, with all day services in the synagogues and total abstinence from food and drink on the part of the worshippers.

The Way of the Transgressor.

Eben C. Miner was arrested by Officer Irish early Monday morning and lodged in the lock-up. He was hanging to the Otis library fence, too drunk to help himself.

Louis Coberman, a Hebrew, was transported to police headquarters in an express wagon by Officer Stanley Monday afternoon. The policeman found him hopelessly drunk on Washington street.

Stabenow—Gelb.

A pleasant party of relatives assembled at the home of Mrs. F. Gelb Monday evening to witness the marriage of her oldest daughter, Miss Emma F. O. Gelb, to Otto Stabenow, nephew of Mrs. G. Geduldig. Miss Albertina Geduldig was bridesmaid and William Gelb officiated as best man.

Following the ceremony the Marine Drum corps and the Norwich Liederkranz tendered a reception to the newly married couple. Henry L. Antoine and C. C. Carpenter in banjo and guitar solos added much to the entertainment.

Naval Vessels to Be at New London.

The United States dispatch boat Dolphin sailed from New York to Washington Friday to take on board Secretary of the Navy Herbert, who expected to reach New London on the vessel late Monday afternoon in time to be an interested spectator of the trial trip of the new cruiser Castine.

In addition to the Dolphin, the dynamite cruiser Vesuvius and the tugs Fortuna, Nina and Iwana have been assigned to duty in connection with the official trial of the Castine and are expected in New London today. These steamers will be stationed at intervals along the course to take time and tidal observations.

Personals.

Mrs. N. Lucas and son are visiting friends at South Hadley Falls, Mass.

Miss Bessie Brewster of Grove street has returned home from a pleasant visit to the World's fair.

Sheriff Arthur L. Story leaves this morning for Concord, Mass., on a legal errand for State Attorney Lucas.

H. A. Butterfield, of the firm of H. R. Butterfield & Co., Mulberry street, New York, is the guest of Mr. Charles Meech of North Main street.

Mr. Charles L. Browning left for Chicago and the World's fair last night. He will rejoin his wife, who has been with friends in the White city the past fortnight.

Mr. Robert Brewster, son of Elias M. Brewster of this city, who holds an important position in a Hartford banking institution, is home from the world's fair.

The Rev. Frank Palmer of Norwich occupied the pulpit in the Congregational church at Stonington Point Sunday, morning and evening. His sermons showed deep thought, and were listened to with close attention by the large congregations present.

Judge Torrance and wife have been enjoying a short visit with Architect Preston's family. They left Sunday evening on the City of New York in company with Dr. Wm. Witter and family for an extended trip to Baltimore, Washington, Richmond and other southern cities, and will also visit Chicago and the World's fair. They will be away six weeks.

HOLLAND IN CUSTODY.

A Slippery Young Fitchville Man Arrested by Officer Doty.

Officer William H. Doty unwittingly arrested a fugitive from justice at 9 30 o'clock Monday evening when he lugged John Holland to police headquarters for his drunken antics on Main street.

Two years ago Constable Orrin Price of Fitchville placed Holland in custody for some petty offence. The officer chained his prisoner to the side of his barn while he went about his chores. Several hours later, when he sought his charge again, he found the bird had flown, and with him chain, staples and a good slice of the side of the barn. The fellow made good his escape, and has not been seen hereabouts since till he fell a prey to the Norwich policeman.

Captain Burdick had a sharp eye on Holland last night, lest the rugged young barn-raiser carry off the lockup.

The Norwich Weekly Courier is the best weekly newspaper in New England at 50c a year.

WESTMINSTER.

Death of Howard R. Alford—Other Matters of Interest.

The death of Howard R. Alford occurred at his home on Prospect street at 7 o'clock Monday morning after an illness of ten days. His first ailment was gastric fever, but it developed into typhoid fever which finally resulted in his death. Mr. Alford managed the hardware business carried on by his father, Giles H. Alford, and was quite a prominent man in business and social life. He was past chancellor in Natchaug Lodge No. 22, K. of P., and a member of the fire police. He leaves a wife and three children and was 38 years of age. The funeral services will be held Wednesday, and he will be buried with Pythian rites by Natchaug Lodge No. 22.

The Hartford City band, C. P. Hatch, leader, has been engaged to furnish music for all three days of the fair. Tuesday, the opening day, will be bicycle day and several races have been arranged for, in which a number of crack riders have entered.

Wm. F. Palmer has left the employ of the W. G. & A. R. Morrison Machine company and accepted a position with the United States Express company.

A large delegation of the Thread City cyclers go to Springfield today to attend the annual race meeting of the Springfield club.

Thomas F. McLaughlin will enter the medical department of the New York University at the opening of the college year for the study of medicine.

WESTMINSTER.

Opening Schools—New Teachers—Visitors—Personals.

Miss Mary E. Greene has returned to South Manchester to teach, occupying the same position as last year at an increased salary.

Miss Annie L. Lovett, who has taught most acceptably in the schools in this vicinity, rejects all offers here and will go to Burlington, this state, to teach.

Miss Edith Tracy has commenced the fall term at (Gay Head) district No 9.

Miss Alice L. Greene, who has been teaching most acceptably the past year, has commenced her second year of study at the Normal school at Willimantic.

Mr. E. D. Thompson and his son Charlie are at his uncle's, A. C. Greene.

Mr. Charles B. Greene and wife of New London have been guests at Evergreen cottage.

Mr. and Mrs. M. P. Johnson and son of New London, who have been stopping with Mrs. L. Gibson, have returned home.

Miss Nellie Corey has commenced teaching in district No. 6 (Bradford)

Mr. S. Knickerbocker is home on a vacation from Brooklyn, N. Y.

Mrs. Arthur Kerr has returned to her home in Stamford, her brother, Daniel Knickerbocker, accompanying her.

Edward C., son of Mr. and Mrs. A. C. Greene, has entered Phillips academy, Andover, Mass.

Mrs. John Tracy of Preston is visiting relatives in this place.

Miss Nellie L. Short of South Killingly has been engaged to teach in district No. 10 (Westminster) and will commence September 25.

The much-needed repairs upon the church, that have been occupying most of the summer, are completed and its appearance is improved.

The lake of pitch, or asphaltum, in Trinidad, from which comes most of our asphalt, is certainly one of the marvels of lakedom.

There are 110 women lawyers in the United States, and eight of this number have earned the right to practice before the supreme court. To acquire this it is necessary to have practiced for three years at the bar, without a flaw in that career.

The verdict in a case at Salem, Ill., recently was set aside because some of the jurors had engaged in a game of cards. A new jury had been chosen.

DIED.

ADAMS—In Lisbon, Sept. 8, 1893, Jeremiah Kinsman Adams, aged 67.
Funeral Tuesday, Sept. 12, at 1 o'clock.

LESTER—In this city, Sept. 9, Charles D. Lester.
Funeral from his late residence No. 21 Thames street, Tuesday afternoon, Sept. 12, at 2 o'clock. Burial private.

CHAPMAN—In this city, Sept. 10th, Phebe A., wife of Enoch F. Chapman.
Funeral services at her late residence, No. 49 Laurel Hill avenue, on Wednesday, September 13, at 4 o'clock p. m. Relatives and friends are invited to attend.

NEW ADVERTISEMENTS.

WON STAKES WORTH $11,000.

Arion Makes a Successful Debut at Chicago Races.

SON OF ELECTIONEER.

The Four-Year-Old Stepped Off His Miles in Perfect Gait.

CHICAGO, Sept 12—Arion, the sensational son of Electioneer made his debut as a four year-old at Washington park today and won the Spirit of the Times stakes, worth $11,000. The race was for four-year-olds and opposing Arion were Czar, Trevillian, Belle Flower and other flyers, including Trion. After Trion had taken the first heat Arion trotted three heats without being headed and at no time was he forced to his speed limit, the fastest mile being done in 2 13¾.

Belle Flower, the Electioneer filly, was driven by Arion's trainer and driver, Charles Marvin, the colt being turned over to Hickok for this race. In each heat Belle Flower broke before reaching the first turn and lost her chances. Czar could not race with Arion and was last in each heat. Trevillian proved himself to be an honest trotter, but he, too, was slow for Arion, who stepped off his miles in perfect gait. Arion was favorite at $50 to [illegible]. After the first heat Trevillian was an even money favorite, and after the second Arion sold even against the field.

For the third time during the meeting Jennie K. won, capturing the 2 25 trot, after dropping two heats to Brazil. The race was good, thirteen horses starting and none being distanced. Jennie K. was a big favorite.

The two-year-old trot was won in straight heats by Baron Dillon. The 2 17 class was not finished. Two heats were trotted and both went to Clara D. She was a hot choice in a field of fourteen.

The drizzling rain did not interfere with the racing and 6,000 persons were in attendance.

MYSTIC PARK RACES.

Cuckoo Wins the 2 24 Race—A Walkover for Gypsy M.

BOSTON, Sept 12—The September trotting meeting opened at Mystic park, today, and was [illegible]. Weather and track conditions were almost perfect.

In the 2 24 race, Catapult and Gray Dawn each won two heats, then became tired, and Cuckoo, who had been tailender in the last two heats, came up fast and walked away with the next three heats and the race.

The 2 37 pacing race was almost a walkover for Gypsy M., who made fast time.

The 2 18 class was unfinished after Marguerite had taken one heat and Howard L. two. The race went over till tomorrow. Summaries:

2 24 class, purse $1,500.

Silver Purchases.

WASHINGTON, Sept. 12.—Of the 336,000 ounces of silver offered yesterday, the owners accepted the counter offer of $0 7540 cents per ounce by the treasury department for 120,000. Eleven thousand ounces were bought outright, so the purchases for the day aggregated 201,000 ounces.

The silver purchases thus far this month amount to 744,000 ounces.

Appointed Special Agent Treasury Department.

WASHINGTON, Sept 12—Secretary Carlisle has appointed Mr. T. Aubrey Byrne of Boston special agent of the treasury department, with headquarters at Boston. Mr Byrne made for himself an enviable reputation in connection with his exposure of the New York sugar frauds in 1887-8-9 and other valuable services by which large sums of money were saved to the government.

His Whereabouts Known.

SAYBROOK, Sept. 12.—It is learned from good authority that Edward Durham, the missing Everyman of this town, is in Kansas and has found employment with a street car company.

The wife of Durham had given up her husband for dead and had removed from here to her home in the northern part of the state.

Ovation to the New G. A. R. Chief.

LYNN, Mass., Sept. 12.—All Lynn turned out this evening to welcome home the new commander in chief of the Grand Army of the Republic, Captain J. G. B. Adams, and he received the biggest ovation a Lynn citizen ever received. In the evening a reception was held at Post 5 headquarters, after which a parade was made through the principal streets.

For Repeal of Federal Election Laws

WASHINGTON, Sept. 12—The Tucker bill for the repeal of the federal election laws will be reported to the house of representatives Thursday and the debate thereon will probably begin at the next succeeding session. This action was determined upon at the meeting of the committee on election of president and vice-president and representatives in congress today.

Regular Quarterly Dividend Recommended.

NEW YORK, Sept. 12.—The executive committee of the Western Union Telegraph company today recommended the declaration of the regular quarterly dividend of 1¼ per cent. payable October 16.

Target Practice in Gardiner's Bay.

NEWPORT, R. I., Sept. 12.—U. S. Monitor Miantonomoh, which has been lying in the harbor for about two weeks, unexpectedly sailed this afternoon, going to Gardiner's bay for target practice.

Suicide at New Haven.

NEW HAVEN, Sept. 12.—Josiah G. Darlin, 66 years old, committed suicide this morning by hanging himself in a barn near his home. He had been in poor health for some time, and left a note saying he was tired of life.

M'KINLEY DAY.

Ohio State Campaign Opens—Faith in Republican Principles.

AKRON, O., Sept. 12.—Every building of any size in Akron had its red, white and blue streamers this morning. All business places and many residences had their quota of flags, and every street corner and vacant lot about the center of the town contained its lunch stand. Tents of all sizes, shapes and colors held squatter sovereignty along the principal business thoroughfares. Many of them were put up and occupied by churches and benevolent organizations, anxious to turn a penny by hunger of the thousands expected to help the republicans of Akron to celebrate McKinley day, the opening of the governor's campaign in Ohio.

Mr. McKinley addressed the multitude, in a lengthy speech on finances, the tariff, pension suspensions, etc., and concluded as follows:

I have an abiding faith that upon the issues which are before us, and which divide us the right will triumph by the judgment of the tribunal of the people. Both parties cannot be right. I have a confidence unshaken that upon every issue presented by the democratic party the republican party is right. Its triumph, however, will not come without effort and energy. We learned last year that faith without works did not win the victory. I do not appeal for a party triumph merely, but for a cause which is the people's cause. I rest my appeal upon the principles and policies for which the republican party stands—protection and reciprocity, honest money and an honest ballot. These secured and continued will insure the highest interests of the people, advance the general welfare, promote our industrial development, encourage the true American sentiment, establish confidence in the future, and lift the clouds which have settled upon the labor and enterprise of the people.

CHARLES DE LESSEPS FREE.

Was Released from Prison on Tuesday—Had Served Six Months.

PARIS, Sept. 12.—Charles de Lesseps, who was sentenced to five years' imprisonment for complicity in the Panama canal scandal, was released from prison today. The sentence of five years' imprisonment was set aside on appeal to the court of cassation, which decided that the prosecution had not been inaugurated within the time set by law.

Subsequent to the above sentence, however, a sentence of one year's imprisonment was passed upon Charles de Lesseps, on his conviction of having corrupted ex-Minister of Public Works Baihaut to support the Panama lottery bonds bill.

The court ordered that this sentence should run concurrently with the preceding one. This last sentence prevented his release when the court of cassation decided that the five years' sentence was illegal. He had served about eight months of the sentence when the prison officials were today ordered to release him. Most of this time was spent in the prison hospital.

SAFETY AT SEA.

Meeting of National Board of Steam Navigation.

NEW YORK, Sept. 12.—The 22nd annual meeting of the national board of steam navigation met today at the Fifth Avenue hotel. Capt. F. A. Churchman, who is the chairman of the board, in his report presents several very vigorous opinions, and calls upon the board to take immediate and decisive action on a great many questions of vital interest to the owners of ocean craft.

The present system of night and fog signals, Capt. Churchman declares, is very inefficient and the cause of many of the great fatalities of today. For the regular night signals he recommends that a special commission be appointed to revise and perfect a national system and that all sailing and steam vessels be compelled to adopt the system. So far as the fog signals are concerned, he says that no practical mariner of the day has any confidence in them, and in time of fog, if he wants to be perfectly safe, the only thing to do is to stop.

He suggests that every vessel be equipped with powerful electric lights, or polarized lights on which the fog has very little effect.

In the matter of the removal of the numerous wrecks in mid-ocean, that endanger passing vessels, the captain proposes a novel idea and grows slightly sarcastic. He says that as it is now, the numerous war ships of the United States navy have nothing to do but to participate in expensive naval reviews and run back and forth between this and other ports occasionally dropping a few blue coats in some port where they proceed to raise a row and give the United States a bad name. In place of this, he says, the big boats should be useful as well as ornamental, in other words, that they should be delegated to either tow these wrecks into port or destroy them so they will no longer be a menace to passing vessels.

Leading Democrats at Washington in Conference.

WASHINGTON, Sept. 12.—A conference of leading democrats was held this afternoon. There were present Senators Gorman, Voorhees, Faulkner, Gray and others. The senators are said to have discussed the possibility of bringing the silver question to a vote. A canvass of the names of those who intended speaking on the subject disclosed the limit of legitimate debate would not be exhausted until this week had ended, and possibly not until one or two days of the next had been consumed.

Cloture is regarded as impossible and the vote will be reached, if reached at all, by the test of physical endurance. Early next week a motion will be made unless it is made sooner to take effect, on a day certain providing for night sessions and these sessions will be made continuous, so that a quorum will be required every hour of the twenty-four. In this way, coupled with the powerful influence of those interested, the repealers think they can force the silver men to consent to taking the vote.

Steamer Movements.

At New York—Kaiser Wilhelm from Bremen; Obdam and Dora Foster from Rotterdam.

At Boston—Cambroman from Liverpool.

At Glasgow—Anchoria from New York.

CONNECTICUT NEWS IN GENERAL.

Putnam Post Office Robbed - Rockville Trotter Drops Dead.

A POST OFFICE ROBBERY.

The Putnam Night Watchman Has an Encounter with the Burglars and Frightens Them Off.

PUTNAM, Sept. 12.—Considerable excitement prevailed in town Tuesday morning when it was announced that burglars had entered the post office. As Night Watchman Franklin was passing the post office Tuesday morning at about 12.45, he flashed his lantern on the building, and to his surprise he saw two burglars at work near the safe. But in his haste to capture them he did not see the one at the door, and as soon as the lantern was turned off the burglar jumped upon Franklin, and assisted by the other two they beat him severely about the head.

The burglars in their haste to escape left their tools and ran down the street. Night Watchman Franklin fired several shots after them, but none of them took effect.

One of the bullets struck the large bay window of Parker's shoe store, cracking it.

The three burglars forced in the side door with a crow-bar, and in this manner secured an entrance. They had just completed boring a hole in the top of the safe, when they were disturbed. Had they been successful in their attempt, they would have secured only $7 in stamps. Investigation shows that some of the tools left by the burglars were stolen the same night from L. B. Durfee's blacksmith shop.

Bright and early Tuesday morning Deputy Sheriff Parks arrested five suspicious looking fellows and they will be held for trial. The population of the town of Putnam is increasing continually, and two night watchmen are needed.

TOLLAND COUNTY FAIR.

A Rockville Trotting Horse Drops Dead on the Track.

ROCKVILLE, Conn., Sept. 12.—The forty-first annual fair of the Tolland County Agricultural society opened a three days' exhibition at Hyde park, this city, today. The farmers of the county make a good exhibit of agricultural produce and fruit, considering the poor season. Attendance 1,000.

This afternoon the races were trotted. The first was won by Edward Kenney's b. g., Glory of Rockville. Best time, 2 51¾; Sadie Wilkes of Hartford second. At the end of the first heat Charles E. Martin's Dexter, of Rockville, dropped dead of heart disease.

The three-minute class, purse $150, with thirteen entries, was won by Allan Rick's Princess H., of New Britain. Best time 2 38¼.

Hartford Pickpockets Go to State Prison.

HARTFORD, Conn., Sept. 12.—Peter Farley and Francis Nolan alias Curtis, the two pickpockets who relieved Miss Elizabeth Hilling of 164 West Chester park, Boston, of her wallet and its contents at the union depot in this city last Thursday, were today sent to state prison for four years each. Miss Hilling was on her way to Chicago by the Isabella express, but deferred her trip to the World's fair and remained in this city till today in order to be present at the trial. Chief of Police Bill in the meantime looked the record of the two men up in New York, and found they were no amateurs at the business.

Goldenstein's Two Wives.

NEW HAVEN, Conn., Sept. 12.—The two wives of Isaiah Goldenstein, who is in jail charged with bigamy, are making themselves unduly prominent. Mrs. Goldenstein No 2 yesterday created a great disturbance because the authorities would not allow her to go to jail with her husband, and tonight Mrs. Goldenstein No. 1 has attached real estate belonging to Mrs. Goldenstein No. 2, amounting to $15,000, for alienating her husband's affections. Goldenstein is a wealthy local real estate owner.

The Twenty-seventh C. V. Reunion Today.

NEW HAVEN, Conn., Sept. 12.—Preparations for the Twenty-seventh C. V. reunion here tomorrow are complete. It will be an elaborate affair. A huge tent has been erected at the base of the east rock monument, where the banquet will take place. More than 250 people are expected. General Couch will arrive early and will be the guest of ex-Mayor Henry F. Peck. A notable feature of the occasion is that three members are the only survivors of the Mexican war in this city. They are Edward J. Steele, Homer H. Penn and Almarine Hayward. Added interest in the reunion is to them lent through the fact that tomorrow will be also the forty-sixth anniversary of the battle of Chapultepec, in which they all participated.

To Provide for the Education of the Blind

HARTFORD, Conn., Sept. 12.—The state board of education for the blind today decided to provide for the education of all blind persons of suitable age upon certificate of town clerk that they are eligible under the law. The board will also clothe them if necessary. All blind persons sent by the governor to the Perkins Institute for the Blind at Boston are to be under the control of the board. The salary of the secretary, Frank B. Cleveland, the blind lawyer, was fixed at $1,600, $600 of which is to be paid to Mrs. Emily Wells Foster, the assistant secretary.

Disappearance of a Hartford Jeweler.

HARTFORD, Conn., Sept. 12.—Peter Kelr, a manufacturing jeweler, 26 years of age, who worked for Blair & Coaster, of this city, disappeared two weeks ago last Sunday and has not been heard from. He has worked for the firm about two years. His friends and uncle who live in Boston are disturbed about his disappearance, as he is known to have usually carried a large sum of money on his person.

Increased Hours at Candee Rubber Factory.

NEW HAVEN, Conn., Sept. 12.—The Candee rubber factory, employing 1,800 hands, which started on about half time last week, will commence Friday to run on three quarters time. The day hands will be given eight hours' work daily from that date instead of the five hours that they are allowed at present.

$1,000 Reward Offered.

CHICAGO, Sept. 12.—It is now positively stated that the total amount of money secured by the robbers was $19,104. Two bars of gold valued at $16,000 were overlooked, as were two strong boxes filled with gold. The express messenger secreted $4,000 before the robbers entered the car. President Newell of the Lake Shore has offered a reward of $1,000 for the capture and conviction of the robbers.

Russian and German Soldiers Fraternize.

BERLIN, Sept. 12.—Detachments of the Russian and German armies are manoeuvring in the vicinity of the Russo-Prussian frontier. The soldiers are often in sight of each other while performing their respective evolutions, but the utmost good feeling is manifested on both sides. In the neighborhood of the fields of operations is situated Cnorzele, a village of Russian Poland, practically on the frontier. When the men and officers of the Russian and German forces have met in the village they have displayed much good feeling towards each other and have fraternized as though they all belonged to one army.

$3,200 Fire Loss at Biddeford, Me.

BIDDEFORD, Me., Sept. 12.—William T. Bardley's book store was burned out tonight. The stock, valued at $3,200 is nearly a total loss and was insured for $1,850. The building, owned by Edward W. Staples, was badly damaged.

A School Board President Resigns.

BOSTON, Sept. 12.—President Samuel B. Capen of the Boston school board tonight resigned from the board, owing to the demands made upon his time by business. His work upon the board during the past five years has been most satisfactory.

A Noted Beat.

PUTNAM, Sept. 12.—This week Colonel Fairbanks, as he represents himself, is among the missing and his board bill is unpaid. He is a noted hotel beat and is wanted in nearly every town in this state for the same charge. He represents himself as Colonel C. B. Fairbanks, with the Fairbanks Scales company of St. Johnsbury, Vt. He is about 65 years old, stands 5 feet 11 inches and weighs 170 pounds. He wears a soft white felt hat and has gray hair.

Ex-State Senator Butler Gets the Contract

MIDDLETOWN, Conn., Sept. 12.—The county commissioners met today and awarded the contract for the new county building here to Ex State Senator Horace R. Butler. The appropriation for the building is $90,000.

The New U. S. Cruiser Columbia a Record Breaker.

PHILADELPHIA, Sept. 12.—In a brief inofficial trial today the new United States cruiser Columbia attained a maximum speed of 21.80 knots per hour. This is a record breaker.

Ladies' Y. M. C. A. Auxiliary Meeting.

The Ladies' auxiliary of the Young Men's Christian association held their first fall meeting on Tuesday afternoon in the association parlor.

The president, Mrs. J. D. Herr, occupied the chair. Reports were presented by the chairmen of the various committees and work was outlined for the coming season. Building fund pledges were reported and much interest was manifested in the plans of the new building.

COMMON COUNCIL MEETING.

Walk Ordered Laid on Mt. Pleasant Street—Otis Library Property Secured—Other Business Transacted.

An adjourned meeting of the court of common council was held Tuesday evening, present, Mayor Harwood, presiding, Alderman Abora, and Councilmen Henderson, Brewster, Hilton, Bidwell and Hough.

Discussion was opened on the favorable report of the street committee on the petition of W. B. Ricker and others, asking that a concrete walk be ordered on the easterly side of Mount Pleasant street, from West Main street to Elizabeth street. Attorney Lucius Brown appeared as a remonstrant, on behalf of Mr. Lucius C. Swan. He urged that the proposed walk was not a necessity, that the need was more on the west than the east side, that this was not the proper time to impose the work and objected strongly because almost the whole weight fell upon one individual, Mr. Swan. Calvin L. Swan and Stephen Crane spoke against the petition. Michael M. Moore argued in favor of the walk.

Alderman Abora defended the committee's report in effective words, urging that the walk was a benefit and its construction inflicted no hardship.

The council stood by the report unanimously and adopted the resolution, ordering the work done by October 12.

The street committee's transaction with the Otis library trustees was ratified. It gives 175 square feet on the Broadway side of the institution to the city for $277 25, and will admit widening the sidewalk from the Y. M. C. A. property to the City hall crosswalk from five and a half to seven feet. The work is to be done under Surveyor Chandler's direction.

The street committee reported favorably on the petition of Andrew McLaughlin for a grade for a walk on the southwesterly side of Twelfth street, and on the request of the Hon. Jeremiah Halsey to build a drain to connect his premises with the Franklin street sewer.

A petition that the claim of Henry Champlin for damage done to his residence on West Main street by a bursting sewer be investigated was referred to the street committee.

Alderman Abora reported that the tree in front of No. 179 North Main street had been saved by banding, that permission had been given Peter Ethier to remove a tree on Eleventh street, and that the tree complained of by E. M. Brewster on Grove street had been removed.

Wm. Blackstone and C. C. Haskell, committee, in behalf of the Young Men's Christian association, requested permission to build a retaining wall under the sidewalk adjoining their lot on Church street. Referred to street committee.

Alderman Abora presented the council the deed of release of a Norwich saving society mortgage on the Malone property recently purchased.

The council then adjourned.

THE CASTINE AT NEW LONDON.

It is Believed She Will Exceed the Contract Speed.

The gunboat Castine arrived in New London harbor Tuesday afternoon at 2 30 o'clock from Bath, Me., with General Hyde, president of the Bath iron works, and others interested on board. Already in the harbor were the government tugs Fortune, Iwana and Nina, the cruiser Vesuvius and the dispatch boat Dolphin, all of which will be used as stake boats on the course of the speed trial. Admiral Walker and the other members of the naval board of inspectors arrived Monday evening and organized Tuesday. Soon after the Castine came to anchor Admiral Walker and Lieutenant Reamey, the secretary, went on board, where they were received by General Hyde and spent some time in looking over the vessel. Judging from the amount of preparatory work to be done, it is not expected that the trial will take place before Friday. The Castine behaved splendidly on the trip from Bath, having left there Monday afternoon, and the builders have every confidence that she will exceed the contract speed.

RIGHT EAR NEARLY TORN OFF.

Bicyclist Wunder Badly Injured While Practice Riding

AT SPRINGFIELD, MASS.

The Bicycle Club's Annual Tournament Will Begin Today.

SPRINGFIELD, Mass., Sept. 12.—Tomorrow is the first day of the Springfield Bicycle club's annual tournament and the city is filled with wheelmen who are here to attend. The races will undoubtedly be the finest of the year, for in them for the first time will Zimmerman, Tyler, Sanger and Windle meet. The preliminary heats for Wednesday's racing were run off this morning and afternoon, making forty six in all.

Two new competition records were made during the afternoon by W. C. Sanger—a mile in 2.05 1 5 and two miles in 4 46 1 5

H. T. Wunder of Philadelphia was badly hurt by a fall while riding for practice in the morning, having his right ear nearly torn off and his spine injured.

National Board of Trade.

WASHINGTON, D. C., Sept. 12.—The National board of trade met today.

A permanent organization was effected by electing the following officers: President, ex Governor E. O. Stanard of Missouri; secretary, Years Ritchie of Cleveland; second secretary, Frank S. Gardner, secretary of the New York board of trade, New York. One vice-president from each state was elected, A. A. Barnes of New Haven being chosen for Connecticut.

Just Nine Pounds and a Quarter.

WASHINGTON, Sept. 12.—The interesting ceremony of weighing the White house baby has taken place with all the eclat attending such an event. The scale showed just nine pounds and a quarter. It was stated at the White house today that both mother and child continue to do well.

Editor Cook Not a Candidate.

MILFORD, Mass., Sept. 12.—Editor Cook of The Milford Journal, to avoid a misapprehension of his position, says editorially today: "Not only is Editor Cook of The Journal not a candidate for the republican senatorial nomination in the second Worcester district this fall, but at no time has he been such or an aspirant even for such nomination."

SPECIAL NOTICES.

ROYAL
BAKING
POWDER.

LOCAL NOTICES.

A red purse lost.

Position as cook wanted.

Tenement wanted of six rooms.

Tenement of five rooms to rent.

Frank A. Bill advises the public to try his $1.50 and $2 shoes for hard wear and good looks.

Welcome A. Smith says the White Lion is the whitest flour yet, and it can be had at his store.

One of those electric heaters at Preston Brothers cost less than five cents an hour to run it. Get one.

All the latest designs and colorings in fall and winter suitings are now on exhibition at Smith & Gilbert's.

D. B. Sullivan, practical plumber and tinsmith, sells the Otsego furnace and the Bay State stoves and ranges.

Hough gives you Japanese goods at very low figures. American goods same proportion. Call and see them.

J. A. Stoddard & Son will sell their entire stock of canned goods at less than cost. Slightly damaged by smoke.

Noyes & Davis still have a large stock of books used in the academy, many of them in excellent second hand condition.

Cranston & Co., have too large a stock of second hand books for the academy junior class, and reduce the price to close them out.

These cold nights make one hunt for an extra blanket for the bed, and if no blanket is there you have to lie and think about it all night. Don't do any more thinking, but step into Porteous & Mitchell's store and see what a bonanza in the blanket line you can strike. They have a choice lot, and the prices are low enough for every one. A fine exhibition is made in the big window. Look at them. See advertisement.

NORWICH AND VICINITY.

The Norwich Weekly Courier is the best weekly newspaper in New England at 50c a year.

154 Tons of Asphalt.

There remains in the town treasury $15,000 after settling the last bill for the Laurel Hill bridge, which structure cost very nearly $90,000. A considerable item of expense in the bridge building was for Trinidad asphalt, of which 154 tons were required.

Fruit Thieves.

People living in the neighborhood of the Hall mill at Trading Cove have been annoyed for some time past by stolen fruit, broken windows, damaged fences, and other small annoyances. The mischief is probably the work of tramps.

Mystic Wants to Make Watches.

The residents of Mystic are negotiating for a watch manufacturing concern to locate in that village. It is said that the industry will furnish employment for 200 men. A committee of four, J. K. Bucklyn, George E. Tripp, T. E. Packer and B. B. Noyes, will do all in their power to secure the location of the proposed manufacturing plant.

The Peach Crop Delayed.

The cool, almost cold weather recently, has still further delayed the ripening of the peach crop of Connecticut, which before was phenomenally late. In 1890 the Connecticut Valley Orchard company began to pick mountain rose peaches for sale August 14, last year August 25, and this year September 5. No other orchard fruit seems to be so much belated by our very peculiar season.

May Pardon a Life Prisoner.

A petition has been entered for the pardon of Frederick M. Young of Danielsonville, who is serving a life sentence in Wethersfield for murder in the second degree. Young was only 18 years old when sentenced, and he has been at the prison eight years. His mother is on the point of death, and his father is 80 years old. Letters were read from the jury that convicted him, and they thought he had been sufficiently punished. Prominent residents of Windham county sent letters to Attorney L. B. Cleveland of Putnam, who appeared for Young at the last meeting of the state board of pardons.

Pay for Camp Morris Service.

The members of the C. N. G. begin to wonder when they will get their pay for the week's work at Niantic. The impression prevails that the checks will not be along in a hurry, as under the new law the pay varies according to the length of service and an examination of the pay rolls at headquarters will take considerable time. If it takes the clerks at headquarters as long to verify the pay rolls as it took some of the company commanders and their assistants to make them out, the money will not be forthcoming before Christmas.

The Norwich Weekly Courier is the best weekly newspaper in New England at 50c a year.

Send in Today.

Contributions of clothing and money marked "Beaufort sufferers" may be sent today to No. 9, Washington street, lower floor.

To Preach Here.

The Rev. Dr Pentecost is to preach in the Broadway church, both morning and evening, on Sunday, September 17. The presence of this distinguished evangelist in Norwich will call out large audiences.

Deep Sea Fishing the Old Way.

Mr R. W. Champion of this city informs a representative of THE BULLETIN that deep sea fishing for blue fish is a revival of the old way. Trolling for the fish is modern. When he used to visit Block Island forty years ago, no other way was known but the deep water style of fishing for blues.

To Be Buried at Thompson.

The remains of the late Thomas Thatcher Graves will be brought to Thompson, Conn., for burial some day this week. The body will be brought to Providence first, where Dr. Graves' friends will meet it. It will then be conveyed to Thompson and buried beside his father.

The Season at an End.

All the summer resorts on Shelter Island are now closed. The Manhanset Monday brought over to New London the last contingent of returning waiters and summer people. The Fort Griswold house flag was also hauled down Monday.

An Old Yale College Notice.

Now that the college boys are getting ready to go back to their respective universities, it is of interest as an instance of the changes of a century to reprint the following advertisement, which appeared in THE NORWICH COURIER of 1797:

Candidates for admission into the Freshman class, in Yale College, are informed, that the examination will begin on the Tuesday preceding the Commencement, at 8 o'clock, a. m. Those who are not there present, will not be examined until the following Thursday morning, at 8 o'clock. TIMOTHY DWIGHT, President.

New Haven, Aug 18, 1797.

State Convention, D. of R., I. O. O. F.

The state convention of the Daughters of Rebekah (I. O. O. F.) of Connecticut will be held in New London, in the hall of Pequot Lodge on Tuesday, October 24. Osprey Lodge, which is to prepare for the entertainment of the visiting delegates, met for that purpose last evening.

The convention will bring to New London about three hundred from all parts of the state. In the evening at the conclusion of the business meeting, Osprey Lodge will exemplify the work of the degree before the delegates who remain to spend the night in the city as the guests of the lodge.

Too Smart for the Waiters.

Last Saturday the head waiter at the Pequot house was discharged for some cause. It was known before hand that he was to go and there was a threat that if he was discharged the rest of the waiters would also leave. Knowledge of this came to the ears of the Messrs. Hammond & Hagar and they at once quietly prepared themselves for the emergency that would follow. They hired an entirely new set of waiters and when Saturday night came the waiters in the house were locked out and the new set of men given charge of the dining room.

Although the season is about over the departure of the waiters would have somewhat embarrassed the house, as nearly all the cottages at present remaining in the colony take their meals at the hotel.

MR. ABELL'S CAPABILITIES.

The Young Violinist Scoring in Meriden Receives High Praise.

The Meriden Record says of Mr. Arthur M. Abell's concert in that city Monday night: "The programme included many German composers; indeed, the star looked the Heidelburg student we are apt to associate with meerschaum pipes and smoke curling around blonde heads. His first bow before the audience was in Vieuxtemps 'Reverie,' which was encored. He responded with that favorite of the late Prof. Foster's Schumann's 'Traumeri.' To the 'G' string the young violinist has a strong liking and produced many fine harmonic effects. He has good command of the bow and, when the movement is not too rapid, produces an excellent tone. Meriden people can well believe the flattering words of encomium that Halir of Weimar, Germany, has spoken about his pupil's capabilities."

The Norwich Weekly Courier is the best weekly newspaper in New England at 50c a year.

"SOCKDOLOGERS."

Large Blue-Fish Caught from Block Island Beach.

Bluefishing is at its height now, writes the Block Island correspondent of The Hartford Times. It never was better. Seldom does the fish run so large. Cooper in his "Leatherstocking Tales" calls them "Sockdologers." A sockdologers, in the Century Dictionary, not only means a finishing touch, but "something very big; a whopper." That's what these fat bluefish are. In weight they ran from 8 to 10 pounds—and bigger have been caught. They "run big;" only a few smaller ones are caught. Captain Littlefield, the keeper of the North light, caught eleven big plump fellows before breakfast one morning, by throwing his line from the beach just in front of the lighthouse. Many have been caught here this year in the same way.

As I write, I can count sixty sails off the harbor, all busy throwing their lines and hauling in the fat, shiny fellows. How good they are, fresh from the sea! They are bringing a good price this summer; 30 cents apiece regardless of size, and as each boat brings in seventy-five to one hundred fish, the profits are ample, $20 to $30 a trip. I saw, the other day, a small stone, or pebble, taken from the stomach of a bluefish which was being dressed by a fisherman; he said it was a sure sign of a storm—and he really believed it, too, that the fish swallowed the pebbles for ballast, as well as to sink them in deeper water for safety during a gale.

A Church Burned.

The North Woodstock Congregational church was burned to the ground at 2 o'clock Monday afternoon. The fire originated in the roof.

In Memoriam.

When Miss Emma Converse passed away from this earth on the 8th of September, there passed one of those rare spirits who occasionally cross our pathway to remind us forcibly that man was made in the image of God and that his spirit does indeed dwell among the sons of men. Although it was only the writer's privilege to meet her first in the summer of 1891, in the same mountain retreat from which she went forth to "the everlasting hills," these words are written from a full heart. One casual glance at her beautiful face, her intellectual brow, her illuminating smile was enough to attract any one—and when, very soon, some mutual tastes were discovered, a bond was formed that strengthened daily and has been still more strongly marked as this summer brought about her sad decline. Although feeble even last year, she was then able to mingle with the other guests of the house to a considerable extent, and as was well said the other day, she was the "belle of the house." Botanists brought their flowers to her to be named and enjoyed—how daintily and caressingly she handled them. Those who returned from drives too long for her to take, hastened to tell her of the glories revealed to them, sure always of intellectual and responsive attention.—[Correspondence to The Providence Journal.

HAD PATRIOTIC SIRES.

The Membership of the Sons of the Revolution Rapidly Growing.

Since the Connecticut branch of the Sons of the Revolution was organized in Bridgeport last week nearly fifty applications for membership have been received from all over the state. It shows that the Continental spirit is not yet dead, as a member must be a lineal descendant of a Revolutionary soldier. The society differs from the Order of Cincinnati, in that a member of the latter must be a descendant of a Revolutionary officer.

The Sons of the Revolution recognize the fact that the privates in the war for independence were as patriotic as their officers and their descendants are eligible to membership. The order has a membership of 3,000 in the United States.

The Norwich Weekly Courier is the best weekly newspaper in New England at 50c a year.

THE CITY MISSION.

Donations During the Months of July and August.

The City Mission gratefully acknowledge, the following donations during the months of July and August:

Books, papers, clothing, shoes, flowers and food—Mrs. Anthony, Jewett City; Mrs. Henrietta Aldrich, Mrs. Charles Burnham, Mrs. C. A. Converse, Mrs. L. F. S. Foster, Miss Gilman, Mrs. U. B. Gardner, Mrs Garners, Mrs. Dr Gulliver, Mrs. Haverland, Miss Sarah Huntington, Mrs. L. A. Hyde, Mrs. M. E Howard, Mrs. M. E Higgins, Mrs. G. W. Jenkins, Dr. Johnson, Mr. W. D. Keep, Mrs. Korn, Mr. George A. Rice, Mrs. Joseph King, Mrs. K. H. Lessons, Mrs. B. P. Learned, Mrs Lathrop, Miss Norton, Mrs. C. H. Osgood, Miss May Paddock, Mrs. Dr. Pratt, Mrs. L. W. Pratt, Mr. E. H. Palmer, Montville, Mrs. Raillon, Mrs. G. W. Swan, Mr. J. T. Wait, the Rev. Mr. Weitzel, Mrs. Otto Wulf.

Meat from Somers Brothers.

Wood from Preston Brothers.

A donation of food from Sebequanash Council, No. 11, I. O. R. M.; also from seven friends.

Also money donations to the amount of $127, from Mrs. David A. Wells, Mr. W. A. Slater, F. L. Osgood, Mrs. Browning and Mrs. Bofford.

Oldest Woman Postmaster in the Country.

Miss Martha E. Stone of North Oxford, Mass., is the old postmaster in the country. She received her commission April 27, 1857, from Horatio King, who was then first assistant postmaster general. There were then only two mails a day at North Oxford, but since that time the business is nearly quadrupled. Miss Stone has always had the office in her sitting room. She assisted ex-Senator George in compiling the history of the "Davis Genealogy," and also Judge Learned of Albany in compiling the genealogy of the Learned family. From the Learned family, which was one of the wealthiest and most influential in Oxford, Miss Stone traces her descent, as she is the great granddaughter of Colonel Ebenezer Learned, one of the pioneers of the town, which was settled in 1713. Miss Stone was for nineteen years a teacher, and has also served on the school board.—[Boston Journal.

ILLICIT LIQUOR SEIZED.

Seven Hundred Gallons in Shurtleff's Distillery, West Ashford.

Collector Hutchinson of internal revenue, with Deputy Collector Parmelee of New London, Guager O'Connor and Deputy United States Marshal Barrows of Norwich, went to West Ashford Tuesday, to seize the distillery and property connected therewith of D. W. Shurtleff, for various irregularities in connection with the internal revenue law. Shurtleff is a regular distiller, but he has been falsifying his returns. He has, it is alleged, been making illicit brandy and concealing a considerable amount.

On Friday of last week his place was visited by Revenue Agents Brooks and Alexander of New York, and seven barrels of the illicit manufacture were found concealed in the outhouses and other places about the premises. One barrel of brandy was found in the kitchen of the farm house a quarter of a mile from the distillery.

Collector Hutchinson and the other officers mentioned seized nineteen packages, containing in all about 700 gallons, which were confiscated.

By this action Shurtleff forfeits his distillery premises under the law and the property, consisting of cider fruit, barrels, and all materials of manufacture will taken in charge by the officers. The accused will be prosecuted for violating the internal revenue law under four sections of the United States revised statutes, one of which says he shall pay double the amount of tax due. The property taken is worth, or will be worth from $1,500 to $3,000.

The sale of the Bible amounts to about 4,000,000 copies per annum.

IN BOSTON MARKETS.

Healthy Tendency Prevails Throughout the List.

BETTER DEMANDS FOR PRODUCTS.

Farmers Should Not Crowd the Market.

Potato Business Picking Up.

BOSTON, Sept. 12.—There seems to be a healthy tendency all through the produce markets of Boston this week. Returning vacationists have increased the city demand for farm products, and the improving financial situation has doubtless favorably affected the trade to a considerable extent. With these conditions, however, the farmer should not crowd the trade with his productions, for as soon as this is accomplished a slump in prices is a sure resultant.

Potatoes and Vegetables.

The potato business is commencing to pick up considerably. The large growers in Connecticut and Rhode Island will soon begin to dig their crop, which promises to be of exceptionally fine quality. At present rose and hebron are worth from 55 to 60 cents per bushel, while Houltons bring a few cents more. Pickling vegetable, such as small cucumbers, green tomatoes, cauliflower and peppers are now in season and a lively trade is promised.

Pickling cucumbers are now worth $2 to $2 50 per bushel and cauliflower 10 to 15 cents a head. Ripe tomatoes are getting cheaper, ranging from 20 to 60 cents a bushel. Of the various kinds of beans, wax bring 75 cents to $1 a bushel, lima 75 cents, green string beans, $1 and horticultural 75 to 90 cents. Some other prices for staple farm vegetables are; carrots, 60 cents a bushel, marrow squash, 75 cents a barrel, onions, 65 cents a bushel, corn, 40 to 60 cents per bushel, turban squash, $1 a barrel, cabbages, $3 to $6 per 100, rutabaga turnips, $1 75 a barrel and the white flat variety for 50 cents a bushel.

Good Fruit of All Kinds

is in good supply this week. There is an increasing demand now and trade is brisk.

Gravenstein apples are now in most demand for eating and table use. Porter's and Pippins are in good condition and bring $1.25 to $1.60 a barrel. There is a good demand for pears. The best native Bartletts bring 50 cents to $1 a bushel according to quality. The common varieties of pears sell in barrels are worth all the way from 75 cents to $1.25. Native peaches are soon expected, while some very fine grapes have already come in. Of these Concords in crates of 8 baskets bring $1.50 to $1.75 and Delawares bring $2.25 to $2.50 in the same quantity.

The Butter Market

is more active although there have been fewer receipts. The consumption is increasing and it now looks as though Boston would be a good place for producers to send their stock. Northern creamery is worth less than 25 cents; fine western creamery 25 cents; New York and Vermont dairy 18 to 20 cents.

The Quotations.

POTATOES—Potatoes are fairly active, with a full supply. Quotations are at: Eastern barrels, $2 [illegible]; New Hampshire rose and hebrons, [illegible]; Houlton rose and hebrons, [illegible]; Aroostook rose and hebrons, [illegible]; New York stars and burbanks, 60c. Sweet potatoes sell at $2 [illegible] for Virginia cloth heads; extras, [illegible]; double heads are worth from 25c to 50c above these prices.

LAMBS AND MUTTONS—There was a fair trade in muttons yesterday, with good veals scarce: Choice to fancy lambs, [illegible]; common to good, [illegible]; poor and ordinary, [illegible]; Brightons, [illegible]; yearlings, [illegible]; muttons, [illegible]; poor to good, [illegible]; choice heavy Brightons, [illegible]; choice eastern veals, [illegible]; common to good, [illegible]; Brightons and fancy, [illegible].

BEEF—Beef is steady, with the market rather quiet: Choice fancy steers, [illegible]; prime, [illegible]; good, [illegible]; light, [illegible]; extra heavy hinds, [illegible]; good, [illegible]; light, [illegible]; heavy fores, [illegible]; light, [illegible]; backs, [illegible]; rattles, [illegible]; chucks, [illegible]; rounds, [illegible]; rumps, [illegible]; rumps and loins, [illegible]; short ribs, [illegible]; loins, [illegible].

FLOUR—The flour market is firmer, following the advance in speculative wheat and the general firmer position. Trade is better, with quotations at: Fine and supers, [illegible]; extra and seconds, [illegible]; Minnesota bakers', clear and straight, [illegible]; winter, clear and straight, [illegible]; winter pat, [illegible]; spring pat, $4 [illegible].

BUTTER—The butter market is firm, with the quotations at: Western, [illegible]; firsts, [illegible]; imitation creamery, [illegible]; factory, [illegible]; northern creamery, extra, [illegible]; northern dairy, [illegible]; eastern creamery, extra, [illegible]. These prices for round lots. Jobbing lots and family lots cost more.

HAY—Hay is steady in values with quotations not changed. Straw is quiet and easy. Millfeed is a little easier but is likely to advance again at once, by reason of the higher quotations on freights. Sack spring bran, to arrive, is quoted at [illegible], with sack winter at [illegible].

CHEESE—Cheese is firmer, and dealers are asking higher prices: Northern full creams, [illegible]; fair to good, [illegible]; western choice, [illegible]; fair to good, [illegible]; sage, [illegible]. Liverpool is cabled at [illegible] for white and [illegible] for colored.

APPLES—Some good hand picked apples of good varieties are wanted but the market is over supplied with windfalls. Pippins and Porters, $1 50@2 25 per barrel; Williams, [illegible]; gravenstein, [illegible]; common, [illegible].

CORN—Corn is firmer. No. 2 yellow, to arrive, is quoted at [illegible], with No. 2 yellow at [illegible]. The spot market is also firmer: Steamer yellow, [illegible]; No. 2 yellow, [illegible]; steamer mixed, [illegible].

MEAL—The cornmeal market is firmer, under the stronger market on corn, but quotations are still at [illegible] for bag meal and at [illegible] on barrel meal. Oatmeal is quoted [illegible].

OATS—Oats are firm. Clipped to arrive, are quoted at [illegible]. The spot market is firm at: Clipped, [illegible]; fancy [illegible]; No. 2 white [illegible]; No. 3 white, nominal, at [illegible]; mixed, [illegible].

EGGS—Eggs are very steady, with the market at: Western, [illegible]; Michigan, [illegible]; provincial, [illegible]; eastern and northern, [illegible].

PORK—Pork provisions are steady, with a fair trade. The advance of Saturday on barrel pork seems to be sustained.

FOR CAPE MAY CUP.

Britannia and Navahoe Off on the Long Race of the Season.

FRESHWATER, Eng., Sept. 12.—The royalty boat Britannia and the American yacht Navahoe started today in the race for the Cape May cup, which was captured by the Genesta and taken over to England.

The course is about 120 miles long, from the Needles, Isle of Wight, across the English channel to Cherbourg breakwater, and back to the Needles. The course being so long, the race will probably not be finished until some time early tomorrow morning.

The weather conditions at the start were everything that could be desired. A good topsail breeze was blowing from the north northeast, which gave the boats a run across the channel.

Early in the morning the yachts arrived at the Needles and came to anchor, to get everything in good working order. They again got under way about 11:30 o'clock, and made their way off shore a short distance, where the start was to be made. They carried mainsail, jib and staysail.

When they were close to the line they were brought around, head to wind, and dodged back and forward with head sails to windward. The skippers then looked at the weather to find out whether they would carry their jack yarders or be content with jib headers. They hung on as if uncertain what to do. It was finally decided to set jib headers, as the wind at times came out off the land quite puffy and threatened to break things.

Soon after the topsails were set, the preparatory signal was given from the committee boat for the boats to get ready, and at just 12 o'clock another signal was given, which indicated the start. Both yachts then swung broad off and made for the line.

The Navahoe was slightly in the lead, with the Britannia close after her. When they were last seen, it looked as if they were close together. The boats will probably not be reported again until they are on the way back.

HAVING A HARD TIME.

Brazilian Naval Rebels Are Hemmed In Within Bay of Rio.

NEW YORK, Sept. 12.—The Herald's Montevideo, Uruguay, special cable says: Brazil's naval rebels are having a hard time of it. Hemmed in within the bay of Rio they fear to run the gauntlet of forts and torpedoes at the entrance and put out to sea, and an attempt to land has been repulsed with considerable loss of life.

The Brazilian minister here received a telegram yesterday saying that the rebel squadron had fired upon Nictheroy, a suburban town near the entrance to the harbor of Rio. The insurgents then tried to land some of their men from small boats, but were repulsed by the police, re-enforced by some troops with Krupp guns.

Fifty-one of the rebels were killed and 80 more wounded. The government losses in the encounter are not reported. The land force and the garrison in the forts remain loyal to President Peixoto.

Rio and Nictheroy have been declared in a state of siege for the last 10 days and this condition may be extended to any part of Brazil where it is deemed necessary. The rebel squadron shows no inclination to leave the bay.

The situation is practically unchanged, and commercial cable dispatches are still prohibited. The English consul here has warned all British vessels of the risk of putting into Rio. The Brazilian gunboat Bahia has gone up the Paraguay river with orders, in case any of the ships at Matto Grosso join in the revolt against Peixoto, to engage with them.

The Brazilian warship Tiradentes remains here, subject to the minister's orders. The Italian German and Spanish warships which were here have all started for Rio.

HAD SPENT HER LAST CENT.

Sad Case of Destitution Discovered in Town of Wrentham.

WRENTHAM, Mass., Sept. 12.—The attention of the selectmen has been brought to a sad case of destitution.

Mrs. Louis Burrows, with her three children, the youngest a babe in arms, was found living in a cottage on the Foxboro road with not a single piece of furniture in her house except a stove, or clothing to cover them at night. The woman had spent her last cent for buying food and had had nothing to eat for two days.

The mills in Franklin where the woman had been employed shut down, and she came to town thinking she could find employment by taking in washing. Not knowing whom to apply to, she was unsuccessful in her efforts to find work.

The King's Daughters have taken the case in hand, and are providing the woman with food and clothing until she can find something to do.

Organized Band of Thieves.

PEEKSKILL, N. Y., Sept. 12.—The women of this place are no longer on visiting terms with one another. This is not due to any coolness among them, but because of the presence in town of an organized band of thieves who take advantage of the chance when women pay visits to their neighbors to rob their houses. A vigilance committee is on the lookout and several tramps have been arrested, but were ordered to leave town.

Flying a Red Flag.

NEW YORK, Sept. 12.—The Herald's Panama correspondent cables: A strange vessel flying a red flag and cruising off the mouth of the Magdalena, recently was pursued by the Colombian gunboat La Popa, but effected her escape, sailing eastward. It is believed she had arms on board for the revolutionists. She is probably the same vessel that has been captured once by a Venezuelan revenue cutter off Maracaibo.

Spaniards in Boston.

BOSTON, Sept. 12.—The Brunswick was full of foreigners this morning shortly after 9 o'clock, and the Spanish language overtopped all other tongues for at least a half hour. The occasion was the arrival of 70 foreign delegates of the Pan-American medical congress, recently held in Washington. With the party were 20 women and children.

Rain Storm Flooded the Town.

MADRID, Sept. 12.—A heavy rain storm flooded the town of Villaviciosa, in the province of Cordoba, causing loss of life and great damage to property. One hundred and fifty houses were flooded and 40 of them collapsed. Two children were drowned and many of the occupants of the houses were injured.

Farmers Festival Opened.

SOUTH FRAMINGHAM, Mass., Sept. 12.—The 40th annual fair and cattle show of the Middlesex South Agricultural society opened today for a two days' session under very favorable conditions. There is a more extensive and better display than ever before.

Why Emin Was Murdered.

BRUSSELS, Sept. 12.—A dispatch from St. Paul de Loando states that Emin Pasha was within four days' march of Stanley Falls when he was murdered. His caravan was carrying 30 tons of ivory. The desire of the Arabs to rob the caravan is reported to have been the main reason for killing Emin.

Italians Attack Hungarians.

ROME, Sept. 12.—A mob of Italians yesterday attacked a number of Hungarian peasants at Delenoyes and tried to destroy the town hall. The riot was quelled by the troops, but not before 25 persons had been wounded. The trouble was the outcome of a long standing racial animosity.

Passenger Station Robbed.

PORTSMOUTH, N. H., Sept. 12.—The passenger station at York harbor, Me., was entered some time during last night by burglars who blew the safe open. The explosion wrecked the safe and part of the office, and the perpetrators succeeded in getting $15 in cash.

Bennington Stable Burned.

BENNINGTON, Vt., Sept. 12.—Burgess' livery stable, together with five horses, several carriages and a quantity of hay and grain was burned early this morning. Insurance $10,000.

Asa P. Potter on Trial.

BOSTON, Sept. 12.—The trial of Asa P. Potter, of Maverick bank fame, is going on in this city before the United States court, bookkeepers and employes of the bank, as well as experts, being called as witnesses. District Attorney Hoar conducting the case for the government, assisted by Governor Robinson.

HOOD'S SARSAPARILLA.

Rich Red Blood

Is the natural result of taking Hood's Sarsaparilla. Mrs. Mary F. Towne, of Niantic, Conn., author of a very beautiful volume of poems, entitled "Sacred Songs," says, "I find that for feeling of deadness of the limbs, constipation and poor circulation of the blood,

Hood's Sarsaparilla

has no rival. I have been troubled severely with a fibroid tumor, besides seven fatty tumors on my left arm. My blood was in very poor condition, watery and deficient in color. Since taking Hood's Sarsaparilla I have good rich, red blood, and do not bloat as I used to.

Hood's Sarsaparilla Cures

Hood's Sarsaparilla has proved its merit to me as it will to all who take it fairly." N. B.—Be sure to get HOOD'S

HOOD'S PILLS act easily, yet promptly and efficiently, on the liver and bowels. 25c. aug9daw

GARDEN AND CRADLE.

When our babe he goeth walking in his garden,
Around his tinkling feet the sunbeams play.
The posies they are good to him
And bow them as they should to him,
As fareth he upon his kingly way,
And birdlings of the wood to him
Make music, gentle music, all the day,
When our babe he goeth walking in his garden.

When our babe he goeth swinging in his cradle,
Then the night it looketh ever sweetly down;
The little stars are kind to him.
The moon she hath a mind to him
And layeth on his head a golden crown;
And singeth then the wind to him
A song, the gentle song of Bethlem town,
When our babe he goeth swinging in his cradle.

—Eugene Field in Chicago News-Record.

JASPER'S WOOING.

Jasper Greene dismissed the driver when he reached the wharf after crossing the Ottawa at the Four Corners and looked round for Daoust to carry his baggage up to Labelle's as in days of yore. But old Daoust was dead and therefore could not come.

Millette put the heavy trunk on a truck sleigh and began to trot along the wooden wharf. Then, when Millette paused for breath, Greene pushed the old man aside and took hold of the truck. "Say, Millette, I'll wheel this up for 50 cents for you," he said.

Millette ran panting alongside. "Ah-h, se droll monsieur. It will provide for se christening."

Greene stopped short. "What, another!" he said in pretended amazement. "How many?" he asked briefly.

"Twenty-seven," rejoined Millette, with ill dissembled pride.

Greene stopped again and carefully counted out 27 cents. Here's a cent each for your children, Millette. Don't stand still any longer or you'll get frost bitten. I dare not run the risk of having to provide for 27 orphans."

Millette took the money with profuse thanks and hurried off, leaving Greene to go on to Labelle's hotel with the huge truck sleigh. By the time Jasper reached the postoffice a procession gradually formed on the sidewalk to welcome him back from Montreal. When Lily Labelle saw him, she came out and promptly gave the children a holiday for the rest of the day. Then she joined him at the head of the procession. When they reached the veranda, the children gave three cheers for Jasper and called for a speech.

He waited for the crowd to disperse before he approached Lily, who stood leaning against the veranda, an amused look in her dark eyes.

"Are you glad to see me?" he asked.

"Come in to dinner," she said. "I'll answer your questions—some of them—afterward."

Mrs. Labelle greeted him with a kiss on both cheeks, while her husband bowed with grave politeness.

Lily seated herself at the upper table. Jasper at once took possession of Lily and held his prize against all comers, especially the cashier of the Four Corners bank. The latter was not easily disconcerted, but prepared to demolish Jasper.

Miller, the cashier, asked her to go for a sleigh ride that afternoon.

"So sorry," drawled Jasper. "Miss Labelle has been engaged to me for a sleigh ride for a year."

The cashier, without waiting for a reply, went angrily out.

Lily raised her eyes from her plate. "Why are you a week before your time, Jasper?" she asked.

"That's the reason," said Jasper, indicating with a fragment of mince pie on his fork the retreating form of the cashier. "If I'm only allowed one sleigh ride a year, I don't see why that fellow should get ahead of me and have three a week."

"But your work, Jasper?"

"Oh, McGuire's looking after that for me. I explained to him that it was rather important to clear up matters here, and so I came."

Lily had not expected her coquetry to become known. "It is so dull," she said in extenuation.

Jasper commenced another mince pie.

"Don't be afraid of its being dull while I'm here," he said, with sublime self confidence. "You promised me one sleigh ride a year for seven years if I wanted it, and I guess I'll take this year's today."

Lily pouted. Jasper smiled and rumpled his yellow hair.

"You'd better own up," he said, with unabated cheerfulness. "How soon can you be ready?"

Lily was cowed. "Oh, in half an hour," and ran away to get her things on.

When Lily came down arrayed in her most becoming furs, Jasper smiled approvingly. "You only want some flowers to be perfect," he said.

Lily gave a little cry. "Ah, flowers! But they are impossible."

"Not at all," said Jasper, taking a box from his pocket. "Nothing impossible if you want it badly enough."

Lily opened the box and gave another cry. "Orange blossoms!" she said.

"Yes," answered Jasper. "From Florida. People there stick the ends in a potato to keep them fresh. Capital dodge, isn't it?"

He took out the orange blossoms, threw away the potato and pinned them to her jacket.

"Now we're ready to start. Stop a moment!" and he drew her back behind the curtain as the cashier drove past on his way to the schoolhouse.

Lily began to laugh. "It's very wicked of you, Jasper."

"That will teach him to go sleighing with my sweetheart," said Jasper calmly.

Lily protested: "You've no right to say that, Jasper. I only promised you a sleighride once a year for seven years, and then if I liked you well enough—then perhaps I might marry you."

Jasper was drawing on his sealskin gloves. "That's all very well," he said, "but we haven't the time to waste which those old Biblical people had. In seven years' time I expect to be in the cabinet."

Lily followed him to the door only to recoil in dismay. "That!" was all she said.

"He's not handsome to look at," said Jasper dryly. "Rather three-cornered and lopsided. Still, I don't suppose that cashier fellow can overtake even a venerable ruin like this."

"If he does," flashed Lily, "I'll change sleighs."

"Well, that's fair," gently asserted Jasper. "In you go. There isn't much fuss and feathers about the old sleigh, but it means business all the same."

Lily was furious at being treated like a child. Besides, she had determined to teach Jasper a lesson.

"Rather like Deacon Platt's sermons. They always hang fire at the start," said Jasper.

"Now, we'll go to Hawkesbury by the river track. That fellow can see us coming. Ah, I thought so. He'll be down here in a minute."

Lily looked rather frightened as the chestnut came along at a furious pace. It was evident that his driver resented being made a fool of and that there would be a scene as soon as he could get his horse alongside Jasper's funereal quadruped. But no sooner did that dejected animal touch the ice than he became a different looking horse altogether. His head went up and his tail out at the ring of the chestnut's hoofs on the smooth ice which connected the river with the shore. Then Jasper, leaning back, waited until the chestnut was within 20 yards and suddenly loosed the reins.

"What, w-what"—said Lily. "He's running away, Jasper!"

"Yes, he's doing his level best," said Jasper as the bank seemed to spin by. "If the chestnut catches us, you can have his master."

Jasper kept the black's head straight. That was all he could do with the unmanageable beast. "You see, Lil," he explained, "you've been fooling one of us to the top of your bent. Now, you'll just take the chances of war. If he collars us, I shall have to give in."

"I won't," said Lily stoutly, beginning to realize the situation and how Jasper had awakened to life under the influence of jealousy. "Nothing shall make me m-m-marry him. I only drove with him because it was so dull down here. That was all."

"Chestnut's coming up a bit," said Jasper cheerily, after another mile. "Hope Baalbec will hold out."

Lily gazed anxiously at the animated "ruin" in the shafts. The chestnut was gaining. Then she looked at the black horse. "C-c-c-couldn't you whip him?" she asked.

"I could," said Jasper, "but it's hardly fair. He isn't the one that should be whipped for this."

Lily turned pale. "You're very cruel, Jasper, but I deserve it all. Nothing shall make me marry him. I'd rather go to the bottom of the river with you."

As they neared Hawkesbury the chestnut steadily gained. Jasper had succeeded in pulling the old black back into his gait and began to whistle. Suddenly he turned pale.

"How far's that fellow behind, Lil?" he asked.

"Forty yards," said Lil in an agony.

Jasper spoke quite lightly. "Lil," he said, "did you mean you'd rather go to the bottom of the river with me than let that fellow catch up?"

"Yes," said Lil, without hesitation. "What do you mean, Jasper?"

"This," said Jasper. "I forgot the spring thaw. Three hundred yards ahead of us the river's split right across. Shall I pull up?"

Lily stood up in the sleigh and looked round. She gave a little shudder and laid her hand on Jasper's arm.

"Go on, Jasper," she said. "I'll risk it."

Jasper looked down for a moment into her white face. "I'll pull up if you wish, Lil. 'Twill be too late directly."

"No, Jasper, I deserve it. Go on, and —and if—if it's to be goodby"— She kissed him.

"Hold tight," said Jasper, beginning to pull steadily on the old black.

Lil held tight to the side of the sleigh in an agony of grief. Then he lifted the black to the leap, gave one cruel slash with the whip, there was a crash of breaking ice as the sleigh struck on the other side, a stagger from the black. A convulsive pull and they were over and 20 yards beyond the widening chasm, with the frightened cashier pulling up on its brink. When Lily recovered consciousness, she found herself in the manse parlors at Hawkesbury.

"Are you all right, Lil?" asked Jasper cheerily.

She clung to him and hid her face in his breast.

"Was it all a dream?"

Jasper took a plain gold ring from his pocket.

"I don't think so," he said. "I wired down to Mr. Watson yesterday to expect us this afternoon. Now, Mrs. Watson, she's all ready."

An hour later the funeral black crawled lazily back. Half way they met the cashier, his chestnut nearly foundered and scarce able to stand.

"Thank God!" he cried as they came in sight. "I thought you were mad."

"N-no," said Jasper, touching up the old black. "N-no. I was just giving my wife a sleigh drive down to"——

"Y-your wife?"

"Yes," said Jasper, again stimulating Baalbec. "Sorry we couldn't wait for you."

And the cashier fell behind—a long way behind—again.—Chicago News.

Identifying Lost Articles.

A theatrical manager turned traitor and told this story on his friend who had just finished speaking:

"I went in to see Billy's miserable show the other night and came out in such a hurry that I left behind me the gold handled umbrella which Irving, Barnhardt and Coquelin clubbed together and bought for me for giving them the greatest business ever known on this hemisphere. I missed it and next morning went to the box office to get it. Billy was at the window, and I told him of my loss.

" 'Can you identify it?' he asked.

" 'Certainly,' said I.

" 'How many ribs has it?' asked he.

"Of course I couldn't tell, and down came the window. I was too paralyzed with rage to move, and while I stood there a young man came to ask for a cane with a silver band around it.

" 'How many inches was the ferule from the silver band?'

"Young man couldn't answer, and slam went the window again.

"Up came an old lady who wanted a pair of pearl mounted opera glasses in a pale pink plush bag, with the monogram A. B. C. engraved on them and the maker's name under the rim.

" 'Are the lens concave, opalesque or convex crystalline?'

"The old lady gasped, and his skinlets said severely, 'Madam, no articles are given up here unless they are properly identified.' "—New York World.

FARM, FIELD AND GARDEN.

PRESERVING EGGS.

The Buttered Eggs of Ireland—A Simple Process For Home Use.

Here are two recipes from The Feathered World that are vouched for by a writer who claims that he has tried both and found them worthy of repetition. He says: The first recipe is more common in Ireland than on the other side of the channel, and "buttered eggs" are a recognized article of commerce there in the winter months. They stand in value considerably above the common or market egg and somewhat under the new laid egg. There may be a difficulty in disposing of them in England, but for home use they are well worthy of consideration. Any method of preservation to be effective must be applied when the eggs are quite fresh and must aim at the exclusion of the air from the inside of the shell.

The buttering process is very simple. A very small piece of good butter should be placed between the palms of the hands and rubbed well over the inner surface of both hands. When it is thoroughly melted, the eggs to be buttered should be taken in the hands and thoroughly covered over with the melted butter. The thinner the covering the better, provided that the whole surface be covered. The buttered eggs should then be placed in a basket in some dry, cool place and need not be moved until they are wanted for use. I have kept them for seven or eight months in this way and have known them to be kept 12 months with success.

The other process of preservation is by putting them in lime water. A large earthenware vessel of some kind is most suitable for this purpose. There are several methods which vary in detail, but all are equally efficacious. The simplest plan is to half fill the vessel intended to be used with water, put in it a couple of good sized pieces of unslaked lime. The exact quantity used is not of consequence, provided that there is not enough to saturate the water. As evidence of this there should always be a film of lime on the surface of the water. The lime at the bottom will do no harm, but rather good, as it will lessen the risk of any eggs being cracked when being put into the lime water.

The vessel may be filled with eggs at once, or these may be added day by day. Care must be taken that the eggs are all covered with water, and to prevent evaporation a cover to the vessel is of advantage. In case there is evaporation or leakage water must be added from time to time, and if there be not a film on top some fresh slaked lime should be added by sprinkling it on the water. Unless it is certain that all are fresh, every egg should be examined before placing it in the lime, as in this process one bad egg frequently leads to a lot being spoiled. Some salt is added to the lime by old hands.

Cabbage Lore.

Any variety of winter cabbage will crack open when given too long a season and the weather continues warm in the late fall. The Danish Drumhead of medium size and very solid is one of the best winter varieties. All Season, with a large solid head, is another of the best. A good course to take when there are indications of cracking is to insert a digging fork into the soil under the cabbage on one side and partly lift it so as to break away some of the roots from the soil and thus decrease the flow of sap. This will stop the cracking. As a rule, fall plowing is best for cabbage, especially if the soil has a considerable proportion of clay in its composition. Probably there would be no advantage in fall plowing well drained black muck or sandy soils.—Vick's Monthly.

The Shrinkage of Hay.

A Rural New Yorker correspondent writes as follows:

I often hear or see in the papers inquiries in regard to the number of cubic feet required for a ton of hay. Many times the answer is given 500 feet. I do not think any definite number of feet can be relied upon as a rule. Much depends upon the quality and condition of the hay and more upon the judgment of the person making the estimate. I have many times weighed and assisted in weighing hay from a given number of feet and found a variation of from 380 feet in a deep well bay of fine hay to 600 feet on a small scaffold of a coarse, loosely packed article.

Ladoga Wheat.

From the Canada central experiment farm comes an account of the introduction and dissemination of Ladoga wheat in the Dominion of Canada and of milling and baking tests of this variety. Ladoga wheat was first introduced into Canada in 1887 and has since been tested by a large number of farmers in different parts of the Dominion. It has been found that this variety can be successfully grown even in the colder regions and that it ripens at least a week earlier than Red Fife. Analysis shows that it contains a high percentage of gluten, which is, however, "inferior in color and elasticity and more sticky" than that in Red Fife.

The flour from Ladoga is drier than that from Red Fife and is not so easily made into good bread. The color of the bread is usually quite yellow. The opinion is expressed that unless the proper methods for treating this flour to procure uniformly good results could be ascertained it is not likely that Ladoga will be acceptable either to millers or bakers as long as the flour of the Red Fife is obtainable. Hence wherever Red Fife can be ripened the efforts of those settlers engaged in wheat growing in the northwest should be directed to its production in the greatest perfection by early sowing and a proper preparation of the soil.

English exchanges report "gout" in barley. This gout is caused by the maggots of the corn fly.

Potato bugs increase because we do not poison the second crop. They are left to mature and be on hand in the spring for the next crop.

Any boy of 10 to 12 years who has been brought up on the farm ought to know how to bud and graft a tree.

All communications emphasize the shortage of hay and forage crops in Europe, and especially in France.

There is always a good market for the straw that is earliest thrashed after harvest.

SAFE STORAGE FOR GRAIN.

How Yankee Ingenuity and Old Tin Cans Circumvent Rats and Mice.

Grain spoiled by rats and expensive thrashing caused by farmers being forced to the immediate separation of grain and straw are annual complaints over a large part of the country. But there should be no need of these losses, contends a New England farmer in The Farm Journal, who says: An abundance of old tin can be got for the asking with which to cover the posts upon which grain stacks are built, or for lining bays where such grain is stored. Old fruit cans will rapidly cover boards that are easily gnawed by mice. They are quickly unsoldered in a bonfire and pounded flat with a mallet. Lath nails will hold them in place with the edges so near together that the smallest mouse cannot creep through. With the bay or stack bottoms so protected the owner can take his time to thrash, or feed out his oats in the sheaf.

Grain stored in bays must be tightly covered with lumber at the top, but the open space next the floor need not be covered if tinned smoothly 3 feet up from the floor, 6 inches out from the sides, and a foot of tin is placed on boards projecting out over the floor at an angle of 45 degrees. A barn can be made entirely vermin proof by laying the sills in cement on the walls and filling every chink where it would be possible for vermin to gain an entrance with this stonelike substance. Small barns may be quickly made proof against rats by building them on posts like a corncrib, and tinning or panning the posts to forbid the climbing up of these little pests. Of course every other avenue of approach must be cut off. Flat stones may be used on the posts instead of pans.

The farmer quoted is convinced of the loss occasioned by rats and mice, even after the grain is thrashed. Many farmers owning farms of productiveness and size have never owned ratproof bins. This is all the more surprising when one knows how small a bin is required for 100 bushels of grain. Strongly made of coarse lumber with bottom and back tinned outside, a bin of 200 to 300 bushels capacity will be a lifelong satisfaction, and the expense more than repaid each year in saving of grain.

Whenever it is possible, bins should be constructed so their contents may be drawn out instead of being laboriously lifted again. To accomplish this most satisfactorily the bottoms must slope to a center connected with a chute. Where grain is sold there should be an outdoor chute to pass the grain directly into the wagon. Each bin should be arranged to permit ventilation when necessary and should be fitted with several movable partitions to allow changing the grain if heating should begin when the bin is only partly filled.

Is the Nest Egg an Advantage?

A Tennessee correspondent of Farm Poultry thus replies to the query, Is the nest egg an advantage?

I would say that according to my observation the nest egg is not a necessity, and not knowing but what its absence from the nest might be more agreeable with some individual hen I leave the egg out of some nests. I have a variety of nests. They are placed in different places, and though some nests are better patronized than others yet there is that individuality with some hens that the philosophy of nestmaking is yet too much in embryo to be formulated. Some hens discard the prepared nest and prefer laying on the ground. As soon as I have a vacant hover I place it in the yard, and some hen will take possession of it, though it contains no nest egg.

For all this I am confident that using a nest egg has its advantages. As a rule of life, or disposition, or taste, or some other sociable inclination, the majority of hens take to nests containing a nest egg even when the flock range is large. And a majority of this majority prefers laying in a nest already occupied, though other nests may be within easy reach. The advantage of the nest egg is shown by prolonging the laying disposition of the hen. The disposition of the hen is to lay a clutch to sit on. If the eggs are undisturbed, the hen will commence to sit at the tenth to thirteenth egg, but if the eggs are removed as often as laid, leaving only one, the hen is likely to lay 20 or more before her broodiness forces her to give up, or if not of the broody kind to quit the Sisyphean effort to increase. I prefer for nest eggs the egg gourd. It is as easy to raise as a dipper gourd. They are not so cold in winter as the porcelain, and being inexpensive can be often renewed if necessary.

Drawing Out Foundation For Combs.

This question and answer appeared not long ago in The American Bee Journal:

Question—I have a quantity of frames and sections filled with foundation ready to be worked by the bees. Would it be possible to put a few colonies to work this foundation into nice combs without storing honey or pollen in the cells, and remove these same frames of comb, to be filled with honey by other colonies in my apiary? Could it be done? If so, how can I do it?

Answer—No, you cannot get bees to build comb, either with or without foundation, unless they have a chance to store something in the comb. They will draw it out a little way before storing anything in it, and you can get them to do that, if you wish, by simply putting the foundation where they will be obliged to cluster on it. Of course this must be at a time when bees are storing. The Oatmans used to credit a good deal of their success in getting large crops to the fact that full sheets of foundation in brood combs were given in the brood nest just long enough to be drawn out into shallow cells, then cut in pieces and put in sections.

The Lydians had gold coins at the close of the ninth century, B. C., and Greece proper at about the close of the eighth century. The Romans coined their first silver in the year 281, B. C., and gold 78 years later.

The philosopher Schopenhauer says that a man's intellect may be measured by his endurance of noise. He adds that he never knew a man with a barking dog in his back yard who was not a fool.

We never see everything that is about us, and no two of us ever see precisely the same things. Each sees what his previous training and his habit of mind have prepared him to see.

The Triumph of "Making Up."

"No one," he said musingly as he gazed at her in fond admiration, "ever had such a profile as yours. It is absolutely classic."

She gave him a quick, scrutinizing glance and asked, "Do you like it, John?"

He nodded assent.

"And that rosebud of a mouth!" he continued. "I have never seen its equal. And those dimples too! See how they play hide and seek. The imprint of angels' kisses, I am sure!"

A demure look stole across her face, but she did not speak.

"And the droop of your eyes, dear," he went on. "No wonder that half the men in town are at your feet. Was there ever such a face as yours?"

"I am glad you like the tout ensemble," she answered. "It has been the aim and object of my life to be considered beautiful. Tell me, John, if I have succeeded."

"You are a masterpiece," he answered enthusiastically. "But tell me what you mean? 'The object of your life to be beautiful!' I do not understand."

"But you will," she answered sweetly. A gleam of triumph was in her eye, for even he had not detected the work of science. "I must tell you the truth," she said after a pause.

"That classic profile was a Roman—six months ago. And this mouth! You should have seen it, John, stretched half way across my face. But I had it altered. And these dimples—I am glad you admire them. Well, they cost me just $50 apiece. Even the droop of the eyelid was acquired. The designs were all my own.

"I am so glad to have pleased you," and the maiden smiled as she thought of the surprises she had in store for him when he ventured to admire openly the shell-like ear, the contour of the face, the finely penciled brows and the cleverly chiseled throat.—New York Herald.

Journalism In Japan.

Journalism in Japan appears to be surrounded by some stern restrictions, the desirability of abolishing or amending which has lately been occupying the attention of the Japanese parliament. In Europe when newspapers offend against the law fines are inflicted on the editor, writer, printer or publisher, as the case may be. But in Japan it appears that the journalists begin by paying a fine, though the amount may possibly be returned to them in course of time, for that is the practical result of depositing sums of money with the authorities varying from 350 to 1,000 yen yearly as evidence of good faith. If fines are inflicted at any rate of less than the amount of the deposit, there can be no question of nonpayment.

A motion was made to abolish this deposit, as also the power of the government to suspend a paper which published anything calculated to disturb the public peace, but the right of suspension was retained by 81 votes to 48, and as to the desirability of demanding the security the house was unanimous. It was explained that the house felt the necessity of keeping some check on "irresponsible agitators unfit to wield journalistic influence," and there is a good deal to be said for the contention. "Women's rights" advocates will be extremely offended at one amendment which was accepted. No woman is allowed to become an editor or publisher in Japan.—Leeds Standard.

The Fickle and Rapid Missouri.

The current of the Mississippi river averages from 3½ to 4 miles an hour in velocity, but a steamboatman on the Missouri would be pretty apt to call this still water, as that stream bowls along under ordinary circumstances at the rate of 8 and 10 miles an hour, and on state occasions it develops the speed of an avalanche. Engineers consider bridging the Missouri a difficult accomplishment, as the swift current is so versatile in its course and ruinous in its velocity that it is impossible to predict where the channel is liable to drift.—Alton Sentinel.

Buried In a Blue Coffin.

Some 12 years ago a Wigan lady of advanced age expressed a wish that when she died her remains should be buried in a blue coffin. She ordered the article at that time, and in spite of the efforts of her friends to induce her to give up this strange idea she persisted in it, and when she died a short time ago the order was actually carried out by a local undertaker.—London Tit-Bits.

NORWICH MORNING BULLETIN.

Established 1858.

NORWICH WEEKLY COURIER,

Established 1796.

Subscription rates, MORNING BULLETIN:—By mail or carrier, $6 a year; $1.50 a quarter; 50 cents a month; 15 cents a week. Single copies 2 cents.

Subscription rates, WEEKLY COURIER:—50 cents a year; 25 cents for six months in advance. Single copies 2 cents.

THE MORNING BULLETIN (Six Pages) is the largest, oldest and most complete morning paper published in Eastern Connecticut. At $6 a year it is also the cheapest.

THE WEEKLY COURIER (Eight Pages) is the best weekly issued in Eastern Connecticut.

Advertising rates furnished on application to the business office. No cuts or electrotypes inserted in either paper.

To guard against mistakes, advertisements should be sent in manuscript. We cannot be responsible for errors that occur in messages received by telephone.

Yearly advertisers are limited to their own immediate business, and their contracts do not include Wants, To Let, For Sale, etc.

All news letters should be addressed to THE MORNING BULLETIN; all business communications to THE BULLETIN COMPANY.

Money orders and checks should be made payable to THE BULLETIN CO.

All communications must be signed. Anonymous letters or news items will not be read, but letters from the women readers.

No manuscript preserved or returned, unless stamps are enclosed fully to prepay postage.

Entered at the post office at Norwich, Conn., as second class mail matter.

The Bulletin.

Norwich, Wednesday, September 13, 1893

The Norwich Weekly Courier is the best weekly newspaper in New England at 50c a year.

GARDEN THIEVES.

This is the time of year when the gardens in this vicinity are too frequently visited by people who take fruit and vegetables without permission, and the owners see their best produce taken away by thoughtless boys and conscienceless men. This sort of stealing is not regarded in the same light as other kinds of petty theft, and the owner who complains is laughed at and his gardens are more vigorously raided than ever.

The Courant complains of the amount of fruit stealing carried on in Hartford and vicinity, and says: "People who do enjoy raising fruit take great pride and pleasure in watching it ripen. They have the pleasures of anticipation for weeks. Then a day or two before realization time they find their trees broken and stripped and the work of a year gone.

It is exasperating. The law prescribes a penalty for the offense, but practically the man who prosecutes a fruit thief has to bear full as much condemnation as the thief, often a blubbering boy who makes sympathy for himself with his whines. Take the rascal into court and he receives a moral lecture and his liberty, and the man who has been robbed is known as the fellow who dragged that poor little frightened boy to the station house.

It may come about later that when fruit ripens the owners of trees will be allowed a certain percentage of the yield and thus be relieved of their present fear of losing all, but the signs of any such revival of property rights are as yet undiscernible. At the present stage of proceedings it looks more as if the tree owner would be expected to give thanks for having the wood left, and for being personally unmolested. It is interesting to note how long the toleration now exercised will continue and how soon the public conscience will come to a realizing sense of the meanness of petty thievery. Until this great change comes about fruit culture will remain one of the leading phases of altruistic effort."

THE FERRIS WHEEL.

An English syndicate has decided to build a Ferris wheel to be run in a suburb of London as a business investment. The wheel at Chicago is a paying piece of property, although it cost almost a third of a million of dollars to construct it. It was one of the most daring pieces of engineering, and the largest chance investment known to have been made in this century, and illustrates what perfection has been attained in iron and steel manufacturing in the United States. It was planned and designed by a young man but six years from school, and was constructed by six iron companies in five months, with such accuracy that every part of it went together as designed. The steel and iron in the double wheel, and the thirty-six cars, weigh one hundred and fifty tons, and it revolves upon an axle that weighs seventy tons, one hundred and forty feet from the ground. It makes no noise in its revolutions, and when at its height the observer is 250 feet from the ground.

The foundations are laid thirty five feet deep and it is firmly fastened to them. During a gale blowing 110 miles an hour this great wheel showed no deflection, and in the midst of this hurricane Mr. Ferris, his wife and a reporter made the round trip to witness the effect of the gale.

The reporter writing of his experience afterwards said: "Mr. Ferris had faith in his wheel, Mrs. Ferris had faith in her husband; but the reporter had faith in neither God nor man."

This smoothly revolving, monster toy, has carried a million passengers on its round trip already, and it will carry a million more before the great exposition closes.

THERE SHOULD BE NO DISCRIMINATION.

Congressman Everett in presenting a bill to extend the time for the Chinese in the United States to register to September, 1894, and to prohibit the immigration of Chinese to this country in future, has been guilty of an act not much better than that of Geary himself.

It is time that a discriminating law was passed with reference to the immigrants who are arriving in the United States at the rate of a million a year, but it should not be based upon race prejudice, but upon the broader ground of the greatest good to the greatest number of our citizens.

So far as the Chinese have made a record of citizenship, or of industry, in this country, they have not made second place to the foreigners who came here from Great Britain or Europe. The Chinese furnish few paupers or criminals, and a larger per cent. of them can read and write their own language than of any other class of foreigners who have come to this country. If the claim made is true, that they do not intend to remain in this country, but after accumulating property always return to their own land, the same charge will stand against the French from Canada and the Italians.

This country has had poured into it from European countries the ignorant and depraved long enough, and an immigration law that would not allow an immigrant to enter here who cannot read or write in his own language, and who has no means of maintaining himself, would be a law that would be heartily endorsed by native and adopted citizens. This special legislation against a sober, well-behaved and industrious people is unworthy a free government.

THE REPORTER AND THE BIRDS.

With his fellow men the reporter gets along fairly well, but since carrier pigeons have been employed to carry messages for him he has met his Waterloo. No matter how great his skill in calling down men, he has not yet acquired the art of calling down birds.

In New Jersey the other day carrier pigeons were employed to bring the messages from racing craft to a reporter at Navesink, and thence these were to be telegraphed to a New York paper. The birds arrived with the messages, but with the message attached could not enter the cote, and they could not realize the importance of surrendering themselves to the reporter. The reporter was anxious to get the news, his paper was waiting to receive and publish it, and there were the birds calmly walking on the roof-peaks sunning themselves, with the whole story of the race on their tail feathers, and the reporter wild with rage because the birds would not come down. Finally one was killed and the message secured, but the rest of the birds fled in fright, and the messages were not obtained in time for publication.

The reporters who deal with homing-pigeons must try "pigeon English" upon them instead of guns, if they expect to succeed.

EDITORIAL COMMENT

The boomers on the Cherokee border are a motley crowd, but the same spirit prompts them all—"Pike's peak or bust!"

The Navahoe couldn't "hoe her row" with the British boats, and will come home to join the Pilgrim and the Jubilee.

Prince Bismarck refused to honor his physician's orders and had his own way, and the sciatica caught him and made him squeal.

The Valkyrie is not overdue, but as she has not been spoken or seen by any vessel since she sailed twenty days ago, there is a little anxiety about her.

A Bohemian woman who was taking free bread in New York the other day was robbed of $600. She was keeping all she had and scooping all she could!

When the name of the new baby in the White house gets out, a brigade of new girl babies will be given the same name. Their fond mammas are waiting!

The Hon. Larry Neal of Ohio has been rescued from bachelordom. He's engaged to be married. If he doesn't get the governorship he is in the direct way of getting a wife!

The two great sailing yachts this year have a V. for an initial—The Vigilant and the Valkyrie. Many a V will be wagered on the result of the races between these boats.

The cigarette factories do not shut down. A New Haven firm is said to have orders ahead for a million packages. This keeps the demand for lots in the cemetery good, and makes business for the doctors and undertakers.

According to the latest orders to Pacific coast officials the Geary law is to be vigorously enforced and unregistered Chinese sent back to China until the appropriation in hand is exhausted. It is estimated that the fund will give 800 Chinamen a free sail across the Pacific ocean.

Henry Wolcott of Colorado, a brother of the brilliant and popular senator, says The Springfield Union, has recently been in Washington, where he explained why he didn't go into politics. "One politician in the family is enough," he said, and he added, "I have to stay at home and make money for Ned to play poker with." Henry Wolcott apparently thinks a politician, as well as a general, should have his reserve to fall back upon.

The Norwich Weekly Courier is the best weekly newspaper in New England at 50c a year.

VOICE OF THE PRESS.

A Popular Trio.

Next to Baby Ruth and her mother Baby Ruth's sister is just now the most popular member of the administration.—[Boston Journal.

Order of the Day.

The democratic order of the day—wages must come down. As they stood under republican rule, they're not English, you know.—[N. Y. Recorder.

The Right Sentiment.

American mills must not be shut down for the benefit of foreign mills. American workingmen must not be crowded out for the benefit of foreign workingmen.—[N. Y. Recorder.

They Agree!

Our democratic contemporaries in different parts of the country are all of one mind. They agree that national issues ought to be kept out of state campaigns this year.—[Boston Journal.

They Didn't Make An Impression.

Those Bermuda commissioners seem to realize that they failed to make an impression at Washington. Their early vegetables compete with the Virginia and Carolina truck farms, and the same southern influence which pigeonholed Mr. Andrew's free coal and iron bills will see that onions and sweet potatoes don't get on the free list.—[Boston Journal.

"We Done It!"

I done it, bad luck to the day and the hour;
I'd loike to recall the same vote if I could,
And once agin hear the ould stheame whistle soundin'
That called me to work whin the toimes they were good.
The boss he looks worried, the foreman is sour,
The ould mill's deserted and gloomy at that,
And all I have left for me share of the glory
Is the only battered rooster on the top o' me hat.

The Majority Absent.

The spirit in which the democratic politicians are going to work to disturb the business of the country is well shown in the absence of the democratic members of the ways and means committee from sessions when hearings are given to the people. Seven of the eleven democrats make it a business to be away. The republican members, though it is not on them that the responsibility lies, are always at the post of duty. But the men who propose to smash the tariff require no information as to the effect of their bull in-the china-shop proceedings.—[N. Y. Tribune.

State Bonds Will Not Do It!

We have gold and silver in abundance, and together they have been used as the basis of the currency of the country since the beginning of the republic. What kind of a father would Uncle Sam be to discard one of these two important elements of prosperity and happiness? No amount of paper currency will take silver's place. The rehabilitation of state banks will not accomplish the desired result.—[New York Press.

The Reason Why.

The reason why the women of Connecticut do not take more interest in the privilege offered to them of voting for school officers is variously ascribed to the notoriety, the necessity of giving their ages, etc. Whatever the reason it is a pity that they neglect it. The women, as mothers, are, or should be, deeply interested in school matters. They have a chance, now, to use their influence in bettering the schools where there is room for improvement, and they should not let any mistaken notions of propriety stand in their way. What our children are to become in the future depends on their early training and no one has greater interest in this subject than the women.—[Ansonia Sentinel.

I have not used all of one bottle yet. I suffered from catarrh for twelve years, experiencing the nauseating dropping in the throat peculiar to that disease, and nose bleed almost daily. I tried various remedies without benefit until last April, when I saw Ely's Cream Balm advertised in The Boston Budget. I procured a bottle, and since the first days' use have had no more bleeding—the soreness is entirely gone.—D. G. Davidson, with The Boston Budget, formerly with Boston Journal.

To be free from sick headache, biliousness, constipation, etc., use Carter's Little Liver Pills. Strictly vegetable. They gently stimulate the liver and free the stomach from bile.

Things Worth Remembering.

When you feel a kind of goneness about the stomach it is a sign that your food does not sit well and that you are about to have a fit of indigestion.

When you begin to feel nervous and are unable to sit comfortably; when your clothes and only seem to lose their fit and become too tight in places the fit of indigestion is surely upon you.

When this fit of indigestion is repeated from day to day it finally resolves itself into dyspepsia.

Remember that three to ten of Brandreth's Pills will cure the worst case of indigestion or dyspepsia, or both, and that a regular course of them, say two every night for a week or ten days, will act as a preventive of either complaint.

Every woman who suffers from Sick Headache, and who dislikes to take bitter doses, should try Carter's Little Liver Pills. They are the easiest of all medicines to take. A positive cure for the above distressing complaint; prevent and cure Constipation and Piles. As easy to take as sugar. Only one pill a dose. Price 25 cents. If you try them you will not be without them.

For Over Fifty Years

MRS. WINSLOW'S SOOTHING SYRUP has been used by millions of mothers for their children while teething. If disturbed at night and broken of your rest by a sick child suffering and crying with pain of Cutting Teeth, send at once and get a bottle of "Mrs. Winslow's Soothing Syrup" for Children Teething. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures Diarrhoea, regulates the Stomach and Bowels, cures Wind Colic, softens the Gums and reduces Inflammation, and gives tone and energy to the whole system. "Mrs. Winslow's Soothing Syrup" for children teething is pleasant to the taste and is the prescription of one of the oldest and best female physicians and nurses in the United States. Price twenty-five cents a bottle. Sold by all druggists throughout the world. Be sure and ask for "MRS. WINSLOW'S SOOTHING SYRUP."

A woman who is weak, nervous and sleepless, and who has cold hands and feet, cannot feel and act like a well person. Carter's Iron Pills equalize the circulation, remove nervousness, and give strength and rest.

The Human Electrical Forces!

How They Control the Organs of the Body.

The electrical force of the human body, as the nerve fluid may be termed, is an especially attractive department of science, as it exerts so marked an influence on the health of the organs of the body. Nerve force is produced by the brain and conveyed by means of the nerves to the various organs of the body, thus supplying the latter with vitality necessary to insure their health. The pneumogastric nerve may be said to be the most important of the entire nerve system, as it supplies the heart, lungs, stomach, bowels, etc. The long nerve descending from the base of the brain and terminating in the bowels is the pneumogastric, while numerous little branches supply the heart, lungs and stomach with necessary vitality. When the brain becomes in any way disordered by irritability or exhaustion, the nerve force which it supplies is lessened, and the organs receiving the diminished supply are considerably weakened.

Physicians generally fail to recognize the importance of this fact, but treat the organ itself instead of the cause of the trouble. The noted specialist, Franklin Miles, M. D., LL. B., has given the greater part of his life to the study of this subject, and the principal discoveries concerning it are due to his efforts.

Dr. Miles' Restorative Nervine, the unrivaled brain and nerve food, is prepared on the principle that all nervous and many other difficulties originate from disorders of the nerve centers. Its wonderful success in curing these disorders is testified to by thousands in every part of the land.

Restorative Nervine cures sleeplessness, nervous prostration, dizziness, hysteria, sexual debility, St. Vitus dance, epilepsy, etc. It is free from opiates or dangerous drugs. It is sold on a positive guarantee by all druggists, or sent direct by the Dr. Miles Medical Co., Elkhart, Ind., on receipt of price, $1 per bottle, six bottles for $5, express prepaid. Sold by N. D. Sevin & Son and Lee & Osgood. may16wfmaw

ROBBERS ARE BOLD.

Hold Up An Express Train in Indiana.

ENGINEER SHOT DOWN LIKE A DOG.

Express Car Blown Open With Dynamite —Much Booty Secured.

CHICAGO, Sept. 12.—A score of masked men held up a Lake Shore train 140 miles from Chicago, near midnight last night, and, after wounding the engineer, blew open the safe in the express car and stole its contents. The train was the one which left the Twelfth street depot of the Illinois Central road at 7:45 last evening. It reached Kendallville, a small station in Indiana, four hours late.

It went past the town and had hardly gone a mile through a stretch of timber land when the engineer slowed up near a curve. As the engine rattled around the turn the engineer saw a red light ahead. His hand was at the lever in an instant, and as the train slowed up and the red light drew near the engineer saw the group of men. In front of the red light the train came to a stop. A dozen men sprang into the cab and leveled rifles at the heads of the engineer and fireman.

The two railroad men were stupefied as the rifle barrels gleamed in the flickering light and the robbers said:

"Throw Up Your Hands."

The fireman lifted his arms at once, but the engineer paid no heed to the men or to their arms, and with a cry of warning on his lips, turned toward the passenger coaches.

A dozen rifles were quickly turned toward the plucky fellow and a dozen shots startled the passengers, who had been awakened by the sudden stopping of the cars. How many of the shots struck the engineer is not determined, but he fell with the blood gushing from an immense wound.

Soon after the train had come to a pause there was a terrible explosion. The robbers had put dynamite under the train, and the express car cracked and split and showed a huge gash in its side. The conductor and the brakemen hurried to the platforms, only to be covered by Winchesters in the hands of men who said they would shoot to kill if a move were made. The railroad men

Become Motionless and Dumb.

A guard was put at the end of each car and the express car was attacked.

The messenger behind his barricaded door refused to obey the command of the robbers to open the express car entrance. Shot after shot was fired at the car, but the robbers soon saw they could gain no entrance by intimidation. They were prepared for this resistance. The messenger, pouring shot after shot at the robbers through the opening, was soon disarmed and with a blow on the head levelled to the floor senseless. Half a dozen of the men then looted the express car.

Dynamite was again used in opening the safe and the thieves used their own time in taking everything they thought worth carrying away. The guards at the door of the passenger coaches were called off, a few parting shots were fired—perhaps in the air—to warn those on the train that

Pursuit Meant Death

and the band of robbers disappeared in the wooden stretch of land that skirts the railroad. As fast as legs could carry them messengers ran to Kendallville to spread the alarm.

The train held up was the New York express which was made up of 10 coaches, two express cars and one baggage car. The dynamite having wrecked only one express car, the robbers contented themselves with looting this alone and made no effort to force an entrance to the second. It is said that none of the passengers were robbed.

The noise caused by the crashing of the express car when the dynamite bomb was buried against it was the first intimation they had that the train was in the hands of robbers. There was a lively scramble among them to crawl under the seats and secrete what valuables they had in sight, such as watches and other jewelry.

The express car robbed was one used by the United States Express company, and is supposed to have contained a large sum of money. At 5 o'clock this morning a train containing several railroad officials left the Twelfth street depot to make a quick trip to Kendallville.

It is reported that the robbers carried away $250,000 in gold which was being shipped east by a Chicago bank.

Rich but Lived in Squalor.

NORWALK, Conn., Sept. 12.—Selectman Raymond is trying to find the heirs of Mrs. Mary Brennan, who was fatally burned in a fire some months ago. Mrs. Brennan, who was 75 years old and who lived in squalor, died, leaving an estate inventoried at $60,000 or more, although no one knew of her having any means. The town supported her much of the time.

Jail Breakers Held For Hearing.

ELLSWORTH, Me., Sept. 12.—George Albro, who broke jail here and escaped on Aug. 4, and Fred Noyes, who broke on Sept. 6, have been put under $600 bonds for their appearance at the October term of the supreme judicial court. They were committed for want of bail.

NEWS IN BRIEF.

Six hundred New England pensioners have been dropped from the list, pending investigation.

Sisters of Charity of Mt. St. Vincent, near Halifax, have decided to start a branch academy and purchase land at Wellesley, Mass.

CREEDS AND FAITHS.

Doings of the Delegates in the Chicago Religious Congress.

CHICAGO, Sept. 12.—The delegates to the World's parliament of religions separated into sections and departments this morning, according to their respective creeds and faiths, and each of the various halls was well filled with those interested in the doctrines enunciated. A general union meeting opened at 10 o'clock at the Hall of Columbus with Rev. Dr. F. H. Nicoll presiding. In a few happy remarks he introduced as the first speaker of the day Rabbi Isaac N. Wise, who, taking as his subject the "Theology of Judaism," gave an eloquent exposition of the Jewish faith, which was listened to with close attention and frequently applauded.

Another eloquent divine, Dr. Alfred W. Momerie of London, spoke upon the moral evidence of a Divine existence, adducing many new as well as standard arguments to demonstrate the existence of an all-ruling power.

A hearty reception was accorded to Hon. Justice Ameer Ali of Calcutta, who spoke upon the faith of Islam, as well as to Rev Maurice Phillips of Madras, who read a paper upon the primitive Hindoo religion and primitive revelation.

Hindooism was further discussed by Manilal Dwivedi of Bombay. In other halls the proceedings were under the auspices of the Catholics, Congregationalists, Universalists and Lutherans, and papers relating to each denomination were read and discussed. The addresses of the Indian delegates were translated to the delegates, and while strong in advocacy of their own faiths, were carefully worded to avoid offense to believers in other creeds.

WHITEWASHED HIS WIFE.

But the Court Refused to Do Mark Devlin the Same Favor.

NORTH ATTLEBORO, Mass., Sept. 12.—A case of extreme cruelty was brought before the court today. Mark Devlin, who has been an inmate of Taunton jail, made a drunken assault on his wife, yesterday, while he was whitewashing the kitchen.

His wife objected to the way he was doing the work, when Mark, in a fury of passion, grabbed his wife, and holding her down on the floor poured the whitewash all over the woman, who was screaming for help. Then he took the brush, and, dipping it into the liquid, soused it into the woman's face and eyes. Then he poured the wash in her mouth and down her back. The woman screamed in agony and was rescued by some passers by who heard her cries.

Devlin left the house and was followed by Officer Freeman, who had obtained a warrant for his arrest. When the officer found Mark and attempted to arrest him the frenzied fellow pitched into the officer and they both tumbled to the ground. Officer Freeman managed to get his club out, and in a few minutes Mark was clubbed into submission. Judge Reed imposed a fine of $50 and costs and Mark went to jail.

WILL SAIL SATURDAY.

Dunraven and His Guests Will Come After the Cup.

NEW YORK, Sept. 12.—A London special to the Herald says: "The Earl of Dunraven, accompanied by the Countess of Dunraven and the ladies Windham-Quin will sail for New York Saturday next.

"The Marquis of Ormonde, Lord Wolverton, Hon. Hercules Robert Langrishe and Hon. Arthur Pages will be the Earl of Dunraven's guest in New York, and will sail with him on board the Valkyrie in the matches for the America's cup.

"I have it on excellent authority that Lord Wolverton is a part owner of the Valkyrie."

PARALLEL HIGHWAYS

To Be Built Running From the Ocean to Massachusetts Line.

HAVERHILL, Mass., Sept. 12.—The meeting of the Haverhill board of trade tomorrow evening will heartily indorse the movement started by the Lowell board of trade for an improved road for vehicles and bicycles from Lowell to the sea. This scheme is partly the fruit of the recent visit of the state highway commission to the Merrimac valley, and partly the outcome of years of agitation by prominent citizens and by the newspapers. The state commission among other things proposes to gridiron the commonwealth by several parallel highways, built on a magnificent scale and running longitudinally from the Atlantic ocean to the state line.

They will ask that the road start at Newburyport and traverse Salisbury, Amesbury, Merrimac, Haverhill, Bradford Neck, Methuen, Lawrence, Dracut and Lowell, and that it be made to sustain heavy loads of merchandise on broad tires as well as pleasure vehicles and bicycles.

After reaching Lowell it is intended that the road continue west through Ayer, Fitchburg, Athol, Gardner, Greenfield and across the Berkshire Hills to North Adams, forming a ribbon of macadam equal to any of the military roads of Europe from tidewater to the Hudson, and making the first and northerly of the trans-state highways contemplated by the commission.

A transverse road will then be projected connecting Boston via Cambridge with Lowell and Nashua, Manchester and Concord, running thence up the valley to Lake Winnepesaukee and the White Mountains, as it is understood that New Hampshire has placed herself in a reciprocal position in this matter.

President Thomas Sanders of the Haverhill board of trade is enthusiastic upon the subject and says that the desired improvement can be obtained from the state if all the municipalities directly interested make a concerted demand for it.

NOW IS THE TIME.

Times Comments on Navahoe and Hopes to Win America's Cup.

LONDON, Sept. 12.—The Times, noting the fact that, in accordance with the English rules, the Britannia is entitled to time allowance from the Navahoe, says this makes her victories the more decisive.

British yachtsmen, the paper adds, have long agreed that in no weather is the Navahoe the clipper that American builders are wont to turn out when they try their best, and that in a strong wind she is absolutely deficient in stability.

The Times, while accepting Mr. Carroll's explanation as to the accident in the race at Cowes for the town cup, insists that the Navahoe heeled over in a dangerous way and answered her helm with difficulty.

In repudiating the anonymous charge that the English yachts made a concerted movement to baffle the American racer, the Times says: "Our yachtsmen have no such ideas of international courtesy, and in fact, in race after race, went out of their course in attempts to luff each other without reference to the gain thereby resulting to the Navahoe.

The Times concludes: "After all, these are minor races compared with the race for the America's cup, and if ever it is to be retrieved now is the time, when we are represented by a splendid boat and a determined owner."

OPERATIVES HAPPY.

Washington Mills Start Up—Wages Reduced About Ten Per Cent.

LAWRENCE, Mass., Sept. 12.—The worsted yarn department of the Washington mills started up this morning, as it had been previously announced they would, at a reduced schedule of wages, amounting to about 10 per cent. The operatives came in in large numbers, but much to the regret of the management it was found impossible to find work for all at present, and many were compelled to return home again.

This department of the mills usually employs about 1500 hands, and it is hoped that in a short time it will be running at its full strength. The operatives were exceedingly happy this morning at resuming work. The weaving department of the mills will start up work again on Friday [illegible]

MAKING THREATS.

Silver Men Will Filibuster to Prevent Repeal.

PRESIDENT WILL NOT YIELD.

His Attitude Makes the Free Silver Men Ugly.

WASHINGTON, Sept. 12.—The president having thrown down the gauntlet, with the declaration that he will accept nothing but repeal, unaccompanied by any condition, the silver advocates on both sides of the chamber are now marshaling their forces for a protracted struggle. Senator Pugh said today: "We have 26 votes which will never surrender, and every one of these senators will take a hand if necessary in the present discussion." Only a few days ago there was an evident willingness on the part of several of the Democratic senators who were advocating free coinage to use their influence against unnecessary delay in reaching a vote. But since the president is so unyielding in his exactions, they are again united in accepting the issue presented by the administration.

There are few senators, like Daniels and Faulkner of the two Virginias, who are still holding out the hope that some condition may be attached to the pending measures which will relieve the Democrats from the embarrassments incident to their divergent views. They are unwilling to surrender the opinion that if

Some Qualifying Provision

could be incorporated, recognizing silver in some form, the president would sign it as a preliminary adjustment, rather than have the bill fail and again thrown back into congress. The conservative wing will, therefore, when the voting on amendments is reached, present a proposition on which it hopes to secure nearly all of the Democratic votes, together with the Republican free coinage contingent.

The main difficulty which confronts the conservatives who wish to subserve the interests of silver and at the same time remain in amicable relation with the administration is to secure the cooperation of the extreme element on both sides by having them agree to a fixed time for taking a vote. Today they are still unwilling to consider any propositions of that character, and also indicate their determination to protract the discussion indefinitely. The outlook, therefore, at this moment is more discouraging than at any time since the parliamentary struggle over silver commenced. The managers of the administration forces still claim that they have a clear

Majority of Ten or Twelve

on a direct vote in favor of the finance committee bill. In their conclusions, however, the administration people have failed to take into account the strength which some insidious silver amendment might draw off and cause a failure of all their plans. There are several such amendments lurking in the schemes of the Democratic silver advocates, any one of which might anticipate the majority which the anti-silver senators claim.

The silver state senators like Wolcott, Teller and Jones, who are strong protectionists, finding the situation becoming desperate, are now throwing out intimations that if their protectionist friends in the east abandon them and allow the silver industry to be destroyed, they need not expect any support from them when the critical movement arrives for the upholding of the protective policy in support of other American industries. The Republican senators

Don't Propose to Be Intimidated

by such threats, however. They call attention to the course of these very senators who, during a Republican congress, joined forces with the Democratic party in the senate to defeat the force bill. Recalling this breach of party discipline, they think it comes with ill grace to indulge in threats of this character; besides, they call attention to the fact that the Democratic party is in a majority, and therefore responsible for legislation, and their votes will not help them either way. There have been no negotiations as yet on this line. All that has transpired thus far is simply the intimation that has been thrown out by the silver state Republicans of retaliation on the tariff.

YACHTS GOING HOME.

Cup Defenders Leave New York—Watching For the Valkyrie.

NEW YORK, Sept. 12.—The four yachts which battled yesterday for the honor of defending the America's cup against the Valkyrie, left these waters this morning. Just before 8 o'clock the Pilgrim and Jubilee left for Boston.

The Colonia also left about that hour, and was soon followed by the Vigilant, whose crew was as jubilant as it was possible to be over the victory of the yacht. The Vigilant, it was said, was bound for City Island. The interest of the yachtsmen was turned today to the arrival of the Valkyrie, which is expected at any moment.

Pullman Company Suffers.

CHICAGO, Sept. 12.—A disastrous fire swept over the lumber yards of the Pullman Palace Car company in the town of Pullman last night, and before it was brought under control at 1 o'clock this morning had done damage to the extent of $250,000. Almost 20 acres are included in the burned district, and the amount of lumber destroyed was between 9,000,000 and 10,000,000 square feet.

World's Fair Banquet.

CHICAGO, Sept. 12.—The World's fair directors will give on Oct. 12 a banquet. It is to commemorate the success of the fair. President Cleveland and his cabinet, governors of all the states, the army and navy officers and all the foreign commissioners will be invited. The auditorium has been secured for the purpose.

The Gypsy Wife Indicted.

NEW YORK, Sept. 12.—A special to the Tribune from Middleton, N. Y., says that the jury in the Paul Halliday case brought in a verdict last night charging Lizzie with murder, and declaring that the crime was premeditated.

New Rector For Quincy.

QUINCY, Mass., Sept. 12.—Rev. Walter Russell Breed of Concord was elected rector of Christ's church last night to fill the vacancy caused by the resignation of Rev. H. Evan Cotton.

Back to Work Again.

BRIDGEPORT, Conn., Sept. 12.—Over one-half the finishers at the Bridgeport brass company who struck yesterday went back to work this morning and the department is running as usual. They accepted the slight cut with a promise of six days' work.

Opens the Campaign.

AKRON, O., Sept. 12.—Governor McKinley opened his campaign here today, speaking at length before a large assemblage.

HOUSEHOLD HINTS.

Carpets should be shaken on a clear, sunny day when there is no wind.

POWDER AND BALL.

American soldiers are the best marksmen in the world.

The Russian soldier is more heavily burdened than any other. A foot soldier in the army of the czar carries over 65 pounds.

The rudder of the monster British ironclad Vulcan alone weighs 23 tons, about six tons heavier than the one formerly used on the Great Eastern.

According to the estimates of 1893-4, the German navy numbers, inclusive of midshipmen and cadets, 1,201 officers and 18,249 men, or a total of 19,450.

The French navy is to have a valuable addition in a new cruiser, which, from the plans, will be the largest in that navy. She will be named D'Entrecasteaux, after the famous navigator who died during his search for La Perouse.

NATURAL PHENOMENA.

The Rocky mountain ranges are 300 miles wide.

On the island of Trinidad is a large field covered with pitch, which in the sunlight glistens like a dark liquid.

Mount Kineo, which rises precipitously 700 feet out of Moosehead lake, Maine, is wholly composed of hornstone and is the largest mass of that mineral in the known world.

The "rocking stone" in Sullivan county, N. Y., weighs 40 tons and is so evenly balanced on a table of rock that it can be easily set in motion by the pressure of a finger, yet so solidly laid that the combined strength of 100 men without artificial appliances could not displace it.

EDUCATIONAL ECHOES.

Kansas has a school for every 136 pupils; Pennsylvania for every 400.

The Fat Man Rejoices.

The months roll on, the torrid heat
Of summer's almost over.
The nights are growing cool again—
The fat man feels in clover.
—Boston Courier.

Appropriate.

"Why is this drawing room styled 'The Salon of the Rejected,' like the famous picture gallery in Paris?"

"Because Frau von Goldstein has rejected no fewer than 16 suitors in this very room."—Oberlander Bote.

Loose English.

Editor—What do you mean by using such an expression as "A Murder Mystery?"

Reporter—What's wrong with it?

Editor—It's tautological. All murders are mysteries nowadays.—New York Weekly.

THE STOCK MARKET.

Dealings in Leading Securities in Boston and New York.

BOSTON, Sept. 12.—In the outside market call money is quoted at 8 to 10 per cent, and time money is nominally 6 per cent.

Contrary to general expectation, the stock market opened strong though dull. This, however, was not surprising in face of the strength displayed by it yesterday, when all of the conditions—railroad earnings, crop reports and London—were in favor of a sharp decline. London this morning came about as our close, except for St. Paul, which was 1 per cent lower. There was no accession of investors, however, and the loaning rates of the active stocks indicated that there was no marked scarcity. The conclusion is that the market is very largely one of manipulation at the present moment and that some one has a large block of stock which he wishes to unload at the right time.

Though the local market opened fairly strong, the quotations came rather irregular. Sugar was again active. The common, opening ⅝ down at 92¼, advanced to 93¾, while, ex-dividend, it sold up to 90¼. Distilling was again active also, under the report this time that the internal revenue tax on spirits is likely to be increased, and the trust, with its large stock of spirits thereby profit very largely. Certainly a strong effort is being made by the trust toward some such change, and Whisky Trust certificates are said to be rather common at Washington these days. General Electric opened ⅜ up at 47⅝, but weakened to 46¼.

New York and New England rallied further "on mystery," opening steady at 25¼ and advancing to 29¼, with a subsequent decline to 28¾. Boston and Maine advanced from 133 to 136 and Fitchburg preferred from 80¼ to 81. Atchison advanced to 21¼, but hung about 21 the most of the forenoon, while Chicago, Burlington and Quincy, rising from 85¾ to 85½, settled back to 84¾. Union Pacific fluctuated about 24.

WHIP AND SPUR.

Alix got a new record at Columbus, O., on Aug. 24, 2:09¾, in a fifth heat.

The Philadelphia Driving Park association will hold its regular autumn meeting Oct. 10 to 13.

The chestnut gelding Balsora Wilkes, who made his record of 2:17½ in 1888, is reported as again likely to take the field.

There is a movement for a new track at San Francisco, and that reliable horseman, Mr. Samuel Gamble, is at the head of it.

Mr. C. Schauste of Berlin, who recently bought the splendidly bred young stallion Dark Night, has purchased the great brood mare Belle Brino.

At Maysville, Ky., the pacing stallion J. H. L., by Idol Wilkes, dam Hattie Cromwell, by Harrison Chief, won the free for all in 2:09¼ and 2:08¾. His record last year was 2:15¼.

Guy, 2:06¾, the gray stallion, by Shiloh, dam Maud, by Shoo Fly, who won the great race in which Mascot made his champion record of 2:04, has been retired for the season. He has a bad leg.

That game pacing stallion Vitello, 2:11½, has made a great record this season. He has won eight first moneys, one second, one third and one fourth, which represent the total number of starts he has made.

The chestnut filly Falfa, by Allerton, won a great race at Independence, Ia., on Aug. 23 and reduced her record to 2:20. It will now be in order for Director's Flower and other fast 3-year-olds to beat to 2:20.

SIMPLE SALVE.

The white of an egg quickly swallowed by a choking person often gives immediate relief.

As a soothing and cooling application for the skin nothing surpasses a few slices of fresh cucumber rubbed gently over the face.

It is a great mistake to redden by biting or brighten by wetting the lips. Aside from being an untidy habit, the lips are made sore and supersensitive to contagion.

A medical journal asserts that people who drink cows' milk are more prone to consumption than those who use the milk of the reindeer, the buffalo, the ass or the goat.

Iodophenochloral, a new remedy recommended for the treatment of parasitic skin disease, is composed, says The Pharmaceutical Times, of equal parts tincture of iodine, carbolic acid and chloral hydrate.

Oilcloth or linoleum will be brightened by a thin coat of copal varnish.

Rubber should be carefully kept away from oil, as oil softens and makes it unfit for use.

A large piece of charcoal placed in the refrigerator and renewed every week will help keep it sweet.

Equal quantities of beeswax, linseed oil and spirits of turpentine, melted, thoroughly mixed and cooled well, when rubbed on furniture gives it a nice polish.

our $1.50 and $2.00 Shoes. They will stand hard wear and at the price are hard to beat either in looks or wearing qualities.

FRANK A. BILL, 104 Main St. sep13daw

PORTEOUS & MITCHELL.

See the Big Window Full of BLANKETS.

Read the Blanket story. Then come and handle them. When you see the quality and learn the prices you'll agree with us that this is without question the time to buy Blankets.

By several bits of good trading—watching the markets closely—buying a case here and another there, we are enabled to offer about 1,400 pairs of Blankets that are fully from twenty to twenty-five per cent. below ordinary prices. Some are all cotton, some cotton and wool, others pure wool.

Small enough for a single bed—big enough for any double bed—warm enough for zero weather—cheap enough to be within almost anybody's reach.

They go on sale this very day.

Prudent housekeepers will take advantage of this offering. It would be the height of folly not to do so.

We are certain the same grades of Blankets will not be offered again this season for such little prices.

10-4	White Blankets	[illegible],	regular	value	$ .75
10-4	"	75c,	"	"	1.00
10-4	Grey	$1.00,	"	"	1.25
4-4	[illegible]	1.25,	"	"	1.75
10-4	White	1.75,	"	"	2.25
10-4	Grey	1.95,	"	"	2.50
10-4	White	2.25,	"	"	3.00
11-4	"	2.50,	"	"	3.00
11-4	"	2.75,	"	"	3.25
11-4	"	2.95,	"	"	3.50
11-4	"	3.75,	"	"	4.50
11-4	Scarlet	3.95,	"	"	4.50
11-4	"	4.48,	"	"	6.00
12-4	White	4.98,	"	"	6.00

Two good generous offerings in Horse Blankets:

Lot 1.—60 Horse Blankets for $2.75 each.
Lot 2.—40 " " " 3.50 each.

These are fully twenty-five per cent. below regular prices, and when sold cannot be duplicated.

Intimate friends of the Bed Blankets are the Wrapper Blankets. Here are some that are better than we have ever before sold for the prices.

Special!—1 lot of Wrapper Blankets for $2.25. A little later in the season and this same quality will easily bring $3.00.

Other grades are:

Wrapper	Blankets	$3.50,	regular	value	$4.50
"	"	4.00,	"	"	4.50
"	"	4.00,	"	"	5.00
"	"	5.00,	"	"	6.50
"	"	5.50,	"	"	6.50
"	"	6.50,	"	"	7.50

They are all desirable colors. They are at least worth looking at. If when you see them you don't think they are good value we won't urge buying.

The Bulletin.

Norwich, Wednesday September 13 1893.

The Bulletin should be delivered everywhere in the city before Six a. m.

Subscribers who fail to receive it by that time will confer a favor by reporting the fact to the Bulletin Co

The Norwich Weekly Courier is the best weekly newspaper in New England at 50c a year.

Indications for Connecticut: Fair; slightly warmer; southwest winds.

NORWICH AND VICINITY.

CITY NEWS.

The Free Academy opens this morning at 8.30 o'clock.

John Holland was sent to jail for drunkenness Tuesday in the city court, in default of $11 88.

The Second Congregational society will meet in the lecture room of the church this evening at 7.30 o'clock.

The New London Street Railway Co. will run its cars as far as Ocean beach up to the first of October. The bathing at this time is said to be the most delightful of the year.

The tracks of the electric railway on Laurel Hill are laid as far as the school house. Another day's blasting will clear the way for the completion of this end of the road.

A green lantern has been placed on the rear of the fifteen-minute cars which run only to Greeneville, Thamesville and the Falls. The 10 o'clock car on the Yantic division runs only to Wightman's switch, except on Saturday night.

Base Ball.

The Orioles of Roath street play the Taftville nine on the latter's ground this afternoon at 3.30 o'clock. Elisha Carroll, the well known local twirler, will pitch for the Orioles. Carroll has a record of striking out seventeen men in a recent game. A rattling good game is expected. The Orioles have not lost a game this year.

In last Saturday's game with the Neptunes the score stood 9 to 0 in favor of the picked nine. At the close of the game a misunderstanding arose relative to the score, and on Friday next the game will be played over.

May Succeed General Manager Tuttle

"Rialto" of The Boston Advertiser said Tuesday morning: I understand that the name of I. D Barton, at present general superintendent of the New York & New England, is being considered favorably by the directors of the New York, New Haven and Hartford, in connection with the vacancy caused by the resignation of Mr. Lucius Tuttle, the former vice president and general manager of that road. Mr. Barton is universally acknowledged as one of the ablest transportation men in the east.

Will Bring Good Qualifications.

The new physical director for the Young Men's Christian association, Mr. Albert B Davis of Fitchburg, Mass., is a man of experience, with special training under Roberts of Boston, who was also the instructor of the late director, Mr. E F. Harding. Prof. Roberts' methods of physical culture are recognized as standard in the Young Men's Christian association work of this country.

Mr. Davis is a young man of energy and push and will doubtless put much enthusiasm into this department of the association work, while his influence and abilities will be felt beneficially in connection with the various departments of the institution's work.

Wang.

Next Monday night the comic opera "Wang" is to be given at the Broadway theater. A New York paper gave "Wang" the following notice: The weird strain that announces the approach of the Cambodians is as characteristic as the motif by which Wagner introduces the giants in "Die Rheingold." But the public does not want "Die Rheingold." It wants "Wang." The managers give operas for the public, and Mr. Morse writes operas for the managers. Hence, "Wang's" excuse for being light, and amusing and whistleable.

Police Commissioners to Resign.

The three police commissioners of the common council—Alderman Perkins and Councilmen Whittaker and George—were conspicuous by their absence at Tuesday evening's meeting. It is said on good authority that they have formulated their resignations, with a voluminous explanation, which they will send immediately to Mayor Harwood. The commissioners take exception, it is reported, to the fact that their nominations to the council have been ignored.

FREE ACADEMY.

The Institution Opens Today With Two Additions to the Faculty.

There are few changes in the staff of the Free academy, which opens this morning for the year. The teachership of English has been filled by the appointment of Miss Abby F. Mitchell of Bath, Maine, who has been a valued teacher in the Springfield, Mass., High school: in the St. Johnsbury academy, Vt.; and in the Abbot academy at Andover, Mass.

The department of German will be in the charge of Mrs Justine L Stevens. Mrs. Stevens is of German parentage, but was born and educated in this country. She has spent the last four years in study in Berlin, and is exceptionally well equipped for her work.

ACTIVE WORK BEGUN.

The Y. M. C. A. Building Scheme Now Assuming Definite Shape.

The plans of the proposed building for the Young Men's Christian association have been carefully considered by the board of managers and approved. Word was sent to the architects on Tuesday to proceed with the detailed working drawings, making such modifications as were indicated by the board, and adding eight feet to the entire depth of the building. It is confidently hoped that the subscription list will increase even more rapidly, while at the same time the other work is going on.

The picture of the front elevation, which is neatly framed and now open to the inspection of the public, is in the association rooms and everybody is invited to call and see it. Probably no building in the city will present a more attractive appearance. The style is French renaissance, and is different from any other association building in its unique taste.

SUPERIOR COURT.

The Jury Disagree in the Brown Case.

The jury in the case of the state against Reuben R. Brown, after having been out a little over half an hour, at the superior court in New London Tuesday, reported to the court that they were unable to agree. The court sent them back for a second consideration of the case, and within another half hour they reported again to the court that they were unable to agree.

Judge Hamersley remarked to the jury that they had taken a very short time to consider the case, in which to twice report they were unable to agree; but as two of the jurors thought they could not agree Judge Hamersley took back the papers.

The jury at first stood 8 to 4 in favor of conviction; and finally stood 6 to 6.

The jury was empanelled in the case of the state against John Sullivan, and one witness had finished his direct testimony when the court adjourned till 10 o'clock this morning.

The Norwich Weekly Courier is the best weekly newspaper in New England at 50c a year.

Personals.

Miss Mary J. Linton has returned to Pittsfield, Mass.

Dr. James A. Somers of Brooklyn, N. Y., was in town Tuesday

Isaac H. Bromley of The New York Tribune is ill at his home in New York.

Miss Mattie Hunter of Norwich Town is visiting relatives in New York and New Jersey.

Mr. William A. Somers arrived home Tuesday from a pleasant fortnight's tour to Chicago.

Mr. and Mrs. George Martin of Norwich are at their cottage at Crescent beach for a short outing.

Senator Charles Phelps of Rockville, who was hurt in a runaway, has recovered sufficiently to be removed to his home from Hartford.

C. D. Hine has been elected a member of the New Britain school board, to fill the vacancy caused by the death of Judge Chamberlain of that place

Mr. H. B. Crawford has severed his connections with H. B. Almy & Co., of New York. He has accepted a position as clerk for C B. Whitney.

James Linton and wife, who have been visiting his mother, have returned to their home in New Britain. Fred Linton and wife returned with them for a visit.

John J. Fogarty returned to his studies at Niagara University Tuesday. The Clipper ball nine, of which he has been a valued member this summer, escorted him to the station

Mr. William A. Gallup, Miss Florence Gallup, his daughter, and Mrs. Fred A. Gallup started for the World's fair Tuesday morning by the way of Niagara Falls, to be gone two weeks.

Mr. and Mrs George A Sydleman and daughters of Norwich are at their cottage at Crescent beach for the remainder of the month. Mr. Austin Fitch of Norwich was their guest over Sunday.

Miss Mary A. Browning of Natick, R. I., who has been the guest of her cousin, Miss Mary A. Hovey, the past three weeks, left the city Tuesday for Willimantic, where she will visit friends before returning home.

The New London Telegraph says: The Rev. Leonard Woolsey Bacon, D. D., who preached in the Second Congregational church, Sunday, left Monday on a business trip to northern New York. Dr. Bacon will preach in the First Congregational the next two Sundays.

JUMPED INTO THE RIVER.

Thomas Jones' Unique and Ineffectual Method of Resisting Arrest.

What possessed Thomas Jones, of the cutlery shop, to cast himself on to the bosom of the Thames river early last evening is now as inexplicable to himself as to superficial observers of his rash act. He came uncomfortably near ending his earthly existence then and there.

At a quarter before six o'clock Jones and a companion came sauntering down Main street toward Franklin square. Three Hebrews were engaged in conversation in front of Somers Brothers' establishment, and one of them, John Blum, received a punch in the leg from the passing couple. He turned about and demanded an explanation, whereupon Jones landed him a blow in the face that started blood, and turning about ran for the railroad bridge. When the Jewish trio had recovered from their surprise, and Blum had ascertained that he was not mortally wounded, they gave chase to the assailant, hurrying through Main street to the Laurel Hill bridge to intercept him as he emerged from the railroad track.

Jones ascended the precipitous embankment at the tunnel entrance, and catching sight of his pursuers, sped down toward the new dock. By this time word had reached police headquarters, and Officers Ebbetts, Kors and Stanley joined in the chase. The fugitive ran aimlessly up and down the tracks a few minutes, and seeing that his pursuers were closing in on him, headed toward the water. He boarded a coal barge tied to the dock, and with one despairing look behind, leaped boldly into the river. Well for the intrepid swimmer that his plight was seen by two young men in a boat, who put at once to his rescue. His clothes and shoes handicapped his efforts, and his strokes grew very weak. Puffing and blowing, but nothing undaunted, the aggressive young workman was pulled aboard the craft and rowed to the West Side shore.

City Sheriff Myron O Morgan had been an interested witness of the affair, and was keenly alive to Jones' predicament. Running to the extreme end of the dock, the officer secured a rowboat, and propelled himself toward the swimmer. He was too late to pick the man up, but when he saw the chances of his eluding his pursuers, rowed rapidly in the wake of the first boat to the shore.

Jones sprang ashore with Morgan close at his heels, and in endeavoring to make his escape, ran into the sheriff's arms in the rear of the Richmond stove work's plant and directly on the water's edge. The two men grappled, and Jones fought fiercely for his liberty. In the struggle both went overboard, the sheriff up to his arm pits and his opponent beyond his depth. To land they climbed again, and rolled around among iron filings and moulding sand like two submarine monsters. Finally the power of municipality manifested itself, and Jones, his spirits subdued and muscles exhausted, with a pair of leaders encircling his wrists, was led a captive to police headquarters.

Later in the evening friends provided him with a change of clothing, and he lay down to rest with bright prospects of a staunch cold this morning. Jones claimed that had he known Morgan was an officer of the law, he would not have resisted arrest. The sheriff's pluck is highly praised.

MARRIED.

BROWN—FOWLER—In this city, Sept. 10, 1893, by the Rev. C. W. Morrow, Frederick C. Brown of Norwich to Miss M. Fowler of Preston.

TO THE PROBATE COURT FOR THE DISTRICT OF NORWICH:

The undersigned, an Insolvent Debtor, residing in Norwich, in said District, and whose estate is now in settlement in said Court, under the "Act for the relief of Insolvent Debtors, and for the more equal distribution of their effects among their creditors," respectfully asks the Court that an allowance be made him out of said estate for the necessary support of himself and family, as by statute in such cases made and provided, he having first complied with the conditions contained in said act. Dated Norwich, September 12th, 1893.

STEPHEN A. BAILEY, Assignor.

DISTRICT OF NORWICH, PROBATE COURT, at Norwich, September 12th, A. D., 1893.

Ordered, That the foregoing application be heard and determined at the Probate Office in Norwich, on the 24 day of October, 1893, at 10 o'clock in the forenoon, and that notice thereof be published in a newspaper having a circulation in said District, and posting a like notice on the sign-post nearest where the Assignor dwells and make return to the Court.

Attest— CHAS. W. CARTER, Judge. sep13d

AT A COURT OF PROBATE HELD AT Norwich, within and for the District of Norwich, on the 12th day of September, A. D., 1893.

Present—CHAS. W. CARTER, Judge.

Estate of Melissa S. Pratt, late of Norwich, in said district, deceased.

Thomas A. Perkins of Norwich appeared in Court, and moved that an instrument purporting to be the last will and testament of said deceased (and codicil thereto) be admitted to probate.

Therefore ordered, That said application be heard and determined at the Probate Office in Norwich, in said District, on the 14th day of September, A. D. 1893, at 10 o'clock in the forenoon, and that said Thomas A. Perkins give public notice to all persons interested in said estate, by advertising in a newspaper having a circulation in said Probate District, to appear, if they see cause, at said time and place, and be heard relative thereto, and make return to the Court.

Attest— CHAS. W. CARTER, Judge. sep13d

AT A COURT OF PROBATE HELD AT Norwich within and for the District of Norwich, on the 12th day of September, A. D. 1893.

Present—CHAS. W. CARTER, Judge.

Estate of Maurice Maloney, late of Griswold, in said district, deceased.

Mrs. Ann Maloney of Griswold appeared in court, and moved that an instrument purporting to be the last will and testament of said deceased, be admitted to probate, administration be granted upon the estate of said deceased.

Therefore, ordered, That said application be heard and determined at the Probate Office in Norwich, in said district, on the 14th day of September, A. D. 1893, at 10 o'clock in the forenoon, and that said Mrs. Ann Maloney give public notice to all persons interested in said estate, by advertising in a newspaper having a circulation in said Probate District, to appear if they see cause, at said time and place, and be heard relative thereto, and make return to the Court.

Attest— CHAS. W. CARTER, Judge. sep13d

AT A COURT OF PROBATE HELD AT Norwich, within and for the District of Norwich, on the 31st day of July, A. D., 1893.

Present—CHAS. W. CARTER, Judge.

Estate of Lorenzo Blackstone, late of Norwich, in said district, deceased.

The Distributors made sworn return of the distribution of the said estate which is received and recorded in Vol. 43.

Ordered—That the hearing on said distribution be heard and determined at the Probate Office in Norwich on the 7th day of October, 1893, at 9 o'clock in the forenoon, and the Court directs the Executors of the will of said deceased to give public notice to all persons interested in said estate to appear if they see cause and be heard thereon, by publishing this order in a newspaper having a circulation in said probate district and return make to the Court of the notice given.

Attest— CHAS. W. CARTER, Judge. sep13d

COULD NOT LOWER HER RECORD.

Nancy Hanks Fails in Her Flight Against Time.

HAL POINTER DISTANCED

For the First Time in His Career in the Chicago Races.

CHICAGO, Sept. 13.—Nancy Hanks did not lower her record of 2.04 in her flight against time at Washington park today. Twenty thousand persons encouraged her as best they could, but the watch stopped at 2.06. The track was in excellent condition, but not at its best. Charlie Doble warmed up the mare, but Budd Doble took her in hand for the trial. Abe Lincoln, the famous running companion of Nancy Hanks, was at her side to set the pace. At the second time she started away at a perfect gait, Doble holding her hard. She reached the quarter in 31¼, the same time in which she trotted the first fourth of her 2.04 mile at Terre Haute. She reached the half in 1.02¼, thus going the second in 31 seconds. There Doble loosened the mare a bit, but after that she did not cover ground as fast, for the third quarter was finished in 1.34½. In the stretch Doble allowed Nancy to speed at her fastest pace to the stand. There she weakened, however, and slackened perceptibly. Abe Lincoln urged her on, but she did not respond. Doble applied the whip, but it was useless. She finished the final quarter in 31½ and the mile in 2.06, a new record for the track.

Next to Nancy Hanks, Flying Jib was the hero of the day, for he won the $6,000 World's fair pacing stakes, free for all, in straight heats, the fastest time being 2.07½. For the first time in his career Hal Pointer was distanced. The latter pushed Salisbury's horse to the end in the first heat, but he could not make up lost ground. Hal Pointer was the favorite.

Peep O'Day took the 2.45 trotting class and Kraix captured the 2.30 class in straight heats.

Clara D. took the final heat in the unfinished 2.27 trot and won the race.

[illegible] TURF.

Fine Races at Mystic Park.

MYSTIC PARK, Boston, Sept. 13.—Fine racing was the order here today. There were really [illegible], as the winner of the 2.25 class, left over from yesterday, who did not win a heat Tuesday, succeeded in taking three straight this afternoon, although she lost a shoe in the sixth heat. Hickory [illegible] won the 2.19 pace with comparative ease in straight heats.

The 2.22 trot was a mostly one. Jumbo Wilkes was the favorite but Mahlon pulled out the race, the finishes being extremely close.

The 2.16 class was only a big working out of the speedy and resolute mare Miss Alice.

Races at Clifton, N. J.

CLIFTON, N. J., Sept. 13.—First race, three-quarter mile—My Gyps 1, Cheddar 2, Heads or Tails 3. Time, 1.16½.

Second race, five furlongs—Dario 1, George Dixon 2, Runaway 3. Time, 1.06.

Third race, 4½ furlongs—Walhalla 1, Miss Nannie 2, Brookdale 3. Time, 1.02.

Fourth race, 7 furlongs—Salem D. 1, Logan 2, Geraldine 3. Time, 1.29½.

Fifth race, one mile—Lucky Clover 1, Larghetto 2, Old Piper 3. Time, 1.44.

Sixth race, 4½ furlongs—Tobacco 1, Hand 2, Bayard 3. Time, 57½.

IN CONGRESS.

The Senate.

WASHINGTON, Sept. 13.—In the absence of the vice president the senate was presided over today by Mr. Harris (dem., Tenn.), president pro tem. of the senate.

A bill for a bi-metallic money system was introduced by Mr. Peffer (pop., Kan.) by request, and was referred to the finance committee. It provides that all paper money of prior issue hereafter paid out by the United States treasury shall be stamped "redeemable in equal sums of gold and silver or United States treasury notes thus redeemable."

Mr. Mills (dem., Tex.) gave notice that on Tuesday next at 2 p. m. he would address the senate on the repeal bill.

Mr. White (dem., Cal.) gave similar notice for Thursday next.

Mr. Stewart's resolution for a committee of inquiry as to senators owning stock of national banks was laid before the senate, and Mr. Stewart made a speech in support of it.

Mr. Allen (Pop., Neb.) followed Mr. Stewart, and was speaking at 2 o'clock, when the repeal bill was taken up.

The senate then went into executive session and afterward adjourned.

The House.

When the house was called to order this morning there was far from a quorum present. No business of importance was transacted.

FROM RIO JANEIRO.

The Rebel Fleet Bombards the Fortress and Town.

LONDON, Sept. 14.—The Daily News has the following from Rio Janeiro:

The attack of the rebel fleet on the forts began at 9 o'clock Wednesday. The garrison of the largest and strongest fort has declared for the rebels.

The bombardment of the town began at 8 o'clock. The people were compelled to remain and are greatly excited. Business is at a standstill. The air is full of alarming rumors.

Three Men Drowned and Two Others Burned to Death.

LEAMINGTON, Ont., Sept. 13.—The steamer Byron Trerice, running in connection with the Erie & Huron railroad, burned at her dock here at 3 o'clock this morning.

The captain, cook and purser jumped and were drowned. Two deck hands were burned to death.

WAYS AND MEANS.

Glass Importer, Cotton Manufacturer, Before the Committee.

WASHINGTON, Sept. 13.—The ways and means committee continued their session today.

Mr. Lovering of Boston representing the Arkwright club, appeared in behalf of the cotton manufacturers of New England. The present duty on cotton manufactures he said, was not excessive, it was only in proportion to the difference in labor cost here and abroad. He appealed to the committee to exercise the greatest caution in changing a law which had wrought so much good and no harm. The industry was fast becoming national, and New England might soon lose her supremacy in the industry. A. T. Pierce, a manufacturer of New Bedford, Mass., spoke against the reduction of tariff on the cotton goods and added that if it was reduced American manufacturers must meet it by lowering the wages of their hands.

F. H. Rockwell of Warren, Pa., representing a cattle raiser in Mexico, advocated a reduction of the duty of $10 per head on imported cattle. This duty he said, discriminated against Mexico, in favor of Canada.

Mr. Van Hoos, a New York importer of common window glass, asked that if a change was made that it be in the direction of lower duties. He said the domestic manufacturer supplied three-fourths of the trade; but he considered the imported article better than the domestic. He would be satisfied with a reduction of 50 per cent.

In reply to a question by Mr. Payne, he said that he did not care for the American manufacturer. He hated him and would like to see him out of business.

ORDER OF AMERICAN FORESTERS.

Annual Election of Supreme Officers—No More Sunday Picnics.

NEW HAVEN, Conn., Sept. 13.—The annual election of supreme officers of the Ancient Order of American Foresters was held today. There was a spirited contest over the election of Chief Ranger, the most desirable office. The western delegates succeeded in winning over a majority of the delegates to their candidate, and the Connecticut delegation failed to elect more than a single candidate.

The following list of officers was elected: Chief ranger, Lewis Thorn of California; sub-chief ranger, Alfred Marland of Pennsylvania; president, Dr. M. F. Marland of Massachusetts; secretary, E. M. McMurtry of Missouri; recording secretary, Patrick F. Kinion of Rhode Island; senior woodward, M. B. O'Shea of New York; junior woodward, Thomas H. Richards of Michigan; senior beadle, R. W. Poston of Illinois; junior beadle, George P. Gordon of Minnesota; trustees, Dr. M. S. Clark of Ohio, J. A. Watson, Oregon, and Charles P. Vogt, Maryland.

Considerable comment has been excited by the "scoop" of the western delegates, and it is alleged that they made a deal with certain New England men which enabled them to break the solid eastern vote.

The next meeting of the supreme delegates will probably be held in Illinois.

This afternoon it was decided to vest the chief judicial authority in the hands of the supreme ranger instead of leaving it to the legislative council composed of delegates from the various states. In the future the supreme officers will be elected from the floor. The order voted also not to hold Sunday picnics and excursions in the future.

DIAMOND TOURNAMENT

At Springfield, Mass.—Sanger the Hero of the Day.

SPRINGFIELD, Mass., Sept. 13.—The Springfield Bicycle club had perfect weather for the opening day of the diamond tournament and 5,000 people were at Hampden park to see the first meeting of the great bicyclists.

Sanger was the hero of the day, winning the international invitation race and making a new record for a scratch competition mile, beating the 2.12 2-5 record made by Zimmerman at Indianapolis. Zimmerman kept in the rear of the procession too long and could only reach fifth place.

Zimmerman, however, beat everybody in the half mile open, in which the stars were all entered.

John J. Johnson is suffering from ulcerated teeth and withdrew from the tournament.

Two mile, 5.20 class. First prize, Warwick bicycle; second prize, $65 diamond; third prize, $20 mackintosh. A. F. Dirnberger first, W. A. Rhodes second, B. A. Nelson third. Time, 5.18 1-5.

Half mile open. First prize, $75 diamond; second prize, $50 diamond; third prize, $20 shotgun. A. A. Zimmerman, first, W. W. Windle, second, W. C. Sanger, third. Time, 1.08 4-5.

Race for the Half mile handicap: First prize $75 diamond; second, $50 diamond; third, $25 diamond. Dernberger 1; R. S. Williamson 2; A. W. Warren 3. Time, 1.01 4-5.

One mile, 2.40 class: First prize, Waverly bicycle, $100; second prize, $50 diamond, third prize, bicycle pump, $20. O. S. Brandt 1; A. J. Titus 2; Hugh Robson 3. Time, 2.39.

Half mile, 1.20 class. First prize, $65 diamond; second prize, $35 diamond; third prize, $15 smoking jacket. Harry W. Hall, first; George W. Coffin, second; R. L. Blauvelt, third. Time, 1.11.

One mile handicap. First prize, $100 diamond; second prize, $65 diamond; third prize, $50 diamond. W. C. Sanger (scratch), first; A. C. Bald (90 yards), second; W. F. Dernberger (65 yards), third. Time, 2.10.

THE CHOLERA.

Many New Cases and Deaths at St. Petersburg.

ST. PETERSBURG, Sept. 13.—There were 29 new cases of cholera and 15 deaths in this city yesterday. The ravages of the epidemic are increasing.

Lisbon Quarantines New York.

LISBON, Sept. 13.—The Portuguese authorities have declared New York to be a cholera-infected port.

Many Pilgrims to Mecca Among the Victims.

TUNIS, Sept. 14.—Of the 9,000 pilgrims that left here and other ports in May last for Mecca, only half have returned, the others having fallen victims to the cholera. Seven hundred Turkish soldiers were sent to bury the dead and rescue the living. Five hundred of these soldiers lost their lives.

Two Cases in London.

LONDON, Sept. 13.—Two cases of cholera are reported by the health authorities in this city.

Flagship San Francisco Goes to Gardiner's Bay.

NEWPORT, R. I., Sept. 13.—The United States flagship San Francisco left here about 4 o'clock this afternoon and proceeded to Gardiner's bay to indulge in target practice.

Great Britain uses 250,000,000 bricks a month.

NEW HAVEN BOOKKEEPER ABSCONDS

Case of Defrauding Railroad Employes Continued.

THE ROCKVILLE FAIR.

Brutal Prize Fight Near New Haven—Principals Badly Hurt.

NEW HAVEN, Conn., Sept. 13.—One of the most brutal prize fights heard of about here took place in broad daylight in Montowese, about five miles from this city yesterday afternoon. The principals were Barney Lynch and Robert Kennedy, two well known local pugilists. Accompanied by about 200 toughs, they went to Montowese at 2 o'clock. A ring was formed and the men fought desperately for more than an hour. Both men were badly punished and Kennedy was so terribly hurt that he had to be taken home in a close carriage where he now lies in a precarious condition. The fight was for blood, the men having an old score to settle. The officers of Montowese were attending court in this city and the men took advantage of this fact.

New Haven Bookkeeper Absconds.

NEW HAVEN, Conn., Sept. 13.—Walter L. Black, a well known young man of this city, employed as bookkeeper by Conrad Hein, [illegible], after making several large collections on Monday, absconded. Nothing is known of his whereabouts. A young lady with whom he kept company disappeared Monday also, and it is thought that they have eloped. Black collected several hundred dollars of his employer's money, but the exact extent of his loss Mr. Hein cannot tell until he goes over the young man's accounts.

Case of Defrauding Railroad Employes Continued.

HARTFORD, Conn., Sept. 13.—In the superior court this morning, the cases of Evan W. Scott, timekeeper, and twenty-one other employes of the New York & New England railroad for conspiracy in defrauding the road by means of falsified pay rolls, came up. Owing to the absence of the Hon. W. C. Case, prisoners' counsel, who is engaged in the Maggie Schloss murder trial in New Haven, all the cases were continued to the December term of the court.

No Cut in Wages at Berlin Bridge Works

HARTFORD, Conn., Sept. 13.—President C. H. Jarvis of the Berlin Iron Bridge company makes a statement today contradicting the report that there has been a cut in the wages of the men employed there. The report was to the effect that a portion of the help had been cut down from $1.25 to $1.10. Mr. Jarvis states that there has been no reduction. The lowest wages paid are to the Poles and Swedes, who cannot speak English and are employed to unload cars. They receive $1.25 a day. Skilled workmen receive from $1.40 to $3 a day.

Independent Order of Good Samaritans.

NEW HAVEN, Conn., Sept. 13.—The forty sixth annual session of the Independent Order of Good Samaritans opened in the African M. E. Zion church today. The Rev. F. G. W. Fowle of this city made the address of welcome and Charles H. Marshall of Washington responded. The order consists of twenty grand lodges and has 30,000 members. It is one of the leading benevolent organizations of colored people in the country and has made a remarkable increase in membership and finances during the past year.

Doctors on Trial.

NEW HAVEN, Sept. 13.—The trial of Drs. Lee and Whittier charged with causing the death of Maggie Sloss of Ansonia by malpractice, is occupying the attention of the city court here.

College Students Held on a Charge of Seduction.

BRIDGEPORT, Conn., Sept. 13.—Two Fordham college students giving their names as Fred Bellman and Thomas Murch, were arrested at the Atlantic hotel parlors late this afternoon, with a 14 year-old girl, Katie Cox of Grand street, Bridgeport. They came here yesterday and took her to a pleasure resort, her mother thinking she had gone to school. They tried to get her to go to New York. They are held on a charge of seduction.

Offer Five Cents on a Dollar.

SALEM, Mass., Sept. 13.—A voluntary petition in insolvency has been filed by E. F. & C. F. Mower of Lynn. The liabilities are about $300,000, the largest creditors are Mower Bros. of Lynn, money loaned, $17,889; Peabody National bank, $1,653; Marblehead National bank, $3,500; First National bank of Salem, $5,[illegible]; Mrs. G. A. Hanson, Lynn, $3,455. The assets are $2,467 cash in bank, and $500 in bills receivable. They offer five cents on a dollar.

SIXTY HOURS TO EUROPE.

The Motive Power is Steam, but Its Application a Secret.

EAU CLAIRE, Wis., Sept. 13.—Frank Gregiore, a blacksmith, is said to have perfected a new system for propelling boats. He keeps everything under lock and key, and refuses to divulge anything, but it is said he is nearly ready to make a trip on the Chippewa river with a boat 30 feet long.

The invention was left in an unfinished state by his grandfather, a sea captain, now dead. Gregiore, who has long been known to be a genius in mechanics, has told his friends that if the invention will do anything at all it will take an ocean steamship across the Atlantic in 2½ days.

The motive power is steam, but the method of application is a secret.

Great Excitement at Prague.

PRAGUE, Sept. 13.—The action of the imperial government in suspending the operations of articles 12 and 13 of the constitutional law has caused the greatest excitement in this city. The suspension of the right to trial by jury for certain offences has an important bearing on the situation, as, though the other changes may be only temporary, jury trials for these offences will not be allowed for a year.

A Blanket Mortgage for $[illegible],000,000.

NEW YORK, Sept. 13.—The report of a proposed issue of a blanket mortgage for $[illegible],000,000 on the Southern Pacific railway is confirmed at the company's office. The bonds are to be issued only on the California division, covering about 3,000 miles of road and property estimated to have cost over $100,000,000.

The bonds are being negotiated with a syndicate representing New York and foreign capitalists. Fifty million dollars will be used to retire prior liens and the balance is to be used on new road and equipment.

The Rocky mountain ranges are 800 miles wide.

PARLIAMENT OF RELIGIONS.

Distinguished Auditors at the Proceedings on the Third Day.

CHICAGO, Sept. 13.—The general proceedings of the third day of the world's parliament of religions opened this morning with devotional meetings in the Hall of Columbus, under the direction of the Brotherhood of Christian unity, which was conducted by Theo. F. Seward.

After the benediction had been pronounced the general presentation of religious matters was inaugurated by Dr. K. Kohler of New York, who spoke upon human brotherhood as taught by the religions based on the Bible. This was followed by a paper prepared by Prof. A. D. Bruce of Glasgow, on "A Man's Place in the Universe." Among interested auditors were Archbishop Latas of Greece, Pung Kwang Yu, first secretary of the Chinese legation at Washington, and Kinza Riuge Hirai of Japan. These will discuss the Greek church, Confucianism and Buddhism.

The first in the series of general discussions on the papers presented in the congress opened at 11 o'clock in Hall 3. It was conducted by Bishop Keane of the Catholic university of Washington.

The Congresses of the Disciples of Christ and of the New Jerusalem held their inaugural session this morning, while the adherents of the Congregational, Universalist and Lutheran denominations continued their proceedings. These consisted solely of the reading of denominational papers asserting and amplifying the truth of the faith that is in them.

Plate Glass Factories Start Up.

PITTSBURGH, Sept. 13.—The first indication of a revival in the plate glass industry since the closing of the factories last spring is evinced in the partial resumption of the Charleroi plate glass works by which one-half, or forty pots have been fired, and 400 of the 800 workmen given employment. The amount of work furnished will be divided, however, among all of the employes as nearly equal as possible.

The coke producers have voluntarily reduced the price of coke 25 cents per ton. The reduction will not affect the wages of the coke workers and will enable many mills and factories to resume, giving employment to thousands of idle men.

Tennessee Convicts Rebel.

NASHVILLE, Tenn., Sept. 13.—One hundred convicts employed at Lone Rock mine, near Tracy City, mutinied yesterday. They refused their meals and also refused to go to work. They captured the powder magazine and threatened to blow it up. Tuesday night all returned to work but fifty-four. It is thought that the convicts knew of a weak place in the mine and will attempt to cut or blow their way out.

French Warships at Boston.

BOSTON, Sept. 13.—The three French warships Naiade, Bielly and Rigault de Genouilly, arrived this afternoon. The ships left Sydney, C. B., last Saturday, having previously inspected the fisheries near Newfoundland. The length of the visit is uncertain at the present time, but it is quite probable that they will remain at least a week. The Naiade is the only one of the three which has been in Boston harbor. They were received with the usual salutes.

Was a Director in Western Union Company.

NEW YORK, Sept. 13.—At the meeting of Western Union directors today the death of F. L. Ames was announced. Mr. Ames was a director of the company. The directors appointed the officers of the company to draft resolutions, enter them in the minutes and send copies to the family.

Fatal Explosion on a Steam Yacht.

CITY ISLAND, N. Y., Sept. 13.—The steam yacht Allegra while opposite City Island this afternoon blew a tube out of the boiler. Fireman James Gill was instantly killed, and Engineer E. R. Barrett was severely scalded by escaping steam.

Meeting of Directors of Terre Haute Railway.

NEW YORK, Sept. 13.—At a meeting of the directors of the Terre Haute railway today the resignation of President Grammer was accepted and D. J. Mackey was elected president of the company. Mr. Mackey was succeeded in the board of directors by W. R. Tilford of the Standard Oil company.

Emma Goldman to be Tried Sept. 28.

NEW YORK, Sept. 13.—Emma Goldman, who was arrested in Philadelphia for having made speeches in this city inciting to riot, was arraigned before Recorder Smythe today. Assistant District Attorney McIntyre asked the court to fix a day for trial. The recorder named September 28.

Considering Lake and Rail Rates.

NEW YORK, Sept. 13.—The trunk line legislative committee and the managers of the lake lines, held a meeting today to consider lake and rail rates from Chicago to New York. Cutting has reduced the grain rate to fifteen cents per hundred.

Died During a Bleeding Operation.

DOVER, N. H., Sept. 13.—Word comes to this city of the death of Hannah J., wife of Sylvester Evans, at a roadhouse in Barrington. It is rumored that the woman was taken sick yesterday and a physician was called who administered morphine, which affected her heart. He undertook to bleed her and she died during the operation.

The Rockville Fair.

ROCKVILLE, Conn., Sept. 13.—The cattle exhibition was the main feature of interest at the Tolland county fair here today. Attendance, 500. The 2.50 class race, purse $200, had seven starters and was won by Rockwell's Rockwell Boy of Stafford Springs. Best time, 2.41½.

The one-mile open scratch bicycle race was won by H. C. Hitz of Rockville in 2.03½. The three-mile open scratch bicycle race was won by W. E. Tessier of Broadbrook, in 9.55.

Wesleyan Football Team Training.

MIDDLETOWN, Conn., Sept. 13.—The Wesleyan football began active training on the college campus today, being given only light practice to start with. Captain Gordon says he is in splendid condition and hopeful of a good season. The opening game with Yale at New Haven, occurs Oct. 4.

The Vigilant Challenged.

NEW YORK, Sept. 13.—The Evening Sun says: There was a report this forenoon that General Paine of the Jubilee had challenged the Iselin-Morgan syndicate for a race with their boat, the Vigilant.

Slater Cotton Mill to Reduce Wages.

PROVIDENCE, R. I., Sept. 13.—The Slater cotton mill of Pawtucket announces a reduction of wages to begin next Monday, but does not state the amount.

$250,000 LOSS AT SPENCER, MASS

Fully a Score of Buildings Destroyed—Help Summoned.

THE PRINCIPAL LOSSES.

Town Water Was Turned Off for Repair to the Main.

WORCESTER, Mass., Sept. 13.—The worst fire that ever visited the town of Spencer broke out this afternoon at 4.45 and resulted in a total loss of $250,000. Fully a score of buildings were totally destroyed. The fire originated at the freight depot of the Boston & Albany road on Wall street, near Mechanics street. A large number of kerosene barrels, some of them full, were standing on the platform, in a place where it was customary to store them, the platform being therefore completely saturated at that point.

The fire may have been started among these barrels by a spark from a locomotive or more probably fire dropped from a pipe or a cigar on the oil soaked barrels on the platform. At the time the fire broke out the town water was turned off for repairs in the main, and it was not possible at first to get water to put out the fire. Fire engines were summoned from Worcester, East Brookfield, North Brookfield and other places and not until some of these arrived was it possible to make any headway against the fire. The fire rapidly increased in intensity by a mild southeast wind along Wall street towards Main street. Every building on either side of Wall street was totally destroyed.

The following is a list of the principal places burned with a partial estimate of the probable loss: E. E. Stone & Co., planing mill, lumber yard, lumber shed and two buildings, loss $30,000; office of Spencer Leader, total loss $10,000; John G. Avery, machine and repair shop, loss $3,000. Eldridge leather establishment, loss 1,000; Hayes' blacksmith shop, loss $300; house belonging to M. J. Powers' estate; Wm. T. Clark & Son's machine shop, employing 16 hands, loss $5,000; Wm. A. Barr & Son, heel factory, employing 60 hands, loss $30,000; M. J. Boyes, harness shop, stock saved, loss $1,000; A. Hammond, Chicago beef, loss $5,000; Hagan block, loss $3,000; Wm. J. Randall, repair shop, loss $1,000; Geo. P. DeWolf, paint shop, loss $3,000; H. P. Hammond, flour and grain store, loss $4,000; Hiram Hicks, wheelwright, loss $1,300; Edward Warner, paint shop, small loss; office of Spencer Sun, C. H. Hamilton proprietor, loss $10,000; Jordan's fish market, H. R. Corry, livery stable, building owned by Richard Sugden, total loss $8,000; M. J. Burreg, hardware, small loss; two tenements occupied by French and Swede families, loss $3,000; Paul Amaiotte & Son, blacksmiths, loss $1,000; Henry Larlou, shoe repairer, small loss; Bacon, Young & Co., bottoming department of the boot and shoe factory, employing seventy-five hands, loss $1,000; B. & A. passenger station and freight depot, loss $25,000; also a portion of the electric light plant and four freight cars unloaded. No insurance can be given.

TRAGEDY ON THE DEEP.

Mrs. Wolarsky Becomes Insane and Gives Carbolic Acid to a Child.

NEW YORK, Sept. 13.—A tragedy occurred on the North German Lloyd steamship Kaiser Wilhelm III, which arrived yesterday from Bremen. Anna Wolarsky, a Russian immigrant, who was a steerage passenger on the ship, gave carbolic acid to a child on Sept. 4, with fatal results.

The child belonged to Joseph Tumlack, who was also a steerage passenger on the vessel. No one suspected that the Wolarsky woman was other than sane, and she appeared to take a great interest in the little boy, who was only about 2 years old.

On September 4 the woman was observed to grow moody, and seemed to be laboring under great excitement. She managed in some way to get hold of a bottle of carbolic acid, and, it is supposed, made the child drink the deadly poison, the child dying soon after in great agony.

Was Not Abandoned.

PHILADELPHIA, Sept. 13.—The schooner A. H. Crabtree, reported as having been towed to South West harbor, Maine, after having been abandoned at sea, arrived here on the 11th inst. from Franklin, Me., with a cargo of stone. The report of abandonment, etc., is an error.

Bristol Rubber Works to Resume.

PROVIDENCE, R. I., Sept. 14.—The Bristol Rubber works will resume operations next Monday, after a shut down of five weeks.

Authorized to Begin Business.

WASHINGTON, Sept. 13.—The National bank of Orange county at Chelsea, Vt., capital $50,000, has been authorized to begin business.

Boot and Shoe Dealer Fails.

HAMILTON, Ont., Sept. 13.—William Griffith, wholesale boots and shoes, of this city, has failed. Liabilities $70,000; assets considerably less.

Boat Thieves to Be Hunted Down.

NEW HAVEN, Conn., Sept. 13.—An organized effort is to be made today by some members of the New Haven yacht club to run down the boat thieves who stole the sloop Cypress from Guilford, Monday.

THE CARAVELS SURE.

The Government of Spain Transfers Them—The Ceremonial.

CHICAGO, Sept. 13.—Capt. Concas, acting for the government of Spain, has formally transferred the Columbus caravels to the United States. The boats were received by Capt. Barry of the Michigan, who made a brief address of acceptance in behalf of this government. The ceremony took place on the platform in front of the administration building, with President Palmer as the presiding officer.

After Capt. Barry's speech of acceptance an address was made by Senor Du Puy De Lome, the Spanish commissioner general to the fair, and the response was given by Assistant Secretary McAdoo of the navy department. A banquet was tendered Capt. Concas after the ceremony and on the eve of his departure for Spain to prepare for the acceptance of his new post in Cuba.

Forced to Ask Their Creditors for Extension.

NEW YORK, Sept. 13.—Henry Newman & Co., importers and wholesale dealers in clothiers' supplies at Nos. 626 and 628 Broadway, with a branch in Chicago, one of the oldest and largest houses in their line in the United States have been forced by the financial stringency to ask their creditors for an extension on their obligations of eight, twelve and fifteen months. A statement has been sent out reporting the firm's condition on Sept. 1. The total assets are $3,413,131 and liabilities $1,[illegible],999. At the office of the firm it was said today that a majority of creditors had agreed to grant the extension and, it was thought the others would do so.

Refused to Allow Immigrants to Be Inspected.

MONTREAL, Que., Sept. 13.—Representatives of the railway and steamship companies had a long interview with Sir John Thompson here today to endeavor to obtain his promise that the government would agree to allow the United States to inspect all immigrants landed in Canada, with a view to prevent contract labor entering the United States through Canada. Sir John refused to let the United States stop trains on the frontier, owing to the cost and bother to Canada.

Fifty Years of Railroading.

DEDHAM, Mass., Sept. 13.—Moses Boyd of Dedham will celebrate next Saturday the completion of fifty years of continuous service as a railroad man. In actual service Mr. Boyd is the oldest railroad conductor in the United States, and possibly in the world, and although nearly seventy-eight years of age, he walks as erect and with as firm a step as a young man.

Western Union Telegraph Office at Washington on Fire.

WASHINGTON, Sept. 13.—The Western Union telegraph office in the upper story of the Corcoran building caught fire this afternoon with the result of cutting off all communication by Western Union wires and seriously deranging the telephone and electric light service of the city. The fire was soon got partly under control, but the damage to the wires has not been repaired.

A Robber Admits His Guilt.

PROVIDENCE, R. I., Sept. 13.—Frank Turner was arrested last night for complicity in the robbery of the residence of James Eddy, on Alung street, August 30. He has been in Boston, returning yesterday. He admitted his guilt.

NORWICH AND VICINITY.

The Norwich Weekly Courier is the best weekly newspaper in New England at 50c a year.

The Masonic Building.

Work on the Masonic temple will be somewhat delayed for a week, owing to a lack of supply of terra cotta trimmings. The roof is nearly all in position, and Contractor Donovan will fill in his enforced delay by making rapid strides on the plastering.

City Court—Kellogg, Judge.

Thomas Jones was before Judge Kellogg in the city court on Wednesday morning on two charges, resisting an officer and breach of the peace. For the first offence he was fined $10 and costs, $20.93, and for the second $20 and costs, $30 50. Jones secured the amount of the fines late in the afternoon.

Moses Jones, a Jew, paid $7 48, the actual costs of a breach of the peace charge.

Cornelius Ferris' charge of breach of the peace was nolled with costs, $7.46, which he settled.

A Hibernian Anniversary.

Wednesday evening at their hall on Main street, the members of Division No. 1, Ancient Order Hibernians, of New London, celebrated the twenty-second anniversary of the organization. The exercises were of a literary and musical character and included supper. County Delegate Edward T. Burke and Ex State Delegate John P. Murphy of this city, were among the invited guests present.

Groton Driving Park Races.

At Groton Driving park, on Saturday, there will be two races that horsemen will want to witness. The first will be between Gunn's trotter Storm and Brown's pacer Billy, and the other between Palmer's Happy Teddy and Farnsworth's Jessie Gray, owners to drive. Little Sport will be driven to beat his own and the track record. Other races will probably take place.

Sunday Liquor Selling.

The general assembly of 1893 amended the law applying to the sales of liquors by licensed pharmacists so that even in license towns those pharmacists who sell liquors on Sunday must conform in all respects to the laws governing sales in no license towns. These laws include a requirement that the sales shall be on doctor's prescriptions and only one sale on the same prescription, which sale shall be indorsed upon it. The law also forbids delivery to minors under any condition.

Long Distance Applicants.

Among the pensioners who appeared before the board of examining surgeons Wednesday at the City hall, Norwich, were two old men, one from Providence, R. I., and the other from Troy, New York. These men have to travel at their own expense, and when the pension bureau at Washington orders an old soldier to travel from Troy, N. Y., to Norwich, Conn., to be re-examined, it is guilty of a contemptible trick to discourage him or to delay his obtaining a pension. Why not order him to San Francisco?

The Norwich Weekly Courier is the best weekly newspaper in New England at 50c a year.

In Favor of Incorporation.

Circulars were sent out this week from Hartford to the Connecticut members of the League of American Wheelmen enclosing the resolution passed at the recent session of the state legislature incorporating the Connecticut division of the league. It requires a majority vote of the members of the division to accept this charter, and the circular also enclosed a postal card with blanks to be filled out on which the members vote yes or no, as in favor of or against incorporation, and return it to the secretary at Hartford. All the blanks filled out from this section were in favor of the incorporation of the division.

Colored Masons Meet.

The grand lodge of colored masons of Connecticut held its annual meeting at the colored Masonic temple in New Haven Tuesday. The session was not only continued all day, but pretty much all night as well, as there was a great amount of business to be done. It is possible that two day sessions will be held in future years to accommodate all the business.

Grand Master George Jacobs of Waterbury presided, and the report of Grand Secretary F. O Glose of Hartford was read and accepted, and other routine matters attended to. Short addresses were made by Past Grand Masters Burr of Norwich and Godette of New Haven.

HARVARD GETS COURTNEY.

The Famous Coach Will Be at Redtop Next Summer.

It is said that Coach Courtney has trained the last Cornell crew. For the past two months he has received many letters from the navy officials of the different colleges in relation to engaging his services as coach, among them being the University of Wisconsin, Leland Stanford, Jr., California, and last, but not least, Harvard. It is not generally known that while the Cornell freshman crew were at New London last June, Courtney spent quite a little time at the Harvard boat house, dropping hints here and there to the betterment of the Harvard crew. Harvard having always been a favorite with Courtney, next to Cornell, it was expected that he would incline toward them. It is now almost certain that he will coach at Redtop next summer.

A STRANGE CONCURRENCE.

Remarkable Premonition Given a Bozrah Family of a Slight Disaster.

A singular coincidence happened at the house of Mr. Frank Avery in Bozrah one day recently. A vase in the shape of a hand, holding a horn, sat on a stand filled with flowers, and without being disturbed the hand of the vase cracked right across the back. Mr. Avery's folks are not of a superstitious make up, but one of the family made the remark that it was a warning that some one of the family would have his hand injured, and sure enough that afternoon Mr. George Avery, who was at work, came in with his hand badly cut, along exactly the same lines that the hand on the vase had cracked. Mr. Avery, while handling a large stone, had dropped it on his hand, causing the wound.

STATE RIFLE MATCH.

Will Be Held at Hartford Thursday, October 5.

Brigadier-General Haven has issued an order directing the brigade rifle match for regimental teams to be held in Hartford at the First regiment rifle range on Thursday, October 5, at 10 a. m.

Entries are to be made in writing on or before Sept. 30 and the quartermaster general will issue 1,000 round ball cartridge 45 70 with 405 grain ball, to each team entering for practice. Teams will consist of twelve men with three alternates, each man to have been enlisted prior to Aug. 1, 1893. Fatigue uniform will be worn with soft felt hat. The state rifle with six-pound trigger pull will be used. The distances are 200 and 500 yards, no sighting shots, nor shade or shelter at the firing point. The state will furnish the ammunition, of either 500 or 405 grain ball.

The match will be conducted by Major George E. Albee, brigade inspector of small arms and ordnance officer, assisted by Major William F. Bidwell, Major Charles Cheney, Major Howard A. Giddings and Captain Walter Fitzmaurice of the brigade staff. Lieutenant-Colonel Leonard B. Almy, medical director, and Major Thomas F. Rockwell, surgeon of the First regiment, are detailed as medical officers.

UNKNOWN DEAD FOR YALE.

A Legislative Measure Which May Create Friction.

Selectmen and town undertakers all through Connecticut are worrying about the provisions of a new law passed by the last legislature. They are positive that it will place them in unpleasant predicaments, and subject them to unjust but none the less unpleasant criticisms by relatives and friends of dead people.

The new law which has not yet been put into operation orders that the bodies of all unknown dead persons, which are to be disposed of by the town, shall be sent to the nearest regular medical school in the state, after having been held twenty-four hours awaiting identification. Yale university has the only medical school in the state, hence all the bodies must be sent there. The law will be active October 1, when Yale opens after vacation and is in a position to receive the bodies. The dead people are to be used as subjects for the dissecting table.

The law is mandatory on the selectmen, who are allowed no choice of action in the matter.

People are wondering what disposition the college will make of the surplus bodies should they come too fast, and whether the university will have to stock a cemetery of its own.

The Norwich Weekly Courier is the best weekly newspaper in New England at 50c a year.

COAL SCHOONER LOST.

The Lizzie Young for Allyn Point Not Heard from Since the Gale.

The schooner Lizzie Young, which left Philadelphia over a fortnight ago with a load of coal for Allyn's point, is believed to have been lost in the last great storm, as she was out during the gale and has not since been heard from.

Tuesday the schooner William E. Park arrived in Boston and reports that when twenty-five miles east southeast from Barnegat, she passed an unknown vessel with topmast out of the water. As the Lizzie Young ought to have been in that vicinity when the gale struck out, it is believed the derelict is the ill fated craft. The officers and crew were undoubtedly lost.

NEW ELECTION ENVELOPES.

A New Color to Guard Against Counterfeiting.

A contract has been made by the secretary of the state with the Plimpton manufacturing Co. to make 600,000 ballot envelopes for the town elections which will be held Monday, October 2. One fourth of the quantity will be reserved for by-elections and the balance distributed to the 168 towns of the state in lots on a basis of double the number of voters in each town. Hartford will receive 30,000, New Haven, 49,500; Bridgeport, 24,000; Waterbury, 15 400, Norwich, 12 650; Danbury, 11,000; Norwalk, 10,000; New Britain, 9 250; New London, 7 150, Middletown, 6 600; and the other towns in proportion.

The color of the envelopes will be canary on the outside and blue on the inside, and their dimensions will be 5¼x3 inches. The great seal of the state will be printed on the outside.

No other envelope can be legally used at this election and fraud by substitution of a similar envelope cannot be practiced, as the paper cannot be obtained elsewhere, even were it possible to have the envelopes made and the seal counterfeited. What envelopes are left over from the election will be destroyed before the next election, as it is intended to have envelopes of a different color at each successive election.

The Norwich Weekly Courier is the best weekly newspaper in New England at 50c a year.

EASTERN CONNECTICUT.

MONTVILLE.

Union Sunday School Service.

The Union Sunday school service at the Methodist church, Gardner Town Sunday was one of marked interest. The meeting was conducted by the president of the union. The house was filled. Seven schools were represented. The meeting was ably addressed by the Rev. Mr Merris of the Congregational church, Salem, the Rev. C L Nichols of the Baptist church, Leffingwell Town, the Rev Mr Crabb, pastor of the church and others. The singing was excellent. Mrs Charles Gardner presided at the organ. The meeting adjourned to meet at the church in Mohegan in two weeks.

COLCHESTER.

Sudden Death of Mrs. Turner—Temperance Meeting.

Dr. Homer Clark is spending his vacation at his mother's, Mrs. Jonathan Clark.

Mrs Bunyan of Ohio, is visiting her parents, Mr. and Mrs. A. A. Baker.

Bacon academy, the First district schools and some others began the fall term on Tuesday.

The funeral of Mrs Walton, the wife of Mr John Walton occurred last week. The Rev. Mr Bell of the Methodist Episcopal church, officiated.

Mr. Arthur P. Baker and family of Nashua, are at Mr. A. A. Baker's.

Mrs Henry Turner was taken ill while at the church service in the Methodist church Sunday evening, and died without rallying from the attack.

The death of Mrs. Julia Williams occurred at her home Sunday afternoon. Mrs. Williams has been an invalid for several years, and a great sufferer.

Mr. Edward Carswell of Ontario, gave three addresses upon temperance Sunday. The afternoon meeting was an open air meeting on the park.

JEWETT CITY.

Fishing at Pachaug Pond—An Old Pastor Greeted—Personals.

Mr. Fred. G. Leonard, the Rev. J. W. Payne and Mrs. P. L. Wilcox are enroute for the World's fair. Mrs. Wilcox went with her son, Robertson, of Norwich.

The official United States weather bulletin from Boston can now be seen daily in the post office.

The duck shooting season is open, with but few bags reported as yet.

Mrs Gager and daughter Faith were in town this week for a short visit.

At Pachaug the pond is very low and daily large strings of bass and pickerel are taken. Some of the bass weigh four pounds. Over sixty fishermen could be counted on the banks Monday.

The Rev N. T. Allen of Groton, supplied the pulpit at the Baptist church Sunday. He was pastor of the church thirty years ago. Many old friends greeted the elder.

Revival meetings are being held at the Methodist Episcopal church.

Misses Mary Y. Brown and Gertie Sandstrom left town Tuesday for Northfield, where they will attend the seminary.

PUTNAM.

A Church Wedding.

At 8.30 o'clock Monday morning, in the presence of a large assemblage of friends at St. Mary's church, Miss Maggie Cambly of this place and Frank B. Hayes of South Norwalk were united in marriage. The Rev Father L'esperance was the officiating clergyman. Miss Lizzie M. Carey was bridesmaid and Henry W. Hayes, brother of the groom, best man.

After the ceremony the bridal party proceeded to the home of the bride's sister, Mrs Annie Lawler, where a reception was held and congratulations offered the happy couple.

The wedded couple were the recipients of many costly presents. Mr Pierce Hayes, the father of the groom, presented his son with $500 in gold. The couple left on the 1 27 train for a wedding tour.

NEW BOOKS.

SPALDING'S OFFICIAL FOOT-BALL GUIDE, Revised by Walter Camp. Published by The American Sports Publishing Co., 241 Broadway.

This neat little hand book of fifty pages contains a frontispiece of the Yale team, and 16 full-page portraits of well-known college athletes. It opens with instructions for beginners by Walter Camp, the Intercollegiate association rules, the constitution, and a record of the games since the introduction of the Rugby foot ball.

"A FELLOW AND HIS WIFE," by Blanche Willis Howard and William Sharp, is No. 58 of the Tinkner paper series, published by Houghton, Mifflin & Co.

This racy and entertaining novel will help readers to while away a few hours pleasantly.

For sale by Noyes & Davis.

Russian troops are to be equipped with snowshoes.

FRED L. AMES DEAD

He Expires Suddenly on the Fall River Boat.

FOUND ON THE STATEROOM FLOOR.

Was in Usual Health Yesterday When He Left Boston.

NEW YORK, Sept. 13.—Frederick L. Ames was found dead in the president's stateroom of the Pilgrim this morning. He had left his office in the Ames building about 1 o'clock yesterday, and appeared to be in perfect health. He bid the gentlemen all a pleasant good-by and left. He took the regular Fall River boat train to go to New York to attend to some business. Just what business the gentlemen in his office cannot say, except that it was to attend a meeting of some sort.

When the train arrived at Fall River Mr. Ames boarded the Pilgrim and was given the president's cabin. He entered soon after the train arrived and nothing was thought of it.

When the boat landed in New York Mr. Ames did not appear. A reasonable length of time was allowed to pass, and when he still remained in the stateroom the suspicions of the officers of the boat were aroused, and the captain, purser and other officers burst in the door of the stateroom.

They were startled to find Mr. Ames lying upon the floor. Upon investigation it was found that he was dead. Mr. Ames had not removed his clothes, and lay there as he had entered, with nothing to indicate any struggle.

The proper authorities were notified, and the body was taken in charge by an undertaker, to await the intelligence of friends in Boston. The body showed that Mr. Ames had been dead some time. It is thought that he died almost immediately after entering the stateroom.

Frederick L. Ames, one of the most public spirited business men of Boston, was the son of Oliver Ames, the second to bear that name, and was born in North Easton, June 8, 1835. His father was a singularly fine man, and if not so well known in Washington as his more aggressive brother, Oakes Ames, he was held in the highest esteem by the people of southeastern Massachusetts. He conducted the factory at home and made the Ames capital that went into the Union Pacific.

F. L. Ames was educated at Phillips Exeter academy and at Harvard university, graduating in 1854. He entered at once into business and had made an excellent beginning before he entered the firm of Oliver Ames & Sons, of which corporation he is now the treasurer.

It is, however, as a railroad man that Mr. Ames was best known. In 1884 he was given in the reports of the United States, Canada and Mexico as the director of 38 different roads, and he has been elected to similar positions since. He has been vice president of the Old Colony railroad and of the Old Colony Steamship company, and has been active in the directories of the Western Union Telegraph company, the Union Pacific, Missouri Pacific, Texas Pacific, the Missouri, Kansas and Texas railroad companies and others.

He was president of the First National Bank of Easton, of the North Easton Savings bank and of Hoosac Tunnel Dock and Elevator company.

He presented to the Old Colony the North Easton railroad station, which is a gem of architecture. The Ames building in Boston is a lasting monument to his enterprise.

He has never been interested in politics, but in 1872 sat in the state senate, where his excellent judgment made him a most valuable member. He was a member of the board of fellows of Harvard university and a liberal patron of art, his residences both at North Easton and on Commonwealth avenue, being filled with exquisite paintings.

His marriage to Miss Rebecca Blair of St. Louis occurred in 1860, and he had a family of five children. The eldest, Oliver Ames, 2d, is a graduate of Harvard in the class of 1876, and bids fair to sustain the family's financial reputation in the next generation. Personally, F. L. Ames, like all of his line, was tall and robust. He had a cool head, clear judgment, an even temperament, and a warm, kindly heart.

ACCEPTS THE GIFT.

North Attleboro to Have a Memorial Public Library Building.

NORTH ATTLEBORO, Mass., Sept. 13.—The selectmen have sent the following communication to the Richard heirs.

To Anna L. Tweedy, Harriet L. Richards and E. Ira Richards: We take pleasure officially and personally to inform you that at a special town meeting held Wednesday, Sept. 6, the town voted unanimously to accept your munificent proposition to present unto said town a memorial building to be used for the purpose of the public library of said town, and which we have no doubt will be a fitting tribute to the memory of your honored parents, who were so many years interested in the prosperity and welfare of this town. By the selectmen of the town of North Attleboro.

J. Q. HENNIGAN, Chairman.

GILL CELEBRATES.

She Is One Hundred Years Old Today and Hale and Happy.

GILL, Mass., Sept. 13.—This is the day which Gill celebrates. Bright and early this morning the enthusiasm of the citizens proclaimed a gala occasion, and nothing is wanting which would add to the success of the centennial celebration. The weather is all that could be asked for; indeed, Old Probabilities has done his duty for once, and everybody feels like sending him congratulations.

Gill has not been permitted to have her big day to herself, but the whole of Franklin county has joined with her in the festivities. Today is also the annual field day of the Pocumtuck Valley Memorial association, and the members of this famous historical society have united with the town in the celebration. A joint committee from the association and the town have had the matter in charge, and the result of their labors is sufficient proof of the faithful and intelligent manner in which they have worked for success of Gill's centennial.

Strictly speaking, Gill has six months to her credit on the further side of the century mark, for it was in May, 1793, that she was set apart from the mother town of Greenfield, and started in to make a history for herself. Gill received her name from Moses Gill, who was at that time lieutenant governor of Massachusetts. To show his appreciation of the honor he donated toward the building of the first meeting house the glass and nails and for its furnishings the Bible and communion service. The Bible is now in possession of Joseph Canning, whose father was one of the early pastors of the first church in town.

The celebration today is being held in the oldest part of the town, known as the "Centre," and is of the picnic variety. The dinner was served by the Memorial association in basket picnic style, which served to give it an added zest.

The formal exercises included the following program: Prayer by Rev. Henry Hyde of Greenfield; address of welcome, Professor H. A. Pratt, Gill; response, Francis M. Thompson, vice president of the Pocumtuck Valley Memorial association; historical address, Francis Walker, 2d, Boston; greeting from the town of Gill to her ancestral towns, the county and state; response for Greenfield, Rev. F. V. Finch; Miss C. Alice Baker; response for the county, Edward E. Lyman; response for the commonwealth, Lieutenant Governor Wolcott; Mt. Hermon school, address by one of the faculty; Gill's contribution to science, Timothy M. Stoughton. personal reminiscences and informal addresses.

PENSION FRAUDS.

Startling Cases Discovered by Examiners in City of Baltimore.

BALTIMORE, Sept. 13.—Frauds of a startling character have been discovered by Pension Examiners Cutler and Sidman here in Baltimore. The government has been robbed for years by forgeries and other crimes which have come to light through the present system of delivering pension checks at the postoffice.

The examiners now have on hand 25 cases of fraud which they are investigating, and they believe that five times that number will be discovered before their labors have been completed. The papers in the three flagrant cases are already in Washington, and arrests, it is said, will shortly follow. The frauds may have been going on for 15 or 20 years, and large amounts are supposed to have been fraudulently collected.

Sidman and Cutler were sent here from Washington and Philadelphia to deliver the letters. The checks were delivered as fast as they were called for, and no attempt was made to stop them. But note books were conspicuous on the examiners' desks. Frequent entries were made in them, and now that the delivery is about completed, the books are full of notes, and the writing tells of forgeries, perjury and the collection of pensions by a number of alleged veterans.

EXPRESS STRUCK THE WAGON.

Mrs. Hugh Hicks Instantly Killed and Her Husband Injured.

WOONSOCKET, R. I., Sept. 13.—The northbound White mountain express on the New York, New Haven and Hartford railroad, struck a wagon containing Hugh Hicks and wife of Worcester, this morning at a blind crossing, three-quarters of a mile north of Whitin's station. Mrs. Hicks was instantly killed, and her husband badly injured. Four horses were also killed.

Hicks is a gypsy horse dealer, and was returning to his home in Worcester from a summer's roving trip in a covered living wagon drawn by two horses and leading two animals behind.

The occupants and contents of the wagon, together with the horses, were strewn along the track for a distance of 100 feet.

CARLISLE'S LUMP.

Developed on His Right Arm to Be Removed by an Operation.

NEW YORK, Sept. 13.—Within a day or two Secretary Carlisle will submit to an operation. A large lump has developed on his right arm above the elbow, which has resisted all treatment looking to reduction, and Dr. Bryant and Dr. J. Ford Thompson of this city have decided that it must be removed by the surgeon's knife.

Mr. Carlisle has suffered much agony from the enlargement. The lump had grown upon the muscles and nerve of the arm, and has so firmly taken hold of them that the secretary is virtually deprived of the use of his right hand.

Busy Burglars in Danvers.

DANVERS, Mass., Sept. 13.—Burglars entered the houses of Mrs. Sarah Richmond, George H. Poore and James E. Foster at Tapleyville last night, and secured small sums of money and a little jewelry. In the Richmond residence the burglar was discovered by Miss Etta Richmond, but he threatened to blow up the house if she made an outcry. Several other places in town were also entered, but nothing stolen.

Murderer Goes to Jail.

NEW BEDFORD, Mass., Sept. 13.—This morning Judge Borden, without listening to testimony, and because the prisoner previously waived examination, adjudged Robertson, the wife murderer, probably guilty and ordered him committed to jail to await the action of the grand jury. Robertson was unmindful of the proceedings, and manifests the same degree of indifference as when arrested.

NEWS IN BRIEF.

The English miners have decided to continue the strike.

An invasion of Mashonaland by Matabeles is imminent.

The 4-year-old trotter Arion won a $11,000 stake race at Chicago.

Trunk lines are to increase the number of World's fair excursion trains.

The new cruiser Columbia broke the record for speed in an unofficial trial.

The board of trade convention at Washington adopted resolutions urging silver repeal.

The National Cordage company is to be reorganized under a new name, with $4,000,000 capital.

Warden Bridges regards the attempted escape from Charlestown (Mass.) prison as of little consequence.

Josiah G. Darling of New Haven, a machinist, 68 years of age, out of employment, committed suicide.

The worsted department at the Arlington mills, Lawrence, Mass., started work at a reduction of 10 per cent in wages.

Commander-in-Chief Adams of the Grand Army received a warm welcome from the veterans of Lynn, Mass., and neighboring towns.

The Lewiston (Me.) mill and the Avon (Mass.) mill, which have been shut down for a month, will resume work next Monday. These mills will employ 800 people.

Mrs. Mary McCarthy, a widow, while engaged in hanging out clothes on the roof of a house at Haverhill, Mass., fell to the ground, and received injuries from which she died.

Some Use.

Farmer Medders—Here I been an paid fur a college eddication fur ye, an what on earth good are ye—ye durned wuthless, lazy, conceited, loafin dude? What did ye larn to college anyway?

Graduate—Well, this for one thing (yelling): Hoopla! hoorah! zip! rip! bang! ninety-three-three-three! K. M. G. Selah!

Farmer Medders (delighted)—Well, begosh, a college eddication is wuth suthin. I'm goin ter town termorrer ter peddle vegetables, an I'll take ye along ter holler.—Harper's Bazar.

All natives of the frozen north have paradise pictured as a land of warm sunshine with glowing fires overhung with pots of boiling whale's blubber and easeful couches of fur scattered here and there.

The Caroline islanders, who are passionately fond of liquor, but who are in mortal dread of breaking their necks by falling from one of the millions of cliffs with which their islands abound, believe that paradise will be a land as level as a floor, where one can get drunk and not be in constant dread of cracking his cervical vertebrae.

DR. JOHNSON'S SPECIALTIES.

ARE YOU BILIOUS?

THEN USE

PARSONS' PILLS

"Best Liver Pill Made"

Positively cure BILIOUSNESS and SICK HEADACHE, all Liver and Bowel Complaints. Put up in Glass Vials. Thirty in a bottle, one a dose. They expel all impurities from the blood. A Hot Day.

Oh, to be wrecked on a tropic strand,
Tossed by the breakers in to land,
On an isle whose name you could never guess,
Where a coral necklace is called full dress,
Where the savage struts with a leaf umbrel
Through heat intenser than tongue can tell,
And idly waits for a castaway
To furnish a meal for him that day!
Oh, there, in the time of torrid grief,
Could we find a fittingly fierce relief!
'Twould seem like a climax just and neat
To go out in a glaring gush of heat;
To be put to broil in the burning sun
And carefully turned until nicely done
To be finished off at a rapid rate,
And not go round in this half cooked state.
—Washington Star.

THE JANE CLUB.

An Organization of Jolly Working Girls In Chicago and What They Do.

What kind of girls really compose this remarkable Jane club? To tell it briefly: Working girls—girls who earn their own living by good, diligent, honest work—some as stenographers, others as cloakmakers, bookbinders, milliners, dressmakers, shirtmakers, shoemakers, typewriters. In age they range between 18 and 28, all excepting the mother of Miss Kenney, who is 50 or more and who has been a member of the club from the beginning. In looks they are something above the average. Three or four are positively handsome. They nearly all dress well, and as far as manners and speech go they do not differ from other well bred women you meet in this town.

Some are jolly and lively and talkative, and some are not. Some are—but what is the use of enumerating any more qualities? They're just about what you'd expect a lot of nice young women to be, except that they're not as well off in the matter of money as they themselves and their best friends might wish. For the larger part, they're not native Chicago girls. Nearly all hail from the interior of this state, from Wisconsin, Michigan or Iowa, and they have fathers and mothers, brothers and sweethearts left behind there, about whom collectively they care a good deal and whom they visit as often as circumstances will permit.

Sweethearts? Most assuredly. They're not a parcel of old maids. Far from it. The best proof of that is that one of their number, Miss Annie Barry, married no later than last week, and that Cupid, the little rascal, has in fact played quite a deal of havoc in the ranks of the Jane club within the year of its existence, a score or so of the members succumbing to his power and marrying some fellow probably not half worthy of them. Besides, you have only to look at the girls as they pass you by to feel sure that the Jane club will need at frequent intervals new members to take the places of those who have left it for husbands. But those who were the charter members of the Jane club—the original seven—have so far remained faithful to it. But there is of course no telling what may happen. These seven are Miss Mary E. Kenney; her mother, Mrs. Kenney; Miss Bada Doeing, the present president, and her sister, Miss Fanie Doeing; Miss Toomey, Miss Mamie R. Sullivan and Miss Kelly.

They're having, of course—that much will have become quite apparent to every one by this time—a real pleasant, good time, those members of the Jane club. With a nice home, with pleasant surroundings and good company all the while and with excellent and palatable food, why shouldn't they? But besides that they give entertainments from time to time, where everybody is bound to enjoy himself or herself. Little informal hops—for which the two large connecting parlors are just the thing—occur frequently enough, and there are any number of girls among them who can play with some proficiency, such as Miss Gast, who has been a pupil at Colonel Ziegfeld's conservatory for several years, and Miss Searle and Miss R. Doeing, and there are others who can sing, and thus they get up informal or formal musicales at a moment's notice. Once in awhile, too, they entertain on a larger scale, as when the typographical unions had their national convention here a couple of months ago the Jane club gave the delegates a delightful reception at their own home and then adjourned over to the Hull House, where a regular ball was given in the large gymnasium.—Chicago Herald.

Voting No Worse Than Shooting.

A distinguished English woman believes that it would not be as unwomanly for her country woman to vote once in six years as it is for them to be interested in and present at the killing of deer, game or fish, as many fashionable women are in their visits at country houses. "Where the whole occupation of the day and talk of the night is of these things," she says, "a woman who would dare say that she didn't care how many stags had been shot and would have preferred that there should have been none at all would be looked upon as not merely eccentric, but extremely disagreeable."—New York Post.

Settled Over a Prosperous Church.

The Rev. Eugenia St. John, a regularly ordained minister of the Methodist Protestant church, has been employed as pastor of the Gordon Place church, Kansas City. Mrs. St. John is regarded as one of the ablest ministers in that denomination. She has had charge of a church at Emporia for several months and recently has made frequent visits to Kansas City to preach at Gordon Place church. Her sermons have proved so satisfactory that it has been decided to retain her as the regular pastor.

A Woman's Unique Suit Against a Town.

At Deerfield, Mass., Mrs. Mary E. Fisher of South Deerfield, in behalf of the women voters of Deerfield, has brought suit against Henry Wait, Alden Briggs and E. C. Coles, members of the board of registers of voters, for $500. Through the registers' interpretation of the law the women were not allowed to register last fall and thus lost the right to vote for school committee. The suit is believed to be the first of its kind. The town will defend the registers.

Chocolate Ice Cream.

Two quarts of cream, half pint of milk, 4 ounces of chocolate, a pound of sugar, a tablespoonful of vanilla and the yolks of 4 eggs. Scald milk and one-half pint of the cream; add the grated chocolate. Beat yolks and sugar together till light, add to scalded milk, stir and beat till smooth. Strain while hot through fine muslin bag, add the remainder of the cream and the vanilla, cool and freeze.

The Coming of Woman Suffrage.

Is woman suffrage coming? It begins to look so. Out in Kansas, in a recent election, women having the right to vote did vote. They went early to the polls, with the balance of political power in their hands, and staid late, not merely a handful, but 93 per cent of the registered female voters. This incident is bound to exert an influence, and the chances are that Kansas will very soon be followed by other states. Once the thing takes an actual turn opposition to woman suffrage will not have a foot of earth to stand upon. Down in this country, where it is our pride and boast that our women are too good for such duties, there is as yet no agitation. But woman's sphere has of late been greatly enlarged. She is a part and parcel of our commercial, our industrial and our scientific as well as our social world. She has come to be a breadwinner, and with it a taxpayer. She is a factor in civilization's development and a formulative, creative and executive entity in our political economics.

Heretofore, except sporadically, she has not wanted suffrage. If, however, her ideas are changed, and she calls for the right to make laws and assist in filling the offices, there is no doubt but that she will be accorded every opportunity. Theoretically it is a right to which she, as a property owner and a supporter of public institutions, is entitled. Practically and sentimentally her sphere is higher and nobler. The American cannot go on record as advocating woman suffrage, but it is bound to admit that the tendency of the times and incidental conditions are growing more and more favorable thereto.—Nashville American.

"The Song of the Shirt."

The miseries of the east end needle women form no new theme. They date back to "The Song of the Shirt"—even before it. Yet in spite of all that has been done in recent years in the way of social and remedial legislation and in the way of organized individual effort for the elevation of the "masses" the woes of the unfortunate class have met with no amelioration. On the contrary, they have deepened and intensified as the years rolled on.

Speaking generally, there has been of late years a decided upward tendency in the wages paid for men's labor, and a consequent rise in their habits, their homes and their scale of living generally. Even the wages of some women workers, notably those of skilled factory hands, have shared in this improvement, though to a more limited extent. But the condition of what may truly be termed the residuum, the lowest stratum of the toilers, the needle women employed in the cheap clothing trade in London and some of the provincial cities, but more especially London, has gone from bad to worse.

It is 50 years since Hood wrote his inspired poem which aroused such general sympathy for the class for which he pleaded. They need that sympathy more now. When "The Song of the Shirt" was written, these poor women were earning an average wage of at least 2½ pence per hour. At the present time many of them—most of them—cannot average more than 1½ pence an hour.—Nineteenth Century.

A Horseback Rider in Rochester.

A young woman of trim figure seated astride a horse is one of the sights of early morning in Rochester. The equestrienne's skirts, for there are two of them, widen gradually from the waist down and fall gracefully on the horse's sides, concealing the feet, stirrups and all. The waist of the habit is like that of an ordinary dress. A dainty riding cap completes the costume.

The young woman may be seen riding any fine morning. She does not seek the seclusion of the side streets and the byways, but rides in the business streets and in the finest resident districts. It is an uncommon sight, and many people on their way to business stop and stare at the rider as if expecting some maneuver of a circus nature. The young woman rides as if born to the saddle, and it is evident that she greatly enjoys her morning exercise.

A horseman said today: "I am glad to see that the recent English custom is followed here, even by one lady rider. There will be more to do it in time, and the horses will benefit thereby. I never have thought that the side saddle was either dignified or easy, and I am certain that the tighter the girth the harder it is for a horse."—Cor. Pittsburg Dispatch.

That Everyday Assistant, Glycerin.

Here are a few of the many uses to which glycerin may be applied: Equal parts of bay rum and glycerin applied to the face after shaving make a man rise up and call the woman who provided it blessed. Applied to the shoes, glycerin is a great preservative of the leather and effectually keeps out water and prevents wet feet. A few drops of glycerin put in the fruit jars the last thing before sealing them help to keep the preserves from molding on top. For flatulency there is no better remedy than a teaspoonful of glycerin after each meal. It will prevent and cure chapped hands. Two or three drops will often stop the baby's stomach ache. It will allay the thirst of a fever patient and soothe an irritable cough by moistening the dryness of the throat.

His Little Ruse.

The tramp had tried a half dozen houses on the block for a bite to eat and with such poor success that he was almost discouraged. One house was left, and he concluded he would try it. The kitchen door was opened by the mistress of the mansion.

"I beg your pardon, lady," he said with a bow, "but can I get something to eat here?"

"I don't know whether you can or not," she replied. "You tramps bother me almost to death."

"I'm sure, lady, I don't wish to annoy you," apologized the tramp, "and I only came here because—because"——

"Because what?" she asked.

"Because, lady, at the house next door they set such a meal before me that really I could not eat, and when I refused it the lady of the house told me I couldn't get half as good anywhere else on the block and drove me out."

The woman looked over the tramp a minute.

"Did she say that?" she asked hotly. "Well, you come in here and see," and as the tramp went in he forgot what a liar he was.—Detroit Free Press.

AN UNUSUAL ANÆSTHETIC.

A Dentist's Experience With a Woman and an Aching Tooth.

The drummer had told a commercial story, and the dentist, who had been extracting much pleasure therefrom, followed with a professional yarn.

"At one time in my early practice in a country town," he said, "there came to me a very nervous woman to have a tooth extracted. She carried on so that I could scarcely get her into the chair, and as soon as I put the forceps near her mouth she screamed and bounced around so I couldn't do anything with her. After two or three visits, each worse than the other, I suggested that I take her to the nearest large town, where a dentist administered gas. Well, the tooth hurt her so that at last she consented, and I took her there, about 25 miles by rail.

"I went armed with a pair of forceps as a matter of habit, and when we got to the place and she saw the gas bag and other appliances she had them again worse than before, and I had to give it up and take her back home. I was thoroughly provoked and felt like taking a club to her, but she had money and was paying for her foolishness, so I tried to restrain my feelings. About 10 miles out from town as the train was plugging along about 20 miles an hour, and she was holding her jaw and I was holding mine, in the seat beside her, we struck a broken rail, and the last thing I knew we were rolling down an embankment and being piled up at the bottom in a very promiscuous fashion. I don't know how it came about, but I wasn't hurt much, and when my senses were fully restored I dragged my patient out through a window and laid her on a bank near by. She was pretty badly bruised and had been knocked senseless, and as I was endeavoring to restore her a brilliant thought occurred to me. The next moment I had out my forceps, and the next I had out the confounded tooth. Two hours later one of the physicians who had been summoned had restored her to consciousness, and as she opened her eyes and saw me standing by her side she clapped her hand to her jaw and exclaimed:

"'Oh, doctor, I knew it would be terrible, but I didn't think it would be so bad as that. However, though, it is out at last.'

"Then she went to sleep, and it was a week before she knew the real facts in the case."

"Did she pay you anything extra?" queried the drummer doubtfully.

"No," smiled the dentist, "but the railroad company did—$5,000—and I got half."—Detroit Free Press.

Where Iron Is Sacred.

Among the Baralongs, a great African people, iron is a sacred object. They are expert workers in metal, which they still smelt from its native ore by the most primitive methods ever devised by man. This art was to them in former days a source of wealth, influence and power and the legend is that when people did not know the value of the stones found in their brooks a "wise man" saw a vision. The spirit of his chief stood beside him and said, "Gather stones and burn them to make spears." The sage thought it was a dream and that the chief was hungry, so he sacrificed an ox. But the vision returned, and the chief looked sorrowful. He stood a long time, and at last said:

"My son, why do you not obey your father? Go to the river, gather stones and make a hot fire. After that you will see iron with your eyes."

The sage was greatly frightened and feared some calamity, but dared not refuse. When he had made a hot fire, iron came out of it, and then he knew the chief had taken pity on his children. He told his son the secret before he died, but he was a vain coxcomb, and wishing to show his own wisdom made iron in the presence of strangers, and so the secret of the art was lost to his tribe, but they have always continued to regard iron as sacred above all other metals.—Million.

Wisconsin's Indians.

In 1836, when Wisconsin was organized as a territory, the civilized tribes of Indians living in Wisconsin were the Brothertowns, the Stockbridges and the Oneidas. The two former were located on Lake Winnebago, in Calumet county. By acts of congress all the Brothertowns and a part of the Stockbridges were made citizens of the United States. The uncivilized Indians were the Pottawatomies and the Winnebagoes.

We live in what was the Menomonee Indian country in 1836. At that time they could muster at least 2,000 warriors. Now they are civilized. They furnished many excellent soldiers for the Union army, and that service accelerated the civilization of the tribe. Probably they could not now furnish over 500 men fit for military service.

The Chippewas diminish less rapidly, but the Pottawatomies are nearly extinct in this state. The Winnebagoes were sent to Nebraska, but several bands returned and have homestead lands in northwest Wisconsin. They do not progress much in the direction of civilization.—Appleton (Wis.) Crescent.

Pottery of the American Indians.

The pottery of the North American Indian is in some respects like the dolmen pottery of Europe, although it differs in many details of form, mode of manufacture and ornamentation. The North American Indian used neither wheel nor furnace, nor did he, except rarely, decorate it with colors. The clay was frequently mixed with powdered shells. The decoration of pottery made in the eastern portion of the United States was effected by incised lines and dots with various combinations. The spiral and volute were employed.

Among the southern Indians much of the decoration was made by the impress of textile fabrics, sometimes with only a string or cord. In the interior and principally on the Mississippi river the pottery vessels were made to represent sometimes the human face, sometimes animals. There was a much greater prevalence of the bottle form in the United States than in Europe. The prehistoric pottery of Mexico and Central America forms a special group; that from the pueblos of Arizona and New Mexico another, while that made by the North American Indian constitutes a third group. Each of these has distinctive characteristics.—Great Divide.

RISKS TAKEN ON LIFE

INSURANCE MAY NOW BE SECURED IN MANY QUEER FORMS.

Blizzards and College Educations, Floods and Automatic Sprinklers, Loss of Cattle and Loss of Incomes Are All Provided For by Many Schemes.

President Eliot of Harvard recently suggested a practical scheme by which parents might insure a college education for their sons and daughters. It was proposed that the parent should pay to some reliable insurance company a certain sum annually, beginning with the third year of the child's age, the company guaranteeing to pay the child, beginning with his eighteenth year, the sum of $400 per annum for the next four years. To the mind of the layman there was an attractive novelty about this scheme, although it is in fact only a new way of proposing a very attractive form of contract offered long ago by life insurance companies under the title of "deferred annuities."

The fact that college educations may be insured suggests the constant multiplication of all kinds of insurances. Fifty years ago this country knew very little about insurance of any kind save the simple contracts of insurance against death and fire. Today there are various forms of accident insurance, marine insurance, insurance against blizzards, hurricanes and floods, live stock insurance, plate glass insurance, steam boiler insurance, insurance against burglars, mail matter insurance and, queerly enough, insurance against damage from automatic sprinklers, which are themselves a part of insurance against loss by fire.

Nearly all of these schemes are the outgrowth of Yankee ingenuity, save in the case of insurance against live stock, which, according to Paul du Chaillu, did a flourishing business in Iceland 800 years ago. Many of the other forms of insurance owe their origin to special calamities, against the recurrence of which shrewd business men proposed to take chances. Insurance against floods, for example, originated with the Conemaugh disaster in the spring of 1889, and insurance against cyclones began just after the town of Grinnel, Ia., was devastated in 1883.

One of the most interesting forms of insurance is the accident business, in which the companies make their profits on broken bones, cracked skulls, tarantula and snake bites, sprained muscles and scalded bodies. A man in Syracuse recently broke his arm, and 20 days later, having failed to take precautions, he died of pneumonia. The court held that he died of an accident, and the insurance company in which he held an accident policy had to pay. Another man, who lived in Morristown, N. J., got up in the night to close a window. While walking across the room in the dark he struck his shin on a chair. Inflammation developed, followed by grave complications, and the man died after having had his leg amputated. The insurance company contested that he had neglected to take proper precautions in not lighting a candle before crossing the room, but the court held against this theory, and the company paid the loss.

The court of appeals of this state recently affirmed a ruling of the supreme court in the case of M. M. Paul, who was suffocated in his sleeping room by escaping gas. Both courts held that he died from an accident. These rulings tend to show that there is no little difference of opinion as to what constitutes an accident.

In England the courts hold views as to the meaning of the word "accident" that differ widely from the interpretations of the American courts. The court of appeals in England, for example, recently decided a case of a farmer who was killed by a bull in crossing one of his fields. It was the opinion of the court that the man incurred an obvious risk in crossing the field in the presence of the bull; that any man taking reasonable precautions would not have incurred such a risk, and that his death was not due to an accident, as implied by that term in his policy.

Another English case was that of Cole versus Accident Insurance company. Cole went to his barn one night to get some medicine which he kept there. A gust of wind blew out his candle, and in the dark he took from the shelf a bottle of corrosive sublimate, of which he took a large dose. The court held that this was not a case requiring the accident company to pay any loss, though it is hard to see why it was not an accident pure and simple.

Life insurance, while apparently a very simple undertaking per se, is sometimes employed in abstruse and complicated business methods. Some of the heirs of the late I. V. Williamson, who died in Philadelphia in March, 1889, have recently resorted to a novel contract in life insurance for the purpose of realizing on an estate that according to the terms of the will would not have been theirs until 1899. Mr. Williamson left an estate valued at $11,162,569, of which $6,000,000 was placed in trust to accumulate for 10 years, when it was to be distributed equally among 25 relatives, if they survived. Six of these relatives desired, however, to realize at once on their inheritance, and it was accordingly proposed to gratify their desire by an issue of $100,000 bonds for each person.

These bonds are secured by an assignment of $110,000 of each person's interest in the estate, or $660,000 in all. As, however, each inheritance depends upon survival until April 1, 1899, the bonds are further guaranteed by an insurance of $100,000 on each person's life, issued by a prominent New York company and paid up to that date. These policies have been in turn assigned to the trustees of the collateral security for the benefit of the bondholders, and the said trustees will issue $600,000 in debenture bonds, paying interest thereon out of funds deposited with it for that purpose.—New York Times.

Mean People In Maine.

You can't poison a bicycle as some cheap people do the dogs which they dislike, but over in Richmond they have strewn tacks in one locality on the principal street so that bicyclists cannot safely ride there, the tires of several fine wheels having been punctured and ruined. What champion mean people we do run across in this country!

An Awful Possibility.

It is a great deal more sensible to travel comfortably than to throw away money for nothing. I would prefer to have a cabin to myself, even if I had to travel on a second class ship. I do not see why I should have a stranger in my room. It is a dreadful lottery, and he is apt to have very unclean habits. Imagine this in a close, stuffy atmosphere, filled already with the odors of the ship and the stench of the machinery. You cannot ask a man for a guarantee of his position. He is apt to belong to the middle class, and think how perfectly horrible it would be to inhabit a room with a being who has very uncertain notions about the complete change of linen every day and whose rule of cleanliness has been a tub once a week, on Saturday night.

And then, even if cleanly, he might not wear the right kind of underclothes, and he might persist in sleeping in night robes instead of pajamas, and he might do a hundred other dreadful things. Think of watching such a creature dress—it would be an awful fascination with me—and find that he changed his collar and his cuffs and not his shirt, which, still glazed and shiny from the manipulations of a Chinaman, would have its dirt spotted bosom concealed by a made up scarf with—it is too horrible to think of!—Cor. Vogue.

Queer Tastes In Eating.

In a popular restaurant the other day at lunch I took up what I supposed was a saltbox to sprinkle my roast beef and was startled by the sudden exclamation of the waiter, "That's sugar." This led to a conversation in which the waiter said that in an establishment where he had been employed an old gentleman came in regularly at least three times a week and ordered a sirloin steak well broiled, upon which he always poured a liberal portion of New Orleans molasses. Another waiter said that on one occasion a young man had ordered powdered sugar and two dozen oysters and that he had liberally sprinkled the sugar on the oysters before he ate them. A companion accompanied him and watched the performance, and the waiter said he believed it was the result of a bet. I myself recall a lad who attended boarding school with me, and who invariably put powdered sugar on his soft boiled eggs.—New York Press.

Kangaroo Rats of the Arid Region.

Death valley, that curious depression where men die of thirst with water in their canteens, has flowers and animals of its own. Much of the valley is far below the level of the sea, and so hot and dry is it that birds flying over are said to fall dead on the alkali. It is not very wide, but no man can cross the flaming desert when the sun is high. Yet some animals live on it. These are all small and peculiar. There are rats and mice that look like kangaroos seen through the small end of an opera glass. They have the disproportionate hind legs of the kangaroo, the over developed tail and the feeble front paws. Their manner of progression is that of the Australian beast. They sit up on their strong hind legs and when they move they go by great leaps.

Prospectors first brought the stories of kangaroo rats from the desert, but they were thought to be mythical until the United States government sent its scientists into the country a couple of years ago. They saw the jumping things and brought out many specimens. The wandering scientists found that while the rodents differed from the common rats and mice in length of limb and strength of tail their habits were still those of house vermin. They gnawed the tents and provision sacks, raised havoc with the flour and were generally a nuisance around camp. The scientists had the fun of watching coyotes chase the uncanny jumping rats, which, however, were usually too spry to be caught.—San Francisco Examiner.

New Office Requisite.

Visitor—Why do you have that dog sitting on your writing desk?

Clerk—I have mislaid my sponge, so I am getting him to lick my postage stamps for me.—Sobremesa.

Bacon and Sweet Potatoes.

Broil thin rashers of breakfast bacon, lay on a hot dish and broil thick slices of cold boiled sweet potatoes. Brown on both sides, heap in the middle of a dish and lay the bacon around.

"I speak not out of weak surmises, but from proof."

LARD MUST GO

since COTTOLENE has come to take its place. The satisfaction with which the people have hailed the advent of the New Shortening,

Cottolene

evidenced by the rapidly increasing enormous sales is PROOF POSITIVE not only of its great value as a NEW article of diet but is also sufficient proof of the general desire to be rid of indigestible, unwholesome, unappetizing lard, and of all the ills that lard promotes. Try

Entered at the post office at Norwich, Conn., as second class mail matter.

The Bulletin.

Norwich, Thursday, September 14, 1893

The Norwich Weekly Courier is the best weekly newspaper in New England at 50c a year.

CLEAR-HEADED JOHN SHERMAN.

There are a few democratic papers that would have the pluck to challenge clear-headed John Sherman upon the democratic mistakes in part or in whole responsible for the financial and business embarrassment which caused the loss of employment to laboring men. The Ohio Sun had the temerity to venture such an inquiry, and this is Senator Sherman's reply:

"To attempt to state all the democratic mistakes would require more time than I can give. That party had control of the last house of representatives, but refused to join us in suspending the purchase of silver and provide for increased currency, which republicans favored and they opposed.

"If these two measures had then been passed the present exigency would not exist. The president, however, and a minority of the democratic members and senators are now clamorous for the passage of the very measures we proposed a year ago.

"The republican party has ever been mindful of the interests of the working people, and its policy has secured them high wages, good money and prompt pay. Now that the democratic party is in power we have nothing but uncertainty and the profound fear that whatever they will do will be injurious to the people.

"This fatal condition was brought about by the election a year ago, and I see no remedy for it except by a change of the popular will and a restoration to power of the republican party."

Senator Sherman speaks by the book upon congressional matters of this sort, and he does not hesitate to state the facts and place the responsibility right where it belongs.

THE MUSHROOM AND ITS PECULIARITIES.

The deaths which are constantly being reported on account of the use of toadstools instead of mushrooms, has called out from the press a general discussion of the subject. Those who indulge in mushrooms, and collect them, claim that there is a wide difference between the two plants. The New York Recorder says "that mushrooms are invariably white above and pink beneath when young; and that the freakiest mushroom never indulges in a roof spotted, speckled or colored. The toadstool's colors vary, but the mushroom is constant to its color. The toadstool's stem is invariably smooth and usually glossy, that of the mushroom is firm, dead white and of solid texture, with no gloss whatever; but rather a chalky white, and in almost every instance it wears a tiny white frill about it—the merest hint of a collar. Another test is by peeling, as the mushroom has a tough, little outer skin that readily peels off from the edge toward the center, a quality which no toadstool possesses." A Norwich collector says, "the stem of a mushroom is never sticky to the fingers like the stem of a toadstool;" and that "mushrooms do not grow to the size like the toadstool." It will always be risky for people to gather mushrooms unless they do so with a knowledge of the difference between them and toadstools, or in company with one who can readily show them the difference between these wholesome plants and their death dealing cousins.

THAT AMERICAN BOY.

The New Haven Register does not agree with The Bulletin in regard to the future of the American boy, and after enveloping our views in a more gloomy atmosphere than the case warrants, assumes to take a more hopeful view of the opportunities of the coming man.

While The Register puts in a general disclaimer against the statement that the opportunities for the American boy have grown less for the last generation, it frankly admits that it has no figures with which to overthrow The Bulletin's statistics. The Register shows the increased opportunities for the mental and spiritual advancement of the youth of this country, and notes the existence of a few technological and scientific schools which are preparing boys for high, responsible and lucrative positions in mechanics and the arts; but it does not pretend to claim that these high-grade, technical institutions furnish to the American boy the mechanical and self-supporting opportunities which the old apprentice system did.

The Register and The Bulletin agree that the colleges of technology, the scientific schools and the manual training classes are increasing the opportunities for the American boys, and The Bulletin claims that instead of having one or two of these institutions in a state, there should be one in every city, and that manual training classes should form part of the common school system of every town.

The Bulletin is betting on the American boy all the time, and it desires to see instead of ten per cent. enjoying the advantages of technical training, fifty per cent. being educated in the uses of tools and of woods and metals.

EMPLOYMENT REGISTRATION.

The Springfield Union calls attention to the fact that the board of trade of that city has been considering and will finally adopt a plan by which laborers seeking employment may, without expense, register their names, qualifications and references in a public record book kept by the board of trade, which shall be accessible to employers in all parts of the city, so as to make the acquirement of situations easier for those who want work.

This simple method of helping idle men of industrious habits to new places, is one from which good results may be expected, and which will not involve much expense. It is a scheme which might be tried in any city where there is a board of trade. Such a scheme ought to find favor with the working classes.

EDITORIAL COMMENT

For fifteen days more the cupola of the capitol at Washington may be caricatured as a gas well!

The hilarious boy is in school, and he will soon be wishing he was clothed in cavalry trousers.

Goldwin Smith has just written a spicy book about America, but by a slip of the pen he has placed the Charter Oak in Rhode Island!

The Meriden Republican says: "The democratic editors are beginning to recommend rice to American workmen as an article of food;" and inquires "what's the matter with the roast beef they had under a republican administration?"

Fifty thousand people swarmed into Akron to hear Gov. McKinley, the great republican leader, open the campaign Tuesday. He made a brilliant address, and they were well paid for their excursion.

A pair of Daniel Webster's old boots are preserved in Concord, N. H. If they could be set down in the United States senate we believe they would begin to kick before they had been there an hour. These boots would not stand all this talk!

The republican policy is to put a tax upon foreigners and to protect home industries; but the democratic policy is plainly stated to be an increase of taxes upon the people, less tax upon foreign products and to let American industries shirk for themselves.

A vigilance committee in San Francisco discovered a way to break up the tramp nuisance. The tramps who could swim were thrown into the river, and those who could not were tied to a rope and thrown in and then drawn out nearer dead than alive. They never return for a second trial.

Governor McKinley in his great opening republican speech at Akron, Ohio, said: "I condemn, with all the earnestness of my nature, a system which puts this stigma upon my comrades in that great war which preserved the union. More than 1,800 of the old Ohio soldiers paid from the pension office at Columbus have been thus summarily dropped and disgraced before the eyes of their fellow-citizens and the civilized world—an average of twenty to a county, and the work of the executioner still goes on." That utterance has the true ring of republicanism!

The Norwich Weekly Courier is the best weekly newspaper in New England at 50c a year.

Suggestions From Norwich.

David A. Wells, LL. D., comes promptly to the assistance of his young friends in the ways and means committee room with a few suggestions. These are contained in letter—a very long letter—to his old friend, the secretary of the treasury.

He suggests that, while it would be inexpedient to increase the present high tax on distilled spirits, there is no good reason why the tax on domestic beer should not be doubled. At $1 a barrel, beer yields an annual revenue of $33,000,000. At $2 a barrel, Dr. Wells figures out an annual revenue from this source of $64,000,000. Since 1863, we are reminded, the per capita consumption of domestic beer in this country has increased from 1 86 to 16.08 gallons, although the population has not quite doubled. Twenty-eight years ago the internal revenue from beer (at the dollar-a-barrel rate) was $3,657,181; last year it was $31,963,743. Yet the available statistics do not bear out the favorite theory of some philanthropists that beer is crowding out whisky. On this interesting point the "Journal of Commerce and Commercial Bulletin" remarks:

> The per capita consumption of spirits, which includes the spirits used in the arts, was 1.07 gallons in 1878 and 1.43 gallons in 1892. Between these dates there were some fluctuations. A part of this increase may be due to a freer use of alcohol in the arts, as to which our information is very indefinite; but there has certainly been no decrease and probably there has been some increase in the use of distilled spirits as beverages at the same time that the use of beer was increasing nearly three times as fast as the population.

Another remark that will interest beer drinkers is that American ale or lager, sold over the bar at 1½ cents a glass, would yield a profit to the saloon-keeper.

Dr. Wells further suggests an increase of the internal taxes on tobacco to the figures of ten years ago—which he thinks would mean $26,000,000 of additional yearly revenue—and (of course) a lowering of the customs duties on foreign spirits, wines, beers and tobacco; the cutting down of tariff schedules is the doctor's mission in life. If all his suggestions are acted on, he feels confident—confidence is the doctor's strong point—that these three taxables, distilled spirits, fermented liquors and tobacco, will yield the government $345,000,000 a year; "sufficient," he says, "to defray all of its ordinary expenditures, including interest on all its debts, and have in addition an annual surplus of near $80,000,000, leaving its total revenue from other sources—i. e. import duties, less those collected from spirits, beer and tobacco—and receipts from permanent miscellaneous sources (aggregating about $9,000,000) available for the payment of pensions and for other purposes."

These suggestions will be received with considerably more enthusiasm, we should say, in Professor Wilson's committee-room than by the domestic beer makers or by the tobacco manufacturers of North Carolina and other (nearer) states. In those quarters they seem likely to "throw a coldness" over the democratic meeting. Even the New York commercial newspaper already quoted—a newspaper in entire sympathy with Dr. Wells' theories and purposes—feels constrained to remark that there was a "political reason" for the removal of the internal tax on leaf tobacco.—[The Hartford Courant.

Avoid Danger.

Don't put an enemy in your mouth to steal your teeth. Avoid deleterious dentifrices. Rely on SOZODONT. Nothing can be purer or more certain to prevent the teeth from becoming diseased. After each brushing they glitter like pearls, and the gums grow rosy red.

A man's wife should always be the same especially to her husband, but if she is weak and nervous, and uses Carter's Iron Pills, she cannot be, for they make her "feel like a different person," so they all say, and their husbands say so too!

Piles! Piles! Itching Piles!

Symptoms—Moisture; intense itching and stinging; most at night; worse by scratching. If allowed to continue tumors form, which often bleed and ulcerate, becoming very sore. Swayne's Ointment stops the itching and bleeding, heals ulceration, and in most cases removes the tumors. At druggists, or by mail, for 50 cents. Dr. Swayne & Son, Philadelphia.

Not one in twenty are free from some little ailment caused by inaction of the liver. Use Carter's Little Liver Pills. The result will be a pleasant surprise. They give positive relief.

"How to Cure All Skin Diseases."

Simply apply Swayne's Ointment. No internal medicine required. Cures tetter, eczema, itch, all eruptions on the face, hands, nose, &c., leaving the skin clear, white and healthy. Its great healing and curative powers are possessed by no other remedy. Ask your druggist for Swayne's Ointment.

If there ever was a specific for any one complaint, then Carter's Little Liver Pills are a specific for Sick Headache, and every woman should know this. They are not only a positive cure, but a sure preventive if taken when the approach is felt. Carter's Little Liver Pills act directly on the liver and bile, and in this way remove the cause of disease without first making you sick by a weakening purge. If you try them you will not be disappointed.

INSTUCTION.

See the Big Window Full of
BLANKETS.

Read the Blanket story. Then come and handle them. When you see the quality and learn the prices you'll agree with us that this is without question the time to buy Blankets.

By several bits of good trading—watching the markets closely—buying a case here and another there, we are enabled to offer about 1,000 pairs of Blankets that are fully from twenty to twenty-five per cent. below ordinary prices. Some are all cotton, some cotton and wool, others pure wool.

Small enough for a single bed—big enough for any double bed—warm enough for zero weather—cheap enough to be within almost anybody's reach.

They go on sale this very day.

Prudent housekeepers will take advantage of this offering. It would be the height of folly not to do so.

We are certain the same grades of Blankets will not be offered again this season for such little prices.

10-4 White	Blankets	59c,	regular	value	$ .75
10-4 "	"	75c,	"	"	1.10
10-4 Grey	"	$1 00,	"	"	1.25
A 6 lb "	"	1 25,	"	"	1.75
10-4 White	"	1.75,	"	"	2.25
10-4 Grey	"	1 95,	"	"	2.50
10-4 White	"	2 00,	"	"	3 00
11-4 "	"	2 50,	"	"	3.00
11-4 "	"	2.75,	"	"	3.25
11-4 "	"	2 90,	"	"	3.50

TO MANUFACTURERS!
A new and decidedly superior invention, which combines cheapness and efficiency, WEEKS'S ATTACHMENT FOR LATHES, for cutting and threading pipes and rods, from the smallest to the largest. It will save time and material. It will do the work of any pipe or bolt cutting machine. It will cut and thread the shortest nipples to the longest pipe and can be attached to the lathe in one minute without altering the lathe. Agents wanted. State rights for sale. M. L. WEEKS, Yantic, Conn., Inventor and Manufacturer. nov14d

SUMMER TRAVEL.

THE STEAMER ELLA
WILL CONTINUE REGULAR TRIPS
—TO—
WATCH HILL
UNTIL AND INCLUDING
Saturday, Sept. 16,
LEAVING NORWICH AT 8.30 A. M.
Fare, 50c.
sep7d

STEAMER GYPSY.
CHANGE OF TIME.

On and after FRIDAY, SEPT. 1st, until further notice, this steamer will leave here on her morning trip at 4.35, or on arrival of 8.30 electric cars, and on her afternoon trip at 1.30, a half hour earlier than heretofore. This change will give patrons the usual time at the beach and enable them to reach home at 6.30 instead of 7 p. m.

Hereafter when the Gypsy cannot land at beach with safety, car tickets will be furnished to patrons for that point free to and from New London by the agent on board.

HOOD'S SARSAPARILLA.

Almost Blind

With Humor and Inflammation in the Eyes

"My little boy fell from his high chair, injuring his nose, and severe inflammation appeared in his eyes. He grew worse and worse until we feared he would lose his sight entirely. Medical advice and various medicines failed to benefit him until, hearing the good Hood's Sarsaparilla had done for others, we concluded to try it. I must say Hood's Sarsaparilla worked like a charm. While taking two bottles the inflammation gradually disappeared, his eyes grew stronger so that he could bear the light. He was soon

Hood's Sarsaparilla Cures

completely cured." MRS. L. R. FURSELL, Favorite Place, 428 South St., Piqua, Ohio.

ANOTHER REPULSE.

Brazilian Rebel Navy Meets with Second Defeat.

IMPOSSIBLE TO OBTAIN DETAILS.

Doubt Whether Country Is as Loyal as Reported.

NEW YORK, Sept. 13.—A dispatch to the Herald from Montevideo says: News has been received from Rio that the revolters of the Brazilian navy made another attempt to bombard Nietheroy, and that the government troops which had been sent from Rio succeeded in again repulsing the invaders. The defeated rebels withdrew without great loss.

While the government won a victory, its success was not as complete as the repulse of the first attempt to land a force from the rebellious ships. Owing to the embargo on telegraphic communication it is impossible to obtain the details of the attack and repulse.

Brazilian residents here express grave doubts that the situation in Rio is as tranquil or favorable to the government as the official telegrams sent out by President Peixoto's agents would indicate. They declare that if the administration

Had Complete Control of the City

and that if the revolution had not a large body of sympathizers in the capital, it would not be necessary to suspend telegraphic communication.

Further evidence of the government's distrust of residents of Rio is furnished by the scrutiny of private letters by the officials. All mail which is suspected or directed to persons whom the government distrusts is opened before being forwarded.

It is doubtful if the fort of Villegaignon and other forts near Rio are loyal to the government. It is believed that the garrisons stationed there sympathize with the revolutionists of the navy, and will, when opportunity offers, openly join the rebels.

TRIBUTE TO ANCESTORS.

Emperor William Eloquently Refers to His Father and Grandfather.

BERLIN, Sept. 13.—In his speech at the dinner in Carlsruhe, Emperor William said, in addition to what has already been quoted: "Who of those in the field today did not think with heavy heart of the days of the last manoeuvre here? Who did not recall the presence at that time of my blessed grandfather, Emperor William I? Who did not miss with aching soul the august form of him who consolidated the empire? Or who has forgotten the Siegfried-like figure of my blessed father, the Emperor Frederick, as he stood before the regiments which marched past today?

"Your highness the grand Duke of Baden and your highness' house cherish a warm affection for the memories which cling to that noble pair. You followed, loyal and true, the path which these great ones trod before. This you have done, not only as the father of your land, but also because you have not forgotten your work as a general on the battlefield, as has been proven today by the fourteenth corps, whose efficiency entitles it to a place on a level with the best.

"To the Fourteenth Corps I am knit by tender recollections of the past. In its ranks I was permitted to earn the approbation of the supreme commander-in-chief, now departed.

"It was on Badenese soil that the regiment whose coat I am wearing (that of the Bodyguard Hussars), the only regiment I ever commanded, was intrusted to me by my grandfather. The words which he then addressed to me are written in golden letters on my heart, and I have made them my guiding rule in military life."

RAVAGES OF CHOLERA.

Reports From Italy and Russia of the Work of the Plague.

LONDON, Sept. 13.—Several fresh cases of cholera have been reported in Rome within the last two days, but it is impossible to get exact statements from the health authorities as to the progress of the disease.

A dispatch from Leghorn says the epidemic is decreasing there, but gives no figures.

There were 21 fresh cases of cholera and 21 deaths in St. Petersburg during Sept. 8, 9 and 10. Between the 4th and 8th there were 73 fresh cases and 28 deaths in Moscow.

In the province of Podolia there were 1729 fresh cases and 688 deaths between Aug. 29 and Sept. 2.

In most of the stricken provinces the course of the epidemic remains virtually unchanged.

REBELS VICTORIOUS.

Argentine Revolutionists Defeat Federal Troops in a Street Fight.

NEW YORK, Sept. 13.—The Herald's correspondent in Buenos Ayres telegraphs that the revolutionists in the province of Tucuman and the government forces had a battle yesterday in the main streets of Cordova. After a desperate fight the revolutionists won the victory and captured the guns of the government troops.

It is expected that the revolters will today receive a large consignment of munitions of war and it is believed a decisive battle will be fought. Federal troops have left the capital for Cordova. They will be used for maintaining open communication over the railroad and telegraph lines.

THE HINDOO RIOTS.

Zealous Congressists Were In League and Sympathy With Organizers.

LONDON, Sept. 13.—The Calcutta correspondent of The Times telegraphs: Reis and Rayyet, one of the leading Hindoo papers, says there is not the slightest doubt that some zealous Congressists were in league and sympathy with the organizers of the recent Hindoo riots.

These people are gradually asserting their power and feeling the pulse of the government. That they are encouraged to do so is due to the mistaken policy of the government in elevating a low class of natives to positions of trust and honor.

Immense Forest Fires.

DEADWOOD, Sept. 13.—Immense timber fires covering many miles in extent, are raging in various portions of the Black hills. The damage to growing timber is very great, while the loss in cord wood alone will amount to $50,000. Several adjacent mining towns are threatened, and the inhabitants are using every effort to check the flames.

BABY'S NAME NAOMI.

Mrs. Cleveland Fancies It as Companion Name to Ruth.

WASHINGTON, Sept. 13.—It is rumored in cabinet circles that Mrs. Cleveland has decided to call the baby Naomi. She is decidedly opposed to giving the little girl her own name of Francis Folsom and she likes Naomi as a companion to Ruth.

Mrs. Cleveland, as soon as the doctor thinks her able, will go to the country house, Woodley, and will remain there quietly with the children through October and November, and it is her intention now to stay away from the White House until late in December.

BRITANNIA WINS.

Crossed Line Ahead of Navahoe but Carroll Protests Decision.

LONDON, Sept. 13.—The Britannia wins the yacht race by 2 1-2 seconds. The yacht race between the prince of Wales' Britannia and Royal Phelps Carroll's Navahoe, which started yesterday on a course extending from the Needles to the breakwater at Cherbourg, France, round the breakwater and back to the Needles, a distance of about 120 miles, ended this morning in a probable victory for the Britannia.

The Prince of Wales' yacht crossed the finish about one minute and 30 seconds ahead of the Navahoe.

When the starting gun was fired yesterday the Britannia was over the line, but she was not compelled to return and make another start.

On the contrary, the difference in the times at which she and the Navahoe started was deducted from the Britannia's finishing time, and it was declared that she had won the race by 2 1-2 seconds. Mr. Carroll believes that his yacht won the race, and he at once filed a protest against the decision.

The matter was referred to the regatta committee, which committee decided that the decision of the judges was correct, and the race was given to the Britannia. She won, as above stated, by 2 1-2s.

TEN YEARS A SLAVE.

Remarkable Charge Made Against a Woman In Brooklyn.

BROOKLYN, Sept. 13.—Slavery days are a little out of date in Brooklyn, but if an angry woman's charge is true they have returned in the isolated case of a young West Indian colored girl. A warrant was issued yesterday by Judge Walsh for the arrest of Mrs. Charlotte L. Polo of 304 Adams street on a charge of Mrs. Isabella Marina Esteros of 52 Poplar street. She charges Mrs. Polo with assault.

Mrs. Polo made a counter charge, claiming that Mrs. Esteros had violated the 14th amendment of the constitution of the United States by detaining a young colored girl from Cuba in her house for 10 years as a slave. The girl, Mrs. Polo says escaped from Mrs. Esteros on Aug. 26 and asked Mrs. Polo for shelter. The girl takes the name of Mrs. Esteros and is a pretty octoroon.

Yesterday Mrs. Polo took the girl to Counselor Kline's office and a suit will be brought against Mrs. Esteros for $2550 for 10 years' salary for the time she was employed in the house in Brooklyn. The girl was a slave in the family of Esteros in Cuba. Mrs. Esteros claims that she went to the house to ask for an explanation, when Mrs. Polo struck her.

CONVICTS REBEL.

Mutiny Occurs at Lone Rock Mine Over Quality of Food.

NASHVILLE, Sept. 13.—A mutiny occurred yesterday among the convicts employed at Lone Rock mine, near Tracy City. About 100 refused their meals, and also refused to go to work. They captured the powder magazine, and threatened to blow it up. Extra guards were ordered out and the mines closely watched.

Tuesday night all returned to work but 84, who refused to come out of the Lone Rock mine. The mutiny is over the quality of the food furnished. It is thought at Tracy City that the convicts know of a weak place in the mine, and will attempt to cut their way out. There is considerable uneasiness on the part of the citizens of Tracy City on this account.

The state prison authorities at Nashville were communicated with by wire during the day and are awaiting developments. About half the convicts who have mutinied are whites. All of them are very determined, and a majority are in for long terms of imprisonment.

GENERAL LOGAN'S FAME

To Be Perpetuated by a Bronze Statue. Model on Exhibition.

WASHINGTON, Sept. 13.—A model of the bronze statue to be erected in Iowa circle to the memory of General John A. Logan has been placed on exhibition in this city. The model was made by Franklin Simmons, the American artist, now in Rome, and was brought here for inspection by the men who knew General Logan when he was in the army and for the purpose of having suggestions made as to the minor details.

The statue when completed will be nearly 25 feet in height; it represents General Logan in full military uniform and equipments as a major-general of the United States army upon his favorite horse, which has the appearance of being reined in, while the general removes his familiar slouch hat as if acknowledging the salutes of the boys in blue.

SEALS ARE SCARCE.

Many Schooners Are Planing to Return Home—Seizures Doubted.

VICTORIA, B. C., Sept. 13.—The sealer Triumph, which arrived from Copper island Monday night with 2300 skins, was a high line boat on the Russian side, killing over 200 seals, or 800 more than any other schooner there. Captain Cox reports that he spoke the Annie C. Moore in August, and does not believe that she was seized. There are rumors of any number of seizures among the sealing schooners, but none have been authenticated.

The Charlotte G. Cox and Agnes Macdonald have about 2200 skins each, the former leading the latter, but the Macdonald intends to remain longer on the grounds. Seals are rather scarce, and many schooners are planning to return home.

NOMINATION DECLINED.

Prohibition Candidate Will Stay in Republican Party and Reform It.

FORT DODGE, IA., Sept. 13.—L. S. Coffin, who was nominated for governor by the Prohibition-Republicans Sept. 5, while absent from the state, has issued a letter declining to accept the nomination. He declares his adherence to prohibition and dissatisfaction with the regular Republican platform, but he adds that it is better to remain within the party and reform it than to go outside and attempt its destruction.

The prohibition central committee will probably select Dr. Amory Miller of Des Moines to take the place refused by Mr. Coffin.

Body of Unknown Man Found.

BOSTON, Sept. 13.—The dead body of an unknown man was found this morning by the harbor police floating in the water near the Warren bridge, Charlestown. From the appearance of the body it had apparently been in the water about two weeks. The unknown was about 35 years of age, 5ft. 8in. tall, and weighed 160 pounds. He had a dark complexion and smooth face.

Old Expressman Dead.

BOSTON, Sept. 13.—Samuel S. Wilcox, in the employ of Hatch & Co.'s express as messenger between New Bedford and Providence, died this morning, after an illness of about one year. He was 61 years of age and well known by railroad men in New England.

Two Cholera Deaths in England.

LONDON, Sept. 13.—There was another death last night from cholera at the port of Grimsby, and today another death from the disease is reported from Hull.

SENATORS VEXED.

Action of the House Likely to Delay Repeal.

POLITICS UNWISELY BROUGHT IN.

Republicans Angry at Lack of Gratitude —Pensions for Confederate Prisoners.

WASHINGTON, Sept. 13.—The utmost indignation is expressed by the friends of the administration in the senate over the course of the house committee on the election of president and vice-president in springing upon congress at this time a political discussion upon such an irritating subject as the repeal of the federal election laws. These senators say that to open up a long debate on such a subject, the only effect of which can be to alienate the Republican support from the silver repeal bill, was supremely unwise and should not have been attempted without consultation with their Democratic friends in the senate. These senators are at a loss to understand why their house colleagues wish to precipitate a controversy that can result in no possible good, as the bill could not be considered in the senate until after the silver and other important financial legislation are disposed of. As there are no federal elections to be held until next year, this legislation could have been undertaken six months hence and been in ample time to subserve their purposes.

The Democratic managers in the senate are both vexed and perplexed as it brings in a new issue and will revive all the rancor and

Bitterness of Bloodyshirt Discussion.

While Senators Voorhees, McPherson, Gorman, Lindsay, Daniels and other Democrats are in favor of the proposed legislation, they do not wish their present efforts complicated with extraneous matters.

The Republican leaders in the house and their friends in the senate are watching this movement very closely. They are aware that the democrats have the numerical strength to carry this measure through under any rule they please, but when the Republicans are endeavoring to aid the administration in its financial policy and are doing everything in its power to eliminate politics from the silver issue, they think this is a very poor return for their cooperation, without which the administration would have been slaughtered in both houses. If this had been known in the house the position of the Republicans might have been very different, as they would have had it in their power to greatly embarrass the administration forces, and yet not have voted in favor of free silver.

Multitude of Bills.

If only 10 per cent of the leading bills introduced into congress became enacted into laws the results would be somewhat startling. Yesterday was not an especially good day for bills in the house, yet if one-tenth of those presented had been adopted there would have been among the consequences:

A pension to every confederate prisoner and a bounty of $2 a day for every day he was imprisoned; the abolition of the tobacco tax; promotion of all navy medical directors to the rank and pay of commodores; payment of certain obligations of the government in silver; civil pension to letter carriers after 20 years' service; reduction of barley duty from 30 cents to 10 cents a bushel, of malt duty to 20 cents, and of hop duty to 8 cents a hundred; abolition of bureau of navigation; coal on the free list; repeal of the ocean mail subsidy law; authorization to the government to buy out any patent by paying from $25,000 to $100,000 to the patentee; appropriations of between $5,000,000 and $6,000,000 for public buildings, docks and statues, and of $3,000,000 more in settlement of Indian claims.

Surrounded By Flames.

CENTRAL CITY, S. D., Sept. 13.—Lead city, Central city and other small towns north of here are threatened by destruction by fire, which has burned to within three miles of this city. It is feared that many mine buildings will be destroyed. At Fort Meade the whole garrison is fighting the fire. An area of country 25 miles square is surrounded by fire circles, which are rapidly drawing to a centre. The fires have been burning for the past three days.

Odd Fellows Outing.

PORTLAND, Me., Sept. 13.—Canton Worcester, Independent Order of Odd Fellows, from Worcester, Mass., arrived here this morning by boat and are quartered at the Falmouth. The morning was devoted to a drive about the city and the afternoon to an excursion to Old Orchard. Tomorrow there is to be a parade and a sail to the islands.

Governor at Barnstable.

BARNSTABLE, Mass., Sept. 13.—Governor Russell, Adjutant General Dalton, Messrs. Wheelwright and Peabody of his staff, and Highway Commissioner McClintock are the guests of the Barnstable County Agricultural society, in attendance at its annual cattle show and fair. The governor spoke at the annual dinner.

Rough on New York.

LISBON, Sept. 13.—The Portugese authorities have declared New York to be a cholera infected port.

The Melancholy Days.

The singing birds will soon begin their dying
journey southward.
The while the luscious oyster takes a tour
swiftly mouthward.
The frost king, coming from the north, will
quickly travel highward,
And buoyant coal rates will begin to hotly hustle skyward.
—Detroit Tribune.

Patience.

"Ten dollars!" roared the judge.

"No money," replied the prisoner.

"Ten days!" cried his honor.

"I haven't 'em now," replied the prisoner. "But if your honor will wait about a fortnight I shall have some in."—Harper's Bazar.

The Trouble.

Willie Slimson—We don't go to that grocer you have any more.

Mrs. Kingley—What was the matter, Willie? Couldn't your mother stand him?

Willie Slimson—She says she couldn't stand him off.—Detroit Free Press.

Her Summer Rest.

She bathes in the morning, plays tennis at noon,
And dresses six times like a belle.
She dances each night until daylight has come
While she "rests" at the summer hotel.
—New York Herald.

Early Hours.

City Boarder (at farmhouse)—Do you still use candles here?

Mr. Hayseed—No, siree. In the winter we use a lamp. Don't need it in summer, you know. It's bedtime before it gits dark.—New York Weekly.

Feeling His Way.

Tramp—Madam, have you an ax?
Lady of the House—No.
"Have you a saw?"
"No, I have no saw."
"Then give me a little something to eat, please."—Brooklyn Life.

BOSTON PRODUCE MARKET.

POTATOES—Potatoes are in over supply and the market is easier. Sweet potatoes also are in full supply, with prices off. But lighter receipts and a better market are looked for today. Eastern, barrels, $2@2 25; New Hampshire rose and hebrons, 60c; Houlton rose and hebrons, 55@60c; Aroostook rose and hebrons, 55@58c; New York stars and burbanks, 60c; Virginia cloth heads, extras, $2@2 25; Jersey bulks, $2 50@3; double heads, $2 75@3 50.

BEEF—The beef market is fully supplied, and, under a dull trade, prices are easier. Choice fancy steers, 8½@9c; prime, 8c; good, 7@7½c; light, 6½@7c; extra heavy hinds, 11@12c; good light to light, 9@10c; heavy fores, 5½@6c; light, 4½@5c; backs, 4½@5½c; rattles, 3½@4c; chucks, 5@6c; rounds, 6@8c; rumps, 9@12c; rumps and loins, 12@15c; short ribs, 10@13c; loins, 10@17c.

MUTTON AND LAMB—Muttons and lambs are quiet, and under the quiet trade prices are easy: Choice to fancy lambs, 10@11c; common to good, 8@10c; poor and ordinary, 6@8c; Brightons, 10@11½c; yearlings, 8½@9½c; muttons, 6@7c; poor to good, 5@6c; choice heavy Brightons, 6½@7½c; choice eastern veals, 11@11c; common to good, 8@10½c; Brightons and fancy, 10@11c.

BUTTER—The butter market is very firm, with prices a little stronger. The demand is very fair. Western, 25@26c; firsts, 24@25c; imitation creamery, 18@21c; factory, 17@21c; northern creamery, extra, 26@27c; northern dairy, 25@26c; eastern creamery, extra, 25@26c. These are prices for round lots. Jobbing lots and family lots cost more.

OATS—Oats are firmer in the market to arrive, with clipped quoted at 38c to 39½c, according to quality. No. 2 white, also to arrive, are quoted at 38c. The spot market is quiet and easy at. Clipped, 39c; fancy, 39c; No. 2 white, 38@39c; No. 3 white, nominal, at 37@38c; mixed, 34@35c.

CORN—In the west corn is decidedly firmer. No. 2 yellow, to arrive, is quoted at 50@51c, with No. 3 yellow at 50½c. The spot market is dull, however, with quotations on steamer yellow, 50@51c; No. 3 yellow, 50@50½c; steamer mixed, 50@50½c.

FLOUR—The flour market is still stronger, following the stronger position of wheat. Fine and supers, $2@2 25; extra and seconds, $2 75@3 25; Minnesota bakers', clear and straight, $3@3 65; winter pat, $3 75@4 00; spring pat, $4 25@4 50.

CHEESE—Cheese holds firm, with the demand improving: Northern full creams, 9½@10c; fair to good, 8@9c; western choice, 9@10c; fair to good, 7@8½c; sage, 9c. Liverpool is cabled at 48s 6d for white and 49s 6d for colored.

MEAL—The position of cornmeal is firmer, following the stronger position of corn in the west. Quotations are at 97@99c for bag meal and at $2 15@2 20 on barrel meal. Oatmeal is quoted at $4 25@4 75.

HAY—Hay is steady in prices, with a quiet trade. Straw is dull. Millfeed is firmer again: Sack spring bran, to arrive, is quoted at $15 50, with sack winter at $17 00@17 50.

PORK—Pork provisions are steady, without changes in values. Trade is only moderate.

THE STOCK MARKET.

Dealings In Leading Securities In Boston and New York.

BOSTON, Sept. 13.—In the outside market call money is quoted at 8 to 10 per cent, and time money is nominally 6 per cent.

Today's stock market was decidedly irregular. Despite this, however, whoever is back of the present upward movement certainly has a pretty good grip on quotations. The weakness of yesterday's close was thought to presage a further break today. As a matter of fact the opening was a little slow, but this was followed by a sharp spurt in the general list, Sugar being the bottom upon which the other stocks rested. This in turn was succeeded by another decline. How far the upward movement will go depends upon the strength of those back of it. In favor of it are the better feeling in financial circles, easier money, gold imports and the unexpectedly large vote in the house for the repeal of the purchasing clause of the Sherman law. Against it are the reduced railroad earnings, the poor crop showing and the fact that the public has not re-entered the market yet in a way to support prices.

London came this morning from ¼ to ⅜ above the close here. This strength was attributed to the fact that the carrying over rate there is down to 3 per cent. As a result St. Paul, Louisville and Nashville, Rock Island and Reading started off here appreciably stronger. In the local exchange Sugar, ex-dividend, opened ⅜ down at 80¾, but rapidly rose to 81, whence it slid back to 80. General Electric was weak on the report of unfavorable development. Opening ⅜ down at 45¼, it advanced to 46, but dropped again to 44¼. Pullman on small sales lost 1 to 172, while Dominion Coal was up ¼ to 20 and West End Land down ⅛ to 15⅝.

In railroad shares Atchison held steady at about 20¼, and Chicago, Burlington and Quincy was a shade weaker at about 84¼. New England was ⅛ stronger at 28¾, the opening at 28 being ⅛ down. Philadelphia is said to be the largest purchaser of this stock just now, the buyers being friends of President McLeod. In this connection, too, is the announcement that the Manhattan is now in control of George Gould, Russell Sage, Timothy C. Eastman and G. P. Morosini. If this is true, McLeod's chances for running the New York and New England road into the heart of New York over the Second Avenue tracks are believed to be better. Union Pacific held about 20¾. Boston and Albany was bought at 201 and Boston and Maine at 147, the first 1 up and the last 3 down.

The Bulletin.

Norwich, Thursday September 14 1893.

The Bulletin should be delivered everywhere in the city before Six a. m.

Subscribers who fail to receive it by that time will confer a favor by reporting the fact to the Bulletin Co

The Norwich Weekly Courier is the best weekly newspaper in New England at 50c a year.

The Weather Today.

Indications for Connecticut: Fair; westerly winds shifting to easterly, and increasing in velocity.

NORWICH AND VICINITY.

CITY NEWS.

The steamer Ella will make an excursion to Greenport next Sunday.

Short calendar and assignment of cases at New London, Friday, Sept 15, at 12 m.

A white hoar frost blanketed the low lands in this section the past two mornings.

Mrs. Whittemore, superintendent Door of Hope mission, New York, will speak in Mission hall on Friday p. m.

The county commissioners meet today and Attorney C. F. Thayer succeeds County Treasurer Jabez S. Lathrop.

Next Saturday the members of the gallant Fourteenth regiment, Connecticut volunteers, will have their annual reunion at Rockville.

An exhibit from the farm attached to the Odd Fellows' Home at Groton will be made at the New London county fair, to be held in Norwich.

A race has been arranged between three local trotters at the Fair grounds, and there is considerable speculation on the result among horsemen.

Two litters of Guinea pigs, with the parent animals, in the window of Joseph Connor's store on Water street, attracted considerable attention.

The Connecticut Editorial association will hold its September meeting at Manchester, Monday. A paper on "Newspaper Punctuation" is to be read by L M Guernsey of Mystic.

News was received in Norwich Wednesday of the death of Albert G. Avery at Oakfield, N. Y., in the eighty-fourth year of his age. He was a native of Ledyard, and went west sixty six years ago.

Today will be a fateful day for Watch Hill. The steamer Watch Hill will stop running, Price's drug store will close, and most of the cottagers will leave for their homes. The steamer Queen City will make its last trip on Sunday.

Charles B. Ware of New London and Judge George H. Cowell of Waterbury, grand representatives from this state to the Sovereign Grand Lodge of Odd Fellows, will leave Saturday for Milwaukee, Wis., where the annual session will be held on Sept 18.

The national convention of the Order of the Sons of Hermann, which is held every four years, will take place at New Haven September 18 23. About 800 delegates from various parts of the United States and Mexico will attend. None will be admitted to this assembly but members.

The work of rescuing the schooner yacht Priscilla is progressing favorably. Several years ago the late Captain Jesse Breed of Westerly launched a schooner that was cast upon the beach just east of where the Priscilla landed, in a similar way, taking her across the bay side of the sand bluff.

The new United States steamer Castine will leave New London on Friday morning at 10 o'clock for her trial trip. Passengers by the steamer Ella will be given a chance to see her in New London harbor and accompany her as far as Race Rock light before going to Watch Hill.

Capt. Stiles F. Shirley, for many years in command of the steamer City of Boston of the Norwich line, and one of the best pilots on Long Island sound, removed his family and household effects to Franklin, Mass., Wednesday, where he will make his residence. The captain has purchased a farm of over fifty acres and will cultivate the soil.

The Orioles of Roath street were defeated by the Taftvilles on the latter's grounds Wednesday afternoon in a close and exciting game by the score of 9 to 8. The features of the game were the heavy batting of Ambrose Comfort and the all-around fielding of Jedediah Marsh. The Orioles play a return game next Saturday afternoon on the same grounds.

Apropos to the experience doled out by the recent severe gale, when the salt spray blighted the foliage on trees miles back from the shore, comes the statement made by old people now residing on Pendleton Hill to the effect that during the memorable September gale of many years ago trees in that locality were affected in a similar manner from the same cause.

Long runs have become common in New York, but that of "Wang," which goes out for its third season next month, still leads in an operatic way. It was played 250 times in the Broadway theater. Proportionally successful was it in other cities, it having been in Chicago 80, Philadelphia 80 and Boston 40 times.—[Exchange. This opera will be presented in this city at the Broadway theater on the 18th inst.

The Willimantic correspondent of The Hartford Times writes: The Metropolitan and People's Insurance company have consolidated their interests. Hereafter there will be two assistant superintendents for this district with headquarters at Willimantic. They are Michael Meagher, now of this city, and E. J. Marley of Norwich. The new consolidated company will be known as the Metropolitan.

Twenty six ladies have taken advantage of their school suffrage prerogative and registered with the town clerk. The list is not swelling as rapidly as was expected. Section 2,101 of the revised statutes of the state of Connecticut, act of assembly of 1887, provides that no person shall be ineligible to serve on the board of education, or as school visitors, district committee or school committee on account of sex. It is to be hoped that the ladies of Connecticut will have a part in the conduct of the schools hereafter.

Generous Gift to the Otis Library.

Captain Loren A. Gallup has presented to the Otis library the Genealogical History of the Gallup family in the United States, a large octavo volume of 329 pages, by John D. Gallup of Agawam, Mass.

This is a valuable addition to the growing genealogical collection of the library, and will no doubt be of personal interest to numerous members of the family in Norwich and the vicinity.

A New Fire Alarm Box.

Chief Greeneberg finished the work of stationing a fire alarm box on a pole at the Backus hospital grounds Wednesday, an operation which has required his attention the past three days. The number is box 58, and the William M. Williams company and the Wauregan truck will respond to its alarm. There are three hydrants on the grounds of the institution, which is well equipped to battle with the devouring element.

The Norwich Charity.

The Norwich box to the homeless and penniless South Carolina sufferers will be shipped tomorrow. A considerable quantity of clothing and $33 in money has been contributed, and it is hoped that additions will be made today. Later on, systematic arrangements will be made for setting the poor fellows at work—clearing up the wreck, rebuilding their little homes, etc.—and tiding them over the winter.

"Steeple" Charley at Work.

"Steeple" Charley Taylor was busily engaged Wednesday in removing the cross on the Catholic church, which was badly damaged in the recent gales. The present cross is to be replaced by a copper one, solid and much smaller, as it is considered that the present big cross is altogether out of proportion with the church. The copper one will be gold leafed, and as it is solid there is no possibility of an accident of a similar nature.

So suspicious is the aerial artist of spying imitators that he arranged all his network of ropes between one and three o'clock Wednesday morning, trusting the darkness to conceal his methods. He placed the old cross in place two years ago.

Applications Received Today.

The registrars of voters of the town meet in the following places today from 9 a. m. to 5 p. m. to receive the applications of those persons to be placed on the list of "to be made" electors, before the annual town meeting to be held in October.

In the First Voting District—At the selectmen's office in the city hall.

In the Second Voting District—At the store of Nathan Small, No. 3 Thames street.

In the Third Voting District—At the store of Albert C. Greene in Greeneville.

In the Fourth Voting District—At the store of G. Avery Ray, Norwich Town.

In the Fifth Voting District—At the Ponemah Small hall, Taftville.

Personals.

Mrs. Wm. Rush has returned to her home in this city after visiting relatives in [illegible].

Miss Annie Heffernan of East Main street leaves town for New York today, and accompanied by her aunt will sail for Europe on Saturday.

Mr. Walter Wakefield, formerly of Rockaway, L. I., has moved into what is known as the "Ledyard Hill house" on Laurel Hill.

Miss Mary Thompson is visiting friends in Boston.

Mr. and Mrs. E. H. Rodle and son of Newark, N. J., are guests at the home of Mr. and Mrs John Steiner of Church street.

Mr. Charles E. Hilton has left town with his family to assume his new duties at Taunton, Mass.

Miss Maggie Stanton, who has been absent from her desk in Welcome A. Smith's store for the past ten days, has returned to her duties much improved in health.

Councilman John A. Sevin and wife returned last evening from a several weeks' sojourn in the White Mountains.

City Missionary George W. Swan will remove his family from their summer home at Eastern Point to this city today.

Mr. and Mrs. John O. Hawkins of Jewett City joined the Eastern Connecticut pilgrimage to the World's fair Wednesday.

Dr. Joseph J. Higgins of the New York hospital, returned to the metropolis Wednesday, after a week's visit with his brother, Mr. M. C. Higgins of the Metropolitan Life Insurance company.

Mrs. John A. Bowen has returned to her cottage at Fishers Island with no fears of the diphtheria epidemic which summer residents say was greatly exaggerated in many of the newspaper reports

Austin E. Keep left the city for Amherst college Wednesday.

Town Clerk Freeman removed his family from "Elmwood," Franklin, to his home in this city Wednesday. His nocturnal summer absence from town has not had any effect on the punctuality and thoroughness of the popular official's labors.

SUPERIOR COURT.

Michael Matthews of Preston Found Guilty—John Sullivan Convicted and Sentenced—Other Cases.

The superior court convened in New London at 10 o'clock Wednesday morning, and the trial of the case of John Sullivan of New London, charged with theft from the person of James Shea, was resumed, and resulted in his conviction. Sullivan was sentenced to fourteen months in the state prison.

The case of the State against Michael Matthews of Preston for assaulting children was then called. The accused was charged by State Attorney Lucas with having committed a breach of the peace by tumultuous and offensive carriage. Matthews is evidently periodically insane. This fact was testified to by Dr. Tingley of this city, and was admitted by the defendant's counsel. The state was willing that he be acquitted on the sole ground, which would necessitate his confinement in an asylum. The jury, however, took a different view, and found the accused guilty of the offense. Sentence was deferred to today.

The next case was that against Frank Quatropanni, charged with assault with intent to kill one Peter Rossi, at Niantic, May 28 last. He was accused of attacking Rossi with a knife, stabbing him in the left thigh and attempting to cut him in the face. The witnesses in the trial are Italian, and the services of Frank Parcenti of this city were required as interpreter. The case will occupy the attention of the court till this afternoon, at least.

The case next put on trial will be that of Balcom and Brown, the young men accused of breaking into the building of G. E. Wightman at Norwich Town and stealing some harnesses.

TAFTVILLE.

The members of the graduating class of '93 have all passed the entrance examinations to the Norwich Free Academy.

Harris Olcott of Berkeley, R. I., is the guest of Mr. John Livingstone.

Walter M. Rhodes has returned from the World's fair.

Jennie Goldsborough of Willimantic has returned home.

The Norwich Weekly Courier is the best weekly newspaper in New England at 50c a year.

COLLIDED WITH THE ELLA.

A Sailboat With Two Occupants Comes to Grief on the Thames.

The steamer Ella left the Montville wharf and a small sailboat darted out from the east bank of the Thames river across from Kitemaug almost simultaneously Wednesday afternoon. The occupants of the white-winged craft, two colored men, living near Montville, tacked across the stream, all unconscious of the steamboat's approach, although Capt. Foote whistled long and loud. Not till it was too late to avoid a collision did they become aware of the Ella's proximity.

The sailboat struck the steamer near the bow. One man crawled aboard at the forward gangway. The other jumped into the water just as the craft went under the larger vessel. He kept afloat till ropes were thrown, and he was pulled on the deck.

The men were placed ashore at Kitemaug. They acknowledged that the fault lay entirely with them, and exonerated the Ella's official. The sailboat was picked up, hardly any the worse for its enforced submersion.

WAVED HER SUNBONNET,

And Saved a Passenger Train From Wreck—Brave Jennie Crick.

INDIANAPOLIS, Sept. 13.—A Pennsylvania passenger train which left this city on Monday was late and running at a high rate of speed to make up the lost time. After passing Columbus a little girl was discovered by the engineer standing in the middle of the track waving a sunbonnet.

The train came to a standstill, and the child informed the engineer that a wooden bridge over a culvert just around the curve was on fire. An investigation showed that the structure had been partly destroyed by fire, and that it would not have supported the weight of the train in passing over it.

When the passengers heard the story of the child's warning and realized that she had saved the train from disaster, a purse was quickly made up and she was handsomely rewarded. The child was Jennie Crick, 8 years old.

DIED.

O'HEARN—In Yantic, Sept. 12, Willie O'Hearn, youngest child of Timothy and Mary O'Hearn.

Funeral from the residence of his parents Thursday afternoon at 2.30.

20 MILES IN LESS THAN 1 HOUR.

The Great Performance of Meintjes at Springfield.

WORLD'S RECORD BEATEN.

10,000 People Witness the Races at the Bicycle Tournament.

SPRINGFIELD, Mass., Sept. 14.—The second day of the great tournament was even more successful than the first. There were fully 10,000 people present and two world's records were broken.

Tyler made a half mile in the second heat of handicap in 1 00 2-5, beating his own record of 1.01 3-5, made at Hartford Sept. 6, and Sanger won the two mile handicap in 4 31 2-5, beating Johnson's record of 4 47 2-5, made at Pittsfield June 24.

The great race of the day, the mile international record, was won by H C Tyler, after the most exciting bicycle contest ever seen on the track. Windle made a pretty race for a place with the leaders, and pushed Sanger closely to the home stretch, where the race seemed to be between the latter and Zimmerman. The two came down the stretch almost side by side with Sanger a few feet ahead until about a rod from the tape, when Tyler made a magnificent spurt and finished first.

The half-mile open was a loaf for the first quarter and a sprint in 27 4-5 seconds for the last quarter. It was between Windle, Zimmerman and Banker, who rounded the last turn together, Zimmerman crossing the tape ahead of Windle by a wheel. At the conclusion of the scheduled races Meintjes [illegible] covered 26 miles and [illegible] yards in 59 minutes, 59 1-5 seconds, beating the world's hour record of 25 miles, [illegible] yards. The 2 15 class mile race was declared off with no run over, the time limit not being reached by 6 2-5 seconds. [illegible], Bald and Rhodes were the leading three to cross the tape. The summaries:

One mile, 2 35 class. First prize, Union bicycle, $150; second, $65 diamond; third, $25 suit of clothes. W. A. Rhodes 1; Hugh Robson, 2; A. T. Caldwell, 3. Time, 2.16.

Half mile, 1.10 class. First prize, Sterns bicycle, $150; second, $60 diamond; third, $30 [illegible]. E. C. Bald, 1; G. M. [illegible], 2; M. F. Dirnberger, 3. Time, 1 [illegible] 1-5.

Half mile open. First prize, $75 diamond; second, $50 diamond; third, $25 Stevens' rifle. A. A. Zimmerman, 1; W. W. Windle, 2; G A. Banker, 3. Time, 1 09 1-5.

Two mile, 5 10 class. First prize, Columbia bicycle, $150; second, $75 diamond; third, $25 diamond. C. S. Brandt, 1; Dirnberger, 2; G. C. Bald, 3. Time, 5.08 2-5.

Mile Springfield international record. First prize, $500 diamond with diamond studded watch charm, $600; second, $150 diamond; third, $100 diamond; fourth, $75 diamond; fifth, $50 diamond. H. C. Tyler 1, W. C. Sanger 2, A. A. Zimmerman 3, W. W. Windle 4, J. P. Bliss 5. Time, 2 14 2-5.

Mile 2 35 class. First prize, Rambler bicycle, $150; second, $65 diamond; third, $25 diamond. E. C. Bald 1, G. M. Wells 2, R. A. Nelson 3. Time, [illegible].

Half mile handicap, final heat. First prize, $75 diamond; second, $50 diamond; third, $25 diamond. H. C. Tyler (scratch) 1, M. F. Dirnberger (180 yards) 2, H. S. Williamson (60 yards) 3. Time, quarter 33 seconds, half 1 00 2-5.

Two mile handicap. First prize, $150 diamond; second prize, $65 diamond; third prize, $25 diamond. W. C. Sanger (scratch) 1, W. W. Windle (scratch) 2, J. P. Bliss (30 yards) 3. Time, half 1 06 2-5, mile 2.14 2-5, three-quarters 3.34, two miles 4 31 2-5.

Mile consolation. First prize, $25 clock; second, $15 piano lamp; third, $10 chair; fourth, $7 50 silk umbrella; fifth, $5 shoes. W. Le. Messurier 1, C. R. Newton 2, F. A. Foell 3, M. J. Russell 4, Fred Seely 5. Time, 2 21 1-5.

Sold Out His Business and Skipped Town.

WINDSOR LOCKS, Conn., Sept. 14.—Robert Jungemann, who has conducted a jewelry store in this town for over a year, sold out his business yesterday to A. Schieber of 20 West Fourteenth street, New York, and skipped the town. The deal was consummated in the afternoon, and Jungemann and his family left on the 10 p. m. train for Springfield, taking only a few trunks with them. Mr. Schiber is selling out the stock in trade, and intends to sell the household furniture, which he also bought. Unpaid bills are slowly coming to light, and it is likely that many more will be heard from when the matter becomes more public. Jungemann took his stock of watches and rings with him and sold the rest.

Emma Goldman Released.

NEW YORK, Sept 14.—Justus Schwab, ex-member of the reichstag and present saloon keeper and anarchist, accompanied by Dr. Julius Hoffman, appeared at the district attorney's office this morning to offer bail for Emma Goldman, the writer for The Autonomist, the anarchist paper, who got herself into trouble by public speeches inciting the east side poor to riot. They went before Assistant District Attorney Unger, and in five minutes emerged from that office and made the statement that the bail would probably be accepted after Dr. Hoffman had been identified to the satisfaction of the district attorney and his assistants.

Dr. Hoffman of 236 East Fifty-third street was finally accepted as bondsman.

Became Tired Drawing Soda.

NEW HAVEN, Sept. 14.—J. F. Wallace of this city, aged 18, has disappeared, leaving word to his friends that he is on his way to the wild west. He states that he intends to pitch his tent in the Indian territory. He was employed here in drawing soda. He accuses his parents of cruelty toward him and writes that he wants to be free.

Receiver for a Bicycle Company.

NEW YORK, Sept. 14.—A receiver has been appointed for the George R. Bidwell Cycle company, manufacturers of the Tourist. The Revere Rubber company of Boston is the largest creditor, having an account of $34 450. The total liabilities are said to be $100,000.

Ancient Order of Foresters.

NEW HAVEN, Conn., Sept. 14.—The supreme officers of the Ancient Order of Foresters continued their convention here today. The morning session was occupied by a discussion of the endowment regulations of the order. It was decided to abolish the $1,500 and $2,000 endowments, leaving the $500 and $1,000. This was the sole business done before adjournment. An all-night session will be held tomorrow. Final adjournment is expected Saturday.

THE RELIGIOUS CONGRESS.

Papers Read by Distinguished Clergymen From All Countries.

CHICAGO, Sept. 14.—An audience that filled Columbus hall to overflowing welcomed the opening of the fourth day's proceedings of the World's parliament of religions. It was a striking collection of men of eminence that faced the audience from the platform. The Rev. Edward Everett Hale sat with Prince Serge Wolkonsky of Russia, Julia Ward Howe with H. Toki of Japan, the Rev. Joseph Cook with Professor Jean Reville of Paris, the Rev. Dr. Lyman Abbott with the Rt. Rev. Reuchi Spibata of Calcutta.

Interest centered largely upon the paper prepared by his eminence, Cardinal Gibbons, upon the "Needs of Humanity Supplied by the Catholic Religion." It had been expected that the cardinal would present the paper in person, but owing to his ill health it was read by Bishop Keane of the Catholic university at Washington.

The Rev. Dr Lyman Abbott took for his subject, "Religion Essentially Characteristic of Humanity," while the paper of Julia Ward Howe dealt with religion as the essential expression of relations between God and man. Something concerning the origin of Shintoism was told the audience by the Rev. Takayoshi Matsuhama of Japan.

The congresses in the other halls were well attended by members of the various denominations under whose auspices they were held. These were the United Brethren, the Advent Christians, Congregationalists, Universalists, Disciples of Christ and the Church of the New Jerusalem.

The presentation of the tenets of the Reformed Episcopal Church took place this afternoon in the hall of Washington, a large audience being present.

MEXICAN BANDITS.

An American Rancher and His Son Murdered.

ST LOUIS, Sept. 14.—A special to The Globe-Democrat from San Antonio, Texas, says that a horrible double murder occurred on the Van Horn ranch, near Del Rio, Texas, last Wednesday.

A band of twelve Mexican outlaws visited the ranch, on which lived an American and his little son. Having overpowered the man and plundered the house of everything of value, and failing to find any money, they bound the ranchman and threatened to take his life if he did not tell them where he had his money concealed.

He told them he had none. Then they cut off one of his arms above the elbow with a hatchet. They commanded him again to reveal the whereabouts of his hidden wealth, but he could not convince them that he had none, so they cut off his other arm and cut his body in a score of places. Then they split his head with a hatchet; seized the boy, cut his throat from ear to ear and rode off leaving the bodies to be devoured by vultures and coyotes. The rangers have captured two of them.

County Health Officers Appointed by Gov. Morris.

HARTFORD, Conn., Sept. 14.—Gov. Morris has appointed the following county health officers:

Hartford county—David A. Markham of Hartford.

New Haven county—D. Hoadley of New Haven.

New London county—Ex-Senator Chas. F. Thayer of Norwich.

Fairfield county—John C. Chamberlain of Bridgeport.

Windham county—Wm. A. King of Windham.

Litchfield county—Representative Walter S. Judd of Litchfield.

Middlesex county—Capt. Wesley Hern.

Tolland county—Joel H. Reed.

Football Rush at Hanover.

HANOVER, N. H., Sept. 14.—The customary football rush between the sophomores and freshmen occurred this evening on the college campus. The freshmen, who outnumbered the sophomores, went into the contest with unusual spirit and came out of the melee masters most of their clothes, but victorious. President Tucker addressed the students in the old chapel this afternoon. After assuring them of his constant friendship, he asked them to take up their studies with the same earnestness and determination with which they entered their athletic contests.

Ohio Democratic Campaign Opened.

NEWARK, Ohio, Sept. 14.—The democratic campaign in Ohio opened here today with a large attendance. A beautifully decorated platform was erected in front of the Court house for the speakers with the words: "Licking County Welcomes the Democratic Hosts," inscribed on a banner. On an opposite corner was a banner which told the story that "Cleveland left $100,000,000 surplus; Harrison left nothing."

The main speech of the day was made by Mr. Lawrence T. Neal, candidate for governor.

"Esther."

WASHINGTON, Sept. 14.—The new White house baby will be known hereafter as "Esther." This old-fashioned name has been selected for the child by the president and Mrs. Cleveland. It is stated that the selection of this name has no significance other than the partiality of the parents for Scriptural denominatives, and that it means "a star" and "good fortune."

Two Steamers Race to San Francisco.

SAN FRANCISCO, Sept. 14.—The American ship Florence from New York, arrived in this harbor last night after a voyage of 131 days. The Florence and the Baring Brothers started from New York May 5 on a race to San Francisco. Considerable interest was attached to see which vessel would cover the 15,000 miles first. As the Baring Brothers has not yet arrived the Florence has been declared a winner.

GREAT PROSPECT OF A STRIKE.

New Bedford Weavers Find Fault With the Fines

MEETING TO BE CALLED.

Operatives Say They Are Tired of the Reduction and Fine System.

NEW BEDFORD, Mass., Sept. 14.—There is a great prospect of a strike in this city after all. The trouble arises in the Hathaway mill, where the weavers are finding fault at what they claim amounts to a series of fines on this class of help which is outrageous.

A shop meeting has been called for tomorrow night of operatives of the Hathaway mills.

One of the prominent leaders of the weavers informed a reporter tonight that the weavers had got tired of the unjust reduction and fines system and they had concluded that they might just as well starve on the street as in the mill, and he stated that he should not be at all surprised to see a strike inaugurated at once, after the shop meeting.

THE STATE RESTS

In the Maggie Schloss Case—Damaging Testimony Given.

NEW HAVEN, Conn., Sept. 14.—The state has rested its case in the trial of the well-known local physicians, Drs. Lee and Whitten, and the hearing was adjourned this noon till next Tuesday. Three witnesses were examined this morning, Dr. Frank H. Wheeler, who examined the body of the victim of the operation alleged to have been performed by the two doctors, F. A. Gessner, the apothecary who put up the prescription for young Cash, who was with Miss Schloss at the time of her death, and Wm. E. Savage, the driver who carried the girl from Dr. Whitten's office after the alleged operation was performed.

Their testimony was damaging for the physicians under arrest. Attorney Case of Hartford, moved adjournment till Tuesday in order that the testimony of Dr. Wolff of Hartford, a medical expert, might be introduced. Dr. Wolff would be unable to be present till next Tuesday. City Attorney Fox did not oppose the motion which was granted by Judge Callahan. The case is becoming one of the most complicated in the local court records.

EVENTS OF THE TURF.

Great Week at Chicago—Fastest Heat Ever Trotted in a Race.

CHICAGO, Sept. 14.—The fastest heat ever trotted in a race was won at Washington park today by Alix, from the greatest field that ever trotted in a race. Four of the fastest heats ever trotted in a race also went on record in the Columbian exposition stakes, free for all, and then went over till tomorrow, unfinished.

Alix's time was 2 07¾, the world's race record, displacing Martha Wilkes and her 2 08¾. Pixley was beaten only a nose in the fast heat. The fact that ten horses started in this heat after scoring thirteen times, and that all were inside the flag at the end was the best evidence of the quality of the racers.

Alix and Hulda each won two heats, the latter taking the second and third. In the fourth the contest was highly exciting, Hulda being considered a certain winner. The mare made a bad break, however, and could not recover until close to the wire. When she broke Alix shot away from the bunch and won. Alix before the race sold as one of the field for $12 in a $400 pool. Hulda was the favorite and sold at $250.

Atlantic King was the winner of the only other interesting race—the 2 13 pacing class.

The track today was in better condition and the weather warm. One thousand people were in attendance until 6 [illegible], when it became too dark to continue.

Big Crowd at Mystic Park Races.

BOSTON, Sept. 14.—There was a big crowd at Mystic park and it appeared to realize that it was witnessing some good racing, although in the pacing race the favorite Bayard Wilkes was beaten out in the second heat. Favorites took the honors in the other races but the 2 28 class was unfinished after four heats, Thetis and Grover Cleveland each taking two heats.

Races at Tolland County Fair.

ROCKVILLE, Conn., Sept. 14.—The fair of the Tolland County Agricultural society closed here today, with an attendance of 6,000. The 2.29 class, purse $200, was won by M Keeney's Sherman Ariston. Best time, 2 30. C. A. Parker's Oakwood was second.

The half mile handicap bicycle race was won by H. C. Kite (30 yards) of Rockville, in 1 12, and the two mile handicap bicycle race was won by Kite (100 yards) in 6 [illegible].

Photographer Bowman Assigns.

NEW HAVEN, Conn., Sept. 14.—Frank E Bowman, the well known photograph er, assigned in the probate court this forenoon. The reasons for his failure are illhealth and his inability to attend to business. He owes less than $1,000 and his assets ought to more than cover that amount. Mr. Bowman is one of the best known and most popular photographers in the state.

Seattle's City Treasurer Missing.

SEATTLE, Wash., Sept. 14.—It is announced here that City Treasurer Adolph Krug is a defaulter to a large amount. An investigation shows but $70,000 in the city vaults. The city comptroller's report calls for $300,000. Treasurer Krug was esteemed an honest man, and had amassed a fortune by close business methods.

Dr. Graves' Body Arrives.

PUTNAM, Conn., Sept. 13.—The body of Dr. Thomas Thatcher Graves arrived in Thompson Thursday afternoon at 2 o'clock from Providence. The body was at once placed in the vault at the cemetery. When the funeral will be is not yet known. Mr. Tallman of Hartford accompanied the body. Mrs. Graves did not come. The funeral will be private. The grave is dug and he will be buried beside his father.

Annual Report Fitchburg Railroad.

BOSTON, Sept. 14.—The annual report of the Fitchburg railroad shows total income for the year to have been $7,709,-365; operating expenses, $5,543,659; net earnings, $2,164,[illegible]; dividends paid, $668 133; surplus carried to improvement fund, $31,153.

$5,000 Fire Loss at Lenox, Mass.

PITTSFIELD, Mass., Sept. 14.—A large carriage barn on George W. Folsom's place in Lenox was burned this morning, together with horses, carriages, etc. The place is occupied by Orme Wilson of New York this summer. Loss, $5,000; insured.

IN CONGRESS.

The Senate.

WASHINGTON, Sept. 14.—In the senate today after the offering of Mr. Faulkner's amendment to the repeal bill, proposing the coinage of $800 000,000 of silver at the ratio of 16 to 1, and a personal explanation from Mr. Hawley (rep., Conn.), denying that he had been absent from the senate chamber more than three days during the present session, the repeal bill was taken up at 12 30 and Mr. Daniel (dem., Va.), addressed the senate in opposition to it.

At the conclusion of Mr Daniels' speech, which occupied four hours and five minutes, the senate adjourned.

The House.

The struggle over the federal election repeal bill begun in the house with the opening of the session. The republicans (under the lead of Mr. Burrows) filibustered to prevent the reception of the report from the committee on election of president and vice president in favor of the Tucker bill.

On Mr. Burrows' motion to dispense with the call of committees for reports the republicans refrained from voting, thus breaking a quorum. The votes resulted: Yeas, 4; nays, 106. A call of the house was ordered.

The call of the house disclosed the presence of 231 members; and Mr. Tucker sent to the clerk's desk a resolution having in view orders to the sergeant-at-arms to secure the return of absentees but before it could be read Mr. Reed slowly arose in the center aisle and drawled out a motion to adjourn. On a division the vote stood 49 to 89. The speaker was about to declare the motion lost when Mr. Reed demanded the yeas and nays and they were ordered.

The motion to adjourn was lost, nays 47, yeas 42.

An amendment was then read revoking all leaves of absence only those on account of sickness.

The previous question having been ordered, a half hour was taken for debate.

Mr. Grosvenor, (rep. of Ohio) said the president had called congress together in special session for a single performance. Recognizing the fact that there was a wide difference of opinion among democratic members as to the propriety of that which the legislative demanded, an appeal had been made to the republicans to stand by the administration and save it from overwhelming defeat. The republicans had done so, recognizing that there was a time when partisan feeling should be laid aside.

Mr. Allen (dem. of Mississippi), in a humorous manner upheld everything said by Mr. Grosvenor against partisan debate.

Several other speeches were made in the same line and the house adjourned.

BEAUTY ON HORSEBACK.

Capture of Miss Cooley, a Notorious Horse Thief.

LEBANON, Ky., Sept. 14.—The capture of Miss Gusta Cooley, a notorious horse thief, in the mountains near Lexington, Tenn., breaks up a daring gang of thieves, which has operated from West Virginia into Kentucky.

The band has been known for some time to exist, but all efforts to bring them to justice have been of no avail until the woman and William Davis, who was with her, were arrested.

At the time of their arrest they had four stolen horses in their possession, and some jewelry.

Davis and the Cooley woman have lived in the Knobs near Gravel Switch for two years, and have committed numerous thefts. They were not suspected of having any connection with any regular band of horse thieves until their capture was effected.

Davis was looked upon as a desperate man, who would risk his life to secure his liberty, and it is necessary to guard him day and night.

Miss Cooley is probably 24 years old and a typical mountain beauty, with long black hair. She is an expert with the gun, revolver and knife, and at close quarters would prove a dangerous antagonist for any man.

She is a daredevil on horseback, and many a lonely night ride she has made through the Wildcat mountains on some marauding expedition or fleeing from officers.

BRAZILIAN REVOLUTION.

Insurgents Capture a Government Gunboat Without Firing a Shot.

BUENOS AYRES, Sept. 14.—Only fragmentary news of the Brazilian revolution has been received here today. President Peixoto still controls the telegraph lines.

The insurgents are reported to have bombarded an arsenal town near Rio Janeiro, but which one it is impossible as yet to ascertain.

The insurgents captured the government gunboat Alagos, which lay in the harbor and surrendered without firing a shot.

The forts at the entrance to the harbor are in the hands of the insurgents.

Athletics at Chicago.

CHICAGO, Sept. 14.—Creditable performances, large fields of starters in each event and a fine lot of contestants in all the field events were the features of the opening of the A. A. meet held under the auspices of the Chicago Athletic association, at the South side ball park this afternoon.

The weather was fine and the new bicycle track was in fairly good condition. Honors were pretty evenly divided among the seven clubs represented.

The best performance was the 75 yards run by C. W. Stage of Cleveland, who went the distance three times in 7 4-5 seconds. The championships will be decided Saturday.

Celebrated Her 90th Birthday.

NEW HAVEN, Conn., Sept. 14.—Mrs. Isaac Warner of Edgewood avenue celebrated her 90th birthday this evening. She was born in Hampton and has always lived in this vicinity. She has fifty lineal descendants, representing four generations.

Ocean Steamers.

At New York—Dana from Hamburg; [illegible] from [illegible].

At Boston—Stockholm City from London; Zanzibar from Hamburg.

At London—Augusta Victoria from New York.

Calumet Mine Starts Up.

CALUMET, Mich., Sept. 14.—Mining has been resumed in Red Jacket perpendicular shaft and Calumet [illegible].

Deaths from Yellow Fever in Georgia.

WASHINGTON, Sept. 14.—The marine hospital bureau has been notified of two deaths from yellow fever at Brunswick, Ga., in the last twenty-four hours, and five new cases are reported.

The most singular ship in the world is the Polyphemus of the British navy. It is simply a long steel tube, deeply buried in the water, the deck rising only four feet above the sea. It carries no mast or sails, and is used as a ram and torpedo boat.

AMOSKEAG MILLS PRODUCT SALE.

All the Principal Buyers of the Country Present.

NET RESULT OF SALE

Will Reach About $1,650,000 in Money Value.

NEW YORK, Sept. 14.—The sale of the product of the Amoskeag mills at the auction rooms at Wilmerding, Nevins & Mitchell, in White street, this morning, was well attended. All the principal buyers of the country were present, and among the houses represented was that of Jordan, Marsh & Co. of Boston. The ginghams and tickings were the first lots offered, but the competition was not so brisk as expected. The ginghams brought 5¼ and 5½ per yard, or 1 cent below the list price of the mills. The tickings sold at 11¼ cents to 11¾ cents, or about 2 cents under the trade price. The net result of the sale will reach about $1,550,-000 to $1,650,000 in money value.

Requisition Made for Surrender of Burglar Carpenter.

HARTFORD, Conn., Sept. 14.—Governor Morris has made requisition on Governor Werts of New Jersey for the surrender of Eli Carpenter and Annie Carpenter, who are wanted in Connecticut for burglary committed at Danbury, July 19, 1893. Both prisoners are under arrest at Newark, N. J.

Stay of Proceedings.

PROVIDENCE, R. I., Sept. 14.—Proceedings have been stayed in the case of Wm. C. Swinburne, adopted son of ex-Mayor Wm. J. Swinburne of Newport, who is charged with forgery in Colorado. Later information seems to throw doubt upon his guilt and the extradition papers are held pending further investigation.

The Detroit Sails for Rio.

FORTRESS MONROE, Va., Sept. 14.—The U. S. cruiser Detroit, after adjusting compasses, at 7 30 this morning sailed for Rio Janeiro, Brazil, under orders to protect American interests.

The Charleston at Montevideo.

WASHINGTON, Sept. 14.—The navy department received a telegram this afternoon reporting the arrival of the cruiser Charleston at Montevideo today. The cruiser will proceed immediately to Rio de Janeiro to protect American interests.

Taken to Wethersfield Prison.

HARTFORD, Conn., Sept. 14.—Francis Nolan and Peter Farley, pickpockets, and Fred B. Johnson and George Williams, horse thieves, sentenced to prison at the term of the superior court which closed today, were taken to Wethersfield this afternoon by Deputy Sheriffs Hetherton and McCarty. The officers got wind of a story that a couple of New York pals of the pickpockets were in town and they carried along revolvers as a guarantee against any trick that might be played. The four prisoners were placed in the prison without any trouble.

NORWICH AND VICINITY.

The Norwich Weekly Courier is the best weekly newspaper in New England at 50c a year.

A Sprightly Old Lady.

Mrs. Julia F. Eccleston of Uncasville, a lady nearly 80 years of age, recently walked from Westerly to Lotteryville, R. I., a feat which few men often perform. Mrs. Eccleston is the aunt of Mrs. Eliza Bragg.

Left With the Committee.

At the recent meeting of the board of management of the Odd Fellows' home, it was decided to leave the arrangement for the heating of the building with the property committee with power to act.

A Cat That Hunts.

Mr. John P. Turner, storekeeper of Mamapong, has a monster cat named Benjamin Harrison, who was born during the campaign of 1888. Benjamin often brings in good sized woodchucks, and not long ago captured a mink as large as himself.

Broke the County Record.

H. D. Armstrong recently broke the county amateur record in the 100 yards dash and the quarter mile run, making the former distance in 10½ seconds, and the latter in 53 flat.

Fast Time of a Norwich Boy.

Allan F. McLean, a resident of Norwich a year ago, and an employe of N. B. Hamilton, recently rode a mile on a bicycle in 2.15 in Philadelphia. The wheel he rode was an ordinary roadster, and the track a half-mile trotting course.

An Incendiary Fire.

A barn, in size 20x30 feet, with shed attached, located just outside the limits of Stonington borough and owned by Mr. Fred Miner, was burned about 1 o'clock Thursday morning. Mr. Miner and his wife are on a visit to New York. It is thought the fire was of incendiary origin.

Eclectic Doctors Will Register.

At a special meeting of the Connecticut Eclectic Medical society in Waterbury to specially consider the law passed by the legislature relating to the registration of doctors it was decided that each member should register and that the matter of the recent law so far as it further conflicts with the charter of the society be left until the annual meeting.

From Staff to Field.

Lieutenant Colonel George M. Cole, assistant adjutant general on the staff of General Haven, brigade commander of the national guard, has received from the adjutant general his appointment as lieutenant colonel of the Third regiment.

The adjutant general has issued an order directing each company of the Governor's Guards to parade for one day in the month of October.

Forty-six Years of Faithful Service.

With this month Mr. Joel W. Prouty, Stonington agent for the Consolidated road, rounds out forty-six years of continuous service for the road. He has been stationed at Stonington, except during the few months the steamboats made Groton their eastern terminus, for the entire time, and always filled the place well. He has the thorough confidence of the officers of the road, and the respect of all [illegible] business transactions. As a citizen no person stands higher in the estimation of the people.

The Norwich Weekly Courier is the best weekly newspaper in New England at 50c a year.

The Week in Real Estate.

The following are the real estate transactions in Town Clerk Freeman's office the past week:

John T. Perkins to Governor H. Brown, a parcel of land on Maple street, West Side.

Lucius C. Swan to Ann M. Fillmore, a parcel of land on Elizabeth street.

Alfred P. and John A. Rockwell to Margaret A. Case, a building lot on Franklin street.

Dime Savings Bank to James N. Watrous, land and buildings corner of Franklin and Oak streets.

Norwich Savings society to Anthony Gadu and others, land and buildings at Occum.

Few Candidates for Voters.

The registrars of voters of the town were not kept very busy, waiting on applications Thursday, and an unusually small number of "to be mades" was the result. W. P. Corkery and Joab B. Rogers held forth at the selectmen's office in the City hall; Palmer Bill and C. E. Briggs, at the store of Nathan Small in the second voting district; Paul B. Greene and P. F. Bray, at the store of Albert C. Greene in the third voting district; Albie L. Hale and Peter Cervis at the store of G. Avery Ray in the fourth voting district; J. L. Rose and James Murphy at the Ponemah small hall in the fifth voting district.

In the first district 64 were registered; in the second, 27; in the third, 31; and in the fifth, 3.

Not Popular in Eastern Connecticut.

The news of the efforts of the Connecticut Sheep Breeders' association to revive that industry in Connecticut does not meet with much favor in these parts, although there are hundreds of acres well adapted to sheep raising. The general impression among farmers is that the numerous vagrant dogs have made all chances of sheep-raising hopeless. It was only this week that the selectmen of the town paid $25 to George Rood of Wauwecus Hill for damage done his flock by unknown dogs. There are probably less sheep in New London county today than ever before.

The Bill Library Anniversary.

A large gathering was present to celebrate the twenty-sixth anniversary of the Bill library at Ledyard on Wednesday, the 13th inst.

The Rev. A. H. Kismouth made an able address. Mrs. Ida Whipple Benham read a meritorious poem written for the occasion. Short addresses were made by Warren Lee Goss, the Hon. Richard A. Wheeler, the Rev. Mr. Williams of Groton, the Rev. John Avery and Deacon B. F. Williams. Two solos were finely rendered by Miss Christa Whipple.

Refreshments were served on lawn near the church and the occasion was enjoyed by all.

The following named were elected officers of the association: President, the Hon. John Brewster; vice presidents, Wm. T. Cook, George Fanning, Isaac G. Geer; secretary, Wm. T. Cook; treasurer and librarian, John S. Spicer; executive committee, Isaac G. Geer, N. S. Gallup, Geo. Fanning, Wm. T. Cook and Jacob Gallup.

At the business meeting the Rev. John Avery was made an honorary member, the Rev. A. H. Kismouth a trustee of the association.

SEVERE ACCIDENTS.

A Boy Falls From a Fence—A Man Falls From a Tree.

George Holton, the eight-year old son of widow William Holton of Stonington, met with a severe and dangerous accident Wednesday afternoon. He was playing on the top of a high fence, near his home on Elm street, when he fell to the ground. In his descent he struck his head against some obstruction which cut a long gash in his forehead. He was at once taken to the office of Dr. C. E. Brayton, who dressed the wound, taking several stitches to close it. It is thought the lad will recover, but it was a narrow escape from a fatal accident for him.

Mr. Joseph Marsh, a barber employed on the steamer New Hampshire, met with a severe accident Wednesday. He was with a picnic party that visited Lantern Hill. For the pleasure of the company a swing had been suspended from an overhanging limb. When the party was ready to break camp Mr. Marsh attempted to take down the swing. He was on the limb, when he lost his balance and fell to the ground. The injuries he received by the fall were at first thought to be fatal, as he was unconscious several hours. He was taken to the residence of Mr. John Wagner in the borough, where he was carefully attended, and indications now point to his recovery.

The Norwich Weekly Courier is the best weekly newspaper in New England at 50c a year.

A WORD FROM MRS. BLIVEN.

She Corrects a Statement Made by The Bulletin.

As The Bulletin and The Norwich Courier have published an item which, through lack of knowledge of the circumstances, reflects on the wisdom and propriety of my husband and self, and may lead our fellow-citizens to misjudge us, I feel called upon to state wherein said papers have erred.

That Mr. Samuel D. Bliven did visit me in my home in North Scituate, R. I., can be proved by residents there. That he invited me to the Peace meeting can be proved by letters in my possession. That we ascertained whether we were fitted to live happily together by ample correspondence instead of by weekly visits and the usual soppy style of courtship, will in the future, by our lives I trust, be proved to have been wise, prudent and all sufficient.

His wife,

ELIZA MOWRY BLIVEN.

EASTERN CONNECTICUT.

PRESTON.

The Law is Not Yet Off—Summer Visitors.

The "game law" is not off yet, and some young men that were seen a few Sundays ago roaming the fields with fire arms should be careful and take note thereof. There is a strict law for Sunday gunning.

[illegible] had the exterior of [illegible] decorated with one of the most fashionable and harmonizing tints.

Samuel McCrery of New London was the guest of his brother, Henry McCrery, at Hallville recently.

The Rev. Jamal Ellsworth, wife and child of Naugatuck, Conn., have been visiting Mr. and Mrs. Asahel Lucas of Poquetanuck.

Mrs. Charles Wisner and children of Warwick, N. Y., have been visiting her parents, Mr. and Mrs. Erastus Hewitt of Poquetanuck.

Julian Lucas, who has been spending a portion of his vacation with Mr. Benjamin Lucas of Poquetanuck, returned to Cambridge, September 9, to resume his studies at the Cambridge Latin school.

STONINGTON POINT.

A Large Shipment of Goods—The Stonington Building Company Declares a Dividend.

A large shipment of manufactured goods was made from the velvet factory Wednesday night.

Mr. Ephraim Williams, Jr., son of the Hon. Ephraim Williams, is to enter the freshman class in Princeton college this fall.

Mr. Samuel Doughty and family, who have been summer guests in the borough, left Wednesday night for the World's fair.

The directors of the Stonington Building company have declared a quarterly dividend of one and one-half per cent. This is the company that constructed the factory occupied by the American Velvet company here.

HANOVER.

The Smiths Dine—Consolidation of Classes—Personals.

Misses Jennie C. and May E. Higgins are visiting in Plantsville, Mount Carmel and New Haven.

Mrs. Lizzie Fuller of Boston, is at Mrs. Julia Fuller's.

Mr. John Vallette of Providence, R. I., son of Mr. James Vallette, died from cancer, and was buried at Mystic last Thursday.

Mr. Samuel Perkins of Philadelphia, who is spending his vacation at Windham, was present at church and addressed the Sunday school, Sunday. He is a lineal descendant of Mr. Matthew Perkins, of more than a century and a quarter ago.

There are Smyths—and Smithes. Of the latter sort, twenty three dined together at the house of the postmaster last Sunday.

Miss Adele Hodson of Philadelphia and Miss Annie Hodson of New Haven are the guests of Mr. Nathan Bennett.

Miss Bertha Smith has accepted a very flattering offer as a teacher in a young ladies' seminary in Philadelphia, Pa.

Miss Hattie Chapman is visiting her sister, Mrs. S. S. Carrier, at Highland Park.

The Center school has consolidated its two departments, and numbers about 40 scholars, under the instruction of Miss Grace E. Eldridge of Norwich.

The Hanover male choir sang at the funeral of the late Dea. Adams of Canterbury, on Tuesday last.

G. S. Higgins has resumed school duties at Norwich Free Academy, class '94.

The Norwich Weekly Courier is the best weekly newspaper in New England at 50c a year.

NORTH STONINGTON.

A Prize Winning Horse—The Stewart Family Reunion—Personals.

Mr. Frank Vincent, who has been at Narragansett Pier during the summer, has spent a few days with his parents, Mr. and Mrs. C. W. Vincent. He goes this week to Newburgh, N. Y., to occupy a position in a hotel with Mr. G. S. Johnson.

Mrs. D. W. Stewart, who has been quite sick, is much better.

The daughter of Mr. and Mrs. Thomas Edwin Brown died Sunday morning, aged two months. The funeral was held Tuesday and the burial was at the Union cemetery.

Mrs. W. R. Williams of Willimantic is visiting her sister, Mrs. Ezra Wheeler.

W. W. Sheffield, D. D. S., and wife of New London, were the guests of Mr. and Mrs. Gilbert Billings over Sunday.

Mr. John D. Gallup has recently presented his nephew, Charles Eli Hewitt, M. D. of Meriden, with a fine five-year-old horse.

Mrs. Marian Potter and three daughters of Waterbury are visiting Mr. and Mrs. Edward Pitcher.

Mrs. C. L. Brown of Wyoming, R. I., has been the guest of friends in town.

Mr. James B. Brown's horse Flossie won in the 2.50 race, purse $400, at the New England fair at Worcester, Mass.

The reunion of the "Stewart family" was held Wednesday of last week with Mrs. Belle McGonegal. Those bearing the name of Stewart, and family connections to the number of fifty-one, were present and a general good time was enjoyed by all. The table was spread under shade trees on the lawn and a bountiful dinner was served.

Nathan W. Stewart was appointed president, and arrangements made to make the reunion an annual gathering.

Among the visitors from here for the World's fair are Mr. and Mrs. Dwight E. Hewitt, Miss Annie E. Burch, Mr. Amos P. Miner, Jr., and Mr. George D. Thompson. Mr. Thompson will, after visiting the fair, visit his father in Michigan, whom he has not seen in twenty two years.

EASTFORD.

A Visiting Clergyman—A Sunday School Picnic—Visitors—Personals.

The Rev. Isaac Clark of Howard university, Washington, D. C., accompanied by his daughter, visited his aunt, Mrs. Lydia C. Day, recently, at the home of Deacon and Mrs. Henry Trowbridge. Mrs. Day has just passed her 86th birthday.

The Sunday school picnic recently held at Kenyon grove was a success. About three hundred were present, including Eastford and West Woodstock people.

Messrs. A. L. Johnson and Charles Rice spent part of last week at Putnam in the capacity of jurymen at the court there.

Mrs. Timothy Walker has gone for a week or more to her brother's home in Brooklyn, Mr. P. B. Sibley. He and Mrs. Sibley have gone for a trip to the World's fair.

Miss Bugbee and nephew of Providence, R. I., are the guests of F. G. Slye's family.

Miss Hattie Smith of Chaplin commenced her school in District No. 3 this week.

Mrs. Louisa Stockwell of Madison, N. J., has been the guest of Mrs. Warren Keith.

Miss Mary Lawrence of Worcester, Mass., is on a visit to her aunt, Mrs. E. P. Hall.

Dr. H. H. Converse is entertaining his two sons.

Mrs. Juliette Childs of Westford, accompanied by her brother, James Richmond of Philadelphia, recently called upon Mrs. S. E. Spaulding and the venerable Silas Preston, who is in his 96th year.

[illegible] WINS.

Brenton Reef Cup Race Unparalleled in History.

ELEVEN KNOTS IN HEAVY SEAS.

Neither Boat at Any Time a Minute Ahead.

LONDON, Sept. 14.—The committee has decided that the Navahoe won the race for the Brenton's Reef cup.

According to The Sportsman Mr. Carroll lodged a formal protest against the first decision of the judges in the race for the Brenton's reef cup, not because any unfairness was suspected, but in order to keep the matter open, subject to any misunderstanding of the New York racing conditions, and because a difference of less than three seconds over such a long course leads him to think that a further calculation of the figures, together with the rating of the two vessels, might terminate in a reversal of the committee's decision.

Under the caption, "Retirement of the American," The Sportsman says that the race for the Cape May cup has been indefinitely deferred.

The Times describes the race as an unparalleled performance. Nothing in the annals of yacht racing, it says, can compare with the extraordinary close sailing in this race. Neither yacht was at any time

Over a Minute Ahead of the Other

and for fully half the distance were not separated more than a couple of lengths.

Altogether it was a race, beating far away in every particular anything recorded in the history of yachting. Over a long course and in a trying sea there was not a "carry away" worthy to be recorded, although the masts of both, when the wind laid on, caused anxiety. The match conclusively proves that the modern yacht is far ahead of the old type in regard to sea-going qualities as in speed.

The Navahoe was on her best point in having a broad reach over the entire course, while on the other hand the Britannia does not excel in that particular point, as she does in sailing to windward and to leeward. So heavy was the sea that for 100 miles

Both Boats Were Under Two Sails Only,

yet even then they reached a speed of 11 knots an hour, pounding the water in a wonderful way, with the drift flying 20 feet up their masts.

Mr. Carroll made the objection that the starting vessel was not in the same position at the finish as at the start. The answer was that a vessel may not anchor in a fair way in the night time. The time of the yachts was taken as soon as each vessel came in line with the stream of Needle's lighthouse, which was better than a floating mark.

SORROW AT EASTON.

Body of Fred L. Ames Arrives—Business Entirely Suspended.

NORTH EASTON, Mass., Sept. 14.—The remains of Hon. Fred L. Ames arrived here this morning at 9:28, accompanied by his son, Oliver Ames 2d, and were taken in charge by Undertaker F. S. Howard of Brockton and conveyed to the house.

The steward of the steamer Pilgrim, David Washington, arrived this morning with personal effects which Mr. Ames had with him at the time of his death, and delivered the same to the afflicted widow.

The family are all at their home, and endeavored to console the mother in this her hour of grief. There was a large assemblage of the citizens of the town at the depot on the arrival of the train. Business is entirely suspended in the town. The time for the funeral services has not as yet been decided upon, they will probably be held at the Unity church.

GREAT COMPLIMENT.

Dublin Feels Honored Over Lord Mayor's Invitation to World's Fair.

DUBLIN, Sept. 14.—A farewell banquet was given in Leinster hall last evening in honor of Lord Mayor Shanks, who is about to sail for America to visit the World's fair. One hundred prominent citizens were present.

Dr. Kind, ex-president of the College of Surgeons, who presided, proposed the health of President Cleveland, and the United States consul, in reply, said that the lord mayor would find during his visit to America that President Cleveland was a man in every respect worthy of filling his great position at the head of the greatest people on earth—a people that were part and parcel of the people of England and Ireland.

The chairman, in offering a toast to the lord mayor, said that the invitation to visit the World's fair was a great compliment both to the lord mayor and to the citizens of Dublin.

The lord mayor, responding, said the honor would be his to represent to the people of Chicago the sentiment and sympathies of the people of Dublin. To endeavor to stand well with other nations was a purpose worthy of every patriotic and practical Irishman. The object of the invitation to attend the fair, he continued, was to show a mark of respect to a people that had done so much toward building up the American nation and that had taken a prominent part in every American enterprise.

Taking the good wishes of the people of Dublin, he would be entitled to express the regard and affection they entertained for a country that had supplied the time and opportunities for millions of their countrymen and for a nation holding the foremost place in the van of progress.

Their good will would be ample compensation for any service he might have rendered, and would recompense him for any buffets he might have received. At the conclusion of the lord mayor's remarks he was heartily cheered.

News From the Sealers.

VICTORIA, Sept. 14.—The sealing schooner Geneva arrived from Copper island yesterday, bringing 2000 skins, 1562 of which were taken in Japan seas and 438 around Copper island. The captain declares that neither the Annie C. Moore nor the Annie E. Paine were seized. He spoke the former on Aug. 26. She then had 1100 skins.

Schooner Thought to Be Lost.

BALTIMORE, Sept. 14.—The schooner Mary J. Cook, Captain Vanneman, of Philadelphia, it is thought has been lost. She left Port Royal, S. C., Aug. 14 for Boston, and on Aug. 17 left Bay Point, below the port of departure. The vessel was built at Waldoboro, Me., in 1874.

Nella Brown Pond Dead.

BOSTON, Sept. 14.—Mrs. Nella Brown Pond, the reader, died at 8 o'clock this morning at her residence, Warren street, Roxbury. She was the wife of Major O. W. Pond.

Cash Girl Dies of Heart Failure.

BOSTON, Sept. 14.—Delia A. Hunt, 15 years of age, a cash girl employed in R. H. White & Co.'s, was found dead in bed this morning by her mother. She resided with her parents at 5 Jarvis place, Roxbury district. Dr. T. J. Murphy decided death was due to heart failure.

[illegible]

Five Persons Waiting for Every Claim on the Cherokee Strip.

GUTHRIE, O. T., Sept. 14.—Twenty thousand people were yesterday added to the immense crowds on the line of the Cherokee strip. The force of clerks at the registration booths is being increased, but the line grows larger instead of smaller. Supplies are running low and prices are going up. About 20 people, four or five of them women, fainted in line during the day, and several are dangerously sick from the effects of the heat.

A colony of several hundred negroes arrived yesterday, every one having a printed certificate granting him a farm upon presentation of the same to the land office. These people were victimized by some swindlers who traveled through Louisiana and sold these certificates at $10 each. Other parties have arrived with tickets entitling them to a draw in the Cherokee strip land for which they have paid several dollars each.

It is estimated by conservative men that by Saturday there will be on the line to take part in the race about five persons for every claim on the strip. At Orlando over 300 women have been in line for two days, and a special registering booth was opened for them yesterday afternoon.

Governor Renfrew, in accordance with instructions from Washington, has issued a proclamation instructing all sheriffs to employ deputies enough to prevent all parties going into the strip from carrying deadly weapons.

Eleven thousand certificates were issued at Orlando in three days, and at 8 o'clock last night 5000 people were in line, which will be increased to 8000 this morning. Over 2000 people registered yesterday.

THE POTTER TRIAL.

Fundamental Question of Law Argued That May Wreck the Case.

BOSTON, Sept. 14.—One great fundamental law question undermines and may wreck the Potter case. It relates to a question of proof. The question is whether the government can show a general direction given by Asa P. Potter to Cashier Work to make false entries in consequence of which specific false entries in the books were made and which form the subject of the indictment. In other words does the statute under which the indictment is drafted contemplate evidence of a general direction to be sufficient to support an indictment which alleged eight specific false entries? It will be argued by the defense that each false entry must be supported by special instruction, and that this is the purview of the law. Other subordinate questions appear in the case by way of admission of evidence.

This morning Judge Putnam excused the jury and witnesses until tomorrow at 9:30. Counsel then proceeded to discuss the law points in the case. The first question argued was the admission of the question put by the district attorney to Mr. Work yesterday: In consequence of what Mr. Potter then said to you, what did you do at or about that time?" The government claims that it is not necessary to show that Potter made the false entries with his own hand in the books. It is enough if they establish the fact that the several entries were made in consequence of that general instruction.

The defense, on the other hand, claim that the general instruction testified to by Work is too remote from the specific acts of making the false entries. It argues that the acts which the government seek to connect with the instructions of Potter to Work that "We must make it look better," referring to the clearing house statement showing the bank's reserve are too remotely separated from that general instruction to be legal consequences. This question is a fundamental one under the statute.

CZECHS INDIGNANT.

Five Journals Suspended and Several Clubhouses Closed.

PRAGUE, Sept. 14.—In accordance with the imperial decree issued yesterday, suspending articles 12 and 13 of the constitutional law in this city and its suburbs, five Young Czech journals, the utterances of which were offensive to the government, have been suspended.

In order to be certain that no further adverse comments upon the imperial decree shall be published, the government has ordered that all articles intended for publication in Czech papers must be submitted to the police for approval or rejection three hours before the papers go to press.

One of the provisions of the suspended law has reference to public assemblies. Clubs have been construed to come under this head, and several clubhouses have been closed, and the funds and papers of the organizations seized.

The Young Czechs are indignant at the action of the imperial government, and there is much suppressed excitement among that political group. The authorities are vigilant, however, and it is scarcely believed that the anti-German agitation will go much beyond legislative bounds.

Hottest Day of the Season.

ARKANSAS CITY, Ark., Sept. 14.—The mercury in Arkansas City yesterday afternoon indicated a temperature of 110 degrees Fahrenheit, the hottest day of the season in this part of the country. The scenes enacted Tuesday were more than repeated yesterday, and many persons overcome by the heat were carried from the lines, six of whom have already died. Others, it is thought, will succumb.

Burglars at Avon.

AVON, Mass., Sept. 14.—Last night burglars entered the house occupied by Eli Hayden on the "East side." They took a valuable gold watch chain, the property of Mr. Hayden, but overlooked a silver watch. The apartments of Adelbert Littlefield were also entered. An empty pocketbook and pair of trousers belonging to Mr. Littlefield were taken.

NEWS IN BRIEF.

The famous Faribault school plan has come to an end.

The Western Union telegraph office in Washington was burned out.

Lumber docks at West Bay City, Mich., were damaged $100,000 by fire.

Father James Rogers, a Boston priest, died in Liverpool of heart disease.

The Austrian government has taken steps to crush the Czech movement.

Senator Voorhees unavailingly tried to have a day fixed for a vote on repeal.

A frightful havoc has been wrought by the cholera among Mohammedan pilgrims.

The South Dakota towns of Lead City, Central City and other cities are hemmed in by fires.

There were 3000 people at the Springfield (Mass.) diamond cycle meet. Sanger was the lion of the day.

A North Adams (Mass.) clergyman voluntarily arranged to take only half of his salary because of the hard times.

President Smyth of the Concord and Montreal road declares that consolidation with the Boston and Maine is out of the question.

The Haverhill (Mass.) board of trade held a meeting in favor of the construction of a state highway from Lawrence to the sea and a park system.

The Canadian government still persists in its refusal to allow United States officials to inspect contract laborers landed at Quebec and destined for the states.

A New Dress for Too Cents.

Take any old gown, have it perfectly clean, and then dye with some fashionable color of Diamond Dyes. You may have no faith in home dyeing, but a trial of Diamond Dyeing will show you that the colors are strong, beautiful, and absolutely fast. Nothing equals them in ease of use, for coloring cotton, silk, wool or mixed goods. sep15d

The Bulletin.

THE SECTARY.

A heavy hand the bruised reed to break,
A foot to quench the smoking flax wall shed,
A bitter zeal, alert and keen to make
The breach more wide betwixt mankind and God.

A visage stern that bids all stand apart
Who dare to worship at a different shrine,
A sullen mood, a cold and sluggish heart,
Unwarmed by any pulse of love divine.

A tongue in chiding swift, in praising slow,
A practical eye his fellows' faults to scan—
These are the attributes by which men know
The sectary, unloved by God or man.
—London Spectator.

THE QUIET MAN.

When I was quite a young fellow and hadn't long joined the army, I used to belong to a fashionable club in London, the members of which were just the sort of men you read about in Lever's novels—as wild as wild could be, always in some scrape or other, and spending their whole time in riding, shooting, gambling or fighting—all except one.

That one was a small, quiet, pale faced, gray haired man, with a very sad, weary look, as if he had once been crushed by some great sorrow and had never been able to shake it off. He hardly ever spoke to any one, and when he did it was in a voice as meek as his face. So of course we made great fun of him among ourselves, finding these quiet ways of his a very queer contrast to our own rackety, harum scarum style, and we nicknamed him the "Quietest Man In the Club," though, indeed, we might just as well have called him the only quiet man in it.

Well, one evening when the room was pretty full, and our friend the quiet man was sitting as usual in the far corner away from everybody else, we began to talk about dueling, a subject with which we were all tolerably familiar, for there was hardly a man among us who hadn't been "out" once.

"They did some tidy dueling in the old times," said Lord H., who was killed afterward in action. "You remember how [illegible] six chums of Henry III of France fought three to three till there was only one left alive out of the six."

"That was pretty fair certainly," cried Charlie Thornton of the Guards, "but after all it doesn't beat the great duel 50 years ago between Sir Harry Martingale and Colonel Fortescue."

He had hardly spoken when up jumped the quiet man as if somebody had stuck a pin into him.

"What on earth's the matter with him?" whispered Thornton. "I never saw him like that before."

"But what was the story, then, Charlie?" asked another man. "I've heard of Fortescue, of course, for he was the most famous duelist of his time in all England, and I've heard of his fight with Martingale, too, but I don't think I've ever had any particulars, or at least none worth speaking of."

"I can give them to you, then," answered Thornton; "for my uncle was Martingale's second. I've heard him tell the story many a time, and he always said that although he had been in plenty of duels he had never seen one like that and never wanted to see it again. What they quarreled about I don't know, and I dare say they didn't know themselves, but my uncle used to say he knew by the look in their eyes when they took their places to fire that it could not end without blood, and it didn't.

"They fired twice, and every shot told, and then their seconds, seeing that both men were hard hit and bleeding fast, wanted to put an end to it. But Fortescue—who was one of those grim fellows who are always most dangerous toward the end of the fight—insisted upon a third shot. The third time, by some accident, Martingale fired a moment too soon and gave a him bad wound in the side, but Fortescue pressed his hand to the wound to stop the bleeding, and then, almost bent double with pain though he was, he fired and brought down his man."

"Killed him?"

"Rather. Shot him slap through the heart. But it was his last duel, for from that day he was never heard of again, and people said he had either committed suicide or died of a broken heart."

"Well, I don't see why he need have done that, for, after all, it was a fair fight," struck in Lord H., who had been looking over the newspapers on the table. "But, if you talk of dueling, what do you say to this?

"Another duelling tragedy in Paris. The notorious Parisian bully and duelist, Armand De Villeneuve, has just added another wreath to his blood stained laurels, the new victim being the Chevalier Henri de Polignac, a fine young fellow of 26, the only son of a widowed mother. Some strong expressions of disgust used by the chevalier with reference to one of De Villeneuve's former duels having come to the latter's ears, he sought out De Polignac and insulted him so grossly as to render a meeting inevitable.

"The chevalier having fired first and missed, De Villeneuve called out to him, 'Look to the second buttonhole of your coat!' and sent a bullet through the spot indicated into the breast of his opponent, who expired half an hour later in great agony. His mother is said to be broken hearted at his death. How much longer, we wonder, will this savage be allowed to offer these human sacrifices to his own inordinate vanity?"

Just then I happened to look up and saw the quiet man rise slowly from his chair, with a face so changed that it startled me almost as much as if I had seen him disappear bodily and another man rise up in his stead. I had once seen an oil painting abroad in which an avenging angel was hurling lightnings upon Sodom and Gomorrah, and that was just how this man looked at that moment. He glanced at his watch and then came across the room and went quickly out.

The next night, and the next, and the next after that, the quiet man didn't appear at the club and we all began to wonder what could have become of him. But when I came in on the fourth evening, there he was, though he looked—as it seemed to me—rather paler and feebler than usual.

"Here's news for you, Fred," called out Charlie Thornton. "That rascally French duelist, De Villeneuve, has met his match at last, and Dr. Lansett of the —th Bengal Native infantry, who saw the whole affair, is just going to tell us all about it."

"Well, this was how it happened," began the doctor. "In passing through Paris I stopped to visit my old friend, Colonel de Malet, and he and I were strolling through the Tuileries gardens when suddenly a murmur ran through the crowd, 'Here comes De Villeneuve.' Then the throng parted, and I had just time to catch a glimpse of the bully's tall figure and long black mustache when a man stepped forth from the crowd and said something to him, and then suddenly dealt him a blow.

"Then there was a rush and clamor of voices, and everybody came crowding round so that I couldn't see anything. But presently De Malet came up to me and said, 'Lansett, we shall want you in this affair, although I'm afraid that you won't have a chance of showing your surgery, for De Villeneuve never wounds without killing.' Just then the crowd opened, and I saw to my amazement that this man who had insulted and defied the most terrible fighter in all France was a slim little fellow, with a pale, meager face.

"'As the challenged party, I have the choice of weapons,' we heard him say quite coolly, 'and I choose swords.'

"'Are you mad?' cried De Malet, seizing his arm. 'Don't you know De Villeneuve's the deadliest swordsman in Europe. Choose pistols—give yourself a chance!'

"'Pistols may miss—swords can't,' answered the stranger in a tone of such savage determination that every one who heard him, even De Villeneuve himself, furious though he was, gave a kind of shudder. 'I had vowed never to fight again, save with a man who deserved to die. But you have deserved it well by your cold blooded murders, and die you shall!'

"Where both sides were so eager to fight there was no need of much preparation. They met that evening, Colonel de Malet being the stranger's second and another French officer acting for De Villeneuve.

"They fought for some time without a scratch on either side, and then suddenly the Englishman stumbled forward, exposing his left side. Quick as lightning the Frenchman's point darted in, and instantly the other's shirt was all crimson with blood, but the moment he felt the steel pierce him he made a thrust with all his strength and buried his sword up to the hilt in De Villeneuve's body. Then I understood that he had deliberately laid himself open to his opponent's weapon in order to make sure of killing him. So he had, for De Villeneuve never spoke again."

Just as the doctor said this, down fell a chair with a great crash, and looking up we saw the quiet man trying to slip past us to the door. Dr. Lansett sprang up and caught him by both hands.

"You here!" he cried. "Let me congratulate you upon having punished, as he deserved, the most cold hearted cutthroat in existence. I trust your wound does not pain you much?"

"What!" we all shouted, "was it he who killed De Villeneuve?"

"Indeed it was," answered the doctor, "and it was the pluckiest thing I ever saw."

We all jumped up from our chairs and came crowding round the hero, setting up a cheer that made the air ring, but he looked at us so sadly and darkly that it made the shout die upon our lips.

"Ah, lads! lads!" said he in a tone of deep dejection, "for heaven's sake don't praise a man for having shed blood and destroyed life. I killed that ruffian as I would have killed a wild beast to save those whom he would have slaughtered. But God help the man who shall take a human life merely to gratify his own pride and anger! If you wish to know what happiness a successful duelist enjoys, look at me. Do you remember that story which Captain Thornton told here the other night about the duel in which Colonel Fortescue—the 'famous duelist,' as you call him—killed Sir Henry Martingale?"

"To be sure," answered Charlie Thornton, looking rather scared. "But what of it?"

"I was once Colonel Fortescue," was the answer.—Exchange.

Queer Directions About a Funeral.

John Underwood of Whittlesea, Cambridgeshire, who died in 1773, gave directions for a curious funeral. None of his relations was to follow his corpse, which was to be conveyed to the grave by six gentlemen, who were specially desired not to come in black clothes, and during the ceremony were instructed to sing the last stanza of the second book of Horace. The coffin was green, and the deceased was placed in it with all his clothes on. Under his head was placed a copy of Horace, under his feet Bentley's Milton, on his right hand a small Greek Testament and on his left a miniature Horace, while Bentley's Horace was put under his back.

A cold supper at his house followed the ceremony, and after the cloth was taken away the guests repeated the thirty-first ode of the first book of Horace. Each was to receive 10 guineas out of the sum of £6,000 left to the testator's sister on condition of carrying out the will. The will ended with the words, "Which done, I would have them drink a cheerful glass and think no more of John Underwood."—London Tit-Bits.

The conditions are favorable for the development of consumption only when the system gets "run down," then follows a cold, a catarrh, the bacilli of tuberculosis become lodged in the mucous membrane, invade the tissues and spread.

The human hair is absolutely the most profitable crop that grows. Five tons of it are annually imported by the merchants of London. The Parisians harvest upward of 200,000 pounds, equal in value to £80,000 per annum.

The mosaics in the Church of St. Mark in Venice are the finest in the world. They cover 40,000 square feet of the upper walls, ceilings and cupolas and are all laid on a gold ground.

Until about a hundred years ago burial in coffins was by no means universal. In early times corpses were merely wrapped in linen shrouds.

Very few can reach deep into their own minds without meeting what they wish to hide from themselves.

A WICKED STATUE.

It Bears Evil to Him Who Disrespectfully Talks of Spirits.

When Darius I, according to Herodotus, wished to erect his statue near that of Rameses II (Sesostris), the priests objected on the ground that Sesostris was a greater conqueror than he. The statue in question was one of several erected before the temple of Ptah at Memphis, on the borders of the sacred lake where is now the village of Bedreshein. After Memphis became Christian the renown of its monuments died away, and when it perished the stones were removed to serve in building Cairo. One colossus remained to our day, it having been preserved under the sand, and on being unearthed by Caviglia at the beginning of the century was found to represent Sesostris in his youth.

This colossus has been visited by most tourists in Egypt. It lay on the sands near the palm of Bedreshein in a hollow or ditch and was covered with water during the inundation. The remains of the temple might be traced along the lake, which is still represented by a depression in the ground covered with wheatfields. Of late years General Stephenson and Major Bagnold, R. E., have excluded the waters from the colossus, raised it on timber supports above the ground and surrounded it by a brick wall. On payment of 2 piasters, however, it can be seen by the curious.

M. Maspero, the great Egyptologist, relates in a French contemporary that the Arabs had formerly a great awe of this, which they called Abou'l Hol, the "father of fright," as they do the Sphinx. The ancient Egyptians, he assures us, believed that statues, divine or human, were animated by a spirit or "double" detached from the soul of the person they represented. This double ate, drank and spoke or delivered oracles. In later times the double was credited with playing evil tricks on those who approached the statue and even with killing them. His power could be destroyed by breaking the statue, or at least the features; hence it is that so many statues of the pharaohs have been mutilated by the Arabs.

The spirit of Rameses II was supposed to haunt the palms at night, and M. Maspero relates that every time he passed by in the evening toward dusk the driver of his ass would mutter his prayers and hurry on his beast. One evening M. Maspero asked him if he was afraid of some "afrite," and the driver begged him not to speak of such things or some harm would befall him. Presently M. Maspero was thrown from the ass in the middle of the wood, and the incident was regarded by the driver as a punishment for his not speaking respectfully of the spirit in the statue. Egypt is full of such superstitions dating from the far past.—Rural Collaborator.

Relics of Shakespeare.

Mr. Thomas Hornby of Kingsthorpe, near Northampton, has just received at his residence from Stratford-upon-Avon the whole of the Shakespearean relics formerly in the possession of his grandmother, Mary Hornby, who was the occupant of Shakespeare's birthplace from 1793 to 1820. Mary Hornby, who is picturesquely described in Washington Irving's "Sketchbook," removed from Shakespeare's house in consequence of the rent being raised from £10 to £40 per annum. She took with her to her new house, almost opposite, nearly everything that it was possible to remove, including the locks of the doors and the fire grate. There she exhibited them for a number of years, but after her death nothing was seen of them until they arrived at Northampton on the decease of a descendant of Mary Hornby, by whom they were devised to Mr. Hornby of Northampton.

They include five carved oak chairs, one of them being that which Washington Irving said required a new bottom every three years; two large carved oaken chests, portions of a carved bedstead, carved table and other furniture, fire grate and fire dog, all contemporary with Shakespeare, and said to have been his private property. There were also such personal relics as an iron sword, lantern, iron deed box, all reputed to have been owned by the poet.—Exchange.

Confidence Begets Confidence.

Mr. Porte-Vaine, the registrar, had a hump as large as the late Mr. Lagardere's. Baron Arthur, on the other hand, is an Israelite of the most pronounced type, and any one who doubts need only look at his features. Now the baron and the registrar met at Nice, where they became fast friends. When the hour of departure struck, they mutually expressed a wish for a continuance of the pleasant acquaintanceship after their return to Paris. But Baron Arthur has a scruple. In these days of anti-Semitic agitation he would not for worlds impose on the good nature of his new friend. Just before stepping into the carriage he delivered himself as follows:

"I have a confession to make. I am a Jew."

"One confidential admission deserves another," whispered the registrar in the baron's ear. "As for me, I am a hunchback!"—Intransigeant.

Pleasures of Life In India.

A band of poisoners is believed to be at work on the railways in the northwest provinces. There have been during the past few months a large number of deaths in [illegible] among the native third class passengers traveling on the East Indian railway. The bodies are handed over by the railway authorities to the police, who dispose of them as expeditiously as possible. In most cases there is little or no property found on the bodies, not even railway tickets, and generally they are found in an empty carriage. These facts do not appear to have awakened the suspicions of the police, or perhaps they have recognized their incompetence to prevent or detect such crimes. As, however, the native passengers contribute over 90 per cent of coaching receipts, it is high time some efforts were made to afford them protection for their life and property.—Bombay Gazette.

The Tramp's Loyalty to an Ideal.

In one of his delightful essays Mr. Lowell tells of a tramp whom for seven years he assisted with money to enable him to get from Boston to Portland. "He was as fine an example," Lowell adds, "as I have ever met of hopeless loyalty to an ideal."—New York Tribune.

MANY LOST ANIMALS.

OVER SEVENTY NOW EXTINCT KNOWN BY THEIR FOSSILS.

Australia's Contribution to the World's Supply of Bones Leads to Some Interesting and Suggestive Speculations Relating to Early History.

The surprises experienced in the study of "this fair volume which we world do name" are inexhaustible, and it often happens that in the most unexpected places discoveries of incalculable value to science are made. Such at least is the case in regard to the wonderful find of mammoth bones, of which accounts have been received from Mr. Hurst and his companions, who were sent to Lake Mulligan by the museum board. A more apparently uninteresting and forsaken spot than this locality could not be found in the whole of Australia. When Captain Sturt, along with Dr. Browne and Mr. John McDougall Stuart, went northwest from Menindie on the River Darling in 1844, he came into a great stony desert lying to the eastward of Lake Frome, and the party endured the most terrible hardships from the frightfully barren nature of the country and the extraordinary heat of the weather.

In such a country it was only too plain that no living being could exist, and indeed the utter absence of life in any form was one of the weirdest characteristics of the whole region. Lying between the Grey range on the east and with Mount Searle, Mount Freeling, Mount Hopeless and other eminences on the west, this stony desert contains many dreary saltpans, and of these Lake Mulligan is one of the principal. Sturt got to about the middle of the plain and found the country so utterly forbidding and lifeless that he reluctantly retraced his steps once more to the haunts of civilization, where he gave such a disheartening account of his travels that for many years it was currently asserted that the whole of the interior of Australia consisted of one vast stony desert, in which it was scarcely possible that any living thing could exist.

What a different picture of the past history of this country is brought to light by the new discoveries! Mount Searle, which rises to a height of 3,000 feet above sea level and forms the culminating point of the range between Lake Frome and Lake Torrens, was probably at the period of which we speak fully twice that elevation. On its sides grew huge trees, and all around there was a dense tropical growth exceeding in luxuriance the forests of the eastern slopes of the Andes in South America. Every form of life on the whole earth was at that time huge and uncouth. The wombats, of which the bones have now been unearthed, were as large as bullocks. On the grassy plains at the foot of the mountains there roamed the diprotodon, a gigantic animal allied to the kangaroo in its structure and habits, but of a size between a rhinoceros and an elephant.

Of very farreaching significance is the story which is told by these mute relics of a remote age. It has often been observed by naturalists that the types of animals from which, in distant geological periods, the existing fauna of Australia and of America have been derived present a strange correspondence. Great dissimilarities no doubt may be pointed out, but on the other hand the resemblances are much greater than, for instance, can be made out with regard to the existing animals of Australia and of Africa. It would seem as if, in fact, some of the species of animals now inhabiting South America had been evolved from the same original types as those of Australia. Marsupial or pouch bearing animals are to be found on the other as well as on this side of the Pacific. The types are different, but sufficiently akin to denote a common ancestry. Where, then, may we look for the traces of those animals which were the progenitors of the fauna of both sides of the Pacific ocean?

A probable answer is now being supplied through the conjecture that within a comparatively recent geological period there existed a great Pacific continent. The sea has covered almost the whole of its vast area, and only a few of its mountain peaks yet exist in the form of islands dotting over the surface of the great peaceful ocean. Whether man was on the earth at any time during the period of the existence of this continent must probably remain a moot point, but the existence of remains of buildings on some of the Pacific islands resembling those of the race who preceded the Aztecs of South America has been pointed to as a proof that such was the case.

At the remote time when the bones of these newly discovered marsupials were instinct with life it would seem most likely that the higher portions of Australia formed the outlying peninsulas or islands of the Pacific continent, and perhaps the line of the present Lakes Frome, Mulligan and Gregory was the shore of a large sea, from which clouds would be formed by evaporation and condensed in the form of rain. In no other way can we account for the existence on the slopes of the ranges of Mounts Freeling, Searle and Hopeless of such gigantic vegetation as would be required to sustain the monstrous fauna of those days. Imagination stands appalled at the effort to conceive the vastness of the time which has elapsed since these forms of animal life became extinct. Yet, as Hugh Miller once remarked: "What a mere beginning of geological history does not the epoch of the old coast line form? It is but a starting point from the recent period. Not a single shell seems to have become extinct during the last 6,000 years."—Adelaide Observer.

A Great Combination.

The man who was seen driving through Camden last week with a rowboat and a coffin box on the same team was highly complimented for his thoughtfulness. There is nothing like being ready for any emergency which may arise, and this traveler seemed to understand it.—Bangor Commercial.

Worse Than Wicked.

If more people understood that any appearance of haste or carelessness was out of place in formal correspondence, they would not use such expressions as "many thanks" any more than the hardly less objectionable phrase, "thanks," in conversation. Such curtness is like the old story, "Worse than wicked; it's vulgar."—Philadelphia Press.

DEGENERATE CAPTIVES.

Where waters tremble into hillside lights
From rocky crevices and shaded pools
The wild stag pauses, watch, fulwhile he [illegible]
His shapely limbs. His proud head toward the heights
He lifts to look in contemplative mood
On his companions feeding freely there
From nature's lavish feast, spread everywhere,
And asking no man's friendship or his food.

Where man betake themselves in tacit shrifts
Of city foulness runs a dear glen girt
With close set barriers. Here, tame, inert,
The deer caress men's hands for paltry gifts.
—Clara Dixon Davidson in Godey's.

A Telegraph Line Before Morse's.

Honor to the poineers in the vast field of science! Mr. John Sims has published at the Chiswick Press in pamphlet form a very interesting memoir of Sir Francis Ronalds. Twenty years before Wheatstone and Cooke or Morse had patented their improvements in the telegraph, indeed while the first two were respectively lads of 12 and 14 years of age, Ronalds had sent messages over eight miles of overhead wires of his own construction and had laid and worked a serviceable underground line of telegraph of sufficient length to demonstrate the practicability of communication by telegraph between long distances.

Details of his overhead telegraph wires were published by him in 1823. Ronalds' residence at Hammersmith, where these experiments were carried out, is the house now and for long past occupied by Mr. William Morris, the poet, who has caused a tablet to be placed on the wall bearing the inscription, "The first electric telegraph, eight miles long, was constructed here in 1816 by Sir Francis Ronalds, F. R. S.," etc. An autotype facsimile of a portrait of this father of electric communication accompanies the publication.—London Telegraph.

Calculating the Distance of a Storm.

Although lightning and thunder occur always simultaneously, an interval of shorter or longer duration is usually observed between these two phenomena, which is due to the fact that sound travels only at the rate of 1,100 feet per second, while the passage of light is almost instantaneous. Based upon this fact, it is an easy matter to tell, at least approximately, how many miles a thunderstorm is away. A normal pulse will beat about one stroke to the second, and by counting the pulse beats during the interval of the lightning and the thunder the lapse of seconds is arrived at and consequently the number of feet, which can be reduced to miles.

For example: If 30 seconds elapse between the flash of the lightning and the crash of thunder, the storm center is at a distance of 33,000 feet, or about 6¼ miles. An almost accurate calculation can be made by using a watch with a minute dial.—St. Louis Post-Dispatch.

Use Pure Water Freely.

Unhygienic habits report themselves unmistakably in the skin both in color and odor. To health and beauty it is essential that one should use pure water (rain water is best) frequently and freely and follow its use with brisk friction all over the body with a piece of coarse flannel, which is a wonderful aid to a soft and glowing skin, as it stimulates healthful circulation. Sun and air baths are necessary to the proper nutritive functions of the skin, and daily attention to the promptings of nature is imperative to save it from becoming a vehicle for offensive exhalation. Care will do much to put off the evil day of wrinkles and decay.—Exchange.

They Make Auroras to Order.

Artificial miniature auroras of the borealis variety have been produced by both De la Rive, the French savant, and Lenstrom, the Swedish astronomer. In Professor Lenstrom's experiments, which were made in Finland, the peak of a high mountain was surrounded with a coil of wire, pointed at intervals with tin nibs. The wire was then charged with electricity, whereupon a brilliant aurora appeared above the mountain, in which spectroscopic analysis revealed the greenish yellow rays so characteristic in nature's display of "northern lights."—St. Louis Republic.

Very Hard Mental Exercise.

It has fortunately been ordained that good lying is about the severest mental exercise known to an indolent world, and when conscience fails to keep mankind truthful laziness and prudence combine to take up the work.—Kate Field's Washington.

NORWICH MORNING BULLETIN.
Established 1858.

NORWICH WEEKLY COURIER.
Established 1796.

Subscription rates, MORNING BULLETIN—By mail or carrier, $6 a year; $1.50 a quarter; 50 cents a month; 12 cents a week. Single copies 2 cents.

Subscription rates, WEEKLY COURIER—50 cents a year; 25 cents for six months in advance. Single copies 3 cents.

THE MORNING BULLETIN (Six Pages) is the largest, oldest and most complete morning paper published in Eastern Connecticut. At $6 a year it is also the cheapest.

THE WEEKLY COURIER (Eight Pages) is the best weekly issued in Eastern Connecticut.

Advertising rates furnished on application to the business office. No cuts or electrotypes inserted in either paper.

To guard against mistakes, advertisements should be sent in manuscript. We cannot be responsible for errors that occur in messages received by telephone.

Yearly advertisers are limited to their own immediate business, and their contracts do not include Wants, To Let, For Sale, etc.

All news letters should be addressed to THE MORNING BULLETIN; all business communications to THE BULLETIN COMPANY.

Money orders and checks should be made payable to THE BULLETIN CO.

All communications must be signed. Anonymous letters or news items will not be read, but thrown into the waste basket.

No manuscript preserved or returned, unless stamps are enclosed fully to prepay postage.

Entered at the post office at Norwich, Conn., as second class mail matter.

The Bulletin.

Norwich, Friday, September 15, 1893

The Norwich Weekly Courier is the best weekly newspaper in New England at 50c a year.

THAT OBJECTIONABLE LAW.

The Springfield Union and some of the state papers have taken occasion to criticise as a disgraceful law the act passed by the legislature of '93, entitled "an act relating to anatomy" because "it required the delivery to the Yale medical school of all unidentified bodies twenty-four hours after death for dissection." If the law complained of was as represented by these papers there would be cause for sharp criticism, as it would be an invasion of the rights of the people and a disgrace to the state. It is not such a law. It deals wholly with subjects who die in the public institutions of this state, and the bodies of whom remain after death unclaimed, and are to be buried at public expense in potter's field.

The law reads: "Upon the expiration of twenty-four hours after death, or after such body shall have come into possession or control" of the officers specified, notice shall be given Yale university; but that "the body of no one having relatives either by blood or marriage, shall be so delivered without the consent of relatives, nor shall the body of any person detained on civil process, or for any criminal offense, or of any traveler or stranger, other than a tramp or vagrant, or of any person who shall be known at any time to have expressed a desire that his body should be buried, be so delivered."

It would be a good thing if criticisers of the law would read it before they publish a criticism making the law a scandal upon the state and a subject of adverse criticism for the press of sister states.

A PROSPEROUS YEAR.

The year 1892 will go into history as one of the most prosperous years ever known in the history of this country. Chief Wadlin of the Massachusetts bureau of statistics of labor has just issued the annual statistics of manufactures in that state for last year.

The conclusions reached in the report are based upon 4,473 establishments, representing 75 classified industries in 202 towns, representing a capital of $445,406,439 and employing 298,681 hands, and producing goods valued at over six hundred millions of dollars.

The report is a story of increase in all directions. The new firms and industries established in 1892 numbered 180; 280 new factories or mills were built; the capital stock was increased thirteen and a half millions and the workmen over fourteen thousand.

In seventy-five industries the average wages paid to each individual, without regard to sex or age, was $452.21 against $445.49 in 1891. The average increase of wages was 6.10 per cent.

The range from the highest to lowest average yearly earnings was from $708.15 to $294.42 in 1891 and from $759 to $290 08 in 1892.

The wheels of industry were whirling everywhere and the nation was prosperous. The report of the bureau next year will show what havoc the revolutionary policy of the democratic party produced upon these flourishing establishments.

AT LAST.

In the long race across the British channel Wednesday the American yacht Navahoe, in charge of her new skipper, made a better showing than the committee who awarded the race to the Britannia. The American boat was a fair winner of the race if the claims made for her are true, even if the mistake at the finish was not sufficient to warrant the committee in pronouncing the contest "no race."

The Britannia got underweigh and crossed the line a minute and a half ahead of the Navahoe and before the signal was given, and although the Britannia's start was a violation of yachting rules she was allowed to make the race.

The course was 130 miles and the understanding was that one of the boats should at night on their returning, show a red and the other a blue light. Both boats, by mistake, showed blue lights, and there was no way to distinguish which one crossed the line first. By time-allowance the Britannia was declared the winner by two and a half seconds.

This proves to have been one of the most remarkable races of late years, and the Navahoe is right in entering a protest under the circumstances.

A TARIFF REVISION EFFECT.

When Joseph Wharton of the American Iron and Steel association appeared before the ways and means committee to be heard with reference to the effect of tariff revision upon his business, he told them a few facts which will make an impression upon the country if they do not convince the committee that they are engaged in a destructive business.

President Wharton said the industry he represented employed in twenty-nine states 450,000 workmen, on whose earnings two million souls depended. The McKinley law so far as iron and steel manufacturing is concerned he alleged to be the best law the country ever had. It had reduced the duties but had afforded the industry ample protection.

When the threat of a change in the protective tariff was made the business was injured. In consequence, in the last three months ninety-three firms in the iron and steel business, most of them firms of the first class, have gone bankrupt. Many others are barely holding on, and their life depends on the action of the committee.

If there was anything to hope for, such evidence as this would inspire the people with hope that the committee would heed such counsel, but with the democratic decree uttered, a majority of the free-trade members of the committee absenting themselves from the hearings, and the south dominant, there is nothing to base hopeful expectations upon.

EDITORIAL COMMENT

The Valkyrie's time across the Atlantic is several days slower than the Navahoe's, which crossed in seventeen days.

It is now reported that the White house girls will be known as Ruth and Naomi! Good Christian names for the nation's first family.

When the authorities of Portugal declared New York a cholera port they must have thought that port was on the continent, instead of across the Atlantic.

We had two hurricanes while the house was talking, and if the senate does not stop the country may have another! A big blow usually precedes a hurricane.

McKinley stands for a principle and is its most valiant defender. He stands high enough as a famous republican citizen of Ohio to sit right down in the gubernatorial chair.

The "loof" of Annam is a gold coin that weighs as much as 335 United States gold dollars. It is the biggest coin on earth. Not many of them are rolling around in America.

The new American navy is made up of flyers. The new cruiser Columbia made twenty-one and three-tenths knots on her trial trip Wednesday. It will take a fast fleet to outrun them.

England's "four hundred peers" are not sufficient to check the wheel of English progress. The people of Great Britain could call them down and send them to "the tower."

It is a fair question whether the liquor men and tobacco men think that an additional direct tax upon them of $345,000,000 is better than a protective tariff that puts the heaviest tax on the foreign producer?

Depew says the country is suffering from paralysis not bankruptcy. When the ligature of democratic intent is removed from the arteries of business the life blood of the nation will begin to flow all right again.

The pension bureau that sends a poor, old veteran a railroad journey of two hundred miles for examination at his own expense, shows that its policy is obstruction first, last and forever. If Hoke Smith will just do something to show he is the honorable gentleman Gen. Lochren says he is, he will relieve the commissioner of considerable embarrassment.

The Norwich Weekly Courier is the best weekly newspaper in New England at 50c a year.

[illegible]

And No Depth.

Senator Stewart's speech exactly fills the definition of a straight line—length without breadth.—[Stony Brook Beacon.

They Say.

They say the new baby is to be christened Ross. That would do, but by any other name 'twould be as sweet.—[Boston Herald.

What an Anarchist Is.

An anarchist is a person, not being a member of congress, who persists in talking when he ought to work.—[Indianapolis Sentinel.

The How of It.

Silver is cheap and so is talk. But it is only as a commodity that silver is cheap. Talk is cheap for the exactly opposite reason—because it is not a commodity.—[New York Recorder.

Hard on the Children.

Thousands of children are on the streets of New York who should be in school. But there are no school accommodations for them. Tammany rule is rough on the children.—[N. Y. Recorder.

Her New Skipper.

It is a pity that our Cohasset skipper could not have had the handling of the Navahoe from the first. Captain Crocker's Cherbourg race has pretty well exploded the English notion that the Yankee sloop is merely a disguised canal boat.—[Boston Journal.

Safe Ground.

Puck suggests to the parliament of religions that it adopt the golden rule as the embodiment of the best religion in existence, and adjourn. In the midst of all the diversities of belief represented at Chicago, that ought to be pretty safe ground for everybody to stand on.

Only an Offset.

A cut of about ten per cent. seems to be a fair average of Cleveland wages as now quoted in the mills of New England. However, as this is about to be offset by the lower prices at which the operative's wife and family can purchase French silks and English woolens, as promised by the "tariff reformers," there is no call for anybody to complain.—[Boston Journal.

The Administration's Greatest Success.

It is whispered, but we hope untruly, that the administration is disappointed by the sex of the baby. Girl babies are the best of all babies. Any sensible parent would rather have one girl baby than two boy babies. The administration's new girl baby is all right. She is the only unqualified success the administration has scored up to date.—[Boston Herald.

Southern Ways of Arguing.

One of the southern democratic supporters of an income tax ingeniously argues that "most of the people with large incomes are at the north, while we of the south are poor, and the proportion of our people who would pay taxes on incomes is small." To the Bourbon mind this kind of a plea is conclusive. It was not so very long ago that a southern chairman of the ways and means committee was publicly advocating "tariff reform" on the ground that it would reduce the "extravagant wages" of New England operatives.—[Boston Journal.

Is the Tariff a Tax.

The tariff is a tax, is it? Well, then, how does it happen that merchants, who paid $68 a ton for English wire rods ten years ago are now able to get American rods of equal or superior quality for $30; or why barbed wire, which used to cost the American farmer 8 to 10 cents a pound, now sells for 2¼ cents; or why wire nails, which used to cost $10 a keg when they were procured "abroad," can now be obtained for $1.90? When the philosophers of the ways and means committee were invited the other day to reconcile these business facts with their political theories the committee room instantly became as quiet as a Shaker meeting.—[Boston Journal.

Not a Sound Plan.

The whole plan of Mr. Wells is open to criticism because it assumes a rate of consumption which cannot continue when thousands of mills and factories are closed. The decrease of a quarter in internal revenue receipts in August suggests how easily $40,000,000 a year might be taken off the receipts from taxes now in force, and in such a state of domestic industries any increase in the cost of taxed products would be likely to render the shrinkage in consumption still greater. Yet no better way has yet been suggested of raising the additional revenue which the government requires, except the simple one of restoring permanently the industrial and economical conditions that existed in October, 1892.—[N. Y. Tribune.

A man's wife should always be the same especially to her husband, but if she is weak and nervous, and uses Carter's Iron Pills, she cannot be, for they make her "feel like a different person," so they all say, and their husbands say so too!

For Over Fifty Years

MRS. WINSLOW'S SOOTHING SYRUP has been used by millions of mothers for their children while teething. If disturbed at night and broken of your rest by a sick child suffering and crying with pain of Cutting Teeth, send at once and get a bottle of "Mrs. Winslow's Soothing Syrup" for Children Teething. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures Diarrhœa, regulates the Stomach and Bowels, cures Wind Colic, softens the Gums and reduces Inflammation, and gives tone and energy to the whole system. "Mrs. Winslow's Soothing Syrup" for children teething is pleasant to the taste and is the prescription of one of the oldest and best female physicians and nurses in the United States. Price twenty-five cents a bottle. Sold by all druggists throughout the world. Be sure and ask for "MRS. WINSLOW'S SOOTHING SYRUP."

Not one in twenty are free from some little ailment caused by inaction of the liver. Use Carter's Little Liver Pills. The result will be a pleasant surprise. They give positive relief.

I have not used all of one bottle yet. I suffered from catarrh for twelve years, experiencing the nauseating dropping in the throat peculiar to that disease, and nose bleed almost daily. I tried various remedies without benefit until last April, when I saw Ely's Cream Balm advertised in The Boston Budget. I procured a bottle, and since the first days' use have had no more bleeding—the soreness is entirely gone.—D. G. Davidson, with The Boston Budget, formerly with Boston Journal.

Things Worth Remembering.

When you feel a kind of goneness about the stomach it is a sign that your food does not sit well and that you are about to have a fit of indigestion.

When you begin to feel nervous and are unable to sit comfortably; when your clothes suddenly seem to lose their fit and become too tight in places the fit of indigestion is surely upon you.

When this fit of indigestion is repeated from day to day it finally resolves itself into dyspepsia.

Remember that three to ten of BRANDRETH'S PILLS will cure the worst case of indigestion or dyspepsia, or both, and that a regular course of them, say two every night for a week or ten days, will act as a preventive of either complaint.

If there ever was a specific for any one complaint, then Carter's Little Liver Pills are a specific for Sick Headache, and every woman should know this. They are not only a positive cure, but a sure preventive if taken when the approach is felt. Carter's Little Liver Pills act directly on the liver and bile, and in this way remove the cause of disease without first making you sick by a weakening purge. If you try them you will not be disappointed.

A Retired Business Woman

A Page From Her History.

The important experiences of others are interesting. The following is no exception: "I had been troubled with heart disease 25 years, much of that time very seriously. For five years I was treated by one physician continuously. I was in business, but obliged to retire on account of my health. A physician told my friends that I could not live a month. My feet and limbs were badly swollen, and I was indeed in a serious condition when a gentleman directed my attention to Dr. Miles' New Heart Cure, and said that his sister, who had been afflicted with heart disease, had been cured by the remedy, and was again a strong healthy woman. I purchased a bottle of the Heart Cure, and in less than an hour after taking the first dose I could feel a decided improvement in the circulation of my blood. When I had taken three doses I could move my ankles, something I had not done for months, and my limbs had been swollen so long that they seemed almost putrified. Before I had taken one bottle of the New Heart Cure the swelling had all gone down, and I was so much better that I did my own work. On my recommendation six others are taking this valuable remedy."—Mrs Morgan, 589 W. Harrison St., Chicago, Ill.

Dr. Miles' New Heart Cure, a discovery of an eminent specialist in heart disease, is sold by all druggists on a positive guarantee, or sent by the Dr. Miles Medical Co., Elkhart, Ind., on receipt of price, $1 per bottle, six bottles for $5, express prepaid. It is positively free from all opiates or dangerous drugs.

Sold by N. D. SEVIN & SON and LEE & OSGOOD. 6 may19fmwaw

MUSICAL INSTRUMENT.

TALKING

About PIANOS now is my theme. If you want a Piano? Then come and hear one of the purest and finest toned Pianos in the market. Price Low. Also Organs, and a stock of fine Violins, including the Miller Violins, on hand. A fine New Upright Piano to rent. Will be glad to see you at [illegible] Williams Street.

[illegible] GEO. R. MARTIN

PORTEOUS & MITCHELL.

PORTEOUS & MITCHELL.

See the Big Window Full of BLANKETS.

Read the Blanket story. Then come and handle them. When you see the quality and learn the prices you'll agree with us that this is without question the time to buy Blankets.

By several bits of good trading—watching the markets closely—buying a case here and another there, we are enabled to offer about 1,000 pairs of Blankets that are fully from twenty to twenty-five per cent. below ordinary prices. Some are all cotton, some cotton and wool, others pure wool.

Small enough for a single bed—big enough for any double bed—warm enough for zero weather—cheap enough to be within almost anybody's reach.

They go on sale this very day.

Prudent housekeepers will take advantage of this offering. It would be the height of folly not to do so.

We are certain the same grades of Blankets will not be offered again this season for such little prices.

10-4 White Blankets	59c,	regular value	$ .75
10-4 "	79c,	"	1.00
10-4 Grey "	$1.00,	"	1.25
A 5 lb "	1.35,	"	1.75
10-4 White "	1.75,	"	2.25
10-4 Grey "	[illegible]	"	2.50
10-4 White "	[illegible]	"	[illegible]
11-4 "	[illegible]	"	[illegible]
11-4 "	[illegible]	"	[illegible]
11-4 "	[illegible]	"	[illegible]
11-4 "	[illegible]	"	[illegible]
11-4 "	[illegible]	"	[illegible]
11-4 Scarlet "	[illegible]	"	[illegible]
11-4 "	[illegible]	"	[illegible]
11-4 White "	[illegible]	"	[illegible]

Two good generous offerings in Horse Blankets:

Lot 1.—90 Horse Blankets for $3 75 each.
Lot 2.—40 " " 3.60 each.

These are fully twenty-five per cent. below regular prices, and when sold cannot be duplicated.

Intimate friends of the Bed Blankets are the Wrapper Blankets. Here are some that are better than we have ever before sold for the prices.

Special!—1 lot of Wrapper Blankets for $2.25. A little later in the season and this same quality will easily bring $3.00.

Other grades are:

Wrapper Blankets	$2.50,	regular value	$4.00
" "	4.00,	"	4.50
" "	4.50,	"	5.00
" "	5.00,	"	5.50
" "	5.50,	"	6.50
" "	6.50,	"	7.50

They are all desirable colors. They are at least worth looking at. If when you see them you don't think they are good value we won't urge buying.

11.25 a. m., connecting from Providence, Boston, and intermediate stations.

1.36 p. m., connecting with express from Boston, Providence, New York and New Haven, at Norwich with Norwich & Worcester Railroad.

2.30 p. m., Norwich 3.00 p. m., connecting at Willimantic for Hartford, and at Palmer for Springfield, Albany and the west.

5.30 p. m., Norwich 5.55, for Brattleboro connecting with train leaving New York at 1 p. m., and with N. Y. P. & B. R. R. from Providence and way stations, also Steamer Block Island from Mystic Island, Watch Hill and Block Island, also connects at Willimantic for Hartford and Boston, Putnam, Boston and Providence, also for Colchester, Middletown, New Haven and New York, and at Palmer with Boston & Albany R. R. for Springfield, Albany and the west; and at Brattleboro with Night express for St. Albans, Montreal and Quebec, reaching Montreal and principal points in Vermont the same evening.

8.25 p. m., for Norwich. This train connects with 5 p. m. express from New York.

8.15 p. m. (Sundays only) connecting with express train from New York and Boston.

GOING SOUTH.
PASSENGER TRAINS LEAVE NORWICH AS FOLLOWS:

6.15 a. m., connecting for Stonington, Providence, New Haven and New York.

9.15 a. m., for New London, Stonington and Providence and Boston, New Haven and New York, connecting with steamer Block Island for Mystic Island, Watch Hill and Block Island.

10.55 a. m., for New London, New Haven and New York, Providence and Boston.

12 00 p. m., for New London, Stonington, Providence, Boston, Newport, Narragansett Pier, New Haven, New York and intermediate stations.

3 30 p. m., for New London, New Haven and New York.

4 00 p. m., for New London, Stonington and Providence, Boston, Newport, Narragansett Pier, New Haven, New York and intermediate stations.

7.15 p. m., for New London, connecting with Shore Line express reaching New York 11 p. m., with express train for Providence and Boston, and accommodation train for Westerly and intermediate stations.

8.55 p. m., for New London and for New York, by boat from New London.

9 50 p. m., for New London and for New York via boat from New London.

7.00 p. m. (Sundays only) connecting with express train for New York and Boston.

HOOD'S SARSAPARILLA.

Life Was a Burden

Because of the intense pains in my stomach and side, and also on account of palpitation. After eating I would be

In Great Distress

I became so reduced in flesh that my friends thought I could not live long. I grew worse and my removal to a hospital in Syracuse was under advisement, when my father had me give Hood's Sarsaparilla a trial. There was an improvement at once and I have continued taking it until I am now well. I have gained in flesh and

Hood's Sarsaparilla Cures

can eat heartily without distress. I now enjoy life and I owe it all to Hood's Sarsaparilla." Mrs. Mary Brown, Cazenovia, N. Y.

HOOD'S PILLS assist digestion and cure headache. Sold by all druggists. 25c.

FAULKNER'S IDEAS.

Presented In His Amendment to Pending Bill.

SCHEME TO PLACATE SILVER MEN.

Volume of Silver Currency to Be Increased to $[illegible].

WASHINGTON, Sept. 14.—Senator Faulkner today offered in the senate his amendment to the pending financial bill, to which he referred the other day in his speech. The fact that the amendment is looked upon in some quarters as the possible solution of the present difficulty will, it is thought, tend to loosen the tension of the contending forces somewhat and create a feeling of friendliness that is supposed to precede reconciliation and compromise.

Mr. Faulkner's amendment withdraws from circulation all notes, save the legal tender greenbacks, of denominations less than $10, and substitutes in their stead silver coin, so that there can be no expansion of the currency except as provided in the further sections of his amendment. He believes that by the withdrawal of these notes dollars and $5 and $2.50 gold pieces will circulate alongside of each other in

The Ordinary Course of Trade.

He will provide for the coinage of silver up to an aggregate of $[illegible],000,000, and when that amount is reached the coinage of silver will cease absolutely. The present aggregate of silver coin, including subsidiary coin, amounts to $611,000,000, so that the increase under this amendment will be $139,000,000.

It will be provided, first, that no more purchase of silver bullion shall be made until the seigniorage and bullion now in the treasury, amounting to $[illegible],000,000, have been coined. This is to be done at rate of $[illegible],000,000 a month, and at this rate it will take more than three years to coin the seigniorage and bullion now in the treasury, the estimate being made, of course, on the coinage value of the bullion. When that period has elapsed the secretary is directed to buy silver and coin it at the same rate until the limit designated shall have been reached. Mr. Faulkner computes that to accomplish this will take about seven years.

According to the present program it is understood that after this amendment is introduced President Cleveland will be waited upon by a number of senators, who will represent the conservative element, and will ask him to favor this as a compromise.

The indications of a revival of industrial and business activity in the country is being used by both sides in the senate for satisfying themselves of the correctness of their position. The friends of the administration, with Senators Voorhees and Gorman as their spokesmen, take the position that

The Steady Improvement in Business

is due in great measure to the belief at the money centers that the silver purchase clause in the Sherman act, having been repealed by the house, will be concurred in when a vote can be reached in the senate. Therefore this subject no longer threatens the interests of business.

The advocates of silver, on the other hand, take an entirely different view of the causes which have led to the restoration of business and confidence throughout the country. They claim that the repeal of the silver legislation had nothing whatever to do with the improvement, and that the present situation demonstrates that there were other causes which led to the depression of the past two or three months. In the face of the fact that the senate has not concurred in the house proposition, and is not likely to in the near future, according to their plans and calculations at present, they feel encouraged to go ahead and resist this proposed legislation. The silverites claim that the situation now does not materially differ from that which existed when Mr. Cleveland was elected in 1892 and inaugurated March, 1893.

The Republican Senators

who favor the repeal of the silver purchase clause of the Sherman act, and who have all along believed that a vote on the bill would be reached by the last of the present month, are beginning to weaken. Senator Frye was asked today when the silver bill would pass the senate.

"Never," was the emphatic response. "I do not think the bill will ever pass in its present shape. The Democrats taught the country two years ago how the minority can have its way in the senate, and the minority claims to have been sustained by the country. The minority at the present time takes the same ground, and I don't see but that they have just as good reason for their action as the minority had two years ago."

Other Republican senators held the same opinion. The prospect therefore, from the Republican standpoint, for a settlement of the controversy is not very flattering.

TO SEE THE WORLD.

Two Colebrook Girls Leave Home and Are Arrested In Portland.

PORTLAND, Me., Sept. 14.—"We wanted to see the world," was the reason assigned by two girls of 12 and 13 who were arrested here by Deputy Sterling, at the request of friends. They are Grace Chase and Ida A. Holden of Colebrook, N. H.

They got tired of their country home, and concluded to see a little of life. They thought they could get plenty to do in Portland. The Holden girl had $125 with her, and the two children seemed simply astonished when told that they must go back. They will be returned on the noon train.

Woolen Mills to Start Up.

LAWRENCE, Mass., Sept. 14.—The management of Phillips & Kunhardt's woolen mill gave notice today that the entire mill would start up on full time Monday next. A reduction of from 10 to 15 per cent will be made in all wages, to take effect on that date.

Railroad Crossing to Be Widened.

LAWRENCE, Mass., Sept. 14.—The county commissioners have decided to widen Broadway, at the Boston and Maine crossing, from 10 to 80 feet. The crossing has been for years a great annoyance.

Levi Will Be Tried Sept. 21.

DOVER, N. H., Sept. 14.—In the supreme court this morning, the trial of the Levi manslaughter case was set for Thursday, Sept. 21. The greatest interest is manifested in the case throughout this section of the state and in the eastern part of Maine.

Committed No Crime.

BRIDGEPORT, Conn., Sept. 14.—Fred Hoffman and Thomas Minnock, the Fordham college students arrested yesterday on a charge of seducing Katie Cook, have been released, the police ascertaining that the students had committed no crime.

Aroostook County Fair.

FORT FAIRFIELD, Me., Sept. 14.—The Aroostook county fair and cattle show opened here today. The weather is fine and there is a large attendance. The exhibit is very good.

PROBABLY LOST.

Tank Steamer Astral Not Heard From For Fifty-two Days.

NEW YORK, Sept. 14.—The tank steamship Astral, which usually crosses the ocean in about 16 days, has not been heard from since she left Shields in ballast for this port, on July 24, 52 days ago. She is probably lost.

She was commanded by Captain Nicholas, and carried a crew of 28 men, most whom were shipped at British ports. She was owned by W. Tapscott & Co., formerly of the Black Ball Packet line, and was built at Newcastle in 1889. She measured 2340 tons, and was driven by triple expansion engines.

She usually took a high northerly route, and may have met disaster by collision with an iceberg. There were no great storms in the latter part of July and the early part of August that would have been likely to overwhelm the vessel.

FUNDS SECURED.

Work on Panama Canal Will Be Resumed In November.

NEW YORK, Sept. 14.—The Herald's Panama correspondent cables: It is reported by El Espanol that M. Monge intends to resume work on the canal in November. The receivers have, on the security of the canal company's shares in the railway, procured sufficient funds from the Bank of France to resume operations on the Culebra section.

The same paper intimates that M. Monchicourt expects thus to restore public confidence in Colombia, and produce a favorable effect upon the Paris bourse.

He hopes thus to facilitate the organization of a new syndicate, which will take over the franchise and concessions, and recommence work on the other sections also before the last time extension lapses.

St. Andrew's Brotherhood.

DETROIT, Sept. 14.—The opening session of the St. Andrews Brotherhood took place this morning in St. John's parish building with over 400 delegates in attendance, James L. Houghteling of Chicago, the founder of the brotherhood, presiding.

Buildings Burned at Fitchburg.

FITCHBURG, Mass., Sept. 14.—The house, barn and outbuildings owned by Mrs. Maria Ormsby on the Ashby road were burned early this morning. Loss $3000, insured $[illegible].

Cholera Near Manchester.

LONDON, Sept. 14.—There was a death from cholera today at Ashton-under-Lyne, a manufacturing town 6 1-2 miles from Manchester.

Hail Storms In the West.

ST. PAUL, Sept. 14.—A heavy hail storm occurred yesterday in several parts of this state. Hail stones an inch in diameter fell for five minutes, doing great damage. No loss of life is reported. Heavy rains fell throughout Wisconsin yesterday, quenching smouldering fires that had threatened valuable forests and cranberry marshes with destruction.

Fair Auspiciously Opened.

CLINTON, Mass., Sept. 14.—On the finely located grounds of the Clinton-Lancaster driving park, the two days' annual fair of the Worcester East Agricultural society opened today with encouraging prospects. This society offers $1500 in premiums the present year and $200 in prizes for bicycle races.

THE LISTENER.

Baron Hirsch gave $1,500 for a room to view the royal wedding procession in London.

General Fitz-John Porter has been appointed cashier of the New York postoffice, at a salary of $8,000 a year.

Lewis Miller, president of the International Association of Sunday School Workers, is the father-in-law of Thomas A. Edison.

W. T. Stead, editor of The Pall Mall Gazette, unless he has changed his ways within a very short time, has never seen a play performed.

Dr. Laking, knighted the other day by the queen, is the official "surgeon apothecary" to her majesty and the regular attendant on the Wales family.

Eleazer C. Shaw of Portland is said to be the oldest drummer in Maine. He is 80 and still beats everybody down to the store, arriving daily at a quarter to 7 a. m.

It was Paul de Cassagnac who wrote to Victor Noir: "I am the offended party. I have the choice of weapons. I choose the French grammar. You are dead."

James S. Escott, who has recently been made national bank examiner for Kentucky and Tennessee, is just 30 and is the youngest man ever appointed to such an office.

R. H. Moore of Wellsboro, Pa., who has passed his eighty-first year, climbed up the 2[illegible] winding steps in the lighthouse in Atlantic City and kept on without rest from start to finish.

Prince Cantacuzene, the new Russian minister to Washington, is an inveterate traveler and chess player. He carries a pocket board with him and is always ready and anxious to make a move.

President Angell of the Boston Humane society says that Professor Louis Agassiz, the greatest scientist we ever had on the American continent, was a firm believer in the immortality of dumb animals.

—The elevation of Lord Queensberry's eldest son, Lord Drumlanrig, to the English peerage as Lord Kilhead results in the curious anomaly that the son is higher in rank than the father. This creation is without precedent.

Samuel E. Stone of Brewer, Me., who is by trade not exactly a rail splitter, he being a carpenter, wears his whiskers in much the same style as did President Lincoln and has the same, or nearly the same, characteristics of face and figure.

A. J. Moxam, the millionaire, who is reported as having contributed $25,000 to the fund of the English ground rent taxation campaign, is a partner of Congressman Tom L. Johnson in works at Johnstown, Pa., where a son of Henry George is employed.

Santiago Imabell, who was born in the Philippine islands 90 years ago, was married lately in Coatzacoalcos, Mexico, to a rich and good looking girl of 18, belonging to one of the first families of Minatitlan. The frisky old lover was baptized a half hour before the wedding.

Walter Winans, who is known in England as the American millionaire, though he was born in St. Petersburg while his father was constructing a railway for the czar, is an enthusiast on the subject of pistol practice. He has been the champion revolver shot of England for six years.

THE CAMERIST.

The crown princess of Sweden is trying to establish women photographers in Stockholm.

Still another hand camera has been invented by a Brooklyn amateur, said to possess advantages over any other.

Photography has now reached a point where an object traveling at the rate of 10,000 miles an hour can be photographed by means of the electric flash.

A snap shot photograph in The Sketch of the sinking Victoria, taken from the deck of the Collingwood, shows only the vessel's stern above water, with the screws revolving.

FRAUD CONFESSED.

Daring Conspiracy to Defraud Insurance Companies.

TWO OF THE PLOTTERS ARRESTED.

Another Resisted the Officers—Full Confession of the Plot.

NEW YORK, Sept. 14.—W. B. Gregg of St. Paul and John T. Clark, formerly a lawyer in Buffalo, are under arrest in Philadelphia, and F. E. Krayenbuhl, brother-in-law to Gregg, is wanted by the police. It is another case of conspiring to defraud insurance companies. The three men schemed to insure Gregg in a number of companies and then pretend to drown him in Lake Superior by upsetting a boat in which he and Clark were out rowing.

The first insurance company which the these men selected was the United States Mutual Accident of New York. They had Mr. Gregg insured in that company for $5000. Then they favored the Fidelity Mutual Life of Philadelphia for $5000; the Northwestern Life of Milwaukee for $5000, and the Mutual Life of New York for $5000.

Carrying Out the Scheme.

After they had him insured for this amount on July 30 Clark and Gregg got into a rowboat at Duluth and rowed sixteen miles across the lake to the Wisconsin shore. Clark returned home and told a marvellous story of shipwreck and privation and the loss of his dear friend Gregg. A wind sprang up, he said, and Gregg, in changing his seat, upset the boat and was drowned.

Clark said that he himself had clung to the upturned boat all night, had drifted to the north shore of the lake and had managed to get ashore and crawl home. The story was printed in the papers and one reporter, of a nautical mind, learning that there hadn't been any wind on that day, and doubting the story, investigated it and printed a report in which his doubts as to the truth of Clark's narrative stood out boldly.

Collecting the Spoils.

A little later Clark started out to collect the insurance money, and the companies in which the dead man was insured put the detectives connected with their resurrection bureaus, as they call them, to work on the case.

The results are the arrests of Clark and Gregg in Philadelphia. A dispatch from Duluth to the United States Mutual Accident company, of 320 Broadway, says that when the policemen went to Krayenbuhl's home to arrest him he resisted them and fired a pistol at them, wounding a reporter who was present. Krayenbuhl took refuge in his house, whence he could not be taken as there was no warrant.

Gregg and Clark, according to the United States Mutual Accident company, have made confessions, telling the whole story. Gregg in his confession tells the above facts. He says he is 36 years old and lived in St. Paul. He got out of work, and his brother-in-law, Krayenbuhl, Clark and himself devised the scheme. Clark put up the money to work it. One $5000 policy was in favor of Gregg's wife. The rest of the insurance money was to be divided equally between the three plotters. His wife was not a party to the scheme. After Clark landed Gregg, Gregg made his way to West Superior and thence to this city. He goes on to say:

The Fraud Confessed.

"I went to the Niagara hotel, at Forty-second street and Third avenue, where I registered as W. Bradley, and let the others know I had arrived there. I remained there but a day and then went to a boarding house at 226 East Forty-sixth street. The mail came to me in care of a saloon keeper with whom I struck up an acquaintance. They sent me $30 after that."

Gregg then went on to tell of his arrest and of how sorry he was. Clark made practically the same confession. The men will be taken to Duluth and there put on trial.

FIRE FIGHTERS.

Portsmouth's Department Has Annual Parade and Jubilee.

PORTSMOUTH, N. H., Sept. 14.—The annual parade of the Portsmouth fire department occurred this forenoon and was one of the best in the history of the department. Many firemen were present from out of town, Haverhill, Newburyport, Manchester, Dover and other places having men in line.

The department made a splendid showing, and the engines were all beautifully decorated. At noon a big clambake was enjoyed, and this afternoon the Kearsarge flute and drum corps gave a concert on the square, and there were hose laying contests by the companies. The visiting firemen will be the guests of the local men until tomorrow.

THE DISPATCHER.

Trains are making the run between Boston and New York, 232 miles, in five hours.

The first railroad was two miles long, of wooden rails, over which a mule pulled a wagon twice a day.

A locomotive running at the rate of nearly 70 miles an hour gives out 20 puffs of steam every second—that is, 10 for each of its two cylinders.

The first real railway tunnel in Finland will be the one on the new Helsingfors-Abo coast line, which will pass through a mountain between Ekenes and Fiskars.

Some one has figured that there are so many railway lines, steam, elevated, cable and horse cars in New York city that a person may ride for six hours at a total cost of 50 cents.

Under the new Missouri law putting express companies in charge of the railroad commissioners a reduction of 20 per cent in express rates for merchandise in that state has been agreed upon.

The Jersey Central has succeeded in acquiring the much disputed property at New Brunswick known as Florida grove for its new line, which is to run between Bound Brook and Perth Amboy.

THE BOTANIST.

Mistletoe grows more luxuriantly in the swamps of Arkansas perhaps than anywhere else in the country.

In Middle Smithfield, Pa., there is a chestnut tree the trunk of which measures 19 feet in circumference, 1 foot high.

How water, commonly called sap, necessary to the life of a tree, passes from the roots to the topmost leaf and evaporates is a problem not yet solved by botanists.

Among the most beautiful flowers brought from Japan is the fragrant auratum lily. It is easy of culture and free from enemies. Spring is the time for planting, and the large bulbs are the best.

In various times and places the pansy has been styled by the following epithets: Herb trinity (from its three colors), love-and-idle, kiss-me-ere-I-rise, jump-up-and-kiss-me and three-faces-under-a-hood.

One of the most industrious ministers in Georgia is W. M. Jones, colored, of Prattsburg. He works a crop during the week and walks 20 miles every Sunday in filling his appointments.

BOSTON PRODUCE MARKET.

MUTTONS AND LAMBS—Muttons and lambs are also in dull request, with the market easier. Choice to fancy lambs, 10@10½c; common to good, [illegible]; poor and ordinary, [illegible]; Brightons, 11@11½c; yearlings, [illegible]; muttons, [illegible]; poor to good, [illegible]; choice heavy Brightons, [illegible]; choice eastern veals, 10@10½c; common to good, [illegible]; Brightons and fancy, 10@12c.

POTATOES—Potatoes are in oversupply and prices are easy. Sweet potatoes are also easy: Eastern, barrels, [illegible]; New Hampshire rose and hebrons, [illegible]; Houlton rose and hebrons, [illegible]; Aroostook rose and hebrons, [illegible]; New York stars and burbanks, [illegible]; Virginia cloth heads, extras, [illegible]; Jersey bulks [illegible] double heads, [illegible].

BUTTER—The butter market is very firm, with prices higher, following the western markets: Western, [illegible]; firsts, [illegible]; imitation creamery, [illegible]; factory, 18@19c; northern creamery, extra, [illegible]; northern dairy, [illegible]; eastern creamery, extra, [illegible]. These are prices for round lots. Jobbing lots and family lots cost more.

FLOUR—The flour market is very firm. There is a better demand for both flour and wheat for export. The flour quotations are firm at: Fine and supers, [illegible]; extra and seconds, [illegible]; Minnesota bakers', clear and straight, [illegible]; winter, clear and straight, [illegible]; winter pat, [illegible]; spring pat, [illegible].

CORN—Corn is very steady to arrive, with No. 2 yellow quoted at [illegible], with No. 2 yellow at [illegible], and No. 2 corn at [illegible]. The spot market is better, with considerable sales of No. 2 and steamer yellow at [illegible]. Quotations are at: Steamer yellow, [illegible]; No. 2 yellow, [illegible]; steamer mixed, [illegible].

OATS—Oats are firm. The market to arrive is quoted at [illegible] for clipped, with No. 2 white, also to arrive, at [illegible]. The spot market is fairly firm at: Clipped, [illegible]; fancy, [illegible]; No. 2 white, [illegible]; No. 3 white, nominal, at [illegible]; mixed, [illegible].

APPLES—Apples are very quiet, and yet there is a scarcity of first-class hand-picked varieties, and such would bring better prices: Pippins and Porters, $1 50@2 50 per bbl; Williams, [illegible]; gravenstein, [illegible]; common, [illegible].

CHEESE—Cheese is firm, with quotations higher: Northern full creams, [illegible]; fair to good, [illegible]; western choice, [illegible]; fair to good, [illegible]; sage, 10@10½c. Liverpool is cabled at [illegible] for white and [illegible] for colored.

HAY—Hay is quiet and steady. Straw is dull, with the market easy. Millfeed is firmer, from the fact of the coming advance in freights. Sack spring bran, to arrive, is quoted at $[illegible], with sack winter at $17.[illegible]@17.75.

MEAL—Cornmeal holds firm, with prices unchanged. Oatmeal is quiet. Quotations are at [illegible] for bag meal and at $[illegible] on barrel meal. Oatmeal is quoted at $4 [illegible]@4 75.

EGGS—Eggs are firm and are selling at higher prices: Western, 18½c; Michigan, 19½@[illegible]; provincial, [illegible]; eastern and northern, [illegible].

PORK—The pork market is quiet and unchanged. Lard in the home market is without change in prices.

BEEF—Beef continues dull. Quotations are easy at unchanged figures.

THE STOCK MARKET.

Dealings In Leading Securities In Boston and New York.

BOSTON, Sept. 14.—In the outside market call money is quoted at 6 to 10 per cent, and time money is nominally 6 per cent.

The stock market this morning opened dull again, though the undertone was still strong. Conditions are without material change. The demand for stocks in the loan crowd is large, showing that the short interest is yet an important factor. London came weaker for Louisville and Nashville and St. Paul, but for the rest of the list it was from ¼ to ½ higher. The delay of the senate, however, is beginning to tell upon the market and transactions are at a minimum.

Sugar, thanks to the bull pool back of it, monopolized the features of the market, and with it out of the way little would be left. The common, opening at [illegible], ¼ up, advanced to [illegible] and then slid to [illegible], while the preferred was ½ stronger at 87½. Both Union Pacific and General Electric were strongly supported during the morning. The former opened ½ up to [illegible], weakened to [illegible], but quickly recovered. General Electric started off 1 down at 46, but advanced to 48¼, losing ½ subsequently. The significance of the death of Mr. Ames to these two properties lies in the fact that they hereafter will have to go without his assistance. This assistance has taken the form of advice, money and influence with others of wealth. He certainly has been of inestimable value to those corporations on two or three critical occasions, at least. Both companies have yet wealthy supporters, but none of the strength of Mr. Ames. For that reason his death must increase the difficulties with which the two corporations have to contend, especially severe in the present depressed times.

Atchison was ½ stronger at 21. Chicago, Burlington and Quincy ¼ stronger at 84¾, while New York and New England showed a tendency to weaken below 30¾, the final sale of yesterday. The bond market was steady, though rather neglected.

STOCKS—CLOSING.

NORWICH AND VICINITY.

CITY NEWS.

Royal Arcanum meets tonight at 7.45.

The list of registering ladies has been increased to thirty.

The county commissioners held a short session in this city yesterday. They meet again Monday.

Only two young ladies have been admitted to the kindergarten section of the Free Academy Normal department.

The Falls mill start 300 looms, one-half their mill, Monday. It is said the Poquetanuck factory will start on that day.

The twenty-seventh annual reunion of the Sixteenth regiment C. V., will be held at Compounce pond, Bristol, Saturday, Sept. 16.

Union holiness meeting opposite post office today at 3 p. m. and 7 p. m., led by Mrs. Whittemore, superintendent Door of Hope mission, New York. Other speakers expected. All are welcome.

N. B. Sevin & Son exhibit in their show window the kit of burglars' tools which cracksmen at the Morton house, Niantic, left behind in their hurried flight two weeks ago. They are an interesting collection.

Captain Frank Mitchell of the Academy foot ball eleven will begin to train the candidates for this year's team in a few days. Geirasch, Cott and Gallup of last year's eleven are still eligible as members.

The Y. M. C. A. building fund has reached $40,000.

The waiters and cooks of the Wauregan house played a hotly contested and exciting game of ball Thursday afternoon, the former losing by the score of 15 to 11 John Finnigan and Frank Turty for the concocters of food and Charles Brib and Joseph Walden for the tray wielders.

F. L. Leavitt and family of Jewett City are spending two weeks with E. W. Lathrop at Gardner's Lake. Mr. Leavitt is rapidly depopulating the water of its famous bass, having hooked forty seven, one string of seven weighing eighteen pounds

Just before 6 o'clock last night the last pair of rails was laid upon the Laurel Hill section of the electric road, opposite the home of Mr. B. H. Payne, on the avenue. Considerable blasting for pole setting will be required in the same quarter. The poles are armed as far as Jennings' block, below Walnut street.

Miss Millie Mountain of New York entertained a party of her young friends Wednesday at the home of her grandparents on Central avenue. There was dancing, games and music, Miss A. Blackledge and Lu Potter giving selections on the piano. After partaking of refreshments the visitors departed, having spent a very enjoyable evening. Miss Mountain leaves for home next week after a two months' visit here.

One of the Best.

A recent Norwich visitor to the World's fair says that the map done in putty by the students of the senior room in the Broadway school is one of the best exhibits in the Connecticut building.

To Drum for Prizes.

Arrangements have been made for the annual reunion of the State Drum and Fife association, which will take place in New Haven, September 27. Twenty-five corps will be present, and large prizes will be given the winning corps.

The New Block Island Road.

At the winter meeting of the Rhode Island legislature, the project of the new Block Island road will be given a hearing. The line as laid out begins at Sand's Point Pond reservoir and extends due southerly to the South light. There are 61 petitioners against the road, chiefly the property owners, who do not want their land converted into building lots.

J. C. Benjamin Suffers from Thievery.

George H. Porter, 25 years old, colored employe of J. C. Benjamin, the restaurateur, is wanted for decamping with between $25 to $40 of Wednesday's proceeds. He has not been seen since that night.

Thursday morning it was discovered that some one had effected an entrance into the place during the night and made heavy inroads on the meat and vegetables inside. Porter has a thin, freckled face, and carries his head on one side.

Private Party Off for the Fair.

A private palace car rolled into town last night, and at 6 o'clock this morning will start with the following occupants to the World's fair: Mr. and Mrs. A. H. Brewer and three daughters, Mrs. E. Chappell, Miss Chappell, Mr. C. L. Hubbard, wife and daughter, Miss Louise Brewer, Mr and Mrs. Frank C Brewer and son, Mr. B. T. Greene, Miss Augusta Greene, Miss Mary G. Ely, Miss Augusta C. Ely, Mr. Charles H. Kenyon, Miss Ida A. Miller, Mrs. Robert DuBois, Jr., and Mr. C. Amos Johnson. They join a Raymond World's fair excursion at Miller's Falls.

A Hotel Beat Probably Insane.

The latest heard from Edward G Fairbanks, who operated in Putnam two weeks ago, indicates that he may be insane. Fairbanks claimed to be a traveling salesman for the Fairbanks Scale company. Two weeks ago he swindled the proprietors of the Chickering house of Putnam out of two weeks' board. He left his wife behind him. The proprietor of the hotel cared for her until she obtained help from friends. On Wednesday a letter was received by the hotel proprietors from Fairbanks. It is a rambling letter and says that his present address is Fortress Monroe, West Virginia, and that his next address will be "hell."

Mr. Peckham Vindicated.

It is now the belief that George A. Tripp of Plainfield forged Peckham's name to all three of the notes that have turned up in this celebrated forgery case—one for $8,000, one for $2,000, and another for $1,500. Mr. Peckham's character seems to have a complete vindication by Tripp's stupid and wicked performance. There is considerable discussion about which one of the three parties interested in $8,000 case is likely to lose the sum named—the Windham County bank, that holds the note; Mr. Fitch Cary, the endorser, or Mr. Peckham.

Wigwam of Sassacus Tribe, No. 15, I. O. R. M.

At the regular council of this tribe held on the sleep of the 14th sun, corn moon, G. S. D. 402, the following preamble and resolutions were unanimously adopted:

Whereas, the Great Spirit has deemed it wise to remove from our wigwam our brother chief, Edward L. Chappell; and

Whereas, we deeply feel our loss in the removal of one who has always been a beloved and working brother, whose councils have often been a light whilst our council brand was burning, whose influence has always been for the best welfare of his brother chiefs, and whose character has been irreproachable, to the happy hunting grounds; and

Whereas, We deem it not only a loss to ourselves and to Sassacus Tribe, but to the Pale Faces of our Reservation that our brother was removed in the midst of good works.

Resolved, That we tender our sympathy to the bereaved family and to all with whom he was closely connected

Resolved, That our charter be draped for a period of 30 suns, and further, that these resolutions be spread upon the records of our Tribe, that a copy of this Long Talk be presented to the family and printed in the papers published in our Reservation.

E. C. UNDERWOOD,
GEO. M. BARBER,
D. W. CONNELL,
Com. on Resolutions.

Comic Opera.

It is promised that the comic opera "Wang," to be given at the Broadway on Monday night, will be presented with all the stage settings prepared for it by the scenic artist, Ernest M. Gros. It is said:

In the first scene a fleet of French gunboats are at anchor. The faithful character of the work done today by conscientious scenic artists is shown by the fact that before placing the ships on canvas, Mr. Gros sent to Paris for photographs of the French cruiser "Laperouse" and the vessels of the Indo China squadron which were to form the blockading squadron against Siam

The Closing Wharf Y. M. C. A. Meeting.

Next Sunday afternoon at 4 o'clock the last open air meeting for men will be held on the steamboat wharf for the season under the auspices of the Young Men's Christian association.

The Rev. Charles A. Northrup, pastor of the First Congregational church of Norwich Town, will deliver an address Men ought not to miss this opportunity of hearing a stirring appeal for truth and righteousness in practical every day life. The usual song service will precede the address. The covering of the freight shed proves to be ample provision against the heat of the sun or rain storm and the spot is one of the pleasantest in the city to spend an hour on Sunday afternoon. Every man in Norwich is invited to this closing meeting.

Personals.

Miss Ellen U. Potter of New London, who will be remembered as having won the scholarship of the Art Students' League of New York, while a member of the Academy Art school, leaves for the fair this week with her father, mother and sister.

Miss Minnie Chamberlain, the popular singer, who has been spending several weeks at the summer home of Mrs. Carpenter, of Providence, in company with that lady and the latter's daughter and son left Thursday for a visit to Chicago and Minneapolis.

Mr. and Mrs. Austin F. Perkins leave for Chicago on Monday.

Mrs. Emma Cantle and son Harry have returned to their home on Union square, after a lengthy visit to Chicago.

Mr. Chauncey B. Woodworth of the Norwich Savings society, with Mrs. Woodworth will join the visitors to the White city early next week.

Treasurer W. A. Tucker of Boston of the Norwich Street company was in town yesterday.

Mr. M. F. Moran, formerly of Paterson, N. J., has entered the employ of his brother, John A. Moran, the hatter in this city. He has been in the hat business in Paterson for a number of years in the branch store owned by his brother in that city. He will make Norwich his permanent residence.

Mr. Edwin A. Roath, who was a faithful employe of the Norwich & Worcester railroad for fifty years, and his son, Frank A Roath of the Norwich line of boats, leave for the World's fair this morning.

Mr. Stephen B. Roath, the Chicago capitalist, who has been spending the summer at the home of H. L. Parker on Franklin street, will start for his home in Chicago Oct 1. He will spend the whole month of October at the fair.

Mr. William F. Converse and sister, Miss Matilda Converse, started for Chicago and the fair yesterday.

Mr. John E. Warner and daughter, Miss Lucy Warner, are at the Chicago exposition.

Miss Helene M. Peckham of Wilkesbarre, Penn., is the guest of Miss Iola F Rawson of Union street.

Progress on the Connecticut State Map.

Mr. John W. Bacon of Danbury, who is a prominent civil engineer and a member of the State survey commission, was in Hartford yesterday. He said that Professor Brewer of New Haven, returned from Washington last week, where he had been to ascertain the progress that is being made on the Connecticut State map. One thousand sets will be ordered, and (very sensibly) the plates will be preserved, so that any errors that may be made in the first edition may be eliminated from the subsequent ones. There will be an atlas and a wall map, the latter being reduced in size from the regular plates. The last legislature appropriated $5,000 for engraving and printing of the maps. Commissioner Bacon is in hopes that the maps will be ready before December, and will be on sale at the capitol, in charge of State Librarian Hoadly.

The Norwich Weekly Courier is the best weekly newspaper in New England at 50c a year.

SUPERIOR COURT.

Quatropanni's Case Still on Trial—Two Sentences—The Next Case.

The superior court resumed its sessions in New London at 10 o'clock yesterday morning, and the trial of the case of the state against the Italian Quatropanni, was continued. At the adjournment the testimony was all in and three arguments had been made, State Attorney Lucas being near the close of his plea.

Michael Matthews, convicted of assaulting children, on Wednesday, was sentenced to one year in jail.

Edward Gleason pleaded guilty to stealing a watch and was sentenced to three months in jail.

The next case to be tried will be that against Balcom and Brown. They are the young men accused of stealing harnesses at Norwich Town, and whom the city missionary was instrumental in bringing to justice. Brown, it will be remembered, was chased over a good part of the West Side, and finally run down by Mr. Swan. Balcom, captured later the same day on Franklin square, had a set of burglars' tools on his person.

STREET RAILWAY NEWS.

The Five Cent Fare in Vogue Today—Another Extension Opened.

The five cent fare rate on the electric street railway will be inaugurated today, a generous reduction which every patron of the road appreciates and which cannot help but redound to the benefit of the company. There are now but two fares, the five and ten cent. The limits of the smaller sum are at Wightman's switch on the Bean Hill route, and the Miantonomoh house on the Taftville road.

Superintendent Shaw is steadily at work on the extensions. The track from Connell to Maple street, the city line, was opened permanently last night. Residents along the lines of the new routes are greatly pleased at the thorough and painstaking methods of operation the superintendent and his men employ.

Laborers Buried by a Cave-in.

While workmen were excavating for the connection of the new savings bank building with the Franklin street sewer at 4 o'clock yesterday afternoon, the earth caved in on two of the laborers, burying them to their waists. They were dug out by fellow workmen, and both escaped without serious injury, although T. O'Hearn had his forehead slightly cut.

PUTNAM.

Superior Court—Mike McCabe Fined for Wife Beating.

The civil session of the superior court opened Wednesday morning with Judge Ralph Wheeler of New London on the bench. The case that occupied the court's attention all day, was that of Mrs. Mallie Franklyn of Rockland, R. I., against David E. Hall of Plainfield, Conn. This is an action brought by the plaintiff to recover money due for services rendered to the defendant. The case was an interesting one and attracted considerable attention. It has been pending in the courts since June 30, 1891. Mrs. Franklyn testified that she did housework for Mr. Hall for about three years, and that he never paid her a dollar. Mr. Hall testified that he paid her all her services were worth. The testimony was concluded, and the arguments made. Attorney Potter of Danielsonville for the plaintiff. District Attorney Shumway for the defendant. After being in session nearly two hours, the jury rendered a verdict that the defendant pay the plaintiff $37 and her costs. Court was then adjourned until Thursday morning.

Deputy Sheriff Parks and Officer Carver arrested Mike McCabe Tuesday night for beating his wife. Before Judge Chesebro, Wednesday morning, he pleaded guilty and was fined $3 and cost. Settled.

The five tramps who were arrested upon suspicion of being the burglars who entered the post office were discharged, the state not having evidence enough to hold them.

E. G. Wright attended the bicycle races at Springfield Wednesday.

DIED.

LATHROP—At Hawkinsville, Georgia, Sept. 6, Col. Charles T. Lathrop, aged 75 years.

TRIAL OF THE CRUISER CASTINE.

Wonderful Triumph for the Builders—Her Actual Speed.

OFFICERS GRATIFIED.

She Has Proved to Be The Fastest in Her Class.

NEW LONDON, Conn., Sept. 15.—The trial of the Castine today was a wonderful triumph for the builders. The actual time of the Machias, the sister boat to the Castine, in her recent speed trial, was 15 17 knots, and corrected speed 15 46. The actual speed of the Castine is 15 43 knots, and the corrected speed will be made known tomorrow, when the naval board makes its computations, but it is not expected to be less than an average of 15¾ knots, which will represent a bonus to the builders of $55,000. It may reach 16 or 16¼ knots.

The trial was without an accident of any kind, and Commodore Walker and General Hyde expressed themselves as highly gratified at its success. She has proved to be the fastest vessel in her class.

The start at New London was made at 10 40 this morning, proceeding direct to the course, over which the speed trial was made. The government tugs Irwine, Nina, Fortune, Cruiser Vesuvius and the dispatch boat Dolphin left the harbor early this morning to take positions on the course as stake boats.

The start from New London was made in a misting rain, wind south southeast, and the prospects rather poor for good weather. At 11 30 there was no doubt that the trial would be made under seasonable conditions. At 12 o'clock the wind shifted to west-southwest.

The board of naval inspectors had reported on the Castine and consisted of Commodore J. G. Walker, Captain T. O. Mathews, Congressmen Whittaker and Entwistle and Samuel Belden, Lieutenant Commander John M. Hemphill, Lieutenants H. G. Davenport and L. L. Reamey, the latter the secretary of the board, Chief Engineer Herschel and others.

Captain O. C. Oliver, Mate R. C. Reed, Pilot Frank Dingley and Chief Engineer Samuel Hinckley were in charge of the Castine.

Trial observations were made an hour before the trial and were recorded at fifteen minute intervals, till the Castine had made the [illegible] for thirty minutes later.

The Castine reached the first stake boat on the trip out from New London about 1 o'clock and steamed around in the neighborhood, fifteen minutes before the start was made. It was the general opinion of board that the Castine did not proceed a sufficient distance from the starting point to give time to get the line marked by the Dolphin.

At 1:31:30 3-10 she was only carrying 120 pounds of steam and making 195 revolutions. Between the first and second stake boats the steam pressure increased to 160 pounds and her revolutions to 205, gradually increasing to 218. She passed the second stake boat at 1:50, beating the time made by the Machias over the same distance, over 30 seconds. She passed the third stake boat at 2:?? ??, making 220 revolutions, with a steam pressure of 165 pounds, beating the Machias time for that distance by 1 minute 30 seconds, so far bearing out the assertion of the builders that she was the faster boat. The fourth stake boat was passed at 2,45:25 1 10, or 50 seconds less than the Machias for the same distance. The last stake boat at the first half was passed at 3:18:37 5 10. Time for first half, 1:33:16 10, with a head tide, or fourteen seconds faster than the Machias. Thirteen minutes and eight seconds were occupied in turning, and the Vesuvius was passed at 3:36:45 1-10; the second stake boat was passed at 3:51:10; the third at 4:20:27 1-10; the fourth at 4:47:00 1-10; the fifth and last at 5:12:30 6 10, making 224 revolutions and a speed of 15 43 knots for the whole distance. As she passed the last stake boat hats were waved in the air and the cheers of the crew resounded throughout the ship.

At the dinner that followed toasts were drunk and there were congratulations on all sides over her splendid achievement. At the conclusion of the trial the vessels which served to mark the course returned to New London and as soon as possible handed in their observations to the senior officer of the board at the Crocker house.

THE SHARON ESTATE CO.

An Extensive Business Undertaking—Names of Projectors.

NEW YORK, Sept. 15.—Articles of incorporation of the Sharon Estate company are on file in the office of the Hudson county clerk in Jersey city. The company will begin business at once with a capital of $5,000,000, of which $4,000,000 is paid in.

The objects of the company as stated, are extensive, and many channels of trade are embraced in the undertaking. Business is to be constructed in all states and territories in the United States and in foreign countries.

The company proposes buying, constructing and maintaining ferries, wharves, piers, storage warehouses, improving property, building, buying and operating steam and sailing vessels for use in foreign trade of all kinds.

The projectors of this scheme are: Charles W. Pierson of New York, Francis G. Newlands of Reno, Nev., William C. Gulliver, Henry B Laidlaw, Darius O. Mills, Frederick H. Sharon, Harvey A. Herrold of New York, and J. Milton Fury of Bayonne.

A Bearer of Letters from the Pope.

NEW YORK, Sept. 15.—The Rev. Frederick Rooker, vice rector of the American college in Rome, arrived today on the steamship Britannic. Father Rooker is the bearer of letters from the pope to Mgr. Satolli and Cardinal Gibbons. These letters are of an important character and will be personally delivered by Father Rooker. Father Rooker has in his custody for presentation to the cardinal a fine portrait of the pope, carved in stone and set in a frame of gold, studded with diamonds and other precious stones. The work was done by artificers of the vatican and is said to be a masterpiece of its kind.

Offerings of Silver.

WASHINGTON, Sept. 15.—There were offered for sale to the treasury department today 190,000 ounces of silver at prices ranging from 74¼ cents to 75 cents. The whole amount was declined at the prices asked and 74¼ cents an ounce tendered.

British Warship Commander Dead.

ST. JOHNS, N. F., Sept. 15.—James Brockford, commander of the British warship Buzzard, of the Newfoundland fishery protective squadron, died at sea yesterday, of peritonitis. The Buzzard arrived here today with his body. The remains will be sent to England.

THE VALKYRIE.

A Cunarder's Captain Thinks He Saw Dunraven's Yacht.

NEW YORK, Sept. 15.—Capt. McKay of the Cunard steamship Lucania, now in this port, says that on Thursday, the 7th, when 750 miles out, he sighted a vessel that might have been the Valkyrie. It was so far off that he could not make out what vessel it was, but knows it was a single-sticker, and was heading for the west. The Lucania at this time was being pushed along to try and whittle off a few minutes from the record for first voyages, and so could not go out of her course to find out if the cutter-rigged vessel was the looked-for Valkyrie. Why, in view of the interest manifested in the arrival of the Valkyrie, Capt. McKay did not make this news known before it is hard to say. He told the story of having seen the boat to a member of the New York Yacht club.

If the boat sighted by the Lucania was the Valkyrie she ought to be very near this port now, and it is rather surprising that she has not been in before this. During the past week she could not have experienced many adverse winds. She is coming along slowly, wherever she is, Lord Dunraven having given orders not to push the boat and so unnecessarily strain her.

The Valkyrie Reported Sighted.

PROVIDENCE, Sept. 15.—A special to The Journal from New York states that the English racer Valkyrie was spoken by a pilot boat near Fire Island this evening. She reported all well on board. The challenger of All America's cup will probably arrive at quarantine some time tomorrow morning.

The Valkyrie Not Yet Sighted.

NEW YORK, Sept. 15.—The rumor at Tompkinsville, that a New York pilot boat had spoken the Valkyrie 8 miles east of Fire Island lacks confirmation. The Valkyrie could outsail the pilot boat and had she been sighted at the time stated would now be at anchor in the bay.

The steamer Werkendam, which arrived at quarantine at 5 15 p. m., reports having seen nothing of the Valkyrie.

El Cid Makes a New Record.

NEW YORK, Sept. 15.—It was a remarkable record which the coastwise racer El Cid finished here Wednesday night. As reported, her time from New Orleans to New York, reckoning from the bar at New Orleans to Sandy Hook lightship, was 4 days, 2 hours and 15 minutes, breaking all records. The previous record was 4 days, 3 hours and 40 minutes.

The last days' runs made by El Cid were 400, 351, and 376 knots. The engines averaged 76 revolutions a minute, and the average speed an hour was 16 75 knots. The coal consumption of El Cid was sixty tons a day. El Cid was built by the Newport News Drydock and Shipbuilding company, at Newport News, Va. She sailed from New York August 20, on her maiden voyage. She was 4 days, 22 hours and 20 minutes. El Cid belongs to the Morgan line, and is a sister ship of the El Rio.

Telegrams for Points in Brazil.

MONTEVIDEO, Sept. 15.—The mail steamer which was scheduled to sail hence today for Brazilian ports has postponed her departure to Sunday when she will sail at 11 o'clock in the morning. All telegraphic messages for Rio Janeiro and other places in Brazil that are sent by way of Galveston, [illegible], will be mailed by the steamer. It will be necessary, however, that all such messages have full address.

Will Prosecute the Cashier.

NEW YORK, Sept. 15.—Cashier Howard L. Bain of the Home State bank, whose embezzlement of $20,000 worth of Wabash bonds became public today, will give himself into custody and stand trial.

President George F. Seward of the Fidelity & Casualty company, which went on the cashier's bond for $15,000, said they decided today to prosecute Bain, and have placed the matter in the hands of the authorities.

Cherokee Strip Boomers, Frenzied with Thirst, Hold Up a Train.

FORT WORTH, Tex., Sept. 15.—The conductor on the Pullman train on the Rock Island railroad, arriving here yesterday, says that while passing through the "Strip," yesterday morning, the train was attacked by the strip settlers and robbed of all the ice and water. The members of the attacking party were frenzied with thirst. The condition of the trainmen bear out the story that a fierce fight ensued.

Smallpox at New York.

NEW YORK, Sept. 15.—Four more cases of smallpox were discovered by the board of health inspectors this morning at No. 186 Madison street. Four-year-old Mamie Sder was found sick with the disease; John Smith, 25 years old, and his two children were found sick with smallpox at No. 437 West Fifty second street. All the patients were removed to North Brother Island.

Put Into Newport Harbor Leaking.

NEWPORT, R. I., Sept. 15.—Schooner White Cloud, Philadelphia from Boston, coal laden, put in here today leaking and has been run upon a mud bank in the inner harbor to be repaired.

Anarchist Herr Most Desirous of Appearing at Yale.

NEW HAVEN, Conn., Sept. 15.—Herr Most, the New York anarchist, was in town today conferring with local members of his political belief. He said in an interview that he intended to deliver a series of lectures here this fall on the anarchist question. He expressed himself as desirous of appearing at Yale and interpreting anarchist doctrines to students of that university, but as yet had [illegible] made definite arrangements about [illegible] Yale faculty.

President Bartlett Dead.

HANOVER, N. H., Sept. 15.—President Lyman Bartlett of Manchester, died here tonight of consumption, aged 55. He graduated from Dartmouth, class of 1860, and from the medicine department in 1863. He has been for twenty five years professor of anatomy at Dartmouth and held the position until this year, when his failing health compelled him to give it up. The funeral will occur at Hanover, Monday.

Strong Repeal Petition.

WASHINGTON, Sept. 15.—In the senate today Mr. Voorhees presented the resolution recently passed by the business men's congress, held in this city, to urge the repeal of the purchasing clause of the Sherman act and had it ordered printed as a public document. The resolutions were signed by the representatives of all the commercial bodies of the country.

Franklin Mills Will Start Up Monday in Shape for a Long Run.

FRANKLIN, Mass., Sept. 15.—The Bay shoddy mill and the Bay cassimere mill, which started up partially last Monday morning, will resume in full on Monday morning next.

CONNECTICUT NEWS IN GENERAL.

Kind Act of a Railroad President—Fell From a Balloon.

CONSPIRACY TO BREAK JAIL.

A Prisoner Confesses the Plot to Sheriff Clarkson.

BRIDGEPORT, Conn., Sept. 15.—This morning a conspiracy to break jail, instigated by George E. Curtis, the horse thief, now awaiting trial in the superior court, was made known to Sheriff Clarkson.

As the prisoners were being taken out from their cells in the county court house and transferred to the court room for trial, one of the prisoners confessed to the sheriff the plan.

Curtis, it is said, suggested that when the prisoners be returned from the court room they make a break. He said there would be only one deputy sheriff on guard, and he could easily be overpowered and the keys taken from him. The plan met with the approval of only the most desperate of the men. The majority charged with not very serious crimes disapproved of the plot and one of the men informed the sheriff. The latter foiled the game by assigning several sheriffs to guard duty.

STRIKE AT ANSONIA.

Part of the Force at Wallace & Son's Factory Walk Out.

ANSONIA, Sept. 15.—Buffers, polishers and platers to the number of forty employed at Wallace & Son's factory, now conducted under a receivership, went out this morning. They refuse to work any longer at the 30 per cent. reduction in pay, made when the mills started up recently. It is understood they are willing to accept a 15 per cent. reduction. Some days ago they united in a protest against the 30 per cent. cut. This was forwarded to Mr. Thompson, the New York receiver. That gentleman was in town yesterday, but no answer was made to the men. They kept along with their work until last night, when they were paid off to last Saturday, in accordance with the usual custom, and the reduced earnings they found in their envelopes seem to have decided them in their refusal to continue at the 30 per cent. cut made.

A Store Burglarized.

PUTNAM, Sept. 15.—Of late several attempts have been made to break into the candy store of J. A. Dragon on Carey street, but every time the burglars have failed. Thursday night they succeeded in removing the large shutter from one of the windows, and in that manner gained an entrance. Finding no money they took a supply of cigars, tobacco and cigarettes. The proprietor claims his loss is $10.

Cider Seized.

PUTNAM, Sept. 15.—Officer Carver raided the confectionery store kept by Lawrence Brayshaw in the upper village on Thursday evening and seized two barrels of cider, containing ninety six gallons. The hearing is today at 2 o'clock before Judge Ogenden.

A Railroad President's Kindly Act.

HARTFORD, Conn., Sept. 15.—President McLeod of the New York & New England railroad has made arrangements to furnish all the employes of the road, at any point, with coal at a price equal to that which it is sold in Newburgh, N. Y. The plan is for several employes to buy a carload of coal at Newburgh, and the car will then be hauled to any point along the line of the road free of freight and transfer charges. The only expense the men will then be put to is that of having the coal carried from the car in any town to their homes. By this plan the men will have to pay about $4 a ton delivered—a saving of nearly if not quite $3 per ton.

Watched by the Hartford Police.

HARTFORD, Conn., Sept. 15.—A well-dressed man about 45 years of age, accompanied by an attractive looking lady, registered at the Heublein hotel on Saturday as E. Robbins and wife of Chicago. Since then he has called on several civil engineers in this city, representing himself as E. B. Rowe, a civil engineer, told the familiar story of a lost purse and requested loans of money. The police were notified, established his identity with the man registered at the hotel, and were watching him. This noon he paid his bill and with his wife left the hotel. While there he appeared to have plenty of money.

An Old Bridgeport Firm Insolvent.

BRIDGEPORT, Conn., Sept. 15.—Business men were surprised this morning upon receiving intelligence that one of the oldest and most reliable firms in the city had assigned. The firm is Cushing, Morris & Co., hardware dealers who for twelve years have done business at No. 381 Water street. The notice was filed in the probate court this morning and Judge Talmadge set September 29 as the date for the hearing of the creditors. The assignment was made in favor of W. Morris, a member of the firm.

Fell from a Third Story Window.

NORWALK, Conn., Sept. 15.—Robert B. Goldschmidt's daughter, five years old, fell from a third story window at her parents' residence on Water street this evening, and broke her hip. Internal injuries are feared and she may die.

Death of Captain Selleck of Norwalk.

NORWALK, Sept. 15.—Captain Isaac Selleck, a wealthy and prominent resident of Norwalk, died this morning at his residence from general debility and old age. For months he had been failing slowly.

Shelton's Murder Trial.

BRIDGEPORT, Sept. 15.—Mrs. Florence Hawley's trial for the murder of Mary Munson of Shelton is to begin next week. Her husband, John Hawley, is serving a life sentence for the crime.

Accident to Prince Leo the Aeronaut.

NEW HAVEN, Conn., Sept. 15.—The aeronaut, Prince Leo, met with a serious accident at Savin Rock this afternoon. He ascended a hundred yards in view of about a thousand spectators when an accident to his balloon caused the gas to escape. It fell and landed in a tree top. Leo was thrown out and struck across a live trolley wire. He was taken down insensible and badly cut. He will recover.

Triangular Foot Ball League.

HARTFORD, Conn., Sept. 15.—Representatives of Brown and Trinity colleges and Massachusetts Institute of Technology met in this city today and agreed to form a triangular foot ball league. The following schedule of games was agreed upon: Oct. 21, Trinity vs. Brown, at Providence; Nov. 1, Trinity vs. M. I. T. at Boston; Nov. 4, Trinity vs. Brown at Hartford; Nov. 8, Brown vs. M. I. T. at Providence; Nov. 18, Trinity vs. M. I. T. at Hartford; Nov. 18, Brown vs. M. I. T. at Boston.

UNITED AFTER 64 YEARS.

Inmate of a Poorhouse, 105 Years Old, Found by His Grandson.

BINGHAMTON, N. Y., Sept. 15.—After a separation of sixty four years William Shaw, who is now in his 105th year, an inmate of the county farm, has been reunited with his family. His son Samuel, now 75 years old, was 11 years of age when his parents separated in Otis, Mass., and since then he has been untiring in his search for his father.

About eleven years ago Samuel's mother, who was residing with her grandson at Reading, Pa., was murdered by her grandson, who shot her and his wife, and then committed suicide.

The elder Shaw was admitted as a state charge from Willet, Pa., to the Broome county farm in 1888. During the past week he was discovered by a reporter and his history written up. The result was that his grandson, who is 30 years of age, visited the county farm and became convinced of his identity.

The old man was at one time rich. He has a brother, a sister and a number of grandchildren living, with whom in future, he will reside.

U. S. Cruisers Handicapped.

WASHINGTON, Sept. 15.—A series of embarrassing and provoking incidents is preventing the United States from furnishing speedy protection by the revolutionary outbreak. The cruiser Charleston is delayed in sailing from Montevideo for Rio by an accident to her steering gear; the cruiser Detroit has been stopped in her voyage to Brazilian waters on account of the discovery that it was necessary for her to comply with certain preliminaries to her final acceptance by the government, and the cruiser Newark cannot leave Norfolk for Rio until Sunday or Monday.

The Weekly Review of Trade.

NEW YORK, Sept. 15.—R. G. Dun & Co.'s Weekly Review of Trade says:

The liabilities of firms failing have greatly diminished, for they were over $108,674,314 in only two months, July and August, whereas the largest aggregate ever known for any previous three months during the past sixteen years was less than $60,000,000. But for the first week of September complete returns show liabilities amounting to only $5,118,685 for the week, against an average exceeding $11,000,000 weekly in the two previous months. The failures reported this week have been in the United States only 314 against 391 for the previous week, and 154 last year, and in Canada 37 against 26 last year.

Races at Mystic Park.

BOSTON, Sept. 15.—Some fine racing was seen at Mystic park today, the closing one of the September meet. The trotting was close and many of the finishes exciting.

In the 2.25 trotting class, Thetis was the winner; best time 2 16¾.

Georgie H. won in the 2 19 class; best time 2 17.

In the 2.35 class Whisper won; best time 2.19.

The free for all was won by Mertie Wilkes in straight heats. Time, 2 16, 2 13½, 2 14.

BASE BALL.

At Cleveland (First game):

Baltimore	3	0	1	1	0	2	1	0	0—[illegible]
Cleveland	0	1	0	0	0	0	4	0	1—[illegible]

Second game:

At Cincinnati:

New York	3	0	0	0	0	2	0	0	[illegible]
Cincinnati	3	0	1	0	0	0	0	1	[illegible]

A Wisconsin Town Threatened With Destruction by Fire.

CHIPPEWA FALLS, Wis., Sept. 15.—The town of Withe, forty miles east of here on the Central road, is burning, being caused by forest fires. A company of the fire department with an engine has left for there by special train. An east bound passenger train had a narrow escape from going through a burned bridge. The section men coming west on a hand car, turning a curve, ran on to the bridge and went through. One man was fatally injured. Another swam the river and flagged the train which was due in a few minutes.

Workers in Seven Shoe Shops Out on a Strike.

AUBURN, Me., Sept. 15.—The International Shoeworkers' union, which embraces all unions except the Lasters, has ordered its members in the seven shops of the Manufacturers' association of Auburn, to remain out until the present troubles are settled. The help left the shops today. The firms offer to make individual contracts, but declare they will receive no help on any other condition. The union men say such action is a blow at their union, and refuse to make individual contracts.

Poisoned by Mushrooms.

SOMERVILLE, N. J., Sept. 15.—Last Sunday afternoon the family of Malco Gregoria, an Italian living in Raritan, ate supposed mushrooms, gathered in the field. On Monday Mrs. Gregoria was taken violently ill with symptoms of poisoning, and on the day following the father and three children were stricken down. Yesterday the mother and the youngest child died. The father cannot recover.

Paid the Insurance.

PITTSFIELD, Mass., Sept. 15.—The local agent of the Mutual Life Insurance company of New York, has paid the claim on the life of the late Cashier E. S. Francis, which amounts to $10 452. Of the sum $9,000 goes to James B. Francis, brother of the deceased. This is the first claim settled in all of Mr. Francis' insurance.

National Legislation.

WASHINGTON, Sept. 15.—After routine morning business in the senate, the repeal bill was taken up, and Mr. Lindsay (dem., Ky.) addressed the senate.

In the house after some routine business had been disposed of, the struggle over the elections bill was resumed and the republicans again resorted to filibustering tactics.

Ocean Steamers.

At New York—Norge from Copenhagen; Furst Bismarck from Hamburg; Rugia from Hamburg; Britannic from Liverpool; Richmond Hill from London.

Will Start Up Monday.

PROVIDENCE, Sept. 15.—The Rodman mills of Wakefield will start up Monday after a shut down of six weeks.

DIRECTUM LOWERS HIS RECORD.

Sensational Trotting and Pacing at Washington Park.

FLYING JIB

Equals Mascot's Pacing Record of the World in 2 04.

CHICAGO, Sept. 15.—Never were so many trotting and pacing sensations developed in one day as the sport at Washington park gave to turf history today. Directum in a race against time lowered his record by half a second and secured a four year-old record of 2 05½ and the stallion record of the world.

Flying Jib started to beat his pacing record of 2.05¼ and took a pacing record of 2 04, which equals Mascot's pacing record of the world. Four more heats in the most sensational trotting race of the year, and the greatest trotting the turf has ever known were decided. Eight heats have so far been trotted in the free for all and the race is still unfinished. The race will be finished tomorrow. The four heats today were exciting, two going to Pixley, one to Hamlin's Nightingale and one to Lord Clinton. Hulda, who won two heats of the race yesterday, went so lame that she was taken out and it is believed she will never start in a race again. When it became known that Hulda would not start the race was conceded by many to belong to Alix, as she had two heats to her credit. She was strongly played in the pools. What the result would have been if she had not been crowded to the rails in the first heat, is hard to say. The judges decided that Dickerson, Pixley's driver, had committed an unintentional foul.

It was won in 2 11 by Pixley but was set back on account of the foul. Alix was given a dangerous squeeze by Dickerson, the inside sulky wheel catching in the fence, but Curry saved the mare's distance. As the race stands all the horses have trotted what amounts to two races in consecutive days, either of which would average faster time than any other race ever trotted.

Sealing Schooners Returning.

VICTORIA, B. C., Sept. 15.—The sealer Charlotte Cox arrived this morning from Copper Islands with 2 788 skins. It is thought she will be entitled to a broom as the highest liner. The Casco also came in with 1,673 skins, also from Copper Islands. Her captain says that never since he has been out has he seen so many seals. The steamer Brenda from Copper Islands, has 1,253 skins. She says all the schooners are returning.

Idle and Discouraged.

NEW HAVEN, Conn., Sept. 15.—John Hoppenkothan, aged 61 years, an employe of the L. Candee Rubber company, committed suicide this afternoon by hanging. He was out of employment. He leaves a widow and one child. This is the second suicide in this city this week because of despondency, due to the victims being out of work.

Well Known Lawyer Killed by a Fall.

TORONTO, Ont., Sept. 15.—J. H. Ferguson, Q. C., of the firm of Ferguson & O'Brien, and one of the best known lawyers in the city, fell from a window of his office on the third floor of the Freehold Loan company's building today and was instantly killed.

Internal Revenue Receipts.

WASHINGTON, Sept. 15.—The receipts from internal revenue today were $344,[illegible]; from customs $445,965; miscellaneous $146,365.

No representation of the face of a man was ever stamped on a coin until after the death of Alexander the Great, who was regarded as a divinity.

A piece of ancient wooden water pipe, which was unearthed recently in New Britain, Conn., is claimed to have been nearly two centuries old.

The first map of the moon was made in 1647.

LOCAL NOTICES.

Large front room to rent.

Non-union printers wanted.

House 55 Lincoln avenue to rent.

Stanton's naptha soap can be found at Rallion's.

A Plaut is showing a fine line of bicycle lanterns.

Soft shell crabs, scollops and oysters at Powers Brothers today.

Get your fire wood at the Park wood yard, 201 Franklin street.

Fresh novelties in men's fine furnishing goods at Smith & Gilbert's.

Double brick house on the green at Norwich Town to rent.

Nowatsky will take orders for the Sunday Tribune and Journal.

H. R. Stevens is agent for the Emerson pianos. Over 80,000 of them sold.

Flower pots of the latest shapes and all sizes can be found at Mrs. Howie's.

Church Brothers have today oysters scollops, soft shell crabs, lobsters, etc.

G. D. Browning & Co. say they can show the best outing shirt for half a dollar there is in the city.

The latest fad is the penny in the slot puzzle. Very perplexing. Get it of Noyes & Davis and try it.

New Damson preserves in small packages at Mrs. Chapman's bakery, No. 7 North Thames street, today.

Public services will be conducted at the Central Baptist church on Sunday by Dr. Herr. All are cordially invited.

R. D. Jones & Son are showing an elegant line of English twisted worsteds for fall overcoats. See advertisement.

Reid & Hughes are offering splendid lines of new fall goods, and call special attention to their new table linens. See advertisement.

"Fifteen cents an acher." That is cheap when you are sure of curing a toothache and have a sound sleep at night. That is the price N. D. Sevin & Son get for a bottle of Wonder Toothache drops.

A few people can be supplied with places on the special train of vestibuled Pullman cars which leave Ferry Street station for Chicago on Monday by applying to E. P. Turner. A stop of seven hours at Niagara Falls.

For today Porteous & Mitchell will greet their patrons with eleven interesting Saturday bargains. Every body can find something in this list to meet their wants. Ladies' waists, lace curtains, hosiery, underwear, Hamburgs, hand satchels, toilet soaps, etc., all find a place in the list, and await the early shopper. See advertisement.

The Norwich Weekly Courier is the best weekly newspaper in New England at 50c a year.

NORWICH AND VICINITY.

Bishop McMahon's Successor.

The consistory of cardinals will meet at Rome the latter part of this month. His Holiness the Pope will probably lay the selection of a successor to the late Bishop McMahon before the meeting.

Alternate Preacher.

The Rev. Harrison Closson of this city is alternate preacher of the "occasional sermon" at the Connecticut Universalist convention at Danbury next week Tuesday, Wednesday and Thursday.

An Excursion Project.

It is probable that next summer a new mode of transportation to White beach will be introduced. Norwich capitalists may run an excursion steamer between this city and New London, the rate of passage including trips on the Norwich and New London electric cars.

Putnam After Murphy.

Putnam is after Temperance Evangelist Murphy too, and has appointed a managing committee to secure him if possible and arrange for the campaign. They want him the latter part of this month, following his Willimantic engagement, which opens Sunday night.

City Court—Kellogg, Judge.

In the city court Friday morning, John Carroll paid $10 10 for breach of the peace. John McGregor was found guilty of a similar offense, and went to jail in default of $5 and costs—$12.10.

[illegible]

The Henry Clay nine defeated the Neptunes Friday by a score of 10 to 9. The respective batteries were Winters and Suderberg, Manchester and Ferguson. Winters struck out twelve men and Manchester five. The first named team has disbanded for the season, having lost but one game out of the fourteen played.

The Norwich Weekly Courier is the best weekly newspaper in New England at 50c a year.

Maurer Wins the Horsman Mallet.

Maurer of Keyport played Germond of New York, Thursday, for the Horsman mallet, emblem of club championship at croquet. Maurer won easily. Score: 4-2. Seventh game unplayed.

Sudden Death of Charles F. Thurber.

A telegram received in this city announced the sudden death at Narragansett Pier, R. I., Friday, of Charles F. Thurber, formerly of this city. No further particulars were given. Mr. Thurber leaves two children, who are at present in Norwich.

Sudden Death of a Sea Captain.

Captain Daniel B. Arnold, aged 55, master of the schooner J J. Moore of New London, dropped dead Friday morning while the vessel was in New Haven, bound from Port Johnson, N. J., to Boston. Captain Arnold was a widower and leaves a daughter who resides in Middletown.

A Big Snapping Turtle.

A monster snapping turtle, weighing nearly 100 pounds, was captured near Hog pond in Pickerel bay, at Lyme. A big turtle soup followed, and the shell was carried off as a relic. All that was left was the head, which it was said was as large as the head of a child.

Good Catches of Bluefish.

Ex-Alderman Charles J. Winters of Norwich was out in the race with B. G. Watrous and C. C. Lyman of Washington and William H. Tubbs, Wednesday, and the party caught ninety seven bluefish, varying in weight from six to twelve pounds.

The steam yacht Narwhal came in Friday evening with a catch of about eighty good-sized fish.

A Baker's Wagon Damaged.

The wagon of Henry Laas, a Greeneville baker, is in the repair shop. The horse attached to it Friday morning became frightened by [illegible] while descending the West Side hill, and getting beyond control dashed down the street. On Central Wharf collision with a telegraph pole spilled the driver out and wrecked the vehicle. The horse was stopped in front of the Bolt shop.

"Borrowed" a Suit of Clothes.

Edgar Main of Ledyard about Sept. 1, stole a suit of clothes and a straw hat of a Mr. Bennett of Mystic, for whom he worked and with whom he boarded. He did not steal them in the usual way, but simply borrowed them, in order to go to record, as he said, a deed of land which he claimed he had purchased of Frederick Denison of Mystic. Mr. Denison paid $2.50 for drawing up the deed, and Main disappeared. Officers Hoxie of Mystic and Curran of Westerly had been searching for him but discovered no trace of him until Thursday, when he was found on the Simeon Nichols farm, near the white school house, on the road to Ashaway. He came into Connecticut with the officers, and was taken to Mystic for trial.

"Connecticut Day" at the Fair.

Connecticut visitors to the World's fair about the time of "Connecticut day" will be likely to see more people than they will ever see again on earth or possibly elsewhere, writes Secretary Vaill. "Chicago day" will be October 9, two days in advance of Connecticut's day, and Chicago proposes to get together the biggest assemblage that was ever got together on one spot since the foundations of the earth were laid. Her idea is at least to beat the record of the biggest day at the Paris exposition, and in order to do this [illegible] record about 400,000 people. It should be remembered that Chicago's motto is "I Will!"

A Lost Brooch Recovered.

Just before the Fort Griswold house closed for the season a lady supposed to be Mrs. Coogan, the wife of a New York man who was stopping there, lost a valuable brooch. It was believed to have been stolen at first, and the New London police were told about it. Later the police had information that a brooch had been found by one of the helpers in the kitchen whose home was in that city. They heard that he had endeavored to sell it for twenty-five dollars.

Wednesday Officers Jeffers and Callen concluded to take the man to the police station and there let him explain his possession of the brooch to Captain Haven. He was arrested by Officer Jeffers and at once admitted the possession of the brooch, and said he found it while washing dishes in the kitchen. There was no reason to doubt his statement.

When taken to the police station he at once turned the brooch over to Captain Haven and that official is now endeavoring to reach the owner that the brooch might be returned.

THE SOUTHERN SUFFERERS.

Contributions of Clothing and Money Forwarded from This City.

In response to the appeal published in THE BULLETIN, contributions of clothing and bedding for the Beaufort sufferers have been received at No. 9 Washington street from the following persons: Mrs. Wm. H. Allen, Mrs. L. W. Bacon, Mrs. Fordyce Barker, Mrs. J. Boyer, Miss Anna Lloyd Ely, Misses Gilman, Mr. James Greenwood, Mr. Ned Haskell, Mrs. C. B. Platt, Mrs. Wm. S. Palmer, Messrs. Porteous & Mitchell, Mrs. J. A. Rockwell, Mrs. E. C. Sleight, Miss C L. Thomas, Mrs. P. C. Williams and other friends.

A large box containing these articles has been forwarded by the courtesy of the Adams Express company, to G. F. Lawrence, 496 Broadway, New York. A check for $37 has also been forwarded, contributed by Mrs. Chas. Coit, Miss E. G. Coit, Mrs. L. F. S. Foster, Mr. and Mrs. E A. Huntington, Mrs. G. W. Lane, Misses Norton, Miss Ward, Miss Woodhull and other friends.

All Must Attend Evening School.

Giles Potter, agent of the state board of education, says the board interprets the new school law relating to pupils attending evening schools to mean that all boys and girls from fourteen to sixteen years of age must be able to read and write English.

The law, which was passed by the last legislature, was that all boys and girls, of between fourteen and sixteen years who were unable to read or write, and were now at work in factories, must attend evening school twenty evenings in each month during the school year.

Agent Potter will immediately commence his rounds among the factories of the state, and will see that the law is strictly enforced. The law provides that every town of over 10,000 inhabitants must maintain a night school. The decision of the state board will effect twenty cities and towns of this state.

Governor Morris' Address.

Governor Morris addressed the veterans of the Twenty-seventh Connecticut Volunteer at their reunion at New Haven on Wednesday, substantially as follows:

"In coming up here upon the ground my mind went back to the time when the regiment was organized, and I could not help comparing the condition of public sentiment in the country at large in October, 1862, when this regiment went to the front, and the public sentiment of today. Then the whole country was stirred up and burning with excitement over the cause of slavery. The cause had existed ever since the government was founded, and from the time of the adoption of the constitution down to the time when the war broke out this cause had been the reason of continual disagreement and dissension between the people of the north and south. At the time the war began there were a few people who knew or comprehended the importance of the contest which was pending, and they did not comprehend that the cause of contention would be utterly removed and abolished.

"I do not think that any regiment which was in the army was baptized in blood as much as the Twenty-seventh. They were at the battle of Fredericksburg, Chancellorsville and later at Gettysburg. At all of these battles it is unnecessary for me to say that you did your duty. It is chronicled in history. But you cannot only be proud of having done your duty, but can feel the consciousness of having helped to settle the differences which had so long existed between the north and south. Any differences that now exist are matters of policy. Gentlemen, I hope you will excuse me from any lengthy speech. But I wish to take this opportunity for publicly thanking you, in behalf of the state of Connecticut, for your services in the late war."

The Norwich Weekly Courier is the best weekly newspaper in New England at 50c a year.

Sunday Services.

Young Men's Christian Association. Last open air meeting on the Steamboat Wharf at 4 p. m. An address will be delivered by the Rev. Chas. A. Northrop, pastor of the First Congregational church. Every man in Norwich is invited.

Advent chapel, Norwich Town. Sabbath school on the Sabbath at 10.45 a. m. Preaching at 11.45.

CARROLL'S OPINION.

Thinks Navahoe Faulty in Some Respects.

NOT SO FAST AS DESIGNED TO BE.

The Two Flyers Start Again Over Channel Course.

LONDON, Sept. 15.—Royal Phelps Carroll said last evening that he considered the Navahoe a better boat than the Britannia in reaching and running, but he admitted he was disappointed in her windward work, on which the races always depend. "I don't see how to remedy the trouble," said Mr. Carroll, "except by allowing the builders to work the Navahoe up. The reports sent out about the danger of her capsizing were absurd misrepresentations.

"I knew she was a good sea boat the moment I stepped aboard. But evidently there was some mistake in her design. She does not carry so much sail as she was designed to carry. She has not sufficient stability, in my opinion—her weight and ballast are not properly adjusted. She wants her ballast put lower down

To Make Her Stiffer and Faster

in strong weather, although that is likely to be a detriment in light weather.

"To sum up, she is fast in a fresh breeze just enabling her to carry her clubtopsail: she is sluggish in light weather, as she is unable to carry her sail properly. When it blows hard she reaches as fast as any vessel that has sailed this year except the Satanita. Sometimes she has been poorly handled; sometimes well handled; taking the average, I think there could not have been much improvement in that respect. I am satisfied that the boat, and not the handling, has been the fault.

"She might however, have won the Royal London match on the first day

If She Had Been Better Handled.

I never in my life saw a boat better handled than the Britannia was then. I consider the English courses, where so many marks are rounded, exceedingly bad for big boats. Starting the boats in the crowded fairways is almost like starting an important horse race among a lot of cabs and coaches.

"The way English crews handled sails under these circumstances is something we never see in America. I regard the Brenton reef decision as beyond question regarding fairness. The judges' mistake was purely unintentional. All the races here are conducted in the fairest manner. I think the Valkyrie will have a poor chance for the America cup against the Vigilant. The Vigilant is faster than any boat over here."

BRITANNIA AND NAVAHOE

Racing Again Over the Long Course. Supremacy to Be Settled.

LONDON, Sept. 15.—Today is the day set for the race between the Britannia and Navahoe for the Cape May cup, a trophy won in 1885 by the British cutter Genesta.

The closeness of the race for the Brenton's reef cup on Tuesday last, in which the Britannia and Navahoe were pitted against each other, added greatly to the interest taken in today's race, and many boats from Southampton, Cowes, Ryde, Southsea and other yachting centers started long before daybreak for the Needles, where the start of the racers was to be made.

It was the original intention to have the Britannia and Navahoe run down from Cowes last night and anchor in Alum bay, which is about two miles from the starting point. This was to have been done in order to have the boats in readiness for an early start, it having been decided by the sailing committee that they should be sent away at 7 o'clock.

A dense fog set in last night, however, and it was deemed safer to let the boats remain in Cowes roads over night. The fog lasted through the night and early this morning, and the plans of the sailing committee were consequently disarranged. It was not until 9:20 this morning that the racers started in for the Needles, from which point the start was made.

The course is identically the same as that sailed over for the Brenton Reef cup, that is to say, from the Needles, the western extremity of the Isle of Wight, to and around the breakwater at Cherbourg, France, and return, a distance of 120 miles. The yachts started at about 1 o'clock. The Britannia was slightly in the lead.

TRIAL POSTPONED.

Another Chapter in the North Abington Riot Cases.

HINGHAM, Mass., Sept. 15.—Another [illegible] was added to the proceedings of the North Abington riot, when six alleged participants appeared before Justice Bouve this morning charged with assault with dangerous weapons. There was a big array of legal lights and the court room was packed.

Owing to one of the counsel being unable to be present, and after a consultation, the others asked for a continuance of the cases, which the court granted, and assigned Monday, Oct. 4, as the day when all will be tried at Abington.

TRACKING THE ROBBERS.

Indiana Express Car Desperadoes Will Soon Be Captured.

KENDALLVILLE, Ind., Sept. 15.—If indications are true, the last chapter will be added within 24 hours to the history of the express robbery committed at Kessler Monday night. The detectives, who have been scouring the country to the west and south, have been transferred in haste to the north. Information has been received from Rome City, Ind., nine miles north of here, containing the substance of a message from Deputy Prosecuting Attorney Fuse of Rome City, saying that five suspicious looking men had passed through the Lake Shore and Michigan gravel pits, two miles east of that village. Several of the men had bundles, which might have held the booty.

As soon as Chief Detective Byrne was given this information last night, men were dispatched to the place. Two of the suspected men have been recognized as Chicago crooks and safe blowers, while a third man has his home not far from here. It is believed the fourth is a notorious western desperado. The fact that the men did not make their appearance around here for several days previous to the robbery, and the report that several men made their hiding place in a swamp a short distance from the scene for several days, foraging off the neighboring farms for subsistence, adds another link to the chain.

SPANIARDS ARE ANGRY.

Mob Tax Collectors and Have Practically Stopped Their Work.

MADRID, Sept. 15.—The excitement throughout the country growing out of the fiscal reforms recently adopted by the government has not abated. The provinces of Navarre, Tarragona, Cordova and Oviedo have been the scenes of much rioting. The anger of the people has found vent in attacks upon the tax collectors, who have been mobbed and stoned. The officials have been so intimidated by the violence to which they have been subjected that their work is practically at a standstill.

The most serious outbreak occurred in the town of Mount Blanch, 17 miles northwest of Tarragona. Here, when the civic guard attempted to disperse a mob that was howling against the government and smashing the windows of houses with stones, the rioters, some of whom were armed with revolvers, fired upon the guards. The latter retaliated, firing into the crowd. Three of the rioters were instantly killed and several were more or less seriously wounded. Window smashing has been a feature of the disturbances and the houses of government officials, particularly those occupied by the tax collectors, have scarcely a whole pane of glass in them.

A SMOKER'S PIPE.

Maplewood Hotel and State Normal School at Randolph Burned.

WEST RANDOLPH, Vt., Sept. 15.—The Maplewood, at Randolph Centre, the largest and finest summer hotel in eastern Vermont, owned by Thatcher, Stone & Co., was destroyed by fire this morning.

The blaze was discovered in some hay in the barn at 5:15 o'clock, probably having caught from a smoker's pipe. The barn was connected with the hotel by a shed. There is no water supply in town, but most of the furniture and fixtures were gotten out in a badly damaged condition. The annex, in which were the dining room, kitchen and servants' quarters, was saved.

The Randolph state normal school, the largest in the state, which adjoined the hotel caught fire and was also destroyed. Most of the fixtures were saved in a damaged condition. This building had just been enlarged and new heating apparatus put in, at a cost of $3100. Mrs. J. W. Carter's buildings, also adjoining, were saved after a hard fight.

The Maplewood was filled with guests. The loss is in over $50,000; partly insured. Mr. Stone is prostrated from nervous excitement. The normal school building cost over $12,000; insured in the Vermont Mutual for $7000.

EXPECTS HER SATURDAY.

This is What Lord Dunraven Says of His Yacht Valkyrie.

LONDON, Sept. 15.—Lord Dunraven said last evening that he had no idea the Valkyrie would reach New York before next Saturday. He does not feel the slightest uneasiness about her, as he does not regard her as overdue.

Lord Dunraven added he would remain in the United States only for the race for the America's cup. He had entered the Valkyrie only for this event, and would not prolong his visit after the match.

NEWS IN BRIEF.

The Democratic campaign opened in Iowa.

Many New England mills are resuming work.

A weavers strike is threatened at New Bedford, Mass.

The Universalist church at North Jay, Me., was dedicated.

Haverhill, Mass., is to have a big manufactory of silverware.

The season for shooting grouse and woodcock has opened in Massachusetts.

The Vigilant's owners have offered to sail a match with Jubilee for $5000 a side.

The battle has begun in the house over the proposed repeal of the federal election laws.

Mrs. J. J. Astor and C. A. Stevens won the mixed double tennis match at Newport, R. I.

The New Haven Yacht club closed its social season with an elaborately planned ladies' day.

A fixed sum is to be paid by the various cities and towns in Massachusetts for water basins outside their own limits.

Baring Bros. & Co. have reduced their liabilities to the Bank of England and others $61,000,000 in round figures. Twenty millions remain.

Dean academy, Franklin, Mass., opened the fall term with the usual number of boarding pupils and a greatly increased number of day pupils.

The Fletcher Manufacturing company's woolen yarn mill at Providence will start on full time Monday. The Gorham works may start on full time then also.

Charles Grossman and William Cash of Attleboro, Mass., came into collision on their bicycles. Both men were severely injured and both bicycles were smashed.

Tyler defeated Sanger and Zimmerman at Springfield, Mass., thus becoming a half-mile record breaker. Sanger did the same for two miles, while Meintjes, the African, broke 21 records.

A parochial school was opened for St. Mary's Catholic parish, Franklin, Mass., with from 150 to 200 pupils. By the change one or two of the rooms in the public school were nearly depleted of pupils.

BRAZILIAN REVOLT.

Its Success Is Believed to Mean Restoration of Monarchy.

NEW YORK, Sept. 15.—The Herald's Buenos Ayres correspondent cables that the result of the bombardment of the city of Rio Janeiro yesterday was the same as that of Wednesday's attack, but little damage being done.

The captain of the gunboat Alagoas deserted from Admiral Mello's squadron. He hurried to Rio, and there gave information to President Peixoto of the movements of the rebel ships, and all points which were favorable to the landing of an invading force were strongly intrenched.

It is reported that perfect order was maintained in the city during the bombardment. There was much enthusiasm manifested by Peixoto's forces, who still remain loyal to him.

The warship Tiradentes, which still remains loyal, has put to sea. It is expected she will meet the armed merchant steamer Itacoa, which was to aid the rebel fleet. If the two vessels meet a desperate sea fight is inevitable. The loyal ship Bahia has been ordered back from Parana, as the upper river squadron remains loyal.

The students in San Pablo have declared against President Peixoto. The coasting steamer Desterro was detained at Montevideo last night just as she was getting under way, the Brazilian government requesting that this action be taken, as she had on board supplies for the rebel war vessels under command of Admiral Mello.

Commercial houses have protested to the foreign ministers against the suspension of telegraphic communication with Rio. Brazilians living in Buenos Ayres believe that the success of the revolution means the restoration of the monarchy.

The rebel forces under General Larkbia defeated the Castilhistas in a battle near Bage. They captured all of the arms of the Castilhista forces. The Rivera jail is filled with federal prisoners. Fighting in Tucuman has been stopped by federal intervention.

Masked Men Get $70,000.

HANCOCK, Mich., Sept. 15.—A train on the Mineral Range railroad was held up between here and Calumet by three masked men this morning and robbed of $70,000 of Calumet and Hecla mine money. No blood was shed.

Dropped Dead in the Street.

BOOTHBAY HARBOR, Me., Sept. 15.—Merrill W. Lewis, aged 25, son of Granville Lewis, dropped dead in the street of apoplexy this morning.

HOOD'S SARSAPARILLA.

Swellings in the Neck

Grateful for Permanent Cure by Hood's Sarsaparilla.

"I cannot praise Hood's Sarsaparilla enough. For twelve years I have been troubled with scrofula and swelling of the glands in the neck, I consulted several physicians and took many medicines. My neck was also operated upon at the Mount Sinai Hospital, but this did not give me any permanent improvement. One day I read in a paper about Hood's Sarsaparilla, and on trying a bottle I found it was doing me good, so I took two bottles more. The swelling has entirely disappeared, and I am as healthy as anyone in the city. Anyone who should see my picture two years ago and now, would notice

Hood's Sarsaparilla Cures

marked improvement." THOMAS FARMERKOFF, 90 Willett St., New York city.

THAT HAT.

I won her "Yes!" I kissed her lips,
I searched her eyes with thoughts elate.
Her deep blue eyes were fraught with doubt,
How could my darling hesitate?
I coaxed the cause of trouble forth.
She murmured, "Is my hat on straight?"

Weeks flew; she was my wedded wife.
The carriage stood beside the gate
To bear us to our dear new home.
My joy was quite intemperate.
I whispered low, "My love, my own,"
As forth we fared in bridal state.
With eyelashes all wet with tears
She answered, "Is my hat on straight?"

Reverses dimmed those early years.
My downfall was precipitate.
I gently broke the news to her.
My angel wife and loving mate.
Our little all was at the dogs,
And we should have to emigrate.
She trustfully made answer brave,
With confidence for any fate,
"You'll make another fortune, dear.
But tell me is my hat on straight?"

She snatched our baby from its death
Upon an engine's path irate.
She spoke a speech, with much applause,
Upon the day we celebrate.
She single handed warned and fired
A serving man intoxicate
But after every feat supreme,
When I my pride would intimate,
My heroine would always say:
"How nice! But is my hat on straight?"

Oh, woman, dear to God and man,
What ails your graceful little pate?
Why is that sweet, delightful hat
So difficult to navigate?
Knowledge of good and evil you,
Ere you were summoned to vacate,
Snatched at in Eden and secured,
With penalties commensurate.
But will you never, never know,
From now till beauty's doom and date,
Past peradventure of a doubt,
Whether you have your hat on straight?
—A. L. Townsend in New York Sun.

MY FRIEND'S WIFE.

After all I am going to marry Lucile. It is more than a year since poor Robethon died, and—perhaps I am a donkey to do it at my time of life, but she is unquestionably a charming woman. She made him happy, and—I am afraid I am a fool. I feel, however, as though I owed it almost to his memory, and something to her too. Yes, there is no doubt I owe her something in that line—and yet, good heavens, I am not doing it on that account. I love her desperately, down to the ground.

"Dick," she said to me yesterday, looking straight at me with her wonderful blue eyes—"Dick, why do you ask me—now?"

"Better late than never," I answered. She began, "Five, six years ago you"—and stopped.

"I know. I was a fool, Lucile. I never once thought of it though. You see, the idea was foreign to me. I never intended to marry."

"And now?"

"With your kind assistance I do intend to."

"Why?"

Her question almost bowled me over. I gazed at the carpet, wondering how I could best put it to her. Presently I looked up, and as our eyes met I blurted out, "Because I love you, of course."

I did not mean to say that just then. The truth is that the idea of "reparation" had got sole possession of my brain, and how to express it graveled me.

Lucile laughed lightly. "That, Dick, is a second thought, and not a bad one for a man who is offering himself as a husband. Still, I want your first."

"I was thinking that, love apart, you have a moral claim upon me."

A great wave of color rose and fell, leaving her beautiful face pale as marble. "A claim—really? A moral claim! Why moral? Why not material? When I turn huckster, Dick, I will traffic only for gold."

I saw what she meant. Love's gifts, being no impoverishment of love, entail no indebtedness upon the recipient. Love is paid for its gift in the giving. This, I thought, was a counsel of perfection and better suited to angels and angelic loves than to men and women in an earthly, highly conventional and British society.

"And that is why you wish to marry me?" she added.

I felt that I was on thin ice. "No, darling, it is not. I love you. There's no harm in that, I hope?"

"No, not a bit. It is a very good reason. Genuine, Dick?"

"Quite, on my honor."

"The honor of an English general—more, of an English gentleman—more still, of a well tried friend—that is good enough for me. Here's my hand on it, Dick."

That was only yesterday. It seems 20 years ago. Poor Robethon—he knew little. I do not think I was to blame. I acted loyally enough by him. It was like this, you see. Robethon and I were pretty close friends. I spent much of my time at my clubs, and at one or other of them I was always coming across Robethon. The taste for chess was mutual and was the ground of our first acquaintance. We were about the same age—heading fast for 50. He was short and stout; I was long and lean.

I had been all over the world, while he had never been outside of England. Sometimes I fancied he had never been outside of London. If he had, he was careful to conceal the fact. We were both bachelors. His chambers were close to St. James street, mine to Piccadilly. We never visited each other though. He was partner in a well known firm of bankers, but had not entered their place of business for 20 years. He had read a world beyond me and was a gentle, sympathetic, clean souled gentleman.

I wish I could say as much truthfully of myself; no false modesty should keep me from writing it down. Still Robethon cared for me, and I am deuced sure I cared for him. His reticence was characteristic of the man; it was like a suit of steel armor covering him from head to foot. Sometimes I think it was, fundamentally, shyness—not of the ordinary kind, of which there was not a trace about him, but deep spiritual shyness. On the other hand, it might have been due to an austere selectness of spirit, a sensitive, delicate pride of soul. The clubmen held him in great esteem, in a manner were proud of him, considered him an authority on disputed points of honor and the like and accepted his judgment with docility and reverence.

One day I met a lady on Pall Mall—tall, fair, straight as a dart and with a face that fell on me like a vision. I turned and watched her, and while so doing she suddenly halted, turned around and came toward me. I stood still. In passing she gave me a momentary glance. Ha, she was very lovely!

A month or six weeks later there was a reception at a certain foreign embassy, and I happened to be present. It was not my kind of thing at all, but I chanced to be an old acquaintance of the embassador in question. There was a big crowd, and dancing was in full swing. Passing by the ballroom, I stood for a moment to watch the dancers. The first thing I saw was the lady of Pall Mall, gloriously arrayed, waltzing with a German.

"Who is she?" I asked a man I knew.

"Which one? Oh, that divine symphony of color there, eh? That is Mrs. Trenchard."

"And who is Mrs. Trenchard?"

He shook his head. "She's a widow; that's all I know. She is in the swim; wonder you haven't met her before. I have, half a dozen times; but I live up to my principles, of which the first is, Thou shalt not do—anything in this widow line."

I left him grinning. I could have kicked him without any remorse. From another man I gleaned that Trenchard had been in the Indian political service and had died suddenly. In certain lines men are dolts and women creatures of genius. A woman there, a dear old dowager, told me in five minutes all I wanted to know. Her people were all dead, she was a lady of birth and breeding, she had none too much money, she was very popular and very correct, and—would I like an introduction? Five minutes later I made my first bow to the divine symphony. She was graciously generous, gave herself to me for 10 whole minutes, and when I withdrew she murmured, with a graciousness that seemed regal, "Perhaps we shall meet again."

We did meet, again and again. Our acquaintance ripened into friendship and finally into very close intimacy. I saw her at least once every week. This went on for three or four years. Between me and Robethon she was a forbidden subject. I knew it would only pain him. For the same reason I never once mentioned Robethon's name to her.

It was December. Robethon and I, as usual, were lunching at the same table. All at once he said, "I am married."

"Married! God forbid!"

"I have been married a month."

"In that case it would be brutal not to wish you joy."

Thank you. I think I have found a pearl of great price. I am living now in Grosvenor Gardens. We are having a few friends in tonight—a very few. You will come, won't you? I want you to know my wife."

"With all the pleasure in the world. But it is like a dream."

He laughed like a man on the right side of the hedge as he said: "Yes, it's like a dream—a beautiful dream. Come as early as you can."

I think I felt a trifle hurt that such a revolution in his domestic economy should have occurred without his informing me of it, but I was none the less curious to see the woman who made so notable a capture. In those days it is the men and not the women who are captured. I was very punctual. The rest of the folks were of course late. Robethon met me in the anteroom. "Bagot," he said, "this is very good of you. I've been thinking I ought to have told you sooner, but—I'll tell you how it happened and all about it at the club."

"Meanwhile, Robethon, one word. Are you happy?"

"As a king."

"No secret regrets, eh?"

"Not the ghost of one. She is perfect. Come, you must see her."

Arm in arm we entered the drawing room. She was alone. I saw a vision of amber colored silk and fluttering lace and heard him say, "Lucile, this is my dear friend, General Bagot."

Then for the first time I saw her face. It was my own fair lady of Pall Mall! What she felt I do not know. "Good God!" broke involuntarily from my lips, and I had just sense enough to turn to Robethon and tell him in an aside that a sudden and awful twinge of gout had seized me. Women, being born intriguers, are nimble witted by nature and acquirement. When our eyes met a second time, the lady was perfectly self possessed and instinct with sympathy over my dreadful gout.

The attack was soon over.

The dinner, I believe, was good and the company smart and lively people. My anecdotes went off like champagne corks, and I fancy I created for myself a reputation for brilliancy which, happily, I do not feel it my duty to live up to. For myself, I do not know what I said, did, ate, drank or thought. I was in a maze. Later in the evening I saw her alone for five minutes.

"By all that's wonderful, Lucile, what does it mean?" I asked.

"Just what you see. I am Mrs. Robethon," she answered, fluttering her fan.

"But—he is my friend. Not for world's would I"——

"No, it would be awkward."

"Awkward! Listen, Lucile. The curtain being down, there are some plays may never be revived."

She looked at me for some moments. Then she said: "That is true. If I had thought only of myself, Dick, it would have been I and not you who would have been the first to say, 'There are some plays may never be revived.'"

"Forgive me! I know it. But"——

"Not another word. We are alike in our thoughts of him. We will be loyal to him to the end. Still, we are friends, Dick, all the same."

* * *

And now my turn has come. Poor Robethon has gone, and, after all, I am going to marry Lucile. What an odd world it is!—Chicago Post.

Egyptian Cats Fond of the Water.

By some persons the popularity of the cat in Egypt has been attributed to the fact that the animal was valuable in ridding the palaces of rats and mice and also in hunting fowl. There are several paintings in the British museum, executed by ancient Egyptian artists, representing Egyptian sportsmen in boats on the river Nile, accompanied by large cats, sitting on their haunches in the stern. Other pictures show the cats swimming with fowls in their mouths after the manner of retriever dogs. These pictures have greatly perplexed modern naturalists because the cat of today has a strong aversion to water, and it is difficult to reconcile such different traits even after the lapse of thousands of years.—St. Louis Post Dispatch.

CHRISTIAN ENDEAVOR.

Topic For the Week Beginning Sept. 17. Comment by Rev. S. H. Doyle.

TOPIC.—Our example. What shall it be? (Temperance meeting suggested.) Rom. xiv, 21; Math. v, 16.

There may be said to be two classes of wrong acts in life. The first class consists of things that are inherently wrong—wrong because they violate positive commands of God. These wrongs cannot be compromised, modified or disregarded. Then there is a second class, consisting of things clearly right in themselves, yet because of some associations they may by many be looked upon as wrong, and therefore for Christians to indulge in them may injure them. Our topic suggests the question, What should be our attitude toward this second class of evil things? Shall we use our liberty and indulge in them at will, or shall we sacrifice them for the welfare of our weaker brother? Let us ask:

1. How does Christianity answer the question? Decidedly in the negative. Christianity ever calls upon the strong to have all due regard for the weak. Christ says, "Let your light so shine among men that they may see your good works and may glorify your Father which is in heaven." This we cannot do if we indulge in what others consider to be wrong, no matter what we may consider it. Our influence will depend not on our opinion of our actions, but the world's opinion of them. Paul says, "It is good neither to eat flesh nor to drink wine nor anything whereby thy brother stumbleth or is offended or is made weak." These are the negative and positive answers of Christianity, and there is no uncertainty in them. The Christian is morally bound to respect the weaknesses of his brethren.

2. What is the answer of common humanity? Precisely the same as Christianity. Our common brotherhood declares that the strong shall assist the weak. There is a natural instinct within every man that condemns the imposition of the strong upon the weak and the failure of the strong to assist the weak. The debt of strength is recognized the world over. The rich who stand calmly by and see the poor in distress and need without offering their help are everywhere condemned. The physically strong man who would see a weaker brother in need of his strength and refuse it would be loathed and despised. This same principle holds in the moral world. He who can assist a weaker brother by refraining from a self gratification in which no principle is involved and does not do so commits a crime against humanity. The weakness of the weak, anywhere and everywhere, appeals to the strength of the strong, and the sincere Christian and the true man do not disregard such appeals. This principle applies to temperance and to all similar cases.

Bible Readings.—Lev. xix, 18; Prov. iv, 18; xix, 17; Math. v, 14; xxv, 34-46; John xiii, 15; Rom. xiv, 1; I Cor. ix, 19-22; xi, 1; Gal. v, 13; Phil. ii, 4, 5; I Pet. ii, 21; Rev. ii, 10.

Historical Names of Kings.

Some of the early kings of France ruled over Germany at one time when there was no division, but when there was a separate German nation the rulers gained many curious titles. "Fat" was one and "Blind" another. Also the "Child," the "Fowler." Then "Blood," "Red," "Black," "Superb" and "Sharp," while one king is particularly described as the "Holy and Lame."

The rulers of the provinces that now make up Spain had a number of kings called Great and Catholic. Then they also had the Monk and Gouty and included others who were infirm—Bad, Noble, Strong, Valiant, Gracious, Sickly, Impotent, Beneficent and Ceremonious. Ferdinand III of Leon and Castile was the Saint and Holy.

Hungary has her rulers described as Saint, German, Thunder, Venetian, Great and a King Mary who was probably the only woman who held a like title. Over Portugal reigned the Fat, Idle, African and Great and Perfect.

The people of Russia have generally had a hard time of it. We realize this today, and the names given to their kings show the reason therefor. None was good, wise or just, though there was Peter the Great, who did all he could to help his country. But how could a nation progress with rulers who gained the title of Terrible, Impostor, Proud, Lightfoot, Grim, Fierce and Lion?—Chicago Tribune.

For Tired Little Folks.

"Auntie, please tell me something nice to do. I'm tired of Sunday. It's too late to go out, and it's too early for the lamp, and the wrong time for everything."

"Well, let me see," said auntie.

"Can you tell me any one in the Bible whose name begins with A?"

"Yes, Adam."

"I'll tell you a B," said auntie—"Benjamin. Now tell me a C."

"Cain."

"Right," said Aunt Sarah.

"Let me tell D," said Joe, hearing our talk—"Daniel."

"And so we went through the alphabet, and before we thought of it we were called for supper, the house was lighted and we had a fine time. Try it.—Mayflower.

Christian Endeavor Notes.

A former member of the Kobe (Japan) society, who is now a student in this country, says that in the last few months—that is, since Dr. Clark's visit—the number of societies in Japan has increased from 4 to 20 and the membership from 80 to 800.

An interesting report from the society in Monastir, Macedonia, tells of the addition to its working force of the Sunday school committee, whose duty it is not only the securing of recruits, but also to secure the "regular attendance of the associate members, to see that the Sunday school lesson is learned beforehand, and that they bring their Bibles with them."

Rev. W. I. Chamberlain of Chittoor, India, who is at the head of Christian Endeavor work there, writes most encouragingly of the society of that faroff land.

At Makawao, Maui, in the Hawaiian Islands, there is a good society in the foreign Protestant church. Although some of the members must travel seven miles to the meetings, yet they come regularly, and every member takes an active part in the meeting. Nearly every member, too, has his name enrolled on the society temperance pledge.

THE SUNDAY SCHOOL.

LESSON XII, THIRD QUARTER, INTERNATIONAL SERIES, SEPT. 17.

Text of the Lesson, Rom. xiv, 12-23—A Temperance Lesson—Memory Verses, 19-21—Golden Text, Rom. xiv, 21—Commentary by the Rev. D. M. Stearns.

12. "So then every one of us shall give account of himself to God." This epistle may be divided into three sections and labeled doctrinal (chapters 1 to viii), dispensational (chapters ix to xi) and practical (xii to xvi). The practical, with which we now have to do, may be subdivided as follows: xii, character; xiii, relation to civil rulers; xiv, relation to brethren; xv, labors; xvi, Christian salutations. So that we find ourselves today dealing with the practical question of right relations to the brethren, and specially in the matter of eating and drinking. We are reminded of the judgment seat of Christ (verse 10; see also II Cor. v, 10) and of individual responsibility.

13. "Let us not therefore judge one another any more, but judge this rather, that no man put a stumbling block or an occasion to fall in his brother's way." In I Cor. iv, 5, we are exhorted to judge nothing before the time until the Lord come. In Jas. ii, 13, it is written that "he shall have judgment without mercy that hath showed no mercy, and mercy rejoiceth against judgment," while Jesus Himself said, "If ye had known what this meaneth, I will have mercy and not sacrifice, ye would not have condemned the guiltless" (Math. xii, 7). We are here not to live unto ourselves, but unto the Lord (verses 7, 8) and by a Christlike life lead people unto Him.

14. "I know and am persuaded by the Lord Jesus that there is nothing unclean of itself; but to him that esteemeth anything to be unclean, to him it is unclean." Jesus taught that "not that which goeth into the mouth defileth a man, but that which cometh out of the mouth" (Math. xv, 11). And Paul in another place teaches us that if one should see fit to accept an invitation to eat with an unbeliever the proper thing would be to eat what is provided, asking no question for conscience sake (I Cor. x, 27) unless the host should say, "This is offered in sacrifice to idols." Then a believer could not eat of it. The glory of God must be the one aim in all eating and drinking as well as in all else (I Cor. x, 31).

15. "But if thy brother be grieved with thy meat, now walkest thou not charitably. Destroy not him with thy meat for whom Christ died." This matter is more fully dwelt upon in I Cor. viii, 1-13, and is summed up in verse 13, "Wherefore, if meat make my brother to offend, I will eat no flesh while the world standeth." The great question with a believer should not be, "May I do this or that and not sin?" but "How can I best hasten His kingdom and win men to Him?"

16. "Let not, then, your good be evil spoken of." A perfectly lawful act, something that I might do or enjoy with a clear conscience before God, might be misunderstood by a weak brother and become to him a stumbling block, in which case it would be for the glory of God and the good of the weak brother for me to refrain from even that which in God's sight might be innocent.

17. "For the kingdom of God is not meat and drink, but righteousness and peace and joy in the Holy Ghost." The chief business of those for whom Christ died is not eating and drinking, but a right relation to God, our neighbors and ourselves. The foundation is righteousness (Rom. x, 3, 4; II Cor. v, 21), the state is peace (Rom. v, 1; Eph. ii, 14), and the manifestation is joy (John xv, 11, xvi, 24; Rom. xv, 13). All will be disorder and confusion until we seek first the kingdom of God and His righteousness (Math. vi 33), not for ourselves merely, but for all whom we may reach.

18. "For he that in these things serveth Christ is acceptable to God and approved of men." Having received Christ as our Saviour we are always accepted in Him (Eph. i, 6), but for this reason we seek to be accepted of Him as to our service. "We labor that whether present or absent we may be accepted of Him" (II Cor. v, 11). Salvation full and free is God's gift to whosoever will. We are saved by grace not of works lest any one should boast (Eph. ii, 8, 9; Rom. iv, 5), but we work because we are saved. This is profitable to men, and we shall be rewarded according to our works (Eph. ii, 10; Titus iii, 8; I Cor. iii, 8; Rev. xxii, 12).

19. "Let us therefore follow after the things which make for peace and things wherewith one may edify another." Our Lord and Saviour is the Prince of Peace, and a mind stayed on Him will have a perfect peace. Thus we shall be able to publish peace (Isa. ix, 6; xxvi, 3; lii, 7; Rom. x, 15).

20. "For meat destroy not the work of God. All things indeed are pure, but it is evil for that man who eateth with offense." "Unto the pure all things are pure, but unto them that are defiled and unbelieving is nothing pure" (Titus i, 15). In this lesson, however, it is the brethren—the believers—whom we are to be careful not to offend.

21. "It is good neither to eat flesh, nor to drink wine, nor anything whereby thy brother stumbleth or is offended or is made weak." It is only telling a part of the truth to select from this the drinking of wine and make it a so called temperance lesson, while the many other things that offend are left untouched. A good worker on the side of total abstinence may possibly be a stumbling block in other directions, and so in any other department of Christian work. The only sure way is to adopt II Cor. iv, 11, as a daily motto and be willing to die to self in all directions that the life of Christ may be manifest in our mortal flesh. When we can truly say, "Not I, but Christ, who liveth in me" (Gal. ii, 20), all will be well.

22. "Hast thou faith? Have it to thyself before God. Happy is he that condemneth not himself in that thing which He alloweth," for if our heart condemn us not then have we confidence toward God (I John iii, 21). To live always in the sight of the Lord with a constant aim to please Him will surely give a life free from offense. "Walk before Me and be thou perfect, upright, sincere," was God's word to Abram (Gen. xvii, 1, margin). To us the Spirit says through Paul, "Whatsoever ye do, do it heartily, as to the Lord and not unto men" (Col. iii, 23).

23. "And he that doubteth is damned (or condemned) if he eat, because he eateth not of faith, for whatsoever is not of faith is sin." It is sin to do what you doubt to be right; it is also sin not to do what you know to be right (Jas. iv, 17). If everything is tested by "Will it please Jesus?" all will be well. All life is either for self or for God and others. Christ was wholly for God and man, never for self, and could truly say to his Father, "I have glorified Thee on the earth." All right relations to man must spring from right relations to God. Without faith it is impossible to please Him, for he that cometh to God must believe that He is, and that He is the rewarder of them that diligently seek Him (Heb. xi).

The Australian delegate at Montreal promised to work for Floating Christian Endeavor on his return home.

The Endeavorers of McCune, Kan., have pledged themselves not to receive or post any mail matter on the Sabbath, believing, as they do, in the Sabbath as a day of rest for mail clerks as well as for others.

Ignorance About Beef.

"The business of a retail butcher will make the biggest liar of a man of anything on earth. Do you know that?" asked Thomas Tracy, the Union market butcher.

The man could not say that he knew it, and so Mr. Tracy explained his statement, saying: "Well, you see a retail butcher cannot carry a very large stock, but he must please all his customers. A man comes in and wants a steak 'fresh as possible, from beef not more than 24 hours killed.'

"The butcher says all right and cuts the steak from a 48-hour beef. Then a fellow comes along and wants a 96-hour steak. He gets one from the same beef, and so it goes, even down to the old Englishman who wants one a week or two weeks old that has become mellow. That is cut from a part of the quarter that has been bruised in handling, or if it has not it is no trick at all to bruise it a little."

"But do not these people catch on to the fact that they have been humbugged?"

"Not a bit of it. Why, nine people out of ten don't know a raw steak from a piece of roast."—St. Louis Republic.

America's National Dish.

Marion Harland once upon a time in the course of a foreign journey chanced to be dilating upon the cosmopolitan taste of the American who would eat haggis in Scotland, roast beef in England, bologna in its city, macaroni in Italy and frogs' legs in France. "And what," said a famous traveler who overheard the monologue, "is the national dish of the United States?" Mrs. Terhune always laughs, but ruefully, when she repeats this anecdote. "I thought," she says, "of telling him turkey. But they cook that better in France than in America. I thought of mince pie, but that is English as well as Yankee. At length I replied, with an assumption of ease and pride that I was far from feeling, 'Baked beans and buckwheat cakes.' I was well aware that my interlocutor had experienced both those dishes, and I was not surprised that his sole comment should be, 'Fancy!' in an involuntary tone of shocked surprise."—Philadelphia Press.

Where Roses Grow.

For many centuries the growing of roses for the manufacture of perfume has been an important industry in many places.

In the south of France and in Algeria rose culture is conducted upon a large scale. Shiraz, in Persia, and Ghazipur, in India, have long been important centers of the industry, and so has Medinet-el-Fayoum, in Egypt. But, most noted of all, yielding the largest quantity and the finest quality, is Kazanlik, in eastern Rumelia—the valley of roses.

This lovely valley lies on the southern slope of the Balkans, sheltered by their towering sides from the cold north winds, and is the center of a district which yields on an average nearly 4,000 pounds avoirdupois of attar of roses, representing a commercial value of $180,000.—New York Tribune.

The Uses of Hot Water.

Speaking of hot water, it is wonderful how many good purposes it serves. A compress of linen wrung out of hot salt and water and applied to the chest, covered entirely and closely with flannel to prevent the taking of cold, will ease pain and do away with the irritation which culminates in frequent coughing. Hot water at the back of the neck and behind the ears will cure that nervous weariness and hysteria which overcome one after a hard day's work. Hot water taken internally before a meal is an aid to digestion.—Philadelphia Times.

A Tribute to American Newspaper Women.

Mme. Hyacinthe Loyson has been telling a representative of the Pall Mall Gazette her impressions of America. She expressed much pleasure in having met many lady reporters, who did their work splendidly and added the charm of femininity to journalism. "I think," she observed, "it would have been impossible to have brought the republic of the United States to the successful position it holds today without this woman's influence. In America she has proved herself to be the real help."

The Tomb of Noah.

The tomb of Noah is supposed to lie in the small town of Nakhitchevan, on the plain of Ararat. The burial place is at the side of the broken walls of an abandoned fortress in the midst of a vast plain which is literally covered with the remains of bygone glories.

"I speak not out of weak surmises, but from proof."

LARD
MUST

DR. JOHNSON'S SPECIALTIES.

JOHNSON'S ANODYNE LINIMENT

UNLIKE ANY OTHER
FOR HOUSEHOLD USE.
Was originated and first prescribed by
AN OLD FAMILY PHYSICIAN
in 1810. Could a remedy without real merit have survived over eighty years?
Generation after Generation
Have Used It.

For INTERNAL as much as EXTERNAL use. It is Soothing, Healing, Penetrating. Once used always wanted; and dealers say "Can't sell any other kind."

Every Mother should have Johnson's Anodyne Liniment in the house for Croup, Colds, Sore Throat, Tonsilitis, Colic, Cuts, Bruises and Burns. Stops Pain, Cramps, Inflammation in Body or Limb. Cures Coughs, Asthma, Catarrh, Bronchitis, Cholera Morbus, Muscular Rheumatism, Lame Back, Stiff Joints, Strains, best remedy made. Inhale for Nervous Headache. Full particulars free. Sold everywhere. Price, 35 cents; Six, $2.00. If you can't get it send to us. I. S. JOHNSON & CO., 22 Custom House St., Boston, Mass.

The Norwich Weekly Courier is the best weekly newspaper in New England at 50c a year.

YOUNG MEN'S CHRISTIAN ASSOCIATION.

The Norwich Young Men's Christian association has advanced to a position where plans for a new and commodious home to be built on Broadway have been accepted. A sketch of the new building is now on exhibition in the rooms of the association, and the public have been invited to call and see this pretty structure, the architecture of which is not its greatest attraction or best hope.

Its open doors will provide a wholesome place for the young men of Norwich to spend their time, and it not only strives to arouse the ambition of the young man to improve spiritually, but it surrounds them with good company and good [illegible], and by its educational classes [illegible] them to improve their physical condition, to add to their personal accomplishments, to increase their knowledge and to have high and noble aims.

Such a home for young men adds to the attractiveness and good reputation of the town in which it is located, and as a beneficent institution proclaims constantly the Christian sincerity and integrity of the people by whose offerings it was built.

The fund is now nearly sufficient to do the work, and the remainder should be speedily subscribed to secure for Norwich one of the noblest institutions of modern times.

A LIVING INDUSTRY.

The young and growing American tin plate industry which has grown up under the McKinley tariff, and been ridiculed by the democratic press and an attempt made in Washington to handicap it, has come to stay; and the Bourbon [illegible] that "it is merely the ghost of a British product" is refuted by ample testimony. The president of the St. Louis Stamping company says:

"The question of the production of tin plate is only a question of labor. The manufacture of American tin plate is established and it will continue. If protection is removed, wages will be reduced. It is charged that the American tin plate industry consists only of dipping imported black plate in imported tin in imported kettles by imported Welshmen. What are the facts? I can speak for my establishment only. The product of our mills is made from American ores smelted in American furnaces, rolled in American mills, dipped in twice as many American kettles of American manufacture as of foreign make, and there are not over 50 out of 700 of the employes who are not American citizens."

The Boston Journal remarks upon this statement, "that inasmuch as the foreign makers import their ore from Spain and their tin from the East Indies, American tin plate would seem to be considerable more American than Welsh is Welsh."

THE CHESTER BRIDGE HORROR.

The inquiry into the railroad horror at Chester, Mass., which launched a large portion of a passenger train into the Westfield river shows that incompetent men and a reckless "busting" of rivets by a gang of laborers for several hours in violation of engineering principles and even ordinary good sense, was the cause of the loss of life, the loss of property and the crippling of a score of people.

The Engineering Record publishes a full, illustrated report of the disaster, and in commenting upon it says:

"It would have been a matter of common prudence and ordinary foresight to place staging under the span before making the contemplated re-enforcement, which also should have been so arranged as to improve, rather than possibly make worse, a bad form of chord section, and no consideration can be made to justify these fatal omissions.

"To sum up the matter, a bridge admittedly too weak and badly designed to safely carry its loads was being reinforced (?) by a method which reduced the strength of one of its main members by a [illegible] serious, but unknown and unknowable, amount through a violation of well-known engineering principles, probably aggravated by the carelessness of workmen, and yet was required to carry one of the heaviest passenger locomotives and trains at a high rate of speed; hence it fell."

SENATOR FAULKNER'S AMENDMENT.

In Senator Faulkner's amendment to the silver bill the silver men have shown their hand. There is no reason why silver should not be used in this country as a subsidiary coin; but there are good reasons why one hundred and eighty millions more should not be added to the six hundred and fifteen millions now representing the silver coinage of the government.

The retiring from circulation of all notes, save the legal tender greenback, of denominations less than $10, and substituting therefor silver coins, is a movement to force a large quantity of silver into use by taking away from the people one hundred and eighty millions in bills of small denominations.

This plan does not have the merit of being a new way to remove from the reach of the people the most convenient kind of money for common use. England forces coin into circulation by not allowing the people to have paper money in denominations below twenty-five dollars. In France the lowest denomination of paper money is the same as that proposed by Mr. Faulkner's amendment, ten dollars. The common people of Germany, of India, and of China are not allowed the convenience of paper money of small denominations; but it should be a long time before the American people will submit to any such methods of forcing upon them the use of heavy coins to serve the selfish purposes of "the silver kings" of the west.

A safe, convenient and sound currency is what the country needs, and there is no reason for adopting a plan which will place the light and convenient currency in the hands of the few, and force the people to accept a coin which in this country has come into disfavor more on account of its heft than because it is not intrinsically worth its face.

EDITORIAL COMMENT.

The Ferris wheel is to be the great attraction at Coney Island next summer.

It will be some time before Miss Esther Cleveland will make her debut in society.

"The public schools are the mainstay of the republic;" and where the mainstay is, there is the right place for the flag.

The Ansonia Young Men's Christian association is appealing to the public for funds which it must receive or close its doors.

The brewers claim the liquor traffic in New York is not as profitable as people think, and that 10,000 saloon-keepers have mortgages upon their property.

Cleveland seems to be taking too much meat off the Tammany tiger. The offices are doled out so slowly to it that the animal is becoming a fit subject for the crows.

King William is declared to be "the first servant of the state in Germany." By the way he bosses people around we should think he was the first servant in some rich American family.

Senator Stewart's resolution, which was intended to find out how his fellow senators stand in relation to national banks, at the foot of the calendar, looks like the losing hand in a game of poker.

The southern states pension the old confederate soldiers and show marked devotion to all who served them in rebellion, but they are solidly opposed to the honoring of the union veterans by the nation they fought to save.

When Nancy Hanks meets any other trotter on the turf she smiles and goes, but when she is running against her own record a look of despair comes over her countenance. She can't find the reserve speed to beat her best performance.

The anxiety at the non-arrival of the English yacht Valkyrie is increasing. At the time of the last hurricane it is thought she must have been in the vicinity of the Azores. She has been out now three weeks and has not been seen or spoken.

The brewers of the country have a very poor opinion of the Hon. David A. Wells' scheme for raising revenue, and are quite united in the assertion that this direct tax upon them will not increase their burdens as they shall shift it upon the shoulders of the people.

The wheelmen distinguished themselves at Metz during the great German military exercises, as night couriers, armed with revolvers, and with a bayonet attached to each wheel, carrying despatches in place of mounted couriers. The results are said to have been most satisfactory to the staff officers.

The selectmen of Avon, Canton, Burlington, Barkhamsted, Farmington, New Hartford and Simsbury have agreed upon a uniform peddlers' schedule, running from $1 a year for book agents to $50 a year for foreign fruit peddlers. The peddlers do not like the scheme and denounce it as "a restriction upon freedom, trade and industry."

The Norwich Weekly Courier is the best weekly newspaper in New England at 50c a year.

VOICE OF THE PRESS.

In Awful Peril.

David A. Wells calls himself a democrat, but his proposition to double the internal taxes on beer and whisky involves him in awful peril of being accused of treason to cherished democratic principles.—[Boston Journal.

Still Waiting.

At last accounts Joseph King, the blind pensioner of Chelsea, had not had his pension restored to him, although he had furnished the pension bureau with the required evidence. Meanwhile he and hundreds of others like him are in want.—[Boston Journal.

Distress Among the Unemployed.

The distress among the unemployed mechanics in Lynn is so keenly felt that a citizen has sent to The Item $1,000 to be used in sending coal where it is needed most. Such is the complete plunge from the humming industry and good wages of 1892 to the commercial distress of 1893.—[Taunton Gazette.

The Southerners Protest.

Southern manufacturers are already coming before the ways and means committee to protest against any reduction in the iron duty, and they have informed their congressmen that such a decrease would close the southern iron mills. It seems safe to say that the duty will not be lowered very much.—[New Bedford Standard.

Uncle Jerry's Latest Want.

Jerry Simpson wants congress to allow each member 100 copies of The Congressional Record, instead of only twenty two as at present, and we are not sure that his request is not a reasonable one. A good deal of fun is poked at this publication, but the number of a congressman's constituents who like to read it undoubtedly exceed twenty two, and the number is growing all the time.—[Boston Herald.

They Come to Learn.

Fifty-two skilled French artisans have come here to study American industries and the methods of American workingmen. Doubtless they will learn a great deal. But might it not be to the advantage of American artisans to ask the Frenchmen a few questions in the brief intervals between lessons? Perhaps the Yankee workingman could learn a thing or two from the visitors.—[N. Y. Tribune.

A Newsboy's Report.

A Hartford newsboy earned money enough selling papers to go to the World's fair. He returns with the most humiliating information we have yet heard about Connecticut exhibits. On the display of native woods he found such spelling as this: "Lim," "a curis formation," "solidly," "agreding," "hickry," "probely," and much more of the same kind. This rather tends to take the shine off our truly commendable educational exhibit per se.—[Bridgeport Standard.

Wattersonian Gas.

The more thorough and sweeping the reform the surer and speedier the relief. Every evil prediction is the voice of Mammon shrieking the torment of the damned. Every threat of ruin and confusion is the devil's bellman vainly seeking to sound hell's fire alarm. The long night is over. The dawn of a longer day has come. Presently its glorious sun will rise to brighten every prospect, and as the painted harlot of Protection, her orgy ended and her beauty gone, wends her way over the hill to the boneyard millions of honest people will rejoice, wondering how the bleared and beastly thing could work so many spells and last so long.—[Henry Watterson in Louisville Courier-Journal.

The Norwich Weekly Courier is the best weekly newspaper in New England at 50c a year.

Avoid Danger.

Don't put an enemy in your mouth to steal your teeth. Avoid deleterious dentifrices. Rely on SOZODONT. Nothing can be purer or more certain to prevent the teeth from becoming diseased. After each brushing they glitter like pearls, and the gums grow rosy red.

A man's wife should always be the same especially to her husband, but if she is weak and nervous, and uses Carter's Iron Pills, she cannot be, for they make her "feel like a different person," so they all say, and their husbands say so too!

Piles! Piles! Itching Piles!

SYMPTOMS—Moisture; intense itching and stinging; most at night; worse by scratching. If allowed to continue tumors form, which often bleed and ulcerate, becoming very sore. SWAYNE'S OINTMENT stops the itching and bleeding, heals ulceration, and in most cases removes the tumors. At druggists, or by mail, for 50 cents. Dr. Swayne & Son, Philadelphia.

Not one in twenty are free from some little ailment caused by inaction of the liver. Use Carter's Little Liver Pills. The result will be a pleasant surprise. They give positive relief.

"How to Cure All Skin Diseases."

Simply apply SWAYNE'S OINTMENT. No internal medicine required. Cures tetter, eczema, itch, all eruptions on the face, hands, nose, &c., leaving the skin clear, white and healthy. Its great healing and curative powers are possessed by no other remedy. Ask your druggist for SWAYNE'S OINTMENT.

If there ever was a specific for any one complaint, then Carter's Little Liver Pills are a specific for Sick Headache, and every woman should know this. They are not only a positive cure, but a sure preventive if taken when the approach is felt. Carter's Little Liver Pills act directly on the liver and bile, and in this way remove the cause of disease without first making you sick by a weakening purge. If you try them you will not be disappointed.

D. MACKENZIE, Supt.

ON THE WEST SHORE R. R.

An Engineer and Conductor's Experience.

Mr. Wm. Huston, of Weehawken, N. J., the oldest engineer of the West Shore R. R., a member of Unity Division, No. 335, Brotherhood of Locomotive Engineers, suffered for years from an aggravated kidney trouble and dyspepsia.

In conversation with our reporter, Mr. Huston spoke in glowing terms of Dr. David Kennedy's Favorite Remedy as the one medicine that does what it is recommended to do "For" said Mr. Huston: "I had been under the treatment of some of the best physicians, and used many preparations without deriving the least benefit. One day Conductor Fraser of our road said to me, 'If you want to get well and cure that kidney trouble and dyspepsia, just use Dr. Kennedy's Favorite Remedy.' I acted upon Mr. Fraser's advice, and used Favorite Remedy but a short while, when my old troubles passed away and I have been sound and well ever since.

One of Norwich's physicians said: "I prescribe Dr. Kennedy's Favorite Remedy altogether now for dyspepsia, kidney or liver complaints, rheumatism, and all urinary diseases, instead of the old time medicines, as the results from its use are quicker and more satisfactory, and I believe every dyspeptic or rheumatic victim should use it." sep15wa8

SAYERS' PROPOSAL.

Will Reduce Permanent Appropriations of Congress.

HOPES TO HAVE MONEY THEREBY.

Outline of the Caldown Contemplated—Going Slow on Tariff Bill.

WASHINGTON, Sept. 15.—The so-called permanent appropriations of congress and their continuing appropriations of indefinite amount have always been an element of uncertainty in estimating the annual expenditures and balancing the revenue against them and a stumbling block in the way of retrenchment. The system has grown up with the government, getting back to the earliest days of independence. Every effort at revision and rearrangement of these expenditures has hitherto failed of its purpose.

The first act under which a permanent appropriation was placed upon the books of the treasury was approved April 14, 1790,

More Than a Hundred Years Ago,

and related to the treatment of trust funds arising out of decedents' estates. Another appropriation which has come down from the last century is that made to the naval hospital fund.

In all there are 120 of these continuing appropriations, some of which carry a fixed sum annually but most of them are of indefinite and varying amounts. Besides there are the various funds growing out of treaties and settlements with Indian tribes.

Representative J. D. Sayers of Texas, the new chairman of the appropriations committee, has undertaken the

Task of Effecting a Reform.

Under the plan proposed by him appropriations for the following objects only will remain on the statute books as permanently continuing appropriations.

For payment of premium, interest or principal of the public debt, or of bonds known as District of Columbia bonds, or bonds issued to Pacific railroad companies; expenses pertaining to refunding taxes illegally collected; payment of drawback allowances under internal revenue laws; expenses of the marine hospital service; repayment to importers of excess of deposits, and payment of debentures, drawbacks, bounties and allowances, and refunding proceeds of unclaimed merchandise under the customs revenue laws; police and firemen's relief funds District of Columbia; support of soldiers' homes; Indian trust funds deposited under act of April 1, 1880; navy pension fund. All other appropriation acts will be repealed.

Framing the Tariff Bill.

The Democratic majority of the ways and means committee is preparing to proceed with great caution in framing the new tariff bill, and may take a little more time than has generally been anticipated. This is one reason why some of them are doubtful about the wisdom of the plan of Representative McCall to fix a date now when the new duties shall take effect. They hope to get the bill in force, so far as raw materials are concerned, by July 1 next, but they believe that a delay of a month or two, spent in making the bill perfect, is preferable to the hurried enactment of an inconsistent and confused measure.

The method pursued will probably be the same as that in the preparation of the Mills bill. The work will be limited to the Democratic members

Until the Bill Is Completed

and the mechanical labor of putting it in shape will be intrusted to a sub-committee. This sub-committee, when the Mills bill was prepared, drew a bill in the rough, and it was then taken up, item by item, in a conference of all the Democratic members. A great many changes were made, and the bill recommitted to the sub-committee to put the changes into proper shape. This process was repeated several times over before the bill was ready for presentation to the full committee, and even then a number of changes were made by the committee of the Democratic caucus before the measure passed the house.

ELECTRICS COLLIDE.

Two Cars Badly Damaged and Several People Injured.

AMESBURY, Mass., Sept. 15.—Two cars on the Hudson, Merrimac and Amesbury railroad crashed together this morning near a turnout between Merrimac and Amesbury. Both cars were badly damaged, but no one was seriously injured, although several people were badly bruised.

The regular car from Haverhill, followed by a special filled with the members of the Massachusetts club, reached the turnout on time and waited for the usual time for the up train to arrive. It was late and the two cars started for Amesbury. When rounding the curve above the turn-out the front car crashed into the regular car from Amesbury.

The passengers hurt were: Albert Wiley, leg injured; Mrs. F. E. Hall, Merrimac, badly shaken up, bruised and ankle sprained; James F. Flannagan, Amesbury, ankle sprained; Miss Kida Brunell, Miss Nellie Hanley, Miss Maud Percival and Miss Little, all of Amesbury, badly shaken up and bruised; Edwin and Melvina Lord, Silver Springs, R. I., legs injured; Miss Mamie Sharon, Great Falls, arm injured.

FRAUD AT WORLD'S FAIR.

Investigation Shows a Shortage of $106,-000 in Transportation Department.

CHICAGO, Sept. 15.—The Tribune this morning says: Evidence of irregularity, or perhaps fraud, has come to light among the minor employes in the transportation department of the World's fair. The entire contents between the covers of one bill register have been torn out, as also a number of leaves from another. The sum involved may be large or small. Estimates vary.

W. H. Holcomb, the general manager of the transportation department, has had as chief clerk a Mr. Christmas. Under him was C. A. Featherstone, head bookkeeper. It was under Mr. Featherstone, it appears, that the accounts of the department were kept, and he, it is expected, may be able to assist officials in explaining the mutilation of the books.

He, it is said, left the city Wednesday for St. Paul. The statement was made last evening that the investigation thus far shows a shortage of $106,000.

WORLD'S FAIR DIRECTORS

Will Consider the Wisdom of Keeping Fair Open Until January.

CHICAGO, Sept. 15.—After a conference with a number of foreign commissioners, the World's fair directors have called a special meeting for next Monday night to discuss the feasibility of extending the exposition until Jan. 1, 1894. It has been understood for some time among the managers of the fair that it would be kept open later than Oct. 30, the time fixed by congress, if the attendance in the latter months seemed to justify such a move.

The heavy gate receipts and sudden increase in the regular day crowds gave the directors encouragement enough to justify serious consideration of the project. The director general was consulted, and while he thought it impossible to make an extension for another year, he said it might pay to postpone the end until the 1st of January. A number of the foreign commissioners took the same view of the matter when it was presented to them.

Stock and Crops Cremated.

SOUTH DEERFIELD, Mass., Sept. 15.—The barn owned by Austin Billings of this place was destroyed by fire early this morning. The barn contained a year's supply of hay and grain, and the tools necessary for farming, six cows, two horses, a pair of oxen and the '92 and '93 crops of tobacco. These are a total loss, but the building was fully insured. The damage by fire is estimated at $6000. The origin is not known.

Thomas M. Ware Assigns.

BOSTON, Sept. 15.—Thomas M. Ware, doing business as Thomas M. Ware & Co., has assigned to George H. Fowler. Mr. Fowler has issued a circular to the creditors, stating that Mr. Ware has assigned all his property to him for the benefit of all the creditors, "without preference or priority, except to help, and for taxes, as provided by law."

Elected These Officers.

EXETER, N. H., Sept. 15.—The Newmarket Manufacturing company has elected these officers: Clerk, Timothy M. Joy; treasurer, T. Herbert Sawyer; directors, John D. W. Joy; George L. Silsbee, William F. Wharton, Dudley D. Pinkman, Benjamin F. Haley and Charles W. Jones.

Seven Days' Quarantine.

LISBON, Sept. 15.—In consequence of the government's action in declaring New York to be a cholera infected port, all vessels which left that port after Sept. 1 will be subject to seven days' quarantine upon arrival here.

TO REDUCE PREMIUMS

New Rules For the Trials of the New Battle Fan Uncle Sam.

WASHINGTON, Sept. 15.—The large speed premiums which have been earned this year by contractors for naval ships has led the department to formulate new rules for the guidance of inspection boards in the trials of three new ships which are to be held this month.

Hereafter the steam pressure will not be allowed to exceed that which the engines were designed to generate, plus 5 per cent. This will result in some disadvantages to contractors, and may reduce the premiums earned by the limitations placed on the measure, but the effect will be to prevent further wrecking of vessels on their trials and severe and undue strains on the engines by the attempts of builders to pile on all the steam the boilers are capable of generating in attempts to carry off large premiums.

The first vessel to which the new instruction will apply will be the cruiser Montgomery, at Baltimore, which will have her official trial about Sept. 25. The greatest pressure to allow her contractors will be 168, or 5 per cent in addition to the 160 pounds she is designed for. The Detroit, her sister ship, built on the same designs and with the same boiler capacity, when tried, ran up her pressure to 171, and dropped it to the normal of 160, but at the high pressure one of the safety valve heads was blown off, and toward the end of the trip she was compelled to finish with steam blowing at a great rate.

What effect this will have on the trial of the new triple screw cruiser Columbia is awaited with interest by engineer officers, but few of them believe it will tend to reduce her speed to an appreciable extent.

The rule, at any rate, is undoubtedly intended to work to the advantage of the government, and may save it some of the large premiums. This year the premiums paid out have amounted to nearly half a million dollars, and with the trial of four more ships in the next few months the amount may be increased to $1,000,000. Cramp alone carried off $350,000 on the New York, and the Columbian Iron works $150,000 for the Detroit, while the Machias and Bancroft also won good sized [illegible]. Should the Montgomery come up to the performance of her sister ship her contractors will be $100,000 in, for the two vessels in premiums, and if the Columbia does as well as the Orange expect they will have another $350,000 clear gain. The Union Iron works' people are confident of getting a knock-out of the cruiser Olympia, and carry off the same amount won by the New York, and the builders of the Castine and Marblehead are equally confident of large rewards.

Whether the effect of limiting the steam pressure will result in decreasing the premiums and still allow the ships to fulfill all requirements for speed remains to be seen, but the advantages are all with the government on every point.

Arresting the Boodlers.

SPOKANE, Wash., Sept. 15.—Another city councilman charged with boodling was arrested yesterday and released on a $5000 bond to appear tomorrow. He was Charles K. Knox, who has held the position for the past four years. Knox is accused of being bribed to the extent of $150, only $50 of which was paid. Papers are ready for the arrest of four councilmen and for other city officials on deals which involve nearly $60,000.

First Snow of the Season.

LAWRENCE, Mass., Sept. 15.—Lawrence had its first snow storm of the season this morning. Snow fell in large flakes before dawn, but the storm turned soon to rain. At 9 o'clock a warm wave followed, and now the weather is sticky and warm and uncomfortable.

Burglar Got $1000.

MEDFORD, Mass., Sept. 15.—The residence of John P. Jackson, 26 George street, was burglarized early this morning and over $1000 stolen. Mr. Jackson grappled with the burglar and his back was so severely injured that he was confined to his bed.

Burglars Got Only a Few Cents.

LIVERMORE FALLS, Me., Sept. 15.—Burglars entered the postoffice here last night, but secured only a few cents. The safe at George Chandler's grist mill was drilled, but not opened.

FLOWER AND TREE.

The orange passion flower is a native of South Carolina.

Marigolds and calendulas are steady bloomers through the summer and fall until cold weather sets in.

More than 40,000,000 young trees, it is officially reported, have been planted in Switzerland in the last seven years in the effort to "reforest" that country.

Plants will thrive well in a room heated by an open fire or by hot water pipes and lighted by oil lamps, while they will shrivel and die in a furnace heated room lighted by gas.

A pear tree which measures 33 feet in height and 8½ feet in circumference is still bearing fruit on the farm of Frank Tucker near Mount Clemens, Mich., where it was planted over a century ago by Mr. Tucker's grandfather.

More Important.

Excited Citizen—If you'll send a squad of policemen along with me I'll show you where there's a gambling [illegible] in full blast.

Police Inspector—Haven't any to spare, sir. They've gone to arrest a street [illegible]er.—Chicago Tribune.

TOWN DEVASTATED.

Villa Canas Destroyed by Furious Waters.

THE FLOOD CAME IN THE NIGHT.

Houses and Sleeping Inhabitants Swept Away.

MADRID, Sept. 15.—The town of Villa Canas, in the province of Toledo, has been devastated by floods, and a large number of lives have been lost. Heavy rains have fallen in the province, and the town, which is situated on rather low ground, was inundated. The people had no thought of danger, though the many small streams in the vicinity of the town were rapidly swelling and threatened to overflow their banks.

Late last night, when most of the inhabitants had retired, the waters from the hills, where there had probably been a cloud burst, swept down on the doomed town, carrying away almost everything in its path.

Huge trees that had been torn from the ground swept along on the crest of the rushing waters and were

Hurled With Frightful Violence

against the houses in the path of the onrushing tide. These trees acted as battering rams, and carried houses before them.

So sudden was the catastrophe that the affrighted people had no possible chance of saving themselves. Men and women, awakened from sound sleep by the tottering of their dwellings, frantically rushed to windows and leaped out, only to be engulfed in the water that was now hissing and seething about the falling houses.

Other houses that escaped being demolished by the floating debris were rapidly undermined by the waters, and in many cases collapsed before their occupants could leave them.

The masses of wreckage going down on the flood in some instances afforded a means of escape to persons who

Would Otherwise Have Been Drowned.

Many men, women and children, clutching in the darkness for anything that would support them, grasped the trees and other floating wreckage and were carried to places of safety.

A large number of lives were saved in this manner. In a number of cases the persons thus saved were very badly injured and it is probable that some of them will die.

The bodies have been found of several women who had apparently made heroic efforts to save themselves and their children. In one place a handsome young woman was found with an infant clasped to her breast with one hand, while with the other she held the hand of a little boy. All were dead.

It is positively known that 40 persons were drowned, and it is believed that the bodies of many others are buried under the ruins of their homes.

WHOLESALE HANGING.

Whole Family Strung Up Because of a Poisoned Well.

ABERDEEN, Miss., Sept. 15.—Two weeks ago, as previously reported, Thomas Woodruff and five children, living near Quincy, were taken violently ill and two children died. He and the others still linger, with little hope of recovery.

Examinations of the well on the premises disclosed three packages of "Rough on Rats" in it, and suspicion pointed to a negro, Benjamin Jackson, who was arrested and taken by a crowd of unmasked men from the officers during an inquest and hanged. The next day the jury examined Mahaley Jackson, Ben's wife, and Lou Carter, his mother-in-law, who testified to a knowledge of Ben's intention to purchase poison for that purpose, but the jury discharged them. A crowd of armed men also took them out and hanged them as participants in the conspiracy.

Mahaley Jackson also testified that Rufus Broyles, a well known negro man of the neighborhood, had furnished the money to buy the poison, and after the first lynching he hid away and eluded discovery until Wednesday. He was seen at Woodmill, a few miles from the scene of the other tragedy, and yesterday morning his dead body was found hanging to a limb in that vicinity.

No parties have yet been arrested, but the grand jury is thoroughly investigating the case.

MILL CREEK WIPED OUT.

Junction City Burning and Will Be Entirely Destroyed.

STEVEN'S POINT, Wis., Sept. 15.—A message to the superintendent of the Wisconsin Central railroad from Junction City, 10 miles west of this city, where the Central crosses the Wisconsin valley division of the Chicago, Milwaukee and St. Paul road, says the town is burning and will be totally destroyed.

Mill Creek is said to have been wiped out of existence, and many farmers in the Black river district will be rendered homeless.

This city is surrounded by forest fires, though there is no immediate danger from them.

The forests between here and Mosinee have been blazing for several days, and it is feared that many farmers in that territory will lose their crops and cattle, even if they are fortunate enough to escape with their lives.

Policeman Dead.

BOSTON, Sept. 15.—Patrolman Lewis H. Wilson of division 11 died this morning of typhoid fever at the city hospital. He had been ill for some time. Officer Wilson was born at Mattapan on June 24, 1857, and was appointed to the police force Jan. 10, 1885.

Incendiary Used Kerosene.

LOWELL, Mass., Sept. 15.—Henry Loomountain reports to the Lowell police that an attempt was made to burn his house in Dracut last night by the use of kerosene. He was awakened in season to prevent himself and family being burned.

Will Not Attend the Fair.

BOSTON, Sept. 15.—A Washington special says that President Cleveland has announced that neither himself nor Mrs. Cleveland will attend the World's fair, as has been expected.

Funeral Services Saturday.

BOSTON, Sept. 15.—The funeral services of the late Fred L. Ames will be held in the Unitarian church at North Easton, Saturday, at 12 o'clock.

Steamer With Cholera Passengers.

BUENOS AYRES, Sept. 15.—The steamer Romo from Rio Janeiro has arrived here with several of her passengers suffering with cholera. The health officers have forbidden anybody to land, and have ordered the steamer to leave the port. It is reported that she will go back to Rio Janeiro.

Burglars at Newton.

NEWTON, Mass., Sept. 15.—The residence of John Briggs, Parker street, was broken into last night and $60 in money stolen. Entrance was effected through the rear window. Nothing was disturbed in the house except the money stolen, and no clue has yet been obtained to the identity of the thieves.

PEN, CHISEL AND BRUSH.

Dr. Edward Eggleston is at work upon a novel which he says will probably be the last he shall write.

Mr. Diefenbach, a Bavarian painter, refuses to wear modern clothes and prowls about the streets of Munich in a sort of toga.

Miss Olive Schreiner's promised new novel is to be a study in the comparative ethics of men's treatment of men and their treatment of women.

Miss Lucy Garnett is given a pension of $500 a year by the British government in recognition of her literary merits, and to enable her to prosecute her researches in oriental folklore.

Mrs. Eva Wilder McGlasson, whose writings are as delicate and artistic as the frostwork one finds on the winter window pane, confesses to her impossibility to produce more than six short stories in a year's time.

Eugene Field says: "I'm going to write a sentimental life of Horace. We know mighty little of him, but what I don't know I'll make up. I'll write such a life as he must have lived—the life we all live when boys."

Ephraim Keyser, the sculptor, has been appointed instructor in modeling at the Maryland institute, Baltimore, in the schools of art and design. Mr. Keyser's finest work is an angel of heroic size designed for the tomb of President Arthur.

WHITE CITY WAIFS.

The World's fair has a display of clocks showing the time at all the principal cities of the world.

The boys who sell official catalogues on the World's fair grounds in Chicago are dressed in a glaring red uniform.

The sales of the beautiful bogwood carvings at Lady Aberdeen's Irish village in the Midway plaisance have been so great that the supply is kept up with difficulty.

Mrs. Ellen C. Johnson, who is superintendent of an English prison for women, encourages the ones who improve by making successive changes in their dress. She has taken to the World's fair dolls dressed to show the different grades.

Among the agricultural exhibits at the World's fair is a collection of curious articles found in the stomachs of cattle slaughtered at the Chicago stockyards. The collection includes such delicacies as iron bolts, coins, hairpins and doorknobs.

THE STOCK MARKET.

Dealings in Leading Securities in Boston and New York.

BOSTON, Sept. 15.—In the outside market call money is quoted at 8 to 10 per cent, and time money is nominally 8 per cent.

Conditions in the stock market were without change this morning, except that there was a more pronounced tendency toward reaction. Talk is mixed, and on one side still swings about poor business, short crops and reduced railroad earnings, and on the other about the abnormally low point which stocks touched during the panic, the return of confidence as evinced by the freer movement of funds, and the increasing signs of industrial revival. For a continuance of the present rally until at least next week reliance is placed on tomorrow's statement of the New York banks, which is almost certain to be a favorable one. The belief is not that there will be any increase in deposits, but that the loan accounts will show some cancellation during the week and that the banks will have gained through the interior currency movement, thus strengthening their position.

London came from ¼ to ⅜ higher this morning, except for Louisville and Nashville and St. Paul. The declaration of a dividend by the directors, it is thought, will complicate the labor question with which the latter road has to deal. If its earnings have been such as to justify the regular dividend, the men argue, then there is nothing to justify a cut of wages. In point of activity Sugar Refining continued to hold its place, though quotations were weaker. Opening ⅜ down at 88¼, it fluctuated between 88¼ and 88⅞, while the preferred declined ¼ to 88⅞. General Electric, however, was strongest on the list during the morning, the sales being for small lots, however, and to the shorts to cover. Opening steady at 47, the rally took it to 48.

In the railroads Union Pacific continued heavy, fluctuating between 21¼@22. New York and New England advanced ⅜ to 25¼. President McLeod, who is in Philadelphia in the interests of the road, is quoted as saying to an inquiry as to his future plans concerning the extension of the property: "I have determined to maintain discreet silence, but may say something later on." Atchison held in the fractions above 20, while Chicago, Burlington and Quincy was steady between 80@80⅝.

LET THE MOTHERS READ!

Nature's Remedy for Sickly, Ailing Infants is Lactated Food.

"Let me have the mothers on my side, and I don't care what others think," said a great observer, speaking of his reputation.

On nothing are the mothers of Norwich so united as on the excellence of lactated food for babies.

The praise of physicians and mothers, and stronger testimony yet, the thousands of homes all over the land, radiant with plump, hearty children, who have been brought up on this purest and most nourishing of all infant diets, make lactated food one of the most famous products of modern care and diligence.

In these days of late summer and early fall when cholera infantum and diarrhoea bring even strong, healthy children in two or three days to the verge of the grave, the physicians order lactated food, not only because it is the most nourishing, strengthening, readily digestible food for the baby, but also because it is absolutely pure.

There is no secret whatever about it. It is simply a food.

It is the most perfect substitute there is for pure mother's milk. It's basis is sugar of milk, and with it are combined the nutritive qualities of the three great cereals, wheat, barley and oats, thoroughly cooked at high steam heat, and made a "pre-digested," palatable, nutritious food. Babies take it with relish. It is retained in the stomach when other foods are rejected. It restores sickly, ailing, fretful little ones to health and strength.

It has the qualities that nature intended for the infant's diet.

The twin babies of Mrs. T. H. Hickman, of Atlantic Highlands, N. J., were brought up entirely upon lactated food, which has saved the lives of thousands of little ones whose mothers have been unable to nurse them at the breast.

At this season of the year an infant's stomach, when the little one has been fed upon cow's milk or has been imperfectly nourished at the breast, or has been fed upon some inferior food, is often weak and incapable of converting such food into nourishment sufficient to keep up its strength. Lactated food should at once be given, and the history of these cases, as told by physicians, where a change to lactated food is made, invariably shows a rapid renewal of flesh, and a return of sound digestion, health, and happiness. Try lactated food. It is nature's remedy for the ills of childhood. It is the best possible food. sep16d

IRON AND IRON WORK.

A. H. VAUGHN & SONS
IRON CASTINGS.

The Bulletin.

Norwich, Saturday September 16 1893

The Bulletin should be delivered everywhere in the city before Six a. m.

Subscribers who fail to receive it by that time will confer a favor by reporting the fact to the Bulletin Co

The Norwich Weekly Courier is the best weekly newspaper in New England at 50c a year.

The Weather Today.

Indications for Connecticut: Southeast winds; generally fair weather.

NORWICH AND VICINITY.

CITY NEWS.

A new hydrant was put in Friday at the Universalist church corner.

At 9 a. m. Sunday the steamer Ella will make an excursion to Greenport.

Officer John W. Norris was on duty last night after a week's absence from sickness.

The laying of the new iron pipes in Cliff, Elm and Hill streets was finished Friday.

The Young Men's Christian Association gymnasium is being put in condition for the winter.

Delectable chicwit weighing half a pound are being hooked at the drawbridge below Fort Point,

Among the New England pensions granted Friday was a widow's to Mary A. Brown of Norwich.

The handsome new rooms of the Thirteen club in the Shannon block are nearly ready for occupancy.

Hiram Green for burglarizing the post office at Mystic is held for the United States under $2,000 bonds.

Steam yacht Kalolah, belonging to Charles L. Hubbard of Norwich, will go out of commission in New London today.

"The Loyal Temperance legion" will hold a meeting in Salvation Army hall this afternoon at 2 o'clock. Children who would like to attend are invited.

Major Isaac Bromley and family, who have been summering at Eastern Point the past three months, returned to their winter home in New Haven Wednesday.

Gen. Edward Harland of Norwich is one of the invited guests expected to be present at the annual reunion of the Sixteenth Connecticut at Compounce pond, Bristol, today.

James W. Blackburn of Norwich was admitted to membership in the Connecticut Funeral Directors' association at the fifth annual meeting of the trade at Meriden this week.

On and after Monday next, the steamer Gypsy will leave this city for New London at 8 45 a. m. and 1.45 p. m. She will leave New London on return trip at 11 a. m. and 4 30 p. m. arriving in Norwich at 6 o'clock.

The Shetucket mill will resume operations Monday, after a period of six weeks' idleness. The mill will work only half of the regular force. The resumption of the Shetucket mill, with the Falls company, will give employment to about 600 men.

The Franco Siamese troubles and the threatened war, with the harbor of Bangkok as the probable place for the firing of the first gun, stimulated the painter and the managers of the opera Wang to a desire for accuracy in every particular. It is promised the stage settings with which Wang is to be given at the Broadway on Monday night will astonish all who attend.

The track of the New London Northern railroad at Harrison's station was blocked two hours Friday morning by the derailing of a freight train. The passenger train due here at 8 15 o'clock was held at New London during the delay. A number of Norwich gentlemen aboard chartered the summer steamer Osprey and came up the river in her.

Homer Wilkes Gets Second Money.

Messrs. E F. Parker, W. F. Rawson, F. A. Wells and Burrell W. Herrick of this city attended the races at Stockbridge, Mass., Friday, and saw Mr. Parker's handsome Homer Wilkes win second money.

To Be Buried Sunday.

PUTNAM, Sept. 15.—The body of Dr Graves is still in the vault at Thompson cemetery. Mrs. Graves is expected to arrive today, and it is reported that the body will be buried on Sunday.

Failed to Appear.

Weather Prophet Horace Johnson's big storm and tidal wave have failed to materialize. The time was up Wednesday.

September Apple Blossoms.

Mr. Byron W. Peck of the Norwich & Worcester road, presented THE BULLETIN Friday evening with a bouquet of apple blossoms picked in North Oxford, Mass. It is rare that these fragrant May blossoms are gathered in September.

The Curve to Be Put in Tonight.

The Shetucket street curve of the Laurel Hill branch of the Norwich electric street car system will be laid tonight. Shetucket street will be illuminated by a large number of incandescent electric lights and a big force of workmen will be engaged in the work.

Shurtliff to be Examined Today.

The warrant for the arrest of Dwight W. Shurtliff of West Ashford, the brandy distiller, was sent to Marshal C. E. Barrows of Norwich, Thursday by United States District Attorney George P. McLean and the accused will be given a hearing before United States Commissioner Marvin on Saturday.

Represented by Mr. Lucas.

The New London common council committee Friday night heard parties interested in the Glenwood avenue extension matter and the proposition to open a street from Main street to Huntington, half way between Stoney Hill and Mill street. J. D. Lehmer opposed the Glenwood avenue extension as proposed and was represented at the hearing by the Hon. Solomon Lucas.

New York Sunday Papers.

Ferdinand Nowatsky has made his winter arrangements to secure New York Sunday newspapers, and as in the cold months of last year will have The Tribune and Journal brought to Norwich from Hartford overland. Mr. Nowatsy thinks that the braving of one winter's hardships is enough for him, and will have a representative see to the transportation.

A Thieving Waiter Located.

George H. Porter, restaurateur Jacob O. Benjamin's absconding waiter, was located in Hartford Friday, and Chief-of-Police Bowen left last night for the capital city to make him a captive.

It is the general impression that Porter was not the thief who entered the restaurant Wednesday night, but some hungry tramp.

Colored Free Masons.

At the annual meeting of the grand lodge of colored Masons in New Haven, Tuesday night, officers were elected for the ensuing year as follows:

Worshipful grand master, W. H. Effort of New Haven; deputy grand master, Theodore James of Norwich; grand senior warden, William Brant of Norwich; grand junior warden, John Boone of Bridgeport; secretary, F. S Cross of Hartford; treasurer, John Ross of New Haven; tyler, Elisha Voorhees of Norwich.

Insane From Business Cares.

Marcus Jewett of Stafford has been received as a temporary inmate of the Hartford Retreat for the Insane. Ordinarily Mr. Jewett is a peaceable citizen, making no trouble, but is quickly unsettled when he attempts to do business. He owns some real estate, bought with back pension money, and has had wild schemes of money making in connection with this. Much of it he has bargained away, making in some cases good trades, but oftener the reverse of these.

Many of these trades were not consummated, because of deeds purposely held back by parties selected to draw them, and who saw the impropriety of permitting the transaction to go on. He had a scheme to build a dam upon a little rivulet flowing through his property, and make a lake and grove resort thereon. The selectmen were complainants in the case, and Mr. Jewett will be held in restraint until he recovers somewhat his mental balance, a result that will no doubt follow a brief season of rest from business cares.

The Norwich Weekly Courier is the best weekly newspaper in New England at 50c a year.

Personals.

Mrs. Sanford Chapman is visiting relatives in Boston.

Mr. Irving J. Avery is among late visitors to Chicago.

Mr. W. S. Alling, of Alling Bros, has returned from a lengthy business trip.

Mr. Charles B. Pinney of Stafford was the guests of Norwich friends Friday.

Miss Irene W. Colt has left town for Geneva, N. Y., to assume her duties as teacher in the young ladies' seminary in that city.

Mr. Larned B Denison of Hartford, who has been the guest of the family of J. H Cranston the past fortnight, leaves for home today.

Mr. J. H. Cranston, president of the Cranston Printing Press company, is on a business trip through the west.

Letter Carrier Frank Murtha returned to duty Friday, and Herman E. Case, laid aside his bag for a fifteen days' respite.

Short Calendar Cases.

The following disposition was made of short calendar cases in the civil term of court Friday at New London:

Keating vs. Shahan, bonds were ordered for prosecution next week.

Hopkins & Allen Manufacturing Co vs. Davenport, an answer was ordered filed next week.

Tarrant, trustee, vs. Backus, et al., judgment entered in accordance with advice of supreme court of errors.

Copeland vs. Martin, reply has been filed.

Cook vs Crandall, 10 days allowed for reply.

Hyde vs. C. V. Railroad Co., reply was ordered before next Friday.

Schaeffer Brewing Co., vs. Max, judgment by default entered.

Harvey vs. Broadway Congregational church, answer ordered before next Friday.

Sholes vs. Town of Preston, reply ordered in two weeks.

Hopkins vs. Lathrop, answer ordered in one week.

Church vs. Beebe, answer ordered in a week.

Glassbrenner vs. Glassbrenner, answer ordered in one week.

The civil term has adjourned until next Friday at 11 30 a. m.

SUPERIOR COURT.

Quatropanni Found Guilty of Assault—Norwich Burglars Sentenced.

The superior court came in at New London Friday morning, and State Attorney Lucas concluded his argument in the case of the state against the Italian, Frank Quatropanni. The jury found the accused guilty of an assault. At the request of the counsel sentence was deferred to Tuesday. The maximum penalty is confinement not more than one year and a fine of $500, or both.

The trial of the cases against young Balcom and Brown was then taken up. After three witnesses had been examined, the plea was changed to guilty. Owing to the length of their incarceration in jail, the sentence was somewhat lightened. Balcom was sentenced to state prison for eighteen months and Brown went to jail for one year. This difference in the sentence was due to the fact that Balcom has been convicted of thievery before, while Brown, as far as known, sustained a good reputation till he fell into his associate's company.

Amasa D. Maine of North Stonington was put on trial for entering a barn and stealing chickens. The testimony is all in, and the case will be argued Tuesday morning, to which day the court adjourned.

The next case State Attorney Lucas will present is that against one Gardner of North Stonington, who is charged with unmercifully beating a boy who was visiting in Milltown.

Clergyman in a Poorhouse.

EXETER, N. H, Sept. 15.—L. D. Jeffers of Haverhill, long a prominent Free Will Baptist clergyman, has been taken to the Grafton county farm. His wife died recently, and he is in poor health and destitute.

Three Children Burned to Death.

RHEATOWN, Tenn., Sept. 15. — Near Millersville post office the house of Milton Myers, a wealthy farmer, was burned last night, and three children, aged 10, 5 and 3 years, were burned to death. The rest of the family barely escaped with their lives. Mrs Myers, with an infant two weeks old, jumped from a second story window, and both are now in a precarious condition.

MARRIED.

BARLOW—WHEELDEN—In Taftville, Sept. 14, by the Rev. G. W. Mallory, Mr. Samuel Barlow to Miss Jennie M. Wheelden, all of Norwich.

BLISS—STROUT—In Millbridge, Me., Sept 13, 1893, by the Rev. Robert Sutcliffe, Frank L. Bliss of this city and Miss Evelyn Strout of Millbridge, Me.

DIED.

THURBER—Suddenly, Friday, Sept. 15, at Narragansett Pier, R. I., Charles F. Thurber, artist, formerly of this city.

ARCHBISHOP HENNESSEY.

Investiture Ceremonies of Most Impressive Solemnity.

GREAT MEN PRESENT

At St. Raphael's Cathedral—Sketch of the Career of the Archbishop.

DUBUQUE, Sept. 17.—After many weeks of preparation the investiture of Archbishop Hennessey is complete and the sacred insigna so carefully brought from Rome was with much form and most impressive solemnity placed upon him today by the highest representatives of the mother church in America.

Early this morning the chimes of St. Mary's and the less melodious bells of the cathedral called the faithful to their devotions. In each church the local priest was assisted by some visiting prelate or priests, calling out immense congregations. The whole city seemed astir, and despite the fact that the ceremonies were of the most solemn description, the city assumed a holiday attire.

St. Raphael's cathedral, where the ceremonies were held, is a large stone structure, picturesquely situated in the shadow of an overhanging bluff. Not a tenth of those desirous of witnessing the ceremonies could find room to enter. Even many who held cards of admission from the committee were obliged to turn away and when the procession was formed, headed by Cardinal Gibbons and Monsignor Satolli, it was difficult to make a way for them to the portals of the sanctuary.

As the procession marched up the great central aisle the choir sang "Ecce Sacerdos," led by Mrs. Bonnell-Pattison and Messrs. Langlois and Damo of Chicago. These were assisted by the organ and large orchestra. When the chancel rail was reached the "Hallelujah Chorus" by the choir was sung.

Seated on the throne, conspicuous by the color of his official robes, Cardinal Gibbons was surrounded by a galaxy of great men, such as are seldom brought together. There were besides Monsignor Satolli, His Grace, Most Rev. J. P. Ryan, archbishop of Philadelphia; His Grace, Most Rev. P. A. Feehan, archbishop of Chicago; His Grace, Most Rev. John Ireland, archbishop of St. Paul; His Grace, Most Rev. Patrick Riordan, archbishop of San Francisco; His Grace, Most Rev. M. A. Corrigan, archbishop of New York; His Grace, Most Rev. F. X. Katzer, archbishop of Milwaukee; His Grace, Most Rev. Henry Elder, archbishop of Cincinnati; His Grace, Most Rev. P. L. Chapelle, coadjutor archbishop of Santa Fe; His Grace, Most Rev. John J. Kain, coadjutor archbishop of St. Louis; His Grace Most Rev. Redwood, archbishop of Wellington, New Zealand, and twenty-seven other bishops.

Pomp there surely was not in the proceedings, which was marked with expressive simplicity and beauty. Such a celebration of pontifical mass has never been witnessed here. The vestments were rich, the music sublime, the magnetic personality of Satolli, who was the celebrant, [illegible] in his work, and the sermon of Archbishop Ryan was a masterpiece of pulpit oratory.

After the mass the ceremonies of investiture took place.

During the banquet a magnificent pectoral cross in gold was presented to Archbishop Hennessey by the priests of the diocese.

This evening solemn pontifical vespers were held, at which the visiting clergy were present and assisted.

The Right Rev John Hennessey, D. D., bishop of Dubuque, was born August 20th, 1825, midway between the towns of Bruff and Kilmallock, in the county of Limerick, Ireland. His boyhood days and youthful manhood were passed in his native country.

Late in the winter of 1847, when 22 years of age, he left Ireland, going direct to the seminary at Carondelet, near St. Louis, and under the jurisdiction of Archbishop Kenrick entered that institution in the beginning of the year 1848. Here he pursued his theological studies until the day of his ordination by Archbishop Kenrick, which event took place on All Saints' day, November 1st, 1850.

His first mission was at New Madrid, Mo., and he entered upon his duties January 20th, 1851.

He remained at New Madrid about four months, when from overwork he became seriously ill and was removed to St. Louis. After his recovery he became pastor of St. Peter's church at Gravois, Mo., twelve miles from St. Louis, where he remained until 1854.

Father Hennessy was then installed in the Carondelet seminary as vice president and professor of dogmatic theology and ecclesiastical history. In 1857 Father Feehan retired from the seminary and Father Hennessy succeeded him as president, a position he retained until 1858, when he went to Rome at the request of Archbishop Kenrick.

He remained at Rome one year, returning to St. Louis in September, 1859. He spent one year at the St. Louis cathedral, alternating each Sunday of the month in preaching the sermon with Archbishop Kenrick, Archbishop Ryan and Archbishop Feehan. In September, 1860, he became pastor of St. Joseph's church at St. Joseph, Mo. He remained there six years, his talent attracting widespread attention and singling him out from his compeers in the archdiocese. When the see of Dubuque became vacant he was chosen for the high and holy office of bishop of Dubuque. He was elected bishop of Dubuque on April 24, 1866, and was consecrated at St. Raphael's cathedral in this city, September 30, 1866, by the Most Rev. Archbishop Kenrick of St. Louis.

Striking Waterbury Painters Still Out.

WATERBURY, Conn., Sept. 17.—The striking painters, who left A. F. Taylor Co.'s factory Friday are still out. The grievance of the men is that the company employs a non-union man. Friday evening a meeting of the local branch of the Painters' union was held to take action on the strike. The action of the strikers was thoroughly endorsed and a resolution to that effect was passed. The men now claim that they will remain firm. The members of the firm are also decided and claim they are able to get all the men they wish. The prospects are that the strike will be of long duration.

* * *

Electric Plant at Middletown Closed.

MIDDLETOWN, Conn., Sept. 17.—The officers of the Schuyler Electric company, employed in the large factory in this city, were notified Saturday that there would be no more duties for them to perform. The announcement was not entirely unexpected, although it was quite a surprise. The factory is now practically closed. Many of the former employes are preparing to leave Middletown.

"FIGHTING FOURTEENTH."

Reunion of Regiment Survivors at Rockville Saturday.

ROCKVILLE, Conn., Sept. 17.—The annual reunion of the Fourteenth Connecticut Volunteers was held in this city Saturday, by special invitation of the local Burpee Grand Army post of this city. The members of the local post and citizens of this city entertained the visitors handsomely. Company D was made up largely in Rockville. Flags were displayed from the public buildings and private residences in honor of the veterans of the noted "Fighting Fourteenth."

The reunion is usually held on the 17th, the anniversary of the battle of Antietam, but was held one day earlier this year, as the 17th comes on Sunday.

On arrival of the members in the morning they were met by a delegation from Burpee post and conducted to Grand Army hall, where coffee and lunch were served.

The business meeting was called to order at 11 o'clock. A. Park Hammond of Rockville was chosen president. Prayer was offered by Chaplain H. S. Stevens.

The reports of the secretary and treasurer were made and accepted. The reports showed that twenty-two deaths had occurred during the past two years.

It was voted to erect a monument on the battlefield of Antietam, with the state appropriation of $1,000. A committee of five was chosen on erection of monument.

A vote of thanks was tendered to Chaplain Stevens.

It was voted to admit the sons of members as honorary members.

Voted to leave the time and place for the next meeting in the hands of the executive committee.

These officers were elected:

President—J. W. Knowlton of Bridgeport.

Vice Presidents—William B. Hincks of Bridgeport and E. H. Wade.

Secretary—J. W. Knowlton.

Treasurer—G. N. Brigham of Rockville.

Chaplain—H. S. Stevens of Washington, D. C.

After the business meeting the veterans were taken to Saipsics grove where a shore dinner was served.

At the after-dinner exercises the survivors were welcomed by the Rev. G. H. Bates of this city, and remarks followed by many of the members.

The regiment was largely made up of volunteers from Tolland, Windham and New London counties. The Fourteenth was the only Connecticut three years' infantry regiment permanently with the army of the Potomac, and is recorded at the war department as one of the three best union regiments in the service. The other two were the First Minnesota and Fifth New Hampshire, all being in Hancock's famous Second army corps. The Fourteenth was mustered into service August 20, 1862, and fought its first battle at Antietam. It received about 1,000 recruits at different times.

It returned to the state after the defeat of Lee at Appomattox, and was mustered out with between two and three hundred men present for duty. Its record throughout was excellent and it won fame by several brilliant charges during the war, including the memorable ones at Gettysburg, Fredericksburg, Wilderness, Auburn, Deep Bottom, and Reams' Station. It never lost a flag, and very few of its men were captured. The famous charge on the Bliss buildings, between the lines of battle at Gettysburg, and its part in the repulse of Pickett's men at the stone wall, where six battle flags and several hundred prisoners were captured, are among the prominent historical events of the war. The names of thirty-four engagements are represented on its battle flags.

ANCIENT ORDER FORESTERS.

Causes of Dispute Develop at the Final Session.

NEW HAVEN, Conn., Sept. 17.—The final session of the Ancient Order of Foresters, which was held here last night, developed prolific causes of dispute. An enormous amount of business was left to the last evening to be disposed of and it seemed an impossibility to adjourn last night. A majority of the delegates asserted roundly that they must leave town at once, however, and though a fundamental law of the order was violated, adjournment was reached. The constitution imperatively declares that no Sunday sessions shall be held.

At midnight last night much business remained undone, but the delegates overrode the law, and it was nearly two o'clock before they left the hall. A lengthy controversy over a contract with an English firm which had agreed to furnish regalias for the order, took up three hours, and was finally referred to a committee. An amendment was adopted which reduced the supreme trustees to the rank of ordinary delegates. This netted the recently elected trustees, Dr. M. Clark of Ohio, and C. S. Voght of Maryland, who promptly resigned. T. J. Ford of Pennsylvania, and M. J. Dyer of New Hampshire, were chosen to the vacancies.

It was then decided to hold the next annual convention in Cleveland, and to retain Brooklyn as the headquarters of the order till then. The eastern delegates then had a fierce struggle to elect a supreme medical examiner, the office just created. The eastern men won, putting through their candidate, Dr. H. Hoffman of Jersey City.

The newly elected officers were installed. Earnest protests were made by several delegates not to protract the meeting till Sunday, but they were unheeded. The convention then adjourned.

* * *

The Situation Among New Bedford Mill Operatives.

NEW BEDFORD, Mass., Sept. 17.—The situation among the mill operatives of the city remains the same as the first of last week. The Acushnet mill operatives who were forced to quit work on account of the strike of the back boys are anxiously waiting for tomorrow morning, when the gates of the Acushnet will be opened for all who wish to go to work. The back boys say they will not go to work under the reduction, and unless some filling is obtained the looms will be forced to remain idle.

The manufacturers have given no word that they will give in to the back boys, and the indications are that the Acushnet mill will be idle for some time to come.

* * *

Diamond Robbery at East Hartford.

HARTFORD, Conn., Sept. 17.—Burglars entered the residence of G. W. Alling, on Pleasant street in East Hartford, Saturday night, and going into the room occupied by Carl Dennel, who has boarded with Mr. Alling for some time, stole a lot of diamonds valued at $600. There was one diamond ring set with three stones, worth $250; one diamond ring, block setting, worth $70; one diamond ring, gypsy setting, worth $130, and a box of diamond scarf pins worth $150. There is no clew to the thieves. Sheriff Foley has the case in hand and the police in this city have been notified.

JUDGE LYNCH NEAR NEW ORLEANS.

Brothers of a Murderer Taken from Jail and Hung.

NEGROES ARMING.

The White People Served With Notices to Leave.

NEW ORLEANS, Sept. 17.—There was a triple lynching almost within the shades of the city last night, but it was conducted so quietly that the account of the affair published this morning surprised the community.

The victims of the mob were three negro brothers named Julian, and their offence was the shielding of a fourth brother, Roselius Julian, who on Friday shot and killed Judge Victor Estopinal, while the latter was trying him for a trivial offence, and seriously wounded the judge's son, who tried to capture him. After the shooting the negro made for the swamps in the rear of the city and was soon in safe hiding. Posses were immediately organized and all night and Saturday the country was scoured, but the search was fruitless.

The mother, three brothers and two sisters of Roselius Julian were arrested yesterday at the Black Ridge in the rear of the city, by the city police, and were taken to the jail on Judge Estopinal's place near Southport. The mother and sisters were arrested because on a visit being made to the house, they were found wrapping some clothing and a loaf of bread. This aroused suspicions that the articles were to be conveyed to the fugitive. The brothers were discovered going over the Black Ridge and had a shirt bundled up as if it were intended for Julian and two of them were caught coming out of the swamp. They all refused to state whence they had come.

About 11 o'clock twenty-five men, some armed with rifles and shot guns, went to the jail, unlocked the door and then held a conference as to what they should do. Some favored hanging all the prisoners, while the others insisted that only two of the brothers, Valsin and Basil, should be taken out and strung up.

This was finally agreed to, and several men went into the jail and brought out the two doomed negroes. They were hurried across to a pasture 100 yards distant, and then asked to take their last chance of saving their lives by making a confession. The negroes made no reply. They were then told to kneel down and pray. One knelt and the other remained standing, but both prayed fervently. One negro was then hoisted up. He remained hanging fully five minutes before the second one was hanged.

The mob remained at the place about half an hour when some one suggested that they go back and hang the other prisoners. This was opposed by several, and it was finally decided that they should go back and take the remaining brother out to Camp Parapet and hang him there. The females were to be flogged, with an order to get out of the parish [illegible]. The mob then returned to the jail. Paul Julian was taken out to the camp, which is about a mile distant, and there he was hanged to a tree. His body dangled from a limb in full view of a morbid crowd during the day, as a warning to the negroes that they cannot "go about killing white people," as one of the mob expressed it. There is an opinion that the killing of the judge was the carrying out of a preconceived plan. The judge had been very strict in his rulings when the negro tough element of the parish were brought before him.

Later The negroes are massing at Camp Parapet and arming with intention of slaughtering the white people in that section. The whites in the rear near the swamps have been served with notices to leave, and many have abandoned their homes.

* * *

The Cholera.

PARIS, Sept. 17.—Cholera is epidemic in the department of Finistere, on the English channel. At Camaret, a town of 1,200 inhabitants, near Brest, there are sixty cases. Strong efforts are being made to suppress the Catholic pilgrimages to Lourdes, in the department of the Hautes Pyrenees.

MADRID, Sept. 17.—Cholera is spreading rapidly in Bilbao and near-by towns. Twenty-six fresh cases and three deaths were reported from this district Friday and Saturday.

PARIS, Sept. 18.—Cholera in its virulent form has appeared in Harreme, a village of 1,000 inhabitants in the Basses Pyrenees. A number of cases have been reported.

* * *

Gave the Stolen Provisions to Poor People.

BRIDGEPORT, Conn., Sept. 17.—Jules Penchard, George Clifford and Terrance Doyle were arrested tonight for robbing McElroy Bros., provision dealers, of $3,000 worth of provisions. Clifford broke into the money drawer last night.

The firm has been missing provisions for some time. Penchard, who is watchman in the store, says he gave the food to starving people, and his story is found to be correct. He gave away everything he took from the firm.

* * *

Wrecked in a Tunnel.

LONDON, Sept. 17.—A frightful accident occurred on the Great Western railway, in a tunnel near Bath, a few miles southeast of Bristol. An express train from Bristol to London was derailed in the tunnel, and while in this condition was run into by another train bound for Bristol. Many passengers were killed and injured. A physicians' train was sent from Bath to the scene and rendered surgical aid.

* * *

New Haven Clock Co. Reduces Wages.

NEW HAVEN, Conn., Sept. 17.—The New Haven Clock company announces that tomorrow morning the employes will be obliged to go to work at a horizontal reduction of wages of 12 per cent. For six weeks the company has been running three days a week, but on Saturday started up on full time. The workmen do not take kindly to the reduction, but will probably not strike.

Fleeing from Yellow Fever.

BRUNSWICK, Ga., Sept. 17.—Hundreds of people are fleeing from the city on account of the yellow fever epidemic. There are sixteen cases here.

* * *

Prominent New York Physician Dead.

NEW YORK, Sept. 17.—Dr. William T. White of this city died of heart disease today. He was born 66 years ago at Richmond, Maine. He was a prominent physician.

IN CONGRESS.

The Senate.

WASHINGTON, Sept. 17.—The senate, Saturday, at 12 40 took up the silver repeal bill, and Mr. Voorhees made another proposition to the opponents of the bill to fix a time to close debate. He proposed that general debate close Monday, September 25, and that a vote be taken on the bill and amendments Wednesday, September 27.

Mr. Teller, on the part of the opposition, declined to make an agreement at this time.

Mr. Allison (rep. Iowa) then addressed the senate.

The House.

The house resumed the fight over the federal elections repeal bill exactly where it left off Friday, and exactly where it was begun the day before.

Mr. Burrows moved to dispense with the call of the committee, and on this motion the yeas and nays were present.

The democrats could muster but 165 members, and as this was not a quorum, the house at 12 40 adjourned to meet at 1 45 Monday, upon which day the house has accepted an invitation to be present as a body at 2 o'clock to attend the ceremonies relative to the centennial anniversary of the laying of the corner-stone of the capitol.

Eastern League Season Ended.

SPRINGFIELD, Mass., Sept. 17.—The Eastern base ball league season ended Friday. Erie finishes first and wins the pennant, Springfield second.

The Springfield club is about $800 short on the season's play.

BODIES WASHED ASHORE.

36 on the Beach at Port Royal—The Missing Steamer Alvo.

CHARLESTON, S. C., Sept. 18.—So far nothing has been heard hereabouts from the missing steamship Alvo, as has been reported. No bodies have been washed ashore and there is no trace of wreckage here. Last week, however, 36 bodies of white sailors were washed ashore at Port Royal. There were no marks by which identification could be made. The body of a white woman also came ashore. It was finely dressed, the underclothing being especially fine. Everything indicated that it was the body of a lady. Attending circumstances indicated that the sailors and the woman were from the same passenger steamship.

* * *

Center Rusher Stillman May Leave the Yale Team.

NEW HAVEN, Conn., Sept. 17.—It is rumored that Stillman, the giant center rusher of the Yale foot ball team, will not play this season. He has been to Travers Island during the past week, and it has been decided that he is altogether too heavy to permit of playing. He has grown much heavier since the close of college. This will prove another serious blow to Yale's foot ball interests, and this announcement, together with the report that Walter Camp will not coach the men this year, would indicate that Captain Hinkey is in a very bad position.

* * *

New Bedford Whaler Arrives Home.

NEW BEDFORD, Mass., Sept. 17.—The whaling schooner Sarah W. Hunt, owned by Thomas Luce of this port, arrived today, ending a voyage of eleven months in the Atlantic ocean. She brings 380 barrels of sperm oil. Captain Gibbons reports having encountered the recent hurricanes, but rode them out with no damage.

* * *

The Place is Wanted by a Democrat.

ANSONIA, Conn., Sept. 17.—Capt. A. B. Kirkham has been notified that his services as chief clerk of the postal card works, Shelton, will not be needed any longer. His term of service will not expire until next February, but he is a republican, and his place is wanted by a democrat. John Haggerty of Plattsburg, N. Y., is his successor. Capt. Kirkham is a prominent G. A. R. man in Ansonia.

* * *

No Tidings of the Valkyrie.

NEW YORK, Sept. 17.—Up to 1 30 today Lord Dunraven's yacht Valkyrie had not been sighted off Fire Island.

QUARANTINE, S. I., Sept. 17.—The steamship La Touraine arrived this morning and reports that she saw nothing of the Valkyrie. This is the twenty fourth day since the yacht was lost sight of at Queenstown. Nothing has been seen or heard of her.

NEW YORK, Sept. 17.—At 5 o'clock tomorrow morning the English yacht Valkyrie will have been out twenty-six days, during which time not a word has been received as to her whereabouts.

* * *

National Workingmen's Union.

PITTSBURG, Pa., Sept. 17.—Pittsburg labor leaders will this week commence correspondence with the national officials of every labor union of the United States, on the subject of a labor union which will embrace every association and union of workingmen in the country. The plan has been indorsed by T. V. Powderly.

* * *

Pensions for Connecticut.

WASHINGTON, Sept. 17.—Pensions for Connecticut: Original—Charles S. Roberts, East Hartford; Meritt Hotchkiss, New Haven. Original, widow and children—Harriet A. Lockwood, Waterside, Stamford. Mexican war survivors, increase—James Woodworth, South Coventry.

* * *

The Pauline Hall Opera Co. Disband.

NEW BEDFORD, Mass., Sept. 17.—The Pauline Hall Opera company, composed of about fifty persons, which appeared at the Grand opera house last evening, disbanded after the performance. It has been doing a very poor business this season. Many of the singers, including Pauline Hall, have gone to New York.

BOOMERS CAUGHT IN A SAND STORM

Thieves and Gamblers Plenty on the Cherokee Strip.

MINISTERS COULD NOT PREACH.

The Fine Sand Filled Everybody's Eyes and Mouth.

GUTHRIE, O. T., Sept. 17.—At the new town of Perry, on the Cherokee strip today, everybody was busy pulling up tents or shanties or trying to get away from a gale blowing from the south, filling everybody's eyes, nose and mouth with sand, making it impossible to see further away than forty feet.

A few ministers tried to preach, but could not make much headway against the wind and sand. Hundreds of people are leaving upon every train. Thieves and gamblers were plenty last night and people were robbed right and left. Several were badly hurt and one man killed by the thieves. The number of fatalities will be more than first supposed, but nine-tenths of those killed or injured were victims of an accident due to the crush. Seven persons are reported killed by the accident and seven others hurt. Many riderless horses are coming in and it is feared others are badly injured.

* * *

Prominent Chester Man Injured.

CHESTER, Conn., Sept. 17.—Saturday night ex-Representative J. Elmer Watrous met with a serious accident. While entering the barn the hook in the door caught his eye, tearing it badly. Dr. Smith fears he will lose the sight of the eye.

IRISH POLITICAL PRISONERS.

Home Secretary Asquith Censured at a Meeting in Dublin.

DUBLIN, Sept. 17.—More than 12,000 persons attended a mass meeting in Limerick hall today. William Redmond, Parnellite, and Pierce Mahoney made addresses on Irish political prisoners. The meeting passed resolutions censuring Home Secretary Asquith because he opposed the liberation of these prisoners, and denouncing the liberal party for having abandoned its promises to do them justice.

Mr. Gladstone was also blamed for his apathy in the cases of Irish political offenders and his alleged indifference to their fate was contrasted with the sympathy he manifested towards the oppressed in foreign countries.

No anti Parnellites attended the meeting. William Redmond was received with great enthusiasm and the resolutions were passed amid cheers.

* * *

Victims of the Flood in Spain.

MADRID, Sept. 17.—The bodies of twenty-eight persons drowned in the flood recently were recovered today. Fourteen bodies are known to be in a cave near the foot of the hill, and cannot be reached on account of the high water. Many more bodies are supposed to be in the ruins of the three hundred dwellings which were wrecked by the flood.

NORWICH AND VICINITY.

Noank Bridge Repairs.

Superintendent Gardiner of the New London division of the New Haven and Old Colony system, has issued an order to conductors and engineers to run trains over the west track at Noank bridge until the repairs to the structure are completed. Trains at this point go and come on the same track, and the order reads that they shall not be run at a rate over five miles per hour.

Engineer Chandler in Charge.

Charles E. Chandler, civil engineer, of this city, is in charge of the important road improvements soon to be undertaken by the town of Griswold. Three miles of macadam road will be built, one and one-half miles of which is a new layout with improved lines and grades. The balance is to be widened and the grades reduced.

Dam and Reservoir at Yantic.

The Weekly Record says: A new dam and reservoir is to be built for the Yantic Woolen Co. for the purpose of conducting a large iron pipe to their plant to operate the new automatic sprinklers with which the company is about to equip its plant. The dam is to be located about 2,000 feet above the buildings and will be 154 feet long and 18 feet wide. Frank Durfey, builder of the Greeneville reservoir, has the contract for the work.

THE CASTINE'S SUCCESS.

Corrected Time for the Speed Trial 16.032 Knots—She Leaves New London.

It was late Saturday afternoon before the naval board was ready to announce the corrected time made by the new gunboat Castine in its speed trial Friday at New London. It was 16.032 knots, entitling the builders to the handsome bonus of $80,000. Saturday morning General Hyde, president of the Bath Iron Works company, received many congratulatory telegrams, among them one from Governor Henry B. Cleaves of Maine. The Castine left New London for Bath Sunday morning, and in about five weeks will be ready to turn over to the government. The board of naval inspectors disbanded immediately after the work of correcting the time was completed, and departed Saturday evening for their respective stations. The ram Katahdin, in course of construction at the Bath Iron works, will be ready for a trial inside of a year. The machinery is completed, but there has been much delay in furnishing the armor plates.

The Norwich Weekly Courier is the best weekly newspaper in New England at 50c a year.

To Commence Work at Once.

Work on W. A. Slater's yacht will be commenced at once. She will be a regular ocean steamer, designed not so much for speed as for comfort, but the record of the Bath people for building fast vessels will probably be maintained when the new yacht goes into commission.

Weighed 19 Pounds at Birth.

Mrs. Richard Doyle of Saybrook gave birth to a child a few days since which is said to break all medical records of such events, its weight being 19 pounds. It does not seem possible but The Day reporter gets the information from a reliable source and its truth ought not to be doubted.—[New London Day.

Health Officer Thayer's Wages.

The salary of ex-Senator Charles F. Thayer of Norwich, who was appointed New London county health officer on Thursday last, by Governor Morris, is $10 per day and expenses, when performing the duties of his position. The office is considered quite a lucrative one as he will be engaged the best part of the time, and will have the appointment of deputy health officers in all the towns of New London county.

Jewish Day of Atonement.

Yom Kippur, the day of atonement, the great Jewish festival of the year, comes next Wednesday. The celebration of the day will begin at sunset on Tuesday and last until sunset on Wednesday in accordance with the Biblical command, "from evening to evening shall ye celebrate your Sabbath." There will be family reunions, as Hebrews all over the country make it a point to gather together in their families on this great festival.

Law and Order League.

The Citizens' Law and Order league of Connecticut will hold their annual meeting at the United church chapel in New Haven, Wednesday afternoon and evening. In the afternoon's business meeting none but members will be admitted. The evening meeting is to be for the public, and will begin promptly at 7.30.

Amos P. Wilder of New York, and Col. L. Edwin Dudley of Boston, who for eleven years has been general manager of the Massachusetts Law and Order league, are to be the speakers. There will be other short speeches

Arrival of Immigrants.

The immigration authorities on Ellis Island were notified Friday of a case of poverty and destitution which Dr. Senner may make use of in urging that the United States prevent the entry of pauper immigrants over the Canadian borders. Hester Paris, a Pole, forty years old, with four children, arrived here yesterday on the Norwich line boat City of Worcester. With her children she got passage for Quebec. There they were found upon arrival to be destitute, and were sent to New London, Conn., and thence here.—[New York Post.

Rural Humorists on the Stand.

"How did you travel" asked the attorney of a North Stonington witness in the superior court at New London. "I didn't travel; I rode," was the smart, very smart reply of the sun-tanned miss.

"Didn't you never think of anything and not tell of it?" was the query put to the same attorney by another North Stonington woman. The attorney smiled and said. "Yes; but I never knew women possessed that gift."

Another witness gave as a reason for not putting hens in a bag, that "they would crawl over each other and 'smodder.'"

And still another witness said he "were at the justice court but did not know if Mrs. —— were there; if she were there I were there and I didn't know she were there."

THE STATE'S HEALTH.

Report for the Month of August—Physicians Must Register.

According to the report of the state board of health there were 1,484 deaths in the state during the month of August. This was sixty-two more than in July, and ten more than August, 1892, and 119 more than the average number of deaths in August for the five years preceding the present.

In regard to the new law requiring physicians to register, the report says that up to Sept. 1, between 700 and 800 had complied with the provisions of that while fully as many more have not. The secretary will publish immediately after October 1 the names of all the practitioners of medicine, surgery and midwifery in Connecticut who have complied with the law relating to registration up to that date. The list will be sent to all the registrars of births and deaths, in order that they may know what physicians in the state have fulfilled the requirements of the law, and so are legally qualified to practice, and to render certificates of births and deaths.

THE WEEKLY SUMMARY.

Extreme Dullness Characterizes Real Estate and Mortgage Transactions.

The summary of The Weekly Record for the past week shows another week of extreme dullness, characterized, however, in some places by a more free loaning on real estate security. The details are as follows:

Real estate sales—New Haven 6, Bridgeport 7, Hartford 5, Waterbury 4, Meriden 5, New Britain 5, Middletown 2, Norwich 1, New London 2, Danbury 11, Norwalk 9, Ansonia 1, Shelton 1.

Real estate mortgages—New Haven $37,475, Bridgeport $15,352, Hartford $35,890, Waterbury $23,959, Meriden $18,352, New Britain $7,500, Middletown $6,600, Norwich $700, New London $4,600, Danbury $7,650, Norwalk $14,380, Ansonia $250, Shelton $3,700.

The total number of sales last week was 60, as compared with 57 for the preceding week and 131 for the corresponding week last year. The total of recorded mortgages is $171,669 against $785,998 the preceding week and $248,226 for the corresponding week last year.

EASTERN CONNECTICUT PEOPLE

Registered in the Connecticut Building at Chicago Since Last Report.

The following eastern Connecticut people have registered at Chicago:

Norwich—Daniel M. Gray, R. J. Gulliver, Amy H Dowe, Lu O. Ashcraft, A. V. V. Brown, S. P. Keppler, George M. Gear, Jos. Albertson and wife, J. S. Templeton, J. Harry Holbrook, G. Pomfret—A. B. S. Johnson.

OFF FOR THE WORLD'S FAIR.

A Large Party to Leave the Ferry Street Station This Morning.

The following Norwich party will leave the Ferry street station this morning for the World's fair in Chicago, to be absent for two weeks: Miss L. N. White, Miss Lillie I. Young, Caleb S. Potter and wife, Adams P. Carroll, George W. Carroll, Miss Sarah E. Pope, Miss Sylvia A. Pope, Mrs. Lucius Brown, Mrs. Fred Tyler, Mrs. George A. Stanton, Mrs. Alfred M. Tracy, Mrs. M. J. Woodward, Wm. E. Hiscox and wife, James A. Hiscox, Thomas H. Cranston, Chauncey B. Woodworth and wife, George A. Keppler and wife, Miss Keppler, Dr. Austin F. Perkins and wife, Wm. R. Perkins, James L. Case, Willis R Austin, Willis Austin, Thomas N. Starry and wife, Mrs. A. J. Dawley, Miss M. A. C. Avery, Miss Laura Sabert, Mrs. Sara E Goldsworthy, Mrs. L. S. Chapman, the Rev. J. D. Herr, S P. Learned, Mrs. Caroline Benjamin and Mrs. Eliza Tift, Norwich Conn.; J. Sholes, Miss Hannah Sholes, Poquetanuck, Conn; William O. Soule and Miss Lizzie M. Juffers, Jewett City; William Larrabee and wife, Mystic, Conn.; Adam Larrabee and wife, Scotland, Conn.; Mrs. Henry Larrabee, Windham, Conn.; Miss L. Emily Richmond, Miss Delia Richardson, Preston City; Henry N. Wood and wife, Wauregan, Conn; David A. S. Money and Howard Money, Voluntown, Conn.

The Norwich Weekly Courier is the best weekly newspaper in New England at 50c a year.

EASTERN CONNECTICUT.

FITCHVILLE.

Corner Stone for New Catholic Church to be Laid—Personals.

The corner stone of the new Catholic church in Fitchville is to be laid Sunday, Sept. 30. Victor Hughes of Hartford, the Rev. Fr. Sullivan of Colchester and the Rev Fr. Winters will be present.

M. J. Sullivan of New York, has been visiting his cousin, J. D Sullivan of Fitchville.

Mr Ralph Damas of Willimantic has been visiting his parents in this place.

Mr. and Mrs Daniel Foley are the recipients of a thirteen pound daughter.

WILLIMANTIC.

The Willimantic Fair—The Thread City Wheelmen—Murray's Block Progressing

Most of the mills in town will close each afternoon during the fair next week. All of the schools, with the exception of the Normal school, will close on Wednesday and Thursday afternoons. Everything gives promise of the best fair yet. Over fifty entries have been made in the several trotting and pacing classes. The entries in the bicycle races are also large, and as Tuesday is to be bicycle day it will add an impetus to the opening of the eleventh annual fair and exhibition of the Willimantic Fair association

The thread city cyclers were well represented at the Springfield bicycle races.

The temperance crusade, with the temperance evangelist, Thomas E. Murphy, at the head, was commenced in Loomer Opera house Sunday evening

The Willimantic base ball club go to South Manchester today, and will cross bats with the crack club in that place.

The brick work on the new Murray block is being rapidly pushed, and it will not be many weeks before the structure will loom up in all its beauty.

VOLUNTOWN.

Personals.

Mr. Eugene Shay, of Pawtucket, R. I., has been visiting with Herbert E Rouse. Mr. Shay and Herbert E. Rouse started Saturday for Baltimore, Md., to attend the medical college there.

Geo. W. Rouse, Jr., has returned from Narragansett Pier where he has been staying this summer.

Chas. W. Bills was arrested for selling liquor from his pockets, convicted, and fined $20 and costs amounting to $48 12. Paid.

NO MIDDLE GROUND.

Time for Conciliation and Compromise Passed.

BOTH PARTIES STANDING FIRM.

Silver Men Showing Temper—Mistakes Have Been Made.

tration Democrats, and those who would like to support the administration policy on the silver question, have finally discovered that it has been a mistake to force the unconditional repeal of the silver purchase clause of the Sherman act. If they had commenced their movements with some regard for the views of the silver advocates, they now feel they would have been in better shape to carry through the repeal of the present large purchase of silver. The contest, however, has been carried so far, and has become so embittered that compromise now seems almost out of the question, and for the present at least, has been abandoned.

A prominent Democratic senator, who is an ardent supporter of the president, said today, "I can now see where the friends of the president in the senate have blundered. They never should have permitted the Democratic party to have been led into such complications as now exist. If it had been suggested to the president by Senators Voorhees, Gorman, Gray or other close friends that

Some Slight Recognition of Silver

should be incorporated in the proposed legislation, and he had given his consent, the repeal would have been accomplished without delay, and the present shattered condition of the party in the senate would have been avoided."

This senator says that it is now too late to retrace their steps. The president has declared his position and the silver senators have taken theirs, and between them there is now no middle ground. The senators who have been working to bring about harmony admit that they can see no common ground upon which the two extremes can meet. The impression is now gaining ground every day that the passage of the repeal bill in the senate is so far off that it is practically out of the question. When this condition is established to the satisfaction of the friends of the administration, it is possible, some say, that the president and Secretary Carlisle will reconsider and consent to a modification of their proposition. At least, this is the belief of many persons who have given close attention to

The Present Conflict in the Senate.

Representative McCreary of Kentucky, a member of the late Brussels commission who has given the silver question more than ordinary consideration, conceived the idea, after his experience during his intercourse with foreign commissioners at that conference, that the best method of considering this important question would be through a commission composed of three senators, three representatives and three unofficial experts on silver, to be appointed by the president. After talking the matter over with the president and Secretary Carlisle, who thought well of his scheme, he prepared a bill which he submitted to the house, to look into the silver question in all its bearings and to report thereon as early as practicable.

In presenting the measure to the house he asked to have it referred to the banking and currency committee, and supposed that it had gone there. He asked the privilege of appearing before the committee for the purpose

Of Explaining Its Provisions,

when he discovered that his bill had not only gone to the coinage committee, but that that committee was not disposed to allow it to go the banking committee where it belonged. He undertook to make the transfer, but found that it was no easy task than he anticipated. As a result he finds his efforts blocked and the measure unintentionally in unfriendly hands. Representative McCreary does not intend to be thwarted in his efforts to solve the silver question. He thereby proposes to appeal to the house, which may precipitate a conflict between coinage and banking and currency committees. There has already been engendered a great deal of jealousy between the two committees. The coinage committee claims that the banking and currency committee has usurped its prerogatives. It insists that all matters relating to silver belong to it. The house therefore may be called upon to draw the line and settle between them these vexed questions.

THE GREELY MYSTERY.

Coroner Lincoln Finds No Evidence to Support Murder Theory.

PROVIDENCE, Sept. 17.—Coroner E. H. Lincoln has practically concluded his investigation of the Greely mystery, but one more witness remaining to be examined, a physician who was called at the time old Dr. J. A. Greely was found in an unconscious and dying condition in his office two weeks ago.

Coroner Lincoln has been unable to ascertain any facts which will bear out the theory of murder advanced by Medical Examiner Palmer. The latter held that inasmuch as the doctor was found with a towel carefully folded up, and placed under his head for a pillow, and that the fatal wound was on the back of the head that some person other than the injured man must have prepared the pillow.

The coroner will file his report with the attorney general, giving the cause of death as an accidental fall down the doctor's long and steep flight of office steps.

WILD SCHEMES

Introduced by Request by Senator Peffer and Others.

WASHINGTON, Sept. 17.—Here is another of Senator Peffer's "by request" schemes. The Kansas senator does not wholly indorse it, but says some of the ideas are very good.

The secretary of the treasury is directed to purchase all the silver bullion mined in the United States that may be offered in lots of the value of not less than $100 each at its par value of $1.2929 per ounce, less the usual charge for coining, etc., that prevailed prior to Feb. 12, 1873. Gold or silver coin or full legal tender United States notes redeemable in gold or silver may be employed in the purchase of the bullion, and when these notes are redeemed they are to be reissued. The silver bullion may be coined into dollars of 412 1-2 grains, as was done under the act of Jan. 18, 1837, or the bullion may be cast into bars, the dollars to be legal tender for any amount. This bill directs the secretary of the treasury to issue eight times the value of the bullion purchased in legal tender notes, redeemable in gold or silver, provided that this new issue shall not exceed $50,000,000 in any one month, and shall continue for three years. A provision attached to this bill directs the government to loan money on real estate to two-thirds of its value at an annual rate of 2 per cent, the principal not to run longer than eight years.

Another "by request" bill, offered in the house by Charles H. Morgan of Missouri, proposes that a United States bank shall be opened in every town of 2000 inhabitants, in which there is a postoffice, by the comptroller of the currency, who shall appoint the board of directors for the first year. After that they shall be chosen by the stockholders, but the postmaster, ex-officio, is a director. The bank is to be located as near the postoffice as possible. Interest at the rate of 3 per cent shall be allowed on daily balances without compounding, and the United States shall guarantee payment of deposits and interests.

A CRANKY SCHEME.

Danish Sailors Wish to Cross the Atlantic on a Bicycle Boat.

NEW YORK, Sept. 17.—Karl Kurdson, a young Danish sailor, has a novel scheme for making a trip across the ocean in a small craft. In one way it seems more hazardous than any previous undertaking of this kind, because instead of an ordinary boat Kurdson proposes to use what he calls a "water skate," modeled somewhat after the fashion of the Lobenstein boats that are paddled around by means of a treadle like a bicycle.

He wants to have a boat of this kind built, about 12 feet long, and provided with two seats, and two sets of pedals, for he has a friend, Karl Christensen, who will go with him. A box in the center will carry water and provisions.

He thinks he can get across the ocean in about three months in a craft of this sort, and that he could carry provisions enough for the voyage. He says he regards a water skate as much safer than an ordinary boat, and believes that the voyage could be safely made.

He is 27 years old, and has been a sailor for 12 years. He says he has made several trips between England and Denmark in small boats and is not a bit afraid of tackling the Atlantic ocean in a "water skate."

A skate is made of two long spindle-shaped, air-tight cylinders, firmly fastened together and covered by a deck. Kurdson proposes, if he starts, to have two pairs of oars with him in case of an emergency, and a small mast and sail to take advantage of favorable winds.

WARNED TO GO BACK.

McFarland Did Not Obey and Robbers Shot Him in the Knee.

HOPKINTON, Mass., Sept. 17.—Saturday morning, about 1:30, burglars entered the house of Cromwell McFarland in Hayden row and blew open the safe which stood in the dining room.

Mr. McFarland hearing the noise, immediately arose and opened the door into the room, but received warning to go back, and at the same time was shot in the knee by one of the burglars. Another shot was fired, but Mr. McFarland got behind the door.

The burglars secured about $100 in gold, beside bills, notes, mortgages and bonds of considerable value. Many of the bonds were owned by T. B. Phipps, who had deposited them with Mr. McFarland for safe keeping. No trace of the burglars can be found. Mr. McFarland is prostrated by the shock.

Doctor In Trouble.

LAWRENCE, Mass., Sept. 17.—Methuen has been troubled with a scarlet fever and diphtheria epidemic of late, and the town authorities ascertained that physicians were violating the law in not reporting cases to the board of health. Dr. Janieson Lapaime of this city was arrested for violating the health laws, and Judge Rogers found him guilty. His case was placed on file on payment of costs.

NEWS IN BRIEF.

There were nine suicides in New York in 24 hours.

The yacht Titania was sunk in collision off Cowes, Eng.

Green goods operators are working Gloucester, Mass.

General Paine's yacht Jubilee has gone out of commission.

Three children were burned to death at Millersville, Tenn.

Four more cases of smallpox were discovered in New York.

A mob shot five negroes confined in a jail at Carrollton, Ala.

The Mexican boundary dispute is to be settled by diplomatic means.

Rev. Richard Morgan of Ludlow, Vt., was killed by a carriage accident.

Houses and bridges were swept away by swollen streams at Binghamton, N. Y.

Another effort is to be made to secure the mole at St. Nicholas, Hayti, for a naval coaling station.

A message from the pope with letters to Mgr. Satolli and Cardinal Gibbons arrived at New York.

New York authorities have engaged counsel in Costa Rica to attend to the extradition of Francis H. Weeks.

Judge John W. Corcoran has relieved Judge Bishop as presiding justice over the Norfolk superior court at Dedham, Mass.

Ex-Congressman John F. Andrew of Massachusetts says he would not accept the office of first assistant secretary of state.

The church at New Sharon, Me., believes charges made by the Campello (Mass.) church regarding Mrs. Lillian M. Swift were not sustained.

The United States consul at Lisbon has been instructed to protest against Portugal's action declaring New York ports infected with cholera.

Burglars at Greenwood Depot.

WAKEFIELD, Mass., Sept. 17.—The Greenwood depot, on the Boston and Maine railroad, was broken into Saturday morning for the third or fourth time within a year. The office was entered by forcing off the wire screen and breaking the window.

Investigation Finished.

BOSTON, Sept. 17.—The custom house investigation was finished Saturday morning at the Federal building. The last witness examined was Appraiser Dodge, and it is said that his evidence was of a very spicy nature.

Wages Will Be Reduced.

LOWELL, Mass., Sept. 17.—The mill operatives of Lowell will be notified Monday that a reduction of wages will take place Monday, Sept. 25.

Hostile to Americans.

NEW YORK, Sept. 17.—The World's Managua (Nicaragua) special says: It is probable that influence hostile to the continuation of Americans in control of the Nicaragua canal will endeavor to procure legislation in congress, which met Friday, rescinding the concession. Europeans settled here and in trade are opposed to the growing ascendency of American influence in this country.

Mataafa to Be Transported.

LONDON, Sept. 17.—In a dispatch concerning Samoa and the powers the Berlin correspondent of The Times says: England, America and Germany have decided to transport Mataafa to the Marshall Islands, where he can be more easily controlled. He will be taken there on a German man-of-war.

Man's Jawbone Found.

SOUTHAMPTON, N. Y., Sept. 17.—A man's jawbone was found on the beach near East Hampton. A sailor's bag with the initials "G. W. P." was also found on the beach near the same village, and it is supposed belonged to Captain G. W. Phillips of the fated steamer Panther

HOOD'S SARSAPARILLA.

Rich Red Blood

Is the natural result of taking Hood's Sarsaparilla. Mrs. Mary F. Tome, of Niantic, Conn., author of a very beautiful volume of poems, entitled "Sacred Songs," says: "I find that for feeling of deadness of the limbs, constipation and poor circulation of the blood,

Hood's Sarsaparilla

has no rival. I have been troubled severely with a fibroid tumor, besides seven fatty tumors on my left arm. My blood was in very poor condition, watery and deficient in color. Since taking Hood's Sarsaparilla I have good rich, red blood, and do not bloat as I used to.

Hood's Sarsaparilla Cures

Hood's Sarsaparilla has proved its merit to me as it will to all who take it fairly." —N. B.—Be sure to get HOOD'S

HOOD'S PILLS act easily, yet promptly and efficiently, on the liver and bowels. 25c.

BIDDING GOODBY TO HIS OWN BODY.

Farewell, dear body! I have thrilled you
through
With all the love that angels ever knew!
Sometimes with towering rage and mischief
spite
That would drive Lucifer out of paradise!
Sometimes with kindred spirits we have met
In high symposium that I can't forget!
How can we part? Alas! I cannot stay.
Here ends the long, sweet, sad, delightful way.

I mourn for you. I feel sensation creep
That would be tears, but spirits do not weep.
How have I bathed, protected, petted you,
With constant care your lightest wish to do!
What heavenly beauty I have known in you,
These shapely limbs, with bright blood mantling through,
The supreme air of heavenly forms above,
Bright image of our God, whose name is love!

The Master calleth me! I must fulfill
My destined course and meet his holy will.
All aching, full of love, dear form, I tell
The parting hour is come. Sweet clay, farewell!
Now I arise above the days and hours,
But thou must rest among the birds and flowers.
—J. B. Wiggin in Minneapolis Journal.

BRIXTON'S CHOICE.

There are many varieties of matrimonial proposals besides those which appear in novels, and one of them made a lot of trouble a year or two ago for John Brixton. Brixton was one of the intelligent fellows who also are adaptive, so he had acquired a lot of acquaintances who were the envy of every one that knew him. Although he was only a salesman on salary—quite a good salary, it must be said—for a large firm of iron manufacturers, he was frequently accosted familiarly by bank presidents and other business magnates and could slap any of these gentlemen on the shoulder without giving offense.

As he was a bachelor and old enough to have outgrown the habit of lounging through successive evenings in houses where there were pretty daughters, he was available for dinner parties given by men who knew no better way of spending an evening. Everybody among his acquaintances wished him well and wished they could do something for him, but they respected him all the more because he never tried to borrow money nor asked for any other favors. Solid business men told one another that Brixton would be one of them some day. He merely needed the chance which comes to every deserving man in the course of time, and each of them hoped it might be his own fortune to throw the chance in Brixton's way.

It seemed one day to old Budder, president of the Forty-seventh National bank and a hearty admirer of Brixton, that he was just the man to throw a fortune in Brixton's way. The plan came to Budder's mind suddenly, but sudden inspirations and quick action thereon are part of the daily life of the most stolid presidents of big banks. Brixton had promised to lunch with the bank magnate at midday, and he appeared at the bank just in time to see the old man bowing out a lady with more courtesy and ceremony than he imagined Budder capable of.

As the old man caught sight of Brixton he exclaimed:

"One moment, Miss Fewse. Allow me to introduce my very dear and old friend, Mr. John Brixton. Mr. Brixton, Miss Fewse, daughter of old Ben Fewse, whom every one has heard of."

Brixton bowed and looked curiously at the lady. He had seen her father occasionally before increasing years and doctors had sent Mr. Fewse to his final home, and his eyes searched the daughter's face for indications of her father's distinguishing traits. He found them, too, although the interview was short.

Miss Fewse was richly and simply dressed. Her figure, like her father's, was dumpy, and her face, though not rude, was as broad and heavy and her forehead was as low as that of old Ben himself. Still, her manner was womanly, and as she finally took her departure Brixton, who had a dear old mother as well as a sister whom he regarded as the best young woman alive, sorrowed to himself that a man as rich as old Ben Fewse could not have married some one whose blood could have atoned for the rudeness of his own.

"Well, John," said the president, after handing Miss Fewse into her carriage, "you owe me one. Any one of a thousand good fellows in New York would give 10 years of his life for such an introduction to Miss Fewse as I gave you just now. Go right ahead now and make use of it."

"You're always doing the friendly thing, Budder," remarked Brixton, sinking into an easy chair, "but I don't quite understand it this time."

"Don't, eh?" said the president, hastily relighting a cigar which he had laid on his desk when Miss Fewse was announced.

"Well (puff), Miss Fewse is joint heir with (puff) her brother—her only brother, mind you. Old Ben's estate is estimated by his executors at $8,000,000. I don't know how close that comes to the truth—I don't take much stock in what I can't see with my own eyes—but this much I do know."

Then the president clapped two pudgy hands upon Brixton's knees, looked squarely into Brixton's eyes and said in a low, measured monotone:

"John Brixton, I know of my own knowledge that Ada Fewse has over one—million—dollars—in good railroad bonds right in my safe here. 'Nough said, eh?"

"Enough money, I should say, for an unmarried woman who doesn't look as if her tastes were expensive. But what have I to do with it? You said"——

"Do with it!" echoed the president. "Why, you donkey, make it your own. Marry the girl. She isn't a beauty, I must admit, but she's respectable and honest, and she'd accept you in a minute."

"Upon my word, Budder," laughed Brixton, "you've been in business so long that even women seem property to you. Miss Fewse never saw me until five minutes ago."

"Perhaps not, but she's got her father's level head on her shoulders. She's seen dozens of other men. Scarcely a month goes by without some fellow offering himself to her—for the sake of her money, of course. She doesn't object to marrying, for, being a woman, she has a heart, but she has enough character to want a husband whom she can respect, and none of the fellows who have offered themselves thus far has been of that kind."

"Upon my word, Budder," said the younger man, "I never would have taken you, good fellow though you are, for a man whom an unmarried woman would have selected as confidant. It does you credit, though, that she seems to have opened her heart to you."

"Oh, well, Ben and I have been in many speculations together, and she knows he always trusted me. Besides there's no sentimental nonsense about her. She isn't afraid to unload her ideas upon an old friend of the family, so we've talked very freely about it. By the way, she has such a matter of fact manner that she looks older than she is. She's really five years younger than you. Your fortune's made, poor boy, unless you make a fool of yourself in some way.

"Let me sound her about it. You may count upon me to do it without lack of proper respect for either of you, and I'll bet the entire assets of this bank against a penny that you may announce your engagement within a week. Then you'll be hand in glove with a lot of us fellows in a business way as well as socially, and we want you—we really do."

"Budder," said John Brixton, rising from his chair, "you've got a heart as big as an ox, and I'm heartily obliged to you for your interest in me. You must give me time to think of it, though."

"Time to——!" ejaculated the president, firing his cigar butt at the cuspidor with such energy that he overshot the mark and elicited a howl of anguish from the bank's cat as she mistook the missive for a mouse when she opened her eyes from a peaceful slumber. "There're some things that a fellow can't afford to think about. Do you stop to think when a trout rises to your fly? Come along to lunch and make up your mind on the way."

But John Brixton wasn't able to give a decisive answer over the coffee and cigars. A million dollars in good securities seemed well worth the taking by a man who had worked industriously for 15 or 20 years only to reach a salary of $5,000 or $6,000, and an appreciative wife thrown in seemed like so much extra luck, for John's mother and sister had for years warned him that wives who hold good husbands in proper regard are as scarce as model husbands.

On the other hand, old Ben Fewse's daughter, who looked as much like her father as a woman could look like a man, would be a strange companion for a man who, in spite of much attention to material things in the way of business, had inherited many fine tastes and sentiments which he had kept in good, usable condition. Whoever he might marry ought to be fairly companionable to his mother and sister—two women whom he could not imagine enjoying Miss Fewse's society.

But while John Brixton went on thinking and wondering and compromising and rejecting his own compromises old Budder took the case in hand as earnestly as if it were a promising investment for his own bank. He was too good a business man to exceed his authority, but he and his wife took Miss Fewse out driving the very afternoon that he had made his suggestion to Brixton, and they took her home to dinner with them, and the old man made opportunity to sound the praise of John Brixton and to tell what fine women John's mother and sister were. So before the evening was over Miss Fewse was conscious of a mighty wish that some man like John Brixton would ask her to change her name and share her life and fortune with her.

Brixton had been at his office only half an hour the next morning when one of the clerks shouted:

"Some one on the telephone for you, sir."

"Who is it?" John asked, raising his eyes from a letter he was reading.

"Forty-seventh National bank—President Budder," the clerk replied.

"Wait a moment," said Brixton, dropping the letter, seizing his hat and starting for the door. "I'm out—you don't know when I'll be in."

One of the firm who had overheard the conversation asked his partner whether he supposed Brixton had been speculating in Wall street and got more accommodation from the Forty-seventh National than his collaterals would warrant, and the partner replied that it might not be a bad thing to keep Brixton out of temptation by sending him to South America to look after a railway contract which they had been trying to secure through correspondents.

As for Brixton, he went straight home and prowled about the house until he found his sister.

"Ettie," said he, "you and I have always been confidential friends, although we're brother and sister. I want to ask you an unusual question, and I want you to answer it without joking or raising your eyebrows or any other teasing. Suppose I should suddenly determine that I wanted to marry. Whom would you best like for a sister?"

The young woman did not start or laugh or do anything expressive of astonishment, but answered promptly:

"I've longed for years to see you and Agnes Hammice make a match. You're made for each other."

"Longed for years, eh? Never changed your mind?"

"Never. Isn't she my dearest friend? Isn't she as good and sweet and handsome as—as she is poor?"

"What does mother think of her?"

"Just what I think and what every one must who knows her. The dear girl would have been snapped up long ago if she hadn't been too poor to appear properly in the society for which she's best fitted. As it is, scarcely any young men know her except those who are not fit to tie her shoes."

"What do you suppose she thinks of me?"

"Well, on general principles she can't help liking you. For the rest, unless she forgets everything I say to her, she must think you're the one supremely perfect man on the face of the earth."

"H'm! What wonderful things you must have said of me—behind my back. Do you suppose you could arrange for us—she, you and I—to take a drive this afternoon?"

"Yes, but"——

"Exactly. Then find some excuse after you return from inviting her to find something which will unavoidably prevent your going."

By way of reply Ettie Brixton sprang from her chair, kissed her brother effusively and hurried off to dress for a morning call.

Miss Hammice went driving with John Brixton that afternoon, and although she was very sorry that dear Ettie wasn't with them she enjoyed herself greatly [illegible] manner of busy people whose special pleasures come infrequently.

As the drive prolonged itself she changed her mind about Ettie. She wouldn't have had the girl with her for worlds, for although there was more happiness in that carriage than she had ever before imagined the world contained there was only enough for two, and the mere presence of any one else, even her dearest friend, would have entirely spoiled it. Instead of taking her directly home after returning from the pleasant country lanes through which he had driven, John Brixton drove to his own home and called his sister down to the little parlor, while he remained outside to watch the horses.

It seemed to him that he sat there alone at least 24 hours, although the parlor clock had ticked off only 20 minutes when Agnes tore herself away from Ettie with the remark that she could not be entirely happy until she had reached home and told her mother all about it.

President Budder was still at his dinner table that evening when a letter was brought in. The servant said a special messenger had brought it, with instructions to deliver at once.

"One of the delights of being a financial magnate!" growled the old man as he tore the end from the envelope. "Can't eat my dinner in peace. Any customer in such a hurry must be—great Scott!"

"Has some one failed?" asked Mrs. Budder.

"I should say so—failed to make a fortune. Listen to this:

"My Dear Budder—Perhaps men grow more bashful as they grow older. At any rate, I'd rather write you than tell you face to face that the reason I hesitate to avail myself of your kind suggestion regarding Miss Fewse is that I am already engaged to a most estimable young woman. I shall expect you and your wife to dance at the wedding, which will be within a month.

"A thousand thanks, my dear boy, for your kind interest in me. As your own married life has been very happy, I trust you'll understand me when I say that I'm marrying a tremendous fortune, though every bit of it consists of human nature. Yours always,

John Brixton.

"A million dollars—yes, three million dollars out!" exclaimed President Budder, dashing the letter to the floor. "Did you ever know such a fool?"

"I hope so," said Mrs. Budder. "I'd like to believe you'd have been just such a one yourself if a rich woman had been thrown at your head when you were paying attentions to me. Goodness knows you got nothing but me when you married. Stevens, bring up the oldest bottle in the cellar. We seldom have so good an excuse to open it."

"Right you are, my dear, as usual," said the bank president, going to the head of the table and giving his wife a kiss which might have been heard a block away had the windows been open.
—Once a Week.

The Man's Interest In This Woman.

The white haired gentleman at the table opposite had been staring hard at me for several minutes. The entire absence of anything disrespectful had allayed my wrath and finally even aroused a certain feeling of satisfaction. There is no woman alive who does not rather like to be looked at when she is sure that no impertinence is intended.

At last the old gentleman spoke to his waiter in an undertone.

"But dey ain't none on dat bill, sah. See fo' yo'self," protested the polite negro.

Another remark in an undertone from the old gentleman.

"'Scuse, me, miss," and the waiter turned to me, with an air of exhausted patience, "but is yo' had any browned potatoes fo' yo' dinner?"

I had had browned potatoes, but they belonged to an entree and had not figured in the bill by name. I explained the situation and sadly went on with my dinner. The old gentleman's attentions were due not to gallantry, but to gormandizing.—Kate Field's Washington.

Lilacs in Paris.

Cartloads of lilac arrive at the Paris market every morning, and purchasers carry off armfuls of these branches of green foliage and white clusters of delicious perfume for the purpose of ornamenting their dwellings. The greater quantity of lilac which is collected in the market is from Seine-et-Oise, owing to the soil being poor and unsuited to all other vegetation. In the little village of Prette the land is almost entirely covered with forests of lilac. Five acres will produce 150 francs' worth of lilac each year. The branches which have the most blossoms are cut, the largest of which are rested against sheaves of hay arranged for the purpose. The more minute branches are tied up in clusters with water willows around the bark or woody part of the branches and placed in vans.—St. Louis Republic.

A Vile Lie In the Pillory.

Weeks before the royal wedding it was openly whispered that the Duke of York, a gallant sailor and a gentleman, had made a false step; had been forgetful of his princely and knightly duties and obligations, and had, in fact, been secretly married and involved himself in a mesalliance, repugnant to his sense of honor and illegal in the eyes of the well known statute law. That law is simple. None of our blood royal can legally contract marriage without the consent of the reigning sovereign. Morganatic marriages have been recognized as such, and such love inspired sanctity as attaches to these unions when faithfully adhered to. The world knows all about them and sympathizes with them. But what said the quidnuncs, the tattlers, the irresponsible, the chattering sparrows who build under the eaves of palaces?

Blankly this, that George of Wales was married; that the name of the place and the name of the lady, alleged to be the daughter of a naval officer of high degree, were known, and both names and places changed and fluctuated as the price of scandal shares rose or fell in the gossip market. Like ill winds the ugly rumor grew apace over the dinner table and afternoon teapot. Men talked of it—more shame to them—women murmured it with giggles and innuendo; the very "outsiders" got hold of it, and all the time the story was positively and absolutely untrue. Think you for an instant that the head of our church would have married our prince and princess had he not first satisfied himself, as we have reason to know he did, that the silly story was wholly untrue, absolutely baseless? The question carries its own answer. We contradict it directly with authority.—London Gentlewoman.

MOODY AND SANKEY.

STORY OF HOW MOODY DISCOVERED THE MAN TO HELP HIM.

It Was at a Meeting In Indianapolis That the Voice of the Great Singer Was First Heard by the Stirring Evangelist—Their First Work.

It was at Indianapolis in 1870 that these two men first made each other's acquaintance. Mr. Moody was already displaying that zeal in evangelistic work which subsequently made him famous, though then his efforts and his reputation were confined largely to Chicago. Mr. Sankey's home was in Newcastle, Pa., where he was then serving as an internal revenue officer. His father was a banker and active in politics and held under Lincoln's appointment the important position of collector of inland revenue for four large counties in western Pennsylvania. Young Sankey was then a Christian, having been converted a number of years before during a Methodist revival, and his talent of song had already begun to be used for his Master.

Coming to Indianapolis to attend as a delegate from Newcastle the national convention of the Young Men's Christian association, Mr. Sankey attended one morning a 6 o'clock prayer meeting, held in the basement of the First Baptist church, led by Mr. Moody. The singing dragged, and Mr. Sankey, at the suggestion of a minister who was seated beside him, started up the familiar hymn, "There is a fountain filled with blood." It went well and was followed by other songs equally successful, and Mr. Moody became so interested that he looked about to see whence the new impetus in singing came. After the meeting closed, with characteristic quickness of decision, Mr. Moody, hardly waiting for an introduction, said to Mr. Sankey:

"You're the man I have been looking for for the last eight years. Come and lunch with me." The invitation was accepted, and later in the day the two men got together, and the subject of a future combination of forces was talked over in downright earnest. Mr. Moody pressed upon Mr. Sankey the duty of at once joining him in Chicago, but in Sankey's mind there were some practical objections arising from his business and family connections. "I am a government officer," he said to Mr. Moody, "and may find it difficult to get released." "There is a better government to serve than this," was the reply that flashed instantly out. But, persuasive as Mr. Moody was, he did not carry his point then and there. Mr. Sankey took several months in which to consider the matter.

That very afternoon, however, the first Moody and Sankey public meeting was held, with no advertisement except the singing as led by Mr. Moody's newly found friend. It was an outdoor gathering, and the masses were there. Mr. Moody brought out a box from a store to a favorably located street corner, mounted it, and there a short but fervent service of preaching and song was held. At the close of this open air meeting the two evangelists headed a procession for the Academy of Music, where the convention meetings were held, singing as they marched with the crowd into the Academy of Music, the convention having adjourned the discussion of "How to Reach the Masses" and gone to supper. When the delegates got back to the academy building, they found it nearly half full of the very "lapsed masses" about whom they had been discussing. Mr. Moody cut short his second address, dismissed the audience and went out with Mr. Sankey to get something to eat. Mr. Sankey was greatly impressed with these two meetings and said to Mr. Moody, "You are reaching the masses while other people are talking about them."

After the convention was over Mr. Sankey went back to Newcastle and talked the question over with his wife and family. He did not see his duty clearly all at once, but Mr. Moody kept writing for him to come to Chicago and at last persuaded him to go out for a week to look the ground over. Arriving in Chicago in the early morning, he went first to Mr. Moody's house, reaching there just as family prayers were being held. Almost before Mr. Moody introduced him to his family he asked him to sing a hymn and thus contribute his part toward the informal service of praise. Then the two men went out into the streets of the city visiting the sick and unfortunate.

That day must have been a notable one in the personal history of the two men, who afterward commanded the eager attention of great audiences on both sides of the sea. On this occasion, as two ordinary missionaries, they went about from house to house, singing and reading the Bible and speaking the word of cheer and hope wherever it was needed. This was their first day's labor together. Evening meetings were held during the week in the Illinois street church, of which Mr. Moody was the head and leader.

On Sunday a large meeting was held in Farwell hall, and as the organist happened to be absent Mr. Sankey had to sing without instrumental accompaniment, not having even a small cabinet organ there. The effect of the service upon the people there was so marked that Mr. Moody turned to the singer and said, "You see I was right." There were that night not less than 100 inquiries. The earnest preaching and consecrated song had gone home to many a heart. From that time until the present these men have been colaborers, and the story of their career here and in Great Britain is so familiar that it need not again be rehearsed.—Congregationalist.

Keeping the Congregation Awake.

Lapenius, chaplain to the Danish court (1692), noticing that a large part of the congregation fell asleep during the sermon, suddenly stopped, and pulling from his pocket a shuttlecock commenced to play with it. This strange device, we are assured, had the effect desired.—Temple Bar.

Love's Testimony.

HE—A FOND POET.

Give me roses, blushing roses,
Dipped in wines of sparkling dew;
Give me roses, sweet breathed roses,
Let them whisper "I love you."

SHE—TO THE FLORIST.

Give him roses, rich red roses,
Price per rose not less than two;
Then if he be speaking truly
He will pay your bill when due.
—Brooklyn Life.

THE PHILOSOPHY OF NOISE.

Aversion to Disturbance Is a Symptom of Neurotic Degeneration.

A woman suffering from neuralgia stations her son to keep boys from making a noise in front of the house. A boy comes by whistling—a performance in which we must recognize a natural, wholesome and boylike act, whereupon there ensues a short, sharp fight between the pair, in which one is accidentally cut. The upshot is not important; the origin of it is.

It has long been usual to accord special privileges to invalids in relieving them against noise. Formerly straw would be strewn in the street, and thousands of persons who were not sick would be inconvenienced to ease the pains of one who was. In part, this custom was one of ostentation. It could be practiced only by the influential who were exalted by making themselves a nuisance. When death ensued, a hatchment was set up in the same spirit of vainglory. All the windows in the house were closed for a term, the duration of which was fixed by custom, but which bore a relation to the estate of the deceased and the consequent degree of exaltation descending upon his heirs.

All healthy animals delight in noise. The description includes barbarous folk and children. Dogs bark (curs only sneak off), birds scream, boys shout, girls clap hands to their ears in sweet confusion, horses paw, all animate nature responds to the exhilaration of noise. The sick do not. In every form of sickness the nervous function is deranged. As we have seen above mankind has shown its appreciation of this fact by its customs. Excessive sensibility to noise is thus one symptom of neurotic degeneration. It is the mark of one broad distinction between the state of civilization and its opposite. It testifies to one part of the price which that state exacts from man on his physical side.

Within civilization itself indifference to noise is one of the distinctions of a system rudely healthful, both in body and mind. The converse of this proposition is equally true. Whenever a person displays peculiar sensitiveness to noise we may know that the case is one of an unwholesome mind in an unwholesome body. From the fact that the disturbance is essentially a neurotic one it follows that it is controllable to a great extent by the will. Much of the disturbance that is experienced from noise can be put completely aside by exercise of the will. A barking dog may keep one person awake while his healthier or wiser neighbor sleeps the sleep of the just. Under the pinging of the cable car bells a valetudinarian subsides into frenzy while his younger clerk is lapped in dreams of the equally unconscious typewriter on the next floor. The contrast here need not be one of relative strength of mind merely; one of the two minds is sick.

In such a case the will power is impaired. It would probably be found that the complaining person is also irritable, passionate, perhaps consumed by self contemplation. In many cases of this order relief could no doubt be gained through treatment by suggestion. But in vastly the greater number the patient is competent to minister to himself. He is still capable of exerting the will, and in this exercise lies complete and permanent cure. Furthermore, the cure does not apply alone to the particular noise that may have called for it. It will be found to have influenced the mind permanently. The injurious effects attributed to noise do not proceed from without, but from within. They do not inhere in the aerial vibrations, but in the mental response made to them.

Finally it ought to be observed that the disease is one that increases by being yielded to. The noise that is first noticed as an annoyance in some moment of irritation, anxiety or other nervous disturbance can be nursed into an object of horror. Time was when folks thought sensitiveness to noise to be evidence of high strung character. They were rather proud of it and trotted it forth in public. The world knows better now. It erects hospitals for the Mrs. Wititterlys, whom it rather admired in Nicholas Nickleby's time. It no longer holds poor Tom of Bedlam for inspired, and since it has learned how much sickness is either a fruit or a phase of ignorance it is getting a little sick of those sick folks, at least of whom it has a right to look for something better.—New York Evening Sun.

REMOVED—Laighton Brothers have removed their photograph gallery from the Chelsea Bank Building to No. 86 Shetucket St., in the building with the Henry Bill Publishing Co., where all old patrons will be welcomed and new ones be heartily greeted. Their new rooms are neatly furnished, their facilities for doing first-class work have been much improved. New backgrounds have been put in, and the light for producing photographs has been arranged according to the best methods known to the business. All work promptly attended to.

WOMEN AND THE SCHOOL QUESTION.

The women of New Haven are the first to exercise the right [illegible] under the new law giving the women of the state a voice in school matters and a right to election as officers in school districts. The school election in New Haven will take place today. The press has urged the women to show an interest in school matters by registering and organizing for this meeting. The women at New Haven, at last accounts, had not registered in large numbers; but as they have a right to register today no one can tell how many votes will be cast by them upon their first opportunity to have a voice in public affairs. In proportion to their number in that city the vote may be expected to be small. The women are naturally timid about going to the polls to vote, but the men take little interest in school matters, which are of the utmost importance, and cast a very small per cent. vote. It's an open field for the new voters, one in which they ought to have a keen interest, and one in which they can make their influence felt for good. We hope when the time comes for the women of Norwich to vote that they will make a good showing for the town. Repudiating any right of citizenship is an error that no citizen ought to commit.

NOT AT ONCE.

The ways and means committee has discovered that the hearing of the people interested in tariff revision cannot be completed by Wednesday, and the latest news from Washington is that the committee is in hopes to complete its work and have the bill passed in time to take effect on July 1, 1894.

One of the most striking appeals made before the committee was that by Phillip Hagen of Youngstown, on Thursday of last week. He represented sixty thousand workmen in iron in Ohio. Mr. Hagen said he learned his trade in England toiling for ten pence a day; and when he was a man of twenty-seven he could earn only $1.25. After practicing the most rigid economy he saved money enough to come to the United States, and is "now receiving $6.60 a day for exactly the same work he received $1.25 a day for in England."

"We all expect to be thrown out of work if the tariff is reduced to a purely revenue basis," said John Geary, a roller in a Pittsburg iron mill. "Before the law of 1890 was enacted a great many of us were walking the streets, and if it were not for the law we should be doing the same thing today."

If republican protection is a "robber tariff" it does not rob the workingmen and put them on starvation wages; but that is just what the proposed ad valorem tariff, which the democrats do not dare to enact, although their platform pledges them to do it, would do.

WHAT THE SOUTH HOPES FOR.

More than ordinary interest attaches to some of the bills presented to this democratic congress for consideration. Over one thousand southern war claim bills have been presented at this session for payment. The other day Gen. Wheeler, an ex-confederate, presented one hundred and twenty-two in one pile. The south not only dominates the administration and is in a position to insult and embarrass the union veterans pensioners, but it hopes to take a few millions out of the United States treasury upon claims that no country on the face of the earth would recognize [illegible].

The democratic party has the executive departments and both branches of the general government for the first time in thirty years, and the favor it has shown the south and the arrogance which that section shows in the administration and both houses of congress, ought to satisfy the people of the other sections of the country for a long time to come. Rewards for ex-rebels and curses and pauperism for union veterans and pensioners ought to be a short-lived sentiment in this republic.

AN EPIDEMIC OF SUICIDES.

One of the saddest results of the present panic and distress is the increase of suicides which are reported in different parts of the country. In New Haven there have been two traceable direct to dejection on account of enforced idleness and the distress resulting from inability to earn a living; and in New York last week nine suicides were reported in twenty-four hours, most of them, probably, attributed to the same cause.

These cases of self-destruction show that "the wolf is at the door" of the idle workman, and that they prefer death to depending upon the charity of the world for support. It is a pity that the helping hand in this world of plenty is not prompt to help those who cannot help themselves. If it were always in sight and never gave grudgingly, death would not be sought by the poor and unfortunate as the only refuge.

A DEMOCRATIC OPINION.

General Tracey of New York, a well-known democrat, says: "The men who are attempting the repeal of the federal elections bill are not entitled to be called democrats. They are making war upon the administration and on the policy of the majority of the party. * * * The whole purpose of bringing the election issue forward now is to muddle the situation and to check the irresistible influences which are at work to compel the speedy passage of the repeal of the silver purchase law." No republican representative should be decoyed from the real issue by these side manœuvres of an outflanked party.

UNADULTERATED IMBECILITY.

The Pittsburg Leader says: "Cousin Ben Folsom's Sheffield speech for unadulterated imbecility discounts anything in the line of political oratory previously on record." "Cousin Ben" won the applause of the Sheffield manufacturers, whom he told the democratic policy in this country was beneficial to them, and he should receive the contempt of the American workmen, whom that same policy brings to enforced idleness and distress.

EDITORIAL COMMENT.

Brazil is pretty well Mexicanized.

Bismarck's favorite musical instrument is a hand-organ, but the music of field-pieces suits him in time of war!

One hundred and fifty thousand boomers entered the Cherokee strip Saturday. Life is real and earnest in that country.

Attorney General Olney plays lawn tennis. If the tennis racquet is the only "racket" he indulges in he misses much that his fellow democrats enjoy in Washington.

If the Faulkner amendment should be adopted by congress the American people will have $220,000,000 in silver coin forced into their pockets. The American pocket is pretty well loaded now.

In free trade England the people are "taxed to the hilt." That is what the southern end of the democracy want the northern "mudsill mechanics" to experience. They would push in the "hilt," too, if they could!

The Norwich Weekly Courier is the best weekly newspaper in New England at 50c a year.

STATE EDITORS' OPINIONS.

The Cup Defenders.

The "cup defenders" who are now being heard from—the National Brewers' association.—[New Haven Union.

A Query.

What the deuce does The Ansonia Sentinel mean by "the weary work of newspaper life?" Hasn't Colonel White had his vacation?—[Waterbury Republican.

Look After the Little Things.

In our hurrying through life it is the little things we need to look after. A thirty-five cent hen got in the way of a Bridgeport bicyclist, the other day, and smashed a $150 wheel.—[Ansonia Sentinel.

Every Man Will Have His List.

When state banks again come in vogue, if they do, every man with a little money in his possession will have to carry a list a mile long of unsound or failed banking institutions, and the counterfeiter's harvest will begin in earnest.—[New Haven Palladium.

An Encouraging Outlook.

Here is an interesting bit from a prosaic business letter—that of Watson & Gibson, Wall street: "While as moralists we may regret the increased per capita demands for spirits, as advisers to our speculative clientage we may remark that the outlook for the whiskey brewer is encouraging."—[Bridgeport Standard.

A Good Habit.

Ladies, do your shopping at home stores. Give the retail dealers of the city all the support and patronage you can. It will assist home people and pay you best in the end. The same advice applies to men also. Do not go out of the city to buy any article which can be purchased here.—[New Haven Palladium.

Who'll be Collector?

The Hartford Courant's Washington correspondent this morning quotes Congressman Russell as saying that "Clint" Davis, chairman of the democratic state committee, will probably be collector of internal revenue as a compromise candidate, and that John O. Bixbee is no longer considered. Mr. Davis says that he does not wish the office, and will not take it, but Mr. Russell thinks that he will.—[Bridgeport Post.

A Nominator.

Colonel Palmer of The Bristol Press, making no discrimination between Trojan and Tyrian, generously nominates Colonel Charles Hopkins Clark of The Hartford Courant and Colonel Norris Galpin Osborn of The New Haven Register as opposing candidates for governor. The Connecticut press, including the esteemed Courant and the esteemed Register, appears readily to acquiesce in this arrangement.—[Waterbury Republican.

Women for School Visitors.

It is thought by many that one-third of school visitors should be ladies to make their influence on the board felt and two of the five high school members. If this radical change in our school affairs is to be adopted—and there seems to be a unity of feeling to that end, our neighbor, The Journal, the local correspondent of The Hartford Times and The Connecticut Home having endorsed the movement—let it be so strong as to be effective.—[Willimantic Chronicle.

An Important Change.

The public school educators of Cleveland, Ohio, have decided upon the most important change that has been made in public school methods for years. This is nothing less than the abolition of the system of promotion by examinations and the substitution of the monthly ranking system. Of course it will be impossible to render competent and conclusive judgment upon the merits of a change so radical for some time—two or three years possibly; but it may be said that the proposition is the result of the most careful thought of some of the best educators of the country.—[New Britain Herald.

Wages Have Been Reduced.

The wages of factory operatives in Fall River, New Bedford and many other New England towns have been reduced from 10 per cent. to 14 per cent. In every single instance these cuts have resulted from a fear on the part of the factory owners and their customers that the tariff is to be reduced.

Every dollar thus kept from the laboring people is the result of democratic threats. The only people in this country who profit by this business disturbance are the importers. This is a sample of democratic friendship for workingmen. This is a sample of how the tariff affected the workingman. Workingmen, consider well the situation.—[New Haven Leader.

Those New Yale Dormitories.

The division of rich and poor is the important and dangerous step. Up to within a few years, the reasonable prices of rooms and the comparatively small supply of campus accommodations allowed and resulted in the free mixing of millionaires' sons and boys of short purses. And the result upon both was good, and the most splendid democracy, thus illustrated and fostered, made the crowning glory of this character-forming institution.

Now we have in terms the dormitory for the rich and the dormitory for the poor. That's what's the matter, esteemed "Courant," and all other good friends of Yale.—[New Haven Register.

The Norwich Weekly Courier is the best weekly newspaper in New England at 50c a year.

A man's wife should always be the same especially to her husband, but if she is weak and nervous, and uses Carter's Iron Pills, she cannot be, for they make her "feel like a different person," so they all say, and their husbands say so too!

Caution.

Imitations have been put upon the market so closely resembling ALLCOCK'S POROUS PLASTERS in general appearance as to be well calculated to deceive. It is, however, in general appearance only that they compare with ALLCOCK'S, for they are worse than worthless, inasmuch as they contain deleterious ingredients which are apt to cause serious injury. Remember that ALLCOCK'S are the only genuine porous plasters—the best external remedy ever produced; and when purchasing plasters do not only ask for but see that you get ALLCOCK'S POROUS PLASTERS.

I suffered from acute inflammation in my nose and head—for a week at a time I could not see. I used Ely's Cream Balm and in a few days I was cured. It is wonderful how quick it helped me.—Mrs. Georgie S. Judson, Hartford, Conn.

For three weeks I was suffering from a severe cold in my head, accompanied by a pain in the temples. Ely's Cream Balm was recommended to me. After only six applications of the Balm every trace of my cold was removed.—Henry C. Clark, New York Appraiser's Office.

Not one in twenty are free from some little ailment caused by inaction of the liver. Use Carter's Little Liver Pills. The result will be a pleasant surprise. They give positive relief.

For Over Fifty Years

MRS. WINSLOW'S SOOTHING SYRUP has been used by millions of mothers for their children while teething. If disturbed at night and broken of your rest by a sick child suffering and crying with pain of Cutting Teeth, send at once and get a bottle of "Mrs. Winslow's Soothing Syrup" for Children Teething. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures Diarrhœa, regulates the Stomach and Bowels, cures Wind Colic, softens the Gums and reduces Inflammation, and gives tone and energy to the whole system. "Mrs. Winslow's Soothing Syrup" for children teething is pleasant to the taste and is the prescription of one of the oldest and best female physicians and nurses in the United States. Price twenty-five cents a bottle. Sold by all druggists throughout the world. Be sure and ask for "MRS. WINSLOW'S SOOTHING SYRUP."

If there ever was a specific for any one complaint, then Carter's Little Liver Pills are a specific for Sick Headache, and every woman should know this. They are not only a positive cure, but a sure preventive if taken when the approach is felt. Carter's Little Liver Pills act directly on the liver and bile, and in this way remove the cause of disease without first making you sick by a weakening purge. If you try them you will not be disappointed.

Surrounded by Mystery!

A GREAT MISTAKE.

A recent discovery is that headache, dizziness, dullness, confusion of the mind, etc., are due to derangement of the nerve centers which supply the brain with nerve force; that indigestion, dyspepsia, neuralgia, wind in stomach, etc., arise from the derangement of the nerve centers supplying these organs with nerve fluid or force. This is likewise true of many diseases of the heart and lungs. The nerve system is like a telegraph system. The little white lines are the nerves which convey the nerve force from the nerve centers to every part of the body, just as the electric current is conveyed along the telegraph wires to every station, large or small. Ordinary physicians fail to regard this fact; instead of treating the nerve centers for the cause of the disorders arising therefrom they treat the part affected.

Franklin Miles, M. D., LL. B., the highly celebrated specialist and student of nervous diseases, and author of many noted treatises on the latter subject, long since realized the truth of the first statement, and his Restorative Nervine is prepared on that principle. Its success in curing all diseases arising from derangement of the nervous system is wonderful, as the thousands of unsolicited testimonials in possession of the company manufacturing the remedy amply prove.

Dr. Miles' Restorative Nervine

is a reliable remedy for all nervous diseases, such as headache, nervous debility, prostration, sleeplessness, dizziness, hysteria, sexual debility, St. Vitus dance, epilepsy, etc. It is sold by all druggists on a positive guarantee, or sent direct by the Dr. Miles Medical Co., Elkhart, Ind., on receipt of price, $1 per bottle, six bottles for $5, express prepaid.

Restorative Nervine positively contains no opiates or dangerous drugs.

SITUATION GRAVE.

Revolution in Brazil Fast Gaining Ground.

PRESIDENT LEAVES RIO JANEIRO.

Rebels Have Gained Foothold in the City.

Buenos Ayres correspondent cables: News which has been received from Rio de Janeiro indicates that the situation there is very serious. It is believed here that the navy revolters have gained a foothold in the capital. President Peixoto, it is learned, has abandoned the coast of the bay of Rio and the capital, and retired to Santa Anna with that portion of the army which still remains loyal to him.

Here he will await an attack from the landing party which will be sent from the rebel ships, the Aquidaban, the Republica and the Trajano. Advices from Rio state that the bombardment of the city has been suspended. Private dispatches state that

The Damage to the City

by the guns of the fleet was much greater than the government reports stated. It required prompt interference on the part of foreign warships in the harbor to protect property in the city.

Word has also been received that the revolution is spreading. It is now reported that the states of Bahia and Pernambuco have declared in favor of the revolutionists. The garrison at Fort Villegagnon and all of the other forts in the harbor of Rio de Janeiro except one have revolted and joined Admiral Mello's forces.

Preparations have been made in the harbor of Rio Grande to resist an attack from a hostile squadron. All the forts in the harbor are manned with soldiers under fighting orders. Buoys in the harbor have been removed and torpedo mines placed directly

In the Course of Incoming Ships.

It is reported that two vessels have left La Plata with arms and provisions for Admiral Mello's squadron. The royal war ship, the Tiradentes, has put to sea to overtake them if possible. The Brazilian minister here refuses to be interviewed, but it is said that he has expressed the opinion that the situation in Rio is very grave.

From the tone of the Brazilian newspapers received here, it is predicted that Peixoto's government will be overthrown at an early day. News sent out bearing a favorable tone for the government should be taken with reserve, as all messages pass through government agents' hands.

HOPEFUL VIEWS.

The Great Commercial Agencies Believe Financial Storm Over.

NEW YORK, Sept. 17.—In their weekly review of business and finance Bradstreet's and R. G. Dun & Co., in their reports to be published today, take a fairly hopeful view of the situation. Bradstreet's will say:

The starting up of idle manufacturing industries has not been as conspicuous this week as last, and in most instances has been with reduced forces and on part time. The stimulated demand for staples at prominent cities in the Ohio and Mississippi valleys remains the features of the business week. In other respects there has been no real gain within a week. In addition to last week's favorable features of the money markets are increased deposits, a heavy influx of currency from the agricultural regions and reported extensions of discounts by a few banks, but there has been no further increase in the volume of general trade throughout the country, the increase in the volume of bank clearings within a week being more than accounted for in other ways. At the south the relatively more favorable reports come from Atlanta, Augusta and New Orleans, and west from Cincinnati, Louisville, St. Louis, Omaha and Duluth. Such centers as New York, Chicago, Baltimore and Philadelphia are yet to feel a general expansion of demand for staples. Neither woolen, cotton, iron nor steel industries, north and east, are increasing their outputs.

Business failures in the United States show for third week in succession a heavy check in the effects of the late financial storm. Two weeks ago the number of failures was 322, last week it was 379 and this week only 343. One year ago this week's total was 149, two years ago it was 236 and three years ago 187.

RACE FOR FARMS.

A Mad Rush to Take Up Land on the Cherokee Strip.

GUTHRIE, O. T., Sept. 17.—Saturday at noon there was a race for farms in the Cherokee country that has never before been equalled. In accordance with the proclamation of President Cleveland the largest body of purely agricultural land on the American continent that remains unsettled or uncultivated was thrown open to settlement under the homestead laws, and before nightfall 100,000 persons had found homes upon the land.

The body of land is known as the Cherokee strip or outlet, and is 57 miles wide and 186 in length, containing about 6,000,100 acres.

In 1834, the Cherokee Indians were given this land as a hunting outlet to the west, but have not used it for that purpose for a number of years. Of late they have been claiming absolute title to the land, but the courts overthrew this claim and decided they could only pass over the land when going on hunting tours, and would not use it for other purposes.

After several years of dickering the Indians finally sold their right in the land to the government for $8,600,000, and congress brought joy to the hearts of waiting thousands last spring by passing a bill providing for the opening of the land to settlement.

The soil is a rich, sandy loam, very fertile and productive, both on the lowlands and uplands, the quality being much better throughout than in Oklahoma. The ground is covered with a rich carpet of grass, while the principal streams are lined with timber.

The salt fork of the Arkansas, the Canadian and the Cimarron, all flowing in a southeasterly direction, are the principal streams and have numerous tributaries which make a network of running water, enveloping the whole country.

The eastern half of the strip is the best adapted to agricultural purposes, and if a person picks a claim west of the Santa Fe railway anywhere for 60 miles, he will have a good farm, whether he gets on upland or lowland.

The men who secures a farm on the Shakaska or neighboring streams will have as fine and fertile a farm as human mind can conceive, and yet he will be but little better off than the thousands who secure claims almost anywhere in the eastern half of the strip.

About 60 per cent of the strip is first class farming and fruit land, and the balance is excellent for stock raising.

Wheat, corn and oats can be raised in abundance, and all kinds of vegetables, including sugar beets, can be grown with great profit. Sorghum is a good paying crop, and even cotton and tobacco can be produced to advantage. The entire strip is covered with a luxuriant growth of blue stem grama, buffalo and other grasses, yielding fine pasture and excellent hay. Excellent water is found at a depth of 25 feet. The timber supply is sufficient to supply all domestic wants for many years, and first-class building stone is to be found on all sides.

In accordance with the bill passed by congress the land has been divided into seven counties designated as counties K, L, M, N, O, P and Q, and near the center of each county 320 acres of land have been reserved for a site for the county seat.

The climate is as delightful as it is throughout Oklahoma and Indian territories, and the farmer can work out doors 10 months in the year. Every settler in the strip must live upon his land five years before he can obtain a title, and must pay from $1 to $2.50 per acre for the land, with interest at 4 per cent.

PROMINENT LAWYER DEAD.

Charles R. Morrison, Well Known Legal Author and Publisher.

CONCORD, N. H., Sept. 17.—Hon. Charles R. Morrison, one of the best known lawyers in this state, died Friday night, aged 74. He was born in Bath, and was admitted to the bar in 1842. He practised in Haverhill, was judge of the court of common pleas for four years, and served as adjutant of the Eleventh regiment over two years and was severely wounded.

At the close of the war he located in Manchester, where he remained until 1885, since which time he has lived in this city. He was the author of the following legal works: Digest of New Hampshire reports, Town Officer, Probate Laws and Directory, Justice and Sheriff and Attorneys' Assistant, Digest of Laws Relating to Common Schools. He leaves a widow.

BRITANNIA WINS.

Navahoe Badly Beaten in the Race For Cape May Cup.

LONDON, Sept. 17.—The race for the Cape May cup was sailed under difficulties. The Navahoe and Britannia started from the Needles soon after midday Friday in an exceedingly light wind, and it was not until 8 o'clock this morning that they were reported off Cherbourg.

Twenty minutes after the Britannia passed out at the eastern end of the breakwater and shaped her course for home. She was followed 20 minutes later by the Navahoe.

The Britannia crossed the finish line at 12:37:35 o'clock. The Navahoe was quite six miles astern or about 40 minutes in time.

Disestablishment In Wales.

LONDON, Sept. 17.—The Carnavon and Denbigh Herald claims authority to announce that the government has promised the welsh members of parliament to make disestablishment of the church in Wales the principle of a bill in the autumn session. The suspensory bill, therefore, says The Herald, will be dropped from the Gladstonian program.

Stolen In New York.

NEW YORK, Sept. 17.—The Herald says: The theft of the bullion missing from the Philadelphia mint was committed in this city, but who committed it officials here have not yet been able to learn. Officials at the sub-treasury were extremely reticent when asked about the loss.

Brighter In Norwood.

NORWOOD, Mass., Sept. 17.—Senator W. F. Ray's woolen mill at Stony Brook, which has been shut down for six weeks, will start up again Monday morning. The City mills company are laying the foundation for a new dye house.

Russian Station in France.

PARIS, Sept. 17.—The Soir says that France has consented to let Russia use Villa Franche, near Nice, as a naval station for the squadron which the Czar proposes to place in the Mediterranean.

Reform Club Cashier Skips.

NEW YORK, Sept. 17.—George M. Ross, the trusted clerk and cashier of the Reform club has disappeared, and with him has gone $1800 of the club's money.

Driver an Inhuman Wretch.

BOSTON, Sept. 17.—An unknown boy about 12 years old was run over and instantly killed on Adams street, Charlestown, Saturday morning. At about 10:15 o'clock the lad was crossing Adams street when a pair of horses attached to a heavy furniture wagon dashed into him. He was thrown down and the wagon passed over him, crushing his skull and killing him instantly. The driver, without waiting to learn the result of the injury to the victim, whipped up his horses and dashed down the street.

Ministers Win Libel Suits.

VIENNA, Sept. 17.—Recently Fr. Meyer, a Catholic priest, Dr. Deckert and Herr Doell, editor of Des Vaterland, accused several Jewish ministers of sacrificing children in observance of religious ceremonies. The accused ministers brought suits for libel, and yesterday Fr. Meyer was sentenced to four months' imprisonment and Deckert and Doell were fined heavily.

Has Left the Poorfarm Now.

NEWTON, Mass., Sept. 17.—Employes of the Newton poorfarm at Waban found the body of an old man lying in a field Saturday morning. The remains were taken to the farmhouse and were identified as those of Michael Maguire, who had been a resident of the farm for about 10 years. Mr. Maguire was 58 years of age, and as far as is known had no relatives.

Cheered the Chicago.

HAVRE, Sept. 17.—A crowd gathered on the pier Saturday, to wave goodby to the United States cruiser Chicago and her officers. The cruiser steamed out of the harbor playing the "Marseillaise" and her guns exchanging salutes with the artillery of the forts and the French warships. She was cheered repeatedly by the crowd on the pier and along the shore.

Boston's Death Rate.

BOSTON, Sept. 17.—The number of deaths reported to the board of health for the week, ending Saturday noon, is 248, as against 202 the corresponding week last year, showing an increase of 46 deaths, and making the death rate for the week 20.6.

Terrific Gales at Sea.

NEW YORK, Sept. 17.—Terrific gales rage over the Atlantic at present, and the steamships that arrive bear every mark of the storms through which they have passed.

Francis Parkman's Birthday.

BOSTON, Sept. 17.—Francis Parkman, the celebrated author and historian, celebrated his 70th birthday at his home on the shores of Jamaica Pond today. He passed the day very quietly receiving a few close friends and admirers.

Full Time on Monday.

FRANKLIN, Mass., Sept. 17.—The Ray shoddy mill and the Ray cassimere mill, which started up partially last Monday morning, will resume in full on Monday morning next.

Will Start Up Monday.

FREEBURG, Mass., Sept. 17.—The A. F. Bemis hat company, which has been closed nearly a month, will start up Monday.

AGAIN A FREE MAN.

William F. Hazzard Released from States Prison.

PAROLE IDEA TRIED IN BAY STATE.

Was Convicted Under the Habitual Criminal Act.

BOSTON, [illegible] fresh air, William F. Hazzard, a 25-year man at the Massachusetts state prison, walked a free man at 8:30 o'clock Saturday morning. Hazzard is a colored man, 42 years of age, although he would not be taken for more than 35.

The papers arrived in the morning mail, and soon after Warden Bridges sent for the man who was to be practically pardoned and read the conditions of the parole to him in the office of Clerk Haskell, in the presence of Assistant Clerk Darling.

The entry on the records of the prison shows that he was convicted at Fitchburg Jan. 25, 1888, for breaking, and that he was considered to be an habitual criminal, and on Aug. 12, 1888, he was sentenced to 25 years in the state prison, his term to expire Sept. 2, 1913.

The paroled prisoner would say little as to his career, but dwelt entirely on the charge for which he was committed under the habitual criminal act. In conversation with a representative of the Boston press he said that he

Was Innocent of the Crime

for which he has now served 5 years, that he said he was innocent the day he was convicted and that he would say the same on his dying bed.

If the story he tells of the affair be true Hazzard, although he has served time before, will command the sympathy of the public. He states that the charge against him was a dastardly and well planned scheme to beat him out of some property which was left by the death of his father.

His story is that he was hardly out of the Concord reformatory before he was arrested

Persons Trumped Up a Charge

of breaking and entering against him. The complaint was that on Oct 12, 1887, at 10 o'clock in the forenoon, he entered the house of his brother-in-law, Jeremiah Jones of Concord, and took therefrom an overcoat valued at $10, and a razor valued at $1.

Hazzard said: "I was not in the part of the town where his house is situated at 10 o'clock, and the razor they charged me with stealing was in my possession before I was discharged from the reformatory, and the warden there can testify to that."

Warden Bridges gave the paroled man $5 with which to start life anew, and with a light, airy step, in company with the chaplain of the prison, he left for a visit to Daniel Russell, agent for the society which cares for discharged convicts.

Hazzard will return to his home in Vermont, where he will spend the winter, and he will go west next spring. Hazzard was the second man sentenced to prison under the habitual criminal act, his only predecessor being Fred Sturtevant.

REMARKABLE ORATION.

Bishop Fava Denounces Free Masons at General Miribel's Funeral.

PARIS, Sept. 17.—Bishop Fava of Grenoble delivered a remarkable oration at General De Miribel's funeral. He denounced English Free Masons because, he said, they had pushed France into the Crimean war in order that she might exhaust her gold treasure in needless combat.

The French Free Masons, added the bishop, were not less blameworthy. They had incited French statesmen to take sides against Catholic Austria in order that the unification of Italy might be accomplished.

The result of this deplorable and unrighteous policy was that united Italy had now turned on France and was menacing the Alpine frontier. Italy's new strength, moreover, was being utilized at home to resist the temporal power of the pope.

FAMOUS TRAGEDY

Recalled by the Death of One of the "Student Burglars."

LAWRENCE, Mass., Sept. 17.—News has been received here of the death in the west of Luther Foster, and the news recalls a tragedy that was a famous one in this section.

Arthur and Luther Foster were twin brothers, and both attended Phillips academy in Andover. They were working their way through the academy, and intended to complete a collegiate course. One night they walked two miles from the academy and broke into the residence of Abiel Wilson, a wealthy farmer, who lived on the Salem road leading off from Lawrence.

The student burglars, as they were afterwards called, carried a pistol, a jimmy and a box of pepper, the latter evidently to blind the old man's eyes.

Farmer Wilson awoke just as they were in the hallway opposite his room, and taking down an old musket that hung over his bed he fired a shot through the door. The shot killed Arthur, one of the twins. The tragedy occurred on April 13, 1861.

Luther Foster, the surviving burglar, was sentenced to state prison for seven years on May 20 of the same year. The sentence was imposed by Judge Allen at Newburyport. Foster served the long term of hard labor in Charlestown prison, and was released at the expiration of his sentence in 1868. He then returned to his former home in North Andover, but finding that he was shunned by friends and associates, and branded as a felon, he decided after a time to remove to the west, and there began life anew. He resided of late in St. Paul, and there he died. The twins at the time of the tragedy were 21 years of age.

HOPE ALMOST GONE.

Terrible Forest Fires Working Destruction in Wisconsin.

MARSHFIELD, Wis., Sept. 17.—Persons who have returned from the burned districts report that all along the road are seen the carcasses of burnt animals. As far as heard from between 30 and 40 families are homeless in this vicinity. Word from McMillan was received Friday night to the effect that all hope of saving the village is about given up. McMillan Bros.' plant at that place is valued at $100,000; insured for $65,000.

At Merrill, Wis., reports are pouring in from all directions telling how the disastrous fires are leaving death and destruction in their wake. In the towns of Pine River and South 10 families have been rendered homeless. Only two deaths have been posted so far. Swope's sawmill, in the town of Pine River, was burned. It was valued at $25,000, and was insured for $17,000. The forest fires are still raging at Thorp.

On the Elevated.

Gateman—You can't smoke here.

Passenger—Why not?

"Because there are ladies in the car. Besides, it's against the rules."

"Why, that's the reason I have to smoke. I want to deaden the smell of musk and patchouli."—Texas Siftings.

BEHIND THE FOOTLIGHTS.

William Gillette is finishing a new farce.

Rose Newham will play the title role in "Fantasma."

Robert Edeson will join the Empire theater stock company.

John A. Lane will be a member of Alexander Salvini's company.

Minnie Radcliffe has been re-engaged by Sol Smith Russell as leading lady.

George R. Edeson, last season with "Niobe," has signed with Fanny Rice.

Charles Coote will play John Drew's role in a No. 2 company of "The Masked Ball."

Fanny Rice will add an operetta by Offenbach, "The Little Peacemaker," to her repertory.

W. H. Crompton, as Todman in "Liberty Hall," makes up in resemblance of Oliver Wendell Holmes.

Edith Kenward has recovered from a severe illness in Canada, where she has been visiting her sister.

"A Cracker Jack," a new play by Herbert Hall Winslow, is being rehearsed by Harry Trayer at Detroit.

Louis Haines, who won note as a boy actor in productions by Charles Frohman and Frank W. Sanger, has been engaged by Roland Reed to play Wilber in "Innocent as a Lamb."

In Charles Townsend's latest play, "The Midnight Hour," the young author-actor will originate a new role—that of a good natured, light hearted cripple, whose lameness is cured in the last act.

FIGS AND THISTLES.

An honest critic is a good friend.

A good man is killed when a boy goes wrong.

A kind word can be made to strike harder than a cannon ball.

The only joys which live and grow are those we share with others.

It is human nature to hate the people who show us that we are little.

Little Rhody Feeling Better.

PROVIDENCE, Sept. 17.—The Rodman mills at Wakefield will start up Monday on full time, after a shutdown of six weeks, and the Peacedale mills will start up also on Monday after a week's shutdown. The situation in Washington county, in and about Wakefield, Westerly and Wickford, is much brighter.

Business Will Start Monday.

MANCHESTER, N. H., Sept. 17.—The Jefferson, one of the largest of the Amoskeag mills, will resume work next Monday. All of the remaining mills will follow soon thereafter, if not on that date. The industrial and financial situation in the city shows a decided improvement.

THE STOCK MARKET.

Dealings in Leading Securities In Boston and New York.

BOSTON, Sept. 16.—In the outside market call money is quoted at 8 to 10 per cent, and time money is nominally 6 per cent.

The delay of the senate to work upon the Sherman law is becoming the most important factor in the stock market. Money conditions are working easier, but many of the banks already in a position to do it hesitate about cancelling their outstanding certificates until that piece of legislation is disposed of. And on the whole it is advisable that they should, for should the senate fail to repeal the law, or couple with it some compromise measure, a further period of stringency might follow which would make clearing house certificates again a necessity. But to reissue them, after they had been retired, would precipitate a panic more intense than that just passed through. Furthermore, such action by the senate would precipitate a selling of stocks which would send quotations back to the recent level, for the time at least. As a result the market has settled into a waiting one with the tendency toward reaction and the public interested only as spectators.

London came this morning from ¼ to ⅜ stronger, but was an unimportant factor. The Rock Island dividend made no more impression than the St. Paul one did, while the bank statement, though good, helped very little. Sugar continued the bottom of the market, opening ¼ down at 87¼. It declined to 87 and rallied to 87¾. The preferred rose from 83½ to 87. General Electric was dull but steady between 47⅛ and 47¼.

In railroads Atchison was a fraction weaker, selling down during the morning to 20, while Union Pacific held about 21½. Boston and Albany was up to 203½, while Fitchburg preferred, selling down to 78¼, closed at its opening price of 80. New York and New England was off ¼.

The most important changes comparing final sales with those of Friday were: Sugar decreased ¼. Sugar preferred, advanced ¼. West End Road preferred, advanced ¼. Chicago, Burlington and Quincy decreased ¼. Boston and Albany, advanced ¼. Calumet and Hecla, advanced 1.

ALL IN ONE DREAM.

WORK ACCOMPLISHED BY A MAN IN A SHORT SPACE OF TIME.

A Story Showing the Remarkable Swiftness With Which the Mind Works When It Is Supposed to Be Taking a Rest—How Long It Took to Do Ten Hours' Work.

A few evenings since a number of newspaper men were in an office awaiting the arrival of a gentleman who was to call together a meeting that they had been directed to report for their respective papers.

A number of topics was discussed, and one of these was dreams and the extreme rapidity with which mental operations are performed. A number of experiences were given, but the one that attracted the most attention was that of a Call representative, who narrated what he had done in a dream.

"It was," said he, "in 1868 that after a hard day's work I reached home and lost no time in retiring. Glancing at the clock as I turned off the gas I noticed that it was just 16 minutes after midnight.

"Shall I tell you at this point how long I was dreaming or tell first what I did in my dream? That you all may better appreciate what was done, I will defer the matter until the end. Bear in mind that what is to be told was all in the dream. Seated in the old office on Commercial street, above Montgomery, I was endeavoring to put into presentable shape the facts of a trial that had taken place in the district court, when in came E. A. Rockwell, who was the chief editorial writer, and calling me by name said: 'You had better get ready and go to San Leandro. There's been a terrible railroad accident. There's 50 or 60 people killed, and I don't know how many injured.' George E. Barnes, at that time one of the proprietors and managing editors, had overheard Rockwell, and in that quiet way of his suggested that no time be lost in reaching Oakland, and there procuring a buggy and a pair of horses, to go to San Leandro or wherever the accident was.

"Rushing down to the ferry landing at the corner of Pacific and Davis streets, I reached there in time to find that the steamer for the other side of the bay had just pulled out, and that I would have to wait half an hour for the next boat. The delay was vexatious, and then when the ferryboat did move eastward it seemed as if she would never make her landing, she seemed to be going so slowly. When the slip on the other side was reached, there was some accident to the local train, and there was not any prospect of starting for an hour or more. There was not a team of any kind at the landing, so I had to walk to Oakland.

"A desire to make up for the time lost urged me on, and I think the time made from the landing to Broadway and Washington street has never been beaten by man. Near the corner I went into a livery stable and ordered a pair of horses hitched up. There was a delay there, for the proprietor had his doubts about the ability of the team making the trip out and back. Finally I started, and the way those horses flew over the road was a caution. When the scene of the disaster, some distance beyond San Leandro, about 14 miles from Oakland, was reached, I proceeded at once to gather the facts.

"Down on the notebook were pencilled the names of 30 odd men, women and children who had either been killed outright or burned to death in some of the cars which had caught fire. Then followed the names of about 40 who had been injured, a description of their injuries and the opinions of the physicians who were in attendance as to the possible outcome in each case. Now, any of you who have had experience in gathering information of that kind can fully appreciate that it was not child's play, for the injured were in different places, and it required time to get around to them all.

"Then there was the obtaining of data about the dead. A number of them were well known residents of this city, others were from San Jose, so it became necessary to obtain enough to give each a decent obituary notice. In addition to this it became a part of my duty to get the statements of passengers, so as to describe their feelings when the train derailed and went over on its side down a little gully and be able to write up the narrow or fortunate escape of each. Then there were railroad officials to interview, and, as you all know, they are the hardest kind of people to obtain facts from.

"Well, it took nearly three hours to get all the matter that was needed for a sensational article that was to appear under a half column scare head. Then there was the ride back to Oakland, settlement with the livery stable man, who swore that he would never rent a team to a newspaper man again, a rush to a hack to the ferry landing and the trip to this city. Without waiting to get anything to eat I made my way to the office and at once commenced to write up, telling every one who came to ask for details to let me alone. I did not write in copper plate style, and for that matter I never did, but I wrote and kept on writing until I had enough to fill what would make about four full columns of The Call of the present day and wrote that big scare head. As I handed the last line to the foreman to set up I heaved a sigh of relief and exclaimed, 'Thank goodness, that's done!' That is my dream.

"At that moment I felt a hand on my shoulder, jumped from the bed and heard my wife ask, 'What are you dreaming about?' I lit the gas, looked at the clock and discovered that it was 17½ minutes after midnight, or, in other words, that in my dream of less than two minutes I had performed all that I have related.

"I have figured on the time it would take me to do what I did in that dream and find that it could not be done in less than 10 hours under the most favorable circumstances."—San Francisco Call.

Lightning and Rain.

It is popularly supposed that the sudden downpour which usually follows a bright flash of lightning is in some way caused by the flash. Meteorologists have proven that this is not the case and that, exactly to the contrary, it is not only possible but highly probable that the sudden increased precipitation is the real cause of the flash.—St. Louis Republic.

The Bulletin.

Norwich, Monday September 18 1893.

The Bulletin should be delivered everywhere in the city before Six a. m.

Subscribers who fail to receive it by that time will confer a favor by reporting the fact to the Bulletin Co

The Norwich Weekly Courier is the best weekly newspaper in New England at 50c a year.

The Weather Today.

Indications for Connecticut: fair; warmer.

NORWICH AND VICINITY.

CITY NEWS.

The Rev. Eben Tirrell preached in the M. E. church of Westerly Sunday night.

Plans are being made for extensive changes in the Lucas block on Shetucket street.

John J. Toomey has been awarded the contract for building the new church at Fitchville.

Messrs. G. Percival Bard and J. Harry Holbrook returned from the world's fair Saturday.

Wednesday, Friday and Saturday are ember, and consequently fasting days in the church calendar.

A party of Westerly people propose to charter a steamer on the occasion of the Vigilant-Valkyrie race.

Mr. Edward H. Tibbits, of the First National bank, starts for Chicago and the Columbian exposition tomorrow.

Peck, McWilliams & Co are building a brick addition to the print works of the Norwich Dyeing and Bleaching Co.

The Rev. Charles A Bidwell of this city preaches the closing sermon at the Universalist state convention in Danbury this week.

There will be a dance at the Lake house, Gardner's Lake, (in the grove if pleasant; if not, in the hall), Wednesday evening of this week.

Mr. and Mrs. John E Mayo, who have been visiting at Mr. Byron D. Greene's on High street, Westerly, returned to their home in Norwich Saturday.

Indian implements are being unearthed in the excavations for the bleachery at Jewett City. Mr. E P. Gardner found a handsome pestle the other day.

Mr. Fred. W. Carey returns to his studies in Williams college today. He has been wielding a versatile pen in local journalistic circles through the summer.

Architect J. A. Hiscox has let the contract for the new Otis block on Hill street to Arnold & Hiscox; also the contract for the new cork factory to F. E. Beckwith.

Rose Payton of Hartford is one of the women who have registered as voters in that city. She is colored, and is probably the only colored woman in the state who has registered to date.

The tobacco crop of Connecticut is nearly all housed for the season and proves to be a better crop than was anticipated during the drouth. A light frost injured it slightly last week.

The last of the Delaware peaches have been shipped north. Native peaches are now in the market and the crop promises to be abundant. Late Crawfords will not arrive in the market for two weeks yet.

The clerks at the state treasurer's office are now busy registering bonds and mortgages for taxation and receiving the annual tax of two mills. This tax must be paid by October 1 to exempt the securities from taxation on town lists.

Committeeman Henry Baker of the 19th school district of Montville, has decided to extend the period of the school year therein ten weeks. School in that portion of the town will open Sept. 25, for a forty weeks' session.

Miss Amy Haslam Dowe, who has been spending the summer in and about Philadelphia, finished her vacation with a ten days' trip to the World's fair, journeying thither accompanied by friends. She arrived home Sunday morning.

Residents of Watch Hill are complaining because of the fact that notwithstanding they pay taxes to the town of Westerly on about half a million dollars' worth of real estate, they have been deprived of the light furnished them heretofore by the few street lamps in their pleasant summer resort.

The 15 year-old son of Gus Emerich, of New London, fell overboard Saturday evening at Chappell's wharf about 5 o'clock and would have drowned had he not been seen when he tumbled over and his companion yelled for assistance. He was a badly frightened youngster when he was brought to the dock.

There is to be a meeting of the newly appointed county health officers in the judge's room of the superior court in New Haven tomorrow. Mr. C. P. Thayer has received a notice calling the officers together for the purpose of thoroughly going over the new law and devising ways and means of carrying on their work in a uniform manner.

The new law regarding the teaching of temperance physiology in public schools requires that a suitable text book be placed in the hands of pupils, instead of the old time oral instruction. In compliance with the law Supt. Bishop is providing the physiology primer of the Pathfinder series for the pupils of his schools.

The game of ball played Friday afternoon between a newly-organized nine, the Henry Clays, and Neptunes, resulted in a tie score at the end of the eighth inning. The Henry Clays got rattled over something, and thinking themselves one run ahead, they, aided with the crowd of hoodlums, stopped playing, fearing that they were going to get beaten. For so doing the Neptunes claimed the game by a score of 9 to 0.

Arrested in Hartford.

Officer Beecher of the Hartford police arrested George H. Porter, J. C. Benjamin's thieving waiter, on State street in that city at 1 o'clock Saturday morning. Chief Bowen returned to this city with the prisoner later in the day. He will be arraigned for trial this morning.

Wang.

Tonight the comic opera "Wang" will be at the Broadway theater. A New York paper has the following: The costumes are of unusual beauty, even for a spectacular opera; and have been created from drawings specially made from those worn by the Siamese royal family and court, the women of the harem, and the common people of Burmah, Siam, Cambodia and Cochin China.

Women Will Vote.

The annual town meeting of Stonington occurs Oct. 2. Town officers will be elected, and the question of license or no license voted upon. On this occasion, for the first time, the women of the town will be allowed at the polls to cast their votes in relation to all school matters. Party caucuses will soon be held. The prohibitionists will convene Thursday evening.

Hurrying the City of Lowell.

The steamer City of Lowell, building for the Norwich line, is well under way and Superintendent Hanscome expects her to be ready to come to New London during the early part of next year. The steamer is being pushed right along and when completed will be the fastest steamer on the sound.

Personals.

Miss Carrie O. Carpenter, formerly of this city, returned to her position in New York Friday night after a week's visit in town. Miss Carpenter will visit the World's fair in October.

Mrs. Sanford Stoddard is visiting her sister in Boston.

Mr. Warren Lee Goss, the well-known military author, will spend the week with friends in Worcester.

Mr. and Mrs. Thomas Sterry of Fairmount street leave today for Chicago, and later on will make a visit to friends in Kansas.

Miss Eliza B. DuBoeis of the Free Academy Normal department class of '91 and later on a teacher in Bozrah schools, succeeds Miss B. A. Coyle in the West Chelsea district.

Mr. Frank Messenger of Hartford spent Sunday with his parents in this city.

Mr. Kelton Albertson and sister Fannie of Chicago are the guests of Mr. James H. Albertson of West Main street.

James H. Gilmour has accepted the position of foreman for Allen & Williams, Norwich representatives of the Page Steam Heating company.

The Norwich Weekly Courier is the best weekly newspaper in New England at 50c a year.

Ullie Akerstrom in Danbury.

Ullie Akerstrom, the charming little artiste who has so many times and with such winsome grace won the hearts of the local theatre patrons, is at the Turner house in Danbury, where she will remain until after fair week. Gus Bernard, her manager, is with her. Miss Akerstrom will open her season in Danbury the week of the fair, when she will play a six nights' engagement.

The members of her company have been notified to come to Danbury and commence rehearsing for her forthcoming season.

A Saturday Night Fight.

Michael Brennan, who works on Kramer & Henderson's ice cart, became engaged in a brawl with Duncan Carroll, a telephone lineman, and a companion, in front of Steiner's pharmacy at 11 30 o'clock Saturday night. Words were followed by blows, and Carroll smashed Brennan in the nose with sufficient force to knock him heavily against an iron awning standard. He was taken insensible into Steiner's drug store, and Dr. Kore, who was in the neighborhood, gave medical attention. The patient did not recover consciousness till several hours later, when he was taken home. Last night he was suffering somewhat from concussion of the brain, but said he would be in court this morning. Officer Doty arrested the assailant.

The Rev. Dr. Pentecost Preaches.

Large congregations listened to the Rev. Dr George F. Pentecost of London, England's, inspiring sermons in the Broadway Congregational church Sunday. In the evening he preached a direct, forcible, and convincing sermon on "Christ's Resurrection and What It Guarantees." With logical precision, he assailed the theory that the resurrection is a fraud or the projection of creative enthusiasm. Faith did not create the resurrection; the resurrection created faith. There are some who cannot receive the statement that He rose from the dead, who are themselves witnesses to the fact that His example has risen from the dead, remaining a living influence indestructible to laws of oblivion and decay.

Without proceeding into historical truths, Dr. Pentecost assumed that the resurrection was a fact, and as some of the benefits conferred on humanity he dwelt on the Bible, with a belief in which it is impossible to doubt the reality of the resurrection; the consciousness of a personal Saviour; and an atonement which expiated for all sin. So was it a victory over death and the grave.

School Meetings Today.

School meetings will be held today as follows:

In the Central district, at the City hall, to elect by ballot three persons to serve as members of the board of education for three years; also to elect a clerk, treasurer and collector for one year. The polls will be open from 4 to 7 30 o'clock p. m.

In the West Chelsea school district at the High street schoolhouse, for the purpose of electing three members of the board of education to serve three years, a clerk, treasurer and collector, each to serve one year. The box will be open from three to eight o'clock p. m. The officers' reports will be submitted at eight o'clock.

In the Town street district, at the old brick schoolhouse on the north side of the green, at 4 o'clock p. m., to elect three members of the board of education to serve three years, to choose the annual officers of the district and to hear reports. The polls will close at 7 o'clock, after which other business will be acted upon.

HIS ANKLE CRUSHED.

William S. Cosgrove Badly Injured in a Chicago Elevator.

Mr. James F. Cosgrove, the shoeman, received a telegraphic message from Chicago late Sunday night containing the sad news of a serious accident in that city to his son, William S. Cosgrove, a well-known and popular young man who is employed in his father's store. In some manner, his right ankle was caught in an elevator, and so horribly crushed that the necessity of amputation is feared. Mr. Cosgrove, Sr., leaves for Chicago on the early train this morning.

OPEN-AIR MEETINGS OVER.

The Y. M. C. A. to Continue the Sunday Services In-Doors.

The last open-air mass meeting for men on the steamboat wharf for the season was held on Sunday afternoon under the auspices of the Young Men's Christian association. An eloquent address was delivered by the Rev. Charles A. Northrop, the pastor of the First Congregational church of Norwich Town, to a large audience of men.

Mr. Northrop presented many interesting and practical illustrations and studies from the life of the "Perfect Man," Jesus of Nazareth, showing very forcibly the power of His example as a working man in his obedience and unceasing toil during a busy life.

Meetings hereafter will be held every Sunday in the association rooms, 266 Main street. A cordial invitation has been extended to all who have been present at the wharf meetings and to all men.

NOCTURNAL TRACK LAYING.

The Curve on Shetucket Street Placed in Position.

The switch and curve of the electric street railway branching off from Main street into Shetucket street was laid between 10 30 o'clock Saturday night and 6 o'clock Sunday morning. The operation required a preciseness and careful attention which the stream of travel by day prevented. A string of electric lights was suspended along the street, and a force of twenty five workmen did the work under the personal supervision of Superintendent Shaw.

The laying of the rails along Shetucket street was continued till 5.30 Sunday afternoon, and they were stretched to within one hundred feet of the Laurel Hill bridge.

Cars will be running on half hour time to Sunnyside September 28.

The Navahoe Won the Cup on Her Merits.

LONDON, Sept. 18.—The Times says this morning of the last of the three races between the Britannia and the Navahoe: "We must frankly admit that the Brenton Reef match was a fine, hard race, sailed under conditions making the victory something to be exceptionally proud of. Despite some natural chagrin at losing the Brenton's Reef cup, British yachtsmen, who appreciate Mr. Carroll's pluck and persistence, will be pleased that he does not return empty handed to America. They recognize, too, that the Navahoe won the cup on her merits. It is only just to acknowledge that the boat quite redeemed her character as a hard weather boat."

Princeton's Practice Games Abruptly Ended.

NEWPORT, R. I., Sept. 17.—The practice of the Princeton football team, which has been in progress at Gould Island for the past two weeks, is about at an end, and several of the players left tonight, while others will return to college in a day or two. The Princeton men, with the assistance of a few local players, were to have played a game of base ball tomorrow with the New Bedfords on the grounds here, but the departure of some of the players caused the abandonment of the game.

Drowned in Newburyport Harbor.

NEWBURYPORT, Mass., Sept. 17.—About midnight Saturday night, a catboat containing William H. Godsell, John G. Burns and Jerome Langevin, was capsized in the harbor, and the last two named were drowned, the former reaching the shore in an exhausted condition. The three had started on a lobstering trip. Langevin was 24 years old and Burns 28, both unmarried.

Portuguese Warship for Rio Janeiro.

LISBON, Sept. 17.—The Portuguese government will send another warship to Rio Janeiro to protect the interests of Portuguese residents.

Many Suicides in the German Army.

LONDON, Sept. 17.—A Berlin correspondent says there were 2,253 suicides in the German army, exclusive of Bavarian troops, in the two years 1889–'90.

DIED.

DONOVAN—In this city, Sept. 17, Frank H. Donovan, son of D. J. and Catherine Donovan, aged 2 months.

Funeral at 2.30 p. m. today, at 13 Central avenue.

ALLEN, WORTH & CO.,
sep18MW Norwich and New London, Ct.

Nearly two thousand people who have been idle in Norwich the past month will return to work this week. It means at least $20,000 (twenty thousand dollars) more money in circulation every week than since the "depression." It certainly looks as though the clouds which have hung over this city for the past five weeks would rapidly pass away. Every line of trade has felt the "hard times" more or less, and today you can buy at almost actual cost. Especially is this noticeable in the Boot and Shoe trade. We have an excellent Ladies' Dongola Kid Button Boot, Patent Tip, price $2.00, D and E widths, at
Herren'S,
Opposite [illegible] & [illegible]'s.

THE YACHT VALKYRIE SPOKEN

By the Steamer Spain at New York From London.

430 MILES EAST OF SANDY HOOK.

In a Light Wind Was Making 10 Knots an Hour.

NEW YORK, Sept. 18.—The steamer Spain, from London, which arrived at quarantine at 4 o'clock this afternoon, reports having spoken the Valkyrie in lat. 41:26, lon. 64:26 at 6 p. m. Saturday about six miles southward of his vessel.

The Valkyrie was then 430 miles east of Sandy Hook, and making 10 knots an hour, with a very light wind. She will probably arrive here Wednesday morning, or if the wind freshens she might make port Tuesday evening.

IN CONGRESS.

The Senate.

WASHINGTON, Sept. 18.—The attendance in the senate today was small. Mr. Stewart (rep. Nev.) gave notice that he would at the earliest possible opportunity offer an amendment to the silver bill inviting Mexico and the South and Central American republics to join the United States in a conference for the purpose of adopting a common silver dollar of not less than 356.18 grains.

The senate then went into executive session (at 12.15.)

It remained in executive session only a few minutes, and then Mr. Peffer (pop. Kans.) called up his resolution offered Saturday last directing the committee on inter-state commerce to investigate the recent train robberies.

Mr. Hale of Maine remarked that there was no senator who desired to speak on the silver question and suggested that the senator from Kansas be allowed to speak upon his resolution. This consent was given and Mr. Peffer took the floor in advocacy of his resolution. He thought it was time that congress should take some notice in the premises, especially at this time when so many men were out of employment.

Mr. Cullom believed that everybody recognized the fact that there had been many train robberies recently. If the fact were in doubt it might be proper to give the committee on inter-state commerce jurisdiction over the subject but the fact was not in doubt and the question was now a judicial one and the judiciary committee should frame any necessary legislation.

Mr. Hale did not think anything would be gained by transferring the punishment from the state to the United States.

Mr. Cullom replied that the offense of robbing trains engaged in interstate commerce naturally belonged to the United States.

The resolution was not disposed of at 1.30, when, headed by the vice president, the body left the chamber in order to attend the ceremonies incident to the celebration of the centennial anniversary of the laying of the cornerstone of the capitol.

The House.

Pursuant to agreement the house of representatives assembled at 1.45 p. m. today. There were about 126 members in their seats.

After the journal of Saturday's proceedings had been read and approved the members of the house started in a body to attend the corner stone centennial celebration.

Charged With Conspiracy to Extort Money.

GREAT BARRINGTON, Mass., Sept. 18.—The court room was packed with the second day of the hearing of Dr. H. C. Crandall and Deputy Sheriff [illegible], charged with conspiracy to extort money from Dr. Miller. The evidence introduced was corroborative of that given at the first hearing. H. C. Joyner spoke an hour and three quarters for the defendants and the district attorney spoke an hour for the commonwealth, both being able arguments. Judge N. B. Sanford then held defendants for the grand jury in $500 each. Similar charges against Emma L. Jones and Dr. Crandall were continued.

New Haven Urges Congress Not to Make Radical Changes in the Tariff.

NEW HAVEN, Conn., Sept. 18.—John H. Leeds, president of the Stamford Manufacturing company and Walter Barnes, president of the local chamber of commerce, and Judge Lynde Harrison, who were chosen to represent this city at the hearing of the boards of trade of various cities of the country in Washington last week, have returned. They report that their efforts were directed toward urging upon congress the necessity of not taking any radical and sudden change of the present tariff system.

Voluntary Petition in Insolvency.

SPRINGFIELD, Mass., Sept. 18.—Edwin R. Towne filed a voluntary petition in insolvency today with liabilities amounting to $30,000, of which $12,000 is unsecured. The balance is partially secured by [illegible] on real estate. The [illegible] are the Hale [illegible] association, $7,500; J. A. Baldwin, [illegible] and the institution for savings, [illegible]. The largest of the unsecured creditors are the [illegible] and Chapin National banks with M. Hogue $1,700, Frank Steele $2,000, George W. Fuller $800 and the Old Corner Paper company $100.

A Providence Barber Assaults His Wife.

PROVIDENCE, R. I., Sept. 18.—Hugh Prior, a barber, was arraigned in the district court today for assaulting his wife with a razor and was held for trial. The affair took place Saturday night, Prior cutting his wife's throat almost to the windpipe while drunk.

Electric Car Fatality at Worcester.

WORCESTER, Mass., Sept. 18.—James McGarr, aged 50 years, father of James McGarr, the professional ball player, was struck by an electric car in this city this afternoon and instantly killed.

Accepts the Nomination.

BOSTON, Sept. 18.—Mr. Henry O Smith of Haydenville, prohibition candidate for lieutenant governor, has formerly notified the secretary for the committee of his acceptance of the nomination.

Cholera Scare at Bridgeport.

BRIDGEPORT, Conn., Sept. 18.—An unknown Swede died here at the depot tonight. He was found groaning at Westport and brought here. The man was an immigrant walking to Bridgeport from New York. His death has caused a scare, as his symptoms were somewhat like those of cholera.

Cholera Causes Great Alarm.

HAMBURG, Sept. 18.—There have been 12 cases of cholera and five deaths here since Friday noon. The outbreak of the plague has caused great alarm.

THE CASE REVERSED.

New York National Banks Now Overflowed With Money.

NEW YORK, Sept. 18.—The national banks of this city are receiving so much money from country banks that they are in a quandary as to its disposition. It was only a few weeks ago, that cash of all kinds was at a premium. Now the case is exactly the reverse. One result of this condition is the movement of some of the national banks to retire the extra circulation they took out during the stringency.

The Fourth National bank of this city has withdrawn $500,000 of government bonds to secure circulation, surrendering the equivalent in its own notes. Several other banks contemplate the same action. So much gold has come into active circulation since the money stringency set in, that a greater part of the daily settlements of credit balances are paid in gold. This necessitates carrying around from one bank to another of between two and three millions in gold, daily.

The trouble and expense as well as the risk of loss by this method has brought up the old question of having one of the banks acting as a storage vault for all this gold and having the settlements made in gold certificates as issued by the clearing house. It is expected the matter will be settled in a day or two.

RHODE ISLAND STATE FAIR.

A Successful Opening—Four Days' Dog Show—The Races.

PROVIDENCE, R. I., Sept. 18.—The seventy-third annual exhibition of the Rhode Island State Fair association was opened this morning with every appearance of a successful week. The various departments are very full of exhibits. The dog show will be one of the most popular of the fair, extending over four days under the rules of the American Kennel club.

The racing today included trotting events in 2.35, 2.20 and 3-year-old classes and a 2.25 pacing race. The 2-year-old event was probably the best which ever took place on any track. Many of the colts have records from 2.22 to 2.40. The starters represented the cream of the class in the country, and the race was hotly contested.

One mile stake for yearlings, purse $1,000: Lady Alcy, first; Boreal b. c., second; Princess Clara b. f., third. Time, 2.37.

2.35 class, trotting, purse $500. Dunkoo b. m., first; Tonali s. g., second, Topsy ch. s., third. Best time, 2.20¾.

2.25 pace, two in three, purse $2,000: Gilcurry first, Whisper, r. m., second. Bracka, ch. s., third. Time, 2.12.

Two-year-old trotters, stake $2,000, two in three. Cut Glass, b. f., first, Queen Allah, ch. f., second. Red Rudi, ch. c., third. Best time 2.23¼.

2.20 class, trotting, purse $600, unfinished. Tom Jacobs, having two heats, looks like a winner.

A Peculiar Case.

NORWALK, Conn., Sept. 18.—William Ackerman of Weston, who for weeks past has manifested symptoms of hydrophobia and barked like a dog, frequently snapping at people who came within his reach, is likely to recover. Recently he has had rational periods and they appear to be growing in length every day.

When first afflicted, Ackerman would foam at the mouth and jump about his house and yard on all fours. He is never known to have been bitten by a dog and now the conclusion is arrived at that the disease is a spinal trouble that affects the brain. Guards watch over him constantly and he is kept strapped firmly in bed to prevent him from injuring others or himself.

A Test Case to be Made of the Peddler's License Law.

MIDDLETOWN, Sept. 18.—The case of Coslon Brothers, who were arrested some time ago as itinerant peddlers doing business here without a license, came up in the city court again today before Judge Culef. The defendants entered a demurrer which was overruled, and a fine of $50 and costs was imposed. The Coslons appealed to the superior court. A test case will be made of this and the validity of the itinerant peddler law will be tested.

Quarantine Against New York Withdrawn.

NEW YORK, Sept. 18.—In view of the action of the Portuguese government last week, declaring New York infected with cholera, the maritime exchange communicated with the department of state at Washington, showing its ruinous effect upon the trade of New York with Portugal. A telegram received today from Assistant Secretary of State Adee announces that United States Minister Caruth, at Lisbon, has secured a reversal of the decree and the Portuguese government now declares the ports of New York and New Jersey free of cholera.

Knights of the Sherwood Forest.

NEW HAVEN, Conn., Sept. 18.—The supreme lodge of the Knights of the Sherwood Forest convened this afternoon in this city. Eighty delegates were present. Credential and other committees were appointed, but no special business was transacted previous to the business meeting. There was a parade by the delegates with about 150 in line, including the local lodge. At this evening's session the programme included address of welcome by local representatives of the order and a meeting devoted to routine business.

Grand Lodges Sons of Hermann Convene.

NEW HAVEN, Conn., Sept. 18.—The National convention of the Grand Lodges of the Sons of Hermann opened here today. California, Oregon, Nebraska, Washington, Louisiana, Illinois, Massachusetts, Connecticut, Colorado, Minnesota, Missouri, New Jersey, New York, Pennsylvania, and Wisconsin were represented. They were received this morning by the local delegates and banqueted in the lodge rooms.

Brandy Maker Shurtleff Bound Over.

HARTFORD, Conn., Sept. 18.—Dwight L. Shurtleff of West Ashford, whose cider brandy still was recently seized by Collector Hutchinson, waived examination before United States Commissioner Marvin this afternoon, and was bound over to the United States court under $1,000 bonds. His case will come up in New Haven tomorrow, but will be continued to the December term.

Barn and Contents Burned at Portland, Conn.

MIDDLETOWN, Conn., Sept. 18.—A large barn owned by James Donovan of Portland was burned this morning about 9 o'clock. Its contents, consisting of several tons of hay and a quantity of farming tools, were all destroyed. Loss about $1,200; no insurance.

He Left Many Debts.

NEW HAVEN, Sept. 18.—Joseph D. Watrous, a Chapel street baker, has disappeared leaving many debts. His place of business has been attached for $2,000.

EXPRESS TRAIN ROBBERS IN JAIL.

They Held Up the Mineral Range Car and Took $70,000

A PORTION RECOVERED.

Names of Those Arrested—Fireman Liberte Has $30,000.

MARQUETTE, Mich., Sept. 18.—Tonight practically all the men who had anything to do with the robbery of the Mineral Range express last Friday, of $70,000, were in jail or under espionage, and up to date $14,000 of their booty has been recovered.

Today George Liberte, a former fireman on the Duluth, South Shore & Atlantic road was arrested here by the police, on telegraphic order of the chief sheriff of Houston county.

The other men under arrest are A. S. Cannon of Hancock, a young man of good family, whose trunk was used to carry away the money; John King an athlete, Challew, a saloon keeper of Negaunee, Michael and John Shea, saloon keepers here; Tom Winters, baggage man; D. W. Hogan, the messenger on the robbed car; Ed. Hogan, saloon keeper; W. Sheope, express driver, and —— Butler, a habitue of Challew's place. Liberte confessed and gave a detailed account where the trunk was left, and the special train and some officers were sent after it. They found the trunk and on its arrival at the Houghton National bank, was opened and found empty. On Liberte's information $14,000 was recovered by the officers, it is claimed, at Shea Brothers' saloon.

The empty condition of the trunk is accounted for by the suggestion that the money was stolen a second time, and from the robbers themselves, and Messenger Hogan's brother is being looked for in connection with this episode. Cannon, whose trunk was used, denies any complicity in the robbery.

Prosecuting Attorney Young of Marquette county is arranging for an examination of the men arrested. They will probably be given preliminary trials.

HANCOCK, Mich., Sept. 18.—The money package containing $30,000 put up by the Superior savings bank of this place was found in the possession of Fireman Liberte. He claims that the remaining $40,000 was stolen from him.

General Manager Fullkin of the [illegible] road returned this morning from Marquette. He says the case against the robbers who held the Mineral bridge train up Friday was worked up from a clew furnished by the engineer of the train.

The man who covered him with a revolver while the robbery was going on showed a familiarity with the working of the engine that proved he was an old railway man. The engineer was unable to see the man's face because a mask covered it, but he recognized the man's voice and in his report stated that he was sure the man had formerly been employed on the road, and suspicion fell on Liberte.

It was discovered that he had been missing from his home in Marquette for two days at the time of the robbery and that on Wednesday he borrowed a revolver which he returned on Saturday. On Sunday search was made for him, but he could not be found. When the officers inquired at the house they were told by his mother that she did not know where he was. The general manager of the South Shore evolved the plan by which Liberte was captured.

The young Frenchman only a week or two before had applied for a position on the road as a brakeman, and a call boy was sent to the house as is done when a man is wanted for any train crew. The boy left word that Liberte was wanted to go out on a train and that he was to bring his dinner pail, ready for work. Liberte's mother denied that he was at home, when the boy called but a few minutes before the time set for the departure of the train Liberte came to the office of the general manager and was there arrested.

He at first denied all knowledge of the affair, but finally made a full confession. He was then taken to Marquette jail, where he told his story. According to Liberte's story, Express Messenger Hogan, who had charge of the money, was one, if not the ring leader, of the robber gang. It is believed that he furnished the information as to the train the money was on, and pointed out the place where it could best be flagged and then robbed. He made a pretense of resisting to deceive the train crew, but gave up the money willingly.

Liberte stated that after the money was taken from the car it was put into a trunk and checked as baggage from Houghton to Marquette. The baggagemaster at Marquette, while not originally in the plot, knew of the contents of the trunk shortly after its arrival. Liberte stated where the trunk was, but when found it was empty.

Liberte afterwards declared that he knew the money was in the trunk when it left Houghton, but that he did not know what became of it. Later he told the officers where a portion of it was likely to be found, and a sum of it was recovered.

Ives Wins the First Night's Billiard Play

CHICAGO, Sept. 18.—In the first night's play between Frank C. Ives and John Roberts, Jr., of England, with 6,000 points up for $2,500 a side, Ives won with the score 1,000 to 968.

Five Men Killed by an Explosion.

WHITTIER, N C., Sept. 18.—The boiler of the mill of the Wilbur Lumber company exploded today killing five men.

"WANG" MAKES A HIT.

Laughter and Mirth Reign Supreme at the Broadway Theater.

If it be true that every hearty laugh draws a nail out of one's coffin the Funeral Director's union should boycott Edwin Stevens for ruining their trade; while the large audience who witnessed "Wang" at the Broadway theater, Monday evening, may feel sure of a lease of life until congress shall have settled the silver problem.

Wang's chief reason for being is to amuse. This it does so thoroughly that the vibrations of laughter at the regent and his elephant must have loosened the timbers in the dome and shaken the electric drop lights.

Good singing is a characteristic of Mr. Stevens' company, the combination of vocal and physical graces in the chorus being especially noteworthy. Handsome costumes and gorgeous scenery are lavishly provided. The company carries its own orchestra for the fitting interpretation of the tuneful melodies in which the opera abounds.

The four little children shared the honors with the star. The company—which provides as many novelties as a three-ring circus—furnishes among other attractions a banjo chorus, which makes a pronounced hit.

GAVE HIMSELF UP.

William Swan, Charged With Larceny, Surrenders at Boston.

BOSTON, Sept. 18.—Learning that a warrant for arrest was out William Swan, 29 years of age, residing at No. 1147 Adams street, Dorchester, entered the inspector's office today and gave himself up. He is charged with the larceny of property valued at $4,850 from George I. Robinson, Jr., & Co., of No. 15 Court square. According to the complainant, the firm of which Swan was the confidential clerk advanced a customer $1,500, taking as security fifty shares of Sugar preferred. Robinson and his partner wished to put up the shares themselves as collateral for six per cent. in advance. Swan reported to the firm that he could not place the stock for that, but afterward they found he had swindled them.

Counsel for Swan is of the opinion that the trouble will be settled satisfactorily to all concerned. In court today the case was continued until September 27, and bail was fixed at $3,000.

Norwalk Factories Start Up—Banks Make Loans.

NORWALK, Conn., Sept. 18.—Business is again picking up in Norwalk and the surrounding towns, and the outlook for the winter is considered exceedingly bright. Many of the factories which closed down to half time, or entirely, are resuming operations and merchants announce that trade is growing more brisk. Roth & Goldschmidt, corset manufacturers, employing 650 people, will soon be running again and the several hat factories, where 2,000 men and women are employed, are all working full handed and will soon be running six days a week.

The banks are making loans again, and report they have all the currency they need.

Lost Both Legs.

SAYBROOK, Conn., Sept. 18.—Nathan Phelps, Jr., of this place, a brakeman on Conductor Brady's train on the New York division of the Consolidated road, was the victim of a terrible accident at Fairfield Saturday afternoon. He was descending from a box to a flat car when he slipped and fell between the cars. Four trucks passed over him. One leg was cut off just below the knee and the other near the ankle. He was taken to the Bridgeport hospital. It is thought he will recover.

An Exaggerated Rumor.

HARTFORD, Conn., Sept. 18.—A Middletown dispatch today says that the rumor concerning the discharge of the officers of the Middletown branch of the Schuyler Electric Light company, which was generally circulated last Saturday, is found upon investigation to have been somewhat exaggerated.

The officers deny having been notified to entirely close the shop.

A regular meeting of the stockholders will be held in this city about the first of October, which will probably determine whether or not business will be resumed.

Carbolic Acid Given for a Cordial.

ANSONIA, Conn., Sept. 18.—Miss Hattie Judson of Derby was operated upon for the removal of a tumor, last week, and is still quite sick. Saturday night her attendant poured out what was supposed to be a teaspoonful of cordial and gave it to the patient. As Miss Judson swallowed it she discovered it was carbolic acid, taken from the wrong bottle. A physician was at once summoned and by the hardest work he succeeded in saving her life. She is yet suffering from its effects.

Suicide at New Haven.

NEW HAVEN, Conn., Sept. 18.—John Dunbar, aged 50, committed suicide by cutting his throat today. He was found this afternoon lying in a pool of blood, with a razor by his side. He had been out of health for several weeks and lost an arm in an accident last February. Despondency was the sole cause. This is the third suicide to take place here within a week.

Thieving Watchman Bound Over.

BRIDGEPORT, Conn., Sept. 18.—McElroy Bros.' watchman, Jules Pachard, was bound over to the superior court in $500 bonds today for stealing $2,000 worth of provisions, and the court ordered warrants issued for members of all the families who have been buying of the watchman. He gave the names of eight families whom he had been supplying at [illegible] rates. A confederate, George Clifford, was sent to jail for theft.

Fined $45 for Selling Cider.

PUTNAM, Sept. 18.—Lawrence Brayshaw was arraigned before Judge Obeebro on Saturday afternoon charged with selling cider. Ninety five gallons were seized at his confectionery store in the upper village on Thursday. He pleaded guilty and paid a fine of $45. The cider was confiscated.

The Case of John C. Eno.

NEW YORK, Sept. 18.—The district attorney's office is preparing papers today for appeal in the case of John C. Eno, ex president of the Second National bank. Judge Wallace recently gave a decision discharging Eno, and now the district attorney appeals to the United States court to place him in jurisdiction of the criminal court.

Started on Full Time.

HARTFORD, Conn., Sept. 18.—The William Rogers Manufacturing Co. and the Barbour Silver Plate Co. started their works on full time today. The Barbour Co. which has bought the Hartford Silver Plate Co., will offer the plant for sale after the surplus stock is worked off. The plant is one of the largest in New England.

Business Failure at Middletown.

MIDDLETOWN, Sept. 18.—Samuel Stearns, one of Middletown's best known business men, made an assignment today. He has conducted a gentlemen's furnishing business here for thirty years.

Mrs. James G. Blaine En Route to Paris.

LONDON, Sept. 18.—Mrs. Blaine, widow of James G. Blaine, formerly American secretary of state, and her daughter, Miss Hattie Blaine, who are accompanied by the daughter of Senator Don Cameron, left Uxbridge today en route to Paris. The party spent the summer in Uxbridge.

"GENTLEMAN" GEO. ELWOOD SHOT

By Deputy Warden Rowe at the Rhode Island State Prison

DETERMINED TO ESCAPE.

"Spiker" Murphy Deserted His Comrade When the Firing Began.

PROVIDENCE, R. I., Sept. 18.—"Gentleman" George A. Elwood, the desperado who last February entered upon a 25 years sentence at the Rhode Island state prison for burglary was shot and killed this afternoon.

The tragic ending of his notorious career was the result of a scheme in which he and "Spiker" Murphy, the latter a life prisoner, sought to fight their way to freedom.

Elwood had determined to get away or be killed. Deputy Warden Rowe was the first officer encountered. Elwood attacked him with a heavy iron tool handle and a hammer. The assault was so sudden that the officer could only ward off the shower of blows rained upon him. For a few minutes this continued before the officer got a chance to reach for his revolver.

Meanwhile Murphy was scared by the thrilling spectacle, and deserting his comrade turned back to the shop when the revolver was produced. Four shots were fired. The fourth caused Elwood to reel and fall and in five minutes he was dead.

Both prisoners were armed with hammers, iron tools and knives.

Murphy was stripped and sent to solitary confinement.

Elwood escaped from the Columbus, Ohio, prison in 1891, and had seven years to serve there.

Struck by a Train at Niantic.

PROVIDENCE, R. I., Sept. 18.—John Miller of Fall River, a weaver, was struck by a train at Niantic yesterday. One arm was broken and he was otherwise injured. He was walking on the track.

Gets Five Months for Burglary.

HARTFORD, Conn., Sept. 18.—James Mack was sentenced to five months in jail today in police court for statutory burglary. He was caught in a saloon on Sunday morning. He is from Springfield.

Work in French Collieries Stopped.

PARIS, Sept. 18.—It having been found impossible to satisfactorily adjust the troubles between the coal miners and the mine owners in the department of Pas de Calais, work in the collieries stopped today. The exact number of men who quit work is not at present known, but it is large. The trouble is due to questions concerning wages and the treatment of men by the overseers. It is believed that the strike may extend to other coal districts.

Mint Robber Cochran in Jail.

PHILADELPHIA, Sept. 18.—United States Commissioner Bell today issued a warrant for the arrest of Henry S. Cochran, charging him, upon the oath of Supt. Bosbyshell, with fraudulently embezzling thirty gold bars committed to his charge from the United States mint. The warrant was served by a deputy United States marshal and Cochran was arraigned before Commissioner Bell this afternoon. Cochran, in reply to a question of Commissioner Bell, said he was without counsel. Supt. Bosbyshell testified that the shortage amounted to about $28,000. Commissioner Bell then said in order to give the prisoner time to procure counsel he would continue till noon tomorrow and placed Cochran on $30,000 bail. Cochran went to jail.

Experience of ship St. Mungo in the Late Hurricane.

LONDON, Sept. 18.—The ship St. Mungo from Tacoma, March 31, which arrived at Queenstown yesterday, reports having encountered a hurricane on August 26, during which the vessel was damaged. Two of her seamen were washed overboard and drowned and another seaman was so badly injured that he subsequently died.

The new editions of the following directories have been added to THE BULLETIN Co.'s already large file: Ansonia, Birmingham, Derby, Shelton and Seymour, Meriden, New Britain and Hartford, Conn.; Philadelphia and New York city business directories, and the Metal Trades directory of New England and New York states. They can be consulted by every patron of THE BULLETIN or of Price, Lee & Co.

An Improved Store.

During the quiet summer days changes have been in progress at the book store of Cranston & Co., on Main street, which have resulted in an almost complete transformation of the first floor.

The wide counters and tables have been entirely removed; broad counter shelves have been placed on each side of the store, and beneath these an abundant supply of drawers have been provided. Upright revolving bookshelves hold the books formerly on tables, and an upright showcase takes the place of the long case previously in use. The periodical stock is arranged on a unique rack, a model of space saving. The net results are more available counter room, easier access to goods on shelves, and a gain of about fifty per cent. of available floor space.

These changes will doubtless be appreciated by their many customers, who have heretofore shared with the proprietors the inconveniences of their limited quarters.

The Norwich Weekly Courier is the best weekly newspaper in New England at 50c a year.

NORWICH AND VICINITY.

A New London Consul.

The New London Telegraph hears it semi-officially stated that a New London democrat will soon be appointed a United States consul.

Bears Two Kinds of Grapes.

The Rev. Solomon Gale of Mystic has a grape vine that is an oddity in its line, in the fact that it bears both Muscadine and Delaware grapes, the first named variety being green and the latter ripe and ready to be picked. The reason for what might otherwise be considered a freak of nature is that the vine has been hybridized to produce the new variety, but the old life and product still holds.

Races Postponed.

Many horsemen were disappointed Saturday because the weather compelled the postponement of the races on the Groton driving park. They will be held on Saturday of this week.

The Norwich Weekly Courier is the best weekly newspaper in New England at 50c a year.

Last Trip of the Gypsy.

The steamer Gypsy, Capt. Palmer Smith, made her last trip to the shore on Monday. Considering the lateness of the season when she began running on the river she has done well.

The Superior Court.

The superior court will resume its session at New London this morning at 10 o'clock. The trial of Amasa D Main, the alleged North Stonington chicken thief, will probably occupy the attention of the court all day.

The Smallest List.

Norwich ladies have not accepted the voting privilege conferred on them with much unanimity or spontaneity, only forty-one presenting themselves to Town Clerk Freeman. It is probaly the smallest list of any of the larger cities in the state.

Shad Take the Hook.

Theodore M Lincoln of Hartford caught two large shad with hook and line near the Saybrook breakwater. No one on the Connecticut ever heard before of shad being caught with hook and line near the sound.

Trial of the Mystic Burglar.

Hiram Greenman, the Mystic post office burglar, will be tried before Judge Townsend in the United States circuit court at New Haven today. Postmaster Couch and a number of witnesses from Mystic will be present.

The Ferguson Wins.

The race between Ferguson's cutter and Joseph S Ross' yacht Barbara for $100 a side was sailed Saturday and won by Ferguson's boat by about 23 minutes. The course sailed over was from Pequot wharf, New London, thence to Fisher's Island, to Bartlett's reef light and return.

New Money Order Forms.

Postmasters are being notified that the postal authorities have decided to issue a new form of money order blanks. The new blanks will be smaller and under instructions from the postmaster general, the name of the payee is inserted, not only in the advice as has been the rule, but also in that part of the order forwarded by the payee. The new blanks will not be issued to offices until the supply of old ones is exhausted.

First-Class Liar.

Some of the New London salts got to telling stories the other evening, and when Captain Ros. Waterman's turn came, he proceeded to relate that when he was a young man, living with his father in Lebanon, twelve miles above Norwich, the storm came in such force that it broke over Chelsea bar, now the Norwich water front, and the spray was carried so far that in the morning they gathered salt off the windows of his house in Lebanon.

Their One Hundredth Anniversary.

The one hundredth anniversary of the establishment of Methodism in New London which occurs next month, will be an event of great interest to the people of that denomination. The Rev. W. J. Yates of the Federal Street church said Sunday that it had been decided that a public recognition of the centennial would be advisable, and he requested the cooperation of all in making the celebration a success. The exercises will take place on Sunday and Monday, October 29 and 30, and will include addresses by several former pastors, and a general reunion of the members.

Children Not Attending School.

Number 18 of Connecticut school documents has been prepared and issued by the state board of education. It is a list of the graduates of the state normal schools from 1851 to 1893. The pamphlet also contains the names of all who have taught in these schools during that time.

There have been sent out from the comptroller's office to the school visitors of the towns of the state blanks for the return of the number of children attending school and the number of school age non-attendant. These blanks must be filled out and returned before the towns can receive money from the state treasury for school purposes.

Doctors Should Qualify.

There are but two weeks more for physicians, surgeons and midwifes to qualify in this state under the new law which takes effect on Oct. 1, and at which time the state board of health intends to publish a list of the names of all qualified practitioners of medicine, surgery and midwifery in Connecticut.

Up to date only between 700 and 800 have registered which is considered to be not more than half the number residing in the state.

The State board of health has assured that the law intended that the blanks should be furnished upon application to them and any person required to register under the law will upon application be promptly supplied with the blanks.

Marine Improvements.

The engineer's department has been busy the past summer improving rivers and harbors in this neighborhood. Work has been practically completed at the Pawcatuck river, and the government apparatus there will return to Newport harbor, the headquarters of the fleet. About 100 cubic yards of slate ledge have been taken out of the river, giving practically an eight-foot depth throughout the entire two-mile narrow channel to Westerly. A shallow place or two yet remains to be dredged.

At Block Island the breakwater has progressed so far as to now afford a harbor of refuge, though the stone work is not all in, but is in place to a sufficient height to prevent the heavy waves from rolling in.

A BURGLAR SHOT.

He Escapes, But Leaves a Trail of Blood.

Ocean park beach, at New London, was the scene of a burglary excitement Saturday night. Policeman Patrick Cahill discovered a man attempting to enter Charles B. Ware's cottage. The fellow was challenged and then pursued. As he refused to halt he was shot at. Following the first shot the man gave a yell, but he would not stop. Sunday morning Officer Cahill traced the fellow quite a distance by the blood spots, but at Alewife cove he lost all track of the rascal.

MAY NEW LONDON GET IT.

The Bath Iron Works Might be Induced to Locate There.

In an interview with a New London Day reporter Saturday, General Hyde of the Bath Iron works, expressed his opinion that New London was the best location for a concern like the Bath Iron works that he has ever seen. He stated that if his plant was located there he thought he could control the steel ship repairing of New York and Boston, and in fact most of the repairing of the Atlantic coast, the city is so easy of access and has all the natural advantages for the industry

The Bath Iron works employ 750 men, and General Hyde in reply to the question if inducements could be made large enough to get the company to locate here, said it was possible.

The iron works people are very much impressed with New London and are convinced that even with the great expense of moving it would be profitable to come here.

The Day suggests the proper authorities, the mayor and board of trade, take steps to inquire into the matter at once.

MR. ABELL'S SUCCESS.

He Sails Abroad for Three Years More Thursday.

The Sunday New York World publishes a picture of Mr. Arthur M. Abell, formerly of this city, and says: He is a young man about twenty five years of age, who has been home this summer for a rest. He fitted for Yale at the Norwich Free academy, and during that time he took lessons of a Mr Walter of Norwich. At the end of his four years' study he determined to follow music as a profession instead of going through college, much to the disappointment of his family. In 1890 he went to Germany, going to Weimar, where some of the best violinists of the world are, and after some time managed to be a private pupil of Carl Halir, one of Joachim's best pupils, and under him made rapid progress. By hard work the higher classics were overcome, but the end is not yet for he has three more years to study. He will sail Thursday to be gone that length of time.

THE FRESH AIR FUND.

The Donators of $151 for the Benefit of Invalids and Children.

The city missionary hereby acknowledges, with many thanks, the contribution of $151 which was used as a fresh air fund during the past summer.

With this amount 478 persons were given the benefit of a change of air and location. Some of them went into the country, a larger number to the shore. Carriage drives were given to those too sick to leave the city. A large number were greatly benefited from this splendid contribution. The contributors were: Mrs. Edward Chappell, Miss Julia Chappell, Mr C. H. Osgood, Jeremiah Halsey, E. Chappell & Co., the Misses Norton, W. R. Burnham, John P. Murphy, W. H. Shields, Miss M J. Rudd, Miss Alice A. Rudd, J. P. Logan, Murphy & McGarry, the Rev. W S Palmer, Reid & Hughes, Dr L. S. Paddock, Mrs. A. M. Spalding, Gardiner Greene, Jr., H. H. Osgood, Mrs. O A. Kinney, Porteous & Mitchell, C W. Hopkins, N. L. Bishop, Mrs. Lorenzo Blackstone, Mary H. Paddock, the Misses Smith, H. W Tibbets, Mrs. L. F S. Foster, A. Francis & Co., Mrs. R. L. Peck, Jas. Duggan, Mrs. Sarah A. Huntington, Mrs Lewis A Hyde, Mrs D. A. Wells, the Rev. E. B Schmitt, Miss E. S. Gilman, F. L. Osgood, A. G., and two friends.

The Norwich Weekly Courier is the best weekly newspaper in New England at 50c a year.

EASTERN CONNECTICUT.

COLUMBIA.

Boy Bitten by a Dog—Personals.

Harry Snow, son of Wade A. Snow, was badly bitten by a dog one day last week. The animal was owned by Mr. Sullivan who was having some cider made at Snow's mill. Snow also has a dog and the two dogs being inclined to fight, Harry who was sitting on a barrel at the time, put out his foot towards them, when the Sullivan dog made a dive at his leg fastening his teeth in the lower part of the limb and making a frightful wound. The dog had to be pulled off before he would let go. When the stocking was removed from the boy's leg pieces of flesh adhered to it. Dr. Parker of Willimantic was called and dressed the wound. The boy is now doing as well as can be expected.

Several of the members of the Columbia Y. P. S. C. E attended the meeting of the Willimantic Christian Endeavor union at South Coventry on Friday of last week.

Clinton E. Little has returned from South Windsor where he has been helping harvest the tobacco crop.

Mr. Henry Schillinger of Rockville was the guest of Mr and Mrs. Peter Albrecht last week.

Mr. Walter N Battey spent last week with friends in New Britain.

Misses Grace and Cora Little spent last Sunday with the family of Robert Hall in East Hampton.

Miss Nellie Hunt returned on Friday from a visit with friends in East Hampton and Colchester.

The selectmen, treasurer and town auditors meet on Friday of this week to adjust accounts and prepare the town report for publication.

W. H. Yeomans attended the fair at Rockville last week as entry clerk. S. B. West of this place received several premiums for fruit exhibited.

A party of gentlemen from Mansfield and Coventry held a fishery at the reservoir on Friday.

Mr. Henry M. Goodwin of Hartford, who has been spending a few weeks with his sister in this place, has gone to South Deerfield to spend several weeks with his brother-in-law, who is a physician. He goes with the hope of improving his health, which is impaired by the effects of a severe attack of la grippe.

HIS LIFE AT STAKE.

Second Trial of James A. Trefethen Has Begun.

SAME COUNSEL AS FORMER TRIAL.

Public Interest in Case Not Diminished—Incidents of the Opening Day.

BOSTON, Sept. 18.—James Albert Trefethen, who in May, 1892, was convicted of the murder of Tena Davis, and afterward was given another lease of life by the full bench of the supreme court, was placed on trial for the second time this morning in the supreme court at East Cambridge. The justices of the trial are Judge Sherman, who will perform the duties of presiding justice, and Judges Dunbar and Braley

The same counsel also represented both sides of the case at the former trial were present in behalf of their respective interests today. They were Attorney General Pillsbury and ex-District Attorney Cooney for the government, and ex-Governor Long, Marcellus Coggan and William Schofield for the defense. District Attorney Weir, who was also present, did not take an active participation in the trial, but acted in an advisory capacity for the government.

That the public interest in the Trefethen case has not diminished was evidenced this morning by the

Throngs of Curiosity Seekers

who stood guard around the court house and the jail, which is situated just across the street. Their attention was principally confined to the jail door, around which they stood expectantly waiting for the defendant to issue forth and be led to trial.

Many of the spectators attempted to gain an entrance into the court room but their progress was unceremoniously stopped by an Herculean policeman who barred out everybody save the jurors and others having actual business within the judicial precincts. It was wise that this precaution was taken, for there were no less than 108 good men and true summoned as jurors, and when they had seated themselves nothing but standing room remained.

The prisoner entered the courtroom at 9:30 o'clock, escorted by Deputies Fiske and Tracy. His appearance confirmed all of the reports that have recently gained currency concerning his improved condition.

His Countenance Was Cheerful,

and he manifested his good nature by bowing smilingly to the officials whom he recognized.

He wore a black sack suit, a stand up collar and a white knitted tie. Hardly had he taken his seat in the prisoner's enclosure when ex-Governor Long walked over to him and shook hands and engaged in conversation. At 10 o'clock the judges took their places upon the bench and the proceedings were formally commenced.

The list of jurors was then read, and all but eight of those summoned responded

Attorney General Pillsbury, addressing the court, announced that James Albert Trefethen was at the bar ready to be tried upon an indictment charging him with the murder of Deliena J. Davis at Everett on the 23d of December, 1891, and moved that he now be tried, and that ex-District Attorney Cooney, who had acted at the previous trial, had since gone out of office, that he be permitted to act with the counsel for the prosecution. The counsel for defense assented and the motion was granted.

Before the impanelling of the jury commenced, Mr. Schofield, for the defense, had a few remarks to make to the court. He said it was the intention of the defense to raise the question whether the former proceedings made it impossible to proceed in the last three counts of the indictment. It was decided to postpone the consideration of the question till after the jury was impanelled.

Selecting the Jury.

The work of selecting the jury was tedious. The first man drawn was Benjamin J. Sargent. He was asked the regulation questions regarding relationship to the prisoner, prejudice, etc., and was finally challenged by the defendant. Charles Tracy met a similar fate. Arthur D. Kingman said he had formed an opinion and was excused. James McNamara also had formed an opinion. Alonzo E. Tainter had scruples against the death penalty. Joseph Turner was challenged by the government. Charles Nickles did not meet with the approval of the defense.

George Oteley was the first juror sworn in to serve at the trial. He lives in Dracut. Other challenges followed until the jury was completed at 1.10 as follows: Charles Kimball of Winchester, John E. Abbott of Lowell, George Oteley of Dracut, Houghton G. Osgood of Westford, Charles E. Tingley of Medfield, George W. Bishop of Wayland, Richard W. Bunting of Newton, Samuel O. Carter of Stoneham, Elijah S. Grant of Hudson, Amri Barker of Weston and Timothy E. Flarity of Townsend. With the calling of Barker and Flarity, who had been challenged by the defense, the panel had been exhausted. The defense then withdrew its challenge and these two were allowed to take their seats. The court then adjourned to 2 o'clock.

After Recess.

The jury were taken by two bailiffs to a private lodging house in the vicinity of the court house and given their dinner. They returned to the court room at 2.10 p. m. Charles E. Tingley was appointed foreman.

Clerk Hard then read the indictment. Trefethen was seated during the first count and the court requested him to stand. His composure during the reading was masterly. He stood erect, his hands clasped behind his back, his eyes fixed on the clerk and not a muscle did he twitch.

"To this indictment James Albert Trefethen has pleaded not guilty, and for trial puts himself upon the country which country you are. Gentlemen harken to the witness!" Thus spoke the clerk to the jury. Mr. Schofield said that counsel for the government and defendant had agreed to let all objections to the indictment stand until tomorrow morning.

Ex-District Attorney Cooney then proceeded with the opening statement of the government case.

NEW PENSION SCHEME.

Proposition to Pay Them In Full by Hudson of Kansas.

WASHINGTON, Sept. 18.—A bill proposing the payment and settlement in full of pensions growing out of the late war of the rebellion has been introduced in the house by Representative Hudson of Kansas.

It provides that any pensioner may surrender his certificate and receive in full payment of all claims against the government, on account thereof, 10 times the annual payment thereon. These payments shall be made in legal tender greenbacks, redeemable after five years in coin. This act shall not apply to the obligations of the government toward minor children of deceased soldiers now on the pension rolls. Widows and minor children of pensioners who shall surrender their certificates under this act shall not be entitled to receive other pension.

CANADA'S RULER.

Lord Aberdeen Takes the Oath and Assumes the Duties.

QUEBEC, Sept. 18.—The city is alive with patriotism today. The new governor general has been sworn in, and Lord Aberdeen is now the head of the government of Canada. The ceremony of taking the oath of office was a very impressive one.

Lord Aberdeen was installed governor general in the parliament house, being sworn by Chief Justice Strong of the supreme court. He then received addresses of welcome from the mayor and citizens of Quebec and from Irish national societies.

Lord and Lady Aberdeen arrived here yesterday by the steamship Sardinia. The new governor general and his wife are attended by a large and brilliant staff, consisting of three aides-de-camp and three secretaries, etc.

They were escorted to vice regal quarters in the citadel by the queen's own Canadian hussars, their carriages which preceded them being driven from the wharf to the citadel by postilions.

General Sir Montgomery Moore, who has been the administrator of the Canadian government since Earl Derby's departure, met the governor general at the steamer, attended by General Herbert, commanding Canadian forces; Sir John Thompson, prime minister of Canada, and nearly all the cabinet ministers.

RAILROAD WRECKERS.

Bill to Exterminate Them Introduced in Congress by Ohio Man

WASHINGTON, Sept. 18.—The bill which Representative John Caldwell of Ohio has introduced into the house to extirpate the increasing practice of holding up and wrecking railroad trains provides that any person who displaces or removes a railway switch, cross tie or rail, or injures a road track or bridge, or does or causes to be done, any act whereby a locomotive, car or train of cars is stopped, obstructed or injured, with intent to rob or injure the person or property passing over any railroad engaged in interstate commerce, and where in consequence of such acts any person is killed, shall be guilty of murder.

If the attempt does not result in murder the guilty person, on conviction shall be imprisoned at hard labor at from one to 20 years. The same penalty is made to attach to conviction of a charge of throwing anything against a train, or causing anything to fall against it, with intent to rob or injure any person or property on such train.

Circuit and district courts of the United States are given jurisdiction of all cases arising under the act. The bill has been referred to the committee on interstate commerce.

GIVEN HER FREEDOM.

Mrs. Anna M. Makepeace Released From Further Trial For Murder.

DEDHAM, Mass., Sept. 18.—Mrs. Anna Marion Makepeace, who is now in jail here, will not be tried a third time for the crime of manslaughter, the shooting of her husband, Clarence E. Makepeace, at Avon, Sept. 26, 1891.

The case against her was nol prossed this noon by District Attorney Harris, who gives as his reasons that there is no new evidence in her case, no possibility of any being obtained, and that as there has been two disagreements he does not care to put the county of Norfolk to the expense of a third trial, with no probability of a conviction.

In the first the jury disagreed, standing 8 to 4 in favor of conviction, and at the second 4 to 8 for conviction. Mrs. Makepeace always maintained that the discharge of the gun which killed her husband was an accident, and that she had no knowledge that her husband was in the house at the time.

TAUNTON ROBBERS.

Gang of Thieves Break In Doors and Steal Money and Watch.

TAUNTON, Mass., Sept. 18.—Ten young men living in ward 8 raided the house of Benjamin Ditterich, on Whittenton street last night, and broke in the doors and windows, smashed lamps and furniture, and stole $45 and a watch.

One of the gang, Thomas Hagan, was captured a short time afterward and the names of the others were obtained. Hagan was arraigned in court this morning, but a continuance was asked until Thursday, when the police hope to have the whole gang in.

Andrew O'Neil was caught as he was trying to crawl in at the window of a house in the neighborhood on Saturday night, but he was drunk at the time, and was released this morning on the payment of a small fine.

NEWS IN BRIEF.

A new library at Hartford, Vt., was dedicated.

There is general alarm over the approach of cholera in England.

Valuable mineral deposits were found in Echo grove on the Saugus (Mass.) river.

The international conference of anarchists at Chicago has been postponed for two weeks.

The body of Alexander Malentant was found in the canal at Lewiston, Me. Probably a case of suicide.

Henry Hines, aged 45, a well-known business man of Lewiston, Me., died suddenly of inflammation of the bowels.

Dr. Moore of the National Bank of the Commonwealth of Manchester, N. H., denies certain charges made by Senator Chandler.

A compromise has been arranged between Wallace & Sons of Ansonia, Conn., and the buffers' department has resumed operations.

Yellow fever is declared epidemic at Brunswick, Ga. Frightened people are prevented by shotgun quarantine on every road from leaving the city.

Nathan Phelps, 28 years old, of Saybrook, Conn., a brakeman, while jumping from a high car to a flat car, fell under the wheels. His recovery is doubtful.

Mrs. Richard Doyle of Saybrook, Conn., gave birth to a child a few days since which is said to break all medical records at such events, its weight being 19 pounds.

John A. Wright, a well known business man of Keene, N. H., who started for the World's fair a few days ago, was prostrated with a paralytic shock while on the way.

Two of the largest factories in Connecticut will resume business on full time this week. They are the Barnes Bros.' corset factory and the firm of Langdon, Batcheller & Co. of Bridgeport.

Old Merchant Dead.

NASHUA, N. H., Sept. 18.—James M. Perry, one of the oldest merchants of this city, died suddenly this morning of heart disease, aged 85 years. He had been quite prominent in the Democratic party, and had been a member of the board of education and held other city offices.

Murdered on the Strip.

KEANSBURG, N. J., Sept. 18.—John R. Hill, who was shot and killed Saturday on the border of the Cherokee strip, was one of the wealthiest men here. He was born and educated near New Haven, and made his fortune in the oil regions of Pennsylvania and Ohio.

THE BEAUTEOUS BEGINNER.

She stands all sweet and tremulous
Before our ravished sight,
In dainty garb, a vision fair
Of youth and beauty bright.
A ribboned essay in her hand
She trembling holds and reads
Its sage reflections as to what
Humanity most needs.

She is so fair, so sweet, so pure,
As we behold her there,
That who of us heare what she says,
Or who of us can care
If all her thoughts are all her own
Or taken from some book,
Or if her practical mamma
Has taught her how to cook?
—Somerville Journal.

WOMAN'S WORLD.

NEW BRANCHES IN THE CHAUTAUQUAN CURRICULUM.

Putting Away Summer Clothing—A Dispute Over Woman's Endurance—Helping Unfortunate Horses—Kissed by Bismarck—A Few Timely Hints.

Into the Chautauquan curriculum this season two new branches have been introduced. One is the fine art of setting a table, and the other the almost extinct art of letter writing.

Many is the mistress and multitudinous the maid who doesn't know how to set a table or how to wait on it when set. Of this variety is the mistress whose guests are always finding themselves short of a fork or a spoon; whose daintiest dishes go unappreciated for the lack of the pinch of salt or sugar or pepper or mustard which individual palates crave, but tact will not ask for. Of this variety, too, is the maid whose mistress not long ago gave a Sunday evening dinner. The maid had been engaged only the day before, but as she was recommended as "a first class servant in every respect" the mistress felt a good deal of confidence in her. The dinner moved on quite smoothly to the very end, and at last, with an inward sigh of relief that it was over, the hostess said to the new girl:

"Fill the sugar bowls, Sarah."

"What'll I fill 'um with, ma'am?" asked the competent maid.

Of course the hostess was unmercifully chaffed by her delighted guests.

The art of writing a letter is even less understood than the art of setting a table. Between the boorish method of accepting an invitation by means of a postal card and the dainty, perfumed note couched in the most graceful terms there is a wide distance, and much of it is a howling wilderness. The mere technique, as it were, of letter writing is little known or else is grossly neglected. A certain young woman whom the writer knows failed to secure a desirable appointment as teacher in a Fifth avenue boarding school simply because she wrote her application with such disregard of the rules of correspondence.

The principal had been much prepossessed in the young woman's favor and had suggested that she write a formal application. She did so. It ran like this at the beginning:

MY DEAR DR. —: I am very anxious, etc.

"That's enough!" said the principal, folding the letter. "Any-one who is too careless or too busy to supply the proper pronouns in such a communication is too careless or too busy to teach my pupils."

Miss Calloway, who has taught letter writing at Chautauqua this year, has not only attempted to teach the proper form, but has tried to instill some ideas as to matter into her pupils' heads. The correspondents of the pupils assert she has been successful.—New York Sun.

Putting Away Summer Clothing.

It is an accepted fact among women, founded upon good reason, that when one's belongings are valuable and costly the services of a maid are not a luxury, but a necessity and really an economy. Delicate fabrics need great care in handling and preserving, and fine boots, shoes, gloves and handkerchiefs are not to be tossed about carelessly and still preserve their freshness. But without a maid and with a comparatively simple wardrobe a meed of care even will be found a great protection.

In putting away summer wash dresses they must be rough dried, then folded and packed in a box or trunk by themselves. It is an excellent idea to go over each one and take the few mending stitches that are sure to be needed. Challies, crepons and summer silks should be carefully shaken and brushed, spots sponged, bows of ribbon taken off and unmade if possible, or the dust carefully wiped off with a bit of silk dipped in weak ammonia water and packed away in separate boxes. The same rule applies where laces trim the dresses. If these are washable, they should be washed, otherwise shaken and wound around a bottle or wooden roll.

It is a good plan to let the dresses hang wrong side out in the air all of a sunny morning—if you live in a hotel to hang in a hot room the same length of time is a good substitute. Rumpled ruches, shields and bent bones should be taken from the waists, and a skilled maid says the waist linings should be brushed down, every seam, with cologne and water. Feathers and flowers should be taken from the hats and bonnets, wrapped carefully and separately in tissue paper and consigned to boxes where they will not be crushed. The flowers should have each leaf pulled out, and if breathed on before using again will be found as fresh as ever. Parasols ought to be rolled, but have a loose slip cover put on after they are carefully wiped, or if gauze flirted free of dust with a silk handkerchief, and then stood in some safe place and occasionally opened to alter the folds.—Pittsburg Dispatch.

To draw linen threads for hemstitching, take a lather brush, and soap and lather well the part where the threads are to be drawn. Let the linen dry, and the thread will come out easily, even in the finest linen.

An Oregon (Ills.) young woman is making a crazy quilt of the silk ties which have been given her by her devoted admirers. Her pillows are to be stuffed with their love letters.

Those in search of novel luncheon dainties should try the peanut sandwich. Be sure the peanuts are freshly roasted. Chop fine and spread between slices of buttered bread, cut very thin.

Woman's Endurance.

Herbert Spencer said recently of a woman who had died early in life, after the production of some remarkable essays on "Induction" and "Deduction," that "mental powers so highly developed in a woman are abnormal, and involve a physiological cost that the feminine organization cannot bear without injury more or less profound." To which Mrs. Elizabeth Cady Stanton replies that Darwin was an invalid all his days, and that Mr. Spencer's own health is not all that could be desired or his physical being as rugged as it would have been if he had devoted his life to simple care and toil.

Mrs. Stanton mentions among women writers that have lived healthy lives and died at a good old age, after doing much thinking and a good deal of hard work, Caroline Herschel, Maria Mitchell, George Eliot, George Sand, Harriet Martineau and Frances Power Cobbe, and she concludes her argument with: "I doubt whether as many women die annually from writing essays on 'Induction' and 'Deduction' as from overproduction of a family, and yet no flags of danger are raised on the housetops where mothers of a dozen children languish and die, or on workshops where multitudes of women labor from 14 to 16 hours a day."—New York Sun.

Helping Unfortunate Horses.

"What are you doing to that horse?"

The spectacle of a graceful and neatly dressed young woman calmly rearranging the headgear of a worried horse is apt to excite remark even from the driver of a vegetable peddler's wagon.
